

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Hacienda La Puente Unified School District
CDS Code: 19-73445
School Year: 2024-25
LEA contact information: Blanca Risco 626-933-4340 brisco@hlpusd.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2024-25 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue Hacienda La Puente Unified School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Hacienda La Puente Unified School District is \$316,983,040.00, of which \$222,317,549.00 is Local Control Funding Formula (LCFF), \$58,045,260.00 is other state funds, \$6,182,341.00 is local funds, and \$30,437,890.00 is federal funds. Of the \$222,317,549.00 in LCFF Funds, \$52,069,909.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Hacienda La Puente Unified School District plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Hacienda La Puente Unified School District plans to spend \$347,775,313.00 for the 2024-25 school year. Of that amount, \$260,208,767.00 is tied to actions/services in the LCAP and \$87,566,546.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Funds not included in the LCAP include district services and departments (except for those specifically included), insurance and utilities, funds budgeted for vacant positions not expected to be filled in the upcoming year, bookkeeping transfers, other transfers/expenditures that do not benefit students, and district budget items for unforeseen needs.

Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, Hacienda La Puente Unified School District is projecting it will receive \$52,069,909.00 based on the enrollment of foster youth, English learner, and low-income students. Hacienda La Puente Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Hacienda La Puente Unified School District plans to spend \$59,519,030.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what Hacienda La Puente Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Hacienda La Puente Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, Hacienda La Puente Unified School District's LCAP budgeted \$62,665,196.00 for planned actions to increase or improve services for high needs students. Hacienda La Puente Unified School District actually spent \$58,132,907.00 for actions to increase or improve services for high needs students in 2023-24. The difference between the budgeted and actual expenditures of \$4,532,289.00 had the following impact on Hacienda La Puente Unified School District's ability to increase or improve services for high needs students:

Some planned expenditures for actions and services to increase or improve services for high needs students that were budgeted in the LCAP ended up being paid for with emergency relief funds, so the planned activities still happened, just with a different funding source. This difference did not impact the actions and services and the overall increased or improved services for high needs students in 2023-24.

2023-2024 Local Control and Accountability Plan Annual Update

The instructions for completing the 2023-2024 Local Control and Accountability Plan (LCAP) Annual Update follow the template.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Actions and services for Goal 1 Conditions of Learning were generally implemented as planned.

1.1 In the 2023-24 school year, the HLPUSD Teacher Induction Program successfully enrolled 36 teacher candidates with preliminary teaching credentials, with 23 candidates in their second year expected to complete the program. A crucial determinant for their recommendation for clear teaching credentials to the California Commission on Teacher Credentialing (CTC) is the submission of their Individual Learning Plan (ILP) alongside evidence showcasing growth aligned with the California Standards for the Teaching Profession (CSTP). Actions included ongoing revision of the ILPs and providing ongoing mentoring support. Many candidates showed growth, with positive feedback on the program's job-embedded mentoring system.

1.2 Every student had textbooks for each course. HLPUSD did not have any Williams complaints for the school year. Adopted curriculum for each content area has been implemented districtwide.

1.3 Facilities worked diligently to ensure clean, safe, and well-maintained facilities districtwide. Additional custodians were hired to ensure cleanliness at schools and particularly in restroom facilities.

1.4 District services and departments helped ensure high quality instructional programs districtwide.

1.5 and 1.10 The District ensured that all students had access to technology by maintaining the 1:1 technology to student ratio program and implementing a refresh cycle. Students in TK-K receive an iPad and students in 1st, 5th, and 9th grade will receive a new laptop.

1.6 Transportation services transported both special education students and general education students per Board Policy guidelines.

1.7 Breakfast and lunch are offered at all locations. To increase access to breakfast, 15 of our schools launched nutrition services. We continue our community eligibility provision (CEP) and serve breakfast and lunch meals free of charge. The supper program continued at qualifying school sites. Training was provided to all program directors and coaches coordinating and supervising the programs.

1.8 Insurance and utilities were paid in a timely manner.

1.9 The PD Calendar shows evidence of professional learning offered each month across content and grade level spans from the Ed Services Division. PD includes CAASPP/SBAC and technology alignment and is based on assessment data. Consultant services were utilized to increase districtwide use of research-based instructional practices and data analysis to increase student performance.

1.11 Multilingual department provided professional development to school sites throughout the year with a focus on the CA ELD Standards Implementation. The Observation Protocol for Teachers of English Learner (OPTL) was introduced.

1.12 Schools have textbooks, consumables, online resources, and equipment to implement CA Academic standards.

1.13 Both the district and school sites invest in services and personnel to increase unduplicated students' access to academic standards. Ongoing TOSA Support throughout the year was provided to build professional capacity.

1.14 HR Department worked with school sites to limit the number of combination classes.

1.15 MS and HS counselors provided inclusive comprehensive educational counseling services and ensured the expansion of course access. Schools provided augmented services that included comprehensive application assistance, one-to-one college and career preparation support.

1.16 Master schedule is designed annually, and open access is provided for students. All electives are a-g (the last non- a-g electives at the high school were discontinued this year).

1.17 Master Plan for English Learners was updated this year and will be combined with the Dual Immersion Master Plan and renamed the Multilingual Master Plan in the coming year.

1.18 Overall implementation of the actions was achieved in collaboration with Foster Youth Liaison. Foster Youth and their caregivers were provided with resources and support throughout the school year to ensure school stability and academic success.

1.19 The Multilingual Department worked closely with middle schools and high schools to ensure sites' awareness of students in need of additional supports and interventions to ensure reclassification as soon as possible. In addition, RFEP students were monitored and students not making progress were provided additional support.

1.20 A group of administrators, teachers, and counselors developed the district metrics to meet the state criteria for the State Seal of Civic Engagement. Youth Participatory Action Research (YPAR) was designed as the method to achieve the community project. Ethnic Studies teachers were trained in implementing YPAR. In Ethnic Studies in each of the 4 comprehensive high schools, students participated in the YPAR projects.

1.21 A full time TOSA was hired to support the WECAN program (dual enrollment) at Workman High School and served as the liaison with Mt. SAC for the "warm hand off." Beginning in Summer 2023, the cohort took their first college course. In the 2023-24 school year the first cohort took 1 dual enrollment course each semester. Los Altos High School added dual enrollment during the school day. College Access Plan (CAP) provides students and families college counseling targeting first generation and students on free and reduced lunch. In 2023, CAP hosted College 101 workshops for juniors at each of the 4 comprehensive school sites and in Fall 2023 started a College Essay Workshop at each of the schools.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Material differences between budgeted and estimated actual expenditures include: action 1.2, the Modern Language Textbook Adoption process was supposed to take place in 2022-23 but was rescheduled to the 2023-24 school year to allow more time for the Curriculum Committee to thoroughly evaluate instructional materials; actions 1.3 - 1.4 include salary and benefits increases; action 1.5 included the laptop refresh which was paid using a different funding source; action 1.9 course outline development was moved to the 2024-25 school year; actions 1.13 and 1.21 due to a number of certificated and classified positions that were unfilled in the 2023-24 school year. These vacancies were hard to fill due to the teacher shortages, sub shortages, and classified applicant shortages. For the remaining actions, there are no material differences between budgeted and actual expenditures. Overall, the actions/services were implemented as described, with any adjustments made to funding as needed to address actual implementation over the course of the year.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

1.1 The effectiveness of a Teacher Induction Program lies in its ability to provide a robust job-embedded mentoring system and just-in-time support, fostering continuous growth and cultivating collaboration among new teachers. The emphasis on personalized support, ongoing learning, and collaboration creates a supportive environment where new teachers can thrive, contributing to their professional development and ultimately benefiting the students they teach and the education system. HLPUSD's induction program was effective in developing and retaining a diverse, skilled teaching workforce.

1.2 The action is effective as 100% of students had access to their textbooks and online content resources were available to students to access. The Williams requirement was met.

1.3 District Departments have ensured facilities are clean, safe, well-maintained and in good repair as measured by the Facility Inspection Tool and therefore met the Williams Requirement.

1.4-1.8 and 1.10 Provided district services and departments, technology infrastructure, transportation services, food services, insurance and utilities. Actions were effective as HLPUSD provided essential services to best support all district students and families.

1.9 The Education Services Division offers PD from each Department: Curriculum, Instruction, and Assessment, Data and Research, Multilingual, Equity and Access, Student and Family Services, Special Education, Induction/Coordinator of Instructional Services, Ethnic Studies, and VAPA. These departments, in addition to school sites, offer a wide variety of diverse training during the school year. The PD offerings were effective as deemed by staff surveys.

1.11 Providing supplemental actions and services and professional development of teachers of English learners was effective as evident in the number of EL students who progressed at least one ELPI level.

1.12 and 1.13 HLPUSD school sites continuously analyze data to assess the return on investment for each program. School sites monitored how frequently students use services and interventions to determine if supports will continue based on effectiveness. Online subscriptions purchased by school sites were effective in engaging students and increasing student achievement.

1.14 Reducing combination classes is effective in increasing the number of students' one-to-one interactions with teachers.

1.15 MS and HS counselors effectively worked with students in completing an Academic Plan which maps out a 4-year academic plan in high school and or 7-year Academic Plan starting with 6th grade. The purpose is to lay out a plan to meet the Graduation Requirements and for students to be able to track their progress.

1.16 Per the 2023 CA Dashboard CCI information, 52.4% of students are prepared, 44.6% Hispanic, 33% EL, 48.1% low-income, 13.4% SWD, 18.2% Foster youth, and 23.5% homeless. Master scheduling for access and equity is effective in increasing the number of students prepared.

1.17 and 1.19 Implementing the EL Master Plan is effective in ensuring our EL students are receiving the program and services required.

1.18 Foster Youth Liaison and collaboration with school sites was effective in ensuring the actions were achieved. In 2023-24, personalized support was provided for post-secondary goals (college, career technical school employment) by assisting with the program application process and financial aid. Foster Youth Liaison will continue to work closely with school site administrators, counselors, staff, and community providers to coordinate interventions and support.

1.20 State Seal of Civic Engagement was earned by 145 students, thereby exceeding the goal set of 75. This action has been effective.

1.21 WECAN began the 2022-23 school year with a cohort of 26 students. In the summer of 2023, the cohort took their first dual enrollment courses, with 25 of 26 earning college credit. In the 2023-24 school year the freshman cohort grew to 36 students, the sophomore cohort grew to 29 students where they took 2 college courses of 3 units each and all 29 passed first semester, second semester is still pending. For summer 2024 the 35 rising sophomores are enrolled in 1 college class and the 28 rising juniors are enrolled in 2 college classes, a science plus a lab. The dual enrollment has been very well received and effective. Equity and Access provides additional support to ensure that student's credits, grades, and attendance are monitored. Collaborating with school teams by providing personalized case management to ensure students stay on track academically has been effective in ensuring student success.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A new action, Technology Integration, will be added to goal1 for the 2024-25 school year. In addition to ensuring all low income, English learners, and foster youth have access to technology with 1:1 devices, the District has found technology integration to be an effective practice in supporting students in personalized goal setting, more creativity in student work samples, greater access to information, and increased quality of student work.

Actions 1.4 District Services and Departments, 1.6 Transportation Services, 1.7 Food Services, and 1.8 Insurances and Utilities will not continue as actions listed in the 2024-25 LCAP. However, the LCFF expenditures will be included in the Budget Overview for Parents. Actions1.10 and 1.19 will be combined with other similar actions as information tended to be repetitive.

To address teacher misassignments reported on the 2022-23 CalSAAS "Detail Report", Human Resources will adjust practices and procedures in place to ensure high quality, properly credentialed, and EL authorized teachers are hired and maintained in teaching positions for which they are fully credentialed to teach.

New metrics for Priority 7- course access will be added to Goal 1. The new metrics include: 2023-2024 Enrollment in at least one CTE course for 9th-12th Grade Students and Enrollment in at least one AP course for 11th and 12th. The metrics will include student groups as the District is committed to increasing course access for low income, English learners, foster youth, and students with disabilities.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Agree/Strongly Agree that the school prepares students for career: 62%.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Actions and services for Goal 2 Student Outcomes were generally implemented as planned.

2.1 HR hired highly qualified teachers for grades TK-12 in the 2023-24 school year.

2.2 HLPUSD continued to provide highly qualified teachers to implement the districtwide TK-12 instructional program; class-size reduction in grades TK-3; Special Education and Early Childhood programs. Additional staffing helped reduce the number of combination classes in highly impacted TK-6 schools. Teachers were able to provide individualized support and conduct one-on-one data chats. Small group interventions were provided with the smaller class sizes.

2.3 Early Childhood Education programs were offered throughout the district.

2.4 In the 2023-24 school year, there were 51 K-12 teachers across 21 schools implementing C-STEM curriculum and online subscription. Teachers learn C-STEM K-12 Math, CS, and Engineering Design with Robotics lessons. In addition, the teachers attended in-person and online training and were provided with program support. CSTEM was added to high schools. In 2023-24, each high school offered Integrated Math 1 with computing and robotics, and Integrated Math 2 with computing and robotics. APEX was used at high schools to provide credit recovery. The district also continued support for schools in New Pedagogies for Deep Learning (NPDL) to foster student learning and authentic engagement with the six global competencies. Equity and Access Department provided Professional Development in the areas of trauma informed practices, suicide prevention, and linkages to mental health services.

2.5, 2.16, and 2.17 Education Services Division support staff, including TOSAs and Coordinators, expanded instructional supports for school sites, teachers and students, including PD for teachers per the PD plan & calendar, as well as push-in services to schools and school PLC teams. Equity, Access, & Family Engagement Department provided students requiring additional support to help close the achievement gap with targeted supports to ensure academic success. The success of this goal is due to the collaboration with school sites to address barriers to learning. Multilingual Department worked with site based EL Program Facilitators to ensure effective EL program implementation and with the Special Education Department to ensure the needs of dually identified students are being met.

2.6 Professional Development offerings were increased in 2023-24 to support districtwide instructional program improvement. A new approach was implemented this year: lesson modeling was provided virtually to numerous grade level teachers.

2.7 High school graduation requirements remained the same but will be updated next year. We do require more than the minimum, specifically in math, to promote college readiness. Added College Access Plan to provide targeted support for college preparation counseling. Summer school at the high school had multiple facets: a) general high school hosted at the school sites, b) Mt. SAC high school summer school where Mt. SAC pays teachers and students get high school credit only, c) online summer school through Puente Hills, d) Summer grad program for seniors who do not graduate and are within 35 credits and need to graduate, and e) dual enrollment summer school with Mt. SAC at Workman High School where students receive both high school and college credit.

2.8 HLPUSD currently has 24 High School CTE programs, 4 middle school CTE programs, in 13 career pathways in 10 industry sectors. 2 programs use Project Lead the Way. Eighteen high school programs are in STEAM and 4 middle school programs in Art. HLPUSD is working to implement apprenticeships in the education field in 2024 and is in the process of registering with the Department of Labor and the Department of Apprenticeship Standards. HLPUSD is working to build apprenticeships in the Information Technology field beginning in the fall of 2025.

2.9 The Special Education/SELPA Department focused on ensuring that special education and related services were provided to each student in accordance with their Individualized Education Program (IEP); implementing the Coordinated Comprehensive Early Intervening Services (CCEIS) action plan; and provided a variety of professional development opportunities to a variety of groups. The professional development opportunities were specifically tailored for each group (i.e., instructional aides, psychologists, speech language pathologists, etc.) and/or school site. Additionally, parent training was also provided in order to best support home-to-school partnerships.

2.10 School sites purchased materials and supplies as core academic program supports. Staff attended conferences and trainings and analyzed data to plan supports and interventions to address students' needs.

2.11, 2.13, and 2.22 Sites provide training and teacher collaboration time based on the needs assessment conducted at each school site. Afterschool interventions and small group tutoring sessions were provided to students by certificated and classified staff to support content and language acquisition.

2.12 EL Data and Assessment TOSA trained bilingual instructional aides to effectively support English learners in the classroom. Bilingual aides were provided frequent training to ensure they were adequately meeting the needs of all EL students including newcomers and long-term English learners.

2.14 and 2.23 Implementation of support services to foster youth were clearly articulated in this goal. Foster Youth Liaison, school site administrators and counselors supported coordination of interventions, supports, and resources on site and referrals to needed services within and outside the school district.

2.15 HLPUSD offered supplemental, culturally based English Language Arts and Math programs, a civic engagement class, academically based extra-curricular activities, two dedicated counselors at both the TK-5th grade and 6-12th grade levels, who provide support for migrant students and their families. Parent selected workshops were offered throughout the year.

2.18 The Dual Immersion Program implemented an 8th grade capstone project this school year. Students and parents were very receptive and found the project very engaging and culturally responsive. In 2023-24, the Korean DI program expanded to 7th grade and one of our elementary Spanish programs expanded to 4th grade.

2.19 Individualized training was provided to each site administrator by NWEA to analyze the school site's specific data, identify areas of strengths and weaknesses, and plan next steps.

2.20 Valley currently has a Design Visual Media Arts Pathway and in 2024 will move to a Business Pathway. HLPUSD has 24 high school programs, 4 middle school programs in 13 career pathways in 10 industry sectors. Middle schools have CTE elective courses. HLPUSD is working to align the middle school CTE pathways to the feeder high schools. There are 4 middle school teachers that earned CTE credentials and now 4 official middle school CTE pathways aligned to their respective high schools.

2.21 Site administrators identified unduplicated students to increase participation in signature programs such as Youth Cinema Program camp and Speech and Debate school year and camp programs. Low enrollment can potentially be attributed to transportation needs to and from after school programs as well as scheduling conflicts with student responsibilities after school hours. Supplemental summer learning kits were purchased for all rising TK-6 grade students and online learning programs for all TK-12 grade students. Challenges preventing 100% school participation in Science Olympiad included difficulty staffing the coaching assignment.

2.24 VAPA TOSAs worked with school sites to integrate VAPA schoolwide and districtwide. Offering unduplicated students access during the school day provided students with a well-rounded, rich educational experience.

2.25 HR ensured the schools were staffed properly with Media Center Aides and secondary schools with Media Center Clerks. We have a District Librarian

position, which has gone unfilled this school year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Similar to Goal 1, material differences between budgeted and estimated actual expenditures in Goal 2 include a number of actions due to the extensive number of certificated and classified positions that continued to be unfilled in the 2023-24 school year. These vacancies were hard to fill due to the teacher shortages, substitute shortages, and classified applicant shortages. Actions that were monetarily impacted due to staff shortages include 2.4, 2.5, 2.6, and 2.9. For action 2.20, the number of CTE pathways were increased at the high schools.

For action 2.5, Equity and Access and Student and Family Services staff provided additional coordination of services for high priority students. For action 2.8, the District hired more CTE staff to support students' college and career readiness.

For the remaining actions, there are no material differences between budgeted and actual expenditures. Overall, the actions/services were implemented as described, with any adjustments made to funding as needed to address actual implementation over the course of the year.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

2.1, 2.2, 2.4, and 2.5 By providing highly qualified teachers (action 2.1), reducing class size (action 2.2) to support unduplicated students' learning and academic achievement, implementing District Title I, Title II, Title III, and Title IV programs for supplemental support to increase student achievement districtwide (action 2.4), and increasing academic support services (action 2.5), HLPUSD's has fared better than the state average in student achievement in both ELA and Math.

2.3 All preschool students are assessed during the school year using the Desired Results Development Profile, a research-based observation tool, to determine the developmental level of each student in the areas of personal and social competence, effective learning, physical and motor competence, and health and safety. Results indicate students are prepared for TK.

2.6 The number of staff attending optional afterschool professional development offerings is low. The District will need reconsider offering PD at different times during the day including using late start/early release time.

2.7 College Access Plan reached 241 high school students. In 2023-24 there were 90 students who took part in the College 101 course, an increase of 23 students from the previous year. 75% of the students in the College 101 course are first generation college students. In 2023-24 College Access Plan added the College Essay Writing Course serving 56 students and 52% of the students are first generation. The program was very well received by students and parents.

2.8 HLPUSD currently has 24 High School CTE programs and 4 middle school programs in 13 career pathways in 10 industry sectors, and 2 pathways use PLTW. 18 high school Pathways are in STEAM and 4 middle school pathways in Art. Students earn certificates through Bright Path by YouScience, ServSafe, OSHA, CPR/First Aid, NECI, and through Willow Adult School. This action was effective in supporting unduplicated students' college and career readiness.

2.9 The Special Education/SELPA Department is effective in providing students with disabilities with equitable access to opportunities and resources provided to all students and providing services and supplemental aids as outlined in their Individualized Education Program (IEPs) to meet their unique needs.

2.10 Evidence-based interventions and progress monitoring significantly reduced the number of school sites in ATSI from 29 schools down to 4 schools in

2023-24.

2.11 and 2.21 Schoolwide supports to increase low income, English learners, and foster youth students' academic achievement continued to be implemented. Teacher collaboration and professional development took place after school due to substitute shortages. Afterschool interventions helped close the achievement gap. The 2023-24 LCAP Survey findings indicate that 69% of respondents agree/strongly agree that the school prepares students for college and 62% agree/strongly agree that the school prepares students for career, an increase from 2022-23 of 7% and 6% respectively.

2.12, 2.13, 2.16, 2.17, and 2.22 Supports to increase English learners' academic achievement continue to be implemented. These supports have had a positive impact on English proficiency. The CA Dashboard English Learner Progress Indicator reports that 52.6% of HLPUSD English learners have made progress towards English Proficiency as measured by the ELPAC which is higher than the state average.

