As listed in the index at the front of this document, prepared by Drummey Rosane Anderson Architects, Inc., and Consulting Engineering Services, Inc.

1. SPECIFICATIONS

The Specific Section(s) being quoted by Contractor and all other Specifications for the Project as prepared by the Architect or Engineer and included herein.

"General Conditions of the Contract for Furniture, Furnishings and Equipment."

2. DEFINITIONS

Plan and Specification reference to “Contractor” means the Subcontractor performing work under that specific Specification Section.

The contracts, plans, specifications and this Invitation to Bid are considered to be complimentary and a single package. Information contained in one area or aspect is considered to be applicable throughout the entirety of the package. Conflicts between different portions of the package are to taken as requiring provision of the more expensive item or service, unless otherwise directed or clarified through an Addendum or Supplementary Instruction.

Specification reference to “provide” means to furnish and install unless otherwise noted.

3. BID FORM

Bid to be itemized by Category unless otherwise noted, in the format enclosed herein, with no escalation clauses allowed.

Bidders shall also fill in prices for each item on the attached Itemized Category Summary Sheets. Substitutions, “or Equals”, if applicable shall be noted by Bidder. **Itemized Category Summary Sheets and the Bid Form must be submitted in duplicate.**

The Owner may elect to award a contract to other than the lowest bidder if it is considered to be in the best interest of the Owner. After review of all factors, terms and conditions, including price, the purchasing authority of the Town of Ellington reserves the right to reject any and all bids, or any part thereof, or waive defects in same, or accept any proposal deemed to be in the best interest of the Town of Ellington. Under no circumstances will the Owner be responsible for the cost of preparing any bid or proposal.

Pricing for Items purchased as additional to the original quantity will be provided at the lowest price offered within the bid, with no allowance for escalation or other costs.

4. BID DELIVERY AND DUE DATE

Quotations are to be furnished in a sealed envelope delivered to:

Town of Ellington
Ms. Tiffany Pignataro, CPA, MBA, Finance Officer, Treasurer
Ellington Town Hall, Finance Office
55 Main Street
Ellington, CT 06029

with Bidder’s name written on the outside of the envelope.

The envelope should also be marked “Windermere Elementary School, Project No. 22117.00, State Project No. 048-0060 RNV, FF&E Bid”. The bid category must also be clearly designated on the envelope.

A. Bids are to be delivered no later than 2pm on July 10th, 2024.

5. TERMS OF PAYMENT

For each Installation Phase the Contractor shall notify Owner, Architect, and Engineer two (2) days in advance of completion of the installation of their product. Contractor shall prepare and submit a room-by-room listing of items delivered and installed, a punchlist of items that have been provided but require adjustment or repair, as well as a listing of any items that have not yet been provided or installed which are part of the Installation Phase.

Owner, Architect, and Engineer (as appropriate) shall arrange to visit the project site to review installation and confirm completeness of the Contractor's Installation Listing, Punchlist, and missing item inventory.

Upon acceptance by the Owner of the Contractor's submitted lists and items that have been installed, the Contractor shall submit a payment requisition reflecting the items deemed complete and acceptable to the Owner.

Payment requisitions are reviewed and acted upon at the Building Committee's monthly meeting. Upon approval by the Building Committee payment will be made to the Contractor with thirty (30) days.

6. SCHEDULE

Contractor shall notify Owner ten (10) days in advance of delivery. Time is of the essence of the Contract. Completion of Work included in the Invitation in accordance with the Project Schedule is absolutely essential to the use and occupancy of the Project for the Owner's operations. Contractor is to include in its quotations all costs, extra crews, equipment, warehousing, etc. as required to meet schedule.

Furniture is to be delivered and installed:

Phase I to be delivered and installed beginning November 25, 2024. All furniture of this phase must be delivered, installed and acceptable to the Owner not later than December 20, 2024.

Phase 2 is scheduled to be delivered and installed, beginning August 24, 2025 with completion not later than August 30, 2025. No storage, mobilization, transportation, or fees of any type will be acceptable to the Owner or Contractor or supplier accommodating this schedule.

Phase 3 is scheduled to be delivered and installed, beginning December 1, 2025 with completion not later than December 15, 2025. No storage, mobilization, transportation, or fees of any type will be acceptable to the Owner or Contractor or supplier accommodating this schedule.

The selected Vendor(s) shall set forth a detailed schedule, including deliveries and field installation as proposed to meet schedule. Such schedule shall be compatible with Construction Project Schedule. Contractor shall notify Owner ten (10) days in advance of delivery. As a major part of bid analysis, each Bidder may be asked to describe in detail how it would furnish and install its portion of the Project, schedule, manpower, deliveries, etc. This would be done shortly after receipt of bids.

If Contractor is behind schedule through fault of no one but itself, it shall add manpower and/or work overtime as required by **Owner** in order to regain schedule. No compensation for such overtime or added manpower will be made. If Contractor is required by **Owner** to work overtime for the convenience of the Project, such overtime premium costs will be compensated except that no overhead or profit will be allowed on the premium portion of these costs.

7. Questions concerning this FF&E / TS&E Procurement shall be directed via email only to Greg Smolley at gsmolley@draws.com until **noon on 3rd of July 2024,** questions posted after that date and time will not be answered. An Addendum shall be posted by **2pm on 8th of July 2024.** Bidders shall be responsible to check the websites for any Addendum.

8. COORDINATION AND JURISDICTION

The Contractor shall coordinate its work with that of other trades at all times.

