### **Presentation of the June 2024 Semi-Annual Implementation Program Update as an Adjustment to the Master Construct and Implementation Program (Mitchell/Miller/CFW)**

---

The June 2024 Report provides the 23rd semi-annual update to the Enhanced Master Construct Program (“Program”) to the Oxnard School District (“District”) Board of Trustees (“Board”). The report links the progress of the original 2013 Reconfiguration and Implementation Program, and the subsequent Master Construct and Implementation Program adopted by the Board in 2016 with the Enhanced Master Construct Program adopted by the Board in June 2022. It reflects the status of the Program since the last December 2023 six-month update (adopted by the Board in January 2024) and the time of this document’s publishing in June 2024. The report provides Program updates on the educational and facilities implementation components, as well as the funding and sequencing requirements to implement the Program. Assessments and recommendations are provided for consideration and action by the Board for implementation over the next six-month period.

#### **FISCAL IMPACT:**

The Enhanced Master Construct Program includes the use of general obligation bond authorizations, available local developer fees, and State modernization and new construction grants as previously approved by the Board. The update includes the integration of the Enhanced Master Construct Program adopted by the Board in June 2022. Previous phases include a total estimated sources and uses of approximately \$265.3 million with an estimated ending program balance of \$858,834. Approximately \$287.6 million is estimated in costs across all selected school sites for remaining facilities improvements and for remaining land acquisition COP payments. An additional Program Reserve of \$52.5 million is recommended. The total integrated budget includes \$340.1 million in remaining estimated project improvements to be funded over the proposed remaining phases.

#### **RECOMMENDATION:**

It is the recommendation of the Assistant Superintendent, Business and Fiscal Services, and the Director of Facilities, in consultation with Caldwell Flores Winters, Inc., that the Board receive the June 2024 Semi-Annual Implementation Program Update. This Report will subsequently be placed on the first August Board meeting agenda for adoption.

# Overview

---

- The twenty-third semi-annual update to the Enhanced Master Construct Program (Program) is presented this evening for Board consideration
- The Enhanced Master Construct Program has identified projects to be undertaken over the remaining three phases for the plan of improvement:
  - ✓ The reconstruction of Fremont and Dr. Lopez Academies
  - ✓ Ritchen, Ramona, McAuliffe, and Brekke K-5 Schools need equivalent 21st Century classroom improvements and reconstruction of select support facilities
  - ✓ Driffill, Chavez, Kamala and Curren K-8 Schools need similar 21st Century improvements to classrooms, and upgrade or reconstruction of support facilities
  - ✓ The K-5 component of Marshall School is also in need of 21st Century upgrades
  - ✓ Frank needs 21st Century upgrades
  - ✓ Additional TK/K/SDC and ECDC facilities are required to house district students and meet state standards
- An integrated master budget sources and uses is presented for consideration

# Educational Program

---

- The District is in the implementation phase of the strategic plan, Oxnard EMPOWERS (Excellence through Multilingualism, Possibility, Opportunity, Equity, Respect and Scholarship) with the goal to align all District educational programs, initiatives, and decisions to improve student engagement and achievement
- The District is in the process of developing the Visual and Performing Arts (VAPA) programs at each school site. Some schools have piano labs and offer piano keyboarding while other schools may select digital arts, drama, band, orchestra, or fine arts
- Each of these VAPA programs require facility space and equipment which may require repurposing existing spaces or building new VAPA classrooms
- The District offers a variety of SDC classes for students who have the mild-to-moderate (M/M) profile and the moderate-to-severe profile (M/S). The District continues to review the SDC program districtwide and make necessary facilities improvements as needed
- The District continues to expand the opportunities for younger learners to succeed in school by continuing to expand transitional kindergarten (TK) offerings and will require additional Title 5 compliant classrooms
- Title 5 compliant classrooms have been designed to allow the flexibility to be used for preschool, TK, K, and TK/K students in the SDC (M/S) programs. This provides flexibility and assists with fluctuations in enrollment. The District continues to seek State funding to assist in this effort

# State Aid

---

- To date, the District has garnered approximately \$35 million in new construction and modernization grant funds for completed projects
- Approximately \$6.8 million in additional modernization applications have been submitted to the State for improvements to McAuliffe and Ritchen Elementary Schools assuming a 60/40 matching share requirement
- The District was awarded \$7 million in State grants requiring a \$3 million local match for the ECDC facilities at Drifill Elementary School
- In addition, the District was awarded \$7.6 million in State grants requiring a \$3.3 million local match for ECDC facilities at Marina West Elementary School
- In total, the District is scheduled to received \$56.4 million in State aid, recognizing that the District has fully utilized its eligibility for new construction funding until such time as enrollment once again begins to grow
- Approximately \$61.2 million in current and future modernization eligibility is estimated to be available through 2032
- State aid eligibility and submitted applications is based on existing rules which are periodically adjusted by the Office of Public School Construction, State Allocation Board, or the legislature when a new bond is considered
- The assumptions are based on rules that are currently in effect and any change in rules or eligibility factors (e.g., enrollment) may impact the receipt of funds

# Master Budget Sources and Uses

---

- The Enhanced Master Construct Program includes the use of general obligation bond authorizations, available local developer fees, and State modernization and new construction grants as previously approved by the Board
- Previous phases include a total estimated sources and uses of approximately \$265.3 million with an estimated ending program balance of \$858,834
- Approximately \$287.6 million is estimated in costs across all selected school sites for remaining facilities improvements and for remaining land acquisition Certificate of Participation (COP) payments
- An additional Program Reserve of \$52.5 million is recommended to accommodate unforeseen events including soil and site conditions, variations in costs, additional agency requirements, and changes in codes and building requirements
- The total integrated budget includes \$340.1 million in remaining estimated project improvements to be funded over the proposed remaining phases
- The increase in the overall sources of funds can be attributed to additional estimated modernization State grants as well as anticipated School Impact Fees from the Teal Club Development
- The following slides provide a summary of the proposed integrated master budget sources and uses

# PROGRAM SUMMARY

Caldwell Flores Winters, Inc. (“CFW”) is pleased to present the 23<sup>rd</sup> semi-annual update to the Master Construct and Implementation Program. The report links the progress of the original 2013 Reconfiguration and Implementation Program, and the subsequent Master Construct and Implementation Program adopted by the Oxnard School District Board of Trustees (“Board”) in 2016 with the Enhanced Master Construct Program (“Program”) adopted by the Board in June 2022. It reflects the status of the Program since the last December 2023 six-month update adopted by the Board in January 2024. The report provides program updates on the educational and facilities implementation components, as well as the funding and sequencing requirements to implement the Program. Assessments and recommendations are provided for consideration and action by the Board for implementation over the next six-month period. Moving forward, updates to this report will be referred collectively as the Enhanced Master Construct Program.

The District is in the implementation phase of the strategic plan, Oxnard EMPOWERS (Excellence through Multilingualism, Possibility, Opportunity, Equity, Respect and Scholarship). The goal of the strategic plan is to align all District educational programs, initiatives, and decisions to improve student engagement and achievement. The strategic plan builds upon the Student Profile that was adopted by the Board in 2021 and the Standards of Excellence that were defined in 2022. The District held a number of workshops throughout the school year to build on the strategic plan. The District is also designing and implementing programs related to the passage of Proposition 28 in November 2022 which provides direct funding to school district to support fine arts programs throughout the District. It is anticipated that the funds will be utilized to support program with teachers and equipment; however, additional facility space will likely be needed for the full implementation of the program at school sites.

Over the last few years, the District has seen a substantial increase in the number of students identified as needing intervention and special education services. The District offers a variety of SDC classes for students who have the mild-to-moderate (M/M) profile and the moderate-to-severe profile (M/S). Additional classrooms or office space are also needed to house the support programs for SDC M/S children, e.g. speech, psychology, counselors, RSP, and occupational therapy (OT). These program needs have been incorporated into educational specifications for the reconstruction of Fremont which will also serve as the basis for the design of Dr. Lopez Academy. The District is also committed to the Community Schools concept and the requirement of a Wellness Room is also being incorporated where possible.

The 21st Century specifications adopted by the Board and the classrooms and support facilities designed and built support the instructional shifts that are required to implement these programs. Since 2014, the

District has been an early leader in the expansion of Title 5 compliant transitional kindergarten (TK), kindergarten (K) and “kinder flex” facilities, including Early Childhood Development Centers (ECDC). Local specifications have also promoted the design of specialty spaces in support of CCSS and NGSS facility requirements (e.g. science and performing arts labs, piano labs, et.). The District has also been supportive of creating community spaces wherever possible at its school sites. The projects approved by the Board under the Enhanced Master Construct Program have been successful in securing local and state funding for additional classrooms and facilities in support of the implementation of the above educational initiatives.

The Program has led to the design of eight new 21<sup>st</sup> Century schools, the construction of 6 such schools to date with the completion of the seventh school expected December 2024. In addition, it has led to the construction of three Early Childhood Development Centers (ECDC) with two additional in design, the acquisition of 2 school sites, and the design and approval of two elementary schools for modernization. It has also provided for the expansion of construction of TK/K and special education “flex-facilities” at four elementary school sites, and 21<sup>st</sup> Century science labs at select schools.

The District conducted a Special Board Meeting in April 2024 to provide the Board with an overview of the Enhanced Master Construct Program. The presentation provided a status of projects underway as well as proposed improvements to occur at the District’s remaining school sites over the duration of the Program. The Enhanced Master Construct Program has identified projects to be undertaken over the remaining three phases for the plan of improvement. Ritchen, Ramona, McAuliffe, and Brekke K-5 schools have been identified as in need of equivalent 21<sup>st</sup> Century classroom improvements and reconstruction of select support facilities. Drifill, Chavez, Kamala and Curren K-8 schools need similar 21<sup>st</sup> Century improvements to classrooms, and upgrade or reconstruction of support facilities. The K-5 component of Marshall school is also in need of 21<sup>st</sup> Century upgrades. At the middle school level, Frank needs 21<sup>st</sup> Century upgrades throughout its existing facilities. Fremont and Lopez are now old, have met their useful life, and in need of replacement to meet the planned level of enrollment. Additional TK/K/SDC and ECDC facilities are required to house district students and meet state standards.

Over the next six months, construction of the new Rose Avenue Elementary School will be completed and field improvements will begin, design of the new Fremont campus is scheduled to be completed, DSA and CDE approval will be achieved for the ECDC projects at Marina West and Rose Avenue with construction activities to follow, the ECDC at Drifill will be completed, and modernization efforts will commence at Ritchen and McAuliffe. It is also expected that construction documents for the changing rooms at Lemonwood and Marshall will be submitted to the DSA for review and approval. Design efforts related to the reconstruction of Dr. Lopez Academy will also begin during this period.

Proposed funding for the Program continues to include the use of general obligation bond authorizations, available local developer fees, and State modernization and new construction grants as approved by the Board. Based on the adopted Enhanced Master Construct Plan approved by the Board, approximately \$287.6 million is estimated in project costs across all selected school sites for remaining facilities improvements. In addition, a Program Reserve of \$52.5 million is recommended to accommodate

unforeseen events including soil and site conditions, variations in costs, additional agency requirements, and changes in codes and building requirements.

It is recommended that the Board:

- Accept and adopt this semi-annual update to Enhanced Master Construct Program
- Direct staff and CFW to proceed with recommended adjustments to the Program for its immediate implementation
- Establish a date for the next six-month review by the Board

# EDUCATIONAL PROGRAM

The District is in the implementation phase of the strategic plan, Oxnard EMPOWERS (Excellence through Multilingualism, Possibility, Opportunity, Equity, Respect and Scholarship). The goal of the strategic plan is to align all District educational programs, initiatives, and decisions to improve student engagement and achievement. The strategic plan builds upon the Student Profile that was adopted by the Board in 2021 and the Standards of Excellence that were defined in 2022. This alignment is driven by the values and principles the District has identified as:

1. Equity and excellence
2. Safe and affirming environments
3. Achievement/performance, multilingualism and global/sociocultural competence
4. Relationships built on integrity, trust, mutual respect, and caring
5. Professional accountability and service

The vision for the District is: Changing the World! Inspired, Accomplished, Multilingual Global Citizens – In School and Beyond. The mission of the District is:

- Ignite students’ passions for learning and empower them to achieve brilliance.
- Transform our classroom and school expectations, relationships, and practices to more fully align with our values.
- Nurture caring communities that develop students’ full identities linguistic/cultural/academic excellence, social-emotional health, and life potential.
- Embrace high-leverage services and approaches that translate our values into action.

Student success is defined by the Student Profile which is a list of attributes of a successful person. Each student is expected to be an innovator, problem solver, achiever, global thinker, collaborator, digital learner, and focused on the future as a result of their tenure in the District. The goal is for students to leave the District with these attributes to be successful in high school and beyond. All staff, both classified and certificated, are expected to organize learning activities in ways that result in students achieving competency in these domains.

The Enhanced Master Construct Plan is one of the District initiatives that must be aligned to Oxnard EMPOWERS. The learning environment and school culture is one of the five goals of the plan, and it is aligned with the value and principle #2: create and maintain safe, affirming, equitable, and enriched culturally and linguistically sustaining multilingual learning environments of high intellectual performance

across all content areas and in all areas needed for 21<sup>st</sup> century success. There are two actions for Goal #2:

2.5.1 Continue to evaluate and improve implementation of the Master Construct Plan, aligning it to Oxnard EMPOWERS.

2.5.2 Transform OSD campuses as up-to-date, inviting, aesthetically pleasing, and engaging campuses that by their appearance and design promote school pride among staff, students, and families, and communicate clear behavioral expectations for students and staff.

As the District continues the implementation of Oxnard EMPOWERS through the identification of the totems (evidence that teachers and students are living one of the identified principles), taboos (behavior that the District wishes to extinguish), and repetitive interactions (behaviors that should happen regularly or be repeated) for both the student and teacher for each of the eight essential pedagogical principles identified, the alignment with the Enhanced Master Construct Program must be reviewed. The classrooms and other learning spaces must be designed and organized to support the pedagogy needed to help students achieve the attributes identified in the student profile. They must be given opportunities to collaborate, to innovate, to problem solve, to be a digital learner and the classroom must provide the needed support. Creating learning environments of enrichment and not remediation with the goal of empowering students will provide opportunities for high academic achievement. Creating learning environments that promote flexibility and mobility thus allowing the students the ability to collaborate and problem solve together, using technology as a tool for enhanced research is in alignment with Oxnard EMPOWERS.

## 2.1 VISUAL AND PERFORMING ARTS (VAPA)

Proposition 28 was passed in November 2022 and provides direct funding to support the Visual and Performing Arts (VAPA) programs. The District is in the process of developing the VAPA program at each school site. Each school determined what type of VAPA program it would like to offer students and submitted that plan to the District in March 2024. These plans are being reviewed and once approved, the school sites will begin implementation. Some of the schools have piano labs so they will offer piano keyboarding as the VAPA program. Other schools may select digital arts, drama, band, orchestra, or fine arts. Each of these programs will require facility space and equipment for the full implementation of the program at the school sites which may require repurposing existing spaces or building new VAPA classrooms. This will become a focus over the next six months.

## 2.2 SPECIAL EDUCATION

Over the last few years, the District has seen a substantial increase in the number of students identified as needing intervention and special education services. Currently, 20% of the students are identified as needing special education services. Other additional services may be needed on a school campus such as occupational therapy (OT), additional psychologists, counselors, therapy room, or resource specialist (RSP) teachers to support the students in the Special Day Classes (SDC). These programs all require space,

equipment, and curriculum. In addition, new programs have been implemented in the District in the aftermath of COVID, such as Wellness Rooms. These classrooms support the entire school population and provide a safe space for students to interact with other students or counselors.

The District offers a variety of SDC classes for students who have the mild-to-moderate (M/M) profile and the moderate-to-severe profile (M/S). There is a total of 62 SDC classrooms in the District, 36 for SDC M/M program and 26 for the SDC M/S program. Of the 36 classrooms in the SDC M/M program, 13 classrooms need to be Title 5 compliant to house TK/K students. Of the 26 SDC M/S classrooms, 16 need to be Title 5 compliant to house the TK/K students. Students in both programs receive services within a classroom environment for most of the school day. The classroom environments for these two programs vary depending on the handicapping conditions. For students in the SDC M/M program, the environment is a classroom that is like their general education peers but with a reduced student capacity assigned to the room. Children in the SDC M/S program may require a classroom with special features depending on the handicapping condition. Some of the programs require a general-purpose classroom with fewer students assigned to the room. Other SDC M/S classrooms require a restroom accessible from the classroom with a shower or changing table. Other SDC M/S classrooms require a general-purpose classroom that has an amplification system if serving the Deaf and Hard of Hearing students.

Additional classrooms or office space are also needed to house the support programs for SDC M/S children, e.g. speech, psychology, counselors, RSP, and occupational therapy (OT). The District is committed to the Community Schools concept so requires a Wellness Room at each site. The spaces needed for these programs vary. The psychologist and counselors typically need an office space with an area for a small table to work with two to four students at a time. The speech program generally needs a bigger room to be able to work with up to six students at a time. The RSP program requires a space of about half a classroom, 480 square feet, to work with small groups of students. The occupational therapy (OT) room is also referred to as a Motor Room and is used to help students with basic motor skills and everyday functionality skills. The room is an open area of at least 480 square feet with the necessary furniture and equipment to provide the mobility skills training necessary for the students who require these skills. The equipment includes such items as chairs, balance beams, scooter boards, floor mats, and small pieces of equipment such as exercise balls, sensory equipment, and kitchen aides.

In addition to speech, psychologist and RSP rooms, six of the schools need additional support spaces for the SDC programs. Currently, Brekke, McAuliffe, Ritchen, Curren and Driffill need an OT room to support the students in the SDC M/S program. The Deaf and Hard of Hearing (DHH) program is offered at Marshall in three classrooms. These classrooms have the necessary auditory improvements to support the students in the DHH program. In addition to these classrooms, at Frank and Lopez, due to the nature of the handicapping conditions, students need access to a restroom from the classroom. At Curren and Driffill, changing tables in the restrooms are necessary.

Another support space needed for students who are in the therapeutic learning class (TLC) and have severe emotional disturbances is a therapy room. This room is also referred to as the De-escalation Room or Calming Room. At times these students need a place to de-escalate their behavior or need a place to

calm down. This room is typically a full-size room with a large open space but may also be a smaller room. The room has soft lighting and soft colors on the walls. The furniture is composed of soft seating such as bean bag chairs and has only one entry point. The door hardware should not be a push bar. The TLC program is located at McAuliffe and Fremont, each school requiring a de-escalation room. Currently, these programs are housed in portable classrooms at McAuliffe and will be in permanent facilities at Fremont upon completion of the new school.

A Wellness Room is designed to meet the emotional needs of students. This room is not a special education room and is a place where students can go when they are feeling overwhelmed or in need of a quiet space or a place to connect with others. There is often one or two counselors or other adult in the room that is available to talk with the students if needed or desired. The room feels quiet and calming when you enter with soft lighting and comfortable soft seating arranged in conversation areas. There are three main areas that are often defined by a throw rug, an area to relax and converse with others, a homework area, and an area to meet with a counselor. There are generally two or three conversation areas in the room. There are two or three tables with chairs that seat six people located throughout the room. These tables and seating are of varying heights. Students can work with other students at these tables or receive help with schoolwork if needed. There are two mobile bookcases that hold materials and supplies. There is generally one desk and chair at which an adult can work. The room is often a former classroom.

### 2.3 PS/TK/K CLASSROOMS AND SDC M/S FLEX CLASSROOMS

The State has set the standard for PS/TK/K classrooms under the Title 5 regulations. The classroom must be 1,350 square feet with a restroom accessible from the classroom and have a work/storage area for TK/K students. Additionally, the PS classrooms will need to meet the licensing requirements to Title 22 standards of the California Code of Regulations and obtain licensing prior to operating the programs. The State's licensing requirements require that the classroom provide a minimum of 1,350 square feet, have 75 square feet per child of outdoor activity area, a shaded rest area, and a four-foot fence enclosing the outdoor area. The play area may not be shared with other age groups unless a waiver is obtained from the State. Indoors, a minimum of 35 square feet per child of activity space must be available based on the total licensed capacity with individual storage space for each child, a restroom facility for every 15 children, and a separate restroom facility for teachers, staff, or ill children. A drinking fountain must also be installed inside and outside for child use. These standards are to be integrated within in the proposed specifications of Title 5 classrooms with 21<sup>st</sup> Century Learning Environments for TK/K facilities, expanding the potential use of "flex-classrooms" for students in the SDC M/S program throughout the District to better accommodate fluctuations in program and enrollment requirements over time.

The District currently has 77 Title 5 TK/K Title 5 classrooms that can be used to house the TK/K population. These same classrooms can be used for PS children once they are licensed to Title 22 regulations. These same rooms are appropriate for the SDC M/S programs that require additional space and/or restrooms. The District is building 10 new Title 5 PS/TK/K classrooms at Driffill, four for PS, four for TK and two for K students. These classrooms will be ready for occupancy in October 2024. An additional 10 Title 5 PS/TK/K

at Marina West and six PS classrooms at Rose Avenue are in the design phase with anticipated occupancy in August 2025. Upon completion of these classrooms, the District will have 14 new permanent PS classrooms to replace aging portable PS classrooms, and 12 additional TK/K classrooms for a total of 103 Title 5 compliant PS/TK/K classrooms that also will serve the needs of some of the SDC SH classrooms.

Currently, the District needs 53 Title 5 compliant classrooms to house the K students and another 19 classes are required to house the TK students for a total of 72 classes. Twenty-nine classrooms are needed for the TK/K students in the SDC M/M and SDC M/S programs. For full implementation of the TK program, the District will need approximately 34 additional Title 5 classrooms. It is anticipated that the District will need a total of 115 Title 5 compliant classrooms to house all TK/K and SDC TK/K students in appropriate facilities. In addition, the District's SDC SH programs may also require the reconfiguration of existing classrooms or the construction of additional classrooms. A comprehensive review of the special education classrooms needed, and the location of these classrooms must be undertaken so that specific classrooms are used for the most appropriate programs.

# FACILITIES PROGRAM

The Board adopted the Enhanced Master Construct Program in June 2022, and further funded the facilities program with the successful passage of Measure I in November 2022. The enhanced Program builds upon the original Master Construct Program commenced in 2012 under Measure R and further expanded with the passage of Measure D in 2016. The District has adopted specifications for 21<sup>st</sup> Century Learning Environments to guide the reconfiguration and improvement of its K-5, K-8 and 6-8 school facilities in phases over a 15-year period. The overall goal is to reconstruct older schools, improve or replace support facilities, extend its grade configuration to 4-year-old students, and replace portable classrooms with permanent facilities wherever possible. To date, the Program continues to be subject to Board review and adjustment as needed on a semi-annual basis. The Program is also subject to annual independent financial audits from District auditors and from the various independent citizens' oversight committees as to actual and planned program expenditures. To date, there have been no negative findings from the District's auditors or oversight committees as to the positive performance of the program.

During this period, the facilities component of the Master Construct Program has led to the design of eight new schools, the construction of six schools to date with the completion of the seventh school expected in 2024. In addition, it has led to the construction of two Early Childhood Development Centers (ECDC) with a third in construction, two additional ECDC's in the design process, the acquisition of two school sites, and the design and approval of McAuliffe and Ritchen elementary schools for modernization. It has also provided for the construction of TK/K and special education "flex-facilities" at four elementary school sites, and 21<sup>st</sup> Century science labs at select schools.

The Enhanced Master Construct Program further identified the need for additional improvements. Brekke, McAuliffe, Ritchen, and Ramona schools are in need of equivalent 21<sup>st</sup> Century classroom improvements and reconstruction of select support facilities. Drifill, Chavez, Kamala and Curren K-8 schools need similar 21<sup>st</sup> Century improvements to classrooms, and upgrade or reconstruction of support facilities. The K-5 component of Marshall school is also in need of 21<sup>st</sup> Century upgrades. At the middle school level, Frank needs 21<sup>st</sup> Century upgrades throughout its existing facilities. Fremont and Lopez are now old, have met their useful life, and in need of replacement to meet the planned level of enrollment. Fremont is in the design development phase and Lopez will begin architect selection in 2024. Additional TK/K/SDC and ECDC facilities are needed to fully meet the District's enrollment and state standards.

The following section provides an update of projects that have been completed, projects under way, and a summary of projects remaining to be undertaken in future phases. These components are then carried over for further consideration in the Master Budget, Schedule and Timeline recommendations in Section 5 of this report.

### 3.1 COMPLETED PROJECTS

Completed projects include improvements to kindergarten facilities at Ritchen, Brekke, and McAuliffe schools, construction of science labs at Chavez, Curren, Kamala, Dr. Lopez Academy, and Fremont schools and the initial deployment of state-of-the-art learning resources, including 1:1 mobile devices for all students and teachers at every school. Five new 21<sup>st</sup> Century schools were constructed at Harrington, Elm, Driffill, Lemonwood, and McKinna to replace the prior obsolete facilities. A new 12 classroom building serving grades 6-8 was completed at the prior Marshall elementary school to create the newest K-8 school. New TK/K/SDC “flex” classrooms at Brekke, McAuliffe, Ritchen, and Ramona elementary schools were completed, as well as ECDC facilities at Lemonwood and Harrington elementary schools with additional facilities under construction for Driffill. The District has completed the land purchase of the new Seabridge elementary school site and the Doris/Patterson elementary and middle school sites. Design approval from the Division of State Architect (DSA) and California Department of Education (CDE) for the new Seabridge K-5 elementary school and the Ritchen and McAuliffe school modernization improvements have been achieved. Funding for the projects to date has been from various sources including Measure R, Measure D, developer fees, and State grant funding.

### 3.2 PROJECTS UNDERWAY

The following sections provide further detail on the status of projects summarized above and expected outcomes over the next six months.

#### 3.2.1 ROSE AVENUE ELEMENTARY RECONSTRUCTION

New facilities under construction for the Rose Avenue Reconstruction project include a two-story classroom building, library, administration space, multipurpose room, playfields, hard courts, and support spaces. This project is being constructed in two (2) phases. During the initial phase, the new campus buildings are being built on the existing play fields. The second phase will consist of the demolition of the existing campus and the construction of new play areas and fields.

As of the end of May 2024, construction related to the campus buildings and on-site improvements is nearly complete with “punch list” items and corrections underway. The project is still awaiting final approval of the proposed off-site improvements by the City of Oxnard and corresponding permits. The remaining off-site work includes utility connections, crosswalks, and other adjacent improvements to sidewalks and driveways. The District entered into a formal agreement with the City of Oxnard to provide access to utility connections on-site in May 2024 and the City accepted the District’s application for plan review. A revised construction schedule is pending the City’s approval. It is projected that the remaining improvements will be completed during the remainder of the 2024 calendar year and that the facility will be available to move into during the scheduled 2024-25 winter break. The current Board approved “all in” budget for the Rose Avenue project is \$51.1 million. No budget adjustments are recommended at this time; however, it is anticipated that an adjustment will be required in December to reflect the off-site improvements requested by the City as well as the additional time required to complete the work.

### 3.2.2 FREMONT MIDDLE SCHOOL

The existing facilities are old and by previous Board consideration are proposed to be replaced pursuant to the Program. The reconstruction strategy proposes to rebuild a new middle school facility on the open space portion of the site along H Street, but away from Glenwood, maintaining the operation of the existing facility during construction of the replacement school and replacing it thereafter with improved open and recreational space for school and community use. A conceptual site plan was previously presented to the Board for consideration and is the basis for the latest proposed new Fremont campus.

There is a proposed phased build-out of the school to incorporate the existing and projected enrollment of approximately 750 students at the site and the need to design the facility in such a manner that a subsequent phase to accommodate increased enrollment, if needed, would only require the construction of additional classrooms. Likewise, only four science labs instead of the specified six would be constructed to meet the proposed enrollment. The layout of the school facilities would be such that an additional classroom wing and required science labs could be built without major modifications to the site in the future. Other support spaces would be designed to the District’s adopted specifications for a 6-8 middle school to accommodate a 1200 student enrollment.

The reconstructed school would include multi-storied classrooms to accommodate up to 750 students. The proposed project would construct 34 classroom facilities. The school would include 24 general purpose classrooms, an academy room, and 3 dedicated special education rooms, all of 960 square feet. In addition, 4 science labs and an art lab of 1200 square feet each, and a band/orchestra room of 1500 square feet would be constructed. Teaching support spaces of 1,980 square feet, administrative space of 3,405 feet, and library facilities of 2,000 square feet would be provided per the adopted educational specifications for a 6-8 school. Multipurpose facilities of 14,250 square feet, a lunch shelter of 2,800 square feet as well as student and staff restrooms would be provided as required by code. Parking and student pick up/drop off areas would be provided off North H Street which would become the entrance to the new facility leaving room for school and community use of the reconfigured play fields. An allowance for offsite improvements is also provided.

Changes to the building code, effective July 1, 2023, now require that the project incorporate solar panels, battery power storage, electric vehicle charging stations, and additional site shading. These additional items have been incorporated into the current design of the project; however, the costs associated with these addition items are not included in the Board approved “all-in” budget. The District has also requested additional space to accommodate the increased demand for special education and support services. It is expected that a revised budget for the project will be presented to the Board prior to the submission of construction documents to the DSA.

### 3.2.3 RITCHEN ELEMENTARY MODERNIZATION

The Ritchen modernization project improves 28 existing classrooms, provides for repurposing of existing spaces to STEAM and piano labs, and upgrades the MPR and library to comply with the District’s vision and specification for classrooms and student support facilities. The library improvements also provide for

the inclusion of two breakout rooms. Interior improvements include allowances for modernized improvements to floors, walls and ceilings, sinks, electrical, and furnishings, as well as data and other technology upgrades. The project scope above has received DSA and CDE approval.

Additional improvements including HVAC repair/replacement, site security enhancements, and the reconfiguration of the administrative offices are recommended to be accelerated and incorporated into the improvements outlined above. This requires additional construction drawings and engineering to be performed by the architect of record, Arcadis and an adjustment to the overall Board approved “all in” budget. It is recommended that the Board increase the project budget to \$10.0 million to reflect the increase in scope in design and construction. The District and CFW will solicit proposals for lease leaseback contractors and provide a recommendation to the Board in September or October 2024 in order to proceed with construction during the scheduled 2024-25 winter break. The District has a pending State aid application for matching modernization grants. It is anticipated that the grants will be provided by the end of the year; however, the processing of State aid applications is expected to slow down due to the pending State budget cuts. If construction begins prior to the State’s review of the District’s modernization application, the District will modify its application to seek reimbursement for the project on a 60/40 basis.

#### 3.2.4 MCAULIFFE ELEMENTARY MODERNIZATION

The McAuliffe modernization project improves 28 existing classrooms, provides for repurposing of existing spaces to STEAM Academy and piano labs, and improves support spaces to comply with the District’s vision and specification for 21st Century K-5 classrooms and support school facilities. Upgrading the library into a Media Center is proposed which provides for the inclusion of two breakout rooms. The repurposing of two adjacent supply rooms into administrative and counselor space is also provided. Other interior improvements include allowances for modernized improvements to floors, walls and ceilings, sinks, electrical systems, and furnishings, as well as data and other technology upgrades consistent with those available at similarly reconstructed schools, where possible. The project has received approvals from both DSA and the CDE.

Additional improvements including HVAC repair/replacement, site security enhancements, and the reconfiguration of the administrative offices are recommended to be accelerated and incorporated into the improvements outlined above. This requires additional construction drawings and engineering to be performed by the architect of record, Arcadis and an adjustment to the overall Board approved “all in” budget. It is recommended that the Board increase the project budget to \$8.9 million to reflect the increase in scope in design and construction. The District and CFW will solicit proposals for lease leaseback contractors and provide a recommendation to the Board in September or October 2024 in order to proceed with construction during the scheduled 2024-25 winter break. The District has a pending State aid application for matching modernization grants. It is anticipated that the grants will be provided by the end of the year; however, the processing of State aid applications is expected to slow down due to the pending State budget cuts. If construction begins prior to the State’s review of the District’s modernization application, the District will modify its application to seek reimbursement for the project on a 60/40 basis.

### 3.2.5 DRIFFILL ECDC

The ECDC project at Driffill includes the construction of 10 Title 5 and Title 22 PS/TK/K classrooms. The District received a matching grant award from the California Preschool, Transitional Kindergarten, and Full-Day Kindergarten Facilities Grant Program to construct the classrooms. The approved application included four classrooms for PS, four classrooms for TK, and two classrooms for K grades to assist in the creation of an Early Childhood Development Center for the benefit of district wide use. All classrooms are designed to be Title 22 and Title 5 compliant. A new playground would also be constructed in the center of the classrooms.

Construction commenced in November 2023. As of May 2024, site demolition and grading are complete, and the construction of the building foundations is almost complete. The delivery of the modular classroom buildings will occur in two phases with the first delivery scheduled for the last week of June and the second delivery occurring in mid-July. The delivery of the buildings was initially scheduled to occur in May 2024; however, the modular provider encountered logistical challenges which delayed the delivery of the buildings. In addition, the delivery of electrical components and equipment needed for the buildings' power connections are also delayed with an expected delivery date of August 2024. In combination, these delays have postponed the expected occupancy date for the classrooms. It is now expected that the buildings will be ready for District occupancy in October 2024. The District plans to move into the buildings over the 2024-25 winter break to minimize the impact of the move on the educational program at the school. No adjustments to the Board approved "all-in" budget is recommended at this time.

### 3.2.6 MARINA WEST ECDC

The ECDC project at Marina West includes the construction of 10 Title 5 and Title 22 PS/TK/K classrooms. The District received a matching grant award from the California Preschool, Transitional Kindergarten, and Full-Day Kindergarten Facilities Grant Program to construct the classrooms. The State Allocation Board (SAB) approved the District's grant apportionment on September 27. The total State grant is \$7.65 million and requires a \$3.28 million District match, for a total project budget of \$10.93 million. The District selected Flewelling & Moody to provide architectural design and engineering services for the project. Construction documents were submitted to the DSA in May 2024 and the documents are currently under review. It is anticipated that the DSA will conclude its review by the end of July 2024 and that project approval will be achieved by mid-August. In parallel, a project application will be submitted to the CDE in June 2024.

Construction of the new facilities will occur in two phases to accommodate the third-party preschool program currently occupying some of the buildings to be replaced. The first phase will demolish the existing portable classrooms on Carob Street and construct six new modular classrooms. The second phase will demolish the remaining buildings on the site and construct the remaining four classrooms. Construction is expected to begin in the fall once DSA and CDE approval is achieved and a GMP is negotiated. No adjustments to the Board approved "all-in" budget is recommended at this time.

### 3.2.7 ROSE AVENUE ECDC

Pursuant to the adopted Enhanced Master Construct Plan, a separate new Early Childhood Development Center (ECDC) is to be constructed at the existing Rose site. The ECDC would be located at the northwest corner of the site where the three current kindergarten classrooms (Rooms 501, 502, and 503) are located. These facilities will be modernized and incorporated with three new Title 5 classrooms to establish the new ECDC facility. The existing play area will be upgraded like the option utilized for the creation of the Harrington ECDC and would be improved or maintained as required to serve the needs of these students.

Construction drawings for the planned modernization of Rooms 501-503 were submitted to the Division of State Architect in March 2024 and the construction documents for the new modular buildings were submitted in May 2024. A corresponding project application for the modernization scope was approved by CDE and the submission of a project application for the new modular buildings will be submitted in June 2024. DSA project approval is expected to occur in August 2024. Once approved, the project will commence construction in early 2025 following the opening of the new Rose Avenue Elementary School. No adjustments to the Board approved “all-in” budget is recommended at this time.

### 3.2.8 DR. LOPEZ ACADEMY OF ARTS AND SCIENCES SCHOOL

Dr. Manuel M. Lopez Academy of Arts and Sciences (Lopez) was originally built in 1954 and after nearly 70 years of service has been deemed to need replacement by previous reviews and considerations by the Board. A reconstruction strategy for Lopez is proposed that would include the construction of a new smaller 750 student grade 6-8 facility at the existing school site. Upon completion of the new facilities, the existing school would be demolished, and playfields and hardcourt areas would be constructed in its place. Efforts would be undertaken to construct the buildings in one phase, if possible, and to stagger the completion and use of reconfigured parking and field/hardcourts areas as needed through completion of the construction and demolition of the project. The new reconstructed school would be built based on a revised 6-8 educational specifications that provides all the support facilities for a K-8 school but limits its classroom enrollment to 750 students and its MPR to 8,025 square feet.

The design activities related to the reconstruction of Lopez are expected to begin in September 2024. The District and CFW have been working on finalizing a revised educational specification for the reconstruction of Lopez based on the design process underway for Fremont. Similar to the proposed Fremont campus, the design for Lopez will need to incorporate changes in the District’s educational program and provide additional learning environments for special education and support programs.

Requests for proposals will be solicited from qualified professionals and construction firms for the selection of an architect of record and a contractor. A similar “re-use” of plans approach will be considered, and a successful team of architects and proposed plan design will be presented for Board consideration and approval. No adjustments to the Board approved “all-in” budget is recommended at this time.

### 3.2.9 LEMONWOOD & MARSHALL K-8 CHANGING ROOM PROJECT

During the construction of Lemonwood and Marshall K-8 schools, the District modified the physical education program to be implemented at each of the K-8 schools. It was decided that middle school aged students would dress-out for PE class. This change required a modification to each of these school sites resulting in the adaptation of designed spaces to accommodate changing rooms and storage lockers. The District now desires to provide dedicated modular facilities at each site to better serve the students and PE program. It is proposed that new modular buildings be placed at each site to include changing rooms, storage lockers, supervision areas and PE offices. A total project budget of \$4.0 million is proposed with an initial project completion date of August 2025. No adjustments to the Board approved “all-in” budget is recommended at this time.

#### 3.2.10 DORIS PATTERSON SITE

The District was informed by a representative of the Teal Club development that the project is moving forward and that the Teal Club Specific Plan will be considered by the Oxnard Planning Commission and City Council later this year. The developer has requested that the District participate in the coordination and design of the area infrastructure including utilities and roadways. Based on the developer’s current estimated schedule, development in the area may commence as early as 2026. The District has requested that CFW coordinate with the developer as needed.

## 3.3 PROJECTS REMAINING TO BE UNDERTAKEN

Based on Board approval of the Enhanced Master Construct Plan, the following projects are proposed to be undertaken pursuant to the Master Schedule, Budget and Sequencing provided in Section 5 of this report.

### 3.3.1 BREKKE K-5 SCHOOL

Existing facilities at Brekke need improvements, including the repurposing of certain facilities to accommodate district K-5 specifications for 21<sup>st</sup> Century upgrades. Twenty-six permanent classrooms (including 3 SDC and 1 intervention room) and the MPR are proposed to receive 21<sup>st</sup> Century upgrades. Similar improvements are proposed to the library with additional interior improvements to accommodate a breakout room and a 480 square foot Maker’s room. One additional classroom will receive limited upgrades, where applicable, including furnishings, to account for previously completed modernization improvements at that room. The repurposing of two existing classrooms for a STEAM Academy and a piano lab is also proposed. Existing administrative spaces are also proposed for 21<sup>st</sup> Century upgrades to furnishings and improvements to the lobby and reception area.

Additional improvements include allowances for modernized improvements to floors, walls and ceilings, sinks, electrical, and furnishings, data and other technology upgrades and the removal of portable classrooms. Brekke will have 29 classrooms following the modernization project of which three

classrooms are proposed for kindergarten classrooms and three for TK. The existing permanent classrooms at Brekke will become eligible for State modernization grants during the next six-month period. If feasible, it is recommended that the District begin the procurement process for the design of the modernization process in the upcoming fall in order to begin design in early 2025.

### 3.3.2 RAMONA K-5 SCHOOL

Existing facilities at Ramona need improvements, including the repurposing of certain facilities to accommodate district K-5 specifications for 21<sup>st</sup> Century upgrades. Twenty-four permanent classrooms (including 2 SDC and 1 Intervention room) are proposed to receive 21<sup>st</sup> Century upgrades to comply with the District’s vision and specification for 21<sup>st</sup> Century K-5 classrooms as well as improvements to the MPR and library spaces. In addition, the library is to be expanded into the adjacent current computer lab to accommodate a maker’s space and a 480 square foot RSP program space. Limited upgrades to the administration areas are proposed including 21<sup>st</sup> century furnishings and a monitor to promote school meetings, student programs, and activities. The construction of 2 new classrooms is also proposed to provide a STEAM Academy and a piano lab. Proposed interior improvements include allowances for modernized improvements to floors, walls and ceilings, sinks, electrical, and furnishings, as well as data and other technology upgrades.

Additional improvements include roofing upgrades, as needed, replacement of HVAC unit #7, and installation of security cameras, removal of portables. Upon completion the school will consist of 28 classrooms, including three kindergarten classrooms and two TK. The existing permanent classrooms at Ramona will become eligible for State modernization grants during the next six-month period. If feasible, it is recommended that the District begin the procurement process for the design of the modernization process in the upcoming fall in order to begin design in early 2025.