2.14 and 2.23 The actions were effective and made significant positive outcomes for foster youth graduation rates of 81.8% per the 2023 CA Dashboard. Working in collaboration with school sites to address academic achievement in both ELA and Math which including frequent progress monitoring increased both ELA and Math performance levels for foster youth on the 2023 CA Dashboard from 2022.

2.15 Migrant Education Program saw a greater number of students participating in the ELA and Math afterschool courses. Counselors working with the high school students to ensure students were on track to graduate saw an increase in course grades.

2.18 Dual Immersion Program Support increased the number of English learners participating in the program. The DI program continues to expand into new grade levels and an 8th grade capstone project was introduced this year with positive parent feedback.

2.19 Aeries Analytics was used to analyze data and helped administrators monitor data effectively on a continuous basis to adjust actions and services to help meet desired outcomes.

2.20 Currently 4 of the 10 middle schools have actual CTE Pathways. The high school pathways are growing and will grow by 1 more in 2024-25. CTE course access satisfaction has increased per LCAP Student Advisory Committee feedback.

2.21 Participants in the Speech and Debate increased to 65% low income, 5% EL, and 6% SWD for the 2023-24 school year program. In addition, 91 out of 95 quality survey respondents indicated they would likely or very likely recommend the program to a friend and 92 out of 95 indicated they plan to continue in the program. Recruitment for Youth Cinema Project Summer Camp is in progress. Furthermore, for Science Olympiad, 23 of 23 elementary schools, 9 of 10 middle schools, and 4 of 4 high schools participated in the program.

2.24 VAPA integration has provided unduplicated students additional rich educational experiences. VAPA course satisfaction has increased per the 2023-24 LCAP Survey to 49% from 46% in 2022-23.

2.25 Number of visits to school libraries has increased as media clerks are focusing on unduplicated students' reading levels and connecting them with engaging reading material. Parent satisfaction with school libraries and e-book library is 60% per the 2023-24 LCAP Survey results.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 2.3 for Early Childhood Education will not continue as an action in the 2024-25 LCAP. However, any LCFF expenditures will be included in the Budget Overview for Parents. Actions 2.13, 2.14, 2.16, 2.17, 2.22, and 2.23 will be combined with other similar actions as information tended to be repetitive.

New actions will be added to Goal 2. The actions include: 2.3 Academic MTSS, 2.13 English Learner Intensive Support, 2.21 ELA Intensive Support, and 2.22 Math Intensive Support. These actions were added as HLPUSD had student groups and schools in the very low performance level on the 2023 CA Dashboard. The District is working diligently to ensure students have the supports in place necessary to increase academic achievement. Education Services support staff will provide increased coordination of support services to schools for implementation of multi-tiered, academic, behavioral, and social emotional MTSS with fidelity at all TK-12 sites.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goal

Goal #	Description
3	Engagement: All students and parents, including low income, English Learners, and foster youth, will be actively and purposefully engaged in school and learning, provided within positive learning environments that promote emotional safety and school connectedness to ensure all students' preparedness for college and career upon graduation.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023-2024
Priority 3: Parent & Family Engagement Parent Input in Decision Making Local Indicator: LCAP Survey	2020-21 LCAP Survey Results: 45% Agree/Strongly Agree parents have a say in district decision making. 62% Agree/Strongly Agree parents have a say in school decision making.	2021-22 LCAP Survey Results: 37% Agree/Strongly Agree parents have a say in district decision making. 56% Agree/Strongly Agree parents have a say in school decision making.	2022-23 LCAP Survey Results: 39% Agree/Strongly Agree parents have a say in district decision making. 58% Agree/Strongly Agree parents have a say in school decision making.	2023-24 LCAP Survey Results: 37% Agree/Strongly Agree parents have a say in district decision making. 61% Agree/Strongly Agree parents have a say in school decision making.	2023-24 LCAP Survey Results: 49% Agree/Strongly Agree parents have a say in district decision making. 66% Agree/Strongly Agree parents have a say in school decision making.
Priority 3: Parent and Family Engagement Parent Participation in Programs for	2020-21 LCAP Survey: 80% Agree/Strongly Agree school encourages parental involvement.	2021-22 LCAP Survey: 75% Agree/Strongly Agree school encourages parental involvement.	2022-23 LCAP Survey: 77% Agree/Strongly Agree school encourages parental involvement.	2023-24 LCAP Survey: 82% Agree/Strongly Agree school encourages parental involvement.	2023-24 LCAP Survey: 83% Agree/Strongly Agree school encourages parental involvement.

Unduplicated Students Local Indicator: LCAP Survey	91% Agree/Strongly Agree parents can communicate with teachers and staff when they need to. 65% Agree/Strongly Agree parents feel comfortable in participating in school activities for parents. 67% of respondents feel the school encourages involvement from community organizations. Parent respondents rate the overall level of parent involvement in HLPUSD from moderately involved (46%) to very involved (24%), to extremely involved (5%).	91% Agree/Strongly Agree parents can communicate with teachers and staff when they need to. 68% Agree/Strongly Agree parents feel comfortable in participating in school activities for parents. 64% of respondents feel the school encourages involvement from community organizations. Parent respondents rate the overall level of parent involvement in HLPUSD from moderately involved (44%) to very involved (23%), to extremely involved (5%).	93% Agree/Strongly Agree parents can communicate with teachers and staff when they need to. 71% Agree/Strongly Agree parents feel comfortable in participating in school activities for parents. 72% of respondents feel the school encourages involvement from community organizations. Parent respondents rate the overall level of parent involvement in HLPUSD from moderately involved (44%) to very involved (23%), to extremely involved (5%).	94% Agree/Strongly Agree parents can communicate with teachers and staff when they need to. 76% Agree/Strongly Agree parents feel comfortable in participating in school activities for parents. 71% of respondents feel the school encourages involvement from community organizations. Parent respondents rate the overall level of parent involvement in HLPUSD from moderately involved (44%) to very involved (22%), to extremely involved (7%).	94% Agree/Strongly Agree parents can communicate with teachers and staff when they need to. 68% Agree/Strongly Agree parents feel comfortable in participating in school activities for parents. 70% of respondents feel the school encourages involvement from community organizations. Parent respondents rate the overall level of parent involvement in HLPUSD from moderately involved (46%) to very involved (24%), to extremely involved (5%).

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Actions and services for Goal 3 Engagement were generally implemented as planned.

3.1- 3.4 The district and school sites continued to offer parent meetings. These meetings were held in-person, on Zoom, and/ or via a hybrid model. DAC, DELAC, and school sites' SSC and ELAC meetings were held to support meaningful parent engagement and opportunities for decision making. As a result of the ongoing focus on increasing meaningful parent involvement in decision making, DAC and DELAC meetings are facilitated by parent officers, with support as needed from Multilingual staff. Parents provide input on topics of interest for presentations at meetings. Holding the meetings using a hybrid model decreased scheduling conflicts and allowed more parents to participate. Adult Education offered a variety of parent education classes that were very well

received and included topics such as Building Homework Skills, Improving Problem Solving Skills, and Improving Learning Ownership.

3.5 Year-long implementation of districtwide parent engagement activities were offered throughout the entire school year in person, on-line and aligned with other initiatives at the school sites and offered a variety of strategies to engage parents. This goal was achieved by evidence of the number of parents/caregivers attending workshops at the district level or at the school sites.

3.6 School sites worked on monitoring and improving attendance rates with the support of guidance and attendance clerks. Attendance improvement campaigns were launched at school sites.

3.7 MS and HS counselors implemented inclusive comprehensive educational counseling services and ensured the coordination of referrals based on student need. For AP tests, HLPUSD pays \$50 for all students to take their first AP test and \$43 for every additional test for unduplicated students (therefore students only pay \$10 for each additional test). HLPUSD entered into a partnership with LA County Commission on Human Relations to bring a Dream Resource Center to La Puente High School to provide services specifically to undocumented students and to all students.

3.8 Student and Family Services counselor supported implementation of behavioral MTSS districtwide. TUPE Grant implementation included assemblies at school sites on anti-vaping awareness.

3.9 Student-to-staff ratios at after school and summer enrichment programming were reduced at all K-8 school sites beginning Summer 2023. After school programming addressed all components including homework help, content support, sports, VAPA, STEAM, and family events. Several summer classes experienced low attendance during certain times in the season due to a variety of factors such as family vacation plans and early parent pick-up.

3.10 Middle school students were provided an opportunity to participate in districtwide co-curricular sports throughout the 2023-24 school year. All four comprehensive high schools offered competitive athletic programs as part of CIF, including growing competitive cheerleading, esports, and girls flag football. Each of the ASB programs charters clubs were based on student interest.

3.11 Schools were able to offer a range of VAPA, STEAM, and CTE electives in the 2023-24 school year but continue to strive to provide more offerings. Challenges included low enrollment and therefore low staffing and reduced sections.

3.12 Training was provided to counselors and school staff to ensure English learners have equitable access to a-g courses, electives, advanced course work, after school programs, extra-curricular and co-curricular activities, athletics, and student leadership opportunities.

3.13 Implementation of support services to foster youth and low income was clearly articulated in this goal. Foster Youth Liaison monitored foster youth, grades, credits, and attendance and ensured foster youth were on track for graduation.

3.14 Foster youth, low income and English learners were provided with on-going academic counseling, appropriate referrals and intervention based on their needs. Referrals for targeted academic support and referrals for mental health and counseling were provided.

3.15 Successful SART and SARB processes held at school sites and the district earned the district to be honored as a Model SARB for initiatives and practices that significantly contribute to reducing chronic absenteeism rates and improving overall student attendance.

3.16 HLPUSD offered many supports to increase the engagement of students in incentive programs, counselor support, field trips, CTE courses, and more. Even Youth Court excites and empowers students to be engaged, to recognize their mistakes, learn from them, and lead other students.

3.17 and 3.20 Elementary student support counselors effectively coordinated and facilitated Positive Behavioral Interventions and Supports Station Training. Counselors coordinated and assisted in the implementation of school-wide behavior incentives and disseminating Universal Screening data to staff twice a

year.

3.18 HLPUSD hired 3 new officers for the 2023-24 school year.

3.19 and 3.23 Student and Family Services (SFS) continues to promote full implementation of a Universal Screener to support school sites in identifying students needing additional supports for success. Universal screeners are sent to all sites twice a year and gather accurate data to create needed interventions for students. SFS has continued to expand the Youth Court Program as an evidence-based restorative justice opportunity for students as an alternative to suspension for lower-level offenses.

3.21 All elementary and middle schools received Site Supervision Aide (SSA) support to provide supervision of and social emotional support during unstructured time. Staffing was based on school size/student enrollment and provided before, during, and after school hours.

3.22 School Nurses continue to support school sites and promote student wellness initiatives.

3.24 Student and Family Services contracted with LA CADA to train all district administrators about the dangers of Fentanyl and how to administer the lifesaving medication Narcan. Student and Family Services hosted a Parent training on the dangers of Fentanyl and on administering Narcan. Fentanyl Awareness Cards were provided to all students in grades 6-12.

3.25 School sites are revisiting the schoolwide behavior matrix and making necessary adjustments to ensure consistency.

3.26 Foster youth liaison continued to support the social-emotional and mental health support services by working with school sites and with foster caregivers.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Similar to Goals 1 and 2, material differences between budgeted and estimated actual expenditures in Goal 3 include a number of actions due to the extensive number of certificated and classified positions that continued to be unfilled in the 2023-24 school year. These vacancies were hard to fill due to certificated and classified applicants and staff shortages. Actions that were monetarily impacted due to staff shortages include 3.19, 3.20, and 3.25. For action 3.9, more afterschool programs were offered districtwide. For action 23, the psychologist's role/duties were revised to provide additional social emotional and mental health support to general education unduplicated students.

For action 3.20, Student Support Counselors were funded in the 2023-24 school year using ESSER III funds to address students' academic, social-emotional, and mental health needs. For the remaining actions, there are no material differences between budgeted and actual expenditures. Overall, the actions/services were implemented as described, with any adjustments made to funding as needed to address actual implementation over the course of the year.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

3.1-3.5 Districtwide parent education opportunities including parent workshops and decision-making committees have successfully continued. Per the Parent Engagement Self Reflection Tool, the District is in Full Implementation in building relationships between school staff and families. Per the 2023-24 LCAP Survey 61% agree/strongly agree that they have a say in school decision making versus 58% in 2022-23.

3.6 School sites have effectively monitored and improved attendance rates with the support of guidance and attendance clerks. Attendance rates improved

from 92.36% to 92.9% for K-8 and 92.15% to 93.2% for grades 9-12.

3.7 and 3.20 The District provided a comprehensive educational counseling program. Middle School and High School Counselors (action 3.7) and Elementary Counselors (action 3.20) continue to specifically target the needs of low-income students, English learners, and foster youth. Additional counseling services and personalized support were offered to effectively address students' social-emotional, behavioral, and academic needs. Students' overall connectedness have increased per the California Healthy Kids Survey in grade 5 from 69% to 71% and in grade 7 from 49% to 52%.

3.8, 3.15, 3.16, and 3.17 Student and Family Services, Equity and Access, and school sites help students to connect to the school in many diverse ways, that motivate them to come to school, and feel success in and out of the classroom. These actions were effective as student connectedness to schools helps students to set and reach personal goals. Increasing student engagement leads to higher attendance and graduation rates.

3.9 and 3.10 Afterschool programs for student engagement were expanded to include a variety of programs such as Science Olympiad, Speech and Debate, homework help, sports programs, arts programs, and robotic and technology courses. After school programs help increase student attendance and engagement. Attendance rates improved from 92.36% to 92.9% for K-8 and 92.15% to 93.2% for grades 9-12. All middle schools participated in District sports tournaments including football, cross country, basketball, volleyball, softball, and soccer.

3.11 TK-12 administrators participated in professional development around Ethnic Studies. The elementary History/ Social Studies curriculum committee recommended curriculum to be piloted at various elementary sites in the 2024-25 school year. New electives have been added and satisfaction in the variety of electives offered has increased per the LCAP survey from 47% in 2022-23 to 50% in 2023-24.

3.12-3.14 Support for engagement for English learners and foster youth was effective. However, school sites will continue to work closely with foster youth and English learners to ensure student is engaged and supported throughout each grade level. In addition, school sites will improve in more personalized case management by working closer with the foster, homeless and multilingual support staff.

3.18 Department of Police and Safety will continue to provide safe and secure schools. This action is effective as the number of students that perceive their school as safe has increased from the prior year on the California Healthy Kids Survey from 75% to 77% grade 5, 47% to 53% for grade 7, and 51% to 54% in grade 11.

3.19 and 3.23 Student and Family Services continued to expand the Youth Court Program as an evidence-based restorative justice opportunity for students as an alternative to suspension for lower-level offenses. These actions were effective as the suspension rate for Foster Youth declined by 4.6% and SWD's suspension rate declined by 0.2%.

3.21 Site Supervision Aides effectively provided supervision and social emotional support to TK-8 students ensuring student physical safety and emotional well-being through immediate access to adults before, during, and after school hours. Students' overall connectedness have increased per the California Healthy Kids Survey in grade 5 from 69% to 71% and in grade 7 from 49% to 52%.

3.22 School nurses continued to effectively support students and school sites to ensure student wellness.

3.24 and 3.25 Support for positive school climate was effective but more support is needed at all middle schools for building connectedness and a feeling of safety while on campus. In 2024-25, all Middle Schools will be provided with Capturing Kids Hearts Training for all staff to assist sites with their efforts to strengthen positive school culture.

3.26 Action was effective as Equity and Access worked closely with the caregivers on navigating opportunities to attend and access social emotional and mental health services for foster youth students. Foster youth caregivers reported positive feedback on services offered.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Actions 3.4, 3.6, 3.12, 3.13, 3.14, 3.20, 3.22, and 3.26 will be combined with other similar actions as information tended to be repetitive.

New actions will be added to Goal 3. The actions include: 3.12 Intensive Support to increase Graduation Rate, 3.13 Intensive Support to decrease Chronic Absenteeism, 3.21 MTSS for Behavior, 3.22 Intensive Support to decrease Suspension Rate, and 3.24 MTSS for Social Emotional and Mental Health. These actions were added as HLPUSD had student groups and schools in the very low performance level on the 2023 CA Dashboard. There is also a need to revamp MTSS as it allows teachers to focus on supporting all of their students using a systematic approach and it enables teams to improve the outcomes for all students in terms of academics and social-emotional behavior.

Although HLPUSD offers a variety of opportunities for families to attend parent education workshops, the District seeks to increase collaborative efforts across the school district, within district departments/programs, and with school sites. For next year, the District will partner with schools to offer workshops open to all families in the district. The most success experienced was when workshops were offered at the school sites and coordinated at the district level.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goal

Goal #	Description
4	School Performance: Valley Alternative High School will decrease suspension rates by developing and implementing comprehensive support plans to address student motivation, student engagement, and school connectedness.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023-2024

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Actions and services for Goal 4 were generally implemented as planned.

4.1 and 4.2 MTSS/RTI team met quarterly to discuss the progress of students in Tier 2 and Tier 3, including progress on district assessments, quarterly grades, credit acquisition in all courses plus the discipline data that was monitored. Due to the attendance clerk vacancy unfilled for most of the school year, attendance monitoring was done monthly. Once clerk was hired, monitoring shifted to every two weeks. Universal Screening was administered in the Fall and Spring. Ongoing monitoring of Individual Learning Plan was implemented at 100% to support student needs.

4.3 All teachers had on going professional development for trauma informed practices. Two teachers were sent to model continuation high school conference to explore best practices for positive behavior support as well as increasing academic achievement in A-G courses. Admin and school psychologist attended Restorative Justice PD which has resulted in focused schoolwide conversation and assessment of current systems in place.

4.4 Tilly's SEL support for students is in place and is well received. This is being facilitated monthly through the school psychologist and all resources are posted for reference on the faculty canvas page. Tilly's provides a foundation for all students to better understand their social emotional feelings and how those impact their educational progress and relationships. Summer hours for counseling were provided to support students on graduation progress for the summer program. Counselors also provided workshops for students on FAFSA as well as one-to-one meetings with parents.

4.5 Valley also continued with the celebration of attendance which has resulted in an increase in attendance.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

For actions 4.1-4.5, there are no material differences between budgeted and actual expenditures. Overall, the actions/services were implemented as described, with any adjustments made to funding as needed to address actual implementation over the course of the year.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

4.1 The ongoing MTSS/RTI meetings in place along with the new attendance clerk has been a process that is modified as needed. Meetings and supports are taken well by staff as they are seeing progress with attendance and student behavior in the classroom. Valley has seen an increase in attendance rates as well as a shift with less referrals in the classrooms.

4.2 Teachers are implementing other supports in the classroom to work with student behaviors. These supports and strategies have been brought back from PD and shared with MTSS/RTI team as well as staff through meetings.

4.3 Restorative Justice PD has resulted in focused schoolwide conversation and assessment of current systems in place. Trauma informed PD (ongoing) for all teachers is believed to be a big reason for a drop in referrals. Suspendable offenses in class continue to drop for aggressive behavior but suspension continues to rise for other offenses.

4.4 Tilly's SEL support for students is well received and provides a foundation for all students to better understand their social emotion well-being and how those impact their educational progress and relationships. Counseling services to support students to prep for GED, FAFSA and community college (Mt SAC and Rio Hondo) workshops have helped with student grades and progress.

4.5 Academic recognition along with the support of admin, counseling, and school psychologist have helped with a higher rates of credit acquisition quarterly and individual credit acquisition. Valley's ongoing drive to support all students throughout the year has shown several positive growths in many areas. The hard work of the team continues to be critical along with the ongoing conversations of the MTSS/RTI team.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 4 was a required goal in 2023-24 for Valley Alternative High School as it met the low performing schools' criteria as outlined in EC (Education Code) Section 520649 (e)(6) focusing on addressing the disparities in performance between Valley Alternative High School and the LEA. In 2024-25, LEAs are no

longer required to include a specific goal in the LCAP to address consistently low-performing schools. Although this goal will be deleted for the 2024-25 school year, HLPUSD will continue to support Valley Alternative High School in decreasing suspension rates by developing and implementing comprehensive support plans to address student motivation, student engagement, and school connectedness.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

Goals and Actions

Goal(s)

Description:

Copy and paste verbatim from the 2023–24 LCAP.

Measuring and Reporting Results

- Copy and paste verbatim from the 2023–24 LCAP.

Metric:

- Copy and paste verbatim from the 2023–24 LCAP.

Baseline:

- Copy and paste verbatim from the 2023–24 LCAP.

Year 1 Outcome:

- Copy and paste verbatim from the 2023–24 LCAP.

Year 2 Outcome:

- Copy and paste verbatim from the 2023–24 LCAP.

Year 3 Outcome:

- When completing the 2023–24 LCAP Annual Update, enter the most recent data available. Indicate the school year to which the data applies.

Desired Outcome for 2023–24:

- Copy and paste verbatim from the 2023–24 LCAP.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)

Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics

is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

California Department of Education
November 2023

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Hacienda la Puente Unified	Blanca Risco Executive Director	brisco@hlpusd.org 626-933-4340

Plan Summary 2024-2025

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten-12, as applicable to the LEA.

The Hacienda La Puente Unified School District (HLPUSD) is committed to educational excellence. HLPUSD serves approximately 15,900 students in TK through 12th grade at 28 quality schools: Fourteen elementary schools, three K-8 schools, five middle schools, four comprehensive high schools, one alternative high school, and an orthopedic unit for the physically handicapped. Four of our schools have been designated as National Blue Ribbon Schools, 15 Gold Ribbon Schools, 28 Pivotal Practice Schools and District, 6 California Schools to Watch, 8 California Business for Education Excellence Schools, 5 Civic Learning Awards, 1 California Democracy School for Strong Civic Leadership High School, and four high schools have been honored in the U.S. News and World Report among the best high schools in the nation and nine elementary and four middle schools scored in the top 28% of schools in the state based on the U.S. News & World Report's best elementary and middle school rankings.