9. PARKING AND ACCESS

Parking of workers', supervisors', or management employees' cars will be allowed on the site only in designated areas (except with the specific approval of **Construction Manager** and Owner in advance). Trucks will be allowed on the actual project site only to make deliveries of material, tools, or equipment and must then leave promptly unless being used as a tool of the trade.

No storage of material or product will be allowed on-site, whether in vehicles, trucks, trailers, storage containers, within the building or in any other manner, unless prior approval from the Construction Manager, Architect, or Owner's Representative has been received.

10. OTHER OPERATIONS

Vendor shall do all things necessary to keep noise, vibration and disruption to an absolute minimum.

All work to be done inside the **Windermere Elementary School** or in adjacent areas is to be coordinated and approved in advance with the Owner and **Construction Manager**. The operations of the school or construction of the project is not to be disrupted or affected.

11. CLEAN UP

At the end of each workday, clean up and removal of rubbish is the responsibility of the Contractor. The Contractor shall be responsible for proper disposal of all packing and crating materials off---site. Cooperation among Subcontractors is required and expected regarding cleaning of general litter. Buildings are to be kept clean at all times and failure of the Vendor in this regard will result in back charges from the Owner for cleaning. Vendor shall broom clean area where they have been working.

12. INSURANCE

The Vendor shall purchase from and maintain in a company or companies lawfully authorized to do business in the jurisdiction where the project is located. This insurance will protect the Vendor and Owner from claims set forth below which may arise out of or result from the Vendor's operation and completed operations under the Contract:

1. Claims under workers' compensation, disability and similar employee benefits;
2. Claims for damages because of bodily injury, occupational sickness or death of the Vendor's employee;
3. Claims for damages because of bodily injury, occupational sickness or death other than Vendor's employee;
4. Claims for damages insured by usual personal injury liability;
5. Claims for damages, other than the work itself, because of destruction of property, including loss of that tangible property;
6. Claims for damages of bodily injury or death from use/ownership/maintenance of Motor Vehicle;
7. Claims for bodily injury/death/property damage from the completed work;
8. Claims for product liability and complete work insurance.
9. Workers Compensation Insurance:
    - Per Connecticut Statute Commercial General Liability Insurance (1993 Form or equivalent)
    - $1,000,000 per occurrence and/or aggregate
    - Include personal injury, bodily injury, property damage, product/completed operations, contractual liability
    - Delete all explosion, collapse and underground exclusions, if applicable
    - Per contract/project aggregate desirable
10. Motor Vehicle Liability Insurance:
    - $1,000,000 per occurrence for bodily injury and property damage
    - Includes owned, non-owned and/or aggregate
    - Professional Liability Insurance (if applicable)
    - $1,000,000 per claim and/or aggregate Umbrella/Excess Liability
    - $1,000,000 per occurrence and/or aggregate

11. Note! All General Contractors are responsible for assuring that all of its sub-contractors have similar coverage and limits.
    - The Town will rely upon the General Contractor to obtain these assurances as it cannot do so. General Requirements:
12. Insurer must have an A. M. Best rating of at least A-/VII and be licensed to do business in Connecticut
13. All policies must have a 30 day advance written notice requirement with any such notice to be sent to Tiffany Pignataro, Ellington Finance Officer, P.O. Box 187, Ellington, CT 06029
14. Certificates of Insurance must be presented at or before signing of any contract.
15. The Town of Ellington and such other town agency as may be appropriate shall be named as an additional insured on each policy.

The Contractor shall provide insurance coverage for portions of the Furniture, Furnishings and Equipment stored off---site after written approval of the Owner at the value established in the approval and also for portions of the Furniture, Furnishings and Equipment in transit.

13. PROTECTION AGAINST LOSS AND DAMAGE

The Vendor shall protect and secure its materials and equipment against loss, including theft. The Construction Manager will not accept any claim for alleged theft. Contractor will protect its work from damage until its work is complete for the entire project.

14. COST BREAKDOWNS

Owner will require certain cost breakdowns for budget purposes. Provide unit costs as outlined in the Schedule of Furniture Items. Also, Contractor's billing Schedule of Values shall be submitted to the Owner in advance of first requisition for approval.

15. SUBSTITUTIONS (OR EQUALS)

Bidders may submit proposals for substitutions. Substitutes will be considered. The specified items are the items the Owner desires to procure; therefore, the bidder will be responsible for proving the proposed substitution is equal or superior to specified item. Substitutes must be filled in for each item on the attached Furniture Specifications and Itemized Category Summary Sheets. If the Bidder proposes to provide substitutes, the Bidder shall submit a photograph, finish selection samples, and written specifications and warranties of the proposed substitution with the Bid. If requested the bidder shall provide samples.

16. NO BID ITEMS

If a Contractor fails to bid on all items listed in a category of the Itemized Category Summary Sheets, his bid may be disqualified. Contractors may bid on one category, or on more than one category (combined bid), but partial bids in a category may be rejected.

17. SALES TAX

This project is exempt from Connecticut Sales Tax.

18. REQUIREMENTS/ADDITIONAL INSTRUCTIONS

Items purchased through State Contracts will be subject to all contractual requirements of the particular State Contracts.

Items purchased through open bids will be procured through Town Purchase Orders and will be subject to all contractual requirements of said Purchase Orders.

19. PRICING HOLD

Owner reserves the right to purchase additional items at the bid cost with no increase to freight or escalation of cost up to 12 months after final payment is sent to Vendor.

Padded Frog Swing Seat, Not Shown
#1927

The Frog Swing is one of the most popular swings for clinical and home use for providing proprioceptive stimulation and vertical movement.

