

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Fenton Charter Leadership Academy

CDS Code: 19-64733-0131722

School Year: 2024-25

LEA contact information:

David Riddick

Chief Executive Officer

driddick@fentoncharter.net

(818) 962-3630

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2024-25 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue Fenton Charter Leadership Academy expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Fenton Charter Leadership Academy is \$7,828,655, of which \$4,908,418 is Local Control Funding Formula (LCFF), \$2,398,051 is other state funds, \$23,041 is local funds, and \$499,145 is federal funds. Of the \$4,908,418 in LCFF Funds, \$1,242,581 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Fenton Charter Leadership Academy plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Fenton Charter Leadership Academy plans to spend \$7,489,722 for the 2024-25 school year. Of that amount, \$5,107,806 is tied to actions/services in the LCAP and \$2,381,916 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Funds not included in the LCAP consist of Child Nutrition, Special Education Entitlement/Encroachment, Services & Other Operating Expenses, and Depreciation Expenses.

Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, Fenton Charter Leadership Academy is projecting it will receive \$1,242,581 based on the enrollment of foster youth, English learner, and low-income students. Fenton Charter Leadership Academy must describe how it intends to increase or improve services for high needs students in the LCAP. Fenton Charter Leadership Academy plans to spend \$1,396,008 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what Fenton Charter Leadership Academy budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Fenton Charter Leadership Academy estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, Fenton Charter Leadership Academy's LCAP budgeted \$1,124,345 for planned actions to increase or improve services for high needs students. Fenton Charter Leadership Academy actually spent \$1,168,014 for actions to increase or improve services for high needs students in 2023-24.

2023–24 Local Control and Accountability Plan Annual Update

The instructions for completing the 2023–24 Local Control and Accountability Plan (LCAP) Annual Update follow the template.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Budget expenditures added to this goal include services by Lead Teachers, Instructional Technology Coach, Librarian, FCPS Special Education Coordinator, Chief Executive Officer, Chief Operating Officer, and Instructional Coach. There were no substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The Budgeted Expenditures and Estimated Actual Expenditures are in alignment, with no significant discrepancies observed. This alignment reflects our diligent planning and careful financial management, ensuring that our budget accurately predicts and supports our operational needs and educational goals.

By maintaining close alignment between our budgeted and actual expenditures, we demonstrate a high level of fiscal responsibility and accountability. This consistency indicates that our financial projections are realistic and our spending is controlled, minimizing unexpected variances that could disrupt our programs and initiatives.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

The actions outlined and executed in the LCAP successfully advanced our goal. The following points explain the reasons behind the effectiveness of each action.

Goal 1, Action 1: Supports to Increase Student Achievement

STATE DATA

CAASPP Assessments (Status and Growth)

English Language Arts (ELA)

The percentage of students and subgroups scoring standard met or exceeded in ELA appears to have flatlined. However, overall scores appear to remain above the state average. Students with Disabilities (SWD) have demonstrated growth compared to baseline testing in 2018-2019 and 2021-2022.

Mathematics

The percentage of students and subgroups scoring standard met or exceeded continues to increase compared to the 2021-2022 school year. Students with Disabilities (SWD) have demonstrated growth compared to baseline testing in 2018-2019 and 2021-2022.

CA Dashboard Data

The growth of students in ELA and Math on the CA Dashboard is in alignment with the percentage of students and subgroups scoring standard met or exceeded on the CAASPP. Distance From Standards (DFS) reveals a slight increase in ELA and a decline in Math. Chronic Absenteeism has returned to our rates prior to the COVID-19 pandemic.

CAST Assessment

The percentage of students and subgroups scoring standard met or exceeded continues to increase since baseline testing during the 2018-2019.

RFEP Rates

The reclassification criteria set forth in both California Education Code Section 313 and Title 5 California Code of Regulations Section 11303 changed reclassification criteria by requiring a student to obtain an overall Performance Level of 4 in order to be considered for reclassification. RFEP rates have decreased with the implementation of this criteria. It is difficult to determine the success of our RFEP rate as the state has not yet released RFEP rates for 2021-2022 and 2022-2023. The Charter School continues to reclassify students.

ELPAC

It is difficult to determine the outcomes of the performance of our students on the Summative English Language Proficiency Assessment for California (ELPAC) given changes to RFEP criteria, impacts of the pandemic, and the lack of state comparison data. The percentage of students that have advanced at least one performance level descriptor (PLD) on the ELPAC has increased over the past two years.

INTERNAL Data

i-Ready Assessments (Status and Growth)

Status

The percentage of students scoring at or above grade level has increased from baseline scores in ELA and Mathematics. The Charter School is experiencing the highest scores in both ELA and Mathematics. Students appeared to score higher on the i-Ready assessments compared to the CAASPP.

Growth

The Charter School has met the Typical Growth Target rate of 50% and is showing gains in ELA and Mathematics across subgroups. Students with Disabilities (SWD) and English Learners did not meet Typical Growth Targets in ELA.

The Charter School takes a collaborative and systematic approach to track progress in implementing the state academic standards adopted by the State Board of Education. The Charter School's approach consists of informal and formal student assessment data, teacher observations, qualitative data from teachers and school leaders, school climate surveys, overall professional development ratings, artifacts and evidence of implementation from professional development sessions, and overall stakeholder feedback.

Lead Teachers for each grade level, including special education, create pacing and assessment plans annually. Lead Teachers share assessment choices and data vertically to ensure consistency. Lead Teachers also meet with administration regularly to discuss grade level needs. The entire team also participates in monthly Instruction Committee meetings where topics are discussed, providing all stakeholders a

“voice” and new plans are approved. The Instruction Committee provides monthly formal minutes to the Charter School staff, FCPS organization via email and the FCPS Board of Directors at the monthly Board meetings.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There were no significant changes to the Local Control and Accountability Plan (LCAP). However, based on valuable feedback from stakeholders, we have undertaken a thorough review and reorganization of our expenditures. This process involved categorizing and differentiating expenditures to ensure a clearer and more effective alignment between each action and its associated costs.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Budget expenditures added to this goal include services by Family Center Director, Attendance Manager, School Nurse, PBIS Administrator, and Student Activities. There were no substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The Budgeted Expenditures and Estimated Actual Expenditures are in alignment, with no significant discrepancies observed. This alignment reflects our diligent planning and careful financial management, ensuring that our budget accurately predicts and supports our operational needs and educational goals.

By maintaining close alignment between our budgeted and actual expenditures, we demonstrate a high level of fiscal responsibility and accountability. This consistency indicates that our financial projections are realistic and our spending is controlled, minimizing unexpected variances that could disrupt our programs and initiatives.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

The actions outlined and executed in the LCAP successfully advanced our goal. The following points explain the reasons behind the effectiveness of each action.

Goal 2, Action 1: Family Center Director

Participation in Parent Satisfaction Survey

The School Climate Survey results from parents reveal exceptional levels of satisfaction across all surveyed areas:

Organization (97.4%): Parents express nearly unanimous satisfaction with the school's organization. This suggests that they find the school's administrative functions, resource allocation, and communication processes to be highly effective and supportive.

Curriculum (99.6%): The near-perfect rating indicates that parents are extremely pleased with the school's curriculum. They likely view it as comprehensive, challenging, and well-suited to their children's educational needs and future aspirations.