### 3.3.3 DRIFILL K-8 SCHOOL

As one of the newest P2P schools, Drifill needs limited improvements to accommodate K-8 District specifications for 21<sup>st</sup> Century learning environments. Thirty-one permanent classrooms (including 1 Intervention room) are proposed to receive 21<sup>st</sup> Century upgrades to comply with the district’s vision and specification for 21<sup>st</sup> Century classrooms for K-8 schools. The 2 science labs were previously improved in 2014. Proposed improvements include demolishing the current MPR and constructing a new 8,075 square foot MPR/Gymnasium to include a kitchen, serving/presentation space, gymnasium, lockers, storage, toilet and custodial facilities. The library is proposed to absorb the adjacent computer room to increase the total square footage to accommodate 21<sup>st</sup> Century specifications for a Library Media Center. The administrative office is proposed to receive 21<sup>st</sup> Century furnishings and a monitor to promote school meetings, student programs and activities. Additional site improvements include installation of security cameras, and removal of portables. The older original eight-classroom building, and portables are being demolished to accommodate the new MPR and 2 new kindergarten and 3 TK classrooms. An ECDC consisting of 10 Title 5 classrooms to support district wide preschool/TK/K facilities is proposed as a separate project on the site.

### 3.3.4 CHAVEZ K-8 SCHOOL

Based on the limited site area and the need to preserve the built environment, Chavez would best function with a smaller student body and site plan that could best maximize the opportunities to comply with the district's 21<sup>st</sup> Century specifications. It is recommended that Chavez enrollment be capped at 750 TK/K-8 students in 31 permanent classrooms (8 less than the current number). Four older permanent classrooms and 2 P.E. changing rooms that have outlived their useful life are to be removed. Five existing classrooms are to be repurposed and combined to provide 3 Title 5 compliant TK classrooms. The 26 remaining classrooms (including the 4 Title 5 K classrooms and an intervention room) and library are proposed to receive 21<sup>st</sup> Century upgrades to comply with the District's vision and specifications. The 2 existing science labs were previously upgraded in 2014. The construction of a new 8,075 square foot MPR building to include a commercial kitchen, serving/presentation space, changing rooms, restrooms, PE offices, and custodial facilities is also proposed. The existing MPR is to remain and be dedicated to community events and student performances. The administrative office is proposed to receive 21<sup>st</sup> Century furnishings and a monitor to promote school meetings, student programs and activities. Additional recommended site improvements include installation of security cameras and an allowance for offsite improvements.

### 3.3.5 KAMALA K-8 SCHOOL

Thirty-five permanent classrooms (including 1 intervention room) are proposed to receive 21<sup>st</sup> Century upgrades. Two existing science labs were previously upgraded as part of the original conversion of the site to a K-8 facility in 2014. A new 8,075 square foot MPR/Gymnasium building is proposed to include a kitchen, serving/presentation space, gymnasium, lockers and storage, toilet, and custodial facilities. Upon completion of the new MPR/Gym, a reconfiguration of the existing MPR building into the administrative space to district specifications is proposed. The existing administration is proposed to be repurposed into support spaces. Two existing general-purpose classrooms are to be combined onto the library to include a storage room, a reading area, textbook storage, a small breakout room, and a tech work/storage room as identified in the adopted educational specifications. Additional recommended site improvements include roofing and HVAC system, as needed, improved parking/drop off, installation of security cameras, removal of all portables, and an allowance for offsite improvements.

### 3.3.6 CURREN K-8 SCHOOL

Thirty-eight permanent classrooms (including 1 Intervention room) are proposed to receive 21<sup>st</sup> Century upgrades to comply with the district's vision and specification for 21<sup>st</sup> Century classrooms. The 2 science labs were previously improved in 2014. The construction of a new 8,075 square foot MPR/Gym building to include a kitchen, serving/presentation space, gymnasium, lockers and storage, toilet, and custodial facilities is proposed. Upon completion of the new MPR/Gym, the reconfiguration of the existing MPR building into a library is proposed. The existing library facility is proposed to be converted into a staff lounge. The demolition and construction of a new administration building is also proposed. Additional recommended site improvements include roofing and HVAC upgrades, as needed, installation of security

cameras, improved parking/drop off, removal of existing portable student changing rooms, and an allowance for offsite improvements.

### 3.3.7 MARSHALL K-8 SCHOOL

The original existing facilities at Marshall need upgrade, plus the repurposing of certain facilities at the Tk/K-5 level. One existing classroom (Room 602) and its attached three preparation rooms is proposed to be repurposed into a Title 5 compliant TK classroom with its own student restroom and teacher work area. The twenty-five permanent rooms (including 8 SDC, 1 Intervention, and 2 support/RSP) are proposed to receive 21<sup>st</sup> Century classroom upgrades. The library/media is proposed to get 21<sup>st</sup> Century furniture, fixtures, and equipment upgrades. The administrative space is proposed to receive 21<sup>st</sup> Century furnishings and a monitor to promote school activities. An allowance is provided for security and roofing improvements, as needed. At completion, the total permanent classroom count at Marshall would remain at 38 classrooms, consistent with the District’s educational specifications for K-8 facilities.

### 3.3.8 SORIA K-8 SCHOOL

As one of the newer schools in the District, Soria Elementary needs limited upgrades to accommodate district K-8 specifications for 21<sup>st</sup> Century environments. Thirty-seven permanent classrooms (including 2 SDC and 1 Intervention room) are proposed to receive 21<sup>st</sup> Century upgrades limited to the addition of markerboards where necessary, modern and flexible student desks and chairs, and three broadband-connected high-definition video displays to each classroom. TK facilities will continue to be provided at other school site locations. Where applicable, the removal of existing teaching walls, technology counters, and smart boards would be required to accommodate 21<sup>st</sup> Century improvements. No improvements are proposed to the library, administration, and MPR facilities.

### 3.3.9 FRANK 6-8 SCHOOL

Thirty-five permanent classrooms are proposed to receive 21<sup>st</sup> Century upgrades to comply with the District’s vision and specification for grade 6-8 classrooms. Six science lab classrooms are to be upgraded and receive modernization where needed. A modernized 21<sup>st</sup> Century library/media center is proposed to support 21<sup>st</sup> Century improvements. Both music rooms are to receive 21<sup>st</sup> Century upgrades and modernized improvements to replace flooring, upgrade acoustical wall surfaces and painting, where needed. Limited improvements to the existing MPR/Gym facility are proposed to support 21<sup>st</sup> Century specifications. Based on the existing 44 permanent classrooms, it is recommended that the classrooms support the following academic programs:

- General Purpose – 26
- Science Lab/Academy -6
- Engineering Robotics – 2
- SDC – 6
- Intervention – 1
- Band – 2

- Art – 1

The administrative offices would receive 21<sup>st</sup> Century furnishings and a monitor to promote school activities. Additional site improvements include roofing and HVAC upgrades, installation of security cameras, and removal of portables.

# PROGRAM FUNDING & EXPENDITURES

The following section reviews existing and anticipated sources of funds for implementing the proposed facilities projects identified as part of the Enhanced Master Construct Program. Three major sources are considered: the State School Facilities Program (SFP), general obligation (G.O.) bonds, and estimated developer fees. The District has a history of participating in the State SFP by upfront the costs of eligible local school improvements and then seeking reimbursements from the State for eligible expenses and amounts. The District has previously passed local GO bond measures in support of the Master Construct Program at substantially high rates of local voter approval in 2012, 2016, and 2022.

## 4.1 STATE MATCHING GRANTS

The State of California provides periodic grants from voter approved bond measures or general fund contributions for the modernization or new construction of eligible school facilities as determined by the Office of Public School Construction (OPSC) and as funded by the State Allocation Board (SAB) pursuant to the School Facility Program (SFP). Funding is provided in the form of per pupil grants for facility improvements, including design, construction, testing, inspection, equipping, furnishings, technology, plus site service improvements or site acquisition. To receive funding, a local match is required from eligible district funds, including developer fees and bond proceeds. Under certain specific conditions, a district may qualify and apply for a release of its local match requirement based on a financial hardship review and subject to additional constraints and requirements.

At this time, the OPSC has reported that all authorized funds for new construction and modernization applications under the SFP have been fully allocated. Today, applications for new construction and modernization are being placed on an “Applications Received Beyond Bond Authority” waiting list in the order of date received, which is presented to the SAB for acknowledgement, but not approval, and are slated for review once additional funds are made available to the program. To qualify for this waiting list for State funds, districts are required to adopt a Board resolution acknowledging the shortfall and the application’s inclusion under the “Applications Received Beyond Bond Authority List.”

In 2022, Governor Newsom provided further support for K-12 education through one-time funding for programs and services through the state’s general fund. This included approximately \$4 billion in one-time General Fund monies for the SFP allocating \$2.2 billion in 2021-22, \$1.2 billion in 2023-24, and \$625 million in 2024-25 to support new construction and modernization projects. It also included approximately

\$1.8 billion in one-time funds for deferred maintenance, HVAC, and energy improvements. In January 2024, due to the current budget deficit, the Governor revised the projected budget for the SFP in FY 2024-25 to \$375 million. The Governor’s May 2024 revised budget eliminated the \$375 million allocation to the SFP which has essentially deemed funding for current and future applications on the State’s “Applications Received Beyond Authority List”. Based on prior allocations, the OPSC is currently operating under a \$1.9 billion allotment to continue to process applications (“Workload List”) that are currently in line for funding.

CFW continues to monitor grant applications to the State and activities of the SAB for the allocation of eligible State funding. The strategic blending of these programs is required to support the balance of local investment that may be required to fully implement the Master Construct Program. These programs are summarized below as well as the District’s current and projected eligibility for program funding. Applications that have been approved by the District and submitted to OPSC are also presented.

#### 4.1.1 STATE AID MODERNIZATION

The SFP for modernization provides funds on a 60-40 state and local sharing basis for improvements that enhance existing school facilities, including those for HVAC, plumbing, lighting, and electrical systems. Modernization eligibility is established by school site and requires that permanent classrooms be at least 25 years old or since their last modernization and portable classrooms be at least 20 years old since placed in service. Students must be enrolled in eligible facilities based on state classroom loading standards of twenty-five pupils per classroom for elementary grades and twenty-seven pupils per classroom for middle school grades. Further, eligibility requires that the enrollment per site support the estimated number of students housed in eligible classrooms at twenty-five (elementary school grades) or twenty-seven (middle school grades) pupils per classroom. Grant levels are periodically reviewed by the state and program funding is subject to project performance and certification at the completion of construction. The current pupil grant for modernization is \$6,005 for elementary grades and \$6,350 for middle school grades. A higher per pupil grant amount is provided for classrooms that are in buildings 50 years or older equal to \$8,342 for elementary grades and \$8,823 for middle school grades.

Table 1 provides a summary of the SFP modernization grants received to date with the implementation of the Program totaling approximately \$3.9 million. These grants were received as reimbursement

modernization grants from prior SFP eligible improvements made to Fremont, Harrington, Lemonwood, Elm, and McKinna. These funds have been used in support of the Program.

**Table 1: Modernization Grants Received**

Projects	Application #	Standard Pupils	SDC Pupils	Base Grant	Sup. Grant	Total Grant
1 Fremont	57/72538-00-026	131	8	\$1,003,960	\$93,926	\$1,097,886

Table 2 summarizes the District’s estimated current and future eligibility for State modernization grants for remaining eligible permanent and portable classrooms based on 2023-24 school site enrollment and the 2024 per pupil grants. During Phase 3 (2023-2026) scheduling of eligible projects, the District may be eligible for approximately \$40.3 million in remaining State matching modernization grants from existing classrooms. A local match of approximately \$26.9 million would be required by the District to access these grants. Future eligibility of \$14.2 million is estimated to be available through Phase 4 (2027-2030) and \$6.7 million through Phase 5 (2031-2034), requiring a then local match amount of \$9.5 million and \$4.4 million, respectively. In total, approximately \$61.2 million in modernization grant eligibility is anticipated based on maintaining current enrollment at the eligible school sites. Future declines in enrollment will result in a decrease in total grant amounts.

**Table 2: Estimated Modernization Eligibility by Phase**

School	FY2023-24 Enroll	Pupil Grant	Phase 3 (2023-2026)	Phase 4 (2027-2030)	Phase 5 (2031-2034)	Total Grant (60%)

These amounts are subject to annual review and require the submittal and approval of Division of the State Architect (DSA) proposed improvement design plans prior to submittal to OPSC for consideration. Therefore, the actual amount received may be further influenced by the plan of sequence and phasing that may be undertaken by a district in the implementation of its capital program.

**4.1.2 STATE AID NEW CONSTRUCTION**

The SFP new construction program provides state funds on a 50/50 state and local sharing basis for eligible projects that add permanent classroom capacity for districts to house students for the construction of a new school or the addition of classrooms to an existing facility. Eligibility is subject to annual review and allocated district wide and is not site specific. It is determined by the gap between a district’s projected enrollment and its capacity to house students in permanent classrooms as determined by the state based on the state loading standard of twenty-five students per classroom for elementary grades and twenty-seven students per classroom for middle school grades. Historical and projected student enrollment, plus approved, but not yet built residential units, are utilized to estimate the gap in enrollment and capacity. Portable classroom capacity is generally excluded from the analysis as the state does not recognize portable classrooms as being permanently available to house students. The current pupil grant amount for new construction is \$15,770 for elementary grades and \$16,679 for middle school grades, for each student found to exceed a district’s permanent capacity to house students. Eligible costs include design, construction, testing, inspection, furniture and equipment, and other costs closely related to the actual construction of school buildings. Supplemental grants are available for site acquisition, utilities, on/off-site and general site development, and other excessive costs.

Table 3 provides a summary of funding received from new construction reimbursement grants during the period of the current Master Construct Program’s totaling approximately \$30.9 million. As previously presented to the Board, the District has exhausted its eligibility for new construction funding until such time as enrollment once again begins to grow. All of these funds have been used or pledged in support of the Master Construct Program.

**Table 3: SFP New Construction Grants Received**

### 4.1.3 PRESCHOOL, TRANSITIONAL KINDERGARTEN, AND KINDERGARTEN FACILITIES

At various times, the State provides limited funds for competitive applications to fund specific school facilities. The State’s Full Day Kindergarten Facilities Grant Program was initiated in 2019 to provide one-time grants to construct new or retrofit existing facilities for the purpose of providing kindergarten classrooms to support full-day kindergarten instruction. In FY2021-22 the program was expanded to \$490 million in one-time grants to construct new or retrofit existing facilities for the purpose of providing classrooms to support full-day preschool (PS), transitional kindergarten (TK) and kindergarten (K) instruction. A state/local district match of 75/25 is required for preschool and TK projects or half-day kindergarten programs converting to full day. Districts that already have full-day kindergarten programs require a 50/50 match (state/local district) for new construction and a 60/40 (state/local district) match for retrofit projects.

Projects are required to meet California Department of Education (CDE) and Title 5 requirements including classrooms of 1,350 square feet, a restroom and storage/workroom accessibility from the main classroom area. Preschool projects need to meet additional Title 22 requirements specific to preschool such as one toilet per fifteen pupils and an outdoor activity space with at least 75 square feet per child. Districts are required to certify on the application for funding that prior to occupancy of the classrooms that the district has obtained a Childcare Center License from the California Department of Social Services (CDSS). As part of the license requirements, the CDSS will verify compliance with Title 22. The school district must provide evidence of licensure status at the time of project audit.

Four funding rounds have been completed for the program, all of which were oversubscribed. The Governor’s May 2024 revised budget eliminated a previously anticipated fifth funding round of \$550 million. The State is proposing to include a set aside of \$550 million within a new statewide bond measure to continue funding for the program. Table 4 provides a summary of approved applications the District has received from the program totaling approximately \$14.6 million. These grants provided funding for ten new PS/TK/K classrooms at Driffill and ten new PS/TK/K classrooms at Marina West. A total District match of \$6.2 million is required for a total project amount of \$20.8 million.

**Table 4: Preschool/TK/Kindergarten Grants**

<b>Projects</b>	<b>Total Grant</b>	<b>District Match</b>	<b>Total Project</b>
1 Driffill	\$6,915,318	\$2,963,707	\$9,879,025
2 Marina West	\$7,652,418	\$3,279,608	\$10,932,026

### 4.1.4 SUBMITTED STATE AID APPLICATIONS

Table 5 presents State aid applications that have been filed with the OPSC that are awaiting review and funding by the State, totaling approximately \$6.8 million. It also reflects the current pupil grant amounts in effect for 2024 by the SAB and estimated additional anticipated allowances for supplemental grants such as site development costs.

Applications have been filed for the modernization projects planned at Ritche and McAuliffe elementary schools. Based on 60/40 matching share requirement, it is estimated that the District may receive approximately \$6.8 million in grants for these projects, requiring a \$4.5 million District match.

**Table 5: Submitted State Aid Applications**

Projects	Type	Standard Pupils	K-6	7-8	SDC Pupils	Non Severe	Severe	Est. Base Grant	Est. Sup. Grant	Total Est. Grant
McAuliffe	Mod.	534	534	0	0	0	0	\$3,206,670	\$320,667	\$3,527,337
Ritche	Mod.	491	491	0	0	0	0	\$2,948,455	\$294,846	\$3,243,301
<b>Total</b>		<b>1,025</b>	<b>1,025</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>\$6,155,125</b>	<b>\$615,513</b>	<b>\$6,770,638</b>

The above analysis on State aid eligibility and submitted applications is based on existing rules which are periodically adjusted by the OPSC, SAB, or the legislature when a new bond is considered. The assumptions are based on rules that are currently in effect and any change in rules or eligibility factors (e.g., enrollment) may impact the receipt of funds. Over the next six months, the team will continue to monitor application status with OPSC and respond to any new opportunities, exceptions, and review notices received in order to keep the District as informed as possible on any needs for program adjustments.

**4.1.5 FINANCIAL HARDSHIP FUNDING**

The State provides a Financial Hardship Program to assist districts that cannot provide all or part of their local match for an approved modernization or new construction SFP project. In Financial Hardship, the State funds its normal grant amount, and if a district is found to be eligible, provides an additional grant amount equal to the portion of the match that would have been required to be funded by a district. This in effect increases the amount of grant funding a district would otherwise receive. To qualify, a district must be charging the maximum developer fee and meet one of the following criteria:

- Bonded indebtedness of 60 percent or greater
- Successful passage of a Prop. 39 Bond
- District total bonding capacity of less than \$5 million

At this time, the District has exceeded its net bonding capacity of 60 percent. Based upon current guidelines and regulations the District qualifies for Financial hardship status. Upon successful passage of a Statewide School Facility Program Bond in November of 2024, the guidelines and/or regulations may change regarding the qualifications the District must meet in order to garner financial hardship status.

Under the current Financial Hardship Program, a district must exhaust all unencumbered capital fund balances available for modernization or new construction at the time of application. In addition, any funds that become available during the time the District is in the Hardship period will reduce the amount of the State’s grant in lieu of the District’s match, proportionally. Audits of available capital facilities funding (e.g., Funds 21, 25, 35) are required throughout the project period that a district is in Hardship funding

and at “close out”, or completion of the project. Until approved for construction, eligibility is subject to review every 6 months. A district can apply for both planning and/or construction funds.

Except for land acquisition and some site service costs, 100 percent hardship grant funding does not typically equate to 100 percent of the total development costs associated with the design and construction of an eligible project. Often projects must be phased, alternate methods of construction (e.g., modular) must be employed to achieve the desired space requirement for housing students or additional bond funding must be provided thereafter to complete a hardship project. Moreover, the Hardship period begins on the date of application, regardless of the date it is reviewed by OPSC or approved by the SAB. This requires that the District sequence projects proposed for Financial Hardship after all anticipated and available capital funds are encumbered. This assessment must be conducted for every six-month period that a district participates in the Financial Hardship Program.

## 4.2 DEVELOPER FEES

Developer fees levied on new residential and commercial construction in a school district attendance area are permissible under State Education Code, Section 17620 and may be used to meeting the District’s match requirement for eligible State grant projects. The purpose of these fees is to mitigate the student enrollment impact that would be generated by new development. Fees may be used to fund the construction of new school facilities, the modernization of existing facilities, or the reopening of closed facilities. The regulations also permit an inflation-based increase in developer fees every two years based on changes in the Class B construction index. There are three levels of developer fees that can be assessed:

- **Level 1** fees are established by statute and adjusted by the State Allocation Board and are currently \$5.17 (2024) per square foot of residential development and \$0.84 (2024) per square foot of commercial and industrial development for K-12 school districts
- **Level 2** fees constitute up to 50 percent of the State allowed cost for construction and sites, if the school district meets specified eligibility tests and assumes that the State will pay for the other 50 percent of cost through the SFP
- **Level 3** fees are the same as Level 2, but include the State’s 50 percent share as well, but only when the State declares it is out of funds for new construction

A Developer Fee justification study must be completed in order to levy Level 1 or Level 2 fees and in the event that the State declares that it is out of new construction state grant funds, the same report may allow the District to levy Level 3 fees. The District projects a June 30, 2024 developer fee fund balance of approximately \$8 million as of March 31, 2024 available to the Program. For purposes of this report, it is assumed that the District may collect approximately \$1.2 million a year for the period of 2024-25 through 2029-30 for a total of \$ \$7.3 million. In total, approximately \$20.1 million is assumed to be available towards remaining improvements.

In April 2024, the District adopted a Residential and Commercial/Industrial Development School Fee Justification Study prepared by Woolpert (formerly Cooperative Strategies) that established the justification for collecting Level 1 fees. Based on the District’s fee sharing agreement with the Oxnard

Union High School District, the District can collect 66% of the maximum Level 1 fees, or \$3.41 per square foot for residential development. The study concluded that the District is justified in collecting \$3.41 per square foot for multi-family residential units and \$2.75 per square foot for single-family residential units. The District may also collect up to \$0.554 per square foot for commercial development as follows:

**Table 6: Maximum School Fee per Square Foot for Commercial Development**

CID Land Use Category	Maximum School Fee
Retail and Service	\$0.524
Office	\$0.554
Research and Development	\$0.554
Industrial/Warehouse/Manufacturing	\$0.554
Hospitals	\$0.554
Hotel/Motel	\$0.265
Self-Storage	\$0.015

*Source: 2024 Residential and Commercial/Industrial Development School Fee Justification Study by Woolpert*

To establish a nexus and a justifiable residential School Fee level, the Study evaluated the number and cost of new facilities required to house students generated from future residential development within the School District. Based on data provided by the Southern California Association of Governments, approximately 5,096 additional residential units could be constructed within the District's boundaries through calendar year 2050. Of these 5,096 future units, 3,058 are expected to be single family detached and 2,038 are expected to be multi-family attached units. By dividing the total amount of anticipated units (5,096) by the buildout period (26 years), it is anticipated that approximately 196 units may be built each year from 2024 through 2050. This average buildout and the corresponding square footage of new residential development is the basis for the anticipated annual developer fees revenues to be realized by the District during this period. Based on the Level 1 fee of \$3.41 per square foot of new residential multi-family development and \$2.75 per square foot of new single-family residential development and the total square footage of approximately 416,000 resulting from the construction of 196 units, the District could receive an estimated \$1.2 million in developer fees annually, however actual revenues could vary based on fluctuations in development activity.

As reported in December 2021, Woolpert (formerly Cooperative Strategies) reported to the District that due to the District's enrollment declines, Level 2 fees are no longer justified, and the District will have to revert to Level 1 fees. For purposes of budgeting for the program, Level 1 fees of \$3.41 and \$2.75 have been assumed in projected available developer fee funds for the program. The District is required to complete a biennial update to the Level 1 Study in order to continue collecting Level 1 fees for the next two years. Similarly, the District is also required to complete an annual update to the Level 2 Study in order to resume collecting Level 2 fees.

#### 4.2.1 SCHOOL IMPACT FEE

The Teal Club Specific Plan identifies 990 residential units of varying density, single-family, townhomes, condominium, and apartment units to be built within the District. It is estimated that the average square footage of the residential units will be 1,800 square feet per unit. In total, it is estimated that 1,782,000 square feet of new residential units will be constructed over time. The developer indicated to the District in April 2024 that construction of the new units may commence starting in 2026 with full build-out estimated to be completed by 2030.

The District negotiated a development mitigation agreement with the developers of the proposed Teal Club development in lieu of statutory Developer Fees. Based on the agreement, the District established a mitigation fee of \$7.28 per square foot (School Impact Fee) subject to annual increase at a rate equal to the percentage increase of the adjustment for inflation set forth in the statewide cost index for class B construction. The increase shall be applied on the one-year anniversary of the Effective Date and on each one-year anniversary thereafter. Effective May 1, 2024, the fee will be increased by 9.4 percent to \$10.65 per square foot of new residential construction.

For the purpose of this report, it is assumed that 330 units will be constructed in the Program's Phase 3 equal to 594,000 square feet of new residential construction subject to the School Impact Fee. The resulting School Impact Fee is estimated to be \$6,326,100 based on the current rate and is expected to be available to the District during Phase 3. The subsequent build-out of the remaining units and corresponding revenues will be incorporated into the Program once additional phases of construction at the development are undertaken.

#### 4.3 GENERAL OBLIGATION BONDS

The District has used general obligation (G.O.) bonds historically to fund major school facility improvements and has been very successful in making use of public financing options and garnering community support to improve school facilities, including those as part of the Enhanced Master Construct Program. The District successfully passed local voter approved G.O. bond authorizations in 1997, 2006, 2012, 2016, and 2022. The latter three are in direct support of the Enhanced Master Construct program. These bonds are secured by an annual levy on all taxable parcels within the boundaries of the District. The levy is based on the assessed value of a parcel as determined by the county, pursuant to Proposition (Prop.) 13. Traditionally, G.O. bonds carry far lower interest and issuance costs than other financing options available to school districts. Buyers of most California school bonds receive an exemption from state and federal taxes on the interest portion of the bonds purchased, allowing for a lower rate of interest to a district to finance improvements over time. Appendix B summarizes the District's past G.O. bond issuances and provides data for each issuance's sale date, original principal, current outstanding principal, original repayment ratio, and remaining term.

#### 4.3.1 PAST AND REMAINING G.O. BOND AUTHORIZATIONS

The 1997 authorization was approved by voters and authorized the sale of \$57 million in G.O. bonds, pursuant to Proposition 46 which does not set a maximum annual tax rate for the purposes of issuing remaining bond authorization. To date, \$57 million in bonds have been sold, leaving no remaining authorization from the 1997 Election. It is anticipated to be fully retired by 2033.

The 2006 authorization was approved by voters and authorized the sale of \$64 million in G.O. bonds, pursuant to Proposition 39 which set a maximum annual tax rate of \$30 per \$100,000 assessed valuation for the purposes of issuing remaining bond authorization. To date, \$64 million in bonds have been sold, leaving no remaining authorization from the 2006 Election. It is anticipated to be fully retired by 2036.

The 2012 authorization was approved by voters and authorized the sale of \$90 million in G.O. bonds, also pursuant to Proposition 39 which set a maximum annual tax rate of \$30 per \$100,000 assessed valuation for the purposes of issuing remaining bond authorization. To date, \$90 million in bonds have been sold, leaving no remaining authorization from the 2012 Election. It is anticipated to be fully retired by 2044.

The 2016 authorization was approved by voters and authorized the sale of \$142.5 million in G.O. bonds, also pursuant to Proposition 39 which set a maximum annual tax rate of \$30 per \$100,000 assessed valuation for the purposes of issuing remaining bond authorization. To date, \$104.9 million in bonds have been sold, leaving a remaining authorization of \$36.5 million from the 2016 Election.

In November 2022, voters in the District approved Measure I and authorized the sale of \$215 million in G.O. bonds, pursuant to Proposition 39 which set a maximum annual tax rate of \$30 per \$100,000 assessed valuation for the purposes of issuing the remaining bond authorization. In March 2023, the District issued the first series of bonds from the 2022 Election in the amount of approximately \$76.5 million, leaving a remaining authorization of approximately \$138.5 million. The amount of bonds sold was based on the receipt of a debt limit waiver from the State Board of Education which was approved in May 2023.

#### 4.3.2 REMAINING G.O. BOND AUTHORIZATION AND PROJECTED FUTURE BOND PROCEEDS

Assuming that the District's assessed valuation continues to grow as presented in Exhibit B at an annual average of 4.0 percent and that the District implements the maximum tax rate of \$30 per \$100,000 of assessed value allowed by Proposition 39 over a 30-year term for each bond sale, the District is projected to issue its remaining bond authorization of approximately \$138.5 million in bond proceeds over a projected 8-year period based on current market conditions. Based on the above assumptions and those in Exhibit B, Figure 1 depicts the above projection and assumes that additional bond proceeds may be available in 2027 and 2031 respectively, beyond the amount sold in 2023.

**Figure 1: Estimated Measure D Bond Proceeds at \$30 Tax Rate Per \$100,000 of Assessed Value**

In addition to the above, the District has approximately \$36.5 million in remaining authorization from Measure D election approved by voters in 2016. Based on the above assumptions and those in Exhibit B, Figure 2 depicts the bond proceeds issued to date thru 2020 and the projected bond proceeds that may be available from the remaining authorization of Measure D. Figure 2 illustrates the estimated timing and size of remaining bond issuances in support of the Enhanced Master Construct Program which projected to be available over two bond sales in 2024 and 2029 for a combined total of \$36.5 million.

**Figure 2: Estimated Timing and Sizing of Remaining Measure “D” Bond Proceeds**

The projections above for the issuance of the remaining authorization for Measure D and I, respectively are used to estimate the amount of bond proceeds available to fund the Enhanced Master Construct Program over phases as presented in the proposed Master Budget in Section 5. In both Figure 1 and Figure 2, the actual size and timing of the remaining bond sales depend on the prevailing market conditions at that time and the actual assessed valuation growth between bond sales required to maintain tax rates for bond repayments within the estimated Proposition 39 rate of \$30 per \$100,000 of assessed valuation.

The issuance of additional bonds may also require additional authorization from the State Board of Education for a waiver to increase the District’s bonding capacity.

The District’s outstanding bonds in both cases are secured by an annual levy on all taxable parcels within the boundaries of the District. The levy is based on the assessed value of a parcel as determined by Ventura County, pursuant to Proposition 13 and the corresponding tax rate is typically expressed in an amount per \$100,000 of assessed value. The tax rate for a given fiscal year is based on the County’s policies calculated to make the required bond interest and principal payments for a given period. In some cases, the County may initially over levy to establish a reserve fund which can be applied over time to better manage the tax rate required to repay the bonds from year to year. As a result, there can be a variance between the estimated tax rate required to make interest and principal payments and the calculated tax rate levied on property within the District. A variance can also be attributed to the collection of unitary taxes. In FY2023-24, Ventura County levied a tax rate of \$111.00 per \$100,000 of assessed value for the District’s combined outstanding bonds.

#### 4.3.3 OUTSTANDING CERTIFICATES OF PARTICIPATION AND POSSIBLE PREPAYMENT FROM GENERAL OBLIGATION BOND PROCEEDS

Certificates of Participation (“COPs”) are typically utilized by school districts to raise funds for land acquisition, facilities improvements, and lease equipment. Proceeds can be used to acquire, construct, and modernize facilities and equipment. COPs are a lease obligation payable from any source of revenue legally available, typically the District’s General Fund or local sources such as developer fees, and are typically issued with a term of up to 30 years. Unlike GO bonds, COPs have no dedicated, voter-approved tax or other revenue to repay the COPs. However, a COP may be fully prepaid prior to maturity with proceeds from a future GO bond.

In 2016, the District identified a need to acquire school sites and construct a new elementary school and new middle school. The funding requirement to complete these schools was \$8 million, and the District financed these projects by issuing COPs. The COP financing was selected due to its flexibility in repayment options, the favorable financing costs, and ease of execution. Further, in the event that the anticipated sources of repayment did not materialize, the District structured the COP to allow for payment from its General Fund for the life of the COP.

The District successfully issued \$8 million in COPs in April 2016 with a term of 30 years and final maturity in 2045 with an average interest rate (TIC) of 4.1%. The initial debt service payments were interest-only, and the first principal payment was due in August 2022. After principal payments commence, debt service payments on the 2016 COP are approximately \$580,000 annually.

**Figure 3: Schedule of Remaining Debt Service for 2016 COP**

Year	Principal	Interest	Annual Payment
2024	\$200,000	\$381,500	\$581,500
2025	\$210,000	\$371,500	\$581,500

2042	\$475,000	\$102,500	\$577,500
2043	\$500,000	\$78,750	\$578,750
2044	\$525,000	\$53,750	\$578,750
2045	\$550,000	\$27,500	\$577,500

The 2016 COP was structured to allow for prepayment from General Obligation Bond proceeds, State Reimbursements, and/or Developer Fees at any time after August 1, 2021 with no premium or penalty. At this time, the District has capacity to issue additional GO bonds from Measure “D”, and these bond proceeds may be used to prepay the 2016 COP and provide relief to the District’s General Fund.

The total cost of repayment is equal to 100% of the principal to be prepaid, together with accrued interest to the date fixed for prepayment, without premium. Assuming a prepayment date of August 1, 2024, the total cost of repayment would be approximately \$8.01 million.

# MASTER BUDGET & SCHEDULE

The Master Construct and Implementation Program is integrated into the Enhanced Master Construct Program with the projects in progress serving as the bridge between the two programs. Utilizing estimated State aid eligibility for modernization funding, estimated developer fees, remaining bond authorization from Measure “D”, and authorization from the 2022 Measure “I” General Obligation (G.O.) bond authorization, a phasing program is proposed for the implementation of the proposed improvements. Proposed facilities improvements are presented in phases to reflect the expected availability of funds and projected sequencing of projects during construction. Proposed sources and uses of funds, along with constraints, have been identified and a proposed plan of sequencing has been prepared. The estimated costs provided represent a combination of “hard” and “soft” costs. In combination, they comprise what is properly called the total “Project Cost”. Hard costs result from the construction itself (e.g. bricks and mortar). Soft costs are those planning and design costs and fees that are an integral part of the building process and are usually precursors to, or supportive of, the construction. These include professional fees and other related, non-construction costs.

## 5.1 PROPOSED MASTER BUDGET SOURCES AND USES

The District has adopted specifications for 21st Century Learning Environments to guide the reconfiguration and improvement of its K-5, K-8 and 6-8 school facilities in phases over a 15-year period. The overall goal is to reconstruct older schools, improve or replace support facilities, extend its grade configuration to 4-year-old students, and replace portable classrooms with permanent facilities wherever possible. Up to this point, the Program has led to the design of eight new 21st Century schools, the construction of 6 such schools to date with the completion of the seventh school expected in December 2024. In addition, it has led to the construction of three Early Childhood Development Centers (ECDC), with two additional in design, the acquisition of 2 school sites, and the design and approval of two elementary schools for modernization. It has also provided for the expansion of construction of TK/K and special education “flex-facilities” at four elementary school sites, and 21st Century science labs at select schools.

Additional consideration was made to secure funding based on the completion of projects to date, the Board’s desire to maintain equity with remaining sites in need of improvement, and the State’s increasing mandates to the educational and facilities program. The District’s Enhanced Facilities Master Program identifies additional projects that qualify for State modernization grants and are eligible for funding via local voter approval bond programs. The District is now actively planning for the following approved projects:

- Reconstruct Fremont Academy 6-8 School and Dr. Lopez Academy middle school campuses

- Provide 21st Century classroom improvements and reconstruct select support facilities to maintain equity
- Construct additional transitional kindergarten and early childhood education classrooms over time at select school sites throughout the District

Tables 7 and 8 provide a proposed integrated master budget of estimated sources and uses beginning with a summary accounting of previously completed projects followed by the next phases of remaining improvements as identified in the adopted Enhanced Master Construct Program. Previous phases include a total estimated sources and uses of approximately \$265.3 million with an estimated ending program reserve of \$858,834. The total budgets for completed projects have remained the same since the December 2023 report with no recommended adjustments. Upon final closeout and expenditures of projects, total funding sources and expenditures for completed projects will be adjusted to reflect actuals.

Four estimated major funding sources are proposed to finance the remaining improvements under the Enhanced Master Construct program including estimated remaining reserves from previous phases, remaining and new General Obligation (GO) authorizations, modernization State aid grants or grants received from the State’s TK/K program, and estimated developer fees. There is an estimated \$858,834 in remaining program reserve from the previous phases that is projected to be available towards funding remaining improvements. Approximately \$214.2 million is available from the recently approved Measure “I” and is projected to be to fund the program over three bond series in 2023 and ending in 2031. An additional \$36.5 million in remaining GO bond authorization from Measure D is estimated to be available over two bond series in 2025 and 2029 to assist in funding planned improvements. Approximately \$66.2 million in estimated State Aid modernization and TK/K grants may be garnered over time including approximately \$6.8 million in estimated modernization grants at McAuliffe and Ritchen, \$14.5 million in the State’s Kinder program grants for Driffill and Marina West, and \$44.9 million in estimated modernization eligibility at Driffill, Curren, Lopez, Brekke, Ramona, Chavez, Kamala, Frank, Marshall, and Soria over time. Per the District’s March 31, 2024 capital funds accounting, approximately \$8 million may be available from developer fees as of June 30, 2024, and \$14.3 million is estimated to be collected over a seven-year period as identified in the District’s Developer Fee Report and Teal Club Development as summarized in Section 4 of this report.

As shown in Table 8, approximately \$287.6 million is estimated in total anticipated costs. A Program Reserve of \$52.5 million is recommended providing a grand total integrated budget of \$340.1 million in remaining estimated project improvements to be funded over the proposed remaining phases.

**5.2 MASTER CONSTRUCT AND IMPLEMENTATION PROGRAM EXPENDITURES TO DATE**

A budget and expenditure tracking protocol has been established and utilized for projects currently being implemented. As of the December 2023 Semi-Annual Report, the total budget was approximately \$363.8 million for projects under current implementation, exclusive of the net balance of the remaining Enhanced Master Construct that have been integrated into this report. Any changes to sources, uses, and schedules included in this report have considered actual District expenditures for the respective projects and are tracked against established project budgets. As needed, the program reserves and estimated ending fund balance will be utilized to accommodate unforeseen but required budget adjustments.

Table 9 provides a summary report of expenditures made for the Program during the period July 1, 2012 – March 31, 2024, totaling approximately \$251.3 million. Expenditures made after this period will be

accounted for in the next Semi-Annual update. The District’s financial system accounts for expenditures by Fiscal Year (July 1 – June 30) and is used in reporting these expenditures. The report is organized by Fiscal Year and includes expenditures across various construction funds. It should be noted that expenditure reporting is based on the budget approved as part of the December 2023 Semi-Annual Report. Once the recommended budget adjustments are approved as part of this June 2024 report, subsequent expenditure reports will reflect the revised budget value.

The District has accounted for districtwide expenses, including the program manager fee in object codes 5800 and 6205 and has not allocated these expenses to specific projects. For the purposes of Table 9, CFW has allocated such districtwide program manager fee expenses by taking the actual expenditures for a given fiscal year and then allocating the actuals by the percentage of fees earned for that period for a given project pursuant to the latest agreed upon fee calculation. Pursuant to the contract, the total program management fee does not exceed 4.75% of the projects managed. From July 1, 2012, through March 31, 2024, the District disclosed expenditures of approximately \$36.4 million for additional facilities improvements not identified in the Master Construct Program. Of the total, \$15.6 million were expended for eligible projects prior to the adoption of the January 2013 Implementation Plan beginning with \$3.7 million of Developer Fee Fund balances, plus additional expenditures thereafter which were planned for State aid reimbursement. Given the deferral of State reimbursements, these expenditures are now being subsumed into the Master Construct Program until such time that State aid reimbursement becomes available. Eligible improvements included, but are not limited to, replacement or addition of relocatable facilities, improvements and DSA closeout of prior projects, District energy efficiency improvements, and other facility improvements. The remaining \$20.8 million in expenditures outside of the Program were funded by the District’s prior Measure M bond program. Expenditure reports related to the current bond programs are made available for review by the Citizens’ Oversight Committees and expenditures are audited annually for the Board’s review

### 5.3 PROPOSED SEQUENCING

The proposed plan of sequencing begins the process with the design and construction of Fremont at its proposed new location. Upon completion, students from Fremont would be moved into the new school. The old facility could be retained to provide “swing space” to be used to house the next proposed projects to be constructed in sequence. Upon completion in its role as “swing space”, the old Fremont campus will be removed and replaced with appropriate field space in support of the new campus for school and community use. The District has not made a final decision on whether to maintain the old Fremont campus for use as swing space.

Likewise, the construction of the new Lopez campus would be done in a similar fashion to that undertaken at Lemonwood, with the new building designed and constructed first on the adjacent playfield while the existing school remains in operation. Upon completion, the old building would be ultimately demolished and play fields provided in its place. In the interim, the old facility would operate as additional “swing space” to expedite the completion of the next sequence of schools to be improved, if required.