The Frog Swing has a wood crossbeam that allows it to be adapted for a working load of 150 lbs. The Frog Swing comes with three single vertical stimulation loops for an initial working load of up to 90 lbs. These loops can be removed to provide a greater bounce for younger clients. You can easily increase the working load to 120 or even 150 lbs. by simply adding more loops.

Dimensions: 56"H

Working Load: 90 lbs. (up to 150 lbs. with additional VSDs)

EQUIPMENT: Landscapeforms Grasshopper Bench	ITEM NUMBER: **U4**

ROOM NUMBER	ROOM NAME	QUANTITY
	Outdoor Classroom at North end	08
	TOTAL QUANTITY	08

MAKE & MODEL: Landscapeforms Grasshopper Bench
DIMENSION: 63” l x 18” d x 18” h

DESCRIPTION: The Grasshopper bench stretches Slimconcrete® technology to its limit. Ultra-thin concrete; curved, elongated forms; and a smooth surface create a dynamic and light appearance. The Grasshopper bench is backless and can be used as a stand-alone or as a seating element of the Grasshopper table. Constructed of Slimconcrete® (UHPC), the bench is 100%recyclable material. Bench is anchored to ground with screws. Slimconcrete® is the trademarked name used by Escofet for its ultra-high performance cast stone, a recipe in which the aggregate contains reinforcing elements such as fiberglass. Slimconcrete® is a highly engineered material that enables casting of lighter weight, thin-profile forms with exceptional strength and high resistance to compression, bending, impact and wear. Color and finish to be selected by the architect.

RE: **STATE PROJECT NO. 048-0060 RNV**
ELLINGTON - WINDERMERE ELEMENTARY SCHOOL -
PHASE 3 OF 3 - TECHNOLOGY DETAILED
PROJECT SCOPE LETTER

TECHNOLOGY EQUIPMENT

This phase of the project consists of procuring equipment related to the building's technology systems. In general, this consists of products that are used for distributing internet and local area network connectivity throughout the building, and for enhancing the educational experience for both students and teachers. More specifically, the technology equipment shall include the following:

- Wireless Access Devices
- Interactive Touchscreen Displays in classrooms & related computer equipment
- Digital Signage, conferencing systems, Projector, Projector screens
- Document Cameras
- DVD Players for teacher use
- Student Chromebooks
- Student Tablets
- Charging Carts for both Chromebooks and Tablets
- Teacher laptops, docking stations, and associated accessories
- Network switches, servers, uninterruptible power supplies, and associated accessories
- Phone system handsets and head-end equipment
- Printers
- Operational program software, wireless area network infrastructure equipment

The scope of this project shall include furnishing and installing technology equipment. Many of the above referenced items will require installation by certified vendors, which will be outlined in the item data sheets and specifications. Procurement of the above mentioned items will be

achieved via a combination of publicly bid contract documents and execution of state contracts. Method of procurement will be outlined in the specifications for each individual item.

Items eligible for state reimbursement will consist of the following:

- Wireless Access Equipment (devices only)
- Audio-Video Displays and associated installation methods, including patch cords.
    - Interactive displays, signage, monitors in public areas, projectors, projector screens & conferencing systems
    - Note that classroom audio-video cabling and sound reinforcement equipment is included in project base contract and is not in scope.
- Network switches, servers, uninterruptible power supplies, and associated accessories
- Phone system handsets and head-end equipment
- Printers
- Laptop racks/chargers for Chromebooks and tablets
- Cables & accessories necessary for installation of equipment listed above

Items ineligible for state reimbursement will consist of the following:

- Wireless Access Licensing
- Document Cameras
- DVD Players for teacher use
- Student Chromebooks
- Student Tablets
- Teacher laptops, docking stations, and associated accessories
- Non-perpetual licensing for the voice-over-IP system
- Projectors
- Cables & accessories necessary for installation of equipment listed above

This phase of the project will not include any Allowances.

This phase of the project will not include Alternates.

All contingencies for this phase of the project will be tracked by Arcadis Construction Managers.

Sincerely,

Steven J. Somwaru

1.2 DESCRIPTION

A. The General Conditions and Supplementary General Conditions are a part of this Division and are to be considered a part of this Contract.

B. Where items of the General Conditions and Supplementary General Conditions are repeated in other Sections of the Specifications, it is merely intended to qualify or to call particular attention to them. It is not intended that any other parts of the General Conditions and Supplementary General Conditions shall be assumed to be omitted if not repeated therein. This Section applies equally and specifically to all Contractors supplying labor and/or equipment and/or materials. Where conflicts exist between the drawings and the specifications or between this section of the specifications and other sections, the more stringent or higher cost option shall apply.

1.3 INTENT

A. This contract is for all labor, materials and equipment required for installation. The system shall be complete and finished in all respects, tested and ready for operation. Work shall include calibration of equipment with factory settings. All materials, equipment and apparatus shall be new and of first class quality.

B. Any apparatus, appliance, material or work not shown on drawings but mentioned in the specifications, or vice versa, or any incidental accessories necessary to make the work complete and perfect in all respects and ready for operation as determined by good trade practice even if not particularly specified, shall be furnished, delivered and installed under their respective Divisions without any additional expense to the Owner.

C. Minor details not usually shown or specified but necessary for proper installation and operation shall be included in the work as though they were hereinafter shown or specified.

D. Work under each Section shall include giving written notice to the Owner and Engineer of any materials or apparatus believed inadequate or unsuitable; in violation of laws, ordinances, rules or regulations of authorities having jurisdiction; and any necessary items of work omitted. In the absence of such written notice, it is mutually agreed that work under each Section has included the cost of all required items for the accepted, satisfactory functioning of the entire system without extra compensation.