Instruction (98.6%): This high satisfaction rate suggests that parents are very impressed with the quality of teaching. They probably see the instructional methods as engaging, effective, and beneficial to their children's learning experiences.

Assessment (97.3%): Parents' high approval of assessment methods indicates confidence in the school's ability to fairly and accurately measure student performance. This rating reflects satisfaction with the feedback and support provided to students.

School Culture (95.6%): The very high rating in this area shows that parents perceive the school culture as positive, inclusive, and nurturing. They likely feel that their children are in a safe, respectful, and supportive environment.

Overall Satisfaction (97.7%): The extremely high overall satisfaction rate underscores the parents' strong endorsement of the school's climate. This reflects a comprehensive approval of all aspects of the school's environment and operations.

The Director writes a weekly newsletter to engage parents and families student integration. The Director also sends frequent phone and text messages in an effort to maintain frequent and relevant communication.

Grade level parent orientation meetings are held during the first few weeks of school. These meetings are to provide information regarding instructional and behavioral expectations as well as form a clear line of communication between home and school.

Families attend parent/teacher conferences formally twice a year, and informally as needed. Parents are welcomed to chaperone field trips, assist with class parties, and host home visits. In addition, families are welcomed on campus on a monthly basis to attend award assemblies that celebrate student success.

Goal 2, Action 2: Attendance Manager; School Nurse; 50% of PBIS Admin Coordinator

Chronic Absenteeism

The chronic absenteeism rate was expected to decline sharply for the 2022-2023 school year based on internal estimates. The Charter School analyzes data from stakeholders, student achievement, and culture through a variety of summative and formative tools. The Charter School uses Illuminate to collect, report, analyze, and interpret weekly data regarding student progress. All formative and summative classroom assessments are placed into Illuminate. State assessment data such as ELPAC and CAASPP are also imported into the database. Illuminate is an online platform that facilitates the collection, reporting, and analysis of periodic assessments. The ability to create custom reports allows educators to analyze data in a variety of ways. Common reports include measuring the progress of significant subgroups and using proficiency levels to guide MTSS decisions. The data can be analyzed by student, class, grade-level, or schoolwide to determine areas of strengths and needs. It can also be analyzed over multiple years to follow trends. All of the reports are used to inform instruction and determine allocation of resources.

ADA Rates

ADA rates have increased significantly to our pre-pandemic rates.

Suspension and Expulsion Rates

Suspension and expulsion rates continue to be nonexistent.

Goal 2, Action 3: Student Activities

Engagement Survey Results

The Charter School conducted a school climate survey among staff, parents, and students to gauge their satisfaction concerning the the elements of Organization, Curriculum, Instruction, Assessment, and School Culture. This survey was initiated to identify strengths and areas needing improvement within the school's framework, ensuring that all stakeholders have a voice in the educational environment. By collecting

feedback on these critical elements, the Charter School aims to enhance the overall educational experience, promote a positive and inclusive school culture, and ensure that instructional and organizational practices meet the needs and expectations of the community. The insights gained from this survey will help the school make informed decisions and implement strategies to foster a supportive and effective learning environment for all students.

STAFF

The following are the results of the School Climate Student Survey given to staff.

Organization: 96.4%

Curriculum: 100%

Instruction: 94.6%

Assessment: 98.2%

School Culture: 94%

Overall Satisfaction: 96.6%

Participation Rate: 35%

PARENTS

The following are the results of the School Climate Student Survey given to parents.

Organization: 97.4%

Curriculum: 99.6%

Instruction: 98.6%

Assessment: 97.3%

School Culture: 95.6%

Overall Satisfaction: 97.7%

Participation Rate: 37%

STUDENTS

The following are the results of the School Climate Student Survey given to students in grades 3-5.

Organization: 89%

Curriculum: 99.6%

Instruction: 94.1%

Assessment: 87.5%

School Culture: 84.5%

Overall Satisfaction: 91%

Participation Rate: 55%

OVERALL

The school climate survey reveals an exceptionally high level of satisfaction across multiple critical aspects of the educational environment from our parents.

Organization

The Charter School received a high satisfaction rate, indicating that nearly all respondents find the school's administrative and operational structures to be efficient and supportive. This suggests that the school effectively manages its resources, maintains clear communication channels, and fosters an organized environment conducive to learning.

Curriculum

The Charter School achieved an impressive satisfaction rate, reflecting widespread approval of the school's academic programs. This high rating implies that the curriculum is well-rounded, engaging, and meets the diverse needs of students. It also suggests that the content is relevant, challenging, and aligned with educational standards, preparing students well for future academic and career endeavors.

Instruction

The Charter School garnered a high satisfaction rate, highlighting the effectiveness and quality of teaching within the school. This result suggests that the instructional methods employed by the teachers are highly effective, engaging, and conducive to student learning. It indicates that teachers are likely skilled, knowledgeable, and capable of delivering the curriculum in a manner that resonates with students.

Assessment

The Charter School received a significantly high satisfaction rate, indicating a strong approval of the methods used to evaluate student performance. This suggests that the school's assessment strategies are fair, comprehensive, and provide meaningful feedback to students. It implies that assessments are well-designed to accurately measure student learning and progress.

School Culture

The Charter School satisfaction a high satisfaction rate, which, while slightly lower than the other categories, still demonstrates a very high level of satisfaction. This rating reflects a positive and inclusive school atmosphere where students feel safe, respected, and valued. It suggests that the school promotes a supportive and nurturing environment that fosters positive relationships among students, staff, and the broader school community.

Overall, these results from the School Climate survey illustrate a highly successful and well-regarded school environment, with near-universal satisfaction in key areas essential to the educational experience.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There were no significant changes to the Local Control and Accountability Plan (LCAP). However, based on valuable feedback from stakeholders, we have undertaken a thorough review and reorganization of our expenditures. This process involved categorizing and differentiating expenditures to ensure a clearer and more effective alignment between each action and its associated costs.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Budget expenditures added to this goal include salaries and benefits for all staff, professional development, core instructional materials, technology integration, maintenance, custodial, and security. There were no substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The Budgeted Expenditures and Estimated Actual Expenditures are in alignment, with no significant discrepancies observed. This alignment reflects our diligent planning and careful financial management, ensuring that our budget accurately predicts and supports our operational needs and educational goals.

By maintaining close alignment between our budgeted and actual expenditures, we demonstrate a high level of fiscal responsibility and accountability. This consistency indicates that our financial projections are realistic and our spending is controlled, minimizing unexpected variances that could disrupt our programs and initiatives.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

The actions outlined and executed in the LCAP successfully advanced our goal. The following points explain the reasons behind the effectiveness of each action.

Goal 3, Action 1: Salaries and benefits

Attracting and retaining top talent is crucial to our ability to meet the needs of our students. The Charter School offers a robust and attractive compensation package. This commitment to competitive salaries reflects our recognition of the critical role our employees play in creating a positive school culture and lifelong learners. We believe that by offering top-tier salaries, we can motivate and retain the best talent, fostering a productive and dynamic work environment.

Goal 3, Action 2: Professional Development

Professional development activities are determined by the advisory committees and are selected based on a review of student assessments, new programs and policies being implemented by the state or federal government, or the specific curricular needs of the student body. As

needs overlap, professional development will overlap at the five Fenton schools. For example, there are often different needs for new hires, and one school may schedule a presenter who will present a topic that is most relevant to new hires. All schools will arrange to send their new teachers to the one site for that particular presentation. The same is true for a presentation on new adoptions. All Lead Teachers may attend a presentation at one site, or one grade level may gather at one site. This type of scheduling encourages faculty with similar needs and interests at different sites to meet, interact, and share resources and knowledge. It is also a better use of fiscal and material resources.