Both Driffill and Frank are proposed to be improved with students in place. At Driffill, the proposed facilities that do not displace existing uses would be built first. The portables on site would be used in combination with newly constructed classrooms, including those in the proposed ECDC, to provide “swing space” as the remaining classrooms, including those in the P2P wing, are upgraded. A similar approach is anticipated at Frank through a phased classroom improvement program by utilizing the existing portable as “swing space” in combination with completed classrooms once they receive upgrades.

An additional option, if necessary, is to maximize capacity to full enrollment at all 21<sup>st</sup> Century replacement or improved existing schools allowing the provision for the use of other select schools to be used as “swing space” in addition to those identified above. Once improvements at those schools needing “swing space” are complete, students will return to their school of residence.

### 5.4 PROPOSED PROGRAM MASTER SCHEDULE

As summarized in Tables 10-12, the estimated cost for remaining improvements is estimated to be implemented over three remaining phases (Phases 3-5) beginning in FY2022-23 through FY2030-31. Phase 3 completes improvements at Fremont, McAuliffe, Ritchen, and ECDC facilities at Driffill, Rose, and Marina West. Design activities are proposed to be implemented for the reconstruction of Dr. Lopez 6-8 school. Changing room projects at Lemonwood and Marshall K-8 schools are also proposed to be completed in this phase. Bond proceeds from existing authorization and the new measure are proposed to front the brunt of required costs. State modernization grants and awarded and projected grants under the State’s Preschool/TK/K are projected to be also available and may assist in funding. Estimated developer fees

and School Impact Fees from the Teal Club development are proposed to assist with funding, as available. Phase 3 improvements are projected to be complete by the end of FY2025-26.

## B.1 GENERAL OBLIGATION BONDS

General obligation (G.O.) bonds are the most widely used and efficient method of financing school facility improvements locally in California. More than 600 school districts in the state have issued G.O. bonds to finance necessary improvements. These bonds are secured by an annual levy on all taxable parcels within the boundaries of a school district. The levy is based on the assessed value of a parcel as determined by the county, pursuant to Proposition (Prop.) 13. Traditionally, G.O. bonds carry far lower interest and issuance costs than other financing options. Buyers of most California school bonds receive an exemption from state and federal taxes on the interest portion of the bonds purchased, allowing for a lower rate of interest to a district to finance improvements over time.

### B.1.1 EXISTING G.O. BOND AUTHORIZATIONS & PAST ISSUANCES

The District successfully passed a local G.O. bond authorization in 1997, 2006, 2012, 2016, 2022 respectively. Table B1 summarizes the District's past G.O. bond issuances and provides data for each issuance's sale date, original principal, current outstanding principal, original repayment ratio, and remaining term.

The 1997 authorization approved the sale of \$57 million in G.O. bonds. To date, \$57 million in bonds have been sold, leaving no remaining authorization from the 1997 Election. After the issuance of the 1997 Election bonds, the District issued seven series of refunding bonds between 2001 and 2022 to refinance outstanding 1997 Election bonds and generate debt service savings for District taxpayers. The 1997 Election was approved pursuant to Proposition 46 which required a 2/3 majority of voters to pass and there is no legal tax rate limit for the purposes of issuing bonds from this authorization. As of August 1, 2023, the outstanding principal to be repaid from the 1997 Election is approximately \$23.5 million.

The 2006 authorization was approved by voters and authorized the sale of \$64 million in G.O. bonds. To date, \$64 million in bonds have been sold, leaving no remaining authorization from the 2006 Election. Subsequent to the issuance of bonds, the District refunded some of the 2006 Election bonds in 2014, 2015, 2016, and 2020 to refinance outstanding 2008 Election bonds and generate debt service savings for District taxpayers. As of August 1, 2023, the outstanding principal to be repaid from the 2008 Election is approximately \$34.2 million.

The 2012 authorization was approved by voters and authorized the sale of \$90 million in G.O. bonds. To date, \$90 million in bonds have been sold, leaving no remaining authorization from the 2012 Election. After the issuance of Election 2012 bonds, the District refunded bonds in 2019, 2020, and 2022 to refinance outstanding 2012 Election bonds and generate debt service savings for District taxpayers. As of August 1, 2023, the outstanding principal to be repaid from the 2012 Election is approximately \$93.6 million.

The 2016 authorization was approved by voters and authorized the sale of \$142.5 million in G.O. bonds. To date, \$104.9 million in bonds have been sold, leaving a remaining authorization of \$36.5 million from the 2016 Election. As of August 1, 2023, the outstanding principal to be repaid from the 2016 Election is approximately \$104.5 million.

In November 2022, voters in the District approved and authorized the sale of \$215 million in G.O. bonds. To date, the District has sold approximately \$76.5 million in G.O. bonds leaving approximately \$138.5 million in remaining authorization.

Each of the 2006, 2012, 2016, 2022 authorizations were approved pursuant to Proposition 39 which set a maximum annual tax rate of \$30 per \$100,000 assessed valuation for the purposes of issuing bonds from each respective authorization. The District’s currently outstanding bonds, and subsequent refunding of these bonds, account for approximately \$332.3 million in outstanding principal. All outstanding bonds are scheduled to be repaid by fiscal year (FY) 2053-54.

Figure B1 indicates the estimated tax rate required to pay the principal and interest for the District’s outstanding bonds. In FY 2023-24, Ventura County levied an aggregate tax rate of \$111.00 per \$100,000 of assessed value for the District’s outstanding G.O. bonds. Based on the interest and principal payments scheduled for the repayment of outstanding bonds and an average annual assessed value growth of 4 percent (4.0%) over the remaining term of the bonds, it is estimated that the annual tax rate to repay the bonds will begin to gradually decline over the next four years and continue to decline more rapidly thereafter.

**Figure B1: Estimated District G.O. Bond Tax Rates Per \$100,000 of Assessed Value**

The District’s current outstanding bonds, and subsequent refunding of these bonds, account for approximately \$332 million in outstanding principal. All outstanding bonds are scheduled to be repaid by fiscal year FY 2053-54, with total annual payments ranging between \$6.9 million and \$24.0 million for the next 31 years. Total principal to be repaid year-to-year ranges from \$5.0 million to \$16.4 million, while

interest payments range from \$323,425 to \$13.1 million. Figure B2 indicates that the District had approximately \$332 million in total outstanding G.O. bonded indebtedness in FY 2023-24 and is anticipated to decline thereafter absent any additional G.O. bond sales. Absent any additional debt issuance, all current outstanding principal is scheduled to be retired by the end of FY 2053-54.

**Figure B2: Remaining G.O. Bond Principal Outstanding Over Time**

**B.1.2 FUTURE BOND SALES**

The District has remaining G.O. bond authorization from both the 2016 Election and the 2022 Election. Both authorizations are also subject to the provisions of Proposition 39 which requires a school district to certify that the estimated tax rate to repay subsequent bond sales would not exceed \$30 per \$100,000 of assessed value and establish a Bond Oversight Committee to review annual performance audits of the bond fund expenditures.

Similar to the District’s previous bond programs subject to Prop. 39, the availability of future bond funds is dependent on the District’s assessed valuation growth to accommodate the Prop. 39 tax rate allowance of \$30 per \$100,000 of assessed value for non-unified school districts in California.

The District’s total assessed valuation serves as the source from which tax revenues are derived for the purpose of repaying the District’s bond debt service. As the assessed value grows, so does the District’s ability to repay a greater amount of bond debt service and therefore its ability to issue additional bonds. Table B2 presents a history of the District’s assessed valuation. Historically, assessed value has increased with some minimal periods of decline. During the early to late 2000s, the District experienced assessed value growth ranging from approximately 9 to 14 percent annually. This coincided with a period of strong economic performance statewide. Conversely, as the economy contracted during the Great Recession, the District’s assessed valuation experienced periods of contraction in FY 2010 through FY 2012. Overall, assessed valuation growth averaged 4.8 percent annually over the last 20 years. Most recently, over the last 5-year period, the annual assessed valuation growth rate has averaged 4.7 percent. While annual

assessed valuation growth has slowed compared to the mid-2000s, it may indicate a more sustainable pace of economic expansion within the District.

Education Code 15102 limits the amount of outstanding principal bonded indebtedness a school district may have outstanding when considering the sale of additional G.O. bonds. For an elementary school district, bonded indebtedness cannot exceed 1.25 percent of the District’s total assessed valuation at the time bonds are to be sold. The bond limit may be exceeded by obtaining a waiver from the State.

In May 2023, the State approved the District’s request for a Debt Limit Waiver, enabling the District to issue bonds up to 2.14 percent of the District’s total assessed valuation. As calculated in Table B3, using the District’s current total assessed value and effective debt limit, the District has a gross bonding capacity of approximately \$360.1 million. Table B3 indicates that the District had approximately \$332 million in total outstanding G.O. bonded indebtedness as of 2023-24, resulting in a current net bonding capacity of approximately \$27.8 million. Overall, the District is currently utilizing 157.98 percent of its statutory bonding capacity.

Additional bonding capacity requires an increase in the assessed valuation of the District over time and/or the repayment outstanding principal. The District may also elect to pursue authorization from the State Board of Education for a waiver to increase its bonding capacity as it has successfully obtained in the past.

**B.1.2.1 ADDITIONAL G.O. BOND SALES – 2016 ELECTION**

The availability of future bond funds is dependent on the District’s assessed valuation growth to accommodate the Prop. 39 tax rate allowance of \$30 per \$100,000 of assessed value for elementary school districts in California. Based on Prop. 39, under which Measure “D” was held, the District is legally permitted to sell bonds up to the amount authorized by voters, so long as the bonds may be reasonably supported by a maximum tax rate per year of \$30 per every \$100,000 of assessed property value. The tax rate to repay the outstanding Measure D bonds commenced in fiscal year 2018-19; for the current fiscal year 2023-24, the County is levying a rate of \$25.20 per \$100,000 of assessed property value.

Figure B3 presents the amount of bonds issued to date and the amount that may be issued in the future assuming certain conditions. First, it is assumed that assessed value will continue to grow at approximately 86 percent of its last five-year average rate, or 4 percent per year. It also assumes that the repayment of any new bonds to be sold will not exceed the \$30 per \$100,000 assessed valuation tax rate. Figure 5 illustrates the estimated timing and size of remaining bond issuances in support of the Master Construct Program. In total \$36.5 million in authorization remains from Measure “D” which may be issued as indicated over two bond sales.

**Figure B3: Estimated Timing and Sizing of Future Measure “D” Bond Issuances**

The availability of additional funds issued in 2020 Series C is credited to the District’s growth in assessed valuation and current interest rates for similarly rated California school districts. To access the bond proceeds and to conform to the Program’s constraints including the \$30 tax rate, the District will need to utilize Capital Appreciation Bonds (CABs). CABs are bonds that may defer principal and interest repayments in order to better accommodate debt service repayment requirements and available tax revenues. As such, they tend to require a higher rate of interest for repayment. This may increase the overall cost of borrowing; however, the overall program has benefited from lower than expected interest rates and it is estimated based on current market conditions that the total repayment ratio for all Measure “D” bonds will be lower than the overall repayment ratio estimated to voters at the time of the election. It is estimated that the balance of the Measure “D” authorization will be issued over two future tranches currently scheduled for 2024 and 2029, subject to Board review and approval. The estimated amounts of \$12.1 million for the 2026 Series D issuance and \$27.1 million for the 2029 Series E issuance assume 4 percent average annual District assessed value growth moving forward. In addition, the average interest rate is assumed to be 4 percent, which is higher than the most recent 2020 Series C issuance. Bond terms are assumed to be 25 years and will likely utilize CABs. Actual bond proceeds from future issuances may differ from the estimates provided here and will depend on both District needs and market conditions at the time of sale. This analysis includes assessed values for 2023-24 as published by the County.

**Figure B4: Projected Tax Rates (per \$100,000 AV) on Existing and Future Measure “D” Bond Issuances**

**B.1.2.1 ADDITIONAL G.O. BOND SALES – 2022 ELECTION**

Proposition 39 authorizes school districts to issue new bonds upon a 55 percent affirmative vote by the local electorate in a regularly scheduled election. For an elementary school district, the maximum tax rate to be levied at the time bonds are sold must not exceed \$30 per \$100,000 of assessed value. In addition, districts must agree to be subject to certain conditions, including the establishment of a project list, an independent citizens’ oversight committee, and annual performance and financial audits. The District has a history of conducting Proposition 39 elections and issuing bonds consistent with these requirements.

In November 2022, voters in the District approved and authorized a new general obligation bond program which was structured to meet the above requirements and mitigate the delay or future lack of State aid funding of proposed projects. Assuming that the District’s assessed valuation continues to grow at an annual average of 4.0 percent and that the District implements the maximum tax rate of \$30 per \$100,000 of assessed value allowed by Proposition 39 over a 30-year term for each bond sale, the District could generate approximately \$215 million in bond proceeds over a projected 8-year period based on current market conditions.

In March 2023, the District issued the first series of bonds from the 2022 Election authorization in the amount of approximately \$76.5 million. The size and timing of the remaining bond sales depend on the needs of the overall program and can be structured to allow projected assessed valuation growth between bond issuances so that required tax rates for bond repayments stay within the estimated Proposition 39 rate of \$30 per \$100,000 of assessed valuation. The issuance of additional bonds required authorization from the State Board of Education for a waiver to increase its bonding capacity which the District has been successfully granted in the past. The application for this waiver was submitted to the State Board of Education and was approved at its May 2023 meeting.

### **Approval of 2024-25 Education Protection Account (EPA) Spending Plan (Mitchell/Núñez)**

---

Proposition 30, The Schools and Local Public Safety Protection Act of 2012, approved by the voters on November 6, 2012, temporarily increases the state sales tax rate for all taxpayers and the personal income tax rates for upper income taxpayers.

The revenues generated from Proposition 30 are deposited into a state account Proposition 30, approved by voters on November 6, 2012, temporarily increases the state sales tax rate for all taxpayers and the personal income tax rates for upper-income taxpayers. Revenues from Proposition 30 are deposited into the Education Protection Account (EPA).

School districts, county offices of education, and charter schools receive funds from the EPA based on their proportionate share of the statewide revenue limit amount, with a corresponding reduction in their revenue limit or general purpose state aid.

LEAs have received EPA payments quarterly since the 2013-14 fiscal year. The use of EPA funds must be determined by the governing board at an open public meeting and can only be spent on instructional functions.

It is estimated that the Oxnard School District will receive \$44,171,651 in EPA funding for the 2024-25 fiscal year. The Assistant Superintendent, Business and Fiscal Services, and the Director of Fiscal Services recommend using the funds as outlined in the attachment.

### **Approval of Resolution No. 23-26 Making Environmental Findings in Connection with the Preschool, Transitional Kindergarten, and Kindergarten Classrooms Project at Marina West Elementary School (Mitchell/Miller/CFW)**

---

The Oxnard School District (District) is proceeding with the construction of 10 new classrooms to serve as Preschool, Transitional Kindergarten, and Kindergarten classes on the existing site of the Marina West Elementary School located at 2501 Carob Street, Oxnard.

Tetra Tech has prepared a California Environmental Quality Act (CEQA) analysis report for the project indicating that the project is eligible for a Class 14 Categorical Exemption, under CEQA Section 15314. A Class 14 Categorical Exemption consists of minor additions to existing schools within existing school grounds where the addition does not increase original student capacity by more than 25% or ten classrooms, whichever is less. The addition of portable classrooms is included in this exemption.

The State CEQA Guidelines Section 15300.2 provides conditions under which categorical exemptions are inapplicable. The CEQA report reviewed the project and indicated that the project will not violate any of the conditions. The purpose of this resolution is to confirm the findings that the project qualifies for a Categorical Exemption from CEQA. Upon Board approval, a Notice of Exemption will be subsequently filed with the County of Ventura.

**Subject:** California Environmental Quality Act (CEQA) Categorical Exemption for the Construction of Preschool, Transitional Kindergarten, and Kindergarten Classrooms Marina West School Project.

Dear Dr. DeGenna:

Please find as follows our findings that the proposed New Preschool, Transitional Kindergarten, and Kindergarten Classrooms at Marina West Elementary School, located at the existing Marina West Elementary School campus (at 2501 Carob St, Oxnard, California 93035), is exempt from further environmental review based on a Class 14 exemption under the California Environmental Quality Act (CEQA). In addition, attached is a completed Notice of Exemption form to be filed with the Ventura County Clerk and Recorder's office.

**Table 1 Project Summary**

<b>Project Title:</b>	New Preschool, Transitional Kindergarten, and Kindergarten Classrooms at Marina West Elementary School

### **Project Location and Environmental Setting:**

The project Site is located at 2501 Carob St, Oxnard, California 93035 (see Figure 1, Local Vicinity Map). The project site is currently used as a public elementary school. Marina West Elementary School consists of 8 portable classrooms. Vehicular access to the school is provided from the South via Carob Street.

The approximately 11.62-acre site includes assessor parcel number (APN) 183028027.<sup>1</sup> The project site is surrounded on three sides by single family residential (R1) neighborhood. Directly Northeast of the project are multi-family residential developments (R3). The project site is located within the City of Oxnard General Plan and has a General Plan Land Use Designation of School, and Zoning designation of CR, Community Reserve.<sup>2</sup>

### **Project Description:**

Under the California Preschool, Transitional Kindergarten and Full-Day Kindergarten Facilities Grant Program, the District received a State Allocation Board (SAB) grant apportionment of approximately \$8.2 million on September 27, 2023, for the replacement of 8 portable classrooms with 10 new modular classrooms to be located at the Marina West Elementary school site. The project includes four new preschool, four new transitional kindergarten, and two new kindergarten classrooms. The ten new classrooms are proposed to expand and complete existing preschool and kindergarten facilities at Marina West Elementary School, pursuant to the adopted State and Board specifications for these facilities.

The classrooms are proposed to be located on the southwest corner of the site at the location of the existing early childhood education facilities creating an early childhood development center (ECDC) on campus. The classrooms will be housed in a total of five buildings containing two classrooms each. All buildings are proposed to be constructed southwest of the existing administration and parking area. Existing circulation, pathways, and landscaped areas will be redesigned to accommodate the proposed project and use.

The classrooms will be 1,350 square feet each including storage, prep areas, and kindergarten restrooms. The classrooms will be of modular construction and inclusive of specification of the previously approved kindergarten facilities approved by the Board which allows for their intended use and adaptability in the future, if needed, for preschool, transitional kindergarten, or kindergarten facilities. Upon completion, this project will bring the total number of new State Title 5 compliant classrooms for preschool/transitional kindergarten/kindergarten at the Site to twelve (12) that also meet the additional Title 22 preschool licensing standards.

### **CEQA Exemption Recommendation: Categorical Exemption, CEQA Guidelines Section 15314 – Existing Facilities:**

CEQA Guidelines Section 15302, Replacement or Reconstruction, defines a Class 2 Exemption as a replacement or reconstruction of existing structures and facilities where the new structure will

<https://assessor.countyofventura.org/assessor-data/assessor-maps/>

be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced, including the replacement or reconstruction of existing schools and hospitals to provide earthquake resistant structures which do not increase capacity more than 50 percent.

**Reasons to support exemption findings:**

The Project consists of the replacement of a dilapidated eight (8) modular classroom facility with a modern ten (10) modular classrooms and associated site improvements including a kindergarten playground on the existing Marina West Elementary School Campus. The Project would remove the eight (8) existing portable classroom units to make room for the new classrooms and improve the condition of the campus. The proposed project replaces existing facilities and would not increase student capacity by more than 50%, as identified in Table 2. Therefore, the proposed project would qualify for Class 2 Exemption.

**Table 2: Comparison of Existing and Proposed Marina West ES Configuration**

	<b>Marina West ES Existing Configuration</b>	<b>Marina West ES Proposed Configuration</b>	<b>Percent Increase</b>
Permanent Classrooms	0	<b>10</b>	N/A
Portable Classrooms	9	0	-100%
Total Classrooms	9	10	11.1%

Portable Square Footage	9,800	0	-100%
Total Building Square Footage	9,800	13,500	37.7%
Total Site Area (Acres)	11.62	11.62	0%

**Exceptions:**

CEQA Guidelines Section 15300.2, Exceptions, details six exceptions to the exemptions. Each of the six exceptions are discussed below together with the reasons why they are not applicable to this project.

- a) **Location. Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located—a project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.**

The Construction of Preschool, Transitional Kindergarten, and Kindergarten Classrooms at Marina West Elementary School would occur on the existing campus. The proposed project qualifies for a Class 2 exemption and therefore this criterion is not applicable to this project.

- b) **Cumulative Impact. All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time is significant.**

Cumulative impacts are defined in the State CEQA Guidelines Section 15355 as two or more individual effects which, when considered together, are considerable or which compound or increase other environmental impacts. The cumulative impact from several projects is the change in the environment which results from the incremental impact of the project when added to other closely related past, present, and reasonably foreseeable probable future projects. Cumulative impacts can result from individually minor but collectively significant projects taking place over a period of time. Public primary schools are generally considered to be a public service to the surrounding community, and capacity fluctuations are a response to cumulative population pressure.

There are no permanent classrooms on the ECDC campus. The proposed project includes the replacement of an eight (8) portable classrooms facility with ten (10) new portable classrooms on the existing Marina West Elementary School campus. With implementation of the proposed project, the new classrooms would be the only additions to the school in the foreseeable future. There is no foreseeable need to increase student capacity or add additional classrooms beyond the proposed project. If there were to be a change that precipitated future development that would result in potential cumulative impacts, then potential cumulative impacts could be assessed at that time. Therefore, with implementation of the proposed project there would be less than the 50% capacity increase threshold allowed under a Class 2 Exemption. Therefore, no cumulative impacts are anticipated.

- c) **Significant Effect. A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.**

There is no evidence to indicate that the proposed project would have a significant effect on the environment due to unusual circumstances. The proposed project includes the

construction and operation of ten (10) new permanent classrooms on the existing Marina West Elementary School campus. The campus is located within a developed residential neighborhood and would continue to be used as a public school with implementation of the proposed project. Access to the Site is currently from South Union or Hanford Avenues, and no changes to site access are proposed. The proposed project would be implemented in compliance with all relevant regulations and District specifications, including construction best management practices. Therefore, no impacts due to unusual circumstances are anticipated.

- d) Scenic Highways. A categorical exemption shall not be used for a project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway. This does not apply to improvements which are required as mitigation by an adopted negative declaration or certified EIR.**

There are no officially designated State Scenic Highways located within close proximity to the project site based on a review of the California State Scenic Highway System Map.<sup>3</sup> Therefore, no adverse impacts to scenic resources within a designated state scenic highway would result.

- e) Hazardous Waste Sites. A categorical exemption shall not be used for a project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code.**

There is no evidence of RECs in connection with the Site, the surrounding school, or adjoining properties. No further environmental assessment of the Site appears to be warranted at this time. Therefore, no hazardous waste impacts are anticipated.

- f) Historical Resources. A categorical exemption shall not be used for a project which may cause a substantial adverse change in the significance of a historical resource.**

Marina West Elementary School is 44 years old. The campus was initially opened in 1980 and consists of 22 classrooms on an approximately 11.62-acre lot. There is no demolition of any permanent structures constructed before 1975 planned as part of the proposed project. Therefore, no adverse impacts to known historic resources are anticipated.

The Construction of Preschool, Transitional Kindergarten, and Kindergarten Classrooms at West Marina Elementary School Project T("project") described above is determined to be exempt from further environmental review requirements of CEQA of 1970, as defined in the State CEQA Guidelines for the implementation of CEQA.

### **Approval of Resolution No. 23-27 Making Environmental Findings in Connection with the Proposed Reconstruction of Fremont Middle School (Mitchell/Miller/CFW)**

---

The Oxnard School District (District) is proceeding with the reconstruction of Fremont Middle School on the existing site located at 1130 North M Street, Oxnard.

Tetra Tech has prepared a California Environmental Quality Act (CEQA) analysis report for the project indicating that the project is eligible for a Class 2 Categorical Exemption, under CEQA Section 15314. A Class 2 Categorical Exemption consists of a replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced, including the replacement or reconstruction of existing schools to provide earthquake resistant structures which do not increase capacity more than 50 percent.

The State CEQA Guidelines Section 15300.2 provides conditions under which categorical exemptions are inapplicable. The CEQA report reviewed the project and indicated that the project will not violate any of the conditions. The purpose of this resolution is to confirm the findings that the project qualifies for a Categorical Exemption from CEQA. Upon Board approval, a Notice of Exemption will be subsequently filed with the County of Ventura.

**Subject:** California Environmental Quality Act (CEQA) Categorical Exemption for the Fremont Middle School Reconstruction Project.

Dear Dr. DeGenna:

Please find as follows our findings that the proposed reconstruction of Fremont Middle School, located at 1130 North “M” Street, is exempt from further environmental review based on a Class 2 exemption under the California Environmental Quality Act (CEQA). In addition, attached is a completed Notice of Exemption form to be filed with the Ventura County Clerk and Recorder’s office.

### **Project Location and Environmental Setting:**

The project Site is located at 1130 M St, Oxnard, California 93030 (see Figure 1, Local Vicinity Map). The project site is currently used as a public middle school. Fremont Middle School consists of 42 classrooms, of which 8 are portable. Vehicular access to the school is provided from the West via “M” Street or North via Glenwood Dr.

The approximately 24.3-acre site includes assessor parcel number (APN) 200001107.<sup>1</sup> The project site is surrounded on three sides by residential neighborhood. Directly north and south of the project are single-family residential developments (R1). To the east and west are multifamily residential developments (R3, R4). The project site is located within the City of Oxnard General Plan and has a General Plan Land Use Designation of School, and Zoning designation of CR, Community Reserve.<sup>2</sup>

### **Project Description:**

The Fremont Academy of Environment Science and Innovative Design (Fremont) 6-8 school is located at 1130 North M Street on a 24.3-acre parcel bounded by North H and M Streets, Devonshire Drive and Glenwood Drive. The Project consists of a complete reconstruction/replacement of the Fremont campus with an entirely new set of facilities, built according to the current State code, District specifications, and 21<sup>st</sup> century educational program requirements. The project would rebuild a new middle school facility on the open space portion of the site along H Street, but away from Glenwood, maintaining the operation of the existing facility during construction of the replacement school and replacing it thereafter with improved open and recreational space for school and community use.

The reconstructed school would include multi-storied classrooms to accommodate up to 750 students. The proposed project would construct 33 classroom facilities, including 24 general purpose classrooms, an academy room, and 3 dedicated special education rooms, all of 960 square feet. In addition, 4 science labs and an art lab of 1200 square feet each, and a band/orchestra room of 1500 square feet would be constructed.

Teaching support spaces of 1,980 square feet, administrative space of 3,405 feet, and library facilities of 2,000 square feet would be provided per the adopted educational specifications for a 6-8 school. Multipurpose facilities of 14,250 square feet, a lunch shelter of 2,800 square feet as well as student and staff restrooms would be provided as required by code. Parking and student pick up/drop off areas would be provided off North H Street which would become the entrance to the new facility leaving room for school and community use of the reconfigured paly fields. An allowance for offsite improvements is also provided. Construction is expected to begin in 2024 and finish in 2026.

**CEQA Exemption Recommendation: Categorical Exemption, CEQA Guidelines Section 15302 – Existing Facilities:**

CEQA Guidelines Section 15302, Replacement or Reconstruction, defines a Class 2 Exemption as a replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced, including the replacement or reconstruction of existing schools and hospitals to provide earthquake resistant structures which do not increase capacity more than 50 percent.

***Reasons to support exemption findings:***

The Project consists of the reconstruction of the existing school for an important upgrade of outdated and failing facilities. The Project would reconstruct and replace the existing school with more modern and safer facilities but would not increase enrollment capacity by more than 50%, as identified in Table 2. Therefore, the proposed project would qualify for Class 2 Exemption.

**Table 2: Comparison of Existing and Proposed Marina West ES Configuration**

	<b>Fremont MS Existing Configuration</b>	<b>Fremont MS Proposed Configuration</b>	<b>Percent Increase</b>
Permanent Classrooms	35	<b>28</b>	-20%
Portable Classrooms	11	0	-100%
Total Classrooms	46	28	-39.1%
Other Uses (Intervention, Music, Stem)	1 (comp tech lab)	5 Science Labs, Band room	+4
<b>Student Capacity</b>	750	750	<b>0%</b>

Portable Square Footage	10,780	0	-100%
Total Building Square Footage	69,775	58,815	-15.7%
Total Site Area (Acres)	24.3	24.3	0%

**Exceptions:**

CEQA Guidelines Section 15300.2, Exceptions, details six exceptions to the exemptions. Each of the six exceptions are discussed below together with the reasons why they are not applicable to this project.

- a) **Location. Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located—a project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.**

The Fremont Middle School reconstruction would occur on the existing campus. The proposed project qualifies for a Class 2 exemption and therefore this criterion is not applicable to this project.

- b) **Cumulative Impact. All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time is significant.**

Cumulative impacts are defined in the State CEQA Guidelines Section 15355 as two or more individual effects which, when considered together, are considerable or which compound or increase other environmental impacts. The cumulative impact from several projects is the change in the environment which results from the incremental impact of the project when added to other closely related past, present, and reasonably foreseeable probable future projects. Cumulative impacts can result from individually minor but collectively significant projects taking place over a period of time. Public intermediate schools are generally considered to be a public service to the surrounding community, and capacity fluctuations are a response to cumulative population pressure.

During the last 30+ years the campus has not added any permanent classrooms to the campus, nor upgraded the facilities. The proposed project includes the reconstruction and operation of the new middle school facilities on the existing Fremont Middle School campus. With implementation of the proposed project, any need for future classrooms expansion would be tied to the population pressures within the city. There is no foreseeable need to increase student capacity or add additional classrooms beyond the proposed project if population remains static. If there were to be a change that precipitated future development that would result in potential cumulative impacts, then potential cumulative impacts could be assessed at that time. Therefore, with implementation of the proposed project a total reconstruction of the campus would occur, increasing safety and modern facilities, under a Class 2 Exemption. Also the project would not increase capacity beyond the thresholds outlined in under a Class 2 Exemption. Therefore, no cumulative impacts are anticipated.

- c) **Significant Effect. A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.**

There is no evidence to indicate that the proposed project would have a significant effect on the environment due to unusual circumstances. The proposed project includes the reconstruction of the existing campus. The campus is located within a developed residential neighborhood and would continue to be used as a public school with implementation of the proposed project. The proposed project would be implemented in compliance with all relevant regulations and District specifications, including construction best management practices. Therefore, no impacts due to unusual circumstances are anticipated.

- d) Scenic Highways. A categorical exemption shall not be used for a project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway. This does not apply to improvements which are required as mitigation by an adopted negative declaration or certified EIR.**

The proposed project includes the Reconstruction of the Fremont Middle School campus. There are no officially designated State Scenic Highways located within close proximity to the project site based on a review of the California State Scenic Highway System Map.<sup>3</sup> Therefore, no adverse impacts to scenic resources within a designated state scenic highway would result.

- e) Hazardous Waste Sites. A categorical exemption shall not be used for a project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code.**

There is currently no evidence of RECs in connection with the Site, the surrounding school, or adjoining properties. No further environmental assessment of the Site appears to be warranted at this time. Therefore, no hazardous waste impacts are anticipated.

- f) Historical Resources. A categorical exemption shall not be used for a project which may cause a substantial adverse change in the significance of a historical resource.**

Fremont Middle School is 62 years old. The campus was initially opened in 1961 but has undergone an evolution that included the use of portables to bring it to its now 40 classrooms size. There will be no demolition of permanent structures constructed before 1961 planned as part of the proposed reconstruction. All demolition is to be carried out under a different project. The school buildings are not themselves considered a historic resource, and the site will remain a middle school. Therefore, no adverse impacts to known historic resources are anticipated.

The Fremont Middle School Reconstruction Project (“project”) described above is determined to be exempt from further environmental review requirements of CEQA of 1970, as defined in the State CEQA Guidelines for the implementation of CEQA.

### **Approval of Resolution No. 23-28 Making Environmental Findings in Connection with the ECDC Project at Rose Avenue Elementary School (Mitchell/Miller/CFW)**

---

The Oxnard School District (District) is proceeding with the construction of three new classrooms and modernization of three existing classrooms to serve as an Early Childhood Development Center (ECDC) on the existing site of the Rose Avenue Elementary School located at 220 South Driskill Street, Oxnard.

Tetra Tech has prepared a California Environmental Quality Act (CEQA) analysis report for the project indicating that the project is eligible for a Class 2 and 14 Categorical Exemption, under CEQA Section 15314. A Class 2 Categorical Exemption consists of a replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced, including the replacement or reconstruction of existing schools to provide earthquake resistant structures which do not increase capacity more than 50 percent. A Class 14 Categorical Exemption consists of minor additions to existing schools within existing school grounds where the addition does not increase original student capacity by more than 25% or ten classrooms, whichever is less. The addition of portable classrooms is included in this exemption.

The State CEQA Guidelines Section 15300.2 provides conditions under which categorical exemptions are inapplicable. The CEQA report reviewed the project and indicated that the project will not violate any of the conditions. The purpose of this resolution is to confirm the findings that the project qualifies for a Categorical Exemption from CEQA. Upon Board approval, a Notice of Exemption will be subsequently filed with the County of Ventura.

### **Project Location and Environmental Setting:**

The project Site is located at 220 S Driskill St, Oxnard, CA 93030 (see Figure 1, Local Vicinity Map). The project site is currently used as a public elementary school. Vehicular access to the school is provided from the South via Carob Street. The approximately 10-acre site includes assessor parcel number (APN) 183028027.<sup>1</sup> The project site is surrounded on three sides by single family residential (R1) neighborhood. Directly Northeast of the project are limited manufacturing developments (LMR). The project site is located within the City of Oxnard General Plan and has a General Plan Land Use Designation of School, and Zoning designation of CR, Community Reserve.<sup>2</sup>

### **Project Description:**

Pursuant to the adopted Enhanced Master Construct Plan, a separate new Early Childhood Development Center (ECDC) is to be constructed at the existing Rose Avenue elementary school site. The ECDC would be located at the northwest corner of the site where the three current kindergarten classrooms (Rooms 501, 502, and 503) are located. The existing kindergarten facilities will be repurposed and modernized and incorporated with new Title 5/Title 22 classrooms to establish the new ECDC facility. The new Title 5 compliant classrooms will be capable for use as TK, K, or preschool facilities. The existing play area will be relocated and improved as required to serve the needs of these students. Students attending the ECDC would matriculate up to grade levels at their school of residence, where possible. The ECDC is proposed to be located at the northwest corner of the site where the three existing kindergarten classrooms (Rooms 501, 502, and 503) are located. These facilities will be modernized and incorporated into the new ECDC facility with three additional Title 5/22 compliant modular classrooms. The new classrooms will be inclusive of specification for kindergarten facilities which allows for their intended use and adaptability in the future, if needed, for preschool, TK, or K facilities.

The classrooms will be 1,350 square feet each including storage, prep areas, and kindergarten restrooms. The classrooms will be of modular construction and inclusive of specification of the previously approved kindergarten facilities approved by the Board which allows for their intended use and adaptability in the future, if needed, for preschool, transitional kindergarten, or kindergarten facilities. Upon completion, this project will bring the total number of new State Title 5 compliant classrooms for preschool/transitional kindergarten/kindergarten at the Site to eleven (11) that also meet the additional Title 22 preschool licensing standards.

### **CEQA Exemption Recommendation: Categorical Exemption, CEQA Guidelines Sections 15302 / 15314 – Existing Facilities:**

same purpose and capacity as the structure replaced, including replacement or reconstruction of existing schools which do not increase capacity more than 50 percent.

CEQA Guidelines Section 15314, Minor Additions to Schools, defines a Class 14 Exemption to include minor additions to existing schools within existing school grounds where the addition does not increase original student capacity by more than 25%, or ten classrooms, whichever is less.

**Reasons to support exemption findings:**

The Project consists of the replacement and construction of portable classrooms and associated site improvements including a kindergarten playground on the existing Rose Avenue Elementary School Campus. The Project would remove existing portable classroom units to make room for the new classrooms. The proposed project replaces existing facilities and would not increase student capacity nor would it add more than ten (10) classrooms as identified in Table 2. Therefore, the proposed project would qualify for Class 2 and 14 Exemptions.

**Table 2: Comparison of Existing and Proposed Rose Avenue ES Configuration**

	<b>Rose Avenue ES Existing Configuration</b>	<b>Rose Avenue ES Proposed Configuration</b>	<b>Percent Increase</b>
Permanent Classrooms	22	6	-72.7%

Total Building Square Footage	27,440	6,930	-74.5%
Total Site Area (Acres)	9.3	9.3	0%

**Exceptions:**

CEQA Guidelines Section 15300.2, Exceptions, details six exceptions to the exemptions. Each of the six exceptions are discussed below together with the reasons why they are not applicable to this project.

- a) **Location. Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located—a project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.**

The Construction EDC Facilities at Rose Avenue Elementary School would occur on the existing campus. The proposed project qualifies for Class 2 and 14 exemptions and therefore this criterion is not applicable to this project.

- b) **Cumulative Impact. All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time is significant.**

Cumulative impacts are defined in the State CEQA Guidelines Section 15355 as two or more individual effects which, when considered together, are considerable or which compound or increase other environmental impacts. The cumulative impact from several projects is the change in the environment which results from the incremental impact of the project when added to other closely related past, present, and reasonably foreseeable probable future projects. Cumulative impacts can result from individually minor but collectively significant projects taking place over a period of time. Public primary schools are generally considered to be a public service to the surrounding community, and capacity fluctuations are a response to cumulative population pressure.

During the last 24 years (2001-2024), the campus has not added any permanent classrooms to the campus. The proposed project includes the construction and operation of three (3) new classrooms on the existing Rose Avenue Elementary School campus, and the removal of 25 classrooms for a net reduction of 22 classrooms. With implementation of the proposed project, the new classrooms would be the only classrooms added to the school in the foreseeable future. There is no foreseeable need to increase student capacity or add additional classrooms beyond the proposed project. If there were to be a change that precipitated future development that would result in potential cumulative impacts, then potential cumulative impacts could be assessed at that time. Therefore, with implementation of the proposed project a reduction of classrooms would occur, which is allowed under a Class 2 and 14 exemptions. Therefore, no cumulative impacts are anticipated.

- c) **Significant Effect. A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.**

There is no evidence to indicate that the proposed project would have a significant effect on the environment due to unusual circumstances. The proposed project includes the construction and operation of three (3) new classrooms on the existing Rose Avenue Elementary School campus. The campus is located within a developed residential neighborhood and would continue to be used as a public school with implementation of the proposed project. Access to the Site is currently from S. Driskill Street, and no changes to site access are proposed. The proposed project would be implemented in compliance with all relevant regulations and District specifications, including construction best management practices. Therefore, no impacts due to unusual circumstances are anticipated.

- d) Scenic Highways. A categorical exemption shall not be used for a project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway. This does not apply to improvements which are required as mitigation by an adopted negative declaration or certified EIR.**

The proposed project includes the modernization of three (3) existing preschool classrooms and the construction and operation of three (3) new permanent classrooms on the existing Rose Ave Elementary School campus. There are no officially designated State Scenic Highways located within close proximity to the project site based on a review of the California State Scenic Highway System Map.<sup>3</sup> Therefore, no adverse impacts to scenic resources within a designated state scenic highway would result.

- e) Hazardous Waste Sites. A categorical exemption shall not be used for a project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code.**

There is no evidence of RECs in connection with the Site, the surrounding school, or adjoining properties. No further environmental assessment of the Site appears to be warranted at this time. Therefore, no hazardous waste impacts are anticipated.

- f) Historical Resources. A categorical exemption shall not be used for a project which may cause a substantial adverse change in the significance of a historical resource.**

Rose Ave Elementary School is 44 years old. The campus was initially opened in 1980 and consists of 9 classrooms on an approximately 9.3-acre lot. There is no demolition of any permanent structures constructed before 1975 planned as part of the proposed project. Therefore, no adverse impacts to known historic resources are anticipated.

The ECDC Facilities es at Rose Ave Elementary School Project (“project”) described above is determined to be exempt from further environmental review requirements of CEQA of 1970, as defined in the State CEQA Guidelines for the implementation of CEQA.

Whereas, District desires to engage VCBH to provide educational support services as described in Exhibit A – Description of Services, which is attached hereto and incorporated herein by this reference (“Services”); and

Whereas, VCBH has the necessary qualifications by reason of training, experience, preparation, and organization and is agreeable to performing and providing such Services, on the terms and conditions set forth below in this MOA.

THEREFORE, the parties agree as follows:

1. **SCOPE OF SERVICES.** VCBH agrees to provide the Services set forth in Exhibit “A” at school sites and district locations mutually agreed to by the parties during the term of this MOA.
2. **NATURE OF RELATIONSHIP.** The parties agree the relationship created by this MOA is that of an independent contractor. In performing the Services, VCBH shall at all times act and perform as an independent contractor of District, and not as a partner, joint venturer, agent or employee of District, and nothing in this MOA shall be construed to be inconsistent with this relationship or status. Neither party is granted any right or authority to assume or to create any obligation or responsibility, express or implied, on behalf of or in the name of the other party or to bind the other party in any manner. Except as agreed otherwise in this MOA, VCBH shall have complete control over the manner and method of performing the Services.