E. Wherever a particular piece of equipment, device or material is specifically indicated on the Drawings by model number, type, series or other means, that specification shall take precedence over equipment or materials specified herein. For example: If a particular switch is specified on the Drawings, its specification takes precedence over switch specified herein.

1.4 DEFINITIONS

A. Word “Subcontractor” means specifically the subcontractor working under this Division. Other Contractors are specifically designated “Plumbing Subcontractor”, “General Contractor” and so on. Note: Take care to ascertain limits of responsibility for connecting equipment which requires connections by two or more trades.

B. Word “install” shall mean set in place complete with all mounting facilities and connections as necessary ready for normal use or service.

C. Words “furnish” or “supply” shall mean purchase, deliver to, and off-load at the job site, all ready to be installed including where appropriate all necessary interim storage and protection.

D. Word “provide” shall mean furnish (or supply) and install as necessary.

E. Word “finished” refers to all rooms and areas scheduled to be painted in Room Finish Schedule on the drawings. All rooms and areas not covered in Schedule, including

underground tunnels and areas above ceilings shall be considered not finished, unless otherwise noted.

F. No Exceptions Taken – reviewed and determined to be in general conformance with contract documents.

G. Words “approved equal” mean any product which in the opinion of the Engineer is equal in quality, arrangement, appearance, and performance to the product specified.

H. Word “wiring” shall mean cable assembly, raceway, conductors, fittings and any other necessary accessories to make a complete wiring system. Word “product” shall mean any item of equipment, material, fixture, apparatus, appliance or accessory installed under this Division.

I. Substitutions: Requests for changes in products, materials, equipment, and methods of construction required by Contract Documents proposed by the Contractor after award of the Contract are considered requests for "substitutions."

J. Indicated: The term "indicated" refers to graphic representations, notes, or schedules on the Drawings, other paragraphs or schedules in the Specifications, and similar requirements in the Contract Documents. Where terms such as "shown," "noted," "scheduled," and "specified" are used, it is to help the reader locate the reference; no limitation on location is intended.

K. Directed: Terms such as "directed," "requested," "authorized," "selected," "approved," "required," and "permitted" mean "directed by the Engineer," "requested by the Engineer," and similar phrases.

L. Approve: The term "approved," where used in conjunction with the Engineer's action on the Contractor's submittals, applications, and requests, is limited to the Engineer's duties and responsibilities as stated in General and Supplementary Conditions.

M. Regulation: The term "Regulations" includes laws, ordinances, statutes, and lawful orders issued by authorities having jurisdiction, as well as rules, conventions, and agreements within the construction industry that control performance of the Work.

N. Remove: The term “remove” means “to disconnect from its present position, remove from the premises and to dispose of in a legal manner.”

O. Standard Product Warranties are preprinted written warranties published by individual manufacturers for particular products and are specifically endorsed by the manufacturer to the Owner.

P. Special Warranties are written warranties required by or incorporated in the Contract Documents, either to extend time limits provided by standard warranties or to provide greater rights for the Owner.

1.5 DRAWINGS

A. Drawings are diagrammatic and indicate the general arrangement of systems and work included in the Contract. Consult the Architectural Drawings and Details for exact location of fixtures and equipment; where same are not definitely located, obtain this information from the Architect. (Do not scale the drawings)

B. Work under each Section shall closely follow Drawings in layout of work; check Drawings of other Divisions to verify spaces in which work will be installed. Maintain maximum headroom; where space conditions appear inadequate, Owner and Engineer shall be notified before proceeding with installations.

C. The Owner may, without extra charge, make reasonable modifications in the layout as needed to prevent conflict with work of other trades and/or for proper execution of the work.

D. Where variances occur between the Drawings and Specifications or within either of the Documents, the item or arrangement of better quality, higher rating, or higher value shall be included in the Contract price. The Owner and Engineer shall decide on the item and the manner in which the work shall be installed.

1.6 SURVEYS AND MEASUREMENTS

A. Before submitting his Bid, the Contractors shall visit the site and become thoroughly familiar with all existing conditions under which his work will be installed. This Contract includes all modifications of existing systems required for the installation of new equipment. This Contract includes all necessary offsets, transitions and modifications required to install all new equipment in existing spaces. All new and existing equipment and systems shall be fully operational under this Contract before the job is considered complete. The Contractors shall be held responsible for any assumptions he makes, any omissions or errors he makes as a result of his failure to become fully familiar with the existing conditions at the site and the Contract Documents.

B. The Contractor shall base all measurements, both horizontal and vertical, from established bench marks. All work shall agree with these established lines and levels. Verify all measurements at the site and check the correctness of same as related to the work.

C. Should the Contractor discover any discrepancies between actual measurements and those indicated which prevent following good practice or which interfere with the intent of the Drawings and Specifications, the Engineer will be notified and work will not proceed until instructions from the Engineer are received.

1.7 PERMITS AND FEES

A. The Contractor shall give all necessary notices, obtain all permits; and pay all Government and State sales taxes and fees where applicable, and other costs, file all necessary Drawings, prepare all documents and obtain all necessary approvals of all

Governmental and State departments having jurisdiction, obtain all required certificates of inspection for his work, and deliver a copy to the Owner and Engineer before request for acceptance and final payment for the work.

1.8 TERMS OF PAYMENT

A. Contractor shall notify Owner ten (10) days in advance of delivery. A five percent (5%) retainer will be withheld by Owner until fifty percent (50%) of Contractor's work is complete and billed at which time (if Work is satisfactory to Owner and Architect and with the consent of Contractor's surety, if any) no further retainer will be withheld on subsequent bills; the intent being to withhold five percent (5%) of the total Contract price, as amended, at the time of completion of Contractor's work. Retainer will be withheld until occupancy and acceptance of building and satisfactory completion of Contractor's work including all punch list items and submissions of all required record documents and guarantees. In certain cases, Owner may consider early release or reduction of retainer upon written request of Contractor and if Consent of Surety is provided.

