XII. **Board Comments**

Vice-President Angela Raimo congratulated the ENL group on getting their presentation approved for a national conference.

Trustee Meghan Lavine acknowledged the approval of a trip for Select Choral next spring. She stated it's exciting to have this group back on international trips and to have them exposed to a great cultural experience again.

President Maria Venuto stated that the Board of Education has had a lot of discussions with what the next items are going to be with improvements in the buildings. There are many priorities on improvements and although air quality is a high priority there are other high priority items as well. At a minimum President Venuto would like to see each building have cooling space/s in them if the current infrastructure allows for it. Once we come up with the money for it, we can provide air conditioning. We're getting closer but not quite there yet. We're seeing hotter summers and temperatures getting warmer in earlier months than before (September and June).

Dr. Maria Rianna pointed out that as they've changed HVAC systems, they've upgraded them in such a way in some buildings where they have taken the material in the units that has allowed for the conversion instead of total replacement of the units. As they move through their priorities, we are looking at efficiencies even with the ones that are under way. Dr. Rianna thanked the Board of Education for agreeing to those amended projects so that they could have a smoother transition if we get the support in the future.