HLPUSD was awarded the California School Boards Association (CSBA) Golden Bell Award for Districtwide Dual Language Immersion that offers Chinese, Korean, and Spanish, CSBA Golden Bell Equity & Access Award, Curriculum and Instruction through the California Standards Implementation Award for our Middle School Math Summer Enrichment Program, and Project LEAD. Additional programs offered at various schools include JROTC, Robotics, Science Olympiad, CSTEM, Speech and Debate, Youth Cinema Project, AVID, AP/IB, CTE pathways, Early College Academy, VAPA, and sports.

Our District continues to provide students with innovative programs such as our award-winning dual immersion programs that offer students the opportunity to take classes and learn in four languages. HLPUSD also serves the community through an extensive child development and adult education program. The District operates the second largest adult education program in the state, offering career development in programs that range from culinary arts to certified nursing assistant, automotive repair, and more. The Hacienda La Puente Unified School District recruits the best certificated, classified, and non-classified employees to conduct and provide support to its educational programs. HLPUSD has the honor of being recognized by Forbes Magazine as one of America's Best Employers by State and Best Employers for Veterans.

HLPUSD serves a diverse student community with the goal of preparing every student for college and career upon graduation. The District's TK-12 student population is 19.2% English Learner (EL), 0.6% foster youth, and 75.9% of students are classified as low-income. Our LCFF Unduplicated pupil count is 78.84%. Of our EL students, 67.7% speak Spanish as their native language, with 18.4% Mandarin, 8% Cantonese, and 1.6% Korean. Our student population is made up of many ethnicities with the majority of our students, 73.5%, identifying as Hispanic Latino, 19.3% Asian, 2.3% White, 1.7% Filipino, 0.8% Two or More Races, and 0.6% African American. The 11.5 square mile district serves the diverse communities of City of Industry, Hacienda Heights, La Puente, and portions of Valinda and West Covina.

The California Local Control Funding Formula (LCFF) Equity Multiplier provides additional funding to local educational agencies (LEAs) for allocation to schoolsites with prior year nonstability rates greater than 25 percent and prior year socioeconomically disadvantaged pupil rates greater than 70 percent. Equity Multiplier funding is required to be used to provide evidence-based services and supports for students at these schoolsites. HLPUSD is documenting the efforts to improve outcomes for students at Valley

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Based on a review of student performance data, HLPUSD experienced the following successes and challenges:

English Language Arts: The 2023 CA Dashboard English Language Arts Academic Indicator placed the district at the Medium Performance Level, 4.9 points below standard. Low-income students, English learners, and foster youth also scored at the medium performance level. Students with disabilities scored at the Very Low Performance Level at 99.1 points below standard. To support students with disabilities districtwide and at the following school sites: Baldwin, Cedarlane, Fairgrove, Nelson, Valinda, Wing Lane, Sierra Vista, Sparks Middle, Los Altos HS, and Workman HS, the district will increase professional development and increase instructional aides to support small group instruction along with training on specific academic strategies during Specialized Academic Instruction (Goal 2 Action 21). Furthermore, additional supports and services for student groups who scored at the very low performance level in ELA (All students at Palm, Puente Hills HS, and Workman HS, low-income students at Palm, Puente Hills HS, and Workman HS, English learners at Grandview, Los Robles/Palm, Sparks Elementary, Valinda, Sierra Vista, Sparks Middle, and Los Altos HS, and Hispanics at Wing Lane, Puente Hills HS, and Workman HS) can be found in Goal 2 Action 21.

Mathematics: The 2023 CA Dashboard Mathematics Academic Indicator placed the district at the Low Performance Level, 42.4 points below standard. Low-income students, English learners, and foster youth also scored at the low performance level. Student groups scoring at the Very Low Performance level include Homeless Youth districtwide, all students at Puente Hills HS, low-income students at Orange Grove, Puente Hills HS, Sierra Vista, and Sparks Middle, English learners at Grandview, Valinda, Newton, Orange Grove, Sierra Vista, Sparks Middle, Los Altos HS, Students with Disabilities districtwide, at Fairgrove, Mesa Robles, Orange Grove, Sierra Vista, Los Altos HS, and Workman HS, and Hispanics at Orange Grove, Puente Hills HS, Sierra Vista, and Sparks Middle. To support the student groups at the Very Low Performance Level, the District will provide additional differentiated professional development on math expectations for explicit and embedded instruction, targeted academic interventions, and systematic and frequent progress monitoring to support overall proficiency in mathematics (Goal 2 Action 22).

Winter MAP English Language Arts and Mathematics Local Assessments: HLPUSD uses NWEA's MAP Growth Assessments as these scores are good predictors of performance on the CA SBAC Summative Assessments. The percentage of students who scored at the 61 percentile or higher in the winter administration were 32% in ELA and 38% in Math compared to last year's 33% and 31% respectively. We saw a 7% increase in math scores. Teachers use MAP Growth data as one of multiple data sources to help be more responsive to learner needs. The data reveals patterns of relative strength and need. Teachers will continue to utilize MAP ELA and Math assessments to precisely measure growth and proficiency and provide insights to help tailor instruction.

English Learner Progress: The 2023 CA Dashboard English Learner Progress Indicator (ELPI) placed the district at the Low Performance Level with 52.6% of HLPUSD's English learners making progress towards English Language Proficiency. HLPUSD's ELPI level is higher than the state average of 48.7% and higher than most surrounding school districts. The performance level is reported at the orange level due to the one-year change of -2.5% from the prior 2022 Dashboard. The percent of English learners who progressed at least one ELPI level increased to 48.1% in 2023 from 46.2% in 2022. HLPUSD is providing additional support to school sites whose performance level was very low on the ELPI on the 2023 Dashboard. The additional actions and services for Wing Lane, Palm, Grandview, and Newton can be found in Goal 2 Action 13.

Chronic Absenteeism: The 2023 CA Dashboard Chronic Absenteeism Indicator is at Medium Performance Level for all students at 26% which declined 9.2% from the previous year. The chronic absenteeism rate for both English learners and low-income students declined 9.5% to 22.6% and 28.7% respectively. For Foster Youth, the chronic absenteeism rate increased by 3% to 36% chronically absent (Very Low Performance Level). To address the chronic absenteeism rate of student groups at the very low performance level (Foster Youth districtwide, English learners at Del Valle, Kwis, and Valinda, and Workman Elementary, low-income students and Workman Elementary, students with disabilities at Grandview, Nelson, Sparks Elementary, and Sierra Vista, homeless youth at Fairgrove, and two or more races student group at Grazide) attendance data will be pulled and closely monitored at both the school site and district level, and Student and Family Services staff and Equity, Access, & Family Engagement staff will provide and fine tune additional supports and coordination of services to strengthen student engagement and school climate (Goal 3 Action 13).

Graduation Rate: The 2023 CA Dashboard Graduation Rate Indicator is at the Medium Performance Level for all students at 92.6% compared to the State at 86.4% (Low Performance Level). HLPUSD's student groups also fared better respectively than the state average at 92.2% for low-income students versus 83.7%, English learners at 80.6% versus 73.5%, Foster Youth 81.8% versus 63.2%, and 77% for students with disabilities (Very Low Performance Level) versus 72.7%. To support Students with

Disabilities, the Special Education Department will provide professional development in various teaching strategies, such as Lindamood Bell strategies, differentiated instruction, and instructional practices. Furthermore, the District will continue to hire additional general education teachers to support targeted instruction at school sites, as aligned with the Comprehensive Coordinated Early Intervening Services (CCEIS) Measurable Goals (Goal 3 Action 12).

Suspension Rate: The 2023 Dashboard Suspension Rate Indicator is at the Medium Performance Level for all students at 3.4% suspended at least one day. Low-income students, English learners, and foster youth are also at the medium performance level at 3.9%, 3.2%, and 11.1% respectively. African American students are at the Very Low Performance Level districtwide at 9.1% suspended at least one day. To address the suspension rate of student groups at the very low performance level (African Americans districtwide, all students at Sunset/Lassalette, all students including students with disabilities and Hispanics at Sparks Middle, Puente Hills HS, and Valley Alternative HS, low-income students at Del Valle/Workman Elementary, Nelson, and Sparks Middle, English learners at La Puente HS, students with disabilities at Grandview and Palm, and Hispanics at Sierra Vista), additional professional development for school admin and staff regarding restorative practices will be required and Student Family Services will collaborate with district educational partners to ensure discipline policies and other means of corrections, suspensions, and expulsions are aligned with restorative practices (Goal 3 Action 22).

College/Career Indicator: The 2023 CA Dashboard College/Career Indicator placed the district at the Medium Status Level for all students. The percentage of HLPUSD high school graduates who placed in the “Prepared” level on the College/Career Indicator is 52.4% compared to the State at 43.9%. HLPUSD’s student groups also fared better than the state average respectively at 48.1% for low-income students versus 35.4%, English learners at 33% versus 15.3%, Foster Youth 18.2% versus 11.6%, and students with disabilities 13.4% versus 12.3%. To support student groups at the very low status level on the college/career indicator (all students at Valley Alternative HS, including low-income and Hispanic students, and students with disabilities at Wilson HS), the District will provide targeted supports to school sites which can be found in Goal 2 Action 7.

In order to meet the identified needs of our students, the District will continue to provide a multi-tiered system of supports for all student groups, including low-income, English learners, and foster youth and student groups at the very low performance level focused around equity and access to enrich learning activities for all. The LCAP goals and actions seen in this document are reflective of this framework. A top priority is engaging students to ensure a continuous focus on academic excellence.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Based on a review of student group and/or State Indicator performance on the 2023 CA Dashboard, Hacienda La Puente Unified School District (HLPUSD) met the criteria to receive differentiated assistance. HLPUSD is eligible for this assistance for Students with Individualized Education Programs (IEP) also referred to as Students with Disabilities, in the following state priorities- Priority 4: Pupil Achievement (CAASPP Results in ELA and Math) and Priority 5: Pupil Engagement (Chronic Absenteeism). Differentiated assistance is intended to support school districts in building their capacity to improve student outcomes and address gaps in achievement.

The Education Services Division has worked diligently to identify areas of improvement to address student outcomes in these areas. One of the areas that has been identified as an area of need is to continue to ensure that best first instruction is provided to all learners. Differentiated instruction, based on IEP goals and individualized needs, is accessible to all students with core curriculum at the student’s grade level. The Education Services Division continues to provide staff, including site administrators, with various professional development opportunities to help improve student outcomes.

Ten members of our Education Services Leadership Team attended the Differentiated Assistance Institute at UCLA this past summer to set goals, get an overview as a team of the needs of HLPUSD, and learn to use improvement science to address equity centered problems of practice. The Education Services Department has attended a series of LACOE webinars and Differentiated Assistance meetings in person at LACOE, as well as the online webinars offered each month. We communicate and meet regularly with our LACOE Consultant to review focus areas of support and problems of practice, review systems of support and next steps, discuss needs and any follow-up support.

Professional Development has been offered to staff throughout the school year and at the summer Deep Learning Lab, with general sessions and breakout sessions across content, integrated with innovative technology. We focus on best first instruction and student engagement with New Pedagogies for Deep Learning (NPDL) as the districtwide instructional framework. The District administers assessments and progress monitoring with NWEA MAP testing, SBAC results, and other teacher designed and district assessments. The Education Services Department has also led professional development opportunities each month for site and district administrators during Site Based Leadership (SBL) meetings.

To help with phonics, phonemic awareness, and literacy, the District has purchased Heggerty Curriculum and University of Florida Literacy Institute (UFLI) for all TK-2 teachers, general ed and special ed and Writing Without Tears for TK teachers. Students continue to utilize Lexia (ELA) and DreamBox (Math) for further comprehension of essential math standards.

Our Executive Director of Special Education/SELPA has led various trainings for district and site administrators on meeting the needs of students with IEPs. She also included data for the district and schools on policies, procedures, and timelines. These trainings helped to have all of us use the same language and understand the urgency of the disproportionate number of identified Hispanic students districtwide. Additionally, the trainings covered positive personal values, beliefs, and attitudes are essential to providing and implementing needed, differentiated support for all students.

DFI Reports are shared with the leadership teams in order to continually monitor student progress and needs. Data chats on Fall to Winter MAP results and lesson studies in quads across grade levels have taken place to increase student engagement and classroom visitations for informal observation of implementation. We will continue to use data to drive instructional decisions with a focus on students with IEPs. Pupil Achievement (CAASPP Results in ELA and Math, as well as MAP outcomes) and Pupil engagement (chronic absenteeism) will be used to analyze student outcomes, growth and progress.

HLPUSD's focus for the 2024-25 school year is to build professional capacity and professional development in the following areas: Multi-tiered Systems of Support (MTSS), ELD, and Math. The District is continuously looking for ways to strategically administer professional learning opportunities, for example, through staff or department meetings, as well as after schoolwide professional development in person or via zoom. The three pillars of MTSS will be the focus for best first instruction: academics, behavior, and social emotional-learning. The Education Services Division will work collaboratively across departments to ensure training is offered and implemented. Furthermore, additional supports and services for students with IEPs to improve performance outcomes and address gaps in achievement can be found in Goal 2 Actions 21 and 22 and Goal 3 Action 13.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Puente Hills High School and Valley Alternative High School are eligible for Comprehensive Support and Improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

The district provided training on the identification criteria for CSI status and the role of the needs assessment in the development of the CSI plan in alignment to the School Plan for Student Achievement (SPSA). Training included how to define, understand, identify, and address resource inequities, evidence-based interventions, the role of the district in supporting the development and implementation of the CSI plan, the process for Puente Hills High School and Valley Alternative High School to share their data and eligibility for CSI with educational partners, and to define, provide resources, timelines, and next steps for CSI planning.

The district provides on-going differentiated support, guidance, and/or technical assistance to Puente Hills High School and Valley Alternative High School during the CSI planning and development process within the planning cycle of the SPSA. Support is focused on the use of multiple sources of data to inform the planning process, including available Dashboard state indicators and local results disaggregated by student group, with emphasis on identification of root causes that led to the school's CSI determination. Support to Puente Hills High School and Valley Alternative High School also includes the SPSA annual evaluation and WASC process alignment to the comprehensive needs assessment, and support and/or resources for conducting the comprehensive needs assessment process. Engagement of school educational partners in the CSI planning process includes engagement of school staff, students, parents, and the School Site Council to provide feedback for CSI planning and decision-making. The needs assessment includes the process for identification of actionable resource inequities to be addressed within the CSI plan including inequities that may be addressed by the district; and the process for identification of resources and the selection of evidence-based interventions to be included for implementation within the CSI plan.

The district provides additional assistance to Puente Hills High School and Valley Alternative High School to identify resource inequities through support in conducting a Resource Inequities Review collaboratively with the school as part of the needs assessment process. The Resources Inequities Review includes reflection questions designed to support the school and/or district in surfacing any potential inequities that may contribute to the reason for identification and may lead to identification of inequities to be addressed within the CSI plan. Examples of reflection question topics include access to student interventions and supports, personnel, technology/instructional materials, Advanced Placement and/or GATE, suspension rates/data, and English learner reclassification rates. Resources are considered broadly in terms of access to programs and materials, program quality, time and/or funding.

The district provides additional assistance to Puente Hills High School and Valley Alternative High School during the SPSA planning and development process, based on the comprehensive needs assessment findings, to develop evidence-based actions and expenditures to be included as district-level support, and/or as actions/expenditures included within the SPSA. Planning decisions are collaborative between the school and the district and are based upon a thorough analysis of data, review of evidence-based interventions and strategies that best address the identified need, and upon educational partners' feedback. The district and schools use the ESSA four-tiered model of evidence-based interventions, selecting strategies, practices, and programs from Tiers 1-3 to best address the identified needs to effect change. The SPSA template includes the planning process for identification of evidence-based interventions that are aligned to the reasons for identification, identified needs, students to be served, descriptions of the evidence-based intervention(s) that includes measurable outcomes and evaluation of effectiveness, and the evidence rating per the USDE's guidance: Using Evidence to Strengthen Education Investments.

Furthermore, the district and both CSI schools are working with LACOE's Center for District Capacity Building (CDCB). These meetings help build collective capacity to sustain improvement and effectively address disparities in opportunities and outcomes.

Additional support is provided to the schools to facilitate development of the process for monitoring and evaluating the effectiveness of the CSI plan. The SPSA template has been revised to include all required CSI planning elements. The SPSA serves as the schools' CSI plan, including approval by the School Site Council and the Board of Education, per the district's SPSA planning cycle.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The district will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement via partnership and collaboration with the identified school sites and their educational partner groups. This process for continuous improvement is aligned with the seven steps for SPSA development. The steps for focus include identification of goals and key improvements based on the available state indicators and analysis of student data; the identification of key progress indicators to measure improvements in student outcomes, and measurement of the effectiveness of the evidence-based interventions and strategies identified for implementation. Steps also focus on the development of a timeline and process for systematic progress monitoring, the identification of data sources, data analysis protocols, monitoring tools, and/or assessments to be utilized for monitoring student and school progress in the key indicators to inform ongoing decision-making.

District supports to help build school and educational partners' capacity for continuous improvement include collaboration and coaching, technical assistance, district-school team participation in LACOE support sessions, professional learning opportunities, and facilitation of professional learning communities. Collaboration between district and school additionally include determining the roles and responsibilities of both the school and district in the monitoring and evaluation of the plan; the process for communication of student and/or school progress in meeting key indicators, and for plan revisions based on the evaluation of plan effectiveness, within the SPSA planning and development cycle.

The LEA will monitor and evaluate the implementation of the interventions/actions by meeting monthly with Puente Hills High School and Valley Alternative High School (collaboratively reviewing the timeline, agendas, meeting minutes, professional learning plan, and key progress indicators identified for both implementation and student outcomes).

The LEA will monitor and evaluate the effectiveness of the interventions/actions by analyzing expected measurable outcomes to the actual measurable outcomes including analysis of data, protocols, systems, tools, assessments, and key progress indicators.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
LCAP Advisory Committee	The HLPUSD LCAP Advisory Committee is comprised of management, Hacienda La Puente USD Teachers' Association (HLPTA), California School Employee Association (CSEA), Service Employees International Union (SEIU), DAC and DELAC parent representatives, district administrators, principals, teachers, counselors, and classified staff. The committee met four times: December 7, February 1, March 7, and April 18. The committee had rich discussions on budgeting for equity and worked in collaboration to provide feedback, identify continuing, expanding, and new LCAP priorities, and to develop proposals based on LCAP survey results and LCAP requirements. The LCAP Advisory Committee generated proposals on April 18, for continuing, expanding, and/or new priorities for LCAP Year 1 for consideration.
District Advisory Committee (DAC)	LCAP presentations, updates, and engagement of District Advisory Committee (DAC) as part of each meeting agenda (October 10, November 14, January 23, March 5, April 16). DAC included representation from unduplicated student groups: low income, English learners, and foster youth. Topics included but were not limited to linking the Dashboard to the LCAP, alignment of LCAP with federal requirements, developing a deeper understanding of the LCAP, educational partners' engagement process, eight state priorities, Consolidated Application, SPSA timeline, LCAP implementation, LCAP Survey update, and Educational Partners' Questions Activity to gather DAC input for the LCAP. DAC Meeting (4/16): Members previewed the draft in progress LCAP and provided comments for written response. The Superintendent's written responses to the required parent advisory groups' comments are posted on HLPUSD's webpage at www.hlpschools.org/instruction .
District English Learner Advisory Committee (DELAC)	LCAP presentations, updates, and engagement of District English Learner Advisory Committee (DELAC) as part of each meeting agenda (October 24, December 5, February 6, March 19, April 30). DELAC included representation from unduplicated student groups: low income, English learners, and foster youth. Topics included but were not limited to linking the Dashboard to the LCAP, alignment of LCAP with federal requirements, developing a deeper understanding of the LCAP, educational partners' engagement process, eight state priorities, Consolidated Application, SPSA timeline, LCAP implementation, LCAP Survey update, and Educational Partners' Questions Activity to gather DELAC input for the LCAP. DELAC Meeting (4/30): Members previewed the draft in progress LCAP and provided comments for written response. The Superintendent's written responses to the required parent advisory groups' comments are posted on HLPUSD's webpage at www.hlpschools.org/instruction .
LCAP Student Advisory Committee (SAC)	Student Advisory Committee (SAC) in grades 7-12 from all HLPUSD High Schools, Middle Schools, and K-8 sites came together to participate in district meetings on October 11 and February 9 to learn more about LCFF and LCAP and give their input for LCAP priorities.
District Leadership Team (DLT)	The District Leadership Team (DLT) Meeting, which consists of principals and site and district administrators, was held on March 11. Principals and administrators provided input on both new LCAP priorities and continuing and expanding priorities.
LCAP Campaign at TK-12 School Sites	The Educational Partners' Engagement Process for HLPUSD was provided to all sites to use with staff, students in grades 7-12, and parent groups during the months of February and March 2024. All school sites provided educational partners with equitable access to information and opportunities for meaningful engagement in the districtwide LCAP development process.
LCAP Survey	HLPUSD contracted with Hanover Research to provide a perception survey of HLPUSD educational partners in the LCAP areas of Engagement, Parental Involvement, Course Access, School and District Climate, and Student Outcomes. The 2023-24 survey was shared with our educational partners via ParentSquare and the district website and made available via multiple web-based platforms for all district staff, parents, and students in grades 7-12. The LCAP Survey was conducted February 2024. LCAP Survey results were compiled and described in a summary analysis report provided by Hanover Research, reported to the community, and considered in the LCAP development process Year 1.
Educational Partners at schools generating LCFF Equity Multiplier Funds	Educational Partners, which included parents, teachers, staff, and students at Valley Alternative High School, Valley Community Day School, and Puente Hills High School met on March 28 and May 7 to discuss identified needs, priorities, actions and services, and planned expenditures using LCFF Equity Multiplier Funds. Additional input was gathered from SSC before voting on SPSA approval.
Special Education Local Plan Area (SELPA)	HLPUSD has consulted with the Special Education Local Plan Area (SELPA) Administrator and with HLPUSD Special Education Administrators to align LCAP actions and services to be consistent with the local support plan assurances. Topics included the description of the Special Education Local Plan process and key elements for LCAP alignment. Moreover, the discussion included the SELPA's Local Plan, with educational partners' input from the SELPA's Community Advisory Committee (CAC) members. Specific consultation planning meeting occurred in April 2024.