1.9 SCHEDULE

A. Time is of the essence of the Contract. Completion of Work included in the Invitation in accordance with the Project Schedule is absolutely essential to the use and occupancy of the Project for the Owner's operations. Contractor is to include in its quotations all costs, extra crews, equipment, warehousing, etc. as required to meet schedule.

B. Technology equipment is to be delivered and installed: **September 2024**

C. The selected Contractor(s) shall set forth a detailed schedule, including deliveries and field installation as proposed to meet schedule. Such schedule shall be compatible with Construction Project Schedule. Contractor shall notify Owner ten (10) days in advance of delivery. As a major part of bid analysis, each Bidder may be asked to describe in detail how it would furnish and install its portion of the Project, schedule, manpower, deliveries, etc. This would be done shortly after receipt of bids.

D. If Contractor is behind schedule through fault of no one but itself, it shall add manpower and/or work overtime as required by Construction Manager in order to regain schedule. No compensation for such overtime or added manpower will be made. If Contractor is required by Construction Manager to work overtime for the convenience of the Project, such overtime premium costs will be compensated except that no overhead or profit will be allowed on the premium portion of these costs. Note that Contractor will be required to purchase and submit for approval all critical materials and equipment immediately and that at some time during the schedule subcontractor may be required to perform work out of normal sequence.

E. Subcontractors whose work normally is coordinated with others should make themselves aware of others' work scope.

1.10 SITE VISIT

A. The Contractor acknowledges that prior to furnishing a proposal for the Work, it has visited the site and is familiar with conditions at the site and in the locality where the Work is to be performed which could affect its work. Selected contractor may be required to attend a pre-installation meeting.

1.11 PARKING AND ACCESS

A. Parking of workers', supervisors', or management employees' cars will be allowed on the site only in designated areas (except with the specific approval of Construction Manager and Owner in advance). Trucks will be allowed on the actual project site only to make deliveries of material, tools, or equipment and must then leave promptly unless being used as a tool of the trade.

1.12 OPERATIONS

A. Contractor shall do all things necessary to keep noise, vibration and disruption to an absolute minimum.

B. All work to be done inside the Pleasant Valley Elementary School or in adjacent areas is to be coordinated and approved in advance with the Owner and Construction Manager. The operations of the school or construction of the project is not to be disrupted or affected.

1.13 SCAFFOLDING, STAGING AND HOISTING

A. Contractor shall obtain required permits for, and provide scaffolds, staging and other similar raised platforms required to access and execute the Work of this trade.

1. Scaffolding and staging required for use by the Contractor shall be furnished, erected, maintained in a safe condition, and dismantled when no longer required, by the trade requiring such scaffolding and staging.

2. Enclose all exterior scaffolding or staging outside of the construction fence with 8 foot height plywood enclosure at the end of each work day to prohibit unauthorized access to the scaffolding or staging.

3. Portable ladders and mobile platforms of all required heights shall also be provided.

B. Contractor shall obtain required permits for, and provide all hoisting machinery, rigging devices, crane services, and lift equipment required to access and execute the work of this trade.

C. All hoisting machinery, rigging devices, crane services, and lift equipment shall be furnished, installed, operated, maintained in safe conditions, and dismantled when no longer required, by the trade requiring such equipment or service.

1.14 CLEAN UP

A. At the end of each work day, clean up and removal of rubbish is the responsibility of the Contractor. The Contractor shall be responsible for proper disposal of all packing and crating materials off-site. Cooperation among Subcontractors is required and expected regarding cleaning of general litter. Buildings are to be kept clean at all times and failure of the Vendor in this regard will result in back charges from the Construction Manager for cleaning. Vendor shall broom clean area where they have been working.

1.15 CUTTING AND PATCHING

A. The Contractor shall perform all cutting and patching under jurisdiction of its trade(s). Also, if cutting and patching are required as a result of Contractor's failure in the performance of the Work, the Contractor shall be responsible for the corrective cutting and patching at no cost to the Construction Manager.

1.16 INSURANCE

A. The Vendor shall purchase from and maintain in a company or companies lawfully authorized to do business in the jurisdiction where the project is located. This insurance will protect the Vendor from claims set forth below which may arise out of or result from the Vendor's operation and completed operations under the Contract:

1. Claims under workers' compensation, disability and similar employee benefits;
2. Claims for damages because of bodily injury, occupational sickness or death of the Vendor's employee;
3. Claims for damages because of bodily injury, occupational sickness or death other than Vendor's employee;
4. Claims for damages insured by usual personal injury liability;
5. Claims for damages, other than the work itself, because of destruction of property, including loss of that tangible property;
6. Claims for damages of bodily injury or death from use/ownership/maintenance of Motor Vehicle;
7. Claims for bodily injury/death/property damage from the completed work;
8. Claims for product liability and complete work insurance.

B. The Contractor shall provide insurance coverage for portions of the Technology Equipment stored off-site after written approval of the Owner at the value established in the approval and also for portions of the Technology Equipment in transit.

C. Amount of coverage required:

1. General Liability $1,000,000/occurrence
2. General Aggregate $2,000,000

3. Auto Combined Single Limit $1,000,000

4. Professional Liability $1,000,000

5. Umbrella $5,000,000

1.17 PROTECTION AGAINST LOSS AND DAMAGE

A. The Contractor shall protect and secure its materials and equipment against loss, including theft. The Construction Manager will not accept any claim for alleged theft. Contractor will protect its work from damage until its work is complete for the entire project.

