

## **Parent Brag Sheet Class of 2022**

Dear Parent or Guardian,

No one knows your son or daughter as well as you. You are a valuable resource for counselors working with students as they plan for college and careers. We invite you to be part of the application process by sharing your insights and observations with us. Your comments may be funny, serious, open, proud, honest, or all of the above. Please return this form to your counselor and attach additional forms as you wish. You are not required to answer the following questions but feel free to use them as a guide to help you get started.

**In which areas has your child shown the most growth?**

**What are you child's most outstanding personality traits?**

**What do you consider to be your child's accomplishments during the last three years?**

**Are there any unusual or personal circumstances that have affected your child's education or personal experiences?**