Members of the Public	HLPUSD notified members of the public of the opportunity to submit written comments regarding specific actions and expenditures in the LCAP through the District web page at https://www.hlp schools.org/ on June 10, 2024, and at the public hearing for the LCAP on June 13, 2024. The LCAP was presented to the Board of Education on June 27, 2024, for board approval. In conjunction, the Local Indicators results were presented on June 27, 2024.
Board of Education	LCAP presentations and updates for the Board of Education and community at Board of Education meetings on October 26, February 8, February 22, and April 25. Topics included but were not limited to LCAP implementation highlights, LCAP timeline, eight state priorities, Mid-Year Report, LCAP next steps, LCAP and SPSA alignment, educational partners' engagement activities and consultation process, and required advisory committees.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

As a result of the feedback received through the educational partner engagement process, including written comments prior to adoption, the following key local priorities are addressed in the 2024-27 LCAP Year 1:

The District English Learner Advisory Committee (DELAC) expressed a need to increase ELA and math tutoring afterschool. As a result, the District is working with school sites to create more opportunities for teachers to work with students in smaller groups before, during, and after school and to continue offering Tutor.com districtwide to provide 24/7, on-demand tutoring and homework help in more than 250 subjects. Furthermore, Think Together will offer in-person tutoring afterschool to high school students. Think Together will conduct an Advancement Via Individual Determination (AVID) style tutoring model, where students drop in for help and are guided in completing assignments from their classes. In addition, DELAC would like the District to continue to provide students online resources that are district-licensed (i.e., Lexia and DreamBox). In response, the District will continue to purchase these highly valued online resources to support student academic growth in both ELA and Math.

The District Advisory Committee (DAC) recommended teachers receive more professional training on effective teaching and social emotional learning to meet the needs of students with a variety of learning styles. In response, the District is restructuring the Professional Development (PD) Plan to increase the topics and number of PD offerings specifically targeting the unique needs of identified student groups. DAC would also like mental health supports to continue for both students and staff. In response, the district is ensuring counselors are available at all school sites for students and the district will continue to work with Care Solace as a mental health referral provider. Care Solace makes it easier for students, staff & their families to connect with mental health care resources and providers in their communities.

The LCAP Student Advisory Committee (SAC) expressed a need for cleaner restroom facilities. The district is hiring more custodians to fill vacancies and ensure cleaner facilities. The students requested a wider range of electives be offered. In response, the district is adding a number of CTE electives such as aviation, ethnic studies, and Youth Cinema Project.

The LCAP Advisory Committee provided feedback regarding the need to continue to support the social emotional needs of all students and provide mental health support services on all campuses TK-12 for coordination of multifaceted mental health services such as MTSS Tier 3 services. As a result, the Equity and Access Department will work closely with school sites' teams to collaboratively develop Tier 2 and Tier 3 SEL interventions and supports during the school day for students identified at-risk, per the updated MTSS implementation plan. Student and Family Services will also work closely with school sites' teams to collaboratively develop Tier 2 and Tier 3 behavioral interventions and supports.

Principals/ Administrators would like to refocus on Tier 1 instruction including PD offerings for instructional staff and PLC training. In response, the district is examining current systems in place and revamping the Academic MTSS Plan to better support teachers and instructional aides in providing effective Tier 1 instructional strategies. Feedback also included providing Professional Development focused on data analysis and tiered interventions. The District's Data, Innovation, and Research Department developed an on-going, aligned TK-12 comprehensive assessment strategy to support teachers, school leaders and district leadership in the effective use of data to inform instructional decision-making and planning.

Input from school sites, including teachers and staff, communicated the need to offer more enrichment classes/electives and therefore, the District will utilize additional certificated staff to offer enrichment electives such as Advanced Dance, Graphic Productions 1, Graphic Productions 2, History of Film Ethnic Studies, IB Personal and Professional Skills CP1, iOS Mobile Application Development Honors, and Spanish 3 Honors Ethnic Studies. In addition, the District will provide after school and summer programs to increase unduplicated students' engagement in extra-curricular and/or co-curricular activities such as: Speech and Debate, Youth Cinema Project, CSTEM, Dual Immersion; literacy & writing, math and science activities; sports programs; music, band, dance, art, drama, robotics and technology.

The LCAP Survey revealed a need to improve communication and coordination with parents and ensure they feel their voices are being heard. When asked what would help parents become more involved in the district, the top responses from parents are more convention times for participation, more information on involvement opportunities, how to support students at home, more communication between the school and parents, and more opportunities for participation at the school level. In response, the district will increase the number of parent workshops and times offered. The district will also increase communication via ParentSquare as this is the preferred communication method selected by parents/guardians. The LCAP survey also communicated the need to prioritize efforts to improve the physical environment of district schools, especially bringing them more up-to-date and therefore the district will continue to maintain, improve, and modernize school facilities.

For the Equity Multiplier Goal 4, parents shared that extended learning opportunities such as field trips for students are needed to reinforce English language development standards and to build student interest and connectedness, including but not limited to community college visits, theater, museum, and/or art events/exhibits. In response, Valley will utilize equity multiplier funds to plan extended learning opportunities. In addition, SSC and parent feedback showed a strong need to hire an additional teacher to support the most struggling students and provide small group instruction in a classroom as well as pull out services for individual support. Therefore, Valley will hire an additional staff member to work with our lowest performing student populations. SSC and parent feedback showed a strong need for a half-time counselor to bridge support and services with Stimson Learning Center and ongoing counseling support for students and parents. An additional counselor is needed to provide workshops for students, parents, and teachers regarding support for college and career planning. In addition, consistent academic intervention, and counseling services (academic and social-emotional) are needed focusing on executive skills in organization, handling stress, and self-advocacy. An additional counselor is needed to support students with staying on track to graduate, credit checks, and other supports as needed. In response, Puente Hills will look to hire a counselor at 50%. Furthermore, SSC, parent, and teacher feedback showed a strong need for additional hours for teachers to attend professional development to support instruction in the classroom as well as social-emotional support. Therefore Valley, Puente Hills, and Valley Community Day School will provide opportunities for teachers, counselors, and administrators to attend professional development and provide additional hours for after-school planning, reviewing data, and exploring student needs.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Conditions of Learning: All students, TK through 12, including low income, English learners, and foster youth, will have access to effective and equitable conditions of learning and safe learning environments that ensure their preparedness for college and career upon graduation.	Broad Goal

State priorities address by this goal.

1, 2, 7

An explanation of why the LEA has developed this goal.

This goal addresses state and local priorities within the Conditions of Learning category:

Basic Services (Priority 1): The degree to which teachers are fully credentialed and appropriately assigned; student access to standards-aligned instructional materials; school facilities are maintained in "Good" repair.

Implementation of State Standards (Priority 2): Implementation of academic content and performance standards, including English Learners.

Course Access (Priority 7): The extent to which students have access to and are enrolled in a broad course of study.

According to the 2023-24 LCAP Survey results, 50% of parents are very satisfied/completely satisfied with college and career pathway courses. This percentage in satisfaction is lower than the desired outcome, 53% for 2026-27, and along with parent feedback gathered through the LCAP development process, it suggests a need to increase or expand our college and career pathway courses. HLPUSD developed this goal because there is a need to increase satisfaction with course access and to ensure all students and student groups have access to course options and pathways towards college and career, with equity districtwide. In addition, there is a need to increase ELs' access to Honors, GATE, AP, CTE, college and career pathways, VAPA and electives programs.

The actions and metrics grouped together will help achieve this goal by expanding the college and career pathway course offerings and ensuring unduplicated students' access to pathways districtwide.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1	Fully Credentialed and Appropriately Assigned Teachers Source: DataQuest Teacher Assignment Monitoring Outcomes (TAMO) by Full-Time Equivalent (FTE) Report (Priority 1)	2021-22 Clear 95.1% Comparison to State and County Average: Above			2024-25 Clear 98.1% Comparison to State and County Average: Above

Goal Analysis for 2024-2025

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Not Applicable

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Not Applicable

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1	Fully Credentialed and Appropriately Assigned Teachers	Ensure hiring and certification of fully credentialed teachers at all sites, per Williams and Every Student Succeeds Act (ESSA) requirements including, but not limited to, the following actions: 1) Human Resources (HR) procedures and practices will ensure that high quality, properly credentialed, and EL authorized teachers are hired and maintained in teaching positions for which they are fully credentialed to teach. 2) Offer HLPUSD Teacher Induction Program (TIP) approved by the California Commission on Teacher Credentialing for eligible teachers holding a preliminary credential for General Education and/or Special Education. 3) Offer ACSA Clear Administrative Credential Program (CACP) approved by the California Commission on Teacher Credentialing for eligible administrators holding a preliminary credential in administrative services.	\$3,404,166.00	No
2	Standard-Aligned Instructional Materials	Ensure every student in every classroom has SBE adopted and/or standards-aligned core instructional materials/ adopted online resources for all content areas including approved TK-12 CA Standards-based Mathematics, ELA-ELD, History/Social Studies, and Next Generation Science Standards (NGSS) instructional materials. Provide standards-aligned instructional textbook materials, such as core AP, IB, and other core content textbooks, including World	\$4,926,898.00	No

		Languages instructional materials.		
3	Facilities	Provide a safe, clean, well-maintained and in good repair learning environment. 2) Maintain and improve district facilities as needed to support LCAP priorities, per long- term maintenance and improvement projects and timelines. 3) Ensure well-qualified staffing and to provide on-going training, as required to provide safe, clean, well-maintained facilities, districtwide. 4) Provide updated equipment, basic materials and supplies at all district facilities. 5) School Facilities Projects: continue and/or implement various maintenance projects for district sites. 6) Support for school facilities modernization and improvement projects for 21st Century classrooms districtwide.	\$30,940,840.00	No
4	Technology Infrastructure	Provide districtwide technology infrastructure, including: 1) Network & Computer Services (NCS) department/ District personnel. 2) Technology equipment; Aeries student information system, financial information system, personnel management systems; wired and wireless networks, e-mail, servers, bandwidth; hardware and software; fire systems; video and security systems. 3) Implement data management system. 4) Provide and maintain technology and infrastructure necessary for implementation of standards-aligned instruction and CAASPP/SBAC testing at all sites.	\$5,172,974.00	No
5	Supplemental Technology Services and Devices	Provide equitable access to supplemental technology services and devices to low income students, English learners, and foster youth who may experience financial constraints: 1) Site-based computer technicians to support instructional technology. 2) Refresh cycle where students in grades TK-K receive an iPad and students in 1st, 5th, and 9th grade receive a new laptop. 3) Maintain additional classroom technology devices to support instructional materials implementation and integrated technology instruction. 4) Maintain a learning management system to facilitate access to learning and progress monitoring of unduplicated students. 5) Implement a technology platform to monitor student academic achievement and progress in alignment with district goals.	\$1,594,155.00	Yes
6	Reduce Combination Classes (repeated expenditure, Goal 2, Action 2)	Reduce combination classes: Provide additional FTE teachers to be assigned to schools impacted by high rates of combination classes, beyond the regular staffing ratios.	\$0.00	Yes
7	CA Standards Implementation Plan	The HLPUSD California Standards Implementation Plan will include: 1) Professional development (PD) opportunities for all teachers and support staff TK-12, on implementation of the California Standards and new Textbook/Curriculum Adoptions. 2) PD will include alignment with CAASPP/SBAC Blueprints, instructional pacing guides, technology alignment, lesson/unit design, and implementation. 3) PLC model will be utilized to build implementation of CA Standards and Academic MTSS districtwide. 4) PD for instructional coaches, specialists, and administrators on implementation of state standards to build districtwide capacity. 5) Dual Immersion (DI) programs will be standards-aligned, including content, instruction, performance assessments, and pacing guides. 6) Consultant services will be utilized to increase districtwide use of research-based instructional practices and data analysis to increase student performance. 7) Special Education and Education Services Division will collaborate to provide PD for staff of students with disabilities to support student access to CA Standards and to address identified performance gaps.	\$0.00	No
8	Supports for Implementation of CA ELD Standards	Provide actions, services and professional development for teachers of ELs, including focus on: 1) CA ELD Standards implementation 2) Designated and Integrated ELD 3) Evidence-based practices for ELs, Newcomers, Redesignated Fluent English Proficient (RFEPs), and Long Term English Learners (LTELs) 4) Use of performance data and progress monitoring, to address English learners' acquisition of English proficiency and access to the CA Academic Standards.	\$0.00	No
9	School Site Supports for Implementation of CA	Materials, supplies, rentals and leases, equipment, and printing to implement the CA Academic Standards. (See Goal 2, Action 10 for additional school actions and services to implement the	\$0.00	No

	Standards	core program and academic standards.)		
10	School Site Supports for Access to CA Standards (repeated expenditure, Goal 1, Action 13)	Additional supports and services to increase unduplicated students' access to CA Academic Standards, which include: 1) Additional support staff to increase standards-aligned instructional effectiveness for unduplicated students, including support for use of instructional technology, and to increase low income, English learners, and foster youth's academic achievement by offering small group interventions. 2) School site-based PD and/or collaboration in PLCs to implement the CA Standards, including ELD Standards and the ELA/ELD framework. 3) Supplementary standards-aligned materials to reinforce content, including books and reading materials, academic intervention materials, and subscriptions. Technology (tablets and laptops used to access applications and/or software to support core program through enrichment and/or reteaching/intervention) 4) Standards-aligned conferences, workshops, consultant services focused on increasing unduplicated students' access and academic achievement. 5) Ongoing TOSA Support throughout the year to build professional capacity via PD, model/demonstrate lessons, team teach, data analysis, and planning next steps.	\$0.00	Yes
11	MS and HS Counselors and Counseling Services	Provide MS and HS counselors and counseling services to ensure all students' access to a broad course of study: 1) Continue to expand/ enhance course access at all middle and high schools that will equitably prepare students for College and Career, including open access to dual enrollment/college credit courses at high schools, enrollment in a-g, Advanced Placement, International Baccalaureate, Dual Enrollment, and Honors courses; 2) Educational counseling that includes academic counseling and postsecondary services. 3) Academic planning for access to success in higher education programs.	\$1,222,140.00	No
12	Master Scheduling for Course Access	Master Scheduling for access & equity: Develop Master Schedule in order to provide support and intervention to increase low income, English learners, long term English learners, foster youth, homeless youth, students with disabilities, Hispanic and any other under-served student groups' enrollment in UC/CSU-aligned, a-g, honors, higher-level math and science, arts/VAPA, STEAM, CTE, elective courses, and dual enrollment.	\$0.00	No
13	School Site Supports for Course Access	Inclusive additional guidance and counseling staff to support low income, English learners, long term English learners, homeless youth, and foster youth and students with disabilities' access to courses to prepare them for college and career. Guidance and counseling conferences and trainings to increase staff effectiveness to better support unduplicated students. Provide personalized support to students with disabilities, English learners, long term English learners, homeless youth, and foster youth needing support to apply to college and/or career technical school. Provide personalized assistance to apply for financial aid and scholarships for college and/or career technical school. Link students to the appropriate educational partners at the post-secondary institution and help facilitate access to needed support via a "warm hand off".	\$517,586.00	Yes
14	English Learner Services	Implement HLPUSD Master Plan for Multilingual Learners: 1) Ensure appropriate placement of EL students in either Structured English Immersion (SEI) or Dual Immersion (DI) language instruction program, including Designated and Integrated ELD and courses within the standard instructional program; 2) Provide Designated ELD for all ELs at the Emerging, Expanding, or Bridging English proficiency levels (ELPAC Levels 1-4) in grades TK-12; 3) Provide Integrated ELD to all ELs at all proficiency levels in core content areas. 4) Plan, develop and implement specialized resources and services to increase all EL and LTELs' access to and enrollment in UC/CSU and graduation requirement courses, GATE & Honors, AP and dual/college credit courses, elective courses and extra-curricular activities in grades 6-12 and to reclassify in grades 4-12. 5) Monitor Redesignated Fluent English Proficient (RFEP) students' progress for 4 years to ensure RFEPs' appropriate educational placement.	\$0.00	No
15	Foster Youth Services	Support for Foster Youth: 1) Review and align Board Policies and Administrative Regulations with	\$0.00	No

		foster youth laws, including requirements for enrollment, graduation requirements, eligibility for AB167/216, extra-curricular activities, and transportation to school of origin. 2) Foster Youth Liaison and school administrators, counselors, and teachers to ensure foster youths' immediate enrollment, appropriate educational placement; assist with transfer of grades, credits, partial credits, and records and facilitate immediate placement in academic intervention as necessary.		
16	State Seal of Biliteracy	All district comprehensive high schools provide pathways, courses, access, and assessments for students to meet the criteria to receive the State Seal of Biliteracy (SSB) emblem upon graduation. Continue to promote SSB across District and long-term plans for biliteracy pathway programs from elementary to high school, and Dual Immersion program transition plans from elementary to secondary schools. Continue to implement elementary and middle school Dual Immersion participation recognition certificates and HLPUSD pathway to biliteracy awards.	\$0.00	No
17	State Seal of Civic Engagement and State Civic Learning Award	Develop HLPUSD criteria, design and implementation plans to engage students civically, beginning in elementary school to earn the State Seal of Civic Engagement on a transcript, diploma, or certificate of completion in grades 11 or 12. Engage students in civic learning through strong civics curriculum in schools and service-learning projects which can merit a State Civic Learning Award.	\$0.00	No

Goal

Goal #	Description	Type of Goal
2	Student Outcomes: All students, TK through 12, including low income, English learners, and foster youth, will meet or exceed expected academic performance outcomes to ensure their preparedness for college and career upon graduation.	Broad Goal

State priorities address by this goal.

4, 8

An explanation of why the LEA has developed this goal.

This goal addresses state and local priorities within the Student Outcomes category:

Student Achievement (Priority 4): Performance on standardized tests and Academic Indicators, share of students that are college and career ready, share of English learners that become English proficient, English learner reclassification rate, share of students that pass Advanced Placement exams with 3 or higher, share of students prepared for college ELA and Math.

Other Student Outcomes (Priority 8): Outcomes for students in subject areas within the adopted course of study.

Low-income, English learners and foster youth are more likely to underperform in key subject areas and are less likely than their peers to graduate high school and be college and career ready. Per the 2023 CA School Dashboard, the Distance from Standard (DFS) on the ELA Academic Indicator for All Students is -4.9 DFS. It is significantly lower for Low Income: -21.4 DFS, English Learners: -42.4 DFS, Foster Youth: -87.8 DFS, and Students with Disabilities: -99.1 DFS. The Distance from Standard (DFS) on the Math Academic Indicator for All Students is -42.4 DFS. It is significantly lower for Low Income: -60.2 DFS, English Learners: -64 DFS, Foster Youth: -126.1 DFS, and Students with Disabilities: -140 DFS.

In addition, low-income students, English learners and foster youth are less likely to be prepared meeting UC/CSU a-g requirements. Per DataQuest 2022-23 Four-Year Adjusted Cohort Graduation Rate (ACGR), 2023 graduates meeting UC/CSU requirements for All Students is 50.6%. In comparison, Low Income: 45.1%, English Learners: 30.3%, Foster Youth: 11.1%, and SWD: 13.2% were prepared meeting a-g requirements.

HLPUSD developed this goal because there is a need for immediate and effective intervention to address the existing achievement gap between high priority student groups, including low income, English learners, foster youth, students with disabilities, and any ethnic/racial student groups not meeting proficiency and/or college and career readiness targets. There is a need to address the achievement gap that exists for at-promise grade 7-9 students in Mathematics, through implementation of effective evidence-based intervention. There is a need to systematically collect, evaluate and analyze student performance data to inform and guide instructional practices at the district, school site, content area, grade level, classroom, and individual student level.