VCBH understands and agrees to independent contractor status. VCBH understands and agrees that acceptance of this MOA creates a rebuttable presumption that the officers, agents, employees, or subcontractors of VCBH are not entitled to coverage under the California workers’ compensation insurance laws, unemployment insurance, health insurance, pension plans or any other benefits normally offered or conveyed to District employees. VCBH will be responsible for payment of all VCBH employee wages, payroll taxes, employee benefits, and any amounts due for federal and state income taxes and Social Security taxes. 4. **TIME OF PERFORMANCE.** The term of this MOA shall commence on **July 1, 2024** and continue through **June 30, 2027**. Thereafter, the term of the MOA may be renewed for two additional periods of one year each, upon execution of an amendment signed by both parties.
5. **PAYMENT AND EXPENSES.** The VCBH Services are provided without payment from the District.
6. **ASSIGNMENT AND SUBCONTRACTORS.** Neither party shall assign or transfer this MOA or any rights or interest hereunder without the prior written consent of the other party, which may be withheld in that party's sole and absolute discretion for any reason. Nothing contained herein shall prevent VCBH from employing independent associates, subcontractors, and sub-consultants as VCBH may deem appropriate to assist in the performance of the Services. Any attempted assignment or transfer in violation of this MOA shall be null and void and of no force and effect.
7. **TERMINATION.** Either party may terminate this MOA at any time for any reason by giving the other party thirty (30) days advance written notice.

The provisions of this section 14(a) do not apply to any damage, or losses caused solely by the negligence of District or its officers, directors, agents, employees, volunteers and/or students.
- b. District agrees to defend, indemnify and hold harmless VCBH, its officers, directors, agents, employees and/or volunteers from any and all third-party claims, demands, losses, damages and expenses, including legal fees and costs, or other obligations or claims arising out of any liability or damage to person or property, or any other loss, sustained or claimed to have been sustained arising out of activities of District or its officers, directors, agents, employees and/or volunteers whether or not such act or omission is authorized by this MOA. This Agreement may be extended for two additional one (1)-year terms only by a written amendment, signed by the Parties, prior to the expiration of the Term.

**3. Performance of the Services; Time for Performance.** Service Provider shall provide the services set forth in Service Provider’s proposal (as accepted by District and attached to the Contract), Exhibit A-0 (as applicable to Service Provider as a Lead Agency or Enrichment Agency as indicated in the preamble above), Exhibit A-1, and Exhibit A-3 during the Term pursuant to the schedule specified Exhibit A-0 (the “Primary Services”). Service Provider may also agree to provide additional services, at District’s request and only with District’s prior written authorization (the “Additional Services”). Any such Additional Services shall be completed in accordance with Exhibit A-2 during the Term pursuant to the schedule specified in Exhibit A-0. For purposes of this Agreement, the Primary Services and Additional Services shall collectively be referred to as the “Services.” If Service Provider fails to complete the Services pursuant to the schedule specified in Exhibit A-0 or such other schedule that the Parties memorialize in a writing signed by duly authorized representatives of each Party, then Service Provider shall be deemed to be in Default

as provided below. Notwithstanding anything to the contrary in this Agreement or the Contract, Service Provider expressly understands and agrees that this Agreement and the Contract are subject to the Grant and that if the Grant is reduced or revoked, then the District shall have the right to terminate this Agreement and the Contract with no further liability to Service Provider.

#### **4. Compensation and Method of Payment.**

a. Subject to any limitations set forth below or elsewhere in this Agreement, District agrees to pay Service Provider the amounts specified below for the Services.

i. The total compensation for the Primary Services, including reimbursement for actual expenses, through reimbursement for supplemental ELOP Program, ASES Program, and/or 21<sup>st</sup> CCLC Program funded grant activities and/or universal grant monies as outlined in Exhibit A-0 shall not exceed the following amount:

**Four Million Four Hundred Twenty Thousand Dollars and Zero Cents (\$4,420,000.00)**

ii. The total compensation for the Additional Services, including reimbursement for actual expenses, through reimbursement for supplemental ELOP Program, ASES Program, and/or 21<sup>st</sup> CCLC Program funded grant activities and/or universal grant monies as outlined in Exhibit A-0 shall not exceed the following amount:

**One Hundred Seventy Thousand Dollars and Zero Cents (\$170,000.00)**

Notwithstanding the generality of the foregoing, if Service Provider renders any Additional Services without District's prior written authorization, District shall not be obligated to pay for such services.

iii. Unless the District Superintendent or designee provides advance written authorization of a higher amount, the hourly rate for any subcontractor of Service Provider shall not exceed the following amount:

**Fifty Dollars and Zero Cents (\$50.00) per hour**

iv. If the amount of the Grant is modified in a manner that will affect Service Provider's provision of the Services, in District's sole discretion, then the Parties agree to amend the costs accordingly through written amendment.

b. Each month by the 20th, Service Provider shall furnish to District an original invoice for all work performed and expenses incurred during the preceding month. The invoice shall detail charges by the following categories: labor (by sub-category), travel, materials, equipment, supplies, and subcontracts. Subcontractor charges, if any, shall be detailed by the following categories: labor, travel, materials, equipment, and supplies. All invoices must comply with the requirements set forth in Exhibit B. District shall independently review each invoice submitted by the Service Provider to determine whether the work performed and expenses incurred comply with the provisions of this Agreement, inclusive of Exhibit B. In the event that no charges or expenses are disputed, the invoice shall be approved and paid according to the terms set forth

in subsection c. In the event any charges or expenses are disputed by District, then District shall return the original invoice to Service Provider for correction and resubmission.

c. Except as to any charges for work performed or expenses incurred by Service Provider which are disputed by District, District will use its best efforts to cause Service Provider to be paid within forty-five (45) calendar days of receipt of Service Provider's correct and undisputed invoice.

d. Payment to Service Provider for work performed pursuant to this Agreement shall not be deemed to waive any defects in work performed by Service Provider.

**5. Quarterly Review and Adjustment of Scope of Work.** District may, in its sole and absolute discretion, (a) conduct a quarterly performance review of the Services, including, but not limited to, enrollment numbers, alignment with District goals and priorities, compliance with assurances, and other reasonable evaluation indicators, and (b) based on such assessment, require Service Provider to adjust and/or decrease the frequency of its services by a specified amount within thirty (30) calendar days or another timeframe established by District in its sole discretion, in which event District will simultaneously reduce Service Provider's compensation *pro rata* with no liability to Service Provider for such reduction.

**6. Termination.** This Agreement may be terminated as follows.

a. **Mutual Agreement.** The Parties may, at any time, mutually agree in writing to terminate this Agreement.

b. **Termination by Service Provider for Cause.** Service Provider may, upon thirty (30) calendar days written notice to District, (i) terminate this Agreement or suspend work under this Agreement for a reasonable period of time, and (ii) recover from District payment for all work executed if: (A) Service Provider's work under this Agreement is stopped for a period of six (6) months or more pursuant to an order of any court of competent jurisdiction or any public authority (but not for a school closure event as set forth in paragraph 7 of this Agreement), and through no act or fault of Service Provider or of anyone employed by Service Provider or acting on Service Provider's behalf, (B) District fails to pay Service Provider within sixty (60) calendar days after its maturity and presentation any sum awarded by final arbitration or a court of competent jurisdiction, or (C) Service Provider delivers District written notice of any alleged material breach of this Agreement by District and District fails to cure such alleged breach within sixty (60) calendar days, provided, however, that the timeline for cure shall be extended for an additional period if District is diligently pursuing such cure in good faith and an additional time period for the cure is reasonably warranted.

c. **Termination by District for Non-Appropriation of Funds.** District shall have the right to terminate this Agreement at any time due to non-appropriation of funds.

d. **Termination by District for Convenience.** District shall have the right to terminate this Agreement for convenience by giving Service Provider at least ninety (90) calendar days written notice.

e. **Termination by District for Cause.** District may terminate this Agreement for cause upon thirty (30) calendar days' written notice to Service Provider. For the purposes of this subparagraph, "cause" shall include, but not be limited to, (i) Service Provider filing for bankruptcy, being adjudged bankrupt, or being subject to involuntary bankruptcy proceedings; (ii) Service Provider making a general assignment for the benefit of Service Provider's creditors; (iii) the appointment of a receiver due to Service Provider's insolvency; (iv) the levy of an attachment of execution upon Service Provider's property; (v) the persistent or repeated failure or refusal of Service Provider to properly staff the after-school programs or otherwise violate any provisions of Exhibits A-0 to A-3; (vi) the material violation of any applicable law or District regulation or policy; (vii) any act or omission by any Service Provider or its subcontractor personnel that constitutes gross negligence or willful misconduct, endangers or is likely to endanger the safety, health, or wellbeing of any District student or staff, or represents a repeated default by Service Provider personnel (*e.g.*, repeated late arrivals to school sites or repeated violations of the Standards for Performance); and (viii) any other material breach of the Contract by Service Provider, Service Provider's employees, Service Provider's subcontractors or anyone acting on Service Provider's behalf, including, but not limited to, the breach of any covenant, representation or warranty in this Agreement, and the violation of any provision of the RFP (including continuing disclosure obligations). Any failure on the part of District to give notice of the Service Provider's default shall not be deemed to result in a waiver of District's legal rights or any rights arising out of any provision of this Agreement. District may, but is not obligated to, provide Service Provider an opportunity to cure any default. Notwithstanding the thirty (30) calendar days' advance written notice specified herein, District reserves the right to *immediately* suspend the Services of Service Provider if the circumstances reasonably warrant (*e.g.*, due to imminent safety and health issues). Moreover, Service Provider shall be liable to District for any excess cost occasioned to District by termination for cause. The foregoing provisions for termination of this Agreement are in addition to, and not in limitation of, the rights of District under any other provisions of the Contract. Service Provider shall not be deemed to be in default if its failure to perform any Services or comply with any provisions of this Agreement results solely from the gross negligence or willful misconduct of District.

f. **Effect of Termination or Expiration of Agreement.** Upon termination or expiration of the Term, this Agreement, and the entire Contract, shall terminate; Service Provider shall cease providing the Services; Service Provider shall vacate the District premises, leaving them in a neat and orderly condition; and Service Provider and District shall comply with any remaining obligations under the Contract, as applicable (*e.g.*, payment of any sums still due and owing,). Service Provider acknowledges and agrees that certain obligations shall survive the termination or expiration of the Contract, including, but not limited to, Service Provider's indemnity obligations, confidentiality obligations, and obligations regarding delivery and maintenance of reports and records.

7. **School Closures.** If District, or any one or more schools within District, are closed due to any lawful reason including in response to governmental orders or advisories, or to protect the health, safety and welfare of students and employees, or by reason of any emergency (including, but not limited to, a wildfire, mudslide, or earthquake), and District notifies Service Provider that it does not need to provide the Services or any portion of the Services, then District shall not be

charged or required to pay for the Services, staffing, overhead, or any other related costs for the closed school site(s) during the applicable closure period. Additionally, if any school site is required to rely on remote learning in lieu of or in addition to student attendance at the time of commencement of classes or any time during the school year, then District shall have the right to notify Service Provider of the revised service needs, and the Service Provider shall, to the maximum extent reasonably practicable, provide the Services via remote learning or via a hybrid of in-person and remote learning, in which event District shall not be charged or required to pay for any additional costs of the remote or hybrid learning and, if the Services are reduced, then District shall only be billed for the Services provided and adjusted actual costs for reduced services received. District shall also furnish Service Provider written notice of school reopening plans, including phases and any interruptions in reopening schedules, and Service Provider agrees to furnish the Services as needed by District with cost reductions as reasonably warranted. Service Provider agrees to cooperate with District in cost reduction and utilization changes, including, but not limited to, working with Service Provider on partial, phased, or full reopening plans to provide such services as District shall need under those plans. Notwithstanding the generality of the foregoing clauses within this section, District may, in its sole and absolute discretion, elect to continue to pay for the Services despite the closure of one or more school sites if, for example, District receives emergency funds from the State or other sources for such purposes.

**8. Service Provider's Representations and Warranties.** In addition to any other representations and warranties set forth elsewhere in the Contract, Service Provider hereby represents and warrants to District that:

a. Service Provider is currently authorized and qualified to conduct business in the State and the County, and Service Provider will remain in good standing in the State, the County and, as applicable, the Internal Revenue Service, Franchise Tax Board, and Attorney General, for the entire term of the Contract.

b. Service Provider has carefully examined the Contract; is familiar with the Services; and has the expertise, personnel, and resources to timely and properly conduct the Services.

c. Service Provider has the right, power, and authority to enter into the Contract, including this Agreement and all contract documents, and to perform its obligations hereunder and under the Contract.

d. This Agreement constitutes the legal, valid, and binding obligation of Service Provider enforceable against Service Provider in accordance with its terms, except to the extent that such enforcement may be limited by applicable bankruptcy, insolvency, moratorium, and other principles relating to or limiting the rights of contracting parties generally. This Agreement does not violate any provision of any material agreement or document to which Service Provider is a party or by which Service Provider is bound.

e. There are no lawsuits, claims, suits, proceedings, or investigations pending or, to Service Provider's knowledge, threatened against Service Provider arising out of or concerning Contractor's performance under this Agreement. There are no suits, actions, or proceedings

pending, or to Service Provider's knowledge, threatened against Service Provider which question the legality or propriety of the transactions contemplated hereunder.

All representations and warranties of Service Provider are made as of the Effective Date and shall survive the term of the Contract for a period of three (3) years. Service Provider shall be in material default if Service Provider is unable to make the representations and warranties hereunder as of the Effective Date.

**9. Ownership of Documents; Use of Documents by District.** All curriculum, models, designs, drawings, photographs, studies, surveys, reports, data, notes, computer files, files, fliers, and other documents prepared, developed or discovered by Service Provider in the course of providing any of the Services pursuant to this Agreement (collectively and individually, the "Documents") shall become the sole property of District and may be used, reused or otherwise disposed of by District without the permission of the Service Provider. Upon completion, expiration or termination of this Agreement, Service Provider shall turn over to District all such Documents. If and to the extent that District utilizes for any purpose not related to this Agreement any Documents, Service Provider's guarantees and warrants related to Standards of Performance as set forth in paragraph 13 of this Agreement shall not extend to such use of the Documents.

**10. Service Provider's Books and Records.**

a. For purposes of this Agreement, the term "Records" means any and all books and records relating to Service Provider's performance of Services at each and every school site within the District, including, but not limited to, all:

i. student outreach materials (such as flyers and other promotional materials); student enrollment records; daily student attendance records; daily sign in and sign out sheets; early release policy, early release requests, and other early release records; physician notes for student absences, activity restrictions, *etc.*;

ii. employee records for Service Provider personnel working in the Program, including proof of TB clearance, first aid and CPR certification, and satisfaction of all training requirements, evidence that the staff person meets the minimum qualification for providing services to District (*e.g.*, proof of meeting qualifications as a paraeducator as defined by District), hiring date and (if applicable) termination date, job description, school site assignment, dates of service at District school sites, payroll records, and employment files (including disciplinary records);

iii. food service reimbursable snack logs and Q meal summary electronic reports for nutrition provided to students attending the programs;

iv. ledgers, books of account, invoices, vouchers, canceled checks, and other records evidencing or relating to work, services, expenditures, and disbursements charged to District under this Agreement (which Service Provider shall maintain in accordance with generally accepted accounting principles and with sufficient detail to permit an accurate evaluation of the Services provided by Service Provider pursuant to this Agreement); and

v. evidence of any grants, matching funds, in-kind donations, or other financial contributions to the Program that were provided through or on account of Service Provider.

b. District's fiscal year is July 1 to June 30. By July 15 of each year, Service Provider shall deliver to District true and correct copies of all Records for the prior fiscal year (e.g., by July 15, 2025, provide copies of all Records for July 1, 2024 to June 30, 2025). Service Provider shall upload true and correct electronic copies of the Records to a secure portal as directed by District.

c. Service Provider shall maintain any and all Records for a minimum of five (5) years after termination or expiration of this Agreement, or longer if required by law.

d. Any and all such Records shall be made available for inspection, audit and copying, at any time during regular business hours, upon request by District or its designated representative. Copies of such Records shall be provided directly to District for inspection, audit and copying when it is practical to do so; otherwise, unless an alternative is mutually agreed upon, such Records shall be made available at Service Provider's address indicated for receipt of notices in this Agreement or via electronic delivery.

e. District has the right to acquire custody of such Records by written request if Service Provider decides to dissolve or terminate its business. Service Provider shall deliver or cause to be delivered all such Records to District within sixty (60) workdays of receipt of the request.

**11. Independent Contractor.** Service Provider is and shall at all times remain a wholly independent contractor and not an officer, employee, or agent of District.

a. The personnel performing the Services under this Agreement on behalf of Service Provider shall at all times be under Service Provider's exclusive direction and control. Service Provider, its agents or employees shall not at any time or in any manner represent that Service Provider or any of Service Provider's officers, employees, or agents are in any manner officials, officers, employees, or agents of District. Neither Service Provider, nor any of Service Provider's officers, employees, or agents, shall, by virtue of Services rendered under this Agreement, obtain any rights to retirement, health care or any other benefits which may otherwise accrue to District's employees. Service Provider will be responsible for payment of all Service Provider's employees' wages, payroll taxes, employee benefits, workers' compensation, and any amounts due for federal and state income taxes and social security taxes since these taxes will not be withheld from payment under this Agreement.

b. Service Provider shall have no authority to bind District in any manner, or to incur any obligation, debt, or liability of any kind on behalf of or against District, whether by contract or otherwise, unless such authority is expressly conferred in writing by District, or under this Agreement.

**12. Penal Code sections 667.5 and 1192.7.** If Service Provider becomes aware that any person employed by or volunteering with Service Provider in connection with the Services has been

arrested or convicted of a violent or serious felony listed in Penal Code Section 667.5(c) or 1192.7(c), then Service Provider must immediately remove said employee or volunteer from the performance of the Services, prevent the employee or volunteer from interacting with District students, and notify District. District retains the right to prohibit any such employee from participating in the program or having access to students or the program site.

**13. Standards of Performance.** Service Provider represents and warrants that it has the qualifications, experience, resources, and facilities necessary to properly perform the Services required under this Agreement in a thorough, competent, and professional manner. Service Provider shall at all times faithfully, competently and to the best of its ability, experience, and talent, perform all Services described herein. In meeting its obligations under this Agreement, Service Provider shall employ, at a minimum, generally accepted standards and practices utilized by persons engaged in providing services similar to those required of Service Provider under this Agreement.

**14. Confidential Information, Generally.** All information gained during performance of the Services and all Documents or other work product produced by Service Provider in performance of this Agreement shall be considered confidential, but only to the extent such information is not considered a public record for purposes of federal or state law. Service Provider shall not release or disclose any such information, Documents or work product to persons or entities other than District without prior written authorization from the Superintendent of District, except as may be required by law.

a. Service Provider shall promptly notify District if it is served with any summons, complaint, subpoena or other discovery request, court order or other request from any Party regarding this Agreement or the work performed hereunder.

b. District retains the right, but has no obligation, to represent Service Provider or be present at any deposition, hearing, or similar proceeding. Service Provider agrees to cooperate fully with District and to provide District with the opportunity to review any response to discovery requests provided by Service Provider; provided that this does not imply or mean the right by District to control, direct, or rewrite said response.

**15. Student Privacy Laws.**

a. In relation to the performance of the Services, Service Provider may receive or obtain access to confidential student data (“Confidential Student Data”) that is governed by privacy laws under federal or state law, including, but not limited to, the Health Insurance Portability and Accountability Act of 1996 (Pub. L. 104-191) (“HIPAA”); the Family Educational Rights and Privacy Act of 1974 (20 USC § 1232g and 34 CFR Part 99) (“FERPA”); the Protection of Pupil Rights Amendment (20 USC § 1232h) (“PPRA”); the Children’s Online Privacy Protection Act of 1998 (15 USC §§ 6501, *et seq.*) (“COPPA”); California Education Code Section 49073-49079.7; the Student Online Personal Information Privacy Act (Cal. Business and Prof. Code §§ 22584, *et seq.*) (“SOPIPA”); the Early Learning Personal Information Protection Act (Cal. Business and Prof. Code §§ 22586, *et seq.*) (“ELPIPA”) (collectively, the “Student Privacy Laws”). Service

Provider agrees to abide by the Student Privacy Laws in connection with all Confidential Student Data.

b. Service Provider shall strictly comply with the Student Privacy Laws. Without limiting the generality of the foregoing, Service Provider shall perform the following duties in regards to any Confidential Student Data that Service Provider obtains in the performance of the Contract: (i) not disclose the information to any other party without the consent of the parent/guardian or an eligible student; (ii) use the data for no other purpose than the performance of the services contemplated under the Contract; (iii) permit District access to any relevant records for the purpose of completing authorized audits; (iv) require all of Service Provider's officers, directors, administrators, employees, subcontractors, and agents to comply with all provisions of the Student Privacy Laws; (v) designate in writing a single authorized representative who shall be responsible for requesting, receiving, transmitting and, as permitted under the Contract and applicable law, destroying Confidential Student Data; (vi) maintain all Confidential Student Data in a secure computer and not copying, reproducing or transmitting data except as necessary to perform under the Contract; and (vii) destroy or return all personally identifiable information obtained under the Contract when it is no longer needed for the purpose for which it was obtained no later than thirty (30) calendar days after it is no longer required. Failure to properly destroy or return Confidential Student Data shall preclude Service Provider from accessing personally identifiable student information for at least five (5) years as provided in 34 C.F.R. Section 99.31(a)(6)(iv), which shall be grounds for District to terminate this Agreement for cause and seek any and all remedies available to District at law or in equity.

c. In the event that Service Provider operates a website, online service, mobile application or similar medium, Service Provider shall comply with the requirements of SOPIPA (Cal. Business and Prof. Code §§ 22584, *et seq.*) by (a) not knowingly engaging in advertising targeted to District students or their parents or guardians, creating profiles of students or their parents or guardians, selling information about students or their parents or guardians, or disclosing any personally identifiable information without proper prior consent; (b) storing, processing and protecting District data pursuant to commercial best practices, including encrypting data; (c) promptly deleting District data, including, but not limited to, student, parent and guardian data, upon District's request; and (d) not storing District data outside of the United States.

**16. Conflict of Interest; Disclosure of Interest.** Service Provider covenants that neither it, nor any of its officers or employees, has or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of District or which would in any way hinder Service Provider's performance of Services under this Agreement. Service Provider further covenants that in the performance of this Agreement, no person having any such interest shall be employed by it as an officer, employee, agent, or subcontractor without the express written consent of the District.

a. Service Provider agrees to at all times avoid conflicts of interest or the appearance of any conflicts of interest with the interests of District in the performance of this Agreement.

b. Board Bylaws Sections 9270 and 9270-E, as hereinafter amended or renumbered, require that a Service Provider that qualifies as a "designated employee" must disclose certain

financial interests by filing financial interest disclosures. By its initials below, Service Provider represents that it has received and reviewed a copy of the Board’s Bylaws Sections 9270 and 9270-E (available on the District’s website at <https://www.oxnardsd.org/domain/12>) and that it does not qualify as a “designated employee.”

c. Service Provider agrees to notify the Superintendent, in writing, if Service Provider believes that it is a “designated employee” and should be filing financial interest disclosures but has not been required to do so by the District.

**17. Compliance with Applicable Laws.** Service Provider hereby agrees that Service Provider, and its officers, owners, agents, employees, and subcontractors, shall keep themselves informed of and comply with all applicable federal, state, and local laws, statutes, codes, ordinances, regulations, and rules in the performance of the Contract, including, but not limited to, minimum wage laws and laws prohibiting discrimination. Service Provider shall be responsible for the safety of its employees and shall comply with all applicable regulations of the California Division of Occupational Safety and Health (Cal OSHA), including, but not limited to, California Code of Regulations Title 8, section 3203, Injury and Illness Prevention Program, and section 3205, COVID-19 Prevention. Service Provider shall ensure that workers in school settings who are on-site supporting school functions are compliant with applicable Public Health Department Orders and Guidance, and other mandates related to COVID-19, so long as such orders and guidance remain in effect. Service Provider and its officers, owners, agents, employees, and subcontractors shall secure and maintain in force for the Term, at their sole cost and expense and at no cost to District, any and all licenses, permits and authorizations necessary to perform the Services. Neither District, nor any elected or appointed boards, officers, officials, employees, or agents of District, shall be liable, at law or in equity, as a result of any failure of Service Provider to comply with this section. Without limiting the generality of the foregoing, Service Provider shall comply with any applicable fingerprinting requirements as set forth in the Education Code of the State of California.

\_\_\_\_\_ (Initials)

**18. Undocumented Workers.** Service Provider hereby promises and agrees to comply with all of the provisions of the Federal Immigration and Nationality Act, 8 U.S.C.A. Sections 1101, et seq., as amended, and in connection therewith, shall not employ undocumented workers, defined herein the same as in 8 U.S.C.A. Section 1324a(h)(3). Should Service Provider so employ such individuals for the performance of work and/or Services covered by this Agreement, and should any liability or sanctions be imposed against District for such employment, Service Provider hereby agrees to and shall reimburse District for the cost of all such liabilities or sanctions imposed, together with any and all costs, including attorneys’ fees, incurred by District.

**19. Non-Discrimination.** Service Provider shall abide by the applicable provisions of the United States Civil Rights Act of 1964 and other provisions of law prohibiting discrimination and shall not discriminate, in any way, against any person on the basis of race, color, religious creed,

national origin, ancestry, sex, age, physical handicap, medical condition or marital status in connection with or related to the performance of this Agreement.

**20. Assignment.** The expertise and experience of Service Provider are material considerations for this Agreement. District has an interest in the qualifications of and capability of the persons and entities that will fulfill the duties and obligations imposed upon Service Provider under this Agreement. In recognition of that interest, Service Provider shall not assign or transfer this Agreement or any portion of this Agreement or the performance of any of Service Provider's duties or obligations under this Agreement without the prior written consent of the Board of Trustees of District. Any attempted assignment shall be ineffective, null and void, and shall constitute a material breach of this Agreement entitling District to any and all remedies at law or in equity, including summary termination of this Agreement.

**21. Subcontracting.** Notwithstanding the above, Service Provider may utilize subcontractors in the performance of its duties pursuant to this Agreement, but only with the prior written consent of District. Service Provider shall be as fully responsible to District for the acts and omissions of its subcontractors, and of persons either directly or indirectly employed by Service Provider, as if Service Provider performed the acts and omissions directly.

**22. Continuity of Personnel.** Service Provider shall make every reasonable effort to maintain the stability and continuity of Service Provider's staff and subcontractors, if any, assigned to perform the Services required under this Agreement.

a. Service Provider shall ensure that District has a current list of all personnel and subcontractors providing Services under this Agreement.

b. Service Provider shall notify District of any changes in Service Provider's staff and subcontractors, if any, assigned to perform the Services required under this Agreement, prior to and during any such performance. The list notice shall include the following information: (i) all full or part-time staff positions by title, including volunteer positions whose direct services are required to provide the Services described herein; (ii) a brief description of the functions of each such position and the hours each position works each week or, for part-time positions, each day or month, as appropriate; (iii) the professional degree, if applicable, and experience required for each position; and (iv) the name of the person responsible for fulfilling the terms of this Agreement.

c. Service Provider shall maintain a database of prospective employees in order to avoid a gap in filling intended positions.

d. Notwithstanding the generality of the foregoing, all Service Provider personnel assigned to perform under the Contract shall be subject to the continuous approval of District. District may refuse to accept any Service Provider personnel assigned to the Contract in the event that such persons fail to meet the necessary performance standards or for any other reasonable basis. Upon the request of District, Service Provider shall immediately terminate the assignment of any Service Provider personnel to the District's after-school program.

**23. Assumption of Responsibility.** In accordance with Service Provider’s obligations under paragraphs 11, 13, 21, and 22 herein, Service Provider assumes all responsibility for the care, custody, and control of students participating in any activity, whether on-site or off-site, offered in connection with the Services.

**24. Service Provider’s Indemnification of District.**

a. To the fullest extent permitted by California law, Service Provider, on behalf of itself and its officers, agents, employees, board members, owners, shareholders, subcontractors, volunteers and agents (collectively, “Indemnifying Party”), shall at its sole expense indemnify, protect, defend and hold harmless District, its officers, agents, employees, elected board members, and volunteers (collectively, “Indemnified Party”) from and against any liability (including liability for claims, suits, actions, arbitration proceedings, administrative proceedings, regulatory proceedings, losses, expenses or costs of any kind, whether actual, alleged or threatened, including attorneys’ fees and costs, court costs, interest, defense costs, and expert witness fees) of any kind, nature, and description, including, but not limited to, which arise out of or relate to any one or more of the following (each a “Claim” and collectively the “Claims”): (i) Indemnifying Party’s breach of any representation or warranty in the Contract; (ii) Indemnifying Party’s breach of any material provision of the Contract; (iii) Indemnifying Party’s violation of any applicable law; (iv) employment and labor claims concerning Indemnifying Party’s employees, agents, and/or subcontractors; (v) intentional misrepresentation or fraud by Indemnifying Party; (vi) bodily injury, including, but not limited to, illness, communicable disease, virus, or pandemic in connection with Indemnifying Party’s provision of the Services; (v) personal injury (including, but not limited to, injuries related to or derived from alleged sexual misconduct, sexual abuse, or molestation, and any claims or allegations of wrongful death) in connection with Indemnifying Party’s provision of the Services, (vi) any damage to and destruction of real property in connection with Indemnifying Party’s provision of the Services; (vii) any damage to and destruction of personal property in connection with Indemnifying Party’s provision of the Services, (viii) Service Provider’s furnishing to District of any copyrighted or patented material under the Contract and claims that such materials infringe upon a third party’s intellectual property rights. For avoidance of doubt, Service Provider’s liability under this paragraph includes any and all liability arising out of or in any way attributable to the performance of this Agreement by Service Provider or by any individual or entity for which Service Provider is legally liable, including, but not limited to, its officers, agents, employees, and subcontractors.

b. Indemnifying Party’s indemnity, defense, protection and hold harmless obligations under this paragraph 24 shall apply whether or not the applicable Claim: (i) is a third party claim or a direct claim; (ii) has any merit; (iii) arises from an act or omission authorized under the Contract; or (iv) is caused or alleged to have been caused by the negligence of the Indemnified Party, provided, however, that Indemnifying Party shall not be liable for damages or losses caused by sole gross negligence or sole willful misconduct of the Indemnified Party.

c. Indemnifying Party’s obligations under this paragraph 24 shall not be limited by Service Provider’s insurance requirements under the Contract.

d. The Indemnified Party shall promptly notify the Indemnifying Party of any Claim for which indemnification is sought, following actual knowledge of such Claim. However, the failure to give such notice shall not relieve the Indemnifying Party of its obligations hereunder except to the extent that Indemnifying Party is materially and irrevocably prejudiced by such failure. In the event that any third party Claim is brought, the Indemnifying Party shall have the right and option to undertake and control the defense of such action with counsel of its choice, except that (i) the Indemnified Party at its own expense may participate and appear on an equal footing with the Indemnifying Party in the defense of any such Claim; (ii) the Indemnified Party, at Indemnifying Party's expense, may undertake and control of such defense in the event of the material failure of the Indemnifying Party to undertake and control the same; and (iii) the Indemnified Party may control with counsel of its choice the defense of any third party Claim when an adverse judgment would establish a precedent that would be materially damaging to the continuing business interests of Indemnified Party as a public agency (e.g., a Claim involving public contracting rules). A Party shall not consent to judgment or concede or settle or compromise any Claim without the prior written approval of the other Party (which approval shall not be unreasonably withheld, delayed, or conditioned).

e. No Party shall be entitled to any form of implied or equitable indemnification at any time, whether based upon a theory of contract, torts, strict liability or otherwise, and each Party expressly disclaims any right to implied or equitable indemnification.

f. Service Provider agrees to obtain executed indemnity Agreements with provisions identical to those set forth here in this section from each and every subcontractor or any other person or entity involved by, for, with or on behalf of Service Provider in the performance of this Agreement. No insurance policies maintained by the District, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until the Service Provider's primary and excess liability policies are exhausted.
- C. If the Service Provider or Service Provider's subcontractor(s) maintains broader coverage and/or higher limits than the minimums shown above, the District requires and shall be entitled to the broader coverage and/or higher limits maintained by the Service Provider. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the District.
- D. Any self-insured retention(s) applicable to the insurance and/or coverage required by the foregoing provisions of the Contract must be declared to and approved by the District. Service Provider shall be responsible to pay that self-insured retention and the District shall not be responsible to pay these costs. In the event that Service Provider's self-insured retentions collectively total more than \$50,000.00, the District reserves the right to request proof of Service Provider's financial solvency in relation to remittance thereof or require Service Provider to post a bond guaranteeing payment of the deductible, or both.
- E. The procuring of any required policy or policies of insurance shall not be construed to limit Service Provider's or subcontractor's liability hereunder nor to fulfill the indemnification provisions and requirements of the Contract.

- F. Failure on the part of the Service Provider, or any of its subcontractors, to procure or maintain required insurance shall constitute a material breach of contract under which the District may immediately terminate the Contract.

END OF EXHIBIT C

**EXHIBIT D

- School-related community activities
- Other: \_\_\_\_\_

I authorize my son/daughter, named above, to participate in the indicated voluntary extracurricular event or activity. I understand and acknowledge that voluntary extracurricular activities, by their very nature, pose the potential risk of serious injury and/or illness to the individuals who participate in such voluntary extracurricular events or activities.

This voluntary extracurricular event or activity, by its very nature, may pose some inherent risk of a participant being seriously injured, before, during, and/or after the activity or event, including transportation whether provided by the local educational agency (LEA) or not. These injuries may include, but are not limited to, the following:

- |  |                                     |
|--|-------------------------------------|
| 1. Sprains and strains                   | 7. Loss of eyesight                 |
| 2. Fractured bones                       | 8. Head injuries or concussion      |
| 3. Lacerations, abrasions, and avulsions | 9. Heat illness                     |
| 4. Unconsciousness                       | 10. Sudden cardiac arrest           |
| 5. Paralysis                             | 11. Death                           |
| 6. Disfigurement                         | 12. Exposure to infectious diseases |

I understand and acknowledge that participation in voluntary extracurricular events or activities is completely elective and voluntary and is not required by the LEA/School for completion of promotion or graduation requirements. I also understand that, if I do not consent to my son's/daughter's participation in the voluntary extracurricular event or activity, he/she may be offered an alternative event or activity and possible credit for promotion or graduation may or may not be offered.

I understand that all participants are to abide by and accept all rules and requirements governing conduct and safety in the voluntary extracurricular event or activity. To the extent permitted by the Education Code or other applicable statutes, regulations, policies and procedures, any participant determined to be in violation of safety requirements, behavior standards or other prohibited conduct may be removed from this voluntary extracurricular event or activity.

I understand and acknowledge that in order to participate in these activities, I and my son/daughter agree to assume liability and responsibility for any and all potential risks that may be associated with participation in voluntary extracurricular events or activities.

I also understand that the LEA/School, due to the COVID-19 virus or other potential infectious diseases, has undertaken a plan to facilitate a safe environment for educational programs in addition to extracurricular, co-curricular and sport/athletic events or activities. In doing so, I further understand that the LEA/School has adopted plans designed to meet the requirements and recommendations of state agencies, health advisors and other responsible bodies. However, I also understand and acknowledge that despite the LEA's and School's efforts, the risk of infection from the COVID-19 virus, or others, cannot be eliminated at this time, and that my son/daughter may be exposed as a result. I also understand and acknowledge that in participating in this voluntary extracurricular event or activity, my son/daughter will increase his/her interaction with students and staff, and the corresponding risk of contact and infection, and that this may include functions involving other people and/or facilities other than the LEA's. These other students, instructors, assistants, and facilities are potentially operating under a different COVID-19 safety plan, further increasing the risk of exposure of my son/daughter. Finally, I understand, acknowledge, and agree that despite reasonable care and steps by the LEA/School, that the virus presents serious challenges to prevention and control, and reasonable efforts by the LEA/School does not assure that my son/daughter may not be infected, and that the infection may not be brought home. Despite all the above I am freely and voluntarily signing this "Extracurricular Event or Activity, Assumption of Risk Form" to enable and authorize my son/daughter to participate and releasing and discharging the LEA/School and its/their governing board, officers, agents, employees and/or volunteers from any liability for my son/daughter becoming infected in his/her participation in the event or activity.

I agree to, and do hereby release and hold the LEA/School and its governing board, officers, agents, employees and/or volunteers harmless for any and all claims; demands; causes of action; liability; damages; expenses; or loss of any sort, including bodily injury or death; because of or arising out of acts or omissions with respect to the voluntary extracurricular event or activity, including programs or procedures of the LEA/School for students and participation in such events or activities

Estas lesiones pueden incluir, pero no se limitan a las siguientes:

1. Esguinces y distensiones

Entiendo y reconozco que la participación en estos eventos o actividades es completamente electiva y voluntaria y no es requerida por la LEA o la escuela para completar los requisitos de promoción o graduación. También entiendo que, si no doy mi consentimiento para la participación de mi hijo(a) en el evento o actividad, se le puede ofrecer un evento o actividad alternativa y se le puede ofrecer o no un posible crédito para la graduación.

Entiendo que todos los participantes deben cumplir y aceptar todas las reglas y requisitos que rigen la conducta y la seguridad en el evento o actividad. ## Oxnard School District Concussion Information Sheet

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a “ding” or a bump on the head can be serious. You cannot see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

### Symptoms may include one or more of the following:

- |  |   |
|--|---|
| <ul style="list-style-type: none"> <li>• Headaches</li> <li>• “Pressure in head”</li> <li>• Nausea or vomiting</li> <li>• Neck pain</li> <li>• Balance problems or dizziness</li> <li>• Blurred, double, or fuzzy vision</li> <li>• Sensitivity to light or noise</li> <li>• Feeling sluggish or slowed down</li> <li>• Feeling foggy or groggy</li> <li>• Drowsiness</li> <li>• Change in sleep patterns</li> </ul> | <ul style="list-style-type: none"> <li>• Amnesia</li> <li>• “Don’t feel right”</li> <li>• Fatigue or low energy</li> <li>• Sadness</li> <li>• Nervousness or anxiety</li> <li>• Irritability</li> <li>• More emotional</li> <li>• Confusion</li> <li>• Concentration or memory problems (forgetting game plays)</li> <li>• Repeating the same question/comment</li> </ul> |
|--|---|

### Signs observed by teammates, parents and coaches include:

- Appears dazed
- Vacant facial expression
- Confused about assignment
- Forgets plays
- Is unsure of game, score, or opponent
- Moves clumsily or displays incoordination
- Answers questions slowly
- Slurred speech
- Shows behavior or personality changes
- Can’t recall events prior to hit
- Can’t recall events after hit
- Seizures or convulsions
- Any change in typical behavior or personality
- Loses consciousness

**What can happen if my child keeps on playing with a concussion or returns too soon?**

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often under report symptoms of injuries. And concussions are no different. As a result, education of administrators, coaches, parents and students is the key for student-athlete’s safety.

**If you think your child has suffered a concussion**

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. California Education Code section 49475 and CIF Bylaw 313 now require implementation of long and well-established return to play concussion guidelines that have been recommended for several years.

You should also inform your child’s coach if you think that your child may have a concussion. Remember it is better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

**Return to Play (RTP)**

Concussion symptoms should be completely gone before returning to full practice or competition. A RTP progression involves a gradual, step-wise increase in physical effort, sports-specific activities and the risk for contact. If symptoms occur with activity, the progression should be stopped. If there are no symptoms the next day, exercise can be restarted at the previous stage.

RTP after concussion should occur only with medical clearance from a medical doctor trained in the evaluation and management of concussions, and a step-wise progression program monitored by an athletic trainer, coach, or other identified school administrator. Please see [cifstate.org](http://cifstate.org) for a graduated return to play plan. Return to play (i.e., full practice and competition) must be no sooner than 7 days after the concussion diagnosis has been made by a physician.

### Información acerca de las concusiones cerebrales

Una concusión es una herida cerebral y todas las heridas cerebrales son graves. Dichas heridas son causadas por un golpe ligero, un golpe fuerte a la cabeza, un movimiento repentino de la cabeza o por un golpe fuerte a otra parte del cuerpo con fuerza que se trasmite a la cabeza. Las heridas varían entre ligeras o graves y pueden interrumpir la manera en la que el cerebro funciona. Aunque la mayoría de las concusiones cerebrales son ligeras, **todas las concusiones cerebrales tienen el potencial de ser graves y si no se reconocen y tratan correctamente podrían tener como resultado complicaciones incluyendo daño cerebral prolongado o la muerte.** Eso quiere decir que cualquier “golpecito” a la cabeza podría ser grave. Las concusiones cerebrales no son visibles y en su mayoría las concusiones cerebrales que ocurren durante los deportes no ocasionan la pérdida de conciencia. Las señales y síntomas de una concusión cerebral podrían aparecer inmediatamente después de una herida o después de horas o días. Si su hijo(a) reporta cualquier síntoma de una concusión cerebral, o si se da cuenta de los síntomas de una concusión cerebral, por favor consiga atención médica sin demora.