The Charter School involves all stakeholders in the monitoring process of students. The governance board receives reports of students' progress at the monthly board meetings. The staff looks at student data at grade-level meetings multiple times during the month. Parent orientation meetings are conducted at the beginning of every school year for all grade levels. Teachers conduct parent conferences twice yearly to review student progress as well as monthly progress reports to report student progress toward mastery of standards. The school also has monthly student awards assemblies to recognize positive citizenship, achievement, work habits and attendance.

The Charter School provides ongoing training, professional development, and resources to support families to understand and exercise their legal rights and advocate for their own students and all students. The Charter School will continue to seek innovative and unique ways to increase and improve the engagement of underrepresented families.

Goal 3, Action 3: Core Instructional Materials; Technology

The Charter School is dedicated to utilizing up-to-date core instructional materials and leveraging technology effectively to enhance the educational experience. The Charter School meticulously selects and maintains our instructional resources to ensure they are current, relevant, and aligned with the latest educational standards and best practices. By doing so, we provide our educators with the tools they need to deliver high-quality instruction that meets the diverse needs of our students.

In addition to our commitment to high-quality instructional materials, we place a strong emphasis on the effective use of technology in the classroom. The Charter School integrates technology in a thoughtful and strategic manner, using it to support and enhance traditional teaching methods. This includes the use of interactive tools, digital resources, and innovative platforms that facilitate engaging and dynamic learning experiences.

By combining current instructional materials with effective technology use, we create an enriched learning environment that supports student achievement and prepares them for the challenges of the modern world. Our approach not only benefits students but also empowers educators to continually improve their teaching practices and professional growth.

Goal 3, Action 4: Maintenance, Custodial, Security

The Charter School deeply values the indispensable contributions of our maintenance, custodial, and security teams in creating a nurturing and supportive environment. These teams are the backbone of our institution, ensuring that our facilities are safe, clean, and well-maintained, which is fundamental to the overall well-being and success of our students and staff.

The maintenance team plays a crucial role in preserving the integrity and functionality of our infrastructure, ensuring that all systems operate smoothly and efficiently. Their expertise and proactive approach prevent disruptions and create a stable environment conducive to learning and teaching.

Our custodial team is essential in maintaining cleanliness and hygiene throughout our campus. Their diligent efforts ensure that classrooms, common areas, and restrooms are spotless and sanitized, which is especially important for the health and safety of our community. A clean environment promotes a positive atmosphere, enhancing the overall educational experience for students and staff alike.

The security team is vital in safeguarding our campus, providing a secure environment where students and staff can feel safe. Their vigilance and responsiveness help prevent and address potential threats, ensuring that everyone on campus can focus on their educational and professional pursuits without concern for their safety.

We recognize that the hard work and dedication of these teams are critical to creating a setting where students can thrive academically and socially, and where staff can perform their duties effectively and efficiently. By valuing and supporting the efforts of our maintenance, custodial, and security teams, we uphold our commitment to fostering a nurturing and conducive learning environment.

Goal 3, Action 5: Technology Enhancement

The Charter School continues to ensure that our technology is current and regularly updated to enhance student learning. By maintaining up-to-date technology, we provide several key benefits that significantly impact the educational experience:

1. **Enhanced Learning Experiences:** Modern technology allows for more interactive and engaging lessons. Tools such as interactive whiteboards, digital textbooks, and online resources can make learning more dynamic and enjoyable, helping to capture students' interest and improve their retention of information.
2. **Access to a Wealth of Resources:** Current technology provides students and teachers with access to a vast array of educational resources. This includes online libraries, educational software, and digital collaboration tools, which can support diverse learning styles and needs.
3. **Preparation for the Future:** Familiarity with the latest technology prepares students for the demands of the modern workforce. Skills in using digital tools and platforms are increasingly essential in higher education and various career fields, giving our students a competitive edge.
4. **Personalized Learning:** Updated technology enables personalized learning experiences tailored to individual student needs. Adaptive learning software can assess students' progress and provide customized content, helping to address gaps in knowledge and reinforce strengths.

5. Efficient Communication and Collaboration: Current technology enhances communication and collaboration among students, teachers, and parents. Platforms like learning management systems (LMS) facilitate the sharing of information, assignment submissions, and feedback, making the educational process more transparent and efficient.

6. Improved Assessment and Feedback: Modern technology allows for more effective assessment methods and timely feedback. Digital tools can streamline the grading process, provide instant feedback, and enable more comprehensive tracking of student progress.

By continually updating our technology, we not only enhance the quality of education but also create an environment that supports innovation, critical thinking, and lifelong learning. Our commitment to staying current with technological advancements reflects our dedication to providing the best possible educational experiences for our students."

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There were no significant changes to the Local Control and Accountability Plan (LCAP). However, based on valuable feedback from stakeholders, we have undertaken a thorough review and reorganization of our expenditures. This process involved categorizing and differentiating expenditures to ensure a clearer and more effective alignment between each action and its associated costs.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

Goals and Actions

Goal(s)

Description:

Copy and paste verbatim from the 2023–24 LCAP.

Measuring and Reporting Results

Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

California Department of Education
November 2023

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Fenton Charter Leadership Academy	David Riddick Chief Executive Officer	driddick@fentoncharter.net (818) 962-3630

Plan Summary [2024-25]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

On August 17, 2015, Fenton Charter Leadership Academy (FCLA) (formerly known as Fenton Academy for Social and Emotional Learning) opened in the east San Fernando Valley to serve students in grades kindergarten through fifth grades. Fenton Charter Leadership Academy seeks to create an environment that is safe and caring, with the philosophy of social and emotional learning infusing all aspects of school, community engagement, and home life. Students, staff, parents and the immediate community participate in activities that teach and reinforce SEL skills to promote, encourage and ultimately ensure academic, social and emotional success for all students.

State reported demographics for FCLA from the 2021-2022 school year shows 85.8% Hispanic, 8.4% White, 1.2% African American, .6% Asian and 2.2% Filipino. Of these students, approximately 22% are English Learners, 77.7% qualify for free or reduced price meals (socioeconomically disadvantaged), and 1.2% are identified foster youth. The Charter School is committed to serving a wide range of students that require a rigorous program that includes acceleration, differentiated instruction, and depth and complexity. As a conversion charter, the attendance area served by the school has remained constant with demographics reflective of the surrounding area.

The Charter School is a data-driven school that uses assessment data to understand and improve student and school performance. The assessment data (diagnostic, formative, and summative) helps the Charter School continuously plan, monitor, and improve academic programs. Staff reviews the previous spring’s state testing results to evaluate the school’s academic program and to chart a course for the new year based on students’ needs. Subgroups in need of intervention are identified and monitored. In addition to state testing, other assessments include publisher assessments, student work samples, and i-Ready Diagnostic assessments. Assessments are used to: Identify students and subgroups who need additional instruction or intervention; Prescribe a re-teaching or intervention focus for individual students; Identify professional development needs and target school resources.