The actions and metrics grouped together will help achieve this goal by providing timely evidence-based interventions and additional supports to address the barriers faced by unduplicated students and help monitor their progress in reaching expected outcomes.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1	CA School Dashboard English Language Arts Academic Indicator (ELA) (Priority 4)	2023 English Language Arts Academic Indicator (ELA) Distance from Standard (DFS) All Students: -4.9 DFS Low Income: -21.4 DFS English Learners: -42.4 DFS Long Term English Learners: TBD Foster Youth: -87.8 DFS Students with Disabilities: -99.1 DFS			2026 English Language Arts Academic Indicator (ELA) Distance from Standard (DFS) All Students: 4.1 DFS Low Income: -12.4 DFS English Learners: -30.4 DFS Long Term English Learners: TBD Foster Youth: -75.8 DFS Students with Disabilities: -87.1 DFS

Goal Analysis for 2024-2025

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Not Applicable

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Not Applicable

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1	Highly Qualified Teachers	Provide highly qualified teachers to implement the districtwide TK-12 instructional program for all students in every classroom. 2) Provide qualified substitute teachers.	\$71,901,054.00	No
2	Additional Certificated Staff	Additional Certificated Staff will be used to support unduplicated students' learning and academic achievement by: 1) Reducing class sizes in grades TK to 3rd, over the base requirement. 2) Minimizing combination classes. 3) Lowering class sizes in grades 4-12, over the base requirement. Services that are being provided for low- income students, English learners, and foster youth within these classes allows teachers to conduct one-on-one data chats, identify strengths and weaknesses, diagnose needs and differentiate instruction in response to students' needs, create individualized recovery or acceleration plans, conduct small group interventions, and increase interactions with teacher creating stronger relationships that directly supports low income students, English learners, and foster youth. 4) Additional certificated staff will also support unduplicated students' engagement by providing elective offerings and enrichment opportunities that low-income students, English learners, or foster youth would not otherwise have.	\$21,143,942.00	Yes
3	Academic Multi-Tiered System of Supports (MTSS)	Develop an integrated, comprehensive framework that focuses on instruction, differentiated learning, student-centered learning, individualized student needs, and the alignment of systems necessary for all students' academic success. Inclusive Academic Instruction: 1) Builds upon a	\$8,400.00	No

		comprehensive assessment system: a) Working closely with NCS Department to enhance the use MAP results, Mastery Connect, AERIES Analytics, CAASPP, CA Dashboard, and tools to facilitate effective monitoring of student performance, enabling early identification of at-promise students for timely interventions. b) Actively collaborate with all district departments and school sites, with the goal of providing essential data to enable informed decision-making. This initiative is aimed at ensuring equitable opportunities and fostering academic success for all students while minimizing learning gaps and accelerating learning for all student groups. 2) Creates and utilize teams: Develop district level interdisciplinary teams to support sites. 3) Provides universal academic supports and considerations to culturally responsive practices: Integrate evidence-based practices such as UFLI. Integrate and work closely with Ethnic Studies Coordinator to embed culturally responsive practices. 4) Identifies supplemental interventions and supports: Build upon evidence-based practices. 5) Provides intensified interventions and supports. 6) Develop guidelines to implement curriculum with universal design for learning (UDL).		
4	Title I - IV Programs	Implement District Title I - IV programs to provide supplemental support to increase student achievement districtwide and close gaps in achievement for under-performing and at-promise students and student groups. 1) Title I districtwide instructional improvement initiative programs, including: Summer Math Enrichment program to support Middle School students' transition to Integrated HS Mathematics; APEX credit recovery program for high schools; C-STEM mathematics intervention for at-promise students. 2) Title II districtwide differentiated, supplemental professional development and strategic instructional support and/or coaching to schools and teachers. 3) Title III districtwide supplemental support for English Learner programs and EL students; supplemental professional development/coaching and instructional support services for teachers and administrators, including to improve instruction and assessment of ELs. 4) Title IV districtwide New Pedagogies for Deep Learning (NPDL) professional development for development of students' 21st century global competencies to provide a well-rounded education and implement safe and healthy student activities. 5) Supplemental consultants/ contracted services/ online subscriptions/ materials & supplies to support activities.	\$5,198,533.00	No
5	Academic Support Services	Increase academic support services for low-income students, English learners, and foster youth to address gaps in achievement and ensure their progress in meeting/exceeding academic standards and/or college and career readiness targets, in response to identified needs. 1) Education Services support staff, including TOSAs and Coordinators, will expand instructional supports for school sites, staff, and students, including differentiated PD for teachers and administrators per the PD plan and calendar, as well as push-in services to schools and school PLC teams on MTSS, Math, ELA, including literacy and writing across content, ELD, History/Social Science, NGSS. 2) Provide additional on-going PD and training for site and district administrators for districtwide implementation of programs and practices that effectively address the needs of unduplicated students. 3) Continue and enhance the work of the ES, MS, HS, and Districtwide Curriculum Committees for ELA, Math, ELD, Dual Immersion, NGSS, History Social Studies, Intersectional Ethnic Studies, CTE, and other content areas to strengthen core programs. 4) Continue to implement Overdrive/SORA on-line digital library service for all school libraries, via the LA County Library system to increase unduplicated students' access to high interest reading materials and strengthen literacy.	\$6,884,689.00	Yes
6	Professional Development Plan	PD/Professional learning for districtwide instructional program improvement to address the needs of low-income students, English learners, foster youth, and students with disabilities: 1) Ongoing, differentiated PD for grades TK-12 teachers and administrators, such as: CA ELA and Math Standards, ELA-ELD Framework, CA ELD Standards, evidence-based instructional strategies, effective experiential learning design, improved rigor, standards-aligned instruction, writing (articulate and implement plan), ERWC, NGSS, technology, VAPA literacy & arts integration,	\$1,211,000.00	Yes

		SBAC and performance tasks, Advanced Placement (AP), GATE, Academic Multiple Tiered Systems of Support (MTSS), including strategies to address the needs of low-income students, English learners, foster youth, and students with disabilities. 2) PD for subject area teachers to strengthen teachers' content knowledge. 3) PD calendar may include in-person or virtual PD delivery through job embedded PD, PD release days, teacher release during the school day, after school, or summer. 4) Support on-going TK-12 teacher vertical articulation/backward mapping, lesson/unit design/study, Academic/Behavioral/SEL MTSS to ensure student achievement. 5) Using current data management system, look at student outcome data to analyze progress, assess needs, plan next steps, and implement with fidelity. 6) Systematically monitor and evaluate the effectiveness of the PD plan utilizing rubrics, learning walks, teacher and administrator feedback and needs assessment. 7) Expand capacity to effectively utilize ELA and Math MAP Assessments to increase instructional alignment and monitor unduplicated students' progress.		
7	College and Career Readiness Support Services	The following actions and services will increase support for students' College and Career Readiness including student groups at the very low status level on the CA Dashboard College/Career Indicator: 1) Align high school graduation requirements to College and Career Readiness requirements. 2) Increase access to College and Career counseling/counselors for elementary, middle and high school students. 3) Community Day School Programs. 4) High School Summer School Programs. 5) Data TOSA will utilize Qualtrics and other data tools and systems, to manage and support use and analysis of data to inform program implementation. 6) Review High School Exit survey results administered to high school 12th graders. 7) Increase dual enrollment offerings during the school day at all comprehensive high schools, with the Workman Early College Academy Network (WECAN) growing to provide a pathway to Intersegmental General Education Transfer Curriculum (IGETC) or an associate's degree.	\$1,852,064.00	No
8	Career Technical Education (CTE)	Implement Career Technical Education (CTE) Pathways in grades TK to 12 to support low income, English learners, and foster youth students' college and career readiness, including Project Lead the Way, to support implementation of Science, Technology, Engineering, Arts, and Math (STEAM) programs; Vocational Technology; Signature programs; College Readiness programs. Strengthen Career Technical Education (CTE) pathways to include certificates, internships, and apprenticeships. HLPUSD will continue to align career pathways offered to students based on the latest career opportunities. Strengthen middle school to high school CTE pathways to support MS CTE electives through additional teacher hours, materials, and supplies.	\$3,074,260.00	Yes
9	Special Education Services	Provide students with disabilities with equitable access to opportunities and resources provided to all students, in addition to providing services and supplemental aids as outlined in their Individualized Education Program (IEPs) to meet their unique needs. Increase the number of students with disabilities meeting or exceeding standards in English Language Arts (ELA) and Mathematics (Math) on Smarter Balanced Assessments (SBAC).	\$50,176,952.00	No
10	School Site Supports for Core Academic Programs	Provide the following to directly support the core academic program: 1) Instructional materials, supplies, equipment, and technology to support student achievement in grades TK-12. 2) Staff, additional hours, conferences and trainings, contracts/agreements to support student achievement. 3) Schools identified for Comprehensive Support and Improvement (CSI) and Additional Targeted Support and Improvement (ATSI) will identify and address any resource inequities and implement evidence-based interventions to address student needs as identified through the comprehensive needs assessment. 4) Progress Monitoring of Core Academic Programs: Recognize growth via Dashboards of SBAC, ELPAC, Lexia, Dreambox, MAP Growth (in math, reading, language usage, and science) and other multiple measures and use the data to analyze the needs of students and staff, and plan next steps for professional learning and training.	\$1,566,903.00	No
11	School Site Supports for Unduplicated Student	Schoolwide supports to increase low income students, English learners, and foster youths' academic achievement: 1) Teacher collaboration time and professional development aligned to	\$9,387,238.00	Yes

	Achievement	<p>site Needs Assessment and priorities in School Plan for Student Achievement (SPSA) and LCAP. 2) Targeted supplementary instruction and academic MTSS support to assist low income, English learners, and foster youth students in meeting standards: Additional staff, after school and/or small group interventions, conferences and contracts to increase teacher capacity, substitutes to provide teachers collaboration and planning time, additional hours to conduct interventions, instructional materials and supplies to support MTSS implementation; equipment, supplementary software and technology to increase digital access to core content and increase academic achievement for unduplicated students. 3) Implementation of programs and initiatives to raise academic achievement principally directed toward unduplicated students. 4) Curricular field trips for unduplicated students directly aligned to the curriculum and classroom instruction. 5) Teacher collaboration and planning time, and supplemental professional development focused on English learners, newcomers, and long term ELs' needs and targeted supplementary instruction and support services for English language acquisition/ELD. 6) Systematic and frequent progress monitoring to determine appropriate instructional modification, support and/or intervention for foster youth. 7) Foster Youth Liaison, school site administrators, counselors, and support staff will support coordination of interventions, supports, and resources on site and referrals to outside partners.</p>		
12	English Learner Program Support	<p>The Multilingual Department Staff will provide supplemental support for implementation of a comprehensive English Language Development (ELD) program TK-12 that addresses language acquisition and academic needs of all EL students, Newcomers to LTELs. 1) Provide professional development for teachers of English learners and long term English learners and instructional coaching, as well as push-in services to schools and school PLC teams. 2) Support to schools to effectively and systematically monitor EL, LTEL and RFEP student progress, including for reclassification and post reclassification. 3) Help school sites analyze and disaggregate data to determine evidence-based resources/supports/ interventions for English learners and LTELs. 4) EL Program Facilitator for each school site to support effective site EL program implementation, EL assessment and progress monitoring, standards-based instruction, and intervention. 5) Classroom bilingual aides to support small group instruction of Newcomers and at-risk LTEL students. 6) Language Assessment Technicians and Welcome Center ELPAC support to ensure appropriate EL assessment for initial identification of English learners.</p>	\$1,707,533.00	Yes
13	Intensive English Learner Program Support (repeated expenditure, Goal 2, Action 12)	<p>In addition to EL supports offered to all school sites, the Multilingual Department staff will dedicate additional time and resources to support school sites with the lowest performance level on the CA Dashboard English Learner Progress Indicator (ELPI). Intensive supports will include: 1) Additional PD/training and instructional coaching on EL program elements for teachers, site EL Program facilitators, counselors, and site administrators. 2) PD/training is based on needs assessment and includes but is not limited to: ELPI and ELPAC Interims, simultaneous presentation of CA Standards & ELD standards, ELA-ELD framework, types and use of disaggregated EL performance data, EL monitoring assessment and tools, differentiation of instruction and intervention for ELs, Designated and Integrated ELD, and research-based instructional practices for ELs. 3) Collaboration with Special Education administrators and teachers to address specific program needs for dually identified students.</p>	\$0.00	Yes
14	Dual Immersion Program Support	<p>The Dual Immersion (DI) program offered in Mandarin, Spanish, and Korean provides English learners, including Newcomers, the opportunity to use their home language to attain English proficiency and access core subjects. The DI programs implement 3 program goals: grade-level academic achievement, bilingualism & biliteracy, and sociocultural competence aligned with the CA English Learner Roadmap. The District provides supplemental support to help DI schools implement an evidence-based program models as detailed in HLPUSD's Multilingual Plan. 1) As grade levels and/or new DI sites/teachers are added each year to schools' DI programs, expand</p>	\$3,998,360.00	Yes

		supplemental support for current and/or additional grade level(s)/ teachers. 2) DI TOSA(s) and/or consultants will provide additional support services for DI teachers, including lesson modeling, coaching, development of materials and assessments, and strategies for intervention. 3) The Multilingual Department will continue supplemental support to DI programs, including program model, PLCs, PD, and DI conferences. 4) Implement standards-aligned materials including partner language assessments.		
15	Migrant Education Program	Provide academic support services for Migrant Education Program students. Additional services for Migrant Education students and families will be provided through a Memorandum of Understanding between HLPUSD and LACOE Migrant Education Program (MEP) regional office. Services for MEP students will include a regular school year program for participating elementary/middle and high school students to address ELA, Math, and literacy through STEM units of study; dedicated counselors for TK-8 and 9-12 students, credit recovery and a-g, academic, and college/career counseling program for high school students; and coordination with the regional MEP program for student/family recruitment services and MEP database; opportunities for academic awards and scholarships for high school students, parent advisory council and family literacy program, and summer academic and/or enrichment programs.	\$52,476.00	No
16	School Site Supports for Unduplicated Student Other Outcomes (repeated expenditure, Goal 2, Action 11)	Schoolwide supports for unduplicated students' other outcomes: 1) Develop and utilize practices and supports to increase low income, English learners, and foster youth students' equitable access to signature programs, such as International Baccalaureate (IB), Science, Technology, Engineering, Arts, and Math (STEAM), Environmental Sciences, Health/HOSA, and/or additional programs. 2) Supplementary materials and supplies, books, equipment, or instructional technology; professional development, consultants, Itinerant Teachers, Other Employee services which are directly related to increasing student achievement in core subject area content: Science, NGSS, History/Social Studies, Physical Education, Visual and Performing Arts, STEAM, CTE, Technology, and Electives. 3) Afterschool and/or small group interventions as needed to support at-risk students' achievement in subject/content area courses. 4) Increase participation at all schools in Science Olympiad for unduplicated students, above district sponsored and donations support, including supplementary materials and additional coach hours. 5) Introduction of Pre-IB at middle school level to feed into high school's existing IB program. 6) Teacher collaboration and planning time, and supplemental professional development aligned to site Needs Assessment and priorities in SPSA and LCAP, focused on English learners (including newcomers and LTEL) and foster youths' needs. 7) Targeted supplementary instruction and support services for English language acquisition/ELD, and/or academic intervention. 8) Systematic and frequent progress monitoring to determine appropriate instructional modification, support and/or intervention for foster youth. 9) Additional staff/staff hours, contracted services, targeted intervention, and instructional materials and supplies, equipment, and technology, to support the academic achievement of unduplicated students.	\$0.00	Yes
17	VAPA Integration	Visual & Performing Arts (VAPA) integration to support unduplicated students' access and academic achievement: 1) Provide VAPA Coordinator to support VAPA integration in TK-12 schools and districtwide. 2) Integrate arts through STEAM. 3) Implement and update District's Strategic Arts Plan. Unduplicated students often lack opportunities to engage in the arts outside of school, integration of Visual & Performing Arts (VAPA) into the curriculum is principally directed toward unduplicated students to provide them with opportunities during the school day to have the arts integrated into content areas which provide unduplicated students with a well-rounded, rich educational experience. 4) Strengthen VAPA integration through additional teacher hours, materials, and supplies. 5) TEAL Arts grant(s) & LA County Arts Education Collective Advancement Grant for integration of arts with CA Academic Standards and instruction.	\$104,551.00	Yes
18	Media Center Aides/ Clerks	Provide all elementary and K-8 sites with media center aides and secondary schools with media	\$1,018,485.00	Yes

		center clerks above the base to support the library used by low income students, English learners, and foster youth. Clerks/aides will assist unduplicated students in selection of books and create opportunities to encourage students to read more and increase student achievement.		
19	Data, Research, and Innovation Department (repeated expenditure, Goal 2, Action 5)	Data, Research, and Innovation (DRIVE) Department will: 1) Provide pertinent data to school sites in order to inform targeted interventions for low-income, English learners, and foster youth students, to fill in achievement gaps, and to inform instructional practices across the entire District. 2) Utilize additional services, tools (aligned with the Multi-Tiered System of Supports (MTSS) framework), and supports to gather and analyze student performance, survey, and/or program data to assist in monitoring the effectiveness of instructional programs, improve instructional practices and support systems, and increase academic achievement outcomes for unduplicated students while minimizing learning gaps and accelerating learning. 3) Leverage Hanover Research reports and analysis to inform decision-making, driving continuous improvement through evidence-based practices for unduplicated students. 4) Implement purposeful and consistent use of data management system districtwide as a tool to analyze and monitor unduplicated student progress and performance and to inform and adjust instruction toward meeting ELA-ELD, Math CA Standards, and CA Next Generation Science Standards. 5) Provide on-going training and/or coaching support to TK-12 teachers and administrators with protocols guiding effective data use. Professional Learning Communities (PLCs) will facilitate the sharing of evidence-based practices and analysis of student data. 6) Continue to implement, align, and refine the districtwide NWEA MAP Assessments. 7) Enhance use of Aeries Analytics and Canvas Analytics tools to facilitate effective monitoring of student performance, enabling early identification of at-promise students for timely interventions. 8) Utilize Qualtrics, Parent Square, and Instructure (Canvas, Mastery Connect, and Elevate) to support unduplicated students' achievement and engagement, and parent engagement.	\$0.00	Yes
20	CTE Pathway Support	Provide additional support for Career & Technical Education courses and pathways at all high schools and alternative high school to increase and improve unduplicated student groups' access and opportunity for courses which will prepare them for post-secondary career paths in a range of high-wage and in-demand careers, and as a foundation toward entry to technical school or college/university upon graduation. Implement additional CTE elective course sections at K-8 and middle schools to increase unduplicated students' preparedness for high school pathways. Strengthen middle school to high school CTE pathways to support MS CTE electives through additional teacher hours, materials, and supplies.	\$712,326.00	Yes
21	Intensive ELA Support (repeated expenditure, Goal 2, Action 5)	In addition to ELA supports offered to all school sites, the Curriculum, Instruction, and Assessment Department will dedicate additional time and resources to support students with disabilities districtwide (differentiated assistance) and school sites with the lowest performance level on the CA Dashboard English Language Arts Academic Indicator. Intensive supports will include: 1) Additional PD/training and instructional coaching on best first instruction, differentiated instruction, assessment and progress monitoring, MTSS interventions at Tier II & III levels, common writing process, common expectations for reading and writing at each grade level, essential standards guide, Thinking Maps, Jane Schafer and Nancy Fetzner strategies, tutoring for literacy and writing across content. 2) Curriculum Committees to help with writing sequence, summer programs with an ELA focus (TK-6). 3) Explicit focus on phonics and phonemic awareness with Heggerty, UFLI, and TK Writing Without Tears. 4) Training for administrators on "look fors" during instructional time in the classroom. 5) Certificated staff lead intervention for grade level structured intervention support with flexible grouping with pre/post assessments. 6) Collaboration with Special Education administrators and teachers to provide differentiated, best first instruction based on IEP goals and individualized needs with access to the core curriculum at the student's grade level.	\$0.00	Yes
22	Intensive Mathematics	In addition to mathematics supports offered to all school sites, the Curriculum, Instruction, and	\$0.00	Yes

Support (repeated expenditure, Goal 2, Action 5)	<p>Assessment Department will dedicate additional time and resources to support students with disabilities districtwide (differentiated assistance), homeless youth districtwide, and school sites with the lowest performance level on the CA Dashboard Mathematics Academic Indicator.</p> <p>Intensive supports will include: 1) Additional PD/training and instructional coaching on math standards lesson studies, new CA Math Framework, essential standards, best first instruction, differentiated instruction, literacy integrated into math to address EL's needs, assessment and progress monitoring, MTSS interventions at Tier II & III levels, CSTEM, and summer programs with a math focus (TK-8). 2) Training for administrators on "look fors" during instructional time in the classroom. 3) Certificated staff lead intervention for grade level structured intervention support with flexible grouping with pre/post assessments. 4) Collaboration with Special Education administrators and teachers to provide differentiated, best first instruction based on IEP goals and individualized needs with access to the core curriculum at the student's grade level.</p>

Goal

Goal #	Description	Type of Goal
3	Engagement: All students and parents, including low income, English learners, and foster youth, will be actively and purposefully engaged in school and learning, provided within positive learning environments that promote emotional safety and school connectedness to ensure all students' preparedness for college and career upon graduation.	Broad Goal

State priorities address by this goal.

3, 5, 6

An explanation of why the LEA has developed this goal.

This goal addresses state and local priorities within the Engagement category:

Parent and Family Engagement (Priority 3): Efforts to seek parent input in decision making, promotion of parent participation in programs for unduplicated pupils and individuals with exceptional needs.

Student Engagement (Priority 5): Address/improve school attendance rates, chronic absenteeism rates, middle and high school dropout rates, and high school graduation rates.

School Climate (Priority 6): Address/improve student suspension and expulsion rates, local measures including surveys of students, parents, and teachers on the sense of safety and school connectedness.

Various educational partner groups during the LCAP development process expressed the need to expand parent involvement opportunities, engage students, and provide social-emotional support and counseling services. HLPUSD developed this goal because there is a need to further increase meaningful and active parent and family engagement in schools and districtwide through multiple access points, in support of increasing unduplicated students' achievement. There is a need to increase the consistent use of SEL curriculum, and to continue to provide staff training on strategies that address student attendance and connectedness to school. There is a need to continue to strengthen implementation of a districtwide system of Tier 3 level support services to effectively address highest at-risk students' social and/or emotional health needs.

