

June 3, 2022

Dear Middle School Families,

While summer is a wonderful time to relax and have fun, it's also important that our students stay sharp in terms of academics! **Rising 5th-8th grade students** have two packets of summer work to download: one for reading and one for math.

A few notes on math: The content in the math packets generally reflects content that was covered during this past school year. Please let your children know not to worry if they encounter a problem or two that isn't familiar; they should just make their best attempt! An additional note for rising 8th graders: Three different math packets are listed below for rising 8th grade students. These students should select and complete the math packet that is labeled with their 7th grade math teacher's name.

The reading and math links follow below:

READING

[Click here for 6th Grade math packet.](#)

[Click here for 7th Grade math packet.](#)

[Click here for 8th Graders who took Ms. Forsyth's math class.](#)

[Click here for 8th Graders who took Mr. Thompson's math class.](#)

[Click here for 8th Graders who took Mrs. Woolard's math class.](#)

Should you have any questions regarding these summer packets, please feel free to **[email me](#)** or call the school at 278-0200. Textbook purchase and buyback lists will be shared very soon, and additional information regarding the coming school year will be shared throughout the summer, so please check your email periodically for updates. We wish you a safe and enjoyable summer, and look forward to welcoming you to campus in August!

Sincerely,

Ellen Hendry
Head of Middle School