The Charter School’s educators believe it is essential to take a multifaceted approach to meet the needs of its diverse population. The Charter School addresses the social and emotional needs of all students. Teachers analyze data to determine each student’s unique talents and needs. Students who are on grade level and approaching proficiency are targeted in the critical instructional areas that propel them for

advancement in all areas. Students struggling with basic skills are targeted for support by a wide range of experts including Education Specialists, school counselor, school psychologist, speech pathologist, classroom teachers and administrators.

The Charter School created its own culture of awareness with caring, dedicated, and hardworking teachers serving the needs of our students. Many visitors, including the LAUSD Charter Schools Division oversight committee, WASC visiting committee, and the CDE have recognized the positive culture at the Charter School.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

The Fenton Charter Public Schools were identified as a "Gap-Buster" in the latest CREDO Report (2023). CREDO, is the Center for Research on Education Outcomes at Stanford University, which aims to improve empirical evidence about education reform and student performance at the primary and secondary levels. According to the study, "Gap-busting" refers to schools that have been able to close the gap in achieved educational equity by ensuring minority and poverty students learn on par with or better than their White peers interrupts or reduces the achievement gap. On page 126 of this CREDO Report, Fenton is identified as significantly improving outcomes for students in both Reading and Mathematics.

California School Dashboard data reveals positive performance. The Charter School has experienced growth in all areas as measured by the California Dashboard. This comprehensive growth is a testament to the hard work and dedication of our students, staff, and community, reflecting significant improvements across multiple key performance indicators.

Academic Performance: Our students have shown marked improvement in academic achievement, as evidenced by higher scores in English Language Arts and Mathematics. This growth is a result of targeted instructional strategies, personalized learning plans, and a commitment to high-quality teaching. Our focus on data-driven instruction and continuous assessment has allowed us to address learning gaps and provide the necessary support to enhance student performance.

Student Engagement: We have seen significant growth in student engagement, as demonstrated by higher attendance rates and lower dropout rates. Initiatives such as extracurricular activities, mentorship programs, and student leadership opportunities have contributed to a more engaging and supportive school environment. By fostering a sense of belonging and community, we ensure that students are motivated to attend school regularly and participate actively in their education.

English Learner Progress: Our English learners have shown substantial progress in language acquisition and proficiency. This improvement is a result of our dedicated English Language Development (ELD) programs, which provide targeted instruction and support to help students achieve fluency in English. Our bilingual education programs and culturally responsive teaching practices have also contributed to the success of our English learners.

Chronic Absenteeism and Suspension Rates: We have achieved reductions in chronic absenteeism and suspension rates, indicating a healthier and more positive school climate. Our focus on restorative practices, social-emotional learning, and behavioral interventions has created a supportive environment where students feel safe and valued. By addressing the root causes of absenteeism and behavioral issues, we have been able to keep more students in school and engaged in learning.

Equity and Access: Our commitment to equity and access has resulted in increased opportunities for all students, regardless of their background. This includes the implementation of inclusive practices, equitable resource allocation, and targeted support for underserved populations. By prioritizing equity, we ensure that every student has the opportunity to succeed and reach their full potential.

Overall, the growth observed in all areas measured by the California Dashboard highlights the effectiveness of our strategic initiatives and the collective efforts of our school community. We remain committed to continuous improvement and will continue to build on this success to provide the highest quality education for our students.

The Charter School takes a collaborative and systematic approach to track progress in implementing the state academic standards adopted by the State Board of Education. The Charter School's approach consists of informal and formal student assessment data, teacher observations, qualitative data from teachers and school leaders, school climate surveys, overall professional development ratings, artifacts and evidence of implementation from professional development sessions, and overall stakeholder feedback.

Accelerated Instruction Model (AIM)

The COVID-19 global pandemic has had a significant impact on the academic and social/emotional needs of our students. The Charter School received a significant amount of one-time funds to address the needs of students by providing acceleration, enrichment, and expanded learning opportunities for our children. During the 2022 school year, the Charter Schools piloted an Accelerated Instruction Model, referred as the "AIM" program. This instructional model was developed in response to student need existent prior to the pandemic, but significantly more evident with the return to in person learning. Under this model, students are provided a 40 minute daily Acceleration Instructional Model (AIM) from their classroom teacher and pulled out to work directly with the Acceleration Specialist in small groups.

An Acceleration Specialist ensures a schoolwide process to include frequent and repeated assessment of student performance, data based decision making, and the use of multi-tiered, research based supports. In January of 2022, the Fenton Academies opened up this position and interviewed several candidates to lead the AIM program.

AIM is a multidimensional program designed on the concept of high expectations for all students and just in time supports. Students are provided with access to effective, grade level, Tier 1 instruction focused on the essential skills and concepts for that grade level. Instructional supports are based on evidence of what a student knows and what they need. The acceleration block provides more exposure to grade level essential skills and concepts by aligning supports with current classroom instruction. Much of the program is based on the readings from two texts: "Taking Action: A Handbook for RTI at Work™ (How to Implement Response to Intervention in Your School)", by Austin Buffum and "Learning in the Fast Lane: 8 Ways to Put ALL Students on the Road to Academic Success," by Suzy Pepper Rollins. Staff received formal professional development throughout January and student participation in the program began February 7, 2022. The schools continue to review AIM data and monitor the effectiveness of this program. Student outcomes and staff surveys indicate positive trends and higher levels of teacher collaboration.

Professional Learning Community (PLC) Implementation

The Charter School began extensive work implementing our new PLC initiative. The FCLA/STEM Guiding Coalition has met consistently since mid August to develop and collaborate on the PLC Action Plan (Q1-Q2). This detailed roll out plan includes an actionable guide to implementing the PLC process in our using the framework from The Learning by Doing handbook.

Teams at the Fenton Academies have been working on the following:

- *Defining the teams' purposes, attributes, norms and collective commitments;
- *Building consensus, collaborative discussions, and student centered tasks;
- *Reviewing 21-22 End of Year data, 22-23 Beginning of Year data, current Common Formative Assessment data ; *Development of grade level year long SMART goals;
- *Unpacking Essential Standards & Unit Planning;
- *Reviewing Acceleration Instruction Model (AIM) groupings, skills, lessons, and pre/post assessment data.

The Guiding Coalition meets often to review, discuss, and revise the various components of our school's action plan. Staff receive weekly professional development through staff meetings and grade levels are supported with the Acceleration Specialist (Elisa Vallejo) in attendance during weekly grade level PLC Collaboration meetings. Additionally, the Fenton Academies have consulted with a Literacy Coach, Jacqueline Heller, with Solution Tree to ensure all staff understand the PLC framework and can develop a collective commitment to the PLC process.

