

*SUBJECT: PHOTOGRAPHY*

<b>Next Step in Learning</b>
Ensure that artist research focuses on their work relevant to the theme and how/why it is made.
Use correct photography vocabulary when annotating contact sheets.
Ensure analysis of images is thorough, showing understanding of the visual elements and technical vocabulary.
Develop Photoshop skills further by experimenting with image adjustments for each shoot.
Ensure that you have sketched a plan for each photoshoot and that it is annotated with technical information and links to artists studied (where relevant).
Apply knowledge of composition when taking photographs to improve quality.
When taking photographs, consider focal length to avoid blurring and use of space to ensure focus on the subject.
Ensure that your work is neatly and creatively presented e.g. writing should be legible or typed, titles used, no gaps on pages etc.
Experiment with a variety of approaches so that ideas are developed in several different ways to improve outcomes.
Focus on refining your best ideas to produce high quality outcomes for each topic.