1.18 SALES TAX

A. This project is exempt from Connecticut Sales Tax.

1.19 PERFORMANCE AND PAYMENT BOND

A. A performance and Payment Bond will be required from the selected Bidder(s) prior to issuance of Contract(s). The Bond amount must be equal to the Contract Amount.

1.20 OVERHEAD AND PROFIT

A. The maximum allowable overhead and profit percentage for an approved Change Order Proposal is 15%.

1.21 SUBMITTALS

A. Product Data: Provide manufacturer's standard catalog pages and data sheets for all products specified herein. Include detailed information on equipment construction, dimensions, ratings, finishes, mounting requirements, listings, service conditions, performance, installed accessories, and compatibility; include model number nomenclature clearly marked with all proposed features.

B. Submittals shall include a complete “Bill of Material”. This shall include all components required to complete an operational system. Each item shall include the following:

1. Quantity of device(s)

2. Manufacturer’s current model number

3. Manufacturer’s name

4. Item description

5. Accessories required for a complete and operational installation

C. Coordination: Coordinate preparation and processing of submittals with performance of construction activities. Transmit each submittal sufficiently in advance of performance of related construction activities to avoid delay.

1. Coordinate each submittal with fabrication, purchasing, testing, delivery, other submittals and related activities that require sequential activity.

2. Coordinate transmittal of different types of submittals for related elements of the Work so processing will not be delayed by the need to review submittals concurrently for coordination. The Engineer reserves the right to withhold action on a submittal requiring coordination with other submittals until related submittals are received.

D. Processing: Allow sufficient review time so that installation will not be delayed as a result of the time required to process submittals, including time for resubmittals.

1. Allow two weeks for initial review. Allow additional time if processing must be delayed to permit coordination with subsequent submittals. The Engineer will promptly advise the Contractor when a submittal being processed must be delayed for coordination.

2. If an intermediate submittal is necessary, process the same as the initial submittal.

3. Allow two weeks for reprocessing each submittal.

4. No extension of Contract Time will be authorized because of failure to transmit submittals to the Engineer sufficiently in advance of the Work to permit processing.

E. Submittal Preparation: Place a permanent label or title block on each submittal for identification. Indicate the name of the entity that prepared each submittal on the label or title block.

1. Include the following information on the label for processing and recording action taken.

a. Project name.

b. Date.

c. Name and address of Engineer.

d. Name and address of Contractor.

e. Name and address of subcontractor.

f. Name and address of supplier.

g. Name of manufacturer.

h. Number and title of appropriate Specification Section.

i. Drawing number and detail references, as appropriate.

F. Submittal Transmittal: Package each submittal appropriately for transmittal and handling. Transmit each submittal from Contractor to Engineer using a transmittal form. Submittals

received from sources other than the Contractor will be returned without action. On the transmittal, record relevant information and requests for data. On the form, or separate sheet, record deviations from Contract Document requirements, including minor variations and limitations. Include Contractor's certification that information complies with Contract Document requirements.

G. Except for submittals for record, information or similar purposes, where action and return is required or requested, the Engineer will review each submittal, mark to indicate action taken, and return promptly. Compliance with specified characteristics is the Contractor's responsibility.

H. Action Stamp: The Engineer will stamp each submittal with a uniform, self-explanatory action stamp. The stamp will be appropriately marked, to indicate the action taken.

1.22 WORKMANSHIP

A. Service Support: The equipment items shall be supported by service organizations which are reasonably convenient to the equipment installation in order to render satisfactory service to the equipment on a regular and emergency basis during the warranty period of the contract.

B. Modification of References: In each of the publications referred to herein, consider the advisory provisions to be mandatory, as though the word, "shall" had been substituted for "should" wherever it appears.

C. The Contractor shall furnish the services of an experienced superintendent who shall be constantly in charge of the installation of the work together with all skilled workmen, journeymen, electricians, helpers and laborers required to unload, transfer, erect, connect, adjust, start, operate and test each system.

D. Unless otherwise specifically indicated on the Drawings or Specifications, all equipment and materials shall be installed with the acceptance of the Engineer and in accordance with the recommendations of the manufacturer. This includes the performance of such tests as the manufacturer recommends.

E. All labor for installation of technology equipment systems shall be performed by experienced, skilled tradesmen under the supervision of a licensed journeyman foreman. All work shall be of a quality consistent with good trade practice and shall be installed in a neat, workmanlike manner. The Engineer reserves the right to reject any work which, in his opinion, has been installed in a substandard, dangerous or unserviceable manner. The Contractor shall replace said work in a satisfactory manner at no extra cost to the Owner.

1.23 PROTECTION OF MATERIALS AND EQUIPMENT

A. Work under each Section shall include protecting the work and material of all other Sections from damage by work or workmen and shall include making good all damage thus caused.

B. The Contractor shall be responsible for work and equipment until the facility has been accepted by the Owner. Protect work against theft, injury or damage and carefully store material and equipment received on site which is not immediately installed. Close open ends of work with temporary covers or plugs during construction to prevent entry of foreign material.

C. Work under each Section includes receiving, unloading, uncrating, storing, protecting, setting in place and completely connecting equipment supplied under each Section. Work under each Section shall also include exercising special care in handling and protecting equipment and fixtures, and shall include the cost of replacing any of the equipment and fixtures which are missing or damaged.

D. Equipment and material stored on the job site shall be protected from the weather, vehicles, dirt and/or damage by workmen or machinery. Insure that all technology or absorbent equipment or material is protected from moisture during storage.