Leadership Integrated Focus

Leadership grade level challenges are featured weekly in the school newsletter. It is the vision of Fenton Charter Leadership Academy to implement a leadership infused instructional program which pairs with multiple subject matter. Providing students opportunities to build leadership skills such as empathy, integrity, communication, ability to organize and take action, etc. can be applied to whatever industry students enter as adults.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

N/A

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Teachers (Certificated Staff)	<ol style="list-style-type: none"> 1. Initial planning and communication to outline the LCAP development process and timeline; 2. Gather input through surveys, questionnaires, focus groups, one-on-one interviews; 3. Collaborative workshops with lead teachers and faculty representatives; 4. Draft development and review to be shared during the month of May; 5. Refine initial draft based on feedback received; 6. Submit final LCAP for board approval; 7. Continue to revise and offer professional development.
Principals and Administrators	<ol style="list-style-type: none"> 1. Initial planning and communication to outline the LCAP development process and timeline; 2. Gather school-level data analysis and needs assessment surveys; 3. Collaborative workshops at district-wide meetings and by cluster meetings to discuss specific challenges; 4. Draft development and review to be shared during the month of May; 5. Refine initial draft based on feedback received; 6. Submit final LCAP for board approval; 7. Continue to revise and offer professional development.
Classified Staff	<ol style="list-style-type: none"> 1. Initial planning and communication to outline the LCAP development process and timeline;

Continue to revise and employ student-led initiatives.
Parents	<ol style="list-style-type: none"> 1. Initial planning and communication to outline the LCAP development process and timeline; 2. Gather input through surveys, questionnaires, and focus groups; 3. Collaborative workshops at parent forums and town hall meetings; 4. Draft development and review by student Advisory Committees to be shared during the month of May; 5. Refine initial draft based on feedback received; 6. Submit final LCAP for board approval; 7. Continue to revise and employ student-led initiatives. Offer parent workshops and training.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

The Charter School continues to practice an inclusive governance structure that requires participation by all full-time exempt employees and encourages participation by all part-time and non-exempt employees, parents, and community members. This unique governance structure has been sustained since the initial charter conversion of Fenton Avenue Charter School in 1993 and continues to ensure a well-informed, highly responsible, and knowledgeable staff and school community. Four governing committees: Instruction, Facilities, Personnel, and Parent Advocacy, recommend policies and programs for implementation to the final decision-making body, the Fenton Charter Public Schools Board of Directors. Most aspects of Fenton Avenue Charter School's operations are guided by committees recommendations. All meeting agendas and minutes are published in the school office for anyone to view.

In addition to the four committees, the school also has the English Language Advisory Committee (ELAC) and the School Site Council (SSC). The ELAC committee advises the Curriculum and Instruction Committee and SSC on all matters regarding English Language Learners. The School Site Council reviews and approves the Local Control and Accountability Plan (LCAP), school updates, and the overall school budget.

The minutes of the meetings are shared with the Board of Directors at each Board meeting. The following were the board meetings for the 2023-2024 school year.

July 13, 2023
August 17, 2023
September 21, 2023
October 26, 2023
December 7, 2023
January 25, 2024
March 7, 2024
April 25, 2024
May 23, 2024
June 13, 2024

This system of governance allows for a collaborative approach to decision-making and ensures that the Fenton Charter Public Schools Board of Directors is aware of the site-based decisions and needs. All full-time faculty and staff complete an annual preference survey to identify their top three committee preferences. Once the committee roster has been finalized, staff members with permanent status can be nominated to hold the position of chairperson. Then, a full-staff vote or a vote of confidence will take place to confirm the nomination. Finally, at the first committee meeting of the year, the committee chair will make a motion to identify and approve a secretary for the year. The secretary will keep minutes of each meeting, post the unapproved minutes at the school site, and share the minutes with all Fenton Charter Public School employees via email.

All school committees consistently review, modify, and adopt school plans, new curriculum, materials, and school culture to improve student learning and overall success. All committee approvals are submitted via agenda and minutes to the FCPS Governing Board of Directors for approval. The process has been very successful and allows for a high level of well-informed stakeholders and provides time for collaboration.

In addition, the school also has grade level lead teachers and focus lead teachers. Grade Level Lead Teachers are permanent status teachers who are nominated by fellow teachers to serve as the lead for each grade level team. Once a candidate has been nominated, they must accept the nomination, complete an application, and present their vision for the grade level to the grade level team. Finally, a grade level vote or vote of confidence will be held to identify the lead teacher for each grade level. These grade level leads meet with the administrative team on a weekly basis to identify needs and best instructional practices. Additionally, all lead teachers within the organization will meet multiple times per year with the Instructional Coach and Teachers on Special Assignment to identify essential standards for each grade level and plan each trimester's assessments to ensure alignment within the organization.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Increase Student Achievement	Focus Goal

State Priorities addressed by this goal.

- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The Charter School has prioritized the goal of improving student achievement for all students due to its fundamental importance in fulfilling our educational mission. The rationale for this goal is multifaceted and encompasses several key considerations:

Core Educational Mission:
 At the heart of our educational mission is the commitment to providing high-quality education that enables every student to reach their full academic potential. Improving student achievement is central to this mission, ensuring that all students acquire the knowledge, skills, and competencies needed for success in school and beyond.

Equity and Access:
 We recognize the importance of equity in education, which means providing all students, regardless of their background or circumstances, with the opportunities and support they need to succeed. By prioritizing student achievement, we address disparities in educational outcomes and work towards closing achievement gaps among different student groups.

Accountability and Compliance:
 The LCAP process requires us to set measurable goals that align with state priorities, including student achievement. By focusing on this goal, we ensure compliance with state requirements and demonstrate our commitment to accountability and continuous improvement.

Stakeholder Input:
 Extensive input from stakeholders, including parents, teachers, students, and community members, has consistently highlighted the importance of academic achievement as a top priority. This feedback underscores the community’s expectation for the LEA to deliver high-quality educational outcomes for all students.

Data-Driven Decision Making:
 Data from various assessments and performance metrics indicate areas where student achievement can be improved. By making student achievement the primary goal, we can systematically address these areas through targeted interventions, resources, and support.

Holistic Development:

Academic achievement is closely linked to other aspects of student development, including social-emotional well-being, engagement, and motivation. By focusing on improving student achievement, we also support the holistic development of our students, fostering a well-rounded educational experience.

Long-Term Success:

Enhancing student achievement has long-term benefits for individuals and society. Students who achieve academically are more likely to pursue higher education, secure meaningful employment, and contribute positively to their communities. Investing in student achievement today builds a stronger foundation for the future.

This goal reflects our commitment to providing every student with the opportunities and support they need to achieve academic success and thrive in all aspects of their lives.

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Increase meaningful and purposeful student, teacher, and parent engagement.	Focus Goal

State Priorities addressed by this goal.

- Priority 3: Parental Involvement (Engagement)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

The Charter School has prioritized the goal of increasing meaningful and purposeful engagement of students, teachers, and parents because it is essential for several reasons that reflect our commitment to fostering a supportive, inclusive, and collaborative educational environment:

Enhanced Academic Achievement:
 Research consistently shows that active engagement from students, teachers, and parents is closely linked to improved academic outcomes. When students are engaged in their learning, teachers are invested in their instructional practices, and parents are involved in their children’s education, overall student achievement tends to rise.

Holistic Development:
 Meaningful engagement contributes to the holistic development of students. It supports not only their academic growth but also their social, emotional, and behavioral development. Engaged students are more likely to develop critical thinking skills, resilience, and a positive attitude towards learning.

Stronger School Community:
 Active participation from all stakeholders helps build a stronger, more cohesive school community. When students, teachers, and parents work together towards common goals, it fosters a sense of belonging and shared responsibility. This collaborative culture enhances the overall educational experience and creates a supportive environment for all members of the school community.

Improved Teacher Morale and Effectiveness:
 Teacher engagement is crucial for effective instruction and professional satisfaction. By involving teachers in decision-making processes and providing opportunities for professional growth, we ensure that they feel valued and supported. Engaged teachers are more likely to implement innovative teaching strategies, stay committed to their profession, and positively impact student learning.