#### Los siguientes son algunos de los síntomas de una concusión:

- |   |  |
|---|--|
| <ul style="list-style-type: none"> <li>• Dolor de cabeza</li> <li>• “Presión en la cabeza”</li> <li>• Náusea o vómito</li> <li>• Dolor de cuello</li> <li>• Problemas de equilibrio o mareos</li> <li>• Visión borrosa o visión doble</li> <li>• Sensibilidad a la luz o ruido</li> <li>• Decaído</li> <li>• Adormecido</li> <li>• Mareado</li> <li>• Cambios en los hábitos de dormir</li> </ul> | <ul style="list-style-type: none"> <li>• Amnesia</li> <li>• “No se siente bien”</li> <li>• Fatiga o energía baja</li> <li>• Tristeza</li> <li>• Nervios o ansiedad</li> <li>• Irritabilidad</li> <li>• Más sensible</li> <li>• Confundido</li> <li>• Problemas con concentración o memoria (por ejemplo: olvidar las jugadas)</li> <li>• Repetir la misma pregunta o comentario</li> </ul> |
|---|--|

#### Los siguientes síntomas son observados por compañeros, padres y entrenadores:

- Parece desorientado
- Tiene una expresión facial vacía
- Está confundido acerca de la tarea o actividad
- Se olvida de las jugadas
- Está confundido sobre el juego, los puntos o el oponente
- Se mueve torpemente o muestra una falta de coordinación
- Contesta las preguntas lentamente
- Arrastra las palabras
- Muestra cambios de comportamiento o personalidad
- No puede recordar los eventos que sucedieron antes de la colisión
- No puede recordar los eventos que sucedieron después de la colisión
- Ataques o convulsiones
- Cualquier cambio en el comportamiento típico o personalidad
- Pérdida de la conciencia

**¿Qué puede pasar si mi hijo(a) sigue jugando con una concusión cerebral o regresa a jugar antes de que este recuperado?**

Los deportistas con señales o síntomas de una concusión cerebral deben dejar de jugar inmediatamente. Continuar jugando con las señales o síntomas de una concusión pone al deportista en riesgo de sufrir una herida más grave. La probabilidad de que se sufra daño significativo de una concusión aumenta cuando ha pasado un periodo de tiempo largo después de que sucedió la concusión, sobre todo si el deportista sufre otra concusión antes de recuperarse completamente de la primera. Eso puede traer como consecuencia una recuperación más prolongada o incluso una hinchazón cerebral (síndrome de segundo impacto) con consecuencias devastadoras o fatales. Es bien conocido que los deportistas adolescentes no reportan mucho los síntomas de sus heridas. Eso es el caso también con las concusiones cerebrales. Por lo mismo es importante que los administradores, entrenadores, padres y estudiantes estén bien informados, el cual es clave para la seguridad de los estudiantes deportistas.

**Si cree que su hijo(a) ha sufrido una concusión**

En cualquier situación donde se sospecha que un deportista tiene una concusión, es importante sacar a este estudiante del juego o entrenamiento inmediatamente. Ningún deportista puede volver a participar en la actividad después de sufrir una herida de cabeza o concusión cerebral sin el permiso de un doctor, no importa si la herida parece ser ligera o los síntomas desaparecen rápidamente. Se debe de observar cuidadosamente el mejoramiento del deportista por varias horas. Código Educativo de California sección 49475 y estatuto 313 de la Federación Interescolar de California (CIF por sus siglas en inglés) requiere la implementación de las siguientes normas para regresar a jugar un deporte después de sufrir una concusión, las cuales se han recomendado por muchos años.

También debe informar al entrenador(a) de su hijo(a) si piensa que ha sufrido una concusión cerebral. Recuerde que es mejor faltar un partido que faltar toda la temporada. Si existe alguna duda de que el deportista sufrió una concusión cerebral o no, se tomará precauciones y no podrá jugar.

**Volver a Jugar**

Síntomas de concusión cerebral deben ser desaparecido por completo antes de volver a la práctica completa o la competencia. Un volver a jugar la progresión implica un aumento gradual, paso a paso en el esfuerzo físico, las actividades de los deportes específicos y el riesgo para el contacto. Si se presentan síntomas con la actividad, la progresión se debe parar. Si no hay síntomas al día siguiente, el ejercicio puede iniciarse de nuevo en la etapa anterior.

Volver a jugar después de la concusión cerebral debe ocurrir sólo con autorización médica de un médico entrenado en la evaluación y la gestión de las concusiones cerebrales. Volver a jugar debe ser supervisado por un entrenador, entrenador atlético o administrador identificado por la escuela. Por favor, consulte [cifstate.org](http://www.cifstate.org) para un retorno gradual a jugar el plan. Retorno a la práctica completa y la competencia debe ser no antes de 7 días después del diagnóstico concusión ha sido hecha por un médico.

# Parent/Student CIF Heat Illness Information Sheet

### Why am I getting this information sheet?

You are receiving this information sheet about Heat Illness because of California state law AB 2800 (effective January 1, 2019), now Education Code § 35179 and CIF Bylaws 22.B.(9) and 503.K (Approved Federated Council January 31, 2019):

1. The law requires a student athlete who has been removed from practice or play after displaying signs and symptoms associated with heat illness must receive a written note from a licensed health care provider before returning to practice.
2. Before an athlete can start the season and begin practice in a sport, a Heat Illness information sheet must be signed and returned to the school by the athlete and the parent or guardian.

Every 2 years all coaches are required to receive training about concussions (AB 1451), heat illness (AB 2800) as well as certification in First Aid training, CPR, and AEDs (life-saving electrical devices that can be used during CPR).

### What is Heat Illness and how would I recognize it?

Exercise produces heat within the body and can increase the player's body temperature. Add to this a hot or humid day and any barriers to heat loss such as padding and equipment, and the temperature of the individual can become dangerously high.

Heat Illness occurs when metabolically produced heat combines with that gained from the environment to exceed the heat and large sweat losses. Young athletes should be pre-screened at their pre-participation physical exam form education/supplement use, cardiac disease, history of sickle cell trait, and previous heat injury. Athletes with any of these factors should be supervised closely during strenuous activities in a hot climate. Fatal heat stroke occurs most frequently among obese high school middle lineman.

Much of one's body heat is eliminated by sweat. Once this water leaves the body, it must be replaced. Along with water loss, many other minerals are lost in the sweat. Most of the commercial drinks now available contain these minerals, such as Gatorade, etc., but just plain water is all that is really required because the athlete will replace the lost minerals with his/her normal diet.

**PREVENTION:** There are several steps which can be taken to prevent heat illness from occurring:

**ADEQUATE HYDRATION:** The athlete should arrive at practice well-hydrated to reduce the risk of dehydration. The color of the urine can provide a quick guess at how hydrated the athlete. If the urine is dark like apple juice means the athlete is dehydrated. If the urine is light like lemonade in color means the athlete seems adequately hydrated.

Water or sports drinks should be readily available to athletes during practice and should be served ideally chilled in containers that allow adequate volumes of fluid to be ingested.

Water breaks should be given at least every 30-45 minutes and should be long enough to allow athletes to ingest adequate volumes of fluid.

Athletes should be instructed to continue fluid replacement in between practice sessions.

**GRADUAL ACCLIMATIZATION:** Intensity and duration of exercise should be gradually increased over a period of 7-14 days to give athletes' time to build fitness levels and become accustomed to practicing in the heat. Protective equipment should be introduced in phases (start with helmet, progress to helmet and shoulder pads, and finally fully uniform).

**HEAT EXHAUSTION:** Inability to continue exercise due to heat-induced symptoms. Occurs with an elevated body-core temperature between 97- and 104-degrees Fahrenheit.

<ul style="list-style-type: none"> <li>• Dizziness, lightheadedness, weakness</li> </ul>	<ul style="list-style-type: none"> <li>• Profuse sweating</li> </ul>
<ul style="list-style-type: none"> <li>• Headache</li> </ul>	<ul style="list-style-type: none"> <li>• Cool, clammy skin</li> </ul>
<ul style="list-style-type: none"> <li>• Nausea</li> </ul>	<ul style="list-style-type: none"> <li>• Hyperventilation</li> </ul>
<ul style="list-style-type: none"> <li>• Diarrhea, urge to defecate</li> </ul>	<ul style="list-style-type: none"> <li>• Decreased urine output</li> </ul>
<ul style="list-style-type: none"> <li>• Pallor, chills</li> </ul>	

**TREATMENT:** Stop exercise, move player to a cool place, remove excess clothing, give fluids if conscious, COOL BODY: fans, cold water, ice towels, or ice packs. Fluid replacement should occur as soon as possible. The athlete should be referred to a hospital emergency if recovery is not rapid. When in doubt, CALL 911. Athletes with heat exhaustion should be assessed by a physician as soon as possible in all cases.

**HEAT STROKE:** Dysfunction or shutdown of body systems due to elevated body temperature which cannot be controlled. This occurs with a body-core temperature greater than 107 degrees Fahrenheit.

**WARNING SYMPTOMS:**

**This is a MEDICAL EMERGENCY. Death may result if not treated properly and rapidly.**

Treatment: Stop exercise, Call 911, remove from heat, remove clothing, immerse athlete in cold water for aggressive, rapid cooling (if immersion is not possible, cool the athlete as described for heat exhaustion), monitor vital signs until paramedics arrive.

<b>Signs observed by teammates, parents and coaches include:</b>	
<ul style="list-style-type: none"> <li>• Dizziness</li> </ul>	<ul style="list-style-type: none"> <li>• Weakness</li> </ul>
<ul style="list-style-type: none"> <li>• Drowsiness, loss of consciousness</li> </ul>	<ul style="list-style-type: none"> <li>• Hot and wet or dry skin</li> </ul>
<ul style="list-style-type: none"> <li>• Seizures</li> </ul>	<ul style="list-style-type: none"> <li>• Rapid heartbeat, low blood pressure</li> </ul>
<ul style="list-style-type: none"> <li>• Staggering, disorientation</li> </ul>	<ul style="list-style-type: none"> <li>• Hyperventilation</li> </ul>
<ul style="list-style-type: none"> <li>• Behavioral/cognitive changes (confusion, irritability, aggressiveness, hysteria, emotional instability)</li> </ul>	<ul style="list-style-type: none"> <li>• Vomiting, diarrhea</li> </ul>

**Final Thoughts for Parents and Guardians:**

Heat stress should be considered when planning and preparing for any sports activity. Summer and fall sports are conducted in very hot and humid weather in many parts of the California. Many of the heat problems have been associated with football, due to added equipment which acts as a barrier to heat dissipation. Several heatstroke deaths continue to occur each season in the United States. There is no excuse for heatstroke deaths if the proper precautions are taken.

You should also feel comfortable talking to the coaches or athletic trainer about possible heat illness signs and symptoms that you may be seeing in your child.

I acknowledge that I have received and read the CIF Heat Illness Information Sheet.

## Hoja de información CIF para padres/estudiantes referente a la insolación

### ¿Por qué me han enviado esta información?

Usted ha recibido esta hoja informativa referente a la insolación debido a lo indicado por la Ley AB 2800 de California (efectiva el 1º de enero del 2019), el cual ahora es parte del Código de Educación § 35179 y de los reglamentos CIF 22.B.(9) y 503.K (aprobados por el Concilio Federal el 31 de enero del 2019):

1. La ley requiere que cualquier atleta estudiante que haya sido excluido de las prácticas o de algún partido debido a que ha mostrado señales y síntomas relacionados con la insolación (infarto de calor), debe recibir una nota escrita de un proveedor acreditado de cuidados médicos antes de regresar a las prácticas de atletismo.
2. Antes que un atleta pueda comenzar la temporada y comience las prácticas deportivas, los padres o tutores legales deben firmar y entregar a la escuela una Hoja de información sobre la insolación.

Cada dos años todos los entrenadores tienen el requisito de recibir entrenamiento sobre las contusiones cerebrales (AB 1451), la insolación (AB 2800) al igual que una certificación de entrenamiento sobre primeros auxilios, resucitación cardiopulmonar (CPR, en inglés) y los instrumentos eléctricos (AEDs, en inglés) que se pueden utilizar para salvar la vida durante una resucitación cardiopulmonar (CPR).

### ¿Qué es la insolación y como puedo identificar los síntomas?

El ejercicio produce calor dentro del cuerpo y puede incrementar la temperatura del cuerpo del atleta. Si a esto se agregan un día caluroso o húmedo, más las barreras que impiden la disipación del calor como el equipo de amortiguación en el uniforme deportivo, la temperatura corporal del individuo puede aumentar peligrosamente.

La insolación ocurre cuando el calor producido por el metabolismo corporal se combina con el calor que proviene del medioambiente, lo que ocasiona calor excesivo y grandes pérdidas de sudor. Previo a su participación, los atletas jóvenes deben ser evaluados durante su examen médico para diagnosticar enfermedades cardíacas, historial de células falciformes (sickle cell trait, en inglés) y traumas previos debido al calor. Los atletas que presenten cualquiera de estos casos deben ser supervisados cuidadosamente durante las actividades estrenuas realizadas en climas calientes. El infarto fatal debido al calor ocurre más frecuentemente entre los atletas obesos de preparatoria que juegan la posición de defensas medios.

La mayoría del calor corporal es eliminado por medio del sudor. El líquido debe ser reemplazado después que ha salido del cuerpo. Junto con la pérdida de agua, el cuerpo pierde muchos otros minerales por medio del sudor. La mayoría de las bebidas comerciales disponibles, tales como Gatorade, etc., contienen estos minerales; sin embargo, lo que realmente se necesita es solamente agua debido a que el atleta recuperará los minerales perdidos por medio de su dieta regular.

**PREVENCIÓN:** Existen varios pasos que deben seguirse para prevenir un infarto debido al calor:

**LA HIDRATACIÓN APROPIADA:** El atleta debe llegar a sus prácticas deportivas bien hidratado para reducir el riesgo de deshidratación. El color de la orina puede mostrar fácilmente el nivel de hidratación del atleta. Si la orina es oscura parecido al jugo de manzana, eso significa el atleta está deshidratado. Si la orina es clara como el color de la limonada, eso significa que el atleta está propiamente hidratado.

En las prácticas debe haber agua y bebidas deportivas fácilmente disponibles para los atletas y de preferencia deben servirse frías y en envases que permitan la ingestión de líquidos en volúmenes apropiados.

También debe haber recesos para beber agua por lo menos cada 30 o 45 minutos y los recesos deben ser suficientemente largos para ingerir volúmenes apropiados de líquidos.

A los atletas se les debe instruir que deben continuar reemplazando los líquidos antes y después de las sesiones de práctica.

**LA ACLIMATACIÓN GRADUAL:** La intensidad y la duración del ejercicio debe incrementarse gradualmente durante un periodo de 7 a 14 días para que el atleta pueda alcanzar niveles apropiados de aptitud física y su cuerpo se acostumbre a practicar en el calor. El equipo protector debe introducirse de manera gradual (comenzando con el casco, después el casco y las hombreras, y finalmente el uniforme completo).

**EL AGOTAMIENTO DEBIDO AL CALOR:** Es la inhabilidad de continuar ejercitando debido a los síntomas producidos por el calor. Esto ocurre cuando la temperatura básica del cuerpo se encuentra entre los 97 y los 104 grados Fahrenheit.

• Vértigo, mareo, debilidad	• Sudor abundante
• Dolor de cabeza	• Piel viscosa y fría
• Náusea	• Hiperventilación
• Diarrea, urgencia para defecar	• Reducción en la producción de orina
• Palidez, escalofríos	

**TRATAMIENTO:** Dejar de ejercitar, acudir a un lugar frío, quitar la ropa excesiva, beber líquidos si la persona está consiente, ENFRIAR EL CUERPO: con ventiladores, agua fría, toallas heladas, o esponjas húmedas congeladas (ice packs). Debe comenzar la recuperación de líquidos tan pronto como sea posible. Si su recuperación no es rápida, el atleta debe ser llevado a la sala de emergencias del hospital. Si existen dudas, LLAME AL 911. En todos los casos, los atletas que sufren agotamiento debido al calor deben ser evaluados por un médico tan pronto como sea posible.

**INFARTO DEBIDO AL CALOR:** Es el mal funcionamiento o paralización de los sistemas corporales debido a la alta temperatura del cuerpo la cual está fuera de control. Esto ocurre cuando la temperatura básica del cuerpo es mayor a los 107 grados Fahrenheit.

**SÍNTOMAS DE ALARMA:**

Los siguientes síntomas representan una EMERGENCIA MÉDICA. Podría ocasionar la muerte si no se ofrece tratamiento médico inmediato y apropiado.

Tratamiento: dejar de ejercitar, llamar al 911, alejar del calor, desvestirse, sumergir al atleta en agua fría para un enfriamiento rápido y eficaz (si no es posible sumergir al atleta, enfriar al atleta siguiendo el tratamiento para el agotamiento debido al calor), vigilando los signos vitales hasta que lleguen los paramédicos.

<b>Los síntomas que han sido observados por los jugadores, padres y entrenadores incluyen:</b>	
• Mareos (vértigo)	• Debilidad
• Letargo (adormecimiento), quedar inconsciente	• Piel caliente, húmeda o seca
• Convulsiones (ataques epilépticos)	• Pulso rápido, baja presión sanguínea
• Tambaleo, tropiezos, desorientación	• Hiperventilación
• Cambios cognitivos y de comportamiento (confusión, irritabilidad, agresividad, histeria, inestabilidad emocional)	• Vómito, diarrea

**Consejos finales para los padres y tutores legales:**

Cada vez que planea y prepare cualquier actividad deportiva usted debe tomar en cuenta el estrés que será producido por el calor. En varias regiones de California, los deportes de verano y otoño a menudo se realizan en climas muy calientes y húmedos. Muchos de los problemas ocasionados por el calor se relacionan con el fútbol Americano, debido al equipo adicional que los atletas deben vestir y el cual actúa como una barrera que impide la disipación del calor. Durante cada temporada deportiva en los Estados Unidos continúan sucediendo varias muertes debido a los infartos por el calor. Si se toman las precauciones apropiadas, no existe ninguna excusa para permitir que suceda una muerte debido a un infarto por el calor.

Usted debe tener la confianza de hablar con los entrenadores o manejadores de atletismo referente a los posibles síntomas de insolación y sobre los síntomas que tal vez usted observa en su hijo.

Yo confirmo que he recibido y leído La Hoja de información CIF referente a la insolación.

## OXNARD SCHOOL DISTRICT Prescription Opioids: What You Need to Know

Prescription opioids can be used to help relieve moderate-to-severe pain and are often prescribed following a surgery or injury, or for certain health conditions. These medications can be an important part of treatment but also come with serious risks. It is important to work with your health care provider to make sure you are getting the safest, most effective care.

Prescription opioids carry serious risks of addiction and overdose, especially with prolonged use. An opioid overdose, often marked by slowed breathing, can cause sudden death. The use of prescription opioids can have a number of side effects as well, even when taken as directed.

### **Side effects may include one or more of the following:**

- Tolerance - meaning you might need to take more of a medication for the same pain relief
- Physical dependence—meaning you have symptoms of withdrawal when a medication is stopped
- Increased sensitivity to pain
- Constipation
- Nausea, vomiting, and dry mouth
- Sleepiness and dizziness
- Confusion
- Depression
- Low levels of testosterone that can result in lower sex drive, energy, and strength
- Itching and sweating

### **Risks are greater with the following:**

- History of drug misuse, substance use disorder, or overdose
- Mental health conditions (such as depression or anxiety)
- Sleep apnea
- Older age (65 years or older)
- Pregnancy

### **Unless specifically advised by your health care provider, medications to avoid include:**

- Benzodiazepines (such as Xanax or Valium)
- Muscle relaxants (such as Soma or Flexeril)
- Hypnotics (such as Ambien or Lunesta)
- Other prescription opioids
- In addition, avoid alcohol while taking prescription opioids.

**KNOW YOUR OPTIONS**

**Talk to your health care provider about ways to manage your pain that do not involve prescription opioids. Some of these options may actually work better and have fewer risks and side effects. Options may include:**

- Pain relievers such as acetaminophen, ibuprofen, and naproxen
- Some medications that are also used for depression or seizures
- Physical therapy and exercise
- Cognitive behavioral therapy, a psychological, goal-directed approach, in which patients learn how to modify physical, behavioral, and emotional triggers of pain and stress.

**IF YOU ARE PRESCRIBED OPIOIDS FOR PAIN:**

- Never take opioids in greater amounts or more often than prescribed.
- Follow up with your primary health care provider within.
  - Work together to create a plan on how to manage your pain.
  - Talk about ways to help manage your pain that don't involve prescription opioids.
  - Talk about any and all concerns and side effects.
- Help prevent misuse and abuse.
  - Never sell or share prescription opioids.
  - Never use another person's prescription opioids.
- Store prescription opioids in a secure place and out of reach of others (this may include visitors, children, friends, and family).
- Safely dispose of unused prescription opioids: Find your community drug take-back program or your pharmacy mail-back program, or flush them down the toilet, following guidance from the Food and Drug Administration:  
[www.fda.gov/Drugs/ResourcesForYou](http://www.fda.gov/Drugs/ResourcesForYou)
- Visit [www.cdc.gov/drugoverdose](http://www.cdc.gov/drugoverdose) to learn about the risks of opioid abuse and overdose.
- If you believe you may be struggling with addiction, tell your health care provider and ask for guidance or call SAMHSA's National Helpline at 1-800-662-HELP.

### Opioides recetados: lo que necesita saber

Los opioides recetados son medicamentos que sirven para aliviar el dolor moderado a intenso y suelen ser recetados luego de una cirugía o de sufrir una lesión, o ante ciertos problemas de salud. Estos medicamentos pueden ser una parte importante del tratamiento, aunque también implican riesgos graves. Es importante comunicarse con su proveedor de atención médica para asegurarse que está obteniendo la atención más segura y eficaz.

Los riesgos más graves de los opioides recetados son la adicción y la sobredosis, especialmente con el uso prolongado. Una sobredosis con opioides puede reducir la frecuencia respiratoria y provocar la muerte repentina. Los opioides recetados pueden tener efectos secundarios, incluso si se toman según las indicaciones.

#### **Los efectos secundarios pueden incluir uno o más de los siguientes:**

- Tolerancia: la necesidad de tomar más medicamentos para lograr la misma reducción del dolor
- Dependencia física: aparición de síntomas de abstinencia al interrumpir el consumo
- Mayor sensibilidad al dolor
- Estreñimiento: es el efecto secundario más común
- Náuseas, vómitos y sequedad de boca
- Somnolencia y mareo
- Confusión
- Depresión
- Bajos niveles de testosterona, que pueden resultar en un menor impulso sexual, energía y fuerza
- Comezón y sudor

#### **Los riesgos son mayores con lo siguiente:**

- Tiene antecedentes de abuso de drogas, trastorno de consumo de sustancias o sobredosis
- Tiene una condición de salud mental, (como depresión o ansiedad)
- Tiene apnea del sueño
- Tiene 65 años o más
- Está embarazada

#### **A menos que su proveedor de atención médica lo indique específicamente, los medicamentos que debe evitar incluyen:**

- Benzodicepinas (como Xanax o Valium)
- Relajantes musculares (como Soma o Flexeril)
- Pastillas para dormir (como Ambien o Lunesta)
- Otros opioides recetados
- Adicionalmente, evite el consumo de alcohol mientras esté tomando opioides recetados.

**SEPA CUÁLES SON SUS OPCIONES**

**Hable con su proveedor de atención médica acerca de las maneras de controlar el dolor sin tener que usar opioides. Algunas de esas opciones podrían dar mejores resultados y presentar menores riesgos y efectos secundarios. Las opciones podrían ser las siguientes:**

- Otros analgésicos, como acetaminofeno (Tylenol), ibuprofeno (Advil, Motrin) o naproxeno
- Algunos medicamentos que también se emplean contra la depresión y las convulsiones.
- Fisioterapia y ejercicios
- Terapia cognitiva conductual, un enfoque psicológico dirigido por objetivos donde los pacientes aprenden a modificar las causas físicas, conductuales y emocionales del dolor y el estrés.

**SI LE RECETAN OPIOIDES PARA EL DOLOR:**

- Nunca tome opioides en más cantidades o más seguido que lo indicado.
- Haga un seguimiento con su proveedor de atención médica.
  - Establezcan juntos un plan para tratar el dolor.
  - Analicen posibilidades para tratar el dolor, las cuales no incluyan opioides recetados.
  - Hable de sus inquietudes y de los efectos secundarios.
- Ayude a evitar el mal uso y el abuso.
  - Nunca venda ni comparta opioides recetados.
  - Nunca use los opioides recetados de otra persona.
- Guarde los opioides recetados en un lugar seguro y lejos del alcance de otras personas. (Esto puede incluir visitas, niños, amigos y familiares).
- Deshágase de manera segura de los opioides recetados que le sobren. Encuentre el programa de devolución de medicamentos de su comunidad o el programa de devolución de medicamentos de su farmacia o tírelos en el inodoro, siguiendo las instrucciones de la Administración de Alimentos y Medicamentos: [www.fda.gov/Drugs/ResourcesForYou](http://www.fda.gov/Drugs/ResourcesForYou).
- Visite [www.cdc.gov/drugoverdose](http://www.cdc.gov/drugoverdose) para conocer los riesgos del abuso y la sobredosis de opioides
- Si cree que puede estar luchando contra la adicción, infórmeselo a su proveedor de atención médica y solicite orientación o llame a la línea de ayuda nacional de SAMHSA al 1-800-662-HELP.

### Hoja CIF de información y compromiso de los padres y estudiantes sobre los esteroides

“Como condición de membresía en el CIF, todas las escuelas que son miembros deberán adoptar normas que prohíban el uso y abuso de los esteroides androgénicos/anabólicos. Todas estas escuelas deberán confirmar que los estudiantes atletas participantes y sus padres, el tutor legal/cuidador están de acuerdo que el atleta no usará esteroides anabólicos sin la receta prescrita por medio de un examen físico con licencia plena (como lo reconoce la Asociación Médica Americana, AMA) para tratar una condición médica”. (Estatuto CIF 503.I)

#### Nuestra norma del distrito escolar (BP 5131.63):

La Mesa Directiva Gobernante reconoce que el uso de esteroides y otros suplementos para mejorar el rendimiento físico representa un grave peligro para la salud y la seguridad. Como parte de los esfuerzos distritales de prevención e intervención del uso de drogas, el superintendente o la persona designada y el personal deberán hacer todos los esfuerzos razonables para evitar que los estudiantes usen esteroides u otros suplementos para mejorar el rendimiento físico.

Como parte de sus programas de salud, educación física o educación sobre las drogas, los estudiantes en los grados 7 al 12 recibirán una lección sobre los efectos de los esteroides.

Los estudiantes que participan en el atletismo escolar tienen prohibido el uso de esteroides y suplementos dietéticos prohibidos por la Agencia Antidopaje de los Estados Unidos, incluyendo la sustancia sinefrina (synephrine, en inglés). (Código de Educación 49030).

Antes de participar en el atletismo escolar, un estudiante atleta y su padre/madre/tutor legal deberán firmar una declaración donde el estudiante atleta se compromete a no usar esteroides androgénicos/anabólicos y/o suplementos dietéticos prohibidos por la Agencia Antidopaje de los Estados Unidos, incluyendo la sustancia Sinefrina (Synephrine, en inglés), a menos que el estudiante haya recibido una receta médica escrita por un profesional de la salud que posea autorización para tratar condiciones médicas.

Cualquier estudiante que haya violado el acuerdo o esta norma no podrá participar en el atletismo escolar y estará sujeto a los procedimientos disciplinarios los cuales incluyen, entre otros, la suspensión o expulsión de acuerdo con la ley, las normas de la Mesa Directiva y los reglamentos administrativos.

Los entrenadores deben educar a los estudiantes sobre las prohibiciones del distrito y los peligros del uso de esteroides y otros suplementos para mejorar el rendimiento físico.

El Superintendente o la persona designada se asegurarán que las escuelas del distrito no acepten patrocinios o donaciones de fabricantes de suplementos que ofrezcan suplementos de desarrollo muscular a los estudiantes.

#### Compromiso

Al firmar este documento, el estudiante atleta participante junto con sus padres, tutores legales/cuidadores están de acuerdo que el estudiante atleta mencionado en este documento no utilizará esteroides androgénicos/anabólicos sin una prescripción escrita por un médico que posea autorización plena para tratar condiciones médicas (tal como lo reconoce la Asociación Médica Americana, AMA). También reconocemos que según el reglamento CIF 202, podrían existir penalidades por el uso de información falsa o fraudulenta. Además comprendemos que la escuela [insert name of school] seguirá las normas referentes al uso ilegal de drogas en caso de que ocurran violaciones a estos reglamentos.

Yo confirmo que he recibido y leído la Hoja de información CIF referente a los esteroides.

Oxnard School District  
**Sudden Cardiac Arrest Information Sheet**

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the victim to collapse. The malfunction is caused by a congenital or genetic defect in the heart's structure.

Recognize the Warning Signs and Risk Factors of Sudden Cardiac Arrest.

Tell your coach and consult your health care provider if these conditions are present in your student athlete:

Potential indicators that SCA may occur:

- Fainting or seizure, especially during or right after exercise;
- Fainting repeatedly or with excitement or startle;
- Excessive shortness of breath during exercise;
- Racing or fluttering heart palpitations or irregular heartbeat;
- Repeated dizziness or lightheadedness;
- Chest pain or discomfort with exercise;
- Excessive, unexpected fatigue during or after exercise.

Factors that increase the Risk of SCA:

- Known structural heart abnormality, repaired or unrepaired;
- Family members with unexplained fainting, seizures, drowning or near drowning, or car accidents;
- Family history of known heart abnormalities or sudden death before age 50;
- Specific family history of Long QT Syndrome, Brugada Syndrome, Hypertrophic Cardiomyopathy, or Arrhythmogenic Right Ventricular Dysplasia (ARVD);
- Use of drugs, such as cocaine, inhalants, "recreational" drugs, excessive energy drinks or performance-enhancing supplements.

**How Common is Sudden Cardiac Arrest in the United States?**

As the leading cause of death in the U.S., there are more than 300,000 cardiac arrests outside hospitals each year, with nine out of 10 resulting in death. Thousands of sudden cardiac arrests occur among youth, as it is the #2 cause of death under 25 and the #1 killer of student athletes during exercise.

### **Who is at Risk for Sudden Cardiac Arrest?**

SCA is more likely to occur during exercise or physical activity, so student athletes are at greater risk. While a heart condition may have no warning signs, studies show that many young people do have symptoms but neglect to tell an adult. This may be because they are embarrassed, they do not want to jeopardize their playing time, they mistakenly think they are out of shape and need to train harder, or they simply ignore the symptoms, assuming they will “just go away.” Additionally, some health history factors increase the risk of SCA.

### **What Should You do if your Student Athlete is Experiencing any of these Symptoms?**

We need to let student-athletes know that if they experience any SCA-related symptoms it is crucial to alert an adult and get follow-up care as soon as possible with a primary care physician. If the athlete has any of the SCA risk factors, these should also be discussed with a doctor to determine if further testing is needed. Wait for your doctor’s feedback before returning to play, and alert your coach, trainer and school nurse about any diagnosed conditions.

### **Return to Play (RTP)**

The California Interscholastic Federation (CIF) amended its bylaws to include language that adds SCA training to coach certification and practice and game protocol that empowers coaches to remove from play a student-athlete who exhibits fainting. A student athlete who has been removed from play after displaying signs or symptoms associated with SCA may not return to play until he or she is evaluated and cleared by a licensed health care provider (medical doctor or doctor of osteopathy). Parents, guardians and caregivers are urged to dialogue with student athletes about their heart health.

### **Acknowledgment**

I have reviewed and understand the symptoms and warning signs of SCA and the new CIF protocol to incorporate SCA prevention strategies into my student’s sports program

### Una ficha informativa acerca del Paro Cardíaco Repentino

El Paro Cardíaco Repentino (PCR) sucede cuando el corazón súbita e inesperadamente deja de latir. Cuando esto sucede, se detiene el flujo sanguíneo hacia el cerebro y otros órganos vitales. El PCR no es un paro cardíaco. Un paro cardíaco es causado por una obstrucción que detiene el flujo sanguíneo hacia el corazón. El PCR es una falla en el sistema eléctrico del corazón que hace que la víctima se colapse. Un defecto genético o congénito en la estructura del corazón es la causa de la falla.

Reconozca los factores de riesgo y los signos de advertencia del Paro Cardíaco Repentino.

Dígale al entrenador y consulte a su médico si su atleta adolescente padece estos síntomas:

Posibles indicadores de que podría suceder un PCR:

- Colapso o convulsiones, especialmente justo después de ejercitarse;
- Colapso frecuente, o por emoción o susto;
- Falta excesiva de aliento durante el ejercicio;
- Taquicardia o palpitaciones, o ritmo cardíaco irregular;
- Mareo o aturdimiento frecuente;
- Dolor o malestar en el pecho al ejercitarse;
- Fatiga excesiva e inesperada durante o después del ejercicio.

Factores que incrementan el riesgo de que suceda un PCR:

- La presencia de una anomalía estructural del corazón, reparada o no reparada;
- Familiares que han sufrido sin explicación, colapsos, convulsiones, un accidente automovilístico, que se han ahogado o han estado a punto de ahogarse;
- Un historial clínico familiar de anomalías cardíacas conocidas o muerte repentina antes de los 50 años;
- Un historial clínico familiar específico con casos del síndrome del QT largo, síndrome Brugada, miocardiopatía hipertrófica o displasia arritmogénica del ventrículo derecho (DAVD);
- El consumo de enervantes tales como cocaína, inhalantes, drogas “recreativas,” bebidas de energía en exceso, y sustancias o suplementos para mejorar el rendimiento.

#### **¿Qué tan común es el PCR en los Estados Unidos?**

Por ser la principal causa de muerte en los EE. UU. cada año suceden más de 300,000 paros cardíacos lejos de los hospitales, de los que nueve de cada diez son mortales. Miles de jóvenes son víctimas de los paros cardíacos repentinos por ser la segunda causa de muerte en menores de 25 años y la principal razón por la que mueren los atletas adolescentes durante el ejercicio.

### **¿Quién corre el riesgo de sufrir un paro cardíaco repentino?**

Los atletas adolescentes corren más riesgo de sufrir un paro cardíaco repentino debido a que tiende a suceder durante el ejercicio o la actividad física. Aunque una enfermedad cardíaca no siempre demuestra signos de advertencia, los estudios demuestran que muchos jóvenes sí tienen síntomas pero no se lo dicen a un adulto. Esto puede ser porque les da pena, no quieren que los saquen de un partido, creen erróneamente que les falta condición física y solamente necesitan entrenar más, o simplemente ignoran los síntomas y suponen que “desaparecerán.” Algunos factores de antecedentes clínicos también aumentan el riesgo de que suceda un PCR.

### **¿Qué debe hacer si su atleta adolescente padece alguno de estos síntomas?**

Debemos informarles a los atletas adolescentes que si padecen cualquier síntoma del PCR, es de suma importancia avisarle a un adulto y consultar con un médico de cabecera lo antes posible. Si el atleta presenta cualquiera de los factores que incrementan el riesgo de que suceda un PCR, deberá consultar a un médico para ver la posibilidad de que se le hagan más pruebas. Espere la respuesta del médico antes de que su adolescente vuelva a jugar y además, avise a su entrenador y a la enfermera escolar de cualquier afección diagnosticada.

### **Volver a Jugar**

Federación Interescolar de California (CIF) enmendó sus estatutos para poder incluir lenguaje que incluye capacitación acerca del PCR como requisito en la certificación de entrenadores deportivos. Además, esto ayuda a incluirla en el protocolo de entrenamiento y juego para que los entrenadores tengan la autoridad de sacar del juego a un atleta adolescente que se colapse. El atleta adolescente que haya sido suspendido de un juego después de mostrar signos o síntomas asociados con un PCR, no puede volver a jugar hasta que un médico certificado le haya evaluado y aprobado (medical doctor or doctor of osteopathy). Se les insta a los padres, tutores y cuidadores a que hablen con sus atletas adolescentes acerca de la salud del corazón. Igualmente.

He leído y entendido los síntomas y los signos de advertencia del PCR y el nuevo protocolo de la CIF para incluir medidas para prevenir que suceda un PCR dentro del programa deportivo de mi estudiante

In addition, if any past due payment has not been received by Panorama within thirty (30) days from the time such payment is due, Panorama may upon written notice to Client suspend access to the Platform until such payment is made.

3.2 Taxes; Tax Exemption. All amounts payable by Client to Panorama hereunder are exclusive of any sales, use and other taxes or duties, however designated, including without limitation, withholding taxes, royalties, know-how payments, customs, privilege, excise, sales, use, value-added and property taxes (collectively "Taxes"). To the extent applicable, Client will be solely responsible for payment of all Taxes and will not withhold any Taxes from any amounts due Panorama. For the avoidance of doubt, Taxes do not include taxes based on Panorama's income. Client is responsible for determining whether it qualifies for any tax exemption, and if Client claims it is tax-exempt, it will, upon request from Panorama, provide documentation evidencing its tax-exempt status.

### **4 TERM, TERMINATION**

4.1 Term. The term of the Agreement will commence on the Effective Date and, unless earlier terminated in accordance with this Section 4, will continue through the date set forth on the SO ("Term").

4.2 Expiration; Termination. ## 5 CONFIDENTIALITY

5.1 As used herein, “Confidential Information” means, subject to the exceptions set forth in the following sentence, any information or data that is not Client PII, regardless of whether it is in tangible form, disclosed by either party (“Disclosing Party”) that Disclosing Party has either marked as confidential or proprietary, or has identified in writing as confidential or proprietary within thirty (30) days of disclosure to the other party (“Receiving Party”); provided, however, that a Disclosing Party’s business plans, strategies, technology, research and development, current and prospective clients and customers, billing records, and products or services will be deemed Confidential Information of Disclosing Party even if not so marked or identified. Panorama’s Confidential Information includes, without limitation, the Platform and this Agreement. Information will not be deemed Confidential Information” if such information: (a) is known to the Receiving Party prior to receipt from Disclosing Party directly or indirectly from a source other than one having an obligation of confidentiality to Disclosing Party; (b) becomes known (independently of disclosure by Disclosing Party) to the Receiving Party directly or indirectly from a source other than one having an obligation of confidentiality to Disclosing Party; or (c) becomes publicly known or otherwise ceases to be secret or confidential, except through a breach of this Agreement by the Receiving Party. Each party acknowledges that certain Confidential Information may constitute valuable trade secrets and proprietary information of a party, and each party agrees that it will use the Confidential Information of the other party solely in accordance with the provisions of this Agreement and will not disclose, or permit to be disclosed, the same directly or indirectly, to any third party without the other party’s prior written consent, except as otherwise permitted hereunder. Each party will use reasonable measures to protect the confidentiality and value of the other party’s Confidential Information. Notwithstanding any provision of this Agreement, either party may disclose the terms of the Agreement, in whole or in part (i) to its employees, officers, directors, professional advisers (e.g., attorneys, auditors, financial advisors, accountants and other professional representatives), existing and prospective investors or acquirers contemplating a potential investment in or acquisition of a party, sources of debt financing, acquirers and/or subcontractors who have a need to know and are legally bound to keep such Confidential Information confidential by confidentiality obligations or, in the case of professional advisors, are bound by ethical duties to keep such Confidential Information confidential consistent with the terms of this Agreement; and (ii) as reasonably deemed by a party to be required by law (in which case each party will provide the other with prior written notification thereof, will provide such party with the opportunity to contest such disclosure, and will use its reasonable efforts to minimize such disclosure to the extent permitted by applicable law). Each party agrees to exercise due care in protecting the Confidential Information from unauthorized use and disclosure. In the event of actual or threatened breach of the provisions of this Section, the non-breaching party will be entitled to seek immediate injunctive and other equitable relief, without waiving

any other rights or remedies available to it. Each party will promptly notify the other in writing if it becomes aware of any violations of the confidentiality obligations set forth in the Agreement. Upon Disclosing Party’s written request, Receiving Party will either promptly return to Disclosing Party Disclosing Party’s Confidential Information, and all embodiments thereof, that is in Receiving Party’s possession and certify such return or use reasonable efforts to delete or otherwise render inaccessible such Confidential Information and certify the same.

## 6 REPRESENTATIONS, WARRANTIES AND DISCLAIMER

6.1 Representations and Warranties. Each party represents and warrants to the other party that (a) such party has the required power and authority to enter into this Agreement and to perform its obligations hereunder, (b) the execution of this Agreement and performance of its obligations thereunder do not and will not violate any other agreement to which it is a party or any law or regulation applicable to it, and (c) this Agreement constitutes a legal, valid and binding obligation when signed by both parties. Client further represents and warrants that it has the right to provide Client Data to Panorama as well as the licenses and rights therein and thereto for the purposes contemplated by this Agreement.