1.24 ADJUSTING AND TESTING

A. After all the equipment and accessories to be furnished are in place, they shall be put in final adjustment and subjected to such operating tests so as to assure the Engineer that they are in proper adjustment and in satisfactory, permanent operating condition.

B. Where requested by the Engineer or specified in the contract documents, a factory-trained service representative shall inspect the installation and assist in the initial startup and adjustment to the equipment. The period of these services shall be for such time as necessary to secure proper installation and adjustments. After the equipment is placed in permanent operation, the service representative shall supervise the initial operation of the equipment and instruct the personnel responsible for operation and maintenance of the equipment. The service representative shall notify the Contractor in writing that the equipment was installed according to manufacturer’s recommendations and is operating as intended by the manufacturer. Factory start-up reports shall be included in the operation and maintenance manuals under the appropriate equipment section.

1.25 OPERATING AND MAINTENANCE

A. Upon completion of all work and tests, the Contractor shall furnish the necessary skilled labor and helpers for operating his system and equipment for a period specified under each applicable Section of this Division. During this period, he shall fully instruct the Owner or the Owner’s representative in the operation, adjustment and maintenance of all equipment furnished. The Contractor shall give at least seven (7) day notice to the Owner and the Engineer in advance of this period.

B. The Contractor shall include the maintenance schedule for the principal items of equipment furnished under this Division.

C. The Contractor shall physically demonstrate procedures for all routine maintenance of all equipment furnished under each respective Section to assure accessibility to all devices.

D. An authorized manufacturer's representative shall attest in writing that the equipment has been properly installed prior to startup of any major equipment. At a minimum, the following equipment will require this inspection: emergency generator, fire alarm system, paging systems, etc. These letters will be bound into the operating and maintenance books.

E. Refer to individual trade Sections for any other particular requirements related to operating instructions.

F. Demonstration shall be recorded on USB flash drive turned over to the Owner.

1.26 OPERATING AND MAINTENANCE MANUALS

A. Prepare operating and maintenance manuals in accordance with the requirements of Division 1 and as follows.

B. The Contractor shall prepare **TWO (2)** copies of a complete maintenance and operating instructions manual, bound in booklet form. Organize operating and maintenance data into suitable sets of manageable size. Bind properly indexed data in individual heavy-duty, 3-ring, vinyl-covered binders, with pocket folders for folded sheet information. Mark appropriate identification on front and spine of each binder.

C. The Contractor shall prepare **FIVE (5)** digital copies of a complete maintenance and operating instructions manual in PDF form, stored on a portable USB- drive. Each section shall be a separate PDF file on the drive, labeled in an organized and easily identifiable manner.

D. Manual shall include the following:

1. Description of function, normal operating characteristics and limitations, performance curves, engineering data and tests, and complete nomenclature and commercial numbers of replacement parts.

2. Manufacturer's printed operating procedures to include start-up, break-in, and routine and normal operating instructions; regulation, control, stopping, shutdown, and emergency instructions; and summer and winter operating instructions.

3. Maintenance procedures for routine preventative maintenance and troubleshooting; disassembly, repair, and reassembly; aligning and adjusting instructions.

4. Spare parts list.

5. Copies of warranties.

6. Wiring diagrams.

7. Recommended "turn around" cycles.

8. Inspection procedures.

9. Shop Drawings and Product Data.

E. Include in the manual, a tabulated equipment schedule for all equipment. Schedule shall include pertinent data such as: make, model number, serial number, voltage, normal operating current, belt size, filter quantities and sizes, bearing number, etc. Schedule shall include maintenance to be done and frequency.

F. Maintenance and instruction manuals shall be submitted to the Owner at the same time as the seven (7) day notice is given prior to the instruction period.

1.27 ACCEPTANCES

A. The equipment, materials, workmanship, design and arrangement of all work installed under this Section shall be subject to the review of the Engineer.

B. Within 30 days after the awarding of a Contract, the Contractor shall submit to the Engineer, for review, a list of manufacturers of equipment proposed for the work under this Section. The intent to use the exact makes specified does not relieve the Contractor of the responsibility of submitting such a list.

C. If extensive or unacceptable delivery time is expected on a particular item of equipment specified, the Contractor shall notify the Owner and Engineer, in writing, within 30 days of the awarding of the Contract. In such instances, deviations may be made pending acceptance by the Engineer or the Owner’s representative.

D. Where any specific material, process or method of construction or manufactured article is specified by reference to the catalog number of a manufacturer, the Specifications are to be used as a guide and are not intended to take precedence over the basic duty and performance specified or noted on the Drawings. In all cases, the Contractor shall verify the duty specified with the specific characteristics of the equipment offered for review. Equipment characteristics are to be used as mandatory requirements where the Contractor proposes to use an acceptable equivalent.

E. If material or equipment is installed before it is reviewed and/or approved, the Contractor shall be liable for its removal and replacement at no extra charge to the Owner if, in the opinion of the Engineer, the material or equipment does not meet the intent of, or standard of quality implied by, the Drawings and Specifications.

F. Failure on the part of the Engineer to reject shop drawings or to reject work in progress shall not be interpreted as acceptance of work not in conformance with the Drawings and/or Specifications. Work not in conformance with the Drawings and/or Specifications shall be corrected whenever it is discovered.

1.28 WARRANTIES AND BONDS

A. Warranty durations have been defined below and shall be provided for the entire building and shall commence on a single date for all the building systems which shall be the Owner determined date of Substantial Completion. Manufacturer's warranties shall not

start until the date of Substantial Completion. The contractor shall include in their base bid any additional cost for extending manufacturer's warranties until the date of Substantial Completion. In general, the warranties shall not be less than the following:

1. **Twelve (12) months** minimum industry standard on all systems specified within this Section, unless noted otherwise on individual Item Data Sheets.

