

Requests for information are due before July 1, 2024, at 10:00 AM.

Responses to the requests for information will be published on the DPS website on or before July 3, 2024.

June 2024	Request for Information	Darien BOE-RFP for Construction Services-Installation of Impact Film on Window/Doors
	Question	Response
1.	When can work at the schools commence?	Work can commence once the contract is awarded.
2.	When does school start in 2024-2025?	Students return to school on August 28, 2024
3.	Can work occur during school hours while school is in-session?	No, only after hours, see 4 below.
4.	Can work occur after hours?	Yes, work can occur from 3 PM- 10 PM.
5.	Can work occur after 10 PM	Dependent on the availability of custodians-To be determined
6.	How can we get a set of drawings for the schools (DHS, MMS and Tokeneke)?	Email lkrolikowski@darienps.org
7.	Should our quote/proposal be based upon the square footage estimates in the RFP, or should it be based upon the mandatory walk thru measurements that were taken on 06/17/2024.	The quote/proposal should be based upon the mandatory walk through that occurred on 06/17/2024 when company representatives measured exterior facing glass.
8.	If a company did not attend the mandatory walk through on 06/17/2024, can it submit a quote/proposal?	No, only companies that attended the mandatory walk through can submit a quote/proposal.
9.	The RFP has a Nov 22nd, 2024, completion date. Because of the size of the project, can this date be extended?	Potentially, once a contract is fully executed with the selected vendor.
10.	Will there be any weekends available to work?	Potentially, based upon the availability of custodians.
11.	Regarding the level of protection, you are looking for. Are you trying to keep the glass from flying all over the place if hit by an object or is your goal to try to prevent entry from an intruder and keep those inside the buildings protected and safe, while catching any glass debris on the product.	The RFP requires a product comparable to this product: https://www.titanwindowfilms.com/3m-security-solutions/3m-security-laminate/3m-safeguard-s140-security-window-film.html