The actions and metrics grouped together will help achieve this goal by providing additional opportunities to engage parents and families and students, provide social-emotional counseling and supports to address unduplicated students' identified needs, and analyze outcome data to determine progress made.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1	Parent Input in Decision Making Source: Local Indicator for Parent Involvement and Family Engagement Self-Reflection Tool (Priority 3)	2023-24 School Year Self-Reflection Tool Results: 1) Building Relationships between School Staff and Families: Full Implementation 2) Building Partnerships for Student Outcomes: Full implementation 3) Seeking Input for Decision-Making: Full implementation			2026-27 School Year Self-Reflection Tool Results: 1) Building Relationships between School Staff and Families: Full Implementation 2) Building Partnerships for Student Outcomes: Full implementation 3) Seeking Input for Decision-Making: Full implementation	
2	Parent and Family Engagement: Parent Input in Decision Making Source: Local data- LCAP Survey (Priority 3)	2023-24 LCAP Survey Parent Results: 61% Agree/Strongly Agree: Parents have a say in the decision-making process at their school. 37% Agree/Strongly Agree: Parents have a say in the decision-making process at the district.			2026-27 LCAP Survey Parent Results: 64% Agree/Strongly Agree: Parents have a say in the decision-making process at their school. 41% Agree/Strongly Agree: Parents have a say in the decision-making process at the district.

Goal Analysis for 2024-2025

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Not Applicable

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Not Applicable

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1	Parent Participation in Decision Making	Provide additional support for meaningful engagement of low-income, English learners, foster youth's parents/guardians in school site and district level decision making and advisory groups to increase engagement and planning for English learners, students in foster care, and low-income students: 1) Provide on-going opportunities for HLPUSD parents and families, especially for parents of low income, English learners, and foster youth, to participate in parent education workshops to support parent leadership capacity within and across the district and schools to increase and improve outcomes and achievement of targeted student groups. 2) Ensure parent engagement in School Site Councils (SSC's) and English Learner Advisory Committees (ELAC's) at all schools, TK-12, to give input for development of District and School Parent and Family Engagement Policies, the LCAP, LCAP Federal Addendum, and SPSAs. 3) District Advisory Committee (DAC) and District English Learner Advisory Committee (DELAC) are comprised of parent representatives from every school site to advise LCAP and LCAP Federal Addendum and provide input for yearly parent and family engagement workshop topics and opportunities. 4) Expand upon the system currently utilized to meaningfully engage parents in the district, schools and in the LCAP process, including through implementation of the annual LCAP Survey. 5) The district and school sites support parent participation in decision making with communication and meeting times for low-income, English learners, foster youth's parents/guardians that best meet their identified needs; provide translation, refreshments, and babysitting. 6) Based on unduplicated students' parent interest, implement Parent Education Workshop series (e.g., CABE) or other workshop topics of interest to district parents.	\$198,345.00	Yes
2	School Site Parent Participation	Meaningful parent engagement will be facilitated at school sites in the following ways to support all students, TK-12: 1) All school sites provide opportunities and options for parent engagement and participation, such as PTA, Boosters, parent nights, open house, special events, parent conferences, parent newsletters, and updated school web page. 2) Continue to implement Aeries	\$64,179.00	No

		Parent Portal, including Grade Book, to increase meaningful parent engagement and to engage and inform parents regarding student progress in support of student achievement. 3) Enhance communication via phone calls, email, social media, and ParentSquare in addition to school website and electronic marquee.		
3	School Site Supports for Parent and Family Engagement	Schools to provide additional opportunities for meaningful parent and family engagement and participation to increase the involvement of parents of low income, English learners, and foster youth students, such as: 1) Fingerprinting set-aside budgeted at all school sites to encourage parent volunteers. 2) Offer educational classes for parents/guardians held at school sites, including topics based on need/interest, such as: CA Standards, CAASPP & CA School Dashboard, college and career preparation, homework help, school success, VAPA literacy & arts integration, instructional technology, and social-emotional wellness. 3) Offer additional means for parents to engage in the educational process and provide feedback on schools' programs, such as "Coffee with the Principal," and/or LCFF/LCAP informational and engagement meetings. 4) Include babysitting and translation services as needed. 5) Translation stipend per school site to assist in providing information to parent/guardians in their primary language. 6) Include materials and supplies for parent meetings/education opportunities. 7) Provide parent recognition activities to validate their active participation. 8) Hold parent meetings at times convenient for parents to attend and utilize email and/or phone as preferred by parents for effective communication. 9) Utilize HLPUSD Adult Education, and/or outside agencies, such as College Access Plan, CAFE, PIQE, PROedu to provide parent workshops and series. 10) Provide additional hours for teachers/staff to facilitate parent engagement activities.	\$110,504.00	Yes
4	Districtwide Parent Education Workshops and Opportunities	Equity, Access & Family Engagement Department will implement robust parent workshops throughout the year via zoom or in-person to support the academic success and well-being of unduplicated students on topics such as mental health, well-being, substance use prevention, academic programs, navigating community resources, social-emotional supports, preparing for college and career, college entrance and application requirements, and timely/special topics focused on the needs/interests of low income, English learners, homeless and foster youth, and students with disabilities and their parents/families. Spanish interpretation is available and Mandarin is available upon request. 2) Increase the percentage of parents actively involved in their student's education by providing resources, workshops, and outreach programs tailored to their needs. 3) Equity, Access & Family Engagement Department will coordinate and partner with local mental health agencies and county agencies to offer mental health information and workshops of various topics to district and/or school sites and will update and provide a community resource guide for parents and families to support navigating mental health, health, crisis, food security, and housing security in the community.	\$60,319.00	Yes
5	Counselor Support for Student Engagement	Counselors at all school sites will specifically target the needs of low income, English learners, foster youth, and students with disabilities to ensure students' social/emotional and behavioral needs are addressed. Counselors will provide low income, English learners, long term English learners, homeless and foster youth, and students with disabilities additional counseling services and personalized support to effectively address their social-emotional, behavioral, and academic needs, which may include: referrals/services to mental health services, linkages to basic needs, connection to tutoring support, weekly meetings, and/or progress monitoring. Unduplicated students' supports will also include additional conferencing, college campus visits, college and career awareness activities, summer school registration, scholarship assistance, and prioritization of newcomers, homeless and foster youth in registration and credit recovery. Tier I and II interventions at school sites to bring awareness to Mental Health and SEL (i.e., schoolwide prevention and awareness activities & initiatives, assemblies, small support groups, peer support/mentors, mental health, and SEL student-led organizations, etc). Tier III individualized	\$3,680,337.00	Yes

		student interventions for students to address additional needs, such as emergency and crisis response situations. Referral to an appropriate, responsible services can be identified and implemented. On-going training support for counselors and school staff to ensure unduplicated students have equitable access to a-g courses, electives, advanced course work, after school programs, extra-curricular and co-curricular activities, athletics, and student leadership opportunities.		
6	School Site Supports for Student Engagement (Guidance/Attendance Services)	School site actions and services to support student attendance and engagement, including: 1) SART and SARB process; 2) Attendance staff, materials and supplies needed to improve students' attendance. 3) Guidance/Counseling Staff and Attendance office staff will monitor student attendance and provide tiered intervention to address chronic absenteeism.	\$0.00	No
7	School Site Supports for Unduplicated Student Engagement (repeated expenditure, Goal 3, Action 16)	School site supports to increase unduplicated students' engagement: 1) School-based attendance incentive programs and/or campaigns to increase attendance and decrease absenteeism/dropout rates of low-income students, English learners, foster youth, and students with disabilities; 2) Additional counselor, counseling services, support staff, contracted services, and/or professional development to address barriers experienced by low-income students, English learners, foster youth, and students with disabilities. 3) Supplemental materials and supplies, books, equipment, technology, and/or software, to increase student engagement of low-income, English learners, foster youth, and students with disabilities. 4) Transition activities and student engagement programs, such as Renaissance and Link Crew. 5) Curricular field trips directly related to classroom instruction and/or College and Career Readiness or CTE pathways to enhance student engagement of unduplicated students. 6) Promote implementation and integration of evidence-based practices to meaningfully engage English learners, including newcomers and long-term English learners, such as SDAIE, GLAD, and Thinking Maps. 7) Foster Youth needs addressed at school sites: Provide responsive and appropriate services to foster youth based on identified need, such as: academic counseling, tutoring and/or targeted academic intervention, attendance support, appropriate placement, a-g courses, credit recovery, and high school graduation requirements for foster youth (AB216), mentoring, social/emotional and/or behavior counseling and/or intervention, as appropriate and/or referral for outside services, college and career awareness and counseling including assistance with college and other post-secondary institutions, and financial aid and scholarship applications, and equitable access to school activities.	\$0.00	Yes
8	Student and Family Services Supports for Student Engagement	Student and Family Services (SFS) will provide additional targeted, differentiated, and proactive supports to engage and increase services for low income, English learners, foster youth, and students with disabilities: 1) SFS counselor to support ongoing implementation of Universal Screener and provide data reports to sites for interventions and establish articulation protocols and process for transition plans of students receiving Tier 2 and Tier 3 supports. 2) Professional development and support for school counseling staff which include practices for increasing attendance; evidence-based intervention plans, and supports/resources. 3) Implement support system to address chronic absenteeism of students indicated on the CA Dashboard, at the high school level, and for targeted student groups such as foster youth and students with disabilities. 4) Ongoing TUPE Grant implementation to support student engagement. 5) SART/SARB support TK-12, including supporting sites directly with SART/SARB training with staff and parents. 6) Mental health and community resources available for students and their families through SARB referrals and parent meetings. 7) Facilitate annual District Community Events. 8) Monitor and maintain Parent Square and PeachJar Communications as part of community engagement.	\$608,786.00	Yes
9	After School and Summer Programs for Student Engagement	Provide after school and summer programs to increase low-income students, English learners, and foster youth's engagement in extra-curricular and/or co-curricular activities such as: Speech and Debate Summer Camp, Youth Cinema Project Summer Camp, CSTEM Summer Camp, Dual Immersion Summer Camp, Homework help; literacy & writing, math and science activities; sports	\$16,214,227.00	Yes

		programs; music, band, dance, art, drama, robotics and technology; family events and student competition events. Reduced student to adult ratio in after school programming and summer expanded learning programs to 10:1 for grades TK/K. Expanded after school and summer Speech and Debate programming to include the elementary level. District-coordinated preparation and coordination of the LACOE County Math Field Day and Science Olympiad competition through after school programming. Implement a Middle School extra-curricular sports activities to engage, increase access and school connectedness for low-income students.		
10	Co-Curricular and Athletics Program	Provide school-sponsored co-curricular activities and co-curricular athletic programs at High Schools.	\$2,154,336.00	No
11	Electives Options for Student Engagement (repeated expenditure, Goal 2, Action 2)	Expand access to elective programs to engage low-income students, English learners, and foster youth at Middle and High Schools, such as: Pre-International Baccalaureate (Pre-IB) at the middle school, Visual and Performing Arts (VAPA) - Band, choir, drama, art & media art; journalism; Youth Cinema Project; Ethnic Studies; Science, Technology, Engineering, Arts, and Math (STEAM), technology, robotics; signature programs and CTE pathway electives, per schools' master schedules.	\$0.00	Yes
12	Intensive Support to Increase Graduation Rate	In addition to supports offered to students with disabilities at all school sites, the Education Services and Special Education staff will dedicate additional time and resources to support students with disabilities districtwide and school sites with the lowest performance level on the CA Dashboard Graduation Rate Indicator. Intensive supports will include: 1) Additional PD/training and instructional coaching on SWD program elements for all general education teachers, site Special Education chairs, counselors, psychologists, and site administrators. 2) PD/training is based on needs assessment and includes but is not limited to: MAP testing, CAA and CAASPP performance, IEP goals, types and use of disaggregated SWD performance data, SWD monitoring assessment and tools, differentiation of instruction and intervention for SWD, and research-based instructional practices for SWD. Per the new Ed Code 51225.31, HLPUSD will adopt the Alternative Diploma Pathway for students who qualify for the CAA.	\$0.00	No
13	Intensive Support to Decrease Chronic Absenteeism Rate	In addition to supports offered to all school sites, Student and Family Services staff will provide additional student caseload support for all SARB referred students and provide intensive supports to students with disabilities districtwide (differentiated assistance) and school sites with the lowest performance level on the CA Dashboard Chronic Absenteeism Rate to strengthen positive attendance habits and promote student engagement and positive school climates. Additional PD/training will be provided and focused on: cultivating strong relationships between students and staff, creating safe and inclusive environments, available interventions prior to SARB referral, providing supports for chronically absent students when they return to class, using positive reinforcement to improve student attendance, and getting families involved with their child's attendance.	\$7,000.00	Yes
14	Equity, Access & Family Engagement Supports for Student Engagement	Equity, Access & Family Engagement Department will provide additional targeted, differentiated, and proactive supports to engage and increase inclusive services for low income, foster youth, homeless youth, probation youth, and students with disabilities to promote engagement, attendance, and high school graduation rates. The Homeless Liaison will collaborate closely with school staff, families, and external service providers to coordinate support services for McKinney Vento students. The Foster Youth Liaison will collaborate with school site staff, resource families, social workers, probation officers, other districts, legal representatives, and other community providers to coordinate support services for foster and probation students. 1) Foster Youth Liaison will work to identify, support, and monitor district foster youth to ensure proper educational placement, enrollment, and ensure all laws for foster youth are followed. 2) Foster Youth Liaison will collaborate with counselors to ensure appropriate services for foster youth and to assist in monitoring/ supporting foster youth's behavior and social emotional needs. 3) Foster Youth Liaison	\$210,583.00	Yes

		will provide ongoing professional development for counselors, school office managers, registrars, administrators, and teachers on addressing the issues and needs of foster youth and probation youth.		
15	School Site Safety	School sites will provide healthy, safe, and secure schools for all students: 1) School staff, additional hours for staff, materials and supplies, leases and repairs, maintenance, conferences, printing, equipment and technology.	\$75,340.00	No
16	School Sites Supports for School Climate	Implementation of Behavioral MTSS at all school sites to support low income students, English learners, and foster youth's positive behavior and academic achievement: 1) School Teams collaborate to implement MTSS including tiered supports and interventions at all sites which includes use of data, monitoring, adjustments, proactive classroom management, school-wide behavior matrix, and social-emotional learning (SEL) curriculum. 2) Site-based positive behavior incentives, campaigns, and/or programs based on schools' MTSS Plans. 3) School-based Tier II and/or III behavioral intervention during the school day for students identified as at-risk, per MTSS implementation plan. 4) Materials and supplies to support positive behavior, per site MTSS Plan. 5) Supplemental/additional counselors, noon aides, and/or other administrative/support staff to provide increased services for unduplicated students.	\$1,295,226.00	Yes
17	Site Supervision Aides/ Campus Security Aides	Site Supervision Aides/ Campus Security Aides to provide targeted support for low income, English learners, and foster youth outside of the classroom environment to promote social emotional well-being and reinforce coping strategies taught in the classroom and increase the social emotional support unduplicated students receive outside of the classroom.	\$2,498,052.00	Yes
18	Police and Safety	Department of Police and Safety will continue to provide safe and secure schools, including: 1) Officers, support staff, equipment, vehicles, materials and supplies. 2) Ongoing training necessary to proactively ensure safe and secure schools districtwide. 3) Comprehensive Safe Schools Plan, including crisis and emergency procedures at the district level and school site levels, developed at all sites and reviewed by staff and parent advisory groups, including trainings as necessary.	\$1,157,790.00	No
19	Student and Family Services Support for School Climate	Student and Family Services will support on-going training and professional development for district and site administrators, teachers, counselors, student support/classified staff on effective practices to ensure safe schools, child abuse reporting, bullying and cyber-bullying, student discipline, and Title IX training.	\$12,000.00	No
20	Student and Family Services Supplemental Support for School Climate	Student and Family Services will support additional on-going training and PD for district and site administrators, teachers, counselors, student support/classified staff to support low income, English learners, foster youth, and African Americans on: 1) On-going support and professional development on building positive school cultures. 2) Increase MTSS implementation levels and consistency districtwide through the use of universal screening data to differentiate PD and support based on sites' specific areas of need. 3) Youth Court provides as an evidence-based restorative justice practice focused on attendance, motivation, an engagement as a pre-SARB intervention. 4) Expand Youth Court Restorative Justice Program to include Teen Court Collaboration, where students are mentored by local judges and have the opportunity to participate in real juvenile court cases. 5) Implementation of Capturing Kids Hearts to increase student connectedness, perception of safety, and decrease suspension rates.	\$28,677.00	Yes
21	MTSS for Behavior	Student and Family Services will support sites with ongoing professional development for the implementation of Behavioral MTSS that focuses on instruction, differentiated learning, student centered learning, individualized student needs, and the alignment of systems necessary for all students' behavioral success. Inclusive behavior instruction builds upon a comprehensive assessment system, creates and utilizes teams, provides universal behavior supports, provides	\$0.00	No

		supplemental interventions and supports, provides intensified interventions and supports, and provides comprehensive behavior supports. (Supports Goal 2 Action 3)		
22	Intensive Support to Decrease Suspension Rate	In addition to supports offered to all school sites, Student and Family Services staff will provide additional supports to African Americans districtwide and school sites with the lowest performance level on the CA Dashboard Suspension Rate to strengthen positive school climates. Additional PD/training will be provided on: alternatives to suspension, strategies to build connectedness among students and staff, positive school culture, anti-bias training, de-escalating conflicts, trauma informed practices and brain development.	\$4,300.00	Yes
23	Support Services for Student Safety and Wellness	Additional supports and services to increase unduplicated students' safety, social-emotional and mental health, connectedness to school, including supplemental services provided by Student and Family Services counselor and/or support staff. 2) School facilities improvements, materials, supplies, and equipment to ensure healthy, safe, and secure schools. 3) SFS will maintain Teen Workshop Series for grade 6-12 students, based on input from LCAP Student Advisory Committee, on topics that focus on supporting students' physical, mental, and social-emotional health, as well as to develop healthy and effective life skills for personal success, and success in college and career. 4) Engage in ongoing consultation with Special Education Local Plan Area (SELPA) regarding appropriate additional social-emotional and mental health supports/intervention for students with disabilities.	\$3,474,936.00	Yes
24	MTSS for SEL	Equity, Access, & Family Engagement Department will support sites with ongoing professional development for the implementation of Social Emotional MTSS that focuses on instruction, differentiated learning, student centered learning, individualized student needs, and the alignment of systems necessary for all students' social success. Inclusive social emotional instruction builds upon a comprehensive assessment system, creates and utilizes teams, provides universal social-emotional supports, provides supplemental interventions and supports, and provides comprehensive social-emotional development supports. (Supports Goal 2 Action 3)	\$0.00	No

Goal

Goal #	Description	Type of Goal
4	Valley Alternative High, Valley Community Day, and Puente Hills High School will increase student achievement per the identified metrics by providing comprehensive, evidence-based services and supports to address the needs of identified students over the three-year cycle.	Equity Multiplier Focus Goal

State priorities address by this goal.

4, 5, 6

An explanation of why the LEA has developed this goal.

