

# Types of Support

## Multiple Disabilities Support & Physical Support

Multiple Disabilities Support classrooms are available for students with physical and cognitive conditions who demonstrate a need for intensive specially designed instruction and curricular modifications in order to progress academically. Special education teachers, as well as speech pathologists and physical and occupational therapists, provide services and monitor needs to ensure student growth, inclusion, accommodations, and access.

MTSD Special Education staff cater their teaching strategies and classroom to what their students need. We are able to accommodate a wide variety of conditions to ensure students are able to progress academically.