6.2 Disclaimer. EXCEPT AS EXPRESSLY SET FORTH HEREIN, THE PLATFORM IS PROVIDED ON AN “AS-IS” BASIS AND PANORAMA DISCLAIMS ANY AND ALL WARRANTIES. EXCEPT AS OTHERWISE EXPRESSLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY ADDITIONAL REPRESENTATION OR WARRANTY OF ANY KIND, WHETHER EXPRESS, IMPLIED (EITHER IN FACT OR BY OPERATION OF LAW), OR STATUTORY, AS TO ANY MATTER WHATSOEVER. ALL OTHER EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS AND WARRANTIES ARE HEREBY EXCLUDED TO THE EXTENT ALLOWED BY APPLICABLE LAW. EACH PARTY EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, QUALITY, ACCURACY, TITLE, AND NON-INFRINGEMENT. NEITHER PARTY WARRANTS AGAINST INTERFERENCE WITH THE ENJOYMENT OF THE PRODUCTS OR SERVICES PROVIDED BY SUCH PARTY OR AGAINST INFRINGEMENT. NEITHER PARTY WARRANTS THAT THE PRODUCTS OR SERVICES PROVIDED BY SUCH PARTY ARE ERROR-FREE OR THAT OPERATION OF SUCH PARTY’S PRODUCTS OR SERVICES WILL BE SECURE OR UNINTERRUPTED. NEITHER PARTY WILL HAVE THE RIGHT TO MAKE OR PASS ON ANY REPRESENTATION OR WARRANTY ON BEHALF OF THE OTHER PARTY TO ANY THIRD PARTY.

## 7 LIMITATIONS OF LIABILITY; INDEMNIFICATION

7.1 Disclaimer of Consequential Damages. THE PARTIES HERETO AGREE THAT, NOTWITHSTANDING ANY OTHER PROVISION IN THIS AGREEMENT, EXCEPT FOR LIABILITY ARISING OUT OF (A) CLIENT’S USE OF THE PLATFORM OTHER THAN EXPRESSLY PERMITTED BY SECTION 1 (RIGHT TO USE

PLATFORM), (B) EITHER PARTY'S BREACH OF SECTION 5 (CONFIDENTIALITY), AND (C) A PARTY'S INDEMNIFICATION OBLIGATIONS SET FORTH IN SECTION 7.4 AND 7.5 BELOW, AS APPLICABLE, IN NO EVENT WILL EITHER PARTY BE LIABLE TO THE OTHER FOR ANY SPECIAL, INDIRECT, RELIANCE, INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, LOST OR DAMAGED DATA, LOST PROFITS OR LOST REVENUE, WHETHER ARISING IN CONTRACT, TORT (INCLUDING NEGLIGENCE), OR OTHERWISE, EVEN IF A PARTY HAS BEEN NOTIFIED OF THE POSSIBILITY THEREOF.

7.2 General Cap on Liability. NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT, EXCEPT FOR LIABILITY ARISING OUT OF (A) CLIENT'S USE OF THE PLATFORM OTHER THAN EXPRESSLY PERMITTED BY SECTION 1 (RIGHT TO USE PLATFORM), (B) EITHER PARTY'S BREACH OF SECTION 5 (CONFIDENTIALITY), AND (C) A PARTY'S INDEMNIFICATION OBLIGATIONS SET FORTH IN SECTION 7.4 AND 7.5 BELOW, AS APPLICABLE, UNDER NO CIRCUMSTANCES WILL EITHER PARTY'S LIABILITY FOR ALL CLAIMS ARISING UNDER OR RELATING TO THIS AGREEMENT (INCLUDING BUT NOT LIMITED TO WARRANTY CLAIMS), REGARDLESS OF THE FORUM AND REGARDLESS OF WHETHER ANY ACTION OR CLAIM IS BASED ON CONTRACT, TORT, OR OTHERWISE, EXCEED THE AGGREGATE FEES PAID BY CLIENT TO PANORAMA UNDER THIS AGREEMENT DURING THE TWELVE (12) MONTH PERIOD PRECEDING THE EVENT OR CIRCUMSTANCES GIVING RISE TO SUCH LIABILITY. THIS LIMITATION OF LIABILITY IS CUMULATIVE AND NOT PER INCIDENT.

7.3 Independent Allocations of Risk. EACH PROVISION OF THIS AGREEMENT THAT PROVIDES FOR A LIMITATION OF LIABILITY, DISCLAIMER OF WARRANTIES, OR EXCLUSION OF DAMAGES IS TO ALLOCATE THE RISKS OF THIS AGREEMENT BETWEEN THE PARTIES. EACH OF THESE PROVISIONS IS SEVERABLE AND INDEPENDENT OF ALL OTHER PROVISIONS OF THIS AGREEMENT, AND EACH OF THESE PROVISIONS WILL APPLY EVEN IF THEY HAVE FAILED OF THEIR ESSENTIAL PURPOSE.

7.4 Indemnification by Panorama. Except for liability for which Client is responsible under Section 7.5, Panorama will indemnify, defend and hold Client and the officers, directors, agents, and employees of Client ("Client Indemnified Parties") harmless from settlement amounts and damages, liabilities, penalties, costs and expenses ("Liabilities") that are payable to any third party or incurred by the Client Indemnified Parties (including reasonable attorneys' fees) arising from any third party claim, demand or allegation that the use of the Platform in accordance with the terms and conditions of this Agreement infringes such third party's copyright or results in a misappropriation of such third party's trade secrets. Panorama will have no liability or obligation under this Section 7.4 if such Liability is caused in whole or in part by (a) modification of the Platform by any party other than Panorama without Panorama's express consent; (b) the combination, operation, or use of the Platform with other product(s), data or services not provided by Panorama where the Platform would not by itself be infringing;

version April 1 2021

or (c) unauthorized or improper use of the Platform. If the use of the Platform by Client has become, or in Panorama's opinion is likely to become, the subject of any claim of infringement, Panorama may at its option and expense (i) procure for Client the right to continue using the Platform as set forth hereunder; (ii) replace or modify the Platform to make it non-infringing so long as the Platform has at least equivalent functionality; (iii) substitute an equivalent for the Platform or (iv) if options (i)-(iii) are not available on commercially reasonable terms, terminate the Agreement. This Section 7.4 states Panorama's entire obligation and Client's sole remedies in connection with any claim regarding the intellectual property rights of any third party.

7.5 Indemnification by Client. Client will indemnify, defend and hold Panorama and the officers, directors, agents, and employees of Panorama ("Panorama Indemnified Parties") harmless from Liabilities that are payable to any third party or incurred by the Panorama Indemnified Parties (including reasonable attorneys' fees) arising from any third party claim, demand or allegation arising from or related to any use by Client or Authorized Users of the Platform or Client Data in violation of the Agreement or any applicable federal, state or local law or regulation.

7.6 Indemnification Procedure. If a Client Indemnified Party or a Panorama Indemnified Party (each, an "Indemnified Party") becomes aware of any matter it believes it should be indemnified under Section 7.4 or Section 7.5, as applicable, involving any claim, action, suit, investigation, arbitration or other proceeding against the Indemnified Party by any third party (each an "Action"), the Indemnified Party will give the other party ("Indemnifying Party") prompt written notice of such Action. Indemnified Party will cooperate, at the expense of Indemnifying Party, with Indemnifying Party and its counsel in the defense and Indemnified Party will have the right to participate fully, at its own expense, in the defense of such Action with counsel of its own choosing. Any compromise or settlement of an Action will require the prior written consent of both parties hereunder, such consent not to be unreasonably withheld or delayed.

## 8 GENERAL

8.1 International. Client may not remove or export from, or use from outside, the United States or allow the export or re-export of the Platform or anything related thereto, or any direct product thereof in violation of any restrictions, laws or regulations of the United States Department of Commerce, the United States Department of Treasury Office of Foreign Assets Control, or any other United States or foreign agency or authority.

8.2 Relationship. No agency, partnership, joint venture, or employment is created as a result of the Agreement and a party does not have any authority of any kind to bind the other party in any respect whatsoever.

8.3 Publicity. Each party agrees that it will not, without prior written consent of the other, issue a press release regarding their business relationship. Notwithstanding anything

herein to the contrary, Panorama may identify Client and the relationship between Panorama and Client in Panorama's marketing collateral, website, and other promotional, proposal and marketing materials.

8.4 **Assignment.** Neither party may assign the Agreement by operation of law or otherwise or assign or delegate its rights or obligations under the Agreement without the other party's prior written consent; provided however, that either party may assign the Agreement to an acquirer of or successor to all or substantially all of its business or assets to which the Agreement relates, whether by merger, sale of assets, sale of stock, reorganization or otherwise. Any assignment or attempted assignment by either party otherwise than in accordance with this Section 8 will be null and void.

8.5 **Equitable Relief.** In any action or proceeding to enforce rights under the Agreement, the prevailing party will be entitled to recover costs and attorneys' fees. Client acknowledges that any unauthorized use of the Platform will cause irreparable harm and injury to Panorama for which there is no adequate remedy at law. In addition to all other remedies available under the Agreement, at law or in equity, Client further agrees that Panorama will be entitled to injunctive relief in the event Client uses the Platform in violation of the limited license granted herein or uses the Platform in any way not expressly permitted by the Agreement.

8.6 **Force Majeure.** Each party will be excused from performance for any period during which, and to the extent that, it is prevented from performing any obligation or service, in whole or in part, as a result of a cause beyond its reasonable control and without its fault or negligence, including, but not limited to, acts of God, acts of war, epidemics, fire, communication line failures, power failures, earthquakes, floods, blizzard, or other natural disasters (but excluding failure caused by a party's financial condition or any internal labor problems (including strikes, lockouts, work stoppages or slowdowns, or the threat thereof)) ("Force Majeure Event"). Delays in performing obligations due to a Force Majeure Event will automatically extend the deadline for performing such obligations for a period equal to the duration of such Force Majeure Event. Except as otherwise agreed upon by the parties in writing, in the event such non-performance continues for a period of thirty (30) days or more, either party may terminate the Agreement by giving written notice thereof to the other party. Upon the occurrence of any Force Majeure Event, the affected party will give the other party written notice thereof as soon as reasonably practicable of its failure of performance, describing the cause and effect of such failure, and the anticipated duration of its inability to perform.

8.7 **Governance.** This Agreement will be governed by the laws of the Commonwealth of Massachusetts without regard to its conflict of laws provisions. For all disputes relating to this Agreement, each party submits to the exclusive jurisdiction of the state and federal courts located in Boston, Massachusetts and waives any jurisdictional, venue, or inconvenient forum objections to such courts.

8.8 **Agreement.** Both parties agree that the Agreement is the complete and exclusive statement of the mutual

understanding of the parties and supersedes and cancels all previous written and oral agreements, communications and other understandings relating to the subject matter of the Agreement, and that all waivers and modifications must be in a writing signed by both parties, except as otherwise provided herein. If any provision of the Agreement is found to be unenforceable or invalid, that provision will be limited or eliminated to the minimum extent necessary so that the Agreement will otherwise remain in full force and effect and enforceable. Any additional or different terms proposed by Client, including those contained in Client's procurement order, acceptance, vendor portal or website, shall not be valid or have any effect unless expressly incorporated into the SO and agreed upon in writing by Panorama. Neither Panorama's acceptance of Client's procurement order nor its failure to object elsewhere to any provisions of any subsequent document, website, communication or act of Client shall be deemed acceptance thereof or a waiver of any of the terms in these Terms. If any term of the SO, including any exhibit attached thereto, expressly conflicts with a term of these Terms, the term of the SO (or if applicable the exhibit) shall prevail. If terms within the SO, including any exhibit attached thereto, and these Terms appear merely inconsistent or ambiguous, all such terms shall be given effect to the extent reasonably possible, with a term that is more specific and detailed on a certain matter prevailing over a more general term or silence on that matter. Silence in the SO, or in any exhibit attached thereto, or in these Terms, on a matter that is addressed elsewhere in the Agreement shall not be deemed to present an express conflict, inconsistency or ambiguity.

8.9 **Notices.** All notices under the Agreement will be in writing and sent to the recipient's address set forth in the SO and will be deemed to have been duly given when received, if personally delivered; when receipt is electronically confirmed, if transmitted by facsimile or email; the day after it is sent, if sent for next day delivery by recognized overnight delivery service; and upon receipt, if sent by certified or registered mail, return receipt requested.

Optional Certification

If you need the document certified, an additional \$50.00 per certification will be charged. In order not to delay processing, the client must provide the document title, on a timely basis. AML-Global will create a title if we are not given one in a timely manner. AML-Global certification process is as follows: AML-Global certifies in a one-page affidavit that the completed translation is a true and accurate representation of the original document. We affirm that we have retained a professional translator. We then notarize the affidavit on one separate page and mail the client the original copy. If you would like to see an example of what we use, please request one and we will be happy to send it to you.

We utilize National Association Notary forms to notarize the affidavit, which constitutes the official "Certification". AML-Global cannot guarantee that these forms will be acceptable to the institution they are being sent to and we are not responsible for the decisions of the receiving party. The forms we use are industry standard and are generally acceptable. Before starting the assignment, and depending on the language combination, an ATA Certified, Judicial Council or other State Certified linguist may be requested, to translate and/or to certify the translations. If this is requested and/or we are required to change our standard certification and/or translation process, we are happy to do so, but please note this may affect

the total cost of the project. If this is requested after the start of the project, this will affect the total cost of the project.

Translation Process

As an ISO 9001 and 13485 Certified company we adhere to comprehensive and well-established processes to achieve the highest quality translations. Our translation process centers on a 360-degree feedback mechanism. It starts with our experienced teams of native speaking linguists and project managers who translate and edit text. The text is translated, reviewed by an external editor and reviewed again by our multilingual project managers. Adjustments are made accordingly throughout the process to ensure the final product is a consistent and precisely accurate localized document. To augment our quality system, we have the most up to date document technology available and all documents are treated with the highest degree of confidentiality and security within our entire system. Our detailed processes have proven to be highly effective over a long period of time.

Deliverables

To achieve the highest quality of translation, AML-Global requests that each client provide us with a preferential glossary of terms (if one exists). This will ensure that preferential word usage is properly followed.

There are many options for delivery to complete a project (Word, PDF, Excel, rolling basis, with bates numbers, etc.). In the outset of the project, you will decide what methods you will require. AML-Global will need all instructions and all files, including source files at the inception of the project. If all files are not received on a timely basis or any changes occur afterwards, this may lead to adjustments in delivery schedules as well as additional fees being charged.

Post Delivery & Editing

Please note the client has a right within 14 business days to ask AML-Global to review any potential adjustments to the translation project that may be needed and to determine if they are preferential in nature. If they are preferential in nature and the client has not provided a glossary of terms for the words and phrases in question, AML-Global has the right to charge for these post edits at the hourly fee of \$75.00/hour with a 1-hour minimum. After 14 days, AML-Global has the right to charge for any changes.

If the project involves desktop publishing (DTP), editing, or formatting, and editing needs to be made post final delivery, this will result in additional costs at the same hourly rates quoted at the start of the project. Please note that the turnaround times quoted do not include time for client review, preferential changes and post editing. Proofing of final documents in which the client has provided DTP services will be billed at \$75 per hour.

Agreed and Accepted

## **Program Description Overview**

**STAR of CA** provides a range of behavioral and support services to students with developmental and/or social-emotional disorders, in addition to their families. Students with a variety of barriers to accessing their education can participate in our school-based services, including those students may have or be at risk for an autism spectrum, mood/anxiety, and or behavior disorders that may be interfering with their school performance and ability to participate in the least restrictive environment (LRE).

Services provided include:

- (1) Behavior intervention development and modification (BID)
- (2) Behavior Intervention Implementation of Behavior Modification Plans (BII)
- (3) General Student Paraprofessional Support (GSS)

## **ERA Ed. Description of Services & Fee Schedule**

### **Behavioral Services**

**Direct Instruction (BII)** – STAR of CA provides highly trained behavior technicians who deliver one-on-one direct instruction using Applied Behavior Analytic interventions for students as part of their IEP in order to resolve challenging behaviors, teach replacement behaviors and develop academic readiness and social skills. Direct instruction can be delivered across all settings (e.g., school, home, community) deemed relevant to support the implementation of the student’s IEP.

**Supervision (BID)** – This service includes a range of supervisory activities designed to support the implementation of the student’s behavioral program as specified in their IEP. As part of the supervision model, each STAR of CA behavior technician is trained, evaluated, and monitored by the supervisor as part of our ongoing quality assurance process. The supervisor visits the student’s school, or other settings in which intervention is delivered (e.g., home, community), weekly to assess the program, support the behavior technician, and address classroom team and family questions or concerns. To ensure proper program implementation, fidelity of implementation data and reliability data are taken on each STAR of CA behavior technician. Supervision also includes activities such as reviewing behavioral data and making necessary program changes (e.g., revising data collection systems, adapt teaching strategies), meeting with

the behavior technician to discuss student progress, writing progress reports, and participating in monthly team meetings and IEPs.

**General Student Paraprofessional Support (GSPS)** – STAR of CA provides paraprofessional support for students in order to resolve challenging behaviors, increase engagement, and enhance social skills. General student paraprofessional support can be delivered in individual and group settings.

If any action is brought to interpret or enforce any term of this Agreement, the action shall be brought in state or federal court situated in the County of Ventura, State of California. Provider hereby waives and expressly agrees not to assert, in any way, any claim or allegation that it is not personally subject to the jurisdiction of the courts named above. Provider further agree to waive any claim or allegation that the suit, action, or proceeding is either brought in an inconvenient forum or that the related venue is improper.”

18. **DISPUTE RESOLUTION.**

- a. The parties agree that, in the event of any dispute under the agreement in which the amount sought is \$5,000.00 or less, any litigation to resolve the dispute shall be brought in the Ventura County Small Claims Court.

- c. If the mediator is unable to resolve the dispute, then the parties shall submit the matter to binding arbitration in Ventura County or other mutually agreed location pursuant to the rules of the American Arbitration Association (AAA), as amended or as augmented in this Agreement (the "Rules"). The parties acknowledge that one of the purposes of utilizing arbitration is to avoid lengthy and expensive discovery and allow for prompt resolution of the dispute.

Arbitration shall be initiated as provided by the Rules, although the written notice to the other party initiating arbitration shall also include a description of the claim(s) asserted and the facts upon which the claim(s) are based. Arbitration shall be final and binding upon the parties and shall be the exclusive remedy for all claims subject hereto, including any award of attorneys' fees and costs. ### **The Challenge**

Every year, 2 million of California's 6 million students are not qualified for college upon graduating high school. For decades, the gap between white students and our most vulnerable student populations has persisted. As a result of the pandemic, the gap has increased.

### **Equity Gap >> Achievement Gap**

The root cause of the achievement gap is the disparity in academic performance between different student populations. It is not simply that the same groups of students happen to perform better or worse every year. When we peel back the layers of the systems and practices of districts and schools, we see that some student populations are better set up to succeed while failure is normalized for other student populations, which points to an equity gap.

### **The Orenda Difference >> Educational Equity For All Students**

For over 25 years, Orenda Education has transformed educational systems in the most vulnerable districts in California. Our mission is to ensure that all students receive a premium education that is TRUE, RIGHT, and JUST! We achieve this by partnering with district and school teams to build and refine systems and practices that are grounded in equity, driven by data, and sustained through collaborative learning. Our nested system is designed to support all levels of district staff from the board room to the classroom. With our guidance and when the systems work is implemented with full fidelity, Orenda partners have experienced systemic change for all students.

### **Orenda Education provides both breadth and depth in professional development related to leadership development**

Orenda is an experienced provider in partnering with school and district leaders to provide professional development programs customized to meet the unique needs of schools, clusters of schools or districts. Orenda is the school improvement division of Think Together, a 501 c3 nonprofit corporation, the largest afterschool provider in the state.

Orenda’s systems approach is Teach Lead Counsel (TLC). TLC provides equity-based systemic changes to schools, so improvement is continuous and sustainable.

- **TEACH** builds a powerful teaching and learning system by designing grade-level curriculum, common assessments and instructional strategies while enabling educators to reflect and reassess their methods.
- **LEAD** builds the capacity of site and district leaders through a scholarly and technical approach to support the school conditions for staff and students to reach achievement targets.
- **COUNSEL** builds the student support services division of the school community where staff use actionable college readiness indicator data via Orenda’s monitoring software to measure student progress towards college and career readiness.

The TLC model currently serves schools with a high-impact, in-person, or virtual, systems-driven approach to improve academic achievement for underserved students. The methodologies use data to guide teachers, administrators, and school counselors to ensure that students are mastering grade-level curriculum and are on-track to graduating high school, prepared for college and career ready.

The TLC approach uniquely targets interventions to all levels and professions within an educational community, and not only to teachers, which is more common in the field. This “nested” approach is one of the keys to success towards sustainable, systemic improvement for the entire district.

**Oxnard School District (OSD)** currently partners with Orenda Education to support positive student outcomes throughout the district. At the district’s request and based on our understanding of OSD’s priorities, Orenda is pleased to present the following scope of work for the 2024-25 school year.

- In the event of an emergency and the originally scheduled Orenda Ed specialist is unavailable to provide a scheduled service, an Orenda Ed team member will facilitate the session.
- Changes to the Partnership Plan services will occur through mutual agreement between Orenda Ed and site/district leadership. In the event that different or additional sessions above the agreed upon scope of work are required, if appropriate, the team will propose converting existing sessions prior to proposing a new scope of work.

### **The Challenge**

Every year, 2 million of California's 6 million students are not qualified for college upon graduating high school. For decades, the gap between white students and our most vulnerable student populations has persisted. As a result of the pandemic, the gap has increased.

### **Equity Gap >> Achievement Gap**

The root cause of the achievement gap is the disparity in academic performance between different student populations. It is not simply that the same groups of students happen to perform better or worse every year. When we peel back the layers of the systems and practices of districts and schools, we see that some student populations are better set up to succeed while failure is normalized for other student populations, which points to an equity gap.

### **The Orenda Difference >> Educational Equity For All Students**

For over 25 years, Orenda Education has transformed educational systems in the most vulnerable districts in California. Our mission is to ensure that all students receive a premium education that is TRUE, RIGHT, and JUST! We achieve this by partnering with district and school teams to build and refine systems and practices that are grounded in equity, driven by data, and sustained through collaborative learning. Our nested system is designed to support all levels of district staff from the board room to the classroom. With our guidance and when the systems work is implemented with full fidelity, Orenda partners have experienced systemic change for all students.

### **Orenda Education provides both breadth and depth in professional development related to leadership development**

Orenda is an experienced provider in partnering with school and district leaders to provide professional development programs customized to meet the unique needs of schools, clusters of schools or districts. Orenda is the school improvement division of Think Together, a 501 c3 nonprofit corporation, the largest afterschool provider in the state.

Orenda’s systems approach is Teach Lead Counsel (TLC). TLC provides equity-based systemic changes to schools, so improvement is continuous and sustainable.

- **TEACH** builds a powerful teaching and learning system by designing grade-level curriculum, common assessments and instructional strategies while enabling educators to reflect and reassess their methods.
- **LEAD** builds the capacity of site and district leaders through a scholarly and technical approach to support the school conditions for staff and students to reach achievement targets.
- **COUNSEL** builds the student support services division of the school community where staff use actionable college readiness indicator data via Orenda’s monitoring software to measure student progress towards college and career readiness.

The TLC model currently serves schools with a high-impact, in-person, or virtual, systems-driven approach to improve academic achievement for underserved students. The methodologies use data to guide teachers, administrators, and school counselors to ensure that students are mastering grade-level curriculum and are on-track to graduating high school, prepared for college and career ready.

The TLC approach uniquely targets interventions to all levels and professions within an educational community, and not only to teachers, which is more common in the field. This “nested” approach is one of the keys to success towards sustainable, systemic improvement for the entire district.

**Oxnard School District (OSD)** currently partners with Orenda Education to support positive student outcomes throughout the district. At the district’s request and based on our understanding of OSD’s priorities, Orenda is pleased to present the following scope of work for the 2024-25 school year.

## Partner District Service Plan for 2024-2025

We appreciate your ongoing support and partnership with the Ventura County Indian Education Consortium for the coming school year. Your commitment ensures that we will continue to be able to preserve the heritage and support the academic achievement of American Indian and Alaska Native students in Ventura County, including those from Chumash and other California non-federally recognized tribes.

With your continued partnership we will be able to provide individual or small group lessons to support cultural identity and awareness for eligible Native students at their school campuses, as well as our Parent Advisory Committee, enrollment verification and support, annual Honoring Ceremony and cultural events, teaching resources and lending library for your district staff, and professional development workshops for Indian Education staff. This year's curricular theme is "Native American Music, Dance and Celebration."

Thank you for agreeing to cover the increased costs for program services outlined in the attached Memorandum of Understanding for the 2024-2025 School Year. Based on our federal grant allocation, districts are being asked to contribute an additional \$386.07 for students eligible for the federal grant and \$697.14 for those whose tribal affiliation makes them ineligible for the federal grant.

To finalize preparations for next school year, we kindly request confirmation of funds commitment by Monday, June 3. Please email Robin Jacobs at [robin.jacobs@venturausd.org](mailto:robin.jacobs@venturausd.org) to confirm or with any questions.

Your continued support is instrumental in our mission to meet the culturally related academic needs of all American Indian and Alaska Native students who attend the public schools of Ventura County.

Thank you,

*Robin Jacobs*

## LICENSE AGREEMENT

The Oxnard School District ("District") and Zixta Enterprises, Inc., doing business as Vallarta Supermarkets ("Vallarta"), hereby enter into this license agreement under the following terms and conditions (the "Agreement"):

1. The District grants to Vallarta a license for the non-exclusive use by Vallarta's customers, employees and any and all other persons conducting business with Vallarta for overflow parking purposes (the "Permitted Use"), of the District's front parking lot at the District's administrative offices on 1051 South A Street in Oxnard, California (located at the corner of South "A" Street and West Wooley Road, as depicted on Exhibit A, attached hereto and incorporated herein by this reference, the "Lot"). This license, which confers no easement or other legal interest in the Lot or in any other District property upon Vallarta, is subject to the following conditions:
  - a. The Permitted Use of the Lot is limited to the hours of operation of the Vallarta Supermarket at 1050 South A Street, Oxnard, California ("Vallarta #21"), being Monday through Sunday from 7am to 11pm (the "Operating Hours"), plus the 15 minutes preceding and following the Operating Hours.
  - b. Vallarta shall remove any trash, shopping carts, other materials or debris resulting from the Permitted Use of the Lot at least once per hour during Operating Hours.
  - c. The Permitted Use of the Lot is for overflow parking only and the parking lot located at Vallarta #21 must be used first when space is available in said parking lot.
  - d. Vallarta shall advise its customers that they may not park in spaces designated by the District as reserved or for use by specified persons. The District retains discretion to designate 31 regular parking spaces and 3 handicapped-accessible parking spaces. The District agrees to reasonably notify Vallarta of such designations or changes thereto. In May of 2011, the parties inspected the parking lot together and agree that the designated spaces are as shown on **Exhibit A** hereto and as follows:
    1. All the parking spaces located between the two entrances to the parking lot from "A" street will be reserved for District use only during District hours of operation (M-F 7:00am-5:00pm) and all day on dates when the Board of Trustees holds meetings or other special events require it. A copy of the current schedule of the board meetings has been provided to Vallarta and will be updated and supplemented by the District as needed to accommodate special board meetings or other District activities.
11. A swing arm gate was installed by the District during the Summer of 2011 to clearly separate the designated spaces, which are reserved for District use only during District hours of operation, from the rest of the parking lot. The location

of the swing arm gate will prevent traffic entering through the South ramp from turning into the area where the designated spaces are located, which area is highlighted on the attached Exhibit A. Since traffic entering on the North ramp will be directed South, the parties agree that no fence or gate will be installed, but signs will be posted. Vallarta's security personnel shall be responsible for monitoring the District's designated parking spaces to ensure that said spaces remain available for use by those doing business with the District, and not used by those doing business with Vallarta.

2. The term of the Agreement shall be from July 1, 2024 to and including June 30, 2025 (the "Term"); provided that the Agreement may be terminated earlier as set forth below.
3. Both parties agree to adjust the License Fee annually based on the Consumer Price Index (CPI), which for the current period is 3.10%. In consideration for the License herein granted, Vallarta shall pay the District the amount of \$29,646.68 (the "License Fee") during the Term hereof. The License Fee shall be payable in four (4) quarterly installments of \$7,411.67 each, due on July 1, 2024, October 1, 2024, January 1, 2025, and April 1, 2025. Vallarta shall also do the following:
  - a. Procure and maintain insurance for bodily injury and property damage (including for damage to vehicles and for vandalism), with an insurer rated no lower than A- in A.M. Best's Financial Strength Ratings, or otherwise satisfactory to the Superintendent or Risk Manager of the District (as evidenced via a written certificate), of at least \$10 million per occurrence and \$10 million aggregate. The insurance policy shall include an endorsement listing the District, the members of its Board of Education, and the officers and employees of the District as additional primary insureds and shall state that the District and its Board members, officers, and employees shall not be responsible for paying any premiums on the policy or paying any deductibles or contribution as a condition of coverage.
  - b. The policy and endorsement shall also provide for a minimum of 30 calendar days' notice to the District prior to cancellation of the policy. Vallarta shall bear the expense of procuring the coverage and endorsement.
  - c. Upon commencement of the Term hereof, Vallarta shall provide a Certificate of Insurance to the District demonstrating compliance with this Paragraph.
  - d. At any time during the Term the District may notify Vallarta that it must provide a then current Certificate of Insurance demonstrating compliance with this Paragraph. Vallarta shall provide a certificate within five (5) working days of receiving such notice.

The District shall notify Vallarta of any claims or legal action covered by this Paragraph within 20 business days of receiving the same, but the District's failure to timely notify Vallarta shall not relieve Vallarta of its obligations under this Paragraph unless the District's delay actually makes it impossible for Vallarta to meet such obligations.

1. If the District believes that Vallarta is failing to meet its obligations under this Agreement, the District shall notify Vallarta in writing of the events and/or conditions that it believes constitutes such failure. Vallarta shall immediately correct the deficiencies identified by the District. If Vallarta fails to immediately correct these deficiencies, the District may declare Vallarta in default and immediately terminate this Agreement.   2. This Agreement, being in nature a license, may be terminated by either party at any time, without cause, upon forty-five (45) days' notice to the other party; provided, however, that Vallarta's obligations under Paragraph 4, above, shall survive the termination of this Agreement.
  3. This Agreement may only be amended in a written instrument signed by authorized representatives of the District and Vallarta that has been approved by the District's Governing Board.
  4. Vallarta may not assign its rights or obligations under this Agreement without the prior written approval of the District.
  5. Vallarta, by executing and delivering this Agreement, represents and acknowledges that it has read and understood this Agreement in its entirety and that it is willing and able to comply with its obligations hereunder. Vallarta further acknowledges and agrees that the District is a public entity and, as such, is subject to very specific requirements and limitations and that this Agreement and the obligations of the District hereunder are subject to all applicable federal, state, and local rules.
10. In connection with this Agreement, the District has determined that the use contemplated herein will not interfere with any District educational activity or otherwise jeopardize the education or safety of District students. The District has also determined that the licensed use will not unduly disrupt the residents of the surrounding neighborhood and may benefit the neighborhood by lessening the use of sidewalks or other areas by Vallarta customers.
11. This Agreement shall be interpreted in accordance with the laws of the State of California and, where applicable, with the Codes and/or Ordinances of the City of Oxnard.

1. This Agreement shall be considered to have been entered into and performed within the City of Oxnard, State of California.
2. Any action brought to interpret or enforce any term of this Agreement, shall be brought in a state or federal court situated within the County of Ventura. In the event of any such litigation between the parties, the prevailing party shall be entitled to recover all reasonable costs incurred, including reasonable attorney's fees, as determined by the court.
3. All notices under this Agreement shall be made in writing and shall be delivered by being (i) personally served upon the other party, (ii) mailed via U.S. mail, or (iii) delivered via overnight delivery service. A notice delivered by personal service is deemed received on the date upon which it is delivered. A notice delivered via U.S. mail is deemed received five calendar days after it has been deposited in a mailbox or with a U.S. Post Office. District offers after-school programs to its grade level students for the 180 school days and 30 non-school days within each fiscal year (July 1 to June 30).

B. For District’s after-school program, the “Lead Agency” is responsible for providing daily after-school programming for the 180 school days and 30 non-school days within each fiscal year as required by funding; works with the program from school dismissal until closing time; and provides management, oversight, and coordination of all afterschool programs, including recruitment, enrollment, and programming provided by Enrichment Agencies.

C. In the event that no charges

or expenses are disputed, the invoice shall be approved and paid according to the terms set forth in subsection c. In the event any charges or expenses are disputed by District, then District shall return the original invoice to Service Provider for correction and resubmission.

c. Except as to any charges for work performed or expenses incurred by Service Provider which are disputed by District, District will use its best efforts to cause Service Provider to be paid within forty-five (45) calendar days of receipt of Service Provider's correct and undisputed invoice.

d. Payment to Service Provider for work performed pursuant to this Agreement shall not be deemed to waive any defects in work performed by Service Provider.

**5. Quarterly Review and Adjustment of Scope of Work.** District may, in its sole and absolute discretion, (a) conduct a quarterly performance review of the Services, including, but not limited to, enrollment numbers, alignment with District goals and priorities, compliance with assurances, and other reasonable evaluation indicators, and (b) based on such assessment, require Service Provider to adjust and/or decrease the frequency of its services by a specified amount within thirty (30) calendar days or another timeframe established by District in its sole discretion, in which event District will simultaneously reduce Service Provider's compensation *pro rata* with no liability to Service Provider for such reduction.

b. **Termination by Service Provider for Cause.** Service Provider may, upon thirty (30) calendar days written notice to District, (i) terminate this Agreement or suspend work under this Agreement for a reasonable period of time, and (ii) recover from District payment for all work executed if: (A) Service Provider's work under this Agreement is stopped for a period of six (6) months or more pursuant to an order of any court of competent jurisdiction or any public authority (but not for a school closure event as set forth in paragraph 7 of this Agreement), and through no act or fault of Service Provider or of anyone employed by Service Provider or acting on Service Provider's behalf, (B) District fails to pay Service Provider within sixty (60) calendar days after its maturity and presentation any sum awarded by final arbitration or a court of competent jurisdiction, or (C) Service Provider delivers District written notice of any alleged material breach of this Agreement by District and District fails to cure such alleged breach within sixty (60) calendar days, provided, however, that the timeline for cure shall be extended for an additional period if District is diligently pursuing such cure in good faith and an additional time period for the cure is reasonably warranted.

c. **Termination by District for Non-Appropriation of Funds.** District shall have the right to terminate this Agreement at any time due to non-appropriation of funds.

d. **Termination by District for Convenience.** District shall have the right to terminate this Agreement for convenience by giving Service Provider at least ninety (90) calendar days written notice.

For the purposes of this subparagraph, "cause" shall include, but not be limited to, (i) Service Provider filing for bankruptcy, being adjudged bankrupt, or being subject to involuntary bankruptcy proceedings; (ii) Service Provider making a general assignment for the benefit of Service Provider's creditors; (iii) the appointment of a receiver due to Service Provider's insolvency; (iv) the levy of an attachment of execution upon Service Provider's property; (v) the persistent or repeated failure or refusal of Service Provider to properly staff the after-school programs or otherwise violate any provisions of Exhibits A-0 to A-3; (vi) the material violation of any applicable law or District regulation or policy; (vii) any act or omission by any Service Provider or its subcontractor personnel that constitutes gross negligence or willful misconduct, endangers or is likely to endanger the safety, health, or wellbeing of any District student or staff, or represents a repeated default by Service Provider personnel (*e.g.*, repeated late arrivals to school sites or repeated violations of the Standards for Performance); and (viii) any other material breach of the Contract by Service Provider, Service Provider's employees, Service Provider's subcontractors or anyone acting on Service Provider's behalf, including, but not limited to, the breach of any covenant, representation or warranty in this Agreement, and the violation of any provision of the RFP (including continuing disclosure obligations). Any failure on the part of District to give notice of the Service Provider's default shall not be deemed to result in a waiver of District's legal rights or any rights arising out of any provision of this Agreement. District may, but is not obligated to, provide Service Provider an opportunity to cure any default. Notwithstanding the thirty (30) calendar days' advance written notice specified herein, District reserves the right to *immediately* suspend the Services of Service Provider if the circumstances reasonably warrant (*e.g.*, due to imminent safety and health issues). Moreover, Service Provider shall be liable to District for any excess cost occasioned to District by termination for cause. The foregoing provisions for termination of this Agreement are in addition to, and not in limitation of, the rights of District under any other provisions of the Contract. Service Provider shall not be deemed to be in default if its failure to perform any Services or comply with any provisions of this Agreement results solely from the gross negligence or willful misconduct of District.

f. **Effect of Termination or Expiration of Agreement.** Upon termination or expiration of the Term, this Agreement, and the entire Contract, shall terminate; Service Provider shall cease providing the Services; Service Provider shall vacate the District premises, leaving them in a neat and orderly condition; and Service Provider and District shall comply with any remaining obligations under the Contract, as applicable (*e.g.*, payment of any sums still due and owing,). Service Provider acknowledges and agrees that certain obligations shall survive the termination or expiration of the Contract, including, but not limited to, Service Provider's indemnity obligations, confidentiality obligations, and obligations regarding delivery and maintenance of reports and records.

7. **School Closures.** If District, or any one or more schools within District, are closed due to any lawful reason including in response to governmental orders or advisories, or to protect the

health, safety and welfare of students and employees, or by reason of any emergency (including, but not limited to, a wildfire, mudslide, or earthquake), and District notifies Service Provider that it does not need to provide the Services or any portion of the Services, then District shall not be charged or required to pay for the Services, staffing, overhead, or any other related costs for the closed school site(s) during the applicable closure period. Additionally, if any school site is required to rely on remote learning in lieu of or in addition to student attendance at the time of commencement of classes or any time during the school year, then District shall have the right to notify Service Provider of the revised service needs, and the Service Provider shall, to the maximum extent reasonably practicable, provide the Services via remote learning or via a hybrid of in-person and remote learning, in which event District shall not be charged or required to pay for any additional costs of the remote or hybrid learning and, if the Services are reduced, then District shall only be billed for the Services provided and adjusted actual costs for reduced services received. District shall also furnish Service Provider written notice of school reopening plans, including phases and any interruptions in reopening schedules, and Service Provider agrees to furnish the Services as needed by District with cost reductions as reasonably warranted. Service Provider agrees to cooperate with District in cost reduction and utilization changes, including, but not limited to, working with Service Provider on partial, phased, or full reopening plans to provide such services as District shall need under those plans. Notwithstanding the generality of the foregoing clauses within this section, District may, in its sole and absolute discretion, elect to continue to pay for the Services despite the closure of one or more school sites if, for example, District receives emergency funds from the State or other sources for such purposes.

**8. Service Provider's Representations and Warranties.** In addition to any other representations and warranties set forth elsewhere in the Contract, Service Provider hereby represents and warrants to District that:

a. Service Provider is currently authorized and qualified to conduct business in the State and the County, and Service Provider will remain in good standing in the State, the County and, as applicable, the Internal Revenue Service, Franchise Tax Board, and Attorney General, for the entire term of the Contract.

b. Service Provider has carefully examined the Contract; is familiar with the Services; and has the expertise, personnel, and resources to timely and properly conduct the Services.

c. Service Provider has the right, power, and authority to enter into the Contract, including this Agreement and all contract documents, and to perform its obligations hereunder and under the Contract.

d. This Agreement constitutes the legal, valid, and binding obligation of Service Provider enforceable against Service Provider in accordance with its terms, except to the extent that such enforcement may be limited by applicable bankruptcy, insolvency, moratorium, and other principles relating to or limiting the rights of contracting parties generally. This Agreement does not violate any provision of any material agreement or document to which Service Provider is a party or by which Service Provider is bound.

e. There are no lawsuits, claims, suits, proceedings, or investigations pending or, to Service Provider's knowledge, threatened against Service Provider arising out of or concerning Contractor's performance under this Agreement. There are no suits, actions, or proceedings pending, or to Service Provider's knowledge, threatened against Service Provider which question the legality or propriety of the transactions contemplated hereunder.

All representations and warranties of Service Provider are made as of the Effective Date and shall survive the term of the Contract for a period of three (3) years. Service Provider shall be in material default if Service Provider is unable to make the representations and warranties hereunder as of the Effective Date.