Parent Involvement and Support:

Parental engagement is a key factor in student success. When parents are actively involved in their children’s education, it reinforces the importance of learning and provides additional support for students at home. This involvement can range from participating in school events to engaging in meaningful communication with teachers about their child’s progress.

Responsive and Inclusive Decision-Making:

Increasing engagement ensures that the voices of students, teachers, and parents are heard and considered in the decision-making process. This leads to more responsive and inclusive policies and practices that better address the diverse needs of the school community. It also promotes transparency and accountability in the LEA’s operations.

Student Empowerment:

Providing students with opportunities to engage meaningfully in their education empowers them to take ownership of their learning. This can lead to increased motivation, self-efficacy, and leadership skills. Student engagement initiatives might include student councils, peer mentoring, and involvement in school governance.

Continuous Improvement:

Engagement from all stakeholders is crucial for continuous improvement. Regular feedback from students, teachers, and parents helps identify areas for growth and development. This ongoing input ensures that the LEA can adapt and refine its strategies to better meet the evolving needs of the educational community.

Equity and Access:

Ensuring that all voices are heard, especially those from traditionally underrepresented or marginalized groups, is critical for promoting equity and access. By actively seeking and valuing diverse perspectives, the LEA can create a more inclusive environment where every member of the school community feels respected and valued.

In summary, the Charter School has developed the goal to increase meaningful and purposeful student, teacher, and parent engagement as Goal 2 in the LCAP because it is essential for enhancing academic achievement, fostering holistic development, building a stronger school community, and ensuring responsive and inclusive decision-making. This goal reflects our commitment to creating an educational environment where all stakeholders are actively involved and invested in the success and well-being of our students.

Goals and Actions

Goal

Goal #	Description	Type of Goal
3		

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The Charter School has prioritized the goal of providing an appropriate basic condition of learning because it is a fundamental aspect in creating an effective and equitable learning environment for all students. The following reasons explain the importance of this goal:

Foundational Requirement for Student Success:
 Ensuring that basic conditions of learning are met is a foundational requirement for student success. This includes providing safe, clean, and well-maintained facilities, access to up-to-date instructional materials, and appropriately credentialed teachers. These conditions are essential for creating an environment where students can focus on learning and achieve their full potential.

Equity and Access:
 Providing an appropriate basic condition of learning is critical for promoting equity and access. All students, regardless of their socioeconomic background or geographic location, should have access to the resources and conditions necessary for a quality education. This goal ensures that no student is disadvantaged due to inadequate learning conditions.

Compliance with State and Federal Standards:
 The LEA must comply with state and federal standards that mandate certain basic conditions of learning. This includes requirements related to facility maintenance, teacher qualifications, and the provision of instructional materials. By prioritizing this goal, the LEA ensures that it meets all regulatory requirements and maintains its commitment to high educational standards.

Supporting Effective Teaching:
 Teachers need a supportive environment to deliver high-quality instruction. This includes having access to necessary resources, functioning facilities, and a safe and conducive learning environment. By providing these basic conditions, the LEA supports teachers in their professional roles, enabling them to focus on teaching and improving student outcomes.

Health and Safety:

Ensuring that school facilities are safe and well-maintained is critical for the health and safety of students and staff. A clean, safe environment reduces the risk of accidents and illness, creating a space where students can learn without concerns for their well-being. This goal underscores the LEA's commitment to safeguarding the physical health of its school community.

Improving Student Engagement and Attendance:

A well-maintained and resource-rich learning environment positively impacts student engagement and attendance. When students feel safe and have access to the resources they need, they are more likely to attend school regularly and participate actively in their education. This, in turn, leads to better academic performance and overall school experience.

Enhancing Community Trust and Support:

Demonstrating a commitment to providing basic conditions of learning helps build trust and support within the community. Parents and stakeholders are more likely to support and engage with a school that visibly invests in creating a positive and effective learning environment. This goal reflects the LEA's dedication to meeting community expectations and fostering a collaborative educational ecosystem.

Foundation for Advanced Educational Goals:

Meeting basic conditions of learning lays the groundwork for achieving more advanced educational goals. Once the foundational needs are addressed, the LEA can focus on higher-order initiatives, such as innovative teaching practices, personalized learning, and comprehensive student support services. This goal ensures that the basic infrastructure is in place to support broader educational objectives.

In summary, the Charter School has developed the goal to provide an appropriate basic condition of learning as Goal 2 in the LCAP because it is essential for ensuring student success, promoting equity and access, supporting effective teaching, and complying with regulatory standards. This goal reflects the Charter School's commitment to creating a safe, resource-rich, and conducive learning environment where all students can thrive.