<p>LEAs are required to include a specific goal in the LCAP to address consistently low-performing student groups or low-performing schools. HLPUSD meets CDE criteria to receive Equity Multiplier funds. The Local Control Funding Formula (LCFF) Equity Multiplier (Equity Multiplier) provides additional funding to local educational agencies (LEAs) for allocation to schoolsites with prior year non-stability rates greater than 25 percent and prior year socioeconomically disadvantaged (SED) pupil rates greater than 70 percent. Pursuant to California Education Code (EC) 42238.024. Three HPLUSD schools meet this criteria: Valley Alternative High School (79.4% Non-Stability Rate; 81.3% SED), Puente Hills (52.5% Non-Stability Rate; 74.3% SED), and Valley Community Day School (89.2% Non-Stability Rate; 88.2% SED). Equity Multiplier funding is required to be used to provide evidence-based services and supports for students at these schoolsites. LEAs are also required to document the efforts to improve outcomes for students at these schoolsites beginning with the 2024–25 Local Control and Accountability Plan (LCAP).</p>
--

Goal Analysis for 2024-2025

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Not Applicable

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Not Applicable

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1	Academic Support	Increase academic support services at Valley, PHHS, and CDS for all students, including low-income, English learners, students with disabilities and Hispanic students schoolwide in response to identified needs: 1) Hire an additional teacher at Valley Alternative HS to support most at-risk students in the classroom and after school in order to increase student achievement (ELA/Math). 2) Allocation of additional teacher hours to develop engaging curriculum and lesson design, develop and implement evidence-based strategies to increase student collaboration (vs solely utilizing explicit direct instruction), providing academic tutoring, and attending professional development. 3) Purchase Read 180 intervention program to close the ELA achievement gap. 4) Online supplemental resources for enrichment and/or intervention. 5) Consistent academic intervention and counseling services (academic and social-emotional) are needed focusing on executive skills in organization, handling stress, overcoming trauma and self-advocacy.	\$329,500.00	No
2	Academic/ Behavioral Monitoring	Ongoing monitoring at Valley, PHHS, and CDS of identified students who need Tier 2 and Tier 3 interventions including: 1) MTSS/RTI team along with the counselor will actively identify and facilitate student success team meetings with underachieving students to encourage, support, and provide support to build confidence and success in the core curriculum. 2) Review of transcripts, credit acquisition, and academic counseling for all students. 3) The site leadership team will include dedicated time on data analysis of student progress on district assessment results, progress, quarterly grades, and credit acquisition in all courses. 4) Development and ongoing	\$0.00	No

		monitoring of Individual Learning Plans (ILP) for all students linking academic success to positive behavior and consistent attendance at school. 5) Tutoring access for student support to increase student achievement.		
3	Professional Development	Ongoing professional development at Valley, PHHS, and CDS: 1) Ongoing PD for teachers/counselors/admin to increase student engagement and achievement. Support teachers in ELA, Math, other academic content areas and Special Education with evidence-based strategies, curriculum-based, and effective instructional strategies. Professional Development to build a growth mindset to increase student achievement. As well as professional development/conferences that support English language development including but not limited to concept mapping, meta-cognition, reciprocal teaching, and/or discussion and questioning. 2) Collaborate with EAG consultants to build PLC capacity to use and analyze data to inform the development and implementation of effective lessons and assessments to increase student achievement.	\$96,805.00	No
4	Counseling/ Transition Support Services	1) Part-time counselor at PHHS to bridge support and services with Stimson Learning Center. 2) At Valley, PHHS, and CDS ongoing counseling support to provide workshops for students, parents, and teachers regarding support for college and career planning. 3) Emphasis on organizational strategies and executive functioning on overcoming perceived stressors and obstacles. 4) Consistent academic intervention, and counseling services (academic and social-emotional). 5) Counselor will also support students with staying on track to graduate.	\$145,800.00	No
5	Schoolwide Recognition/ Positive Reinforcement	1) Provide additional academic recognition at Valley, PHHS, and CDS for identified at-risk students with emphasis on grades and credit acquisition. 2) Incorporate SEL curriculum and aggression replacement training for students and restorative circle training/professional development for students and staff. 3) Provide extended learning opportunities for students that reinforce English language development standards communication, including but not limited to community college and 4 yr college/university visits/outreach programs, theater, museum, or art events/exhibits as well as exposure to post-secondary career options and trade/technical programs.	\$4,200.00	No

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students for 2024-2025

Total Projected LCFF Supplemental and/or Concentration Grants	Projected Additional 15 percent LCFF Concentration Grant
\$52,069,909.00	\$5,871,006.00

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
30.29%	2.73%	\$4,874,933.02	33.02%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
Goal 1: Action 5	<p>Due to financial constraints, some families of low-income students, English learners, and foster youth cannot afford devices or internet access thus creating a barrier to student learning. Integration of technology continues to be an essential need for low-income students to close equity gaps.</p> <p>In addition, parents at DAC and DELAC meetings have expressed there is a need for support to students and families needing technical assistance with digital literacy to support learning.</p>	<p>To meet this need, the LEA will provide supplementary supports and services to increase unduplicated students' access to the CA Academic Standards:</p> <p>Additional support staff to increase standards-aligned instructional effectiveness for unduplicated students, including support for use of instructional technology, to increase low income, English learners, and foster youth's academic achievement.</p> <p>Computer technician services to support instructional technology at all school sites and District office.</p> <p>Technology (tablets and laptops used to access applications and/or software to supplement and increase access to their digital learning experience.</p> <p>Maintain additional classroom technology devices to support instructional materials implementation and integrated technology instruction.</p> <p>The action is being provided on an LEA-wide basis since the district has families experiencing economic impacts throughout the district.</p>	<p>The LEA will monitor progress in increasing unduplicated students' access to the CA Academic Standards to help increase the academic performance in ELA and Math of unduplicated students CAASPP test scores. (Goal 2 Metrics 3 & 4)</p> <p>The district will also seek feedback from students, parents, and staff about the effectiveness of the supplemental services and supports.</p>
Goal 1: Action 10 and Action 13	<p>According to the 2023-24 LCAP Survey results, only 50% of parents are very satisfied/completely satisfied with college and career pathway courses. The expected outcome for HLPUSD was 51% or higher in parent satisfaction. This decrease in satisfaction along with parent feedback gathered through the LCAP development process suggests a need to continue to increase or expand our college and career pathway courses.</p>	<p>To meet this need: 1) Additional guidance and counseling staff will be provided to support low income, English learners, foster and homeless youth's access to courses to prepare them for college and career. 2) Guidance and counseling staff will attend conferences and trainings to increase staff effectiveness to better support unduplicated students. 3) Supplementary supports and services to increase unduplicated students' access to the CA Academic Standards include professional development and/or collaboration in PLCs to implement the CA Standards, including ELD Standards and the ELA/ELD framework, supplementary standards-aligned materials to reinforce content, including books and reading materials, academic intervention materials, and subscriptions, standards-aligned conferences, workshops, and consultant services focused on increasing unduplicated students' access and academic achievement.</p> <p>These actions are being provided on a schoolwide basis because all students at schools can benefit from increased supports for course access and access to the CA standards.</p>	<p>The LEA will monitor progress and the effectiveness of this action using the LCAP Survey Results. (Goal 1 Metric 8)</p> <p>We expect the percentage of parents very satisfied/ completely satisfied with college and career pathway courses to increase by 2% or more on the 2024-25 LCAP Survey.</p>

<p>Goal 1: Action 6 and Goal 2: Action 2</p>	<p>Low income students, English learners, and foster youth are more likely to underperform in key subject areas and are less likely than their peers to graduate high school and be college and career ready. Per the 2023 CA School Dashboard, the Distance from Standard (DFS) on the ELA Academic Indicator for All Students is -4.9 DFS. It is significantly lower for Low Income: -21.4 DFS, English Learners: -42.4 DFS, Foster Youth: -87.8 DFS, and Students with Disabilities: -99.1 DFS. The Distance from Standard (DFS) on the Math Academic Indicator for All Students is -42.4 DFS. It is significantly lower for Low Income: -60.2 DFS, English Learners: -64 DFS, Foster Youth: -126.1 DFS, and Students with Disabilities: -140 DFS.</p> <p>In addition, the advice from the LCAP Advisory Committee, which consists of parents, principals, local bargaining units, certificated and classified staff, include recommendations to lower class sizes and reduce combination classes.</p>	<p>To address this need, the LEA will reduce class sizes in grades TK-3rd, over the base requirement, reduce combination classes, lower class sizes in grades 4-12, over the base requirement, and provide additional teachers to support unduplicated students' learning, academic achievement, and engagement/enrichment. This action allows teachers to conduct one-on-one data chats, identify strengths and weaknesses, diagnose needs and differentiate instruction in response to students' needs, create individualized recovery or acceleration plans, conduct small group interventions, and increase interactions with the teacher creating stronger relationships that directly supports low-income students, English learners, and foster youth. Additional certificated staff will also support unduplicated students' engagement by providing elective offerings and enrichment opportunities that low-income, English learners, or foster youth would not otherwise have.</p> <p>This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English learners, and foster youth and, therefore, we expect to make the greatest gains in outcomes for these students.</p>	<p>The LEA will monitor progress for low income students, English learners, and foster youth using the CA Dashboard ELA and Math Academic Indicator Results. (Goal 2 Metrics 1 & 2)</p> <p>We expect the Distance from Standard on the ELA and Math Academic Indicator to decrease for low-income students, English learners, and foster youth by more points than the expected measurable outcomes for All Students.</p>
<p>Goal 2: Action 5, Action 6, and Action 19</p>	<p>Data results from the 2023 CAASPP ELA and Math Assessments reveal a continued need to provide low income, English learners, and foster youth students support services focusing on academic performance in key subject areas and equitable access. The 2023 SBAC ELA Results show unduplicated students' scores significantly lower than All Students (48% Met/Exceeded Standards for All Students vs 42% for low income, 15% for English Learners, 5% for Long Term English Learners, and 24% for foster youth). Similar achievement gaps were seen with the 2023 SBAC Math Assessment (35% Met/Exceeded Standards for All Students vs 29% for low income, 15% for English Learners, 2% for Long Term English Learners, and 6% for foster youth).</p> <p>Principals and teachers have also expressed the need to increase academic support services and differentiated professional development targeting the needs of low income, English learners, and foster youth students.</p>	<p>To address these needs, the LEA will increase academic support services for unduplicated TK-12 students to address gaps in achievement & ensure their progress in meeting/exceeding academic standards and/or college and career readiness targets, in response to the identified needs:</p> <ul style="list-style-type: none"> • Education Services Division support staff, including Education Services Division TOSAs and Coordinators, will expand instructional supports for school sites, teachers and students, including professional development for teachers per the PD plan & calendar, as well as push-in services to schools and school PLC teams. • Provide additional on-going PD and training for site and district administrators for districtwide implementation of programs and practices that effectively address the needs of unduplicated students. • Equity and Access and Student and Family Services staff will provide integrated student supports to address other barriers to learning, such as provision of health, counseling, or mental health services, and coordination of supports for enhanced implementation of multi-tiered academic and social-emotional MTSS for high-priority students, targeting the needs of foster youth, homeless and migrant youth, LTELs, and low-income students. • Multilingual department support staff will provide additional support for coordination of services for low income, ELs, 	<p>The LEA will monitor unduplicated students' progress using their CAASPP ELA and Math test scores. (Goal 2 Metrics 3 & 4)</p> <p>We expect ELA and Math CAASPP test scores to increase by a higher percentage for unduplicated students than the expected measurable outcomes for all students.</p>

Newcomers, LTELs, and migrant youth.

- Education Services Division support staff provide coordination of support services to schools for implementation of multi-tiered, academic, behavioral, and social emotional MTSS with fidelity at all TK-12 sites.
- Continue and enhance the work of the ES, MS, & HS Curriculum Committees for ELA, Math, ELD, NGSS, History/ Social Studies including Ethnic Studies, CTE and other content areas to strengthen core programs.
- Continue to implement OverDrive/SORA on-line digital library service for all school libraries, via the LA County Library system to increase unduplicated students' access to high interest reading materials and strengthen literacy.

Data, Research, and Innovation (DRIVE) Department will:

- Provide pertinent data to school sites in order to inform targeted interventions for low-income, English learners, and foster youth students, to fill in achievement gaps, and to inform instructional practices across the entire District.
- Utilize additional services, tools (aligned with the Multi-Tiered System of Supports (MTSS) framework), and supports to gather and analyze unduplicated student performance, survey, and/or program data to assist in monitoring the effectiveness of instructional programs, improve instructional practices and support systems, and increase academic achievement outcomes for unduplicated students while minimizing learning gaps and accelerating learning.
- Implement purposeful and consistent use of data management system districtwide as a tool to analyze and monitor unduplicated student progress and performance and to inform and adjust instruction toward meeting ELA-ELD, Math CA Standards, and CA Next Generation Science Standards.
- Utilize Hanover Research reports and analysis to inform the continuous cycle of improvement to reach expected outcomes for unduplicated students.

This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English Learners, and foster youth and, therefore, we expect to make the greatest gains in outcomes for these students.

<p>Goal 2: Action 8 and Action 20</p>	<p>Low income, English learners, and foster youth students can often experience limited resources, challenges, or face barriers toward becoming fully prepared for college and career. In analyzing the 2023 CA School Dashboard, 21.6% of All Students met the CCI “Prepared” level via CTE Pathway. In comparison, 20.6% of low-income students, 8.5% of English Learners, and 25% of Foster Youth met the CCI “Prepared” level via CTE Pathway.</p> <p>In addition, on the 2023-24 LCAP Survey, only 49% of students reported being very satisfied or completely satisfied with college and career pathway courses.</p>	<p>Career & Technical Education (CTE) pathway courses help prepare unduplicated students for post-secondary career paths in a range of high-wage and in-demand careers. Unduplicated students at all comprehensive high schools, and the alternative high school, will have increased and improved opportunities to engage in a wide variety of CTE pathways by implementing additional CTE elective course sections at K-8 and middle schools to increase unduplicated students' preparedness for high school pathways. This action is effective by engaging unduplicated students in high-interest courses, providing choices to explore potential future job options, and effective in preparing low income, English Learners, and foster youth with a strong foundation toward entry in a technical school or college/university upon graduation.</p> <p>This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English Learners, and foster youth and, therefore, we expect to make the greatest gains in outcomes for these students.</p>	<p>The LEA will monitor progress and the effectiveness of this action using the CA School Dashboard: 2023 Additional Reports and Data > College/Career Levels and Measures Report. (Goal 2 Metric 10)</p> <p>We expect the percent of low income, English learners and foster youth students that met the CCI “Prepared” level via CTE Pathway will increase by more than the 1% annual expected measurable outcome for all students.</p>
---------------------------------------	--	---	--

<p>Goal 2: Action 11 and Action 16</p>	<p>In reviewing the ELA and Math NWEA MAP Winter 2023-24 scores, unduplicated students scored lower than the average for All Students. Students who Met Standard or Exceed Standard at the 61 percentile or above for All Students in ELA-Reading was 31.9%, 26.9% for low income, 6% for English learners, and 16.2% for foster youth. Students who Met Standard or Exceed Standard at the 61 percentile or above for All Students in Math was 37.7% for All Students, 32.7% for low income, 21.9% for English learners, and 15.7% for foster youth. Unduplicated student groups often have academic and/or opportunity gaps that require additional targeted intervention and support services that will assist them in reaching goals for academic achievement and high school graduation requirements.</p> <p>DAC and DELAC parents have provided feedback to increase tutoring and intervention services for students to help increase academic achievement.</p>	<p>To address this need, schoolwide supports to increase low income, English Learners, and foster youth students' academic achievement include:</p> <ul style="list-style-type: none"> • Teacher collaboration time and differentiated professional development. • Targeted supplementary instruction and academic & behavioral MTSS support to assist low income, English learner, and foster youth students in meeting standards. • Additional staff, after school and/or small group interventions. • Conferences and contracts to increase teacher capacity. • Substitutes to provide teachers' collaboration and planning time. • Additional hours to conduct interventions, instructional materials and supplies to support MTSS implementation. • Equipment, supplementary software and technology to increase digital access to core content and increase student achievement for unduplicated students. • Curricular field trips directly aligned to the curriculum and classroom instruction. • Develop and utilize practices and supports to increase low income, English learners, and foster youth students' equitable access to signature programs, such as International Baccalaureate (IB), Science, Technology, Engineering, Arts, and Math (STEAM), Environmental Sciences, Health/HOSA, and/or additional programs. • Increase participation in Science Olympiad for unduplicated students, above district sponsored and donations support, including supplementary materials and additional coach hours. <p>These actions will be provided on a schoolwide basis because all students can benefit from opportunities to help meet the challenging academic standards.</p>	<p>The LEA will monitor progress for low income students, English learners, and foster youth using NWEA MAP ELA and Math Scores. (Goal 2 Metrics 16 & 17)</p> <p>We expect ELA and Math NWEA MAP Assessment scores to increase by a higher percentage for unduplicated students than the expected measurable outcomes for all students.</p>
--	---	---	---

Goal 2 Action 14	<p>In reviewing the 2023-24 LCAP Survey parent responses, 59% of parents and 39% of students are very satisfied/completely satisfied with access to dual immersion language courses. Furthermore, feedback provided from the LCAP development meetings indicate that there is a need to enhance the District's Dual Immersion (DI) Program implementation to support on-going refinement of the DI program pathways in Mandarin, Spanish, and Korean programs as they expand, including the transition to secondary programs.</p> <p>In addition, teachers emphasized the dual immersion language program provides English learners, especially Newcomers, the opportunity to maintain their sense of identity and see their language and culture as assets for their own to access core subjects and attain English proficiency.</p>	<p>To meet this need:</p> <ul style="list-style-type: none"> • The LEA will provide supplemental support to help DI schools implement evidence-based program models (50-50 and 90-10) that utilize the Guiding Principles for Dual Language Education and the HLPUSD Multilingual Master Plan. • As grade levels and/or new DI sites/teachers are added each year to schools' DI programs, the District will expand supplemental support for current and/or additional grade level (s)/teachers. • DI TOSA(s) and/or consultants will provide additional support services for DI teachers, including lesson modeling, coaching, development of materials and assessments, and strategies for intervention. • The Multilingual Education Department will continue supplemental support to DI programs, including program model, PD, coaching, as well as support via LACOE DI Networking, CAFE and/or ATDLE conferences. • DI Leadership Team meets regularly to strengthen long and short-term DI program planning. • District DI Parent Advisory Committee meets each trimester to engage parents. <p>These actions will be provided on a schoolwide basis because all students can benefit from opportunities to maintain their sense of identity and see their language and culture as assets for their own to access core subjects.</p>	<p>The LEA will monitor progress and the effectiveness of this action using the LCAP Survey Results. (Goal 1 Metric 8)</p> <p>We expect the percentage of parents being satisfied/completely satisfied with access to dual immersion language courses to increase for the 2024-25 LCAP Survey.</p>
Goal 2: Action 17	<p>In reviewing the 2023-24 LCAP Survey parent responses, 50% of parents and 49% of students are very satisfied/completely satisfied with access to visual and performing arts courses. Low income, English learners, and foster youth students often lack opportunities to engage in the arts outside of school.</p> <p>In addition, the HLPUSD community provided feedback on a VAPA Survey sent out to gather input on VAPA courses and opportunities they would like to see prioritized in the coming school year.</p>	<p>Since unduplicated students' participation in visual and performing arts courses is limited, a VAPA Coordinator will support districtwide integration of Visual & Performing Arts (VAPA) into the curriculum to provide unduplicated students with opportunities during the school day to have the arts integrated into content areas which provide unduplicated students with a well-rounded, rich educational experience that encourages creativity and critical thinking, and increased access to opportunities for college and career VAPA pathways in high school and beyond.</p> <p>This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English learners, and foster youth and, therefore, we expect to make the greatest gains in outcomes for these students.</p>	<p>The LEA will monitor progress and the effectiveness of this action using the LCAP Survey Results. (Goal 1 Metric 8)</p> <p>We expect the percentage of parents and students satisfied with access to visual and performing arts courses to increase for the 2024-25 LCAP Survey.</p>

Goal 2: Action 18	<p>The 2023-24 LCAP Survey reveals that only 80% of students have access to books at their reading level at home. Further analysis shows that low income, English learners, and foster youth visit public or school libraries infrequently. Many of our unduplicated students do not have access to library services outside of school to support research and learning.</p> <p>Parents at school sites participating in LCAP meetings have shared the need to extend library hours so students are able to visit before school and after school.</p>	<p>To increase access and create a positive library experience, media center aides/clerks will support unduplicated students in the selection of books and encourage students to read more therefore increasing student achievement. Furthermore, the library supports student social emotional learning by giving them a safe place on campus.</p> <p>This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English learners, and foster youth and, therefore, we expect to make the greatest gains in outcomes for these students.</p>	<p>The LEA will monitor progress and the effectiveness of this action using the LCAP Survey Results. (Goal 2 Metric 19)</p> <p>We expect the percentage of students having access to books at home provided by school libraries to increase to 83% or more.</p>
Goal 2: Action 21	<p>Low income students, English learners, and foster youth are more likely to underperform in key subject areas and are less likely than their peers to graduate high school and be college and career ready. Per the 2023 CA School Dashboard, the Distance from Standard (DFS) on the ELA Academic Indicator for All Students is -4.9 DFS. It is significantly lower for Low Income: -21.4 DFS, English Learners: -42.4 DFS, and Foster Youth: -87.8 DFS. Students with Disabilities scored at the Very Low Performance Level at 99.1 points below standard. To support Students with Disabilities districtwide and at the following school sites: Baldwin, Cedarlane, Fairgrove, Nelson, Valinda, Wing Lane, Sierra Vista, Sparks Middle, Los Altos HS, and Workman HS. Furthermore, additional supports and services for student groups who scored at the very low performance level in ELA (All students at Palm, Workman HS, and Puente Hills HS, English learners at Grandview, Los Robles/Palm, Sparks Elementary, Valinda, Sierra Vista, Sparks Middle, and Los Altos HS, and Hispanics at Wing Lane, Workman HS, and Puente Hills HS.</p> <p>In addition, principals feedback includes targeted tutoring during the school day and after school, interventionist at sites to support with reading and writing, and bring in a districtwide writing program.</p>	<p>To meet this need, in addition to ELA supports offered to all school sites, the Curriculum, Instruction, and Assessment Department will dedicate additional time and resources to support students with disabilities districtwide and school sites with the lowest performance level on the CA Dashboard English Language Arts Academic Indicator. Intensive supports will include: 1) Additional PD/training and instructional coaching on best first instruction, differentiated instruction, assessment and progress monitoring, MTSS interventions at Tier II & III levels, common writing process, common expectations for reading and writing at each grade level, essential standards guide, Thinking Maps, Jane Schafer and Nancy Fetzter strategies, tutoring for literacy and writing across content. 2) Curriculum Committees to help with writing sequence, summer programs with an ELA focus (TK-6). 3) Explicit focus on phonics and phonemic awareness with Heggerty, UFLI, and TK Writing Without Tears. 4) Training for administrators on "look fors" during instructional time in the classroom. 5) Certificated staff lead intervention for grade level structured intervention support with flexible grouping with pre/post assessments. 6) Collaboration with Special Education administrators and teachers to provide differentiated, best first instruction based on IEP goals and individualized needs with access to the core curriculum at the student's grade level.</p> <p>These actions will be provided on an LEA-wide basis because all students can benefit from opportunities to help meet the challenging academic standards.</p>	<p>The LEA will monitor progress for low income students, English learners, and foster youth using the CA Dashboard ELA Academic Indicator Results. (Goal 2 Metric 1)</p> <p>We expect the Distance from Standard on the ELA Academic Indicator to decrease for low-income students, English learners, foster youth, and student groups in the very low performance level by more points than the expected measurable outcomes for All Students.</p>