**9. Ownership of Documents; Use of Documents by District.** All curriculum, models, designs, drawings, photographs, studies, surveys, reports, data, notes, computer files, files, fliers, and other documents prepared, developed or discovered by Service Provider in the course of providing any of the Services pursuant to this Agreement (collectively and individually, the "Documents") shall become the sole property of District and may be used, reused or otherwise disposed of by District without the permission of the Service Provider. Upon completion, expiration or termination of this Agreement, Service Provider shall turn over to District all such Documents. If and to the extent that District utilizes for any purpose not related to this Agreement any Documents, Service Provider's guarantees and warrants related to Standards of Performance as set forth in paragraph 13 of this Agreement shall not extend to such use of the Documents.

**10. Service Provider's Books and Records.**

a. For purposes of this Agreement, the term "Records" means any and all books and records relating to Service Provider's performance of Services at each and every school site within the District, including, but not limited to, all:

iii. food service reimbursable snack logs and Q meal summary electronic reports for nutrition provided to students attending the programs;

iv. ledgers, books of account, invoices, vouchers, canceled checks, and other records evidencing or relating to work, services, expenditures, and disbursements charged to District under this Agreement (which Service Provider shall maintain in accordance with generally accepted accounting principles and

with sufficient detail to permit an accurate evaluation of the Services provided by Service Provider pursuant to this Agreement); and

v. evidence of any grants, matching funds, in-kind donations, or other financial contributions to the Program that were provided through or on account of Service Provider.

b. District's fiscal year is July 1 to June 30. By July 15 of each year, Service Provider shall deliver to District true and correct copies of all Records for the prior fiscal year (e.g., by July provide copies of all Records for ). Service Provider shall upload true and correct electronic copies of the Records to a secure portal as directed by District.

c. Service Provider shall maintain any and all Records for a minimum of five (5) years after termination or expiration of this Agreement, or longer if required by law.

d. Any and all such Records shall be made available for inspection, audit and copying, at any time during regular business hours, upon request by District or its designated representative. Copies of such Records shall be provided directly to District for inspection, audit and copying when it is practical to do so; otherwise, unless an alternative is mutually agreed upon, such Records shall be made available at Service Provider's address indicated for receipt of notices in this Agreement or via electronic delivery.

e. District has the right to acquire custody of such Records by written request if Service Provider decides to dissolve or terminate its business. Service Provider shall deliver or cause to be delivered all such Records to District within sixty (60) workdays of receipt of the request.

**11. Independent Contractor.** Service Provider is and shall at all times remain a wholly independent contractor and not an officer, employee, or agent of District.

a. The personnel performing the Services under this Agreement on behalf of Service Provider shall at all times be under Service Provider's exclusive direction and control. Service Provider, its agents or employees shall not at any time or in any manner represent that Service Provider or any of Service Provider's officers, employees, or agents are in any manner officials, officers, employees, or agents of District. Neither Service Provider, nor any of Service Provider's officers, employees, or agents, shall, by virtue of Services rendered under this Agreement, obtain any rights to retirement, health care or any other benefits which may otherwise accrue to District's employees. Service Provider will be responsible for payment of all Service Provider's employees' wages, payroll taxes, employee benefits, workers' compensation, and any amounts due for federal and state income taxes and social security taxes since these taxes will not be withheld from payment under this Agreement.

b. Service Provider shall have no authority to bind District in any manner, or to incur any obligation, debt, or liability of any kind on behalf of or against District, whether by contract or otherwise, unless such authority is expressly conferred in writing by District, or under this Agreement.

**12. Penal Code sections 667.5 and 1192.7.** If Service Provider becomes aware that any person employed by or volunteering with Service Provider in connection with the Services has been arrested or convicted of a violent or serious felony listed in Penal Code Section 667.5(c) or 1192.7(c), then Service Provider must immediately remove said employee or volunteer from the performance of the Services, prevent the employee or volunteer from interacting with District students, and notify District. District retains the right to prohibit any such employee from participating in the program or having access to students or the program site.

**13. Standards of Performance.** Service Provider represents and warrants that it has the qualifications, experience, resources, and facilities necessary to properly perform the Services required under this Agreement in a thorough, competent, and professional manner. Service Provider shall at all times faithfully, competently and to the best of its ability, experience, and talent, perform all Services described herein. In meeting its obligations under this Agreement, Service Provider shall employ, at a minimum, generally accepted standards and practices utilized by persons engaged in providing services similar to those required of Service Provider under this Agreement.

**14. Confidential Information, Generally.** All information gained during performance of the Services and all Documents or other work product produced by Service Provider in performance of this Agreement shall be considered confidential, but only to the extent such information is not considered a public record for purposes of federal or state law. Service Provider shall not release or disclose any such information, Documents or work product to persons or entities other than District without prior written authorization from the Superintendent of District, except as may be required by law.

a. Service Provider shall promptly notify District if it is served with any summons, complaint, subpoena or other discovery request, court order or other request from any Party regarding this Agreement or the work performed hereunder.

b. District retains the right, but has no obligation, to represent Service Provider or be present at any deposition, hearing, or similar proceeding. Service Provider agrees to cooperate fully with District and to provide District with the opportunity to review any response to discovery requests provided by Service Provider; provided that this does not imply or mean the right by District to control, direct, or rewrite said response.

**15. Student Privacy Laws.**

a. In relation to the performance of the Services, Service Provider may receive or obtain access to confidential student data (“Confidential Student Data”) that is governed by privacy laws under federal or state law, including, but not limited to, the Health Insurance Portability and Accountability Act of 1996 (Pub. L. 104-191) (“HIPAA”); the Family Educational Rights and Privacy Act of 1974 (20 USC § 1232g and 34 CFR Part 99) (“FERPA”); the Protection of Pupil Rights Amendment (20 USC § 1232h) (“PPRA”); the Children’s Online Privacy Protection Act of 1998 (15 USC §§ 6501, *et seq.*) (“COPPA”); California Education Code Section 49073-49079.7; the Student Online Personal Information Privacy Act (Cal. Business and Prof. Code §§ 22584, *et seq.*) (“SOPIPA”); the Early Learning Personal Information Protection Act (Cal. Business and

Prof. Code §§ 22586, *et seq.*) (“ELPIPA”) (collectively, the “Student Privacy Laws”). Service Provider agrees to abide by the Student Privacy Laws in connection with all Confidential Student Data.

b. Service Provider shall strictly comply with the Student Privacy Laws. Without limiting the generality of the foregoing, Service Provider shall perform the following duties in regards to any Confidential Student Data that Service Provider obtains in the performance of the Contract: (i) not disclose the information to any other party without the consent of the parent/guardian or an eligible student; (ii) use the data for no other purpose than the performance of the services contemplated under the Contract; (iii) permit District access to any relevant records for the purpose of completing authorized audits; (iv) require all of Service Provider’s officers, directors, administrators, employees, subcontractors, and agents to comply with all provisions of the Student Privacy Laws; (v) designate in writing a single authorized representative who shall be responsible for requesting, receiving, transmitting and, as permitted under the Contract and applicable law, destroying Confidential Student Data; (vi) maintain all Confidential Student Data in a secure computer and not copying, reproducing or transmitting data except as necessary to perform under the Contract; and (vii) destroy or return all personally identifiable information obtained under the Contract when it is no longer needed for the purpose for which it was obtained no later than thirty (30) calendar days after it is no longer required. Failure to properly destroy or return Confidential Student Data shall preclude Service Provider from accessing personally identifiable student information for at least five (5) years as provided in 34 C.F.R. Section 99.31(a)(6)(iv), which shall be grounds for District to terminate this Agreement for cause and seek any and all remedies available to District at law or in equity.

c. In the event that Service Provider operates a website, online service, mobile application or similar medium, Service Provider shall comply with the requirements of SOPIPA (Cal. Business and Prof. Code §§ 22584, *et seq.*) by (a) not knowingly engaging in advertising targeted to District students or their parents or guardians, creating profiles of students or their parents or guardians, selling information about students or their parents or guardians, or disclosing any personally identifiable information without proper prior consent; (b) storing, processing and protecting District data pursuant to commercial best practices, including encrypting data; (c) promptly deleting District data, including, but not limited to, student, parent and guardian data, upon District’s request; and (d) not storing District data outside of the United States.

**16. Conflict of Interest; Disclosure of Interest.** Service Provider covenants that neither it, nor any of its officers or employees, has or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of District or which would in any way hinder Service Provider’s performance of Services under this Agreement. Service Provider further covenants that in the performance of this Agreement, no person having any such interest shall be employed by it as an officer, employee, agent, or subcontractor without the express written consent of the District.

a. Service Provider agrees to at all times avoid conflicts of interest or the appearance of any conflicts of interest with the interests of District in the performance of this Agreement.

b. Board Bylaws Sections 9270 and 9270-E, as hereinafter amended or renumbered, require that a Service Provider that qualifies as a “designated employee” must disclose certain financial interests by filing financial interest disclosures. By its initials below, Service Provider represents that it has received and reviewed a copy of the Board’s Bylaws Sections 9270 and 9270-E (available on the District’s website at <https://www.oxnardsd.org/domain/12>) and that it does not qualify as a “designated employee.”

**17. Compliance with Applicable Laws.** Service Provider hereby agrees that Service Provider, and its officers, owners, agents, employees, and subcontractors, shall keep themselves informed of and comply with all applicable federal, state, and local laws, statutes, codes, ordinances, regulations, and rules in the performance of the Contract, including, but not limited to, minimum wage laws and laws prohibiting discrimination. Service Provider shall be responsible for the safety of its employees and shall comply with all applicable regulations of the California Division of Occupational Safety and Health (Cal OSHA), including, but not limited to, California Code of Regulations Title 8, section 3203, Injury and Illness Prevention Program, and section 3205, COVID-19 Prevention. Service Provider shall ensure that workers in school settings who are on-site supporting school functions are compliant with applicable Public Health Department Orders and Guidance, and other mandates related to COVID-19, so long as such orders and guidance remain in effect. Service Provider and its officers, owners, agents, employees, and subcontractors shall secure and maintain in force for the Term, at their sole cost and expense and at no cost to District, any and all licenses, permits and authorizations necessary to perform the Services. Neither District, nor any elected or appointed boards, officers, officials, employees, or agents of District, shall be liable, at law or in equity, as a result of any failure of Service Provider to comply with this section. Without limiting the generality of the foregoing, Service Provider shall comply with any applicable fingerprinting requirements as set forth in the Education Code of the State of California.

**18. Undocumented Workers.** Service Provider hereby promises and agrees to comply with all of the provisions of the Federal Immigration and Nationality Act, 8 U.S.C.A. Sections 1101, et seq., as amended, and in connection therewith, shall not employ undocumented workers, defined herein the same as in 8 U.S.C.A. Section 1324a(h)(3). Should Service Provider so employ such individuals for the performance of work and/or Services covered by this Agreement, and should any liability or sanctions be imposed against District for such employment, Service Provider hereby agrees to and shall reimburse District for the cost of all such liabilities or sanctions imposed, together with any and all costs, including attorneys’ fees, incurred by District.

**19. Non-Discrimination.** Service Provider shall abide by the applicable provisions of the United States Civil Rights Act of 1964 and other provisions of law prohibiting discrimination and

shall not discriminate, in any way, against any person on the basis of race, color, religious creed, national origin, ancestry, sex, age, physical handicap, medical condition or marital status in connection with or related to the performance of this Agreement.

**20. Assignment.** The expertise and experience of Service Provider are material considerations for this Agreement. District has an interest in the qualifications of and capability of the persons and entities that will fulfill the duties and obligations imposed upon Service Provider under this Agreement. In recognition of that interest, Service Provider shall not assign or transfer this Agreement or any portion of this Agreement or the performance of any of Service Provider's duties or obligations under this Agreement without the prior written consent of the Board of Trustees of District. Any attempted assignment shall be ineffective, null and void, and shall constitute a material breach of this Agreement entitling District to any and all remedies at law or in equity, including summary termination of this Agreement.

**21. Subcontracting.** Notwithstanding the above, Service Provider may utilize subcontractors in the performance of its duties pursuant to this Agreement, but only with the prior written consent of District. Service Provider shall be as fully responsible to District for the acts and omissions of its subcontractors, and of persons either directly or indirectly employed by Service Provider, as if Service Provider performed the acts and omissions directly.

**22. Continuity of Personnel.** Service Provider shall make every reasonable effort to maintain the stability and continuity of Service Provider's staff and subcontractors, if any, assigned to perform the Services required under this Agreement.

a. Service Provider shall ensure that District has a current list of all personnel and subcontractors providing Services under this Agreement.

b. Service Provider shall notify District of any changes in Service Provider's staff and subcontractors, if any, assigned to perform the Services required under this Agreement, prior to and during any such performance. The list notice shall include the following information: (i) all full or part-time staff positions by title, including volunteer positions whose direct services are required to provide the Services described herein; (ii) a brief description of the functions of each such position and the hours each position works each week or, for part-time positions, each day or month, as appropriate; (iii) the professional degree, if applicable, and experience required for each position; and (iv) the name of the person responsible for fulfilling the terms of this Agreement.

c. Service Provider shall maintain a database of prospective employees in order to avoid a gap in filling intended positions.

d. Notwithstanding the generality of the foregoing, all Service Provider personnel assigned to perform under the Contract shall be subject to the continuous approval of District. District may refuse to accept any Service Provider personnel assigned to the Contract in the event that such persons fail to meet the necessary performance standards or for any other reasonable basis. Upon the request of District, Service Provider shall immediately terminate the assignment of any Service Provider personnel to the District's after-school program.

**23. Assumption of Responsibility.** In accordance with Service Provider’s obligations under paragraphs 11, 13, 21, and 22 herein, Service Provider assumes all responsibility for the care, custody, and control of students participating in any activity, whether on-site or off-site, offered in connection with the Services.

**24. Service Provider’s Indemnification of District.**

a. To the fullest extent permitted by California law, Service Provider, on behalf of itself and its officers, agents, employees, board members, owners, shareholders, subcontractors, volunteers and agents (collectively, “Indemnifying Party”), shall at its sole expense indemnify, protect, defend and hold harmless District, its officers, agents, employees, elected board members, and volunteers (collectively, “Indemnified Party”) from and against any liability (including liability for claims, suits, actions, arbitration proceedings, administrative proceedings, regulatory proceedings, losses, expenses or costs of any kind, whether actual, alleged or threatened, including attorneys’ fees and costs, court costs, interest, defense costs, and expert witness fees) of any kind, nature, and description, including, but not limited to, which arise out of or relate to any one or more of the following (each a “Claim” and collectively the “Claims”): (i) Indemnifying Party’s breach of any representation or warranty in the Contract; (ii) Indemnifying Party’s breach of any material provision of the Contract; (iii) Indemnifying Party’s violation of any applicable law; (iv) employment and labor claims concerning Indemnifying Party’s employees, agents, and/or subcontractors; (v) intentional misrepresentation or fraud by Indemnifying Party; (vi) bodily injury, including, but not limited to, illness, communicable disease, virus, or pandemic in connection with Indemnifying Party’s provision of the Services; (v) personal injury (including, but not limited to, injuries related to or derived from alleged sexual misconduct, sexual abuse, or molestation, and any claims or allegations of wrongful death) in connection with Indemnifying Party’s provision of the Services, (vi) any damage to and destruction of real property in connection with Indemnifying Party’s provision of the Services; (vii) any damage to and destruction of personal property in connection with Indemnifying Party’s provision of the Services, (viii) Service Provider’s furnishing to District of any copyrighted or patented material under the Contract and claims that such materials infringe upon a third party’s intellectual property rights. For avoidance of doubt, Service Provider’s liability under this paragraph includes any and all liability arising out of or in any way attributable to the performance of this Agreement by Service Provider or by any individual or entity for which Service Provider is legally liable, including, but not limited to, its officers, agents, employees, and subcontractors.

b. Indemnifying Party’s indemnity, defense, protection and hold harmless obligations under this paragraph 24 shall apply whether or not the applicable Claim: (i) is a third party claim or a direct claim; (ii) has any merit; (iii) arises from an act or omission authorized under the Contract; or (iv) is caused or alleged to have been caused by the negligence of the Indemnified Party, provided, however, that Indemnifying Party shall not be liable for damages or losses caused by sole gross negligence or sole willful misconduct of the Indemnified Party.

c. Indemnifying Party’s obligations under this paragraph 24 shall not be limited by Service Provider’s insurance requirements under the Contract.

d. The Indemnified Party shall promptly notify the Indemnifying Party of any Claim for which indemnification is sought, following actual knowledge of such Claim. However, the failure to give such notice shall not relieve the Indemnifying Party of its obligations hereunder except to the extent that Indemnifying Party is materially and irrevocably prejudiced by such failure. In the event that any third party Claim is brought, the Indemnifying Party shall have the right and option to undertake and control the defense of such action with counsel of its choice, except that (i) the Indemnified Party at its own expense may participate and appear on an equal footing with the Indemnifying Party in the defense of any such Claim; (ii) the Indemnified Party, at Indemnifying Party's expense, may undertake and control of such defense in the event of the material failure of the Indemnifying Party to undertake and control the same; and (iii) the Indemnified Party may control with counsel of its choice the defense of any third party Claim when an adverse judgment would establish a precedent that would be materially damaging to the continuing business interests of Indemnified Party as a public agency (e.g., a Claim involving public contracting rules). A Party shall not consent to judgment or concede or settle or compromise any Claim without the prior written approval of the other Party (which approval shall not be unreasonably withheld, delayed, or conditioned).

e. No Party shall be entitled to any form of implied or equitable indemnification at any time, whether based upon a theory of contract, torts, strict liability or otherwise, and each Party expressly disclaims any right to implied or equitable indemnification.

f. Service Provider agrees to obtain executed indemnity Agreements with provisions identical to those set forth here in this section from each and every subcontractor or any other person or entity involved by, for, with or on behalf of Service Provider in the performance of this Agreement. In the event Service Provider fails to obtain such indemnity obligations from others as required here, Service Provider agrees to be fully responsible according to the terms of this section. Failure of District to monitor compliance with these requirements imposes no additional obligations on District and will in no way act as a waiver of any rights hereunder. This obligation to indemnify and defend District as set forth here is binding on the successors, assigns or heirs of Service Provider and shall survive the termination of this Agreement.

g. The provisions of this paragraph 24 shall survive the termination or expiration of the Contract and remain in full force and effect.

*On behalf of Service Provider, I certify that I have read and understood the foregoing indemnity, defense, and hold harmless obligations under this paragraph 24 and that Service Provider agrees to be bound by such obligations.*

Venue for any legal action or proceeding relating to the Contract shall lie exclusively in the County. The venue for any arbitration, mediation or other action or proceeding related to enforcement or interpretation of the Contract shall be the County of Ventura. Each Party hereby waives and expressly agrees not to assert, in any manner whatsoever, any claim or allegation that it is not personally subject to the jurisdiction of the aforementioned court. The Parties further agree to waive any claim or allegation that the suit, action, or proceeding is either brought in an inconvenient forum or that the venue is improper.

**39. Dispute Resolution.** It is the Parties' intention to avoid the cost of litigation and to attempt to resolve any problems arising out of or related to the Contract amicably. To that end, the Parties agree to attempt to settle any and all disputes arising out of or related to the Contract by neutral, non-binding mediation, as a condition precedent to the commencement of arbitration, litigation, or any other similar proceeding. mutually acceptable mediator. If a mediator cannot be agreed upon by the Parties, each Party shall designate a mediator and those mediators shall select a third mediator who shall act as the neutral mediator of the Parties' dispute. If the dispute or claim is resolved successfully through the mediation, the resolution shall be documented by a written agreement executed by the Parties. If the mediation does not successfully resolve the dispute or claim, the mediator shall provide written notice to the Parties reflecting the same, and the Parties may then proceed to seek an alternative form of resolution of the dispute or claim, in accordance with the remaining terms of the Contract and other rights and remedies afforded to them by law. Notwithstanding the foregoing, nothing set forth in this paragraph shall require mediation prior to commencing an action in equity seeking injunctive relief or prior to District taking action to protect the health or safety of its students or staff. All applicable statutes of limitation shall be tolled while the mediation procedures specified herein are pending, and the Parties agree to take all action, including the execution of stipulations or tolling agreements, necessary to effectuate the intent of this provision.

**40. Severability.** If any term, condition, or covenant of this Agreement is declared or determined by any court of competent jurisdiction to be invalid, void, or unenforceable, the remaining provisions of this Agreement shall not be affected thereby, and the Agreement shall be read and construed without the invalid, void, or unenforceable provision(s).

I understand that all participants are to abide by and accept all rules and requirements governing conduct and safety in the voluntary extracurricular event or activity. To the extent permitted by the Education Code or other applicable statutes, regulations, policies and procedures, any participant determined to be in violation of safety requirements, behavior standards or other prohibited conduct may be removed from this voluntary extracurricular event or activity.

I understand and acknowledge that in order to participate in these activities, I and my son/daughter agree to assume liability and responsibility for any and all potential risks that may be associated with participation in voluntary extracurricular events or activities.

I also understand that the LEA/School, due to the COVID-19 virus or other potential infectious diseases, has undertaken a plan to facilitate a safe environment for educational programs in addition to extracurricular, co-curricular and sport/athletic events or activities. In doing so, I further understand that the LEA/School has adopted plans designed to meet the requirements and recommendations of state agencies, health advisors and other responsible bodies. However, I also understand and acknowledge that despite the LEA's and School's efforts, the risk of infection from the COVID-19 virus, or others, cannot be eliminated at this time, and that my son/daughter may be exposed as a result. I also understand and acknowledge that in participating in this voluntary extracurricular event or activity, my son/daughter will increase his/her interaction with students and staff, and the corresponding risk of contact and infection, and that this may include functions involving other people and/or facilities other than the LEA's. These other students, instructors, assistants, and facilities are potentially operating under a different COVID-19 safety plan, further increasing the risk of exposure of my son/daughter. Finally, I understand, acknowledge, and agree that despite reasonable care and steps by the LEA/School, that the virus presents serious challenges to prevention and control, and reasonable efforts by the LEA/School does not assure that my son/daughter may not be infected, and that the infection may not be brought home. Despite all the above I am freely and voluntarily signing this "Extracurricular Event or Activity, Assumption of Risk Form" to enable and authorize my son/daughter to participate and releasing and discharging the LEA/School and its/their governing board, officers, agents, employees and/or volunteers from any liability for my son/daughter becoming infected in his/her participation in the event or activity.

I agree to, and do hereby release and hold the LEA/School and its governing board, officers, agents, employees and/or volunteers harmless for any and all claims; demands; causes of action; liability; damages; expenses; or loss of any sort, including bodily injury or death; because of or arising out of acts or omissions with respect to the voluntary extracurricular event or activity, including programs or procedures of the LEA/School for students and participation in such events or activities

I acknowledge that I have carefully read this "Extracurricular Event or Activity, Assumption of Risk Form" and that I understand and agree to its terms.

También entiendo que la LEA/Escuela, debido al virus COVID-19 u otras enfermedades infecciosas potenciales, ha emprendido un plan para facilitar un entorno seguro para los programas educativos, además de eventos o actividades extracurriculares, cocurriculares y deportivos/atléticos. Al hacerlo, entiendo además que la LEA / Escuela ha adoptado planes diseñados para cumplir con los requisitos y recomendaciones de las agencias estatales, asesores de salud y otros organismos responsables. Sin embargo, también entiendo y reconozco que a pesar de los esfuerzos de la LEA y la escuela, el riesgo de infección por el virus COVID-19, u otras infecciones, no se puede eliminar en este momento, y que mi hijo(a) puede estar expuesto como resultado. También entiendo y reconozco que al participar en este evento o actividad extracurricular voluntaria, mi hijo(a) aumentará su interacción con los estudiantes y el personal, y el riesgo correspondiente de contacto e infección, y que esto puede incluir funciones que involucren a otras personas y/o instalaciones que no sean las LEA. Estos otros estudiantes, instructores, asistentes e instalaciones están operando probablemente bajo un plan de seguridad COVID-19 diferente, lo que aumenta aún más el riesgo de exposición de mi hijo(a). Finalmente, entiendo, reconozco y estoy de acuerdo en que, a pesar del cuidado razonable y los pasos de la LEA /Escuela, que el virus presenta serios desafíos para la prevención y el control, y los esfuerzos razonables de la LEA/Escuela no aseguran que mi hijo(a) no esté infectado y que la infección no se pueda llevar a casa. A pesar de todo lo anterior, estoy firmando libre y voluntariamente este formulario para permitir y autorizar a mi hijo(a) a participar y liberar y descargar a la LEA/Escuela y su junta directiva, funcionarios, agentes, empleados y/o voluntarios de cualquier responsabilidad si mi hijo(a) llegara a infectarse por su participación en el evento o actividad.

## Oxnard School District Concussion Information Sheet

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a “ding” or a bump on the head can be serious. You cannot see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

### Symptoms may include one or more of the following:

- |  |   |
|--|---|
| <ul style="list-style-type: none"> <li>• Headaches</li> <li>• “Pressure in head”</li> <li>• Nausea or vomiting</li> <li>• Neck pain</li> <li>• Balance problems or dizziness</li> <li>• Blurred, double, or fuzzy vision</li> <li>• Sensitivity to light or noise</li> <li>• Feeling sluggish or slowed down</li> <li>• Feeling foggy or groggy</li> <li>• Drowsiness</li> <li>• Change in sleep patterns</li> </ul> | <ul style="list-style-type: none"> <li>• Amnesia</li> <li>• “Don’t feel right”</li> <li>• Fatigue or low energy</li> <li>• Sadness</li> <li>• Nervousness or anxiety</li> <li>• Irritability</li> <li>• More emotional</li> <li>• Confusion</li> <li>• Concentration or memory problems (forgetting game plays)</li> <li>• Repeating the same question/comment</li> </ul> |
|--|---|

### Signs observed by teammates, parents and coaches include:

- Appears dazed
- Vacant facial expression
- Confused about assignment
- Forgets plays
- Is unsure of game, score, or opponent
- Moves clumsily or displays incoordination
- Answers questions slowly
- Slurred speech
- Shows behavior or personality changes
- Can’t recall events prior to hit
- Can’t recall events after hit
- Seizures or convulsions
- Any change in typical behavior or personality
- Loses consciousness

**What can happen if my child keeps on playing with a concussion or returns too soon?**

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often under report symptoms of injuries. And concussions are no different. As a result, education of administrators, coaches, parents and students is the key for student-athlete’s safety.

**If you think your child has suffered a concussion**

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. California Education Code section 49475 and CIF Bylaw 313 now require implementation of long and well-established return to play concussion guidelines that have been recommended for several years.

You should also inform your child’s coach if you think that your child may have a concussion. Remember it is better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

**Return to Play (RTP)**

Concussion symptoms should be completely gone before returning to full practice or competition. A RTP progression involves a gradual, step-wise increase in physical effort, sports-specific activities and the risk for contact. If symptoms occur with activity, the progression should be stopped. If there are no symptoms the next day, exercise can be restarted at the previous stage.

RTP after concussion should occur only with medical clearance from a medical doctor trained in the evaluation and management of concussions, and a step-wise progression program monitored by an athletic trainer, coach, or other identified school administrator. Please see [cifstate.org](http://cifstate.org) for a graduated return to play plan. Return to play (i.e., full practice and competition) must be no sooner than 7 days after the concussion diagnosis has been made by a physician.

### Información acerca de las concusiones cerebrales

Una concusión es una herida cerebral y todas las heridas cerebrales son graves. Dichas heridas son causadas por un golpe ligero, un golpe fuerte a la cabeza, un movimiento repentino de la cabeza o por un golpe fuerte a otra parte del cuerpo con fuerza que se trasmite a la cabeza. Las heridas varían entre ligeras o graves y pueden interrumpir la manera en la que el cerebro funciona. Aunque la mayoría de las concusiones cerebrales son ligeras, **todas las concusiones cerebrales tienen el potencial de ser graves y si no se reconocen y tratan correctamente podrían tener como resultado complicaciones incluyendo daño cerebral prolongado o la muerte.** Eso quiere decir que cualquier “golpecito” a la cabeza podría ser grave. Las concusiones cerebrales no son visibles y en su mayoría las concusiones cerebrales que ocurren durante los deportes no ocasionan la pérdida de conciencia. Las señales y síntomas de una concusión cerebral podrían aparecer inmediatamente después de una herida o después de horas o días. Si su hijo(a) reporta cualquier síntoma de una concusión cerebral, o si se da cuenta de los síntomas de una concusión cerebral, por favor consiga atención médica sin demora.

#### Los siguientes son algunos de los síntomas de una concusión:

- |   |  |
|---|--|
| <ul style="list-style-type: none"> <li>• Dolor de cabeza</li> <li>• “Presión en la cabeza”</li> <li>• Náusea o vómito</li> <li>• Dolor de cuello</li> <li>• Problemas de equilibrio o mareos</li> <li>• Visión borrosa o visión doble</li> <li>• Sensibilidad a la luz o ruido</li> <li>• Decaído</li> <li>• Adormecido</li> <li>• Mareado</li> <li>• Cambios en los hábitos de dormir</li> </ul> | <ul style="list-style-type: none"> <li>• Amnesia</li> <li>• “No se siente bien”</li> <li>• Fatiga o energía baja</li> <li>• Tristeza</li> <li>• Nervios o ansiedad</li> <li>• Irritabilidad</li> <li>• Más sensible</li> <li>• Confundido</li> <li>• Problemas con concentración o memoria (por ejemplo: olvidar las jugadas)</li> <li>• Repetir la misma pregunta o comentario</li> </ul> |
|---|--|

#### Los siguientes síntomas son observados por compañeros, padres y entrenadores:

- Parece desorientado
- Tiene una expresión facial vacía
- Está confundido acerca de la tarea o actividad
- Se olvida de las jugadas
- Está confundido sobre el juego, los puntos o el oponente
- Se mueve torpemente o muestra una falta de coordinación
- Contesta las preguntas lentamente
- Arrastra las palabras
- Muestra cambios de comportamiento o personalidad
- No puede recordar los eventos que sucedieron antes de la colisión
- No puede recordar los eventos que sucedieron después de la colisión
- Ataques o convulsiones
- Cualquier cambio en el comportamiento típico o personalidad
- Pérdida de la conciencia

**¿Qué puede pasar si mi hijo(a) sigue jugando con una concusión cerebral o regresa a jugar antes de que este recuperado?**

Los deportistas con señales o síntomas de una concusión cerebral deben dejar de jugar inmediatamente. Continuar jugando con las señales o síntomas de una concusión pone al deportista en riesgo de sufrir una herida más grave. La probabilidad de que se sufra daño significativo de una concusión aumenta cuando ha pasado un periodo de tiempo largo después de que sucedió la concusión, sobre todo si el deportista sufre otra concusión antes de recuperarse completamente de la primera. Eso puede traer como consecuencia una recuperación más prolongada o incluso una hinchazón cerebral (síndrome de segundo impacto) con consecuencias devastadoras o fatales. Es bien conocido que los deportistas adolescentes no reportan mucho los síntomas de sus heridas. Eso es el caso también con las concusiones cerebrales. Por lo mismo es importante que los administradores, entrenadores, padres y estudiantes estén bien informados, el cual es clave para la seguridad de los estudiantes deportistas.

**Si cree que su hijo(a) ha sufrido una concusión**

En cualquier situación donde se sospecha que un deportista tiene una concusión, es importante sacar a este estudiante del juego o entrenamiento inmediatamente. Ningún deportista puede volver a participar en la actividad después de sufrir una herida de cabeza o concusión cerebral sin el permiso de un doctor, no importa si la herida parece ser ligera o los síntomas desaparecen rápidamente. Se debe de observar cuidadosamente el mejoramiento del deportista por varias horas. Código Educativo de California sección 49475 y estatuto 313 de la Federación Interescolar de California (CIF por sus siglas en inglés) requiere la implementación de las siguientes normas para regresar a jugar un deporte después de sufrir una concusión, las cuales se han recomendado por muchos años.

También debe informar al entrenador(a) de su hijo(a) si piensa que ha sufrido una concusión cerebral. Recuerde que es mejor faltar un partido que faltar toda la temporada. Si existe alguna duda de que el deportista sufrió una concusión cerebral o no, se tomará precauciones y no podrá jugar.

**Volver a Jugar**

Síntomas de concusión cerebral deben ser desaparecido por completo antes de volver a la práctica completa o la competencia. Un volver a jugar la progresión implica un aumento gradual, paso a paso en el esfuerzo físico, las actividades de los deportes específicos y el riesgo para el contacto. Si se presentan síntomas con la actividad, la progresión se debe parar. Si no hay síntomas al día siguiente, el ejercicio puede iniciarse de nuevo en la etapa anterior.

Volver a jugar después de la concusión cerebral debe ocurrir sólo con autorización médica de un médico entrenado en la evaluación y la gestión de las concusiones cerebrales. Volver a jugar debe ser supervisado por un entrenador, entrenador atlético o administrador identificado por la escuela. Por favor, consulte [cifstate.org](http://www.cifstate.org) para un retorno gradual a jugar el plan. Retorno a la práctica completa y la competencia debe ser no antes de 7 días después del diagnóstico concusión ha sido hecha por un médico.

# Parent/Student CIF Heat Illness Information Sheet

### Why am I getting this information sheet?

You are receiving this information sheet about Heat Illness because of California state law AB 2800 (effective January 1, 2019), now Education Code § 35179 and CIF Bylaws 22.B.(9) and 503.K (Approved Federated Council January 31, 2019):

1. The law requires a student athlete who has been removed from practice or play after displaying signs and symptoms associated with heat illness must receive a written note from a licensed health care provider before returning to practice.
2. Before an athlete can start the season and begin practice in a sport, a Heat Illness information sheet must be signed and returned to the school by the athlete and the parent or guardian.

Every 2 years all coaches are required to receive training about concussions (AB 1451), heat illness (AB 2800) as well as certification in First Aid training, CPR, and AEDs (life-saving electrical devices that can be used during CPR).

### What is Heat Illness and how would I recognize it?

Exercise produces heat within the body and can increase the player's body temperature. Add to this a hot or humid day and any barriers to heat loss such as padding and equipment, and the temperature of the individual can become dangerously high.

Heat Illness occurs when metabolically produced heat combines with that gained from the environment to exceed the heat and large sweat losses. Young athletes should be pre-screened at their pre-participation physical exam form education/supplement use, cardiac disease, history of sickle cell trait, and previous heat injury. Athletes with any of these factors should be supervised closely during strenuous activities in a hot climate. Fatal heat stroke occurs most frequently among obese high school middle lineman.

Much of one's body heat is eliminated by sweat. Once this water leaves the body, it must be replaced. Along with water loss, many other minerals are lost in the sweat. Most of the commercial drinks now available contain these minerals, such as Gatorade, etc., but just plain water is all that is really required because the athlete will replace the lost minerals with his/her normal diet.

**PREVENTION:** There are several steps which can be taken to prevent heat illness from occurring:

**ADEQUATE HYDRATION:** The athlete should arrive at practice well-hydrated to reduce the risk of dehydration. The color of the urine can provide a quick guess at how hydrated the athlete. If the urine is dark like apple juice means the athlete is dehydrated. If the urine is light like lemonade in color means the athlete seems adequately hydrated.

Water or sports drinks should be readily available to athletes during practice and should be served ideally chilled in containers that allow adequate volumes of fluid to be ingested.

Water breaks should be given at least every 30-45 minutes and should be long enough to allow athletes to ingest adequate volumes of fluid.

Athletes should be instructed to continue fluid replacement in between practice sessions.

**GRADUAL ACCLIMATIZATION:** Intensity and duration of exercise should be gradually increased over a period of 7-14 days to give athletes' time to build fitness levels and become accustomed to practicing in the heat. Protective equipment should be introduced in phases (start with helmet, progress to helmet and shoulder pads, and finally fully uniform).

**HEAT EXHAUSTION:** Inability to continue exercise due to heat-induced symptoms. Occurs with an elevated body-core temperature between 97- and 104-degrees Fahrenheit.

<ul style="list-style-type: none"> <li>• Dizziness, lightheadedness, weakness</li> </ul>	<ul style="list-style-type: none"> <li>• Profuse sweating</li> </ul>
<ul style="list-style-type: none"> <li>• Headache</li> </ul>	<ul style="list-style-type: none"> <li>• Cool, clammy skin</li> </ul>
<ul style="list-style-type: none"> <li>• Nausea</li> </ul>	<ul style="list-style-type: none"> <li>• Hyperventilation</li> </ul>
<ul style="list-style-type: none"> <li>• Diarrhea, urge to defecate</li> </ul>	<ul style="list-style-type: none"> <li>• Decreased urine output</li> </ul>
<ul style="list-style-type: none"> <li>• Pallor, chills</li> </ul>	

**TREATMENT:** Stop exercise, move player to a cool place, remove excess clothing, give fluids if conscious, COOL BODY: fans, cold water, ice towels, or ice packs. Fluid replacement should occur as soon as possible. The athlete should be referred to a hospital emergency if recovery is not rapid. When in doubt, CALL 911. Athletes with heat exhaustion should be assessed by a physician as soon as possible in all cases.

**HEAT STROKE:** Dysfunction or shutdown of body systems due to elevated body temperature which cannot be controlled. This occurs with a body-core temperature greater than 107 degrees Fahrenheit.

**WARNING SYMPTOMS:**

**This is a MEDICAL EMERGENCY. Death may result if not treated properly and rapidly.**

Treatment: Stop exercise, Call 911, remove from heat, remove clothing, immerse athlete in cold water for aggressive, rapid cooling (if immersion is not possible, cool the athlete as described for heat exhaustion), monitor vital signs until paramedics arrive.

<b>Signs observed by teammates, parents and coaches include:</b>	
<ul style="list-style-type: none"> <li>• Dizziness</li> </ul>	<ul style="list-style-type: none"> <li>• Weakness</li> </ul>
<ul style="list-style-type: none"> <li>• Drowsiness, loss of consciousness</li> </ul>	<ul style="list-style-type: none"> <li>• Hot and wet or dry skin</li> </ul>
<ul style="list-style-type: none"> <li>• Seizures</li> </ul>	<ul style="list-style-type: none"> <li>• Rapid heartbeat, low blood pressure</li> </ul>
<ul style="list-style-type: none"> <li>• Staggering, disorientation</li> </ul>	<ul style="list-style-type: none"> <li>• Hyperventilation</li> </ul>
<ul style="list-style-type: none"> <li>• Behavioral/cognitive changes (confusion, irritability, aggressiveness, hysteria, emotional instability)</li> </ul>	<ul style="list-style-type: none"> <li>• Vomiting, diarrhea</li> </ul>

**Final Thoughts for Parents and Guardians:**

Heat stress should be considered when planning and preparing for any sports activity. Summer and fall sports are conducted in very hot and humid weather in many parts of the California. Many of the heat problems have been associated with football, due to added equipment which acts as a barrier to heat dissipation. Several heatstroke deaths continue to occur each season in the United States. There is no excuse for heatstroke deaths if the proper precautions are taken.

You should also feel comfortable talking to the coaches or athletic trainer about possible heat illness signs and symptoms that you may be seeing in your child.

I acknowledge that I have received and read the CIF Heat Illness Information Sheet.

## Hoja de información CIF para padres/estudiantes referente a la insolación

### ¿Por qué me han enviado esta información?

Usted ha recibido esta hoja informativa referente a la insolación debido a lo indicado por la Ley AB 2800 de California (efectiva el 1° de enero del 2019), el cual ahora es parte del Código de Educación § 35179 y de los reglamentos CIF 22.B.(9) y 503.K (aprobados por el Concilio Federal el 31 de enero del 2019):

1. La ley requiere que cualquier atleta estudiante que haya sido excluido de las prácticas o de algún partido debido a que ha mostrado señales y síntomas relacionados con la insolación (infarto de calor), debe recibir una nota escrita de un proveedor acreditado de cuidados médicos antes de regresar a las prácticas de atletismo.
2. Antes que un atleta pueda comenzar la temporada y comience las prácticas deportivas, los padres o tutores legales deben firmar y entregar a la escuela una Hoja de información sobre la insolación.

Cada dos años todos los entrenadores tienen el requisito de recibir entrenamiento sobre las contusiones cerebrales (AB 1451), la insolación (AB 2800) al igual que una certificación de entrenamiento sobre primeros auxilios, resucitación cardiopulmonar (CPR, en inglés) y los instrumentos eléctricos (AEDs, en inglés) que se pueden utilizar para salvar la vida durante una resucitación cardiopulmonar (CPR).

### ¿Qué es la insolación y como puedo identificar los síntomas?

El ejercicio produce calor dentro del cuerpo y puede incrementar la temperatura del cuerpo del atleta. Si a esto se agregan un día caluroso o húmedo, más las barreras que impiden la disipación del calor como el equipo de amortiguación en el uniforme deportivo, la temperatura corporal del individuo puede aumentar peligrosamente.

La insolación ocurre cuando el calor producido por el metabolismo corporal se combina con el calor que proviene del medioambiente, lo que ocasiona calor excesivo y grandes pérdidas de sudor. Previo a su participación, los atletas jóvenes deben ser evaluados durante su examen médico para diagnosticar enfermedades cardíacas, historial de células falciformes (sickle cell trait, en inglés) y traumas previos debido al calor. Los atletas que presenten cualquiera de estos casos deben ser supervisados cuidadosamente durante las actividades estrenuas realizadas en climas calientes. El infarto fatal debido al calor ocurre más frecuentemente entre los atletas obesos de preparatoria que juegan la posición de defensas medios.