B. The following general administrative and procedural requirements for warranties and bonds required by the Contract Documents, including manufacturers standard warranties on products and special warranties are to be included:

1. General close-out requirements included in Section "Project Close-out."

2. Specific requirements for warranties for the Work and products and installation that are specified to be warranted, are included in the individual Sections of this Division.

3. Certifications and other commitments and agreements for continuing services to Owner are specified elsewhere in the Contract Documents.

C. Disclaimers and Limitations: Manufacturer's disclaimers and limitations on product warranties do not relieve the Contractor of the warranty on the Work that incorporates the products, nor does it relieve suppliers, manufacturers, and subcontractors required to countersign special warranties with the Contractor.

D. Separate Prime Contracts: Each prime Contractor is responsible for warranties related to its own Contract.

1.29 WARRANTY REQUIREMENTS

A. Related Damages and Losses: When correcting warranted Work that has failed, remove and replace other Work that has been damaged as a result of such failure or that must be removed and replaced to provide access for correction of warranted Work.

B. Reinstatement of Warranty: When Work covered by a warranty has failed and been corrected by replacement or rebuilding, reinstate the warranty by written endorsement. The reinstated warranty shall be equal to the original warranty with an equitable adjustment for depreciation.

C. Replacement Cost: Upon determination that Work covered by a warranty has failed, replace or rebuild the Work to an acceptable condition complying with requirements of Contract Documents. The Contractor is responsible for the cost of replacing or rebuilding defective Work regardless of whether the Owner has benefited from use of the Work through a portion of its anticipated useful service life.

D. Owner's Recourse: Written warranties made to the Owner are in addition to implied warranties, and shall not limit the duties, obligations, right and remedies otherwise available under the law, nor shall warranty periods be interpreted as limitations on time in which the Owner can enforce such other duties, obligations, rights, or remedies.

E. Rejection of Warranties: The Owner reserves the right to reject warranties and to limit selections to products with warranties not in conflict with requirements of the Contract Documents.

F. The Owner reserves the right to refuse to accept Work for the Project where a special warranty, certification, or similar commitment is required on such Work or part of the Work, until evidence is presented that entities required to countersign such commitments are willing to do so.

G. Submit written warranties to the Engineer prior to the date certified for Substantial Completion. If the Engineer's Certificate of Substantial Completion designates a commencement date for warranties other than the date of Substantial Completion for the Work, or a designated portion of the Work, submit written warranties upon request of the Engineer.

H. When a designated portion of the Work is completed and occupied or used by the Owner, by separate agreement with the Contractor during the construction period, submit properly executed warranties to the Engineer within fifteen days of completion of that designated portion of the Work.

I. When a special warranty is required to be executed by the Contractor, or the Contractor and a subcontractor, supplier or manufacturer, prepare a written document that contains appropriate terms and identification, ready for execution by the required parties. Submit a draft to the Owner through the Engineer for approval prior to final execution.

J. Form of Submittal: At Final Completion compile two copies of each required warranty and bond properly executed by the Contractor, or by the Contractor, subcontractor, supplier, or manufacturer. Organize the warranty documents into an orderly sequence based on the table of contents of the Item Data Sheets.

K. Include warranty documentation in PDF form within the digital operating and maintenance manuals. Group each warranty document into the associated PDF for the warrantied piece of equipment or system.

1.30 GUARANTEES

A. The Contractor shall guarantee all material and workmanship under these Specifications and the Contract for a period of one (1) year from the date of final acceptance by Owner. During this guarantee period, all defects developing through faulty equipment, materials or workmanship shall be corrected or replaced immediately by this Contractor without expense to the Owner. Such repairs or replacements shall be made to the Engineers satisfaction.

B. Contractor shall provide name, address, and phone number of all contractors and subcontractors and associated equipment they provided

1.31 PROJECT CLOSE-OUT

A. Contractor shall submit annual maintenance proposal to the Architect/Engineer for review and approval as part of the close out documents.

B. Submit specific warranties, workmanship bonds, maintenance agreements, final certifications and similar documents.

C. Deliver tools, spare parts, extra stock, and similar items.

D. Complete start-up testing of systems, and instruction of the Owner's operating and maintenance personnel. Discontinue or change over and remove temporary facilities from the site, along with construction tools, mock-ups, and similar elements.

E. Complete final clean up.

F. Inspection Procedures: On receipt of a request for inspection, the Engineer will either proceed with inspection or advise the Contractor of unfilled requirements. The Engineer will prepare the Certificate of Substantial Completion following inspection, or advise the Contractor of construction that must be completed or corrected before the certificate will be issued.

1. The Engineer will repeat inspection when requested and assured that the Work has been substantially completed.

2. Results of the completed inspection will form the basis of requirements for final acceptance.

1.32 DEMONSTRATION AND TRAINING

A. Training of Owner Personnel:

1. Contractor shall be responsible for training coordination and scheduling and ultimately to ensure that training is completed.

2. Training shall be of sufficient length to allow the trained staff to train their peers and to demonstrate the training sessions were effective.

3. Training as required throughout these specifications shall be videotaped. Hire the services of a Professional Videographer. Videotaping via handheld devices is not acceptable.

4. Duration of Training: Electrical Contractor shall provide training on each piece of equipment according to the following schedule:

5.

System	No. of People	Hours/Per	Media to be Provided	Item(s) – Refer to attached equipment spreadsheet