Goal 2: Action 22	<p>Low income students, English learners, and foster youth are more likely to underperform in key subject areas and are less likely than their peers to graduate high school and be college and career ready. Per the 2023 CA School Dashboard, the Distance from Standard (DFS) on the Math Academic Indicator for All Students is -42.4 DFS. It is significantly lower for Low Income: -60.2 DFS, English Learners: -64 DFS, Foster Youth: -126.1 DFS, and Students with Disabilities: -140 DFS. Student groups scoring at the Very Low Performance level include Homeless Youth districtwide, all students at Puente Hills HS, English learners at Grandview, Valinda, Newton, Orange Grove, Sierra Vista, Sparks Middle, Los Altos HS, Students with Disabilities districtwide, at Fairgrove, Mesa Robles, Orange Grove, Sierra Vista, Los Altos HS, and Workman HS, and Hispanics at Orange Grove, Sierra Vista, Sparks MS, and Puente Hills High School.</p> <p>In addition, principals feedback includes targeted tutoring during the school day and after school and districtwide calibration using rubrics to understand depth of knowledge and math discourse and opportunities for vertical articulation.</p>	<p>In addition to mathematics supports offered to all school sites, the Curriculum, Instruction, and Assessment Department will dedicate additional time and resources to support students with disabilities and homeless youth districtwide and school sites with the lowest performance level on the CA Dashboard Mathematics Academic Indicator. Intensive supports will include: 1) Additional PD/training and instructional coaching on math standards lesson studies, new CA Math Framework, essential standards, best first instruction, differentiated instruction, literacy integrated into math to address EL's needs, assessment and progress monitoring, MTSS interventions at Tier II & III levels, CSTEM, and summer programs with a math focus (TK-8). 2) Training for administrators on "look fors" during instructional time in the classroom. 3) Certificated staff lead intervention for grade level structured intervention support with flexible grouping with pre/post assessments. 4) Collaboration with Special Education administrators and teachers to provide differentiated, best first instruction based on IEP goals and individualized needs with access to the core curriculum at the student's grade level.</p> <p>These actions will be provided on an LEA-wide basis because all students can benefit from opportunities to help meet the challenging academic standards.</p>	<p>The LEA will monitor progress for low income students, English learners, and foster youth using the CA Dashboard Math Academic Indicator Results. (Goal 2 Metric 2)</p> <p>We expect the Distance from Standard on the Math Academic Indicator to decrease for low-income students, English learners, foster youth, and student groups in the very low performance level by more points than the expected measurable outcomes for All Students.</p>
-------------------	--	--	--

Goal 3: Action 1, Action 3, and Action 4	<p>In reviewing the 2023-24 LCAP Survey parent responses, the percent of parents who feel comfortable participating in school activities for parents is 77% and the percent of parents who feel they have a say in the decision-making process at their school is only 53% (agree/strongly agree). There may be parents who may not feel comfortable participating in school activities for parents or volunteering to serve on decision-making committees because of economic, language and/or cultural or social barriers which may cause them to less fully engaged in their children's education.</p>	<p>The LEA will provide additional support for meaningful parent engagement districtwide. These actions focus on building the capacity of parents of low income, English learners, and foster youth students with the information, skills and strategies necessary to increase parents' and families' engagement as partners in their children's education, including participation in school and district decision making processes, as well as opportunities for deeper learning and capacity-building workshops. Topics selected will focus on unduplicated parents' identified needs/interests. Fingerprinting, babysitting, and translation services also help increase parent participation. These actions are effective by supporting unduplicated parents' level of engagement and connectedness to school, and by strengthening parents' knowledge and skills to help empower them to support their children's success in school.</p> <p>This action is being provided on an LEA-wide basis and we expect that all parents will benefit, however, this action was developed based on the specific identified needs of low-income students, English learners, and foster youth parents/families and, therefore, we expect to make the greatest gains in outcomes for these educational partners.</p>	<p>The LEA will monitor progress and the effectiveness of this action using the LCAP Survey Results. (Goal 3 Metrics 2 & 3)</p> <p>We expect the percentage of parents/families who feel comfortable participating in school activities for parents and the percentage of parents/families who feel they have a say in the decision-making process at their school to increase.</p>
Goal 3: Action 5	<p>Low income, English learners, and foster youth students often have academic and/or opportunity gaps, and sometimes social-emotional and/or behavioral needs that require additional counseling services that will assist them in reaching goals for academic achievement and high school graduation requirements. In analyzing the 2023 CA Dashboard Graduation Rate, there is a gap between the graduation rate for All Students at 92.6%, low income 92.2%, English learners at 80.6%, and foster youth at 81.8%.</p> <p>Additionally, DAC parents would like more mental health support for students & staff and counselors at all grade levels who have an open-door policy and encourage open communication with students.</p> <p>Furthermore, the overwhelming feedback received by the parents during the LCAP development process is the need to continue to offer social emotional support for students. Low income, English learners, and foster youth students may be more likely than their peers to enter school with academic, social-emotional and/or behavioral challenges.</p>	<p>To address this need, counselors will provide unduplicated students additional counseling services and personalized support to effectively address their social-emotional, behavioral, and academic needs, which may include referrals/services to mental health services, linkages to basic needs, connection to tutoring support, weekly meetings, and/or progress monitoring. These services are principally directed to low income, English learner, and foster youth to support unduplicated students' level of engagement and connectedness to school.</p> <p>Moreover, unduplicated student supports will include additional conferencing, college campus visits, college and career awareness activities, summer school registration, scholarship assistance, and prioritization of homeless and foster youth in registration and credit recovery.</p> <p>This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English learners, and foster youth and, therefore, we expect to make the greatest gains in outcomes for these students.</p>	<p>The LEA will monitor progress for low income students, English learners, and foster youth using the CA Dashboard Graduation Rate Results. (Goal 3 Metric 4)</p> <p>We expect the graduation rate to be higher than the expected measurable outcomes for all students by 1% each year.</p>

<p>Goal 3: Action 7, Action 8, and Action 14</p>	<p>In analyzing the Chronic Absenteeism Rate reported on the 2023 CA Dashboard, the K-8 rate for All Students is 26% chronically absent. The Chronic Absenteeism Rate was higher for low income (28.7%) and foster youth (36%) than for all students.</p> <p>In addition, DELAC parents expressed the need to offer workshops for parents about attendance and explain to parents the importance of attendance and being on time.</p>	<p>To address this need, the LEA, including Student and Family Services and Equity, Access, and Family Engagement Departments, will work with school sites to implement:</p> <ul style="list-style-type: none"> • Attendance improvement incentive programs and/or campaigns to increase attendance and decrease absenteeism/dropout rates of low-income students, English learners, and foster youth • Additional counselor, counseling services, support staff, contracted services, and/or professional development/ training for school staff to address barriers experienced by low-income students, English learners, and foster youth • Transition activities and student engagement programs, like Renaissance and Link Crew • Curricular field trips directly related to classroom instruction and/or College and Career Readiness or CTE pathways to enhance student engagement of low-income students, English learners, and foster youth • Equity and Access staff will provide support for coordination of services specifically targeting foster youth to increase attendance and graduation rates and decrease absenteeism and dropout rates • Expand Youth Court Restorative Justice Program to include leadership opportunities for students, self-reflection, and the ability to address behavior issues with alternatives to suspension that are impactful and provide educational and personal growth for students • Equity and Access department staff will assist coordination of behavioral support services for targeted students, in collaboration with Student and Family Services, to increase effectiveness of services for unduplicated students <p>This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English learners, and foster youth and, therefore, we expect to make the greatest gains in outcomes for these students.</p>	<p>The LEA will monitor progress for low income students, English learners, and foster youth using the CA Dashboard Chronic Absenteeism Rate Results. (Goal 3 Metric 6)</p> <p>We expect unduplicated students' chronic absenteeism rate to significantly decrease more than the expected measurable outcomes for All Students.</p>
--	---	--	---

Goal 3: Action 9 and Action 11	<p>Low-income students and foster youth may have reduced opportunities to participate in community-based, organized sports due to cost, transportation, and/or other hardships. These challenges disproportionately affect unduplicated pupils by resulting in increased disengagement, lower achievement levels, and greater drop-out rates.</p> <p>In addition, unduplicated students may have reduced opportunities to participate in enrichment activities that contribute to the development of the whole child including academic, social-emotional, physical, cognitive, linguistic, and mental health. Reduced access to these considerations may prevent a student from reaching their full potential, both in school and in life.</p> <p>Per the 2023-24 LCAP Survey, 51% of students are very satisfied/completely satisfied with the variety of electives offered. Hence, there is interest in expanding elective offerings at the middle and high school levels that provide instruction and experiences that address each of the above dimensions of a student.</p>	<p>To meet this need, no-cost districtwide sports leagues provide opportunities for unduplicated pupils as well as all students to take advantage of all of the benefits of participating on a sports team, including improved physical health, strengthened peer to peer relationships, increased motivation to attend school regularly, and improved academic grades and behavior.</p> <p>To further support unduplicated students, daily instruction in a wide variety of course content through elective offerings increases unduplicated students' engagement in school and assists students in honing skills and knowledge beyond core academic areas. Offering elective courses during the school day ensures consistency and "high dosage" exposure to specialized content throughout the year, resulting in greater mastery and competency in subject matter. In addition, expanded program offerings will increase students' opportunity to participate in band, theater, and visual art. Teacher access to industry-standard instructional materials will also better prepare students for related career options.</p> <p>This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English learners, and foster youth and, therefore, we expect to make the greatest gains in outcomes for these students.</p>	<p>The LEA will monitor progress and the effectiveness of this action using the LCAP Survey Results. (Goal 1 Metric 8)</p> <p>We expect the percentage of students satisfied with access to a variety of elective courses to increase for the 2024-25 LCAP Survey. We also expect the attendance rates for unduplicated students to increase more than the expected measurable outcomes for All Students.</p>
Goal 3: Action 13	<p>Chronic Absenteeism: The Fall 2023 Dashboard Chronic Absenteeism Rate is 26% for all students, 28.7% for low-income students, and 36% for foster youth. In addition, the following student groups are at the very low performance level: Foster Youth districtwide, English learners at Del Valle, Kwis, Valinda and Workman Elementary, students with disabilities at Grandview, Nelson, Sparks Elementary, and Sierra Vista, homeless youth at Fairgrove, and two or more races student group at Grazide.</p> <p>In addition, DELAC parents expressed the need to offer workshops for parents about attendance and explain to parents the importance of attendance and being on time.</p>	<p>To meet this need, in addition to supports offered to all school sites, Student and Family Services staff will provide additional student caseload support for all SARB referred students and provide intensive supports to school sites with the lowest performance level on the CA Dashboard Chronic Absenteeism Rate to strengthen positive attendance habits and promote student engagement and positive school climates. Additional PD/training will be provided and focused on cultivating strong relationships between students and staff, creating safe and inclusive environments, available interventions prior to SARB referral, providing supports for chronically absent students when they return to class, using positive reinforcement to improve student attendance, and getting families involved with their child's attendance.</p> <p>This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English learners, and foster youth and, therefore, we expect to make the greatest gains in outcomes for these students.</p>	<p>The LEA will monitor progress for low income students, English learners, and foster youth using the CA Dashboard Chronic Absenteeism Rate Results. (Goal 3 Metric 6)</p> <p>We expect student groups in the very low performance level and unduplicated students' chronic absenteeism rate to significantly decrease more than the expected measurable outcomes for All Students.</p>

Goal 3: Action 16 and Action 20	<p>Per the 2023 CA Dashboard, the suspension rate for All Students is 3.4% (% of students suspended at least one day). In comparison, low-income students and foster youth were suspended at a greater rate than the all students group. Low-income students' suspension rate was 3.9% and foster youth was 11.1%.</p> <p>Moreover, principals and assistant principals' feedback on the LCAP development includes additional professional development on MTSS, PBIS, Restorative Justice, Capturing Kids Hearts, and trauma-informed practices.</p>	<p>To address this need, the LEA will work with school sites to implement:</p> <ul style="list-style-type: none"> • Behavioral & Social Emotional/Mental Health MTSS at all school sites to support low income, English learners, and foster youth students' positive behavior and well-being. • School Teams collaborate to implement PBIS and RtI Plan within MTSS including tiered supports and interventions at all sites which include use of data, monitoring, and adjustments. • Proactive classroom management, school-wide behavior matrix; social-emotional learning (SEL) curriculum. • Site-based positive behavior incentives, campaigns, and/or programs based on schools' MTSS Plans. • School-based Tier 2 and/or Tier 3 behavioral intervention during the school day for students identified as at-risk, per MTSS implementation plan. • Materials and supplies to support positive behavior, per site MTSS Plan. • Supplemental/additional counselors, noon aides, and/or other support staff to provide increased services to unduplicated students. <p>This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English Learners, and foster youth.</p>	<p>The LEA will monitor progress for unduplicated students using the CA Dashboard Suspension Rate Results. (Goal 3 Metric 9)</p> <p>We expect unduplicated students' suspension rate to significantly decrease more than the expected measurable outcomes for All Students.</p>
---------------------------------	--	---	---

Goal 3: Action 17	<p>Per the 2023-24 California Healthy Kids survey, overall connectedness average reporting “Yes, most of the time” or “Yes, all of the time” is 71% for 5th grade students, 52% for 7th grade, 48% for 9th grade, and 49% for 11th grade.</p> <p>The overwhelming feedback received by the parents of low income, English learners, and foster youth students during the LCAP development process is the need to continue to offer social emotional support for students.</p>	<p>To help increase the percent of students feeling connected, additional Site Supervision Aides will be provided to elementary school sites and additional Campus Security Aides to secondary school sites to support MTSS, including PBIS and SEL, to effectively address unduplicated students social-emotional, school attendance, behavioral, and academic needs.</p> <p>These services are principally directed to low income, English learners, and foster youth to provide early, timely, appropriate, and effective tiered intervention to build students' well-being, resiliency, and connectedness to school.</p> <p>Site Supervision Aides and Campus Security Aides will provide targeted support for low income, English learners, and foster youth outside of the classroom environment to promote social emotional well-being and reinforce coping strategies taught in the classroom and increase the social emotional support unduplicated students receive outside of the classroom.</p> <p>This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English learners, and foster youth.</p>	<p>The LEA will monitor progress in regard to unduplicated students' overall school connectedness using the California Healthy Kids Survey. (Goal 3 Metric 12)</p> <p>We expect to make the greatest gains in outcomes for unduplicated students. We expect the percentage of students who feel overall school connectedness to increase by 1% each year.</p>
Goal 3: Action 22	<p>The 2023 Dashboard Suspension Rate Indicator for all students is 3.4% suspended at least one day. Low-income students, English learners and foster youth are at 3.9%, 3.2%, and 11.1% respectively. The following student groups are at the very low performance level: African Americans districtwide, all students at Sunset/Lassalette, all students including students with disabilities and Hispanics at Sparks Middle, Puente Hills HS, and Valley Alternative HS, English learners at La Puente HS, students with disabilities at Grandview and Palm, and Hispanics at Sierra Vista.</p> <p>Moreover, principals and assistant principals' feedback on the LCAP development includes additional professional development on MTSS, PBIS, Restorative Justice, Capturing Kids Hearts, and Trauma informed practices.</p>	<p>To meet this need, in addition to supports offered to all school sites, Student and Family Services staff will provide additional supports to school sites with the lowest performance level on the CA Dashboard Suspension Rate to strengthen positive school climates. Additional PD/training will be provided on: alternatives to suspension, strategies to build connectedness among students and staff, positive school culture, anti-bias training, de-escalating conflicts, trauma informed practices and brain development.</p> <p>This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English Learners, and foster youth.</p>	<p>The LEA will monitor progress for unduplicated students using the CA Dashboard Suspension Rate Results. (Goal 3 Metric 9)</p> <p>We expect student groups in the very low performance level and unduplicated students' suspension rate to significantly decrease more than the expected measurable outcomes for All Students.</p>

Goal 3: Action 23	<p>In reviewing the 2023-24 California Healthy Kids Survey results, the perceptions of school connectedness by students who agree/strongly agree is 71% for 5th grade students, 52% for 7th grade, 48% for 9th grade, and 49% for 11th grade. Low income, English learners, and foster youth students often experience a variety of challenges and barriers that may disconnect them from school and limit their academic progress.</p> <p>Furthermore, the LCAP Student Advisory Committee's feedback during the LCAP development process included more engagement from teachers, more students' say in school decisions, and more student workshops to reduce stress and promote well-being.</p>	<p>Unduplicated student groups benefit from a safe, healthy, secure, and positive school learning environment, including targeted supports and/or intervention services that specifically address high-need students' mental health and well-being. The LEA will provide additional supports and services to increase students' safety, social-emotional and mental health, and connectedness to school.</p> <p>Supplemental student support staff, including a Student and Family Services Counselor, and Equity and Access staff, support the effective coordination of social-emotional and mental health services and resources for students. The Community Day School (CDS) program, located at Valley Alternative HS, is provided to students who need an intensive and supportive small group learning environment that includes personalized attention, academic intervention, monitoring, and goal setting. Low income, English learners, and foster youth at risk of not graduating often require additional and targeted supports and resources to help them overcome challenges and barriers. The CDS program is principally directed towards and effective in supporting unduplicated students in the successful completion of high school courses required for graduation, with students frequently returning to their home high school for graduation.</p> <p>This action is being provided on an LEA-wide basis and we expect that all students will benefit, however, this action was developed based on the specific identified needs of low-income students, English learners, and foster youth and, therefore, we expect to make the greatest gains in outcomes for these students.</p>	<p>The LEA will monitor progress in regard to unduplicated students' overall school connectedness using the California Healthy Kids Survey. (Goal 3 Metric 12)</p> <p>We expect the percentage of students per grade level who feel overall school connectedness to increase by 1% each year.</p>
-------------------	--	---	---

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #(s)	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
Goal 2: Action 12 and Action 13	<p>The English Learner Progress Indicator (ELPI) placed the district at the Low Performance Level with 52.6% of HLPUSD's English learners making progress towards English Language Proficiency. HLPUSD is also providing additional support to school sites whose performance level was very low on the ELPI on the 2023 Dashboard: Wing Lane Elementary, Palm Elementary, Grandview Middle School, and Newton Middle School.</p> <p>DELAC parents have also communicated the need for teachers EL students with reading, writing, listening and comprehension.</p>	<p>The limited contributing actions that support English Learners include: supplemental support for implementation of a comprehensive English Language Development (ELD) program K-12 that addresses language acquisition and academic needs of all EL students(newcomers to LTELs); Language Technicians and Welcome Center ELPAC support to ensure appropriate EL assessment for initial identification of English Learners; teacher collaboration and planning time, and supplemental professional development focused on English Learners, Newcomers, Long Term EL, and Redesignated Fluent English Proficient (RFEP) needs; implementation of online EL Platform to monitor progress of EL's and RFEPs, professional development/trainings on effective EL program implementation, including alignment of ELD standards; use of assessments and data, progress monitoring and use of research-based instructional practices; and additional professional development and training for teachers to deliver standards-based, differentiated academic instruction, designated and integrated ELD aligned to ELD standards, and research-based strategies for EL's.</p> <p>In addition to EL supports offered to all school sites, the Multilingual Department staff will dedicate additional time and resources to support school sites with the lowest performance level on the CA Dashboard English Learner Progress Indicator (ELPI). Intensive supports will include: 1) Additional PD/training and instructional coaching on EL program elements for teachers, site EL Program facilitators, counselors, and site administrators. 2) PD/training is based on needs assessment and includes but is not limited to: ELPI and ELPAC Interims, simultaneous presentation of CA Standards & ELD standards, ELA-ELD framework, types and use of disaggregated EL performance data, EL monitoring assessment and tools, differentiation of instruction and intervention for ELs, Designated and Integrated ELD, and research-based instructional practices for ELs. 3) Collaboration with Special Education administrators and teachers to address specific program needs for dually identified students.</p>	<p>The LEA will monitor progress for English learners using the CA Dashboard English Learner Progress Indicator (ELPI) Results. (Goal 2 Metric 6)</p> <p>We expect the English Learner Progress Indicator to increase by more than 1%.</p>

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

N/A

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

All schools in HLPUSD have a high concentration (above 55%) of low-income, English learners, and foster youth students, therefore all sites increased staff using additional concentration grant add-on funding. The additional concentration grant add-on funding was used to:

- Maintain classroom bilingual instructional aides hired with additional concentration grant add-on funding for all school sites to support small- group differentiated instruction in the classroom (action 2.12).
- Maintain site supervision aides/ campus security aides hired with additional concentration grant add-on funding to support positive, caring, and safe schools through active and effective supervision of foster youth, English learners, and low-income students (action 3.17).
- Maintain counselors at the elementary level hired with additional concentration grant add-on funding to support MTSS, including PBIS and SEL, to effectively address unduplicated students social-emotional, school attendance, behavioral, and academic needs (action 3.5).
- Maintain itinerant teachers hired with additional concentration grant add-on funding to increase access to electives such as C-STEM and Computer Science (action 2.11 and action 2.16) and Performing Arts (action 2.17 and action 3.9).

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	0	Elementary Schools: 1:29 K-8 Schools: 1:44 Middle Schools: 1:29 High Schools: 1:44
Staff-to-student ratio of certificated staff providing direct services to students	0	Elementary Schools: 1:17 K-8 Schools: 1:18 Middle Schools: 1:13 High Schools: 1:15

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).
 - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.
- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and

- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process

- Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:

- The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
- The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.

- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.

- If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.
- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the

identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5

CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and

determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**

- This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

- **7. Total Estimated Actual Expenditures for Contributing Actions**

- This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**

- This amount is the total of the Planned Percentage of Improved Services column.

- **8. Total Estimated Actual Percentage of Improved Services (%)**

- This amount is the total of the Estimated Actual Percentage of Improved Services column.

- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**

- This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