		<p>health services. This ensures that their children can benefit from these supports, which are crucial for their academic success.</p> <p>Increased Advocacy: Parents who are actively involved in their children's education are more likely to advocate for their needs, ensuring that their children receive the necessary support and accommodations. This can include seeking additional academic help, addressing issues related to school attendance, and ensuring their child's well-being.</p> <p>Improved Student Outcomes: Research shows that parental involvement is associated with higher student achievement, better attendance, and increased motivation. Socioeconomically disadvantaged students whose parents are engaged are more likely to perform better academically and have higher aspirations.</p> <p>Foster Youth:</p> <p>Stability and Continuity: For foster youth, having consistent adult involvement can provide much-needed stability and continuity. Engaging foster parents or guardians in the educational process helps ensure that these students have a consistent support system advocating for their educational needs.</p> <p>Emotional and Social Support: Engaged foster parents can provide emotional and social support, helping foster youth navigate the challenges they face both in and out of school. This support can improve their resilience, self-esteem, and overall well-being.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Tailored Educational Plans: Active involvement from foster parents or guardians ensures that foster youth receive personalized support tailored to their unique circumstances. This can include advocating for Individualized Education Plans (IEPs) or 504 Plans to address specific learning needs.</p> <p>Overall Impact on Student Achievement:</p> <p>Better School-Home Connections: Increasing parent engagement strengthens the connection between home and school. This partnership is essential for creating a cohesive support network for students, ensuring that parents are informed and involved in their children's education.</p> <p>Higher Academic Achievement: Engaged parents contribute to higher academic achievement by reinforcing the importance of education, providing academic support, and fostering a positive attitude towards learning.</p> <p>Improved Attendance and Behavior: When parents are involved, students are more likely to attend school regularly and exhibit positive behavior. This leads to a more conducive learning environment and better academic outcomes.</p> <p>Strategies for Increasing Parent Engagement:</p> <p>Language and Cultural Support: Provide multilingual communication and culturally relevant resources to ensure that parents of English learners feel welcomed and informed.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Workshops and Training: Offer workshops and training sessions for parents to equip them with the skills and knowledge to support their children's education effectively.</p> <p>Regular Communication: Establish regular communication channels, such as newsletters, parent-teacher conferences, and school apps, to keep parents informed and engaged.</p> <p>Parent Involvement Programs: Develop programs and initiatives that encourage parent participation in school activities, decision-making processes, and volunteer opportunities.</p> <p>Flexible Meeting Times: Schedule meetings and events at various times to accommodate the diverse schedules of parents, ensuring that all can participate.</p> <p>In summary, increasing parent engagement for English learners, socioeconomically disadvantaged students, and foster youth is vital for their academic success and overall well-being. By fostering strong partnerships between parents and schools, we create a supportive and inclusive educational environment that empowers students to reach their full potential.</p>	
2.2	<p>Action: Attendance Manager; School Nurse; 50%</p> <p>Need: Increase the number of identified staff to assist with the engagement of students for English</p>	<p>Increasing the number of identified staff to assist with the engagement of students, particularly English learners (ELs), socioeconomically disadvantaged students, and foster youth, can significantly improve their academic and overall well-being. Here's how this strategy benefits these specific groups:</p>	<p>Engagement Survey: Student Satisfaction will continue to increase</p> <p>Suspension Rates: Rates will remain low</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>learners, socioeconomically disadvantaged, and Foster Youth.</p> <p>Scope: LEA-wide Schoolwide</p>	<p>English Learners (ELs):</p> <p>Specialized Support: Additional staff members who are trained in English as a Second Language (ESL) or English Language Development (ELD) can provide targeted support to ELs. These staff can deliver specialized instruction, helping students improve their language proficiency and academic performance.</p> <p>Cultural Liaison: Staff members who understand the cultural backgrounds of ELs can act as cultural liaisons, bridging the gap between home and school. This helps in creating a more inclusive and supportive environment for ELs.</p> <p>Individualized Attention: Increasing staff allows for more individualized attention and personalized learning plans, addressing each student's unique needs and helping them progress at their own pace.</p> <p>Socioeconomically Disadvantaged Students:</p> <p>Resource Coordination: Additional staff can help coordinate resources and support services, ensuring that socioeconomically disadvantaged students have access to necessary supplies, tutoring, and extracurricular activities. This can mitigate the impact of socioeconomic challenges on their academic performance.</p> <p>Academic Support: More staff means more availability for one-on-one tutoring, homework help, and academic interventions. This support is</p>	<p>Expulsion Rates: Rates will remain low</p> <p>Chronic Absenteeism Rates: Charter School will maintain a chronic absenteeism rate below the state average.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>crucial for helping students stay on track and achieve their educational goals.</p> <p>Emotional and Social Support: Dedicated staff can provide emotional and social support, helping students navigate the challenges they face outside of school. This includes counseling services, mentorship programs, and social-emotional learning initiatives.</p> <p>Foster Youth:</p> <p>Case Management: Additional staff can serve as case managers for foster youth, providing consistent support and advocacy. They can coordinate with social services, foster families, and educators to ensure that foster youth receive the stability and continuity they need.</p> <p>Personalized Support Plans: With more staff, schools can develop and implement personalized support plans that address the unique educational and emotional needs of foster youth. This includes academic support, mental health services, and life skills training.</p> <p>Advocacy and Monitoring: Extra staff can closely monitor the progress of foster youth, advocating for their needs and ensuring that they receive appropriate accommodations and interventions. This helps in preventing any gaps in their education due to frequent changes in living situations.</p> <p>Overall Impact on Student Achievement:</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Improved Academic Outcomes: With increased staff, students receive more personalized and targeted support, leading to better academic performance and higher graduation rates.</p> <p>Enhanced Engagement: More staff can create and maintain engaging educational experiences, making students feel more connected and motivated to participate in school activities.</p> <p>Stronger Relationships: Additional staff can build strong, trusting relationships with students, providing the support and encouragement they need to succeed both academically and personally.</p> <p>Strategies for Increasing Staff to Assist with Student Engagement:</p> <p>Hiring Specialized Staff: Recruit staff with expertise in ESL/ELD, special education, counseling, and social work to provide comprehensive support to students.</p> <p>Professional Development: Offer professional development opportunities to existing staff to equip them with the skills needed to effectively support ELs, socioeconomically disadvantaged students, and foster youth.</p> <p>Collaboration with Community Organizations: Partner with community organizations to bring in additional resources and personnel who can assist in meeting the needs of these student groups.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Creating Dedicated Roles: Establish dedicated roles such as student engagement coordinators, family liaisons, and academic advisors who focus specifically on supporting these student populations.</p> <p>Regular Monitoring and Assessment: Implement regular monitoring and assessment to identify students' needs and adjust support strategies accordingly.</p> <p>In summary, increasing the number of identified staff to assist with the engagement of students, particularly English learners, socioeconomically disadvantaged students, and foster youth, is a strategic approach to improving their academic success and overall well-being. This investment in human resources ensures that all students receive the personalized and targeted support they need to thrive in their educational journey.</p>	
2.3	<p>Action: Student Activities</p> <p>Need: Provide student activities to engage students in learning for English learners, socioeconomically disadvantaged, and Foster Youth.</p> <p>Scope: LEA-wide Schoolwide</p>	<p>The following are student activities designed to engage English learners, socioeconomically disadvantaged students, and foster youth in learning, tailored to their specific needs:</p> <p>English Learners (ELs):</p> <p>Language Immersion Programs: Create language immersion programs that integrate ELs with native English speakers in interactive and collaborative activities. These programs can include conversational clubs, language exchange partnerships, and cultural events that encourage language practice in a real-world context.</p>	<p>Engagement Survey: Student Satisfaction will continue to increase</p> <p>Suspension Rates: Rates will remain low</p> <p>Expulsion Rates: Rates will remain low</p> <p>Chronic Absenteeism Rates: Charter School will maintain a chronic</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Bilingual Tutoring: Offer bilingual tutoring sessions where students can receive help in their native language while learning English. This support can help ELs better understand complex subjects and improve their overall academic performance.</p> <p>Technology-Enhanced Learning: Utilize language learning apps, online resources, and educational software to provide interactive and engaging English language instruction. Activities can include language games, virtual field trips, and multimedia projects.</p> <p>Cultural Heritage Projects: Encourage students to create projects that explore and celebrate their cultural heritage. These projects can include presentations, artwork, and written reports that allow ELs to share their backgrounds and build confidence in their language skills.</p> <p>Socioeconomically Disadvantaged Students:</p> <p>After-School Programs: Develop after-school programs that provide academic support, enrichment activities, and recreational opportunities. These programs can include homework help, STEM clubs, art and music classes, and sports activities, ensuring students have a safe and supportive environment after school hours.</p> <p>Mentorship Programs: Establish mentorship programs that pair students with adult mentors who can provide guidance, support, and encouragement. Mentors can help students set</p>	<p>absenteeism rate below the state average.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>academic and personal goals, navigate challenges, and explore future career paths.</p> <p>Service Learning Projects: Engage students in service learning projects that connect classroom learning with community service. These projects can help students develop leadership skills, build a sense of civic responsibility, and apply their knowledge to real-world situations.</p> <p>Field Trips and Experiential Learning: Organize field trips to museums, science centers, universities, and local businesses to provide hands-on learning experiences. These trips can broaden students' horizons and expose them to new opportunities and career possibilities.</p> <p>Foster Youth:</p> <p>Personalized Learning Plans: Develop personalized learning plans that address the unique academic and social-emotional needs of foster youth. These plans can include tailored academic support, counseling services, and flexible scheduling to accommodate changes in living situations.</p> <p>Life Skills Workshops: Offer workshops that teach essential life skills such as financial literacy, time management, goal setting, and self-advocacy. These skills can help foster youth navigate their education and prepare for independent living.</p> <p>Support Groups: Create support groups where foster youth can connect with peers who share similar experiences. These groups can provide a</p>

