

Yearly Physical/Annual Wellness Exams:

****Please read carefully and if you have any questions, we will be happy to assist you****

How often is a physical exam covered?

You can get a physical examination once a year to develop or update your personalized current health and risk factors.

Your cost for this visit:

You pay nothing for this yearly visit, as long as the provider sees you for just your physical examination. If any other issues are addressed during your visit (i.e., medication refills, addressing pain or upper respiratory infections) or if you need any diagnostic test ordered (i.e., x-rays or ultrasounds), your office visit copay of \$15 or \$30 will be due at the time of your exam.

Labs for today's visit:

During your visit today, your provider will order lab work. If you are fasting, it will be drawn today. If you are not fasting, an order will be held in the lab for 30 days. If you fail to come within the 30 days, you will need to schedule an appointment with a provider before the labs can be reordered.

Please check (one) the appropriate box:

- I have read the above, and I fully understand that I am here for my yearly/annual visit **ONLY**, and I am not requesting any other service/testing by the provider.
- I have other issues that I would like addressed by my provider on this visit, and I will pay my copay today.