		<p>safe space for students to discuss challenges, share resources, and build a sense of community.</p> <p>College and Career Readiness Programs: Implement college and career readiness programs that provide foster youth with information and resources about higher education and career options. Activities can include college visits, career fairs, application assistance, and job shadowing opportunities.</p> <p>Overall Engagement Strategies:</p> <p>Project-Based Learning: Implement project-based learning (PBL) across all student groups to make learning more engaging and relevant. PBL encourages students to explore real-world problems and collaborate on meaningful projects, enhancing critical thinking and problem-solving skills.</p> <p>Interactive Technology: Integrate interactive technology tools, such as interactive whiteboards, tablets, and online collaboration platforms, to create dynamic and engaging learning experiences. Technology can facilitate personalized learning and make complex subjects more accessible.</p> <p>Parent and Community Involvement: Engage parents and community members in student activities to create a supportive network around students. This involvement can include family nights, community events, and volunteer opportunities that strengthen the connection between school and home.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>By implementing these student activities, the LEA can create a supportive and engaging educational environment that addresses the specific needs of English learners, socioeconomically disadvantaged students, and foster youth. These activities foster academic success, build essential skills, and enhance overall student well-being.</p>	
<p>3.1</p>	<p>Action: Salaries and benefits</p> <p>Need: Provide professional development to ensuring student success for English learners, socioeconomically disadvantaged, and Foster Youth.</p> <p>Scope:</p>	<p>The following are professional development activities aimed at ensuring student success for English learners, socioeconomically disadvantaged students, and foster youth:</p> <p>English Learners (ELs):</p> <p>Culturally Responsive Teaching: Offer training on culturally responsive teaching practices that recognize and value the diverse cultural backgrounds of ELs. This includes strategies for integrating students' cultural contexts into the curriculum and creating an inclusive classroom environment.</p> <p>Language Acquisition Strategies: Provide professional development on effective language acquisition strategies, such as Sheltered Instruction Observation Protocol (SIOP), Total Physical Response (TPR), and dual-language programs. These strategies help teachers support ELs in acquiring English while mastering content.</p> <p>Assessment and Differentiation: Train teachers on differentiating instruction and assessment for ELs. This includes using formative assessments to</p>

	<p>learners, socioeconomically disadvantaged, and Foster Youth.</p> <p>Scope: LEA-wide Schoolwide</p>	<p>Language Learning Software: Invest in language learning software such as Rosetta Stone, Duolingo, or Imagine Learning that offers personalized and interactive language instruction tailored to individual proficiency levels.</p> <p>Digital Translation Tools: Provide access to digital translation tools and apps, such as Google Translate, to assist ELs in understanding and completing assignments. This can help bridge language barriers and support comprehension.</p> <p>Interactive Whiteboards: Utilize interactive whiteboards in classrooms to make lessons more engaging and accessible. Teachers can use these tools to incorporate multimedia content, visual aids, and interactive activities that support language development.</p> <p>Online Reading Programs: Offer subscriptions to online reading programs like Raz-Kids or Epic! that provide leveled reading materials and interactive features to support literacy development in both English and students' native languages.</p> <p>Socioeconomically Disadvantaged Students:</p> <p>Chromebooks/Tablets: Provide Chromebooks or tablets to ensure that every student has access to a personal device for learning, both in school and at home. This helps bridge the digital divide and ensures equitable access to technology.</p> <p>Wi-Fi Hotspots: Distribute Wi-Fi hotspots to families who lack reliable internet access at home. This ensures that students can complete online</p>	<p>standard met or exceeded will increase 2-3% in ELA and Math on the CAASPP each year.</p> <p>California Science Test (CAST) Percentage of students and subgroups scoring standard met or exceeded will increase 2-3% in Science on the California Science Test (CAST).</p> <p>i-Ready Assessments: Percentage of students scoring at or above grade level will increase 2-3% in ELA and Math on the i-Ready assessments each year.</p> <p>i-Ready Assessments: Percentage of students that meet their Typical Growth will be Above 50%</p> <p>California School Dashboards Status and Change Report and Equity Report: School will show annual progress toward meeting the needs of all students on the California School Dashboards Status and</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>assignments and participate in virtual learning without connectivity issues.</p> <p>Educational Apps and Software: Equip students with educational apps and software that support core subjects like math, science, and reading. Examples include Khan Academy, IXL, and Mathletics, which offer personalized learning paths and practice exercises.</p> <p>Virtual Tutoring: Implement virtual tutoring programs that provide students with access to online tutors for additional academic support outside of regular school hours. This can be particularly beneficial for those needing extra help with challenging subjects.</p> <p>Foster Youth:</p> <p>Adaptive Learning Platforms: Utilize adaptive learning platforms like DreamBox or ALEKS that adjust to each student's learning pace and provide customized instruction based on their unique needs and progress.</p> <p>Online Counseling and Mentorship: Provide access to online counseling and mentorship programs that offer social-emotional support and guidance. Platforms like Talkspace or MentorMe can connect foster youth with counselors and mentors remotely.</p> <p>E-Portfolios: Encourage the use of e-portfolios where foster youth can document their academic progress, achievements, and personal reflections.</p>	<p>Change Report and Equity Report.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>This digital tool helps them track their growth and set future goals.</p> <p>Life Skills Training Programs: Offer access to online life skills training programs that cover topics such as financial literacy, career planning, and independent living skills. These programs can help foster youth prepare for life beyond school.</p> <p>Overall Technology Integration Strategies:</p> <p>Learning Management Systems (LMS): Implement a robust LMS such as Google Classroom, Canvas, or Schoology to streamline communication, distribute assignments, and provide a centralized platform for learning resources. This ensures that all students have easy access to their coursework and instructional materials.</p> <p>Professional Development for Teachers: Provide professional development for teachers on integrating technology into their instruction effectively. Training should cover using digital tools, creating interactive lessons, and leveraging data from educational software to inform instruction.</p> <p>Assistive Technology: Invest in assistive technology for students with disabilities, ensuring that they have the necessary tools to participate fully in the instructional program. Examples include speech-to-text software, screen readers, and adaptive keyboards.</p> <p>Digital Literacy Programs: Develop digital literacy programs to teach students how to use technology</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>responsibly and effectively. This includes lessons on internet safety, research skills, and digital citizenship.</p> <p>Monitoring and Evaluation:</p> <p>Usage Tracking: Implement systems to track the usage and effectiveness of the provided technology. This can include monitoring software usage statistics, student performance data, and feedback from students and teachers.</p> <p>Continuous Improvement: Use the data collected to continuously improve the technology integration strategy, making adjustments based on what is working well and what needs enhancement. Regularly update the technology resources to keep pace with advancements and changing student needs.</p> <p>By providing additional technology to enhance the basic instructional program, the LEA can support the unique needs of English learners, socioeconomically disadvantaged students, and foster youth. This investment in technology helps create an equitable and engaging learning environment, promoting academic success and overall student well-being.</p>	

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
-------------------	--------------------	---	------------------------------------

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A - LEA is a Single Site Charter School
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A - LEA is a Single Site Charter School

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).

- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in EC sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of EC sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain

accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.

- For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
- As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
- These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8).

Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If “Yes” is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as

a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

- This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**

- This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

- **7. Total Estimated Actual Expenditures for Contributing Actions**

- This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**

- This amount is the total of the Planned Percentage of Improved Services column.

- **8. Total Estimated Actual Percentage of Improved Services (%)**

- This amount is the total of the Estimated Actual Percentage of Improved Services column.

- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**

- This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