La mayoría del calor corporal es eliminado por medio del sudor. El líquido debe ser reemplazado después que ha salido del cuerpo. Junto con la pérdida de agua, el cuerpo pierde muchos otros minerales por medio del sudor. La mayoría de las bebidas comerciales disponibles, tales como Gatorade, etc., contienen estos minerales; sin embargo, lo que realmente se necesita es solamente agua debido a que el atleta recuperará los minerales perdidos por medio de su dieta regular.

**PREVENCIÓN:** Existen varios pasos que deben seguirse para prevenir un infarto debido al calor:

**LA HIDRATACIÓN APROPIADA:** El atleta debe llegar a sus prácticas deportivas bien hidratado para reducir el riesgo de deshidratación. El color de la orina puede mostrar fácilmente el nivel de hidratación del atleta. Si la orina es oscura parecido al jugo de manzana, eso significa el atleta está deshidratado. Si la orina es clara como el color de la limonada, eso significa que el atleta está propiamente hidratado.

En las prácticas debe haber agua y bebidas deportivas fácilmente disponibles para los atletas y de preferencia deben servirse frías y en envases que permitan la ingestión de líquidos en volúmenes apropiados.

También debe haber recesos para beber agua por lo menos cada 30 o 45 minutos y los recesos deben ser suficientemente largos para ingerir volúmenes apropiados de líquidos.

A los atletas se les debe instruir que deben continuar reemplazando los líquidos antes y después de las sesiones de práctica.

**LA ACLIMATACIÓN GRADUAL:** La intensidad y la duración del ejercicio debe incrementarse gradualmente durante un periodo de 7 a 14 días para que el atleta pueda alcanzar niveles apropiados de aptitud física y su cuerpo se acostumbre a practicar en el calor. El equipo protector debe introducirse de manera gradual (comenzando con el casco, después el casco y las hombreras, y finalmente el uniforme completo).

**EL AGOTAMIENTO DEBIDO AL CALOR:** Es la inhabilidad de continuar ejercitando debido a los síntomas producidos por el calor. Esto ocurre cuando la temperatura básica del cuerpo se encuentra entre los 97 y los 104 grados Fahrenheit.

• Vértigo, mareo, debilidad	• Sudor abundante
• Dolor de cabeza	• Piel viscosa y fría
• Náusea	• Hiperventilación
• Diarrea, urgencia para defecar	• Reducción en la producción de orina
• Palidez, escalofríos	

**TRATAMIENTO:** Dejar de ejercitar, acudir a un lugar frío, quitar la ropa excesiva, beber líquidos si la persona está consiente, ENFRIAR EL CUERPO: con ventiladores, agua fría, toallas heladas, o esponjas húmedas congeladas (ice packs). Debe comenzar la recuperación de líquidos tan pronto como sea posible. Si su recuperación no es rápida, el atleta debe ser llevado a la sala de emergencias del hospital. Si existen dudas, LLAME AL 911. En todos los casos, los atletas que sufren agotamiento debido al calor deben ser evaluados por un médico tan pronto como sea posible.

**INFARTO DEBIDO AL CALOR:** Es el mal funcionamiento o paralización de los sistemas corporales debido a la alta temperatura del cuerpo la cual está fuera de control. Esto ocurre cuando la temperatura básica del cuerpo es mayor a los 107 grados Fahrenheit.

**SÍNTOMAS DE ALARMA:**

Los siguientes síntomas representan una EMERGENCIA MÉDICA. Podría ocasionar la muerte si no se ofrece tratamiento médico inmediato y apropiado.

Tratamiento: dejar de ejercitar, llamar al 911, alejar del calor, desvestirse, sumergir al atleta en agua fría para un enfriamiento rápido y eficaz (si no es posible sumergir al atleta, enfriar al atleta siguiendo el tratamiento para el agotamiento debido al calor), vigilando los signos vitales hasta que lleguen los paramédicos.

<b>Los síntomas que han sido observados por los jugadores, padres y entrenadores incluyen:</b>	
• Mareos (vértigo)	• Debilidad
• Letargo (adormecimiento), quedar inconsciente	• Piel caliente, húmeda o seca
• Convulsiones (ataques epilépticos)	• Pulso rápido, baja presión sanguínea
• Tambaleo, tropiezos, desorientación	• Hiperventilación
• Cambios cognitivos y de comportamiento (confusión, irritabilidad, agresividad, histeria, inestabilidad emocional)	• Vómito, diarrea

**Consejos finales para los padres y tutores legales:**

Cada vez que planea y prepare cualquier actividad deportiva usted debe tomar en cuenta el estrés que será producido por el calor. En varias regiones de California, los deportes de verano y otoño a menudo se realizan en climas muy calientes y húmedos. Muchos de los problemas ocasionados por el calor se relacionan con el fútbol Americano, debido al equipo adicional que los atletas deben vestir y el cual actúa como una barrera que impide la disipación del calor. Durante cada temporada deportiva en los Estados Unidos continúan sucediendo varias muertes debido a los infartos por el calor. Si se toman las precauciones apropiadas, no existe ninguna excusa para permitir que suceda una muerte debido a un infarto por el calor.

Usted debe tener la confianza de hablar con los entrenadores o manejadores de atletismo referente a los posibles síntomas de insolación y sobre los síntomas que tal vez usted observa en su hijo.

Yo confirmo que he recibido y leído La Hoja de información CIF referente a la insolación.

## OXNARD SCHOOL DISTRICT Prescription Opioids: What You Need to Know

Prescription opioids can be used to help relieve moderate-to-severe pain and are often prescribed following a surgery or injury, or for certain health conditions. These medications can be an important part of treatment but also come with serious risks. It is important to work with your health care provider to make sure you are getting the safest, most effective care.

Prescription opioids carry serious risks of addiction and overdose, especially with prolonged use. An opioid overdose, often marked by slowed breathing, can cause sudden death. The use of prescription opioids can have a number of side effects as well, even when taken as directed.

### **Side effects may include one or more of the following:**

- Tolerance - meaning you might need to take more of a medication for the same pain relief
- Physical dependence—meaning you have symptoms of withdrawal when a medication is stopped
- Increased sensitivity to pain
- Constipation
- Nausea, vomiting, and dry mouth
- Sleepiness and dizziness
- Confusion
- Depression
- Low levels of testosterone that can result in lower sex drive, energy, and strength
- Itching and sweating

### **Risks are greater with the following:**

- History of drug misuse, substance use disorder, or overdose
- Mental health conditions (such as depression or anxiety)
- Sleep apnea
- Older age (65 years or older)
- Pregnancy

### **Unless specifically advised by your health care provider, medications to avoid include:**

- Benzodiazepines (such as Xanax or Valium)
- Muscle relaxants (such as Soma or Flexeril)
- Hypnotics (such as Ambien or Lunesta)
- Other prescription opioids
- In addition, avoid alcohol while taking prescription opioids.

**KNOW YOUR OPTIONS**

**Talk to your health care provider about ways to manage your pain that do not involve prescription opioids. Some of these options may actually work better and have fewer risks and side effects. Options may include:**

- Pain relievers such as acetaminophen, ibuprofen, and naproxen
- Some medications that are also used for depression or seizures
- Physical therapy and exercise
- Cognitive behavioral therapy, a psychological, goal-directed approach, in which patients learn how to modify physical, behavioral, and emotional triggers of pain and stress.

**IF YOU ARE PRESCRIBED OPIOIDS FOR PAIN:**

- Never take opioids in greater amounts or more often than prescribed.
- Follow up with your primary health care provider within.
  - Work together to create a plan on how to manage your pain.
  - Talk about ways to help manage your pain that don't involve prescription opioids.
  - Talk about any and all concerns and side effects.
- Help prevent misuse and abuse.
  - Never sell or share prescription opioids.
  - Never use another person's prescription opioids.
- Store prescription opioids in a secure place and out of reach of others (this may include visitors, children, friends, and family).
- Safely dispose of unused prescription opioids: Find your community drug take-back program or your pharmacy mail-back program, or flush them down the toilet, following guidance from the Food and Drug Administration:  
[www.fda.gov/Drugs/ResourcesForYou](http://www.fda.gov/Drugs/ResourcesForYou)
- Visit [www.cdc.gov/drugoverdose](http://www.cdc.gov/drugoverdose) to learn about the risks of opioid abuse and overdose.
- If you believe you may be struggling with addiction, tell your health care provider and ask for guidance or call SAMHSA's National Helpline at 1-800-662-HELP.

### Opioides recetados: lo que necesita saber

Los opioides recetados son medicamentos que sirven para aliviar el dolor moderado a intenso y suelen ser recetados luego de una cirugía o de sufrir una lesión, o ante ciertos problemas de salud. Estos medicamentos pueden ser una parte importante del tratamiento, aunque también implican riesgos graves. Es importante comunicarse con su proveedor de atención médica para asegurarse que está obteniendo la atención más segura y eficaz.

Los riesgos más graves de los opioides recetados son la adicción y la sobredosis, especialmente con el uso prolongado. Una sobredosis con opioides puede reducir la frecuencia respiratoria y provocar la muerte repentina. Los opioides recetados pueden tener efectos secundarios, incluso si se toman según las indicaciones.

#### **Los efectos secundarios pueden incluir uno o más de los siguientes:**

- Tolerancia: la necesidad de tomar más medicamentos para lograr la misma reducción del dolor
- Dependencia física: aparición de síntomas de abstinencia al interrumpir el consumo
- Mayor sensibilidad al dolor
- Estreñimiento: es el efecto secundario más común
- Náuseas, vómitos y sequedad de boca
- Somnolencia y mareo
- Confusión
- Depresión
- Bajos niveles de testosterona, que pueden resultar en un menor impulso sexual, energía y fuerza
- Comezón y sudor

#### **Los riesgos son mayores con lo siguiente:**

- Tiene antecedentes de abuso de drogas, trastorno de consumo de sustancias o sobredosis
- Tiene una condición de salud mental, (como depresión o ansiedad)
- Tiene apnea del sueño
- Tiene 65 años o más
- Está embarazada

#### **A menos que su proveedor de atención médica lo indique específicamente, los medicamentos que debe evitar incluyen:**

- Benzodicepinas (como Xanax o Valium)
- Relajantes musculares (como Soma o Flexeril)
- Pastillas para dormir (como Ambien o Lunesta)
- Otros opioides recetados
- Adicionalmente, evite el consumo de alcohol mientras esté tomando opioides recetados.

**SEPA CUÁLES SON SUS OPCIONES**

**Hable con su proveedor de atención médica acerca de las maneras de controlar el dolor sin tener que usar opioides. Algunas de esas opciones podrían dar mejores resultados y presentar menores riesgos y efectos secundarios. Las opciones podrían ser las siguientes:**

- Otros analgésicos, como acetaminofeno (Tylenol), ibuprofeno (Advil, Motrin) o naproxeno
- Algunos medicamentos que también se emplean contra la depresión y las convulsiones.
- Fisioterapia y ejercicios
- Terapia cognitiva conductual, un enfoque psicológico dirigido por objetivos donde los pacientes aprenden a modificar las causas físicas, conductuales y emocionales del dolor y el estrés.

**SI LE RECETAN OPIOIDES PARA EL DOLOR:**

- Nunca tome opioides en más cantidades o más seguido que lo indicado.
- Haga un seguimiento con su proveedor de atención médica.
  - Establezcan juntos un plan para tratar el dolor.
  - Analicen posibilidades para tratar el dolor, las cuales no incluyan opioides recetados.
  - Hable de sus inquietudes y de los efectos secundarios.
- Ayude a evitar el mal uso y el abuso.
  - Nunca venda ni comparta opioides recetados.
  - Nunca use los opioides recetados de otra persona.
- Guarde los opioides recetados en un lugar seguro y lejos del alcance de otras personas. (Esto puede incluir visitas, niños, amigos y familiares).
- Deshágase de manera segura de los opioides recetados que le sobren. Encuentre el programa de devolución de medicamentos de su comunidad o el programa de devolución de medicamentos de su farmacia o tírelos en el inodoro, siguiendo las instrucciones de la Administración de Alimentos y Medicamentos: [www.fda.gov/Drugs/ResourcesForYou](http://www.fda.gov/Drugs/ResourcesForYou).
- Visite [www.cdc.gov/drugoverdose](http://www.cdc.gov/drugoverdose) para conocer los riesgos del abuso y la sobredosis de opioides
- Si cree que puede estar luchando contra la adicción, infórmeselo a su proveedor de atención médica y solicite orientación o llame a la línea de ayuda nacional de SAMHSA al 1-800-662-HELP.

### Hoja CIF de información y compromiso de los padres y estudiantes sobre los esteroides

“Como condición de membresía en el CIF, todas las escuelas que son miembros deberán adoptar normas que prohíban el uso y abuso de los esteroides androgénicos/anabólicos. Todas estas escuelas deberán confirmar que los estudiantes atletas participantes y sus padres, el tutor legal/cuidador están de acuerdo que el atleta no usará esteroides anabólicos sin la receta prescrita por medio de un examen físico con licencia plena (como lo reconoce la Asociación Médica Americana, AMA) para tratar una condición médica”. (Estatuto CIF 503.I)

#### Nuestra norma del distrito escolar (BP 5131.63):

La Mesa Directiva Gobernante reconoce que el uso de esteroides y otros suplementos para mejorar el rendimiento físico representa un grave peligro para la salud y la seguridad. Como parte de los esfuerzos distritales de prevención e intervención del uso de drogas, el superintendente o la persona designada y el personal deberán hacer todos los esfuerzos razonables para evitar que los estudiantes usen esteroides u otros suplementos para mejorar el rendimiento físico.

Como parte de sus programas de salud, educación física o educación sobre las drogas, los estudiantes en los grados 7 al 12 recibirán una lección sobre los efectos de los esteroides.

Los estudiantes que participan en el atletismo escolar tienen prohibido el uso de esteroides y suplementos dietéticos prohibidos por la Agencia Antidopaje de los Estados Unidos, incluyendo la sustancia sinefrina (synephrine, en inglés). (Código de Educación 49030).

Antes de participar en el atletismo escolar, un estudiante atleta y su padre/madre/tutor legal deberán firmar una declaración donde el estudiante atleta se compromete a no usar esteroides androgénicos/anabólicos y/o suplementos dietéticos prohibidos por la Agencia Antidopaje de los Estados Unidos, incluyendo la sustancia Sinefrina (Synephrine, en inglés), a menos que el estudiante haya recibido una receta médica escrita por un profesional de la salud que posea autorización para tratar condiciones médicas.

Cualquier estudiante que haya violado el acuerdo o esta norma no podrá participar en el atletismo escolar y estará sujeto a los procedimientos disciplinarios los cuales incluyen, entre otros, la suspensión o expulsión de acuerdo con la ley, las normas de la Mesa Directiva y los reglamentos administrativos.

Los entrenadores deben educar a los estudiantes sobre las prohibiciones del distrito y los peligros del uso de esteroides y otros suplementos para mejorar el rendimiento físico.

El Superintendente o la persona designada se asegurarán que las escuelas del distrito no acepten patrocinios o donaciones de fabricantes de suplementos que ofrezcan suplementos de desarrollo muscular a los estudiantes.

#### Compromiso

Al firmar este documento, el estudiante atleta participante junto con sus padres, tutores legales/cuidadores están de acuerdo que el estudiante atleta mencionado en este documento no utilizará esteroides androgénicos/anabólicos sin una prescripción escrita por un médico que posea autorización plena para tratar condiciones médicas (tal como lo reconoce la Asociación Médica Americana, AMA). También reconocemos que según el reglamento CIF 202, podrían existir penalidades por el uso de información falsa o fraudulenta. Además comprendemos que la escuela [insert name of school] seguirá las normas referentes al uso ilegal de drogas en caso de que ocurran violaciones a estos reglamentos.

Yo confirmo que he recibido y leído la Hoja de información CIF referente a los esteroides.

**Sudden Cardiac Arrest Information Sheet**

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the victim to collapse. The malfunction is caused by a congenital or genetic defect in the heart's structure.

Recognize the Warning Signs and Risk Factors of Sudden Cardiac Arrest.

Tell your coach and consult your health care provider if these conditions are present in your student athlete:

Potential indicators that SCA may occur:

- Fainting or seizure, especially during or right after exercise;
- Fainting repeatedly or with excitement or startle;
- Excessive shortness of breath during exercise;
- Racing or fluttering heart palpitations or irregular heartbeat;
- Repeated dizziness or lightheadedness;
- Chest pain or discomfort with exercise;
- Excessive, unexpected fatigue during or after exercise.

Factors that increase the Risk of SCA:

- Known structural heart abnormality, repaired or unrepaired;
- Family members with unexplained fainting, seizures, drowning or near drowning, or car accidents;
- Family history of known heart abnormalities or sudden death before age 50;
- Specific family history of Long QT Syndrome, Brugada Syndrome, Hypertrophic Cardiomyopathy, or Arrhythmogenic Right Ventricular Dysplasia (ARVD);
- Use of drugs, such as cocaine, inhalants, "recreational" drugs, excessive energy drinks or performance-enhancing supplements.

**How Common is Sudden Cardiac Arrest in the United States?**

As the leading cause of death in the U.S., there are more than 300,000 cardiac arrests outside hospitals each year, with nine out of 10 resulting in death. Thousands of sudden cardiac arrests occur among youth, as it is the #2 cause of death under 25 and the #1 killer of student athletes during exercise.

### **Who is at Risk for Sudden Cardiac Arrest?**

SCA is more likely to occur during exercise or physical activity, so student athletes are at greater risk. While a heart condition may have no warning signs, studies show that many young people do have symptoms but neglect to tell an adult. This may be because they are embarrassed, they do not want to jeopardize their playing time, they mistakenly think they are out of shape and need to train harder, or they simply ignore the symptoms, assuming they will “just go away.” Additionally, some health history factors increase the risk of SCA.

### **What Should You do if your Student Athlete is Experiencing any of these Symptoms?**

We need to let student-athletes know that if they experience any SCA-related symptoms it is crucial to alert an adult and get follow-up care as soon as possible with a primary care physician. If the athlete has any of the SCA risk factors, these should also be discussed with a doctor to determine if further testing is needed. Wait for your doctor’s feedback before returning to play, and alert your coach, trainer and school nurse about any diagnosed conditions.

### **Return to Play (RTP)**

The California Interscholastic Federation (CIF) amended its bylaws to include language that adds SCA training to coach certification and practice and game protocol that empowers coaches to remove from play a student-athlete who exhibits fainting. A student athlete who has been removed from play after displaying signs or symptoms associated with SCA may not return to play until he or she is evaluated and cleared by a licensed health care provider (medical doctor or doctor of osteopathy). Parents, guardians and caregivers are urged to dialogue with student athletes about their heart health.

### **Acknowledgment**

I have reviewed and understand the symptoms and warning signs of SCA and the new CIF protocol to incorporate SCA prevention strategies into my student’s sports program

### Una ficha informativa acerca del Paro Cardíaco Repentino

El Paro Cardíaco Repentino (PCR) sucede cuando el corazón súbita e inesperadamente deja de latir. Cuando esto sucede, se detiene el flujo sanguíneo hacia el cerebro y otros órganos vitales. El PCR no es un paro cardíaco. Un paro cardíaco es causado por una obstrucción que detiene el flujo sanguíneo hacia el corazón. El PCR es una falla en el sistema eléctrico del corazón que hace que la víctima se colapse. Un defecto genético o congénito en la estructura del corazón es la causa de la falla.

Reconozca los factores de riesgo y los signos de advertencia del Paro Cardíaco Repentino.

Dígale al entrenador y consulte a su médico si su atleta adolescente padece estos síntomas:

Posibles indicadores de que podría suceder un PCR:

- Colapso o convulsiones, especialmente justo después de ejercitarse;
- Colapso frecuente, o por emoción o susto;
- Falta excesiva de aliento durante el ejercicio;
- Taquicardia o palpitaciones, o ritmo cardíaco irregular;
- Mareo o aturdimiento frecuente;
- Dolor o malestar en el pecho al ejercitarse;
- Fatiga excesiva e inesperada durante o después del ejercicio.

Factores que incrementan el riesgo de que suceda un PCR:

- La presencia de una anomalía estructural del corazón, reparada o no reparada;
- Familiares que han sufrido sin explicación, colapsos, convulsiones, un accidente automovilístico, que se han ahogado o han estado a punto de ahogarse;
- Un historial clínico familiar de anomalías cardíacas conocidas o muerte repentina antes de los 50 años;
- Un historial clínico familiar específico con casos del síndrome del QT largo, síndrome Brugada, miocardiopatía hipertrófica o displasia arritmogénica del ventrículo derecho (DAVD);
- El consumo de enervantes tales como cocaína, inhalantes, drogas “recreativas,” bebidas de energía en exceso, y sustancias o suplementos para mejorar el rendimiento.

#### **¿Qué tan común es el PCR en los Estados Unidos?**

Por ser la principal causa de muerte en los EE. UU. cada año suceden más de 300,000 paros cardíacos lejos de los hospitales, de los que nueve de cada diez son mortales. Miles de jóvenes son víctimas de los paros cardíacos repentinos por ser la segunda causa de muerte en menores de 25 años y la principal razón por la que mueren los atletas adolescentes durante el ejercicio.

### **¿Quién corre el riesgo de sufrir un paro cardíaco repentino?**

Los atletas adolescentes corren más riesgo de sufrir un paro cardíaco repentino debido a que tiende a suceder durante el ejercicio o la actividad física. Aunque una enfermedad cardíaca no siempre demuestra signos de advertencia, los estudios demuestran que muchos jóvenes sí tienen síntomas pero no se lo dicen a un adulto. Esto puede ser porque les da pena, no quieren que los saquen de un partido, creen erróneamente que les falta condición física y solamente necesitan entrenar más, o simplemente ignoran los síntomas y suponen que “desaparecerán.” Algunos factores de antecedentes clínicos también aumentan el riesgo de que suceda un PCR.

### **¿Qué debe hacer si su atleta adolescente padece alguno de estos síntomas?**

Debemos informarles a los atletas adolescentes que si padecen cualquier síntoma del PCR, es de suma importancia avisarle a un adulto y consultar con un médico de cabecera lo antes posible. Si el atleta presenta cualquiera de los factores que incrementan el riesgo de que suceda un PCR, deberá consultar a un médico para ver la posibilidad de que se le hagan más pruebas. Espere la respuesta del médico antes de que su adolescente vuelva a jugar y además, avise a su entrenador y a la enfermera escolar de cualquier afección diagnosticada.

### **Volver a Jugar**

Federación Interescolar de California (CIF) enmendó sus estatutos para poder incluir lenguaje que incluye capacitación acerca del PCR como requisito en la certificación de entrenadores deportivos. Además, esto ayuda a incluirla en el protocolo de entrenamiento y juego para que los entrenadores tengan la autoridad de sacar del juego a un atleta adolescente que se colapse. El atleta adolescente que haya sido suspendido de un juego después de mostrar signos o síntomas asociados con un PCR, no puede volver a jugar hasta que un médico certificado le haya evaluado y aprobado (medical doctor or doctor of osteopathy). Se les insta a los padres, tutores y cuidadores a que hablen con sus atletas adolescentes acerca de la salud del corazón. Igualmente.

He leído y entendido los síntomas y los signos de advertencia del PCR y el nuevo protocolo de la CIF para incluir medidas para prevenir que suceda un PCR dentro del programa deportivo de mi estudiante

# Oxnard Elementary School District

## DIY Enrichment Proposal

2024 - 2025 Expanded Learning Program

### Overview:

For Oxnard Elementary School District's Expanded Learning Program, Elemental Hardware Enrichment will provide DIY classes for students in grades 1 - 8 at 20 schools during their 2024 - 2025 school year enrichment burst programs (July 1, 2024 - June 30, 2025). The projects will focus on developing students' basic carpentry, electrical, and art skills and exposing them to career pathway options in the skilled trades.

### Goal:

Provide students with hands-on learning opportunities to apply problem-solving, carpentry, electrical, and art skills.

### Program design & requirements:

Elemental Hardware Enrichment will provide 1 - 2 staff members to deliver (2) 60 - 90 minute DIY Builders enrichment classes for up to 20 students per class for up to 9 weeks per burst at 20 school sites during the regular school year enrichment burst rotations. Elemental Hardware Enrichment staff members will be available to support the additional supervisory needs of each school site's program for up to 6 hours per day. Instructors require approximately 1 hour per day for set up and clean up.

---

**Total 2024-2025 After-School Enrichment Burst Maximum**  
**Program Cost: \$2,484,000**

### Enrichment Bursts:

*\$1,150 x (3) 9 week bursts x 20 school sites | **2 days per week** x 2 DIY classes per day | Serving up to 40 students per day at each school site*

### Curriculum Description

The curriculum and projects will vary by grade level to introduce developmentally appropriate project-based learning opportunities for students to learn practical skills (safe and appropriate hand tool usage, fundamental carpentry and electrical concepts, time management and planning, art skills). Lesson plans will also lean into connecting projects and practical skills to real world examples that expose students to career pathway options in the skilled trades.

Depending on the project and grade level, students should be given (1 - 3) 60 - 90 minute class sessions for each DIY project kit to complete assembly, personalize, and participate in the project activity if relevant. Students take completed projects home.

---

## **Elemental Hardware Enrichment will provide:**

### **Project materials, assembly supplies, tools, and art supplies for up to 20 students per class:**

- Each DIY project kit includes **all wooden or electrical parts and hardware** to assemble a project (on-site storage required).
  - Our project parts are made to last. We source durable raw materials at the most cost-effective rates our volume permits. Our carpenters and shop team then spend the time to manufacture these raw materials down into age-appropriate finished parts for students to assemble into finished projects themselves.
- Any **hand tools** (measuring tape, hammers, screwdrivers, pliers, wrenches, etc.) required to assemble a project will be provided to students (on-site storage required).
- Any **project supplies** (safety glasses, hardware trays, wood glue, etc.) required to assemble projects effectively will be provided to students (on-site storage required).
- Any **art supplies** (paint brushes, paint, palettes, stickers, markers, etc.) that will support students' creativity while decorating their projects will be provided to students (on-site storage required).

### **Material delivery:**

- All project materials, assembly supplies, tools, and art supplies will be delivered to each school site on an as needed basis.
- Delivery of DIY project kits will be made on a 1x weekly basis (as needed) on an agreed-upon day and time for each school site.

### **Instructors:**

- 1 - 2 instructors will be provided for each class
- Instructors will carry certifications and complete trainings as is compliant with the District's requirements.
- Instructors will be fully trained on hand tool and classroom safety, all DIY projects that they teach, general classroom management, and will work to promote an emotionally-safe and positive learning environment for all students.
- Instructors will arrive early before each class begins to prepare the classroom for student instruction. Instructors will also take the time after class ends to clean up after student instruction.

**Program launch support:**

- Elemental Hardware Enrichment is committed to leading any pre-launch enrollment marketing projects and / or events that become approved to set the program up for success and absorb any costs incurred as part of this promotional activity.
- Examples of potential projects and events that have been discussed:
  - On-site lunchtime booth for students to visit, learn about DIY, and take flyers home for parents to learn more
  - Marketing flyer for school administration to hand out to students and parents
  - Marketing copy and visual assets to insert in digital school announcements or principal messages

**Program evaluation support:**

- Elemental Hardware Enrichment is committed to leveraging its instructors to provide qualitative and quantitative feedback and evaluations on the program's impact and student skill development and engagement.
- Should the district request any additional program evaluation methods that require the support of Elemental Hardware Enrichment's instructors in implementing, we are open to discussing their requirements and integrating them into our instructors' scope of work.

**Ongoing program administrative support:**

- Elemental Hardware Enrichment is committed to partnering with the district to collect and receive feedback in the interest of continually improving DIY program delivery and overall after-school program objectives.
- This includes providing a primary point of contact at Elemental Hardware Enrichment for the district to funnel feedback through, manage any necessary scheduling changes, participate in Partner Meetings with site staff, and participate in any required staff PD or trainings.

**Oxnard School District will provide:****Storage:**

- Each school site needs to have space available to store DIY project kits and supplies for each week's worth of expected classes. Exact volume and storage space required will be provided in advance of each delivery.

### **Classroom requirements & enrollment reports:**

- The DIY program is best served in a classroom that allows 3 - 4 feet of room between each student while they are working with hand tools and a sink to access water while they are applying wood glue and personalizing their projects.
- Storage space for projects that need to dry overnight will also be required.
- A whiteboard in the classroom is also helpful on project activity days to keep score or with complex builds to label parts.
- Enrollment reports for each site that DIY will be offered during the Enrichment Burst so that Elemental Hardware Enrichment can have a better understanding of where to focus its enrollment marketing and awareness efforts.

Any failure on the part of District to give notice of the Service Provider's default shall not be deemed to result in a waiver of District's legal rights or any rights arising out of any provision of this Agreement. District may, but is not obligated to, provide Service Provider an opportunity to cure any default. Notwithstanding the thirty (30) calendar days' advance written notice specified herein, District reserves the right to *immediately* suspend the Services of Service Provider if the circumstances reasonably warrant (*e.g.*, due to imminent safety and health issues). Moreover, Service Provider shall be liable to District for any excess cost occasioned to District by termination for cause. The foregoing provisions for termination of this Agreement are in addition to, and not in limitation of, the rights of District under any other provisions of the Contract. Service Provider shall not be deemed to be in default if its failure to perform any Services or comply with any provisions of this Agreement results solely from the gross negligence or willful misconduct of District.

Additionally, if any school site is required to rely on remote learning in lieu of or in addition to student attendance at the time of commencement of classes or any time during the school year, then District shall have the right to notify Service Provider of the revised service needs, and the Service Provider shall, to the maximum extent reasonably practicable, provide the Services via remote learning or via a hybrid of in-person and remote learning, in which event District shall not be charged or required to pay for any additional costs of the remote or hybrid learning and, if the Services are reduced, then District shall only be billed for the Services provided and adjusted actual costs for reduced services received. District shall also furnish Service Provider written notice of school reopening plans, including phases and any interruptions in reopening schedules, and Service Provider agrees to furnish the Services as needed by District with cost reductions as reasonably warranted. Service Provider agrees to cooperate with District in cost reduction and utilization changes, including, but not limited to, working with Service Provider on partial, phased, or full reopening plans to provide such services as District shall need under those plans. Notwithstanding the generality of the foregoing clauses within this section, District may, in its sole and absolute discretion, elect to continue to pay for the Services despite the closure of one or more school sites if, for example, District receives emergency funds from the State or other sources for such purposes.

This Agreement does not violate any provision of any material agreement or document to which Service Provider is a party or by which Service Provider is bound.

e. There are no lawsuits, claims, suits, proceedings, or investigations pending or, to Service Provider's knowledge, threatened against Service Provider arising out of or concerning Contractor's performance under this Agreement. Neither Service Provider, nor any of Service Provider's officers, employees, or agents, shall, by virtue of Services rendered under this Agreement, obtain any rights to retirement, health care or any other benefits which may otherwise accrue to District's employees. District retains the right to prohibit any such employee from participating in the program or having access to students or the program site.

a. Service Provider shall promptly notify District if it is served with any summons, complaint, subpoena or other discovery request, court order or other request from any Party regarding this Agreement or the work performed hereunder.

b. District retains the right, but has no obligation, to represent Service Provider or be present at any deposition, hearing, or similar proceeding. Service Provider agrees to cooperate fully with District and to provide District with the opportunity to review any response to discovery requests provided by Service Provider; provided that this does not imply or mean the right by District to control, direct, or rewrite said response.

**15. Student Privacy Laws.**

a. In relation to the performance of the Services, Service Provider may receive or obtain access to confidential student data (“Confidential Student Data”) that is governed by privacy laws under federal or state law, including, but not limited to, the Health Insurance Portability and Accountability Act of 1996 (Pub. Failure to properly destroy or return Confidential Student Data shall preclude Service Provider from accessing personally identifiable student information for at least five (5) years as provided in 34 C.F.R. Section 99.31(a)(6)(iv), which shall be grounds for District to terminate this Agreement for cause and seek any and all remedies available to District at law or in equity.

Business and Prof. Code §§ 22584, *et seq.*) by (a) not knowingly engaging in advertising targeted to District students or their parents or guardians, creating profiles of students or their parents or guardians, selling information about students or their parents or guardians, or disclosing any personally identifiable information without proper prior consent; (b) storing, processing and protecting District data pursuant to commercial best practices, including encrypting data; (c) promptly deleting District data, including, but not limited to, student, parent and guardian data, upon District’s request; and (d) not storing District data outside of the United States.

Service Provider further covenants that in the performance of this Agreement, no person having any such interest shall be employed by it as an officer, employee, agent, or subcontractor without the express written consent of the District.

a. Service Provider agrees to at all times avoid conflicts of interest or the appearance of any conflicts of interest with the interests of District in the performance of this Agreement.

b. Board Bylaws Sections 9270 and 9270-E, as hereinafter amended or renumbered, require that a Service Provider that qualifies as a “designated employee” must disclose certain financial interests by filing financial interest disclosures. Sections 1101, et seq., as amended, and in connection therewith, shall not employ undocumented workers, defined herein the same as in 8 U.S.C.A. Section 1324a(h)(3). Should Service Provider so employ such individuals for the performance of work and/or Services covered by this Agreement, and should any liability or sanctions be imposed against District for such employment, Service Provider hereby agrees to and shall reimburse District for the cost of all such liabilities or sanctions imposed, together with any and all costs, including attorneys’ fees, incurred by District.

**19. Non-Discrimination.** Service Provider shall abide by the applicable provisions of the United States Civil Rights Act of 1964 and other provisions of law prohibiting discrimination and

shall not discriminate, in any way, against any person on the basis of race, color, religious creed, national origin, ancestry, sex, age, physical handicap, medical condition or marital status in connection with or related to the performance of this Agreement.

**20. Assignment.** The expertise and experience of Service Provider are material considerations for this Agreement. District has an interest in the qualifications of and capability of the persons and entities that will fulfill the duties and obligations imposed upon Service Provider under this Agreement. In recognition of that interest, Service Provider shall not assign or transfer this Agreement or any portion of this Agreement or the performance of any of Service Provider's duties or obligations under this Agreement without the prior written consent of the Board of Trustees of District. Any attempted assignment shall be ineffective, null and void, and shall constitute a material breach of this Agreement entitling District to any and all remedies at law or in equity, including summary termination of this Agreement.

**21. Subcontracting.** Notwithstanding the above, Service Provider may utilize subcontractors in the performance of its duties pursuant to this Agreement, but only with the prior written consent of District. Service Provider shall be as fully responsible to District for the acts and omissions of its subcontractors, and of persons either directly or indirectly employed by Service Provider, as if Service Provider performed the acts and omissions directly.

**22. Continuity of Personnel.** Service Provider shall make every reasonable effort to maintain the stability and continuity of Service Provider's staff and subcontractors, if any, assigned to perform the Services required under this Agreement.

a. Service Provider shall ensure that District has a current list of all personnel and subcontractors providing Services under this Agreement.

The list notice shall include the following information: (i) all full or part-time staff positions by title, including volunteer positions whose direct services are required to provide the Services described herein; (ii) a brief description of the functions of each such position and the hours each position works each week or, for part-time positions, each day or month, as appropriate; (iii) the professional degree, if applicable, and experience required for each position; and (iv) the name of the person responsible for fulfilling the terms of this Agreement.

c. Service Provider shall maintain a database of prospective employees in order to avoid a gap in filling intended positions.

d. Notwithstanding the generality of the foregoing, all Service Provider personnel assigned to perform under the Contract shall be subject to the continuous approval of District. District may refuse to accept any Service Provider personnel assigned to the Contract in the event that such persons fail to meet the necessary performance standards or for any other reasonable basis. Upon the request of District, Service Provider shall immediately terminate the assignment of any Service Provider personnel to the District's after-school program.

**23. Assumption of Responsibility.** In accordance with Service Provider’s obligations under paragraphs 11, 13, 21, and 22 herein, Service Provider assumes all responsibility for the care, custody, and control of students participating in any activity, whether on-site or off-site, offered in connection with the Services.

**24. Service Provider’s Indemnification of District.**

a. To the fullest extent permitted by California law, Service Provider, on behalf of itself and its officers, agents, employees, board members, owners, shareholders, subcontractors, volunteers and agents (collectively, “Indemnifying Party”), shall at its sole expense indemnify, protect, defend and hold harmless District, its officers, agents, employees, elected board members, and volunteers (collectively, “Indemnified Party”) from and against any liability (including liability for claims, suits, actions, arbitration proceedings, administrative proceedings, regulatory proceedings, losses, expenses or costs of any kind, whether actual, alleged or threatened, including attorneys’ fees and costs, court costs, interest, defense costs, and expert witness fees) of any kind, nature, and description, including, but not limited to, which arise out of or relate to any one or more of the following (each a “Claim” and collectively the “Claims”): (i) Indemnifying Party’s breach of any representation or warranty in the Contract; (ii) Indemnifying Party’s breach of any material provision of the Contract; (iii) Indemnifying Party’s violation of any applicable law; (iv) employment and labor claims concerning Indemnifying Party’s employees, agents, and/or subcontractors; (v) intentional misrepresentation or fraud by Indemnifying Party; (vi) bodily injury, including, but not limited to, illness, communicable disease, virus, or pandemic in connection with Indemnifying Party’s provision of the Services; (v) personal injury (including, but not limited to, injuries related to or derived from alleged sexual misconduct, sexual abuse, or molestation, and any claims or allegations of wrongful death) in connection with Indemnifying Party’s provision of the Services, (vi) any damage to and destruction of real property in connection with Indemnifying Party’s provision of the Services; (vii) any damage to and destruction of personal property in connection with Indemnifying Party’s provision of the Services, (viii) Service Provider’s furnishing to District of any copyrighted or patented material under the Contract and claims that such materials infringe upon a third party’s intellectual property rights. For avoidance of doubt, Service Provider’s liability under this paragraph includes any and all liability arising out of or in any way attributable to the performance of this Agreement by Service Provider or by any individual or entity for which Service Provider is legally liable, including, but not limited to, its officers, agents, employees, and subcontractors.

b. Indemnifying Party’s indemnity, defense, protection and hold harmless obligations under this paragraph 24 shall apply whether or not the applicable Claim: (i) is a third party claim or a direct claim; (ii) has any merit; (iii) arises from an act or omission authorized under the Contract; or (iv) is caused or alleged to have been caused by the negligence of the Indemnified Party, provided, however, that Indemnifying Party shall not be liable for damages or losses caused by sole gross negligence or sole willful misconduct of the Indemnified Party.

c. Indemnifying Party’s obligations under this paragraph 24 shall not be limited by Service Provider’s insurance requirements under the Contract.

d. The Indemnified Party shall promptly notify the Indemnifying Party of any Claim for which indemnification is sought, following actual knowledge of such Claim. However, the failure to give such notice shall not relieve the Indemnifying Party of its obligations hereunder except to the extent that Indemnifying Party is materially and irrevocably prejudiced by such failure. In the event that any third party Claim is brought, the Indemnifying Party shall have the right and option to undertake and control the defense of such action with counsel of its choice, except that (i) the Indemnified Party at its own expense may participate and appear on an equal footing with the Indemnifying Party in the defense of any such Claim; (ii) the Indemnified Party, at Indemnifying Party's expense, may undertake and control of such defense in the event of the material failure of the Indemnifying Party to undertake and control the same; and (iii) the Indemnified Party may control with counsel of its choice the defense of any third party Claim when an adverse judgment would establish a precedent that would be materially damaging to the continuing business interests of Indemnified Party as a public agency (e.g., a Claim involving public contracting rules). A Party shall not consent to judgment or concede or settle or compromise any Claim without the prior written approval of the other Party (which approval shall not be unreasonably withheld, delayed, or conditioned).

e. No Party shall be entitled to any form of implied or equitable indemnification at any time, whether based upon a theory of contract, torts, strict liability or otherwise, and each Party expressly disclaims any right to implied or equitable indemnification.

f. Service Provider agrees to obtain executed indemnity Agreements with provisions identical to those set forth here in this section from each and every subcontractor or any other person or entity involved by, for, with or on behalf of Service Provider in the performance of this Agreement. In the event Service Provider fails to obtain such indemnity obligations from others as required here, Service Provider agrees to be fully responsible according to the terms of this section. Failure of District to monitor compliance with these requirements imposes no additional obligations on District and will in no way act as a waiver of any rights hereunder. This obligation to indemnify and defend District as set forth here is binding on the successors, assigns or heirs of Service Provider and shall survive the termination of this Agreement.

g. The provisions of this paragraph 24 shall survive the termination or expiration of the Contract and remain in full force and effect.

*On behalf of Service Provider, I certify that I have read and understood the foregoing indemnity, defense, and hold harmless obligations under this paragraph 24 and that Service Provider agrees to be bound by such obligations.*

Governing Law; Jurisdiction.** The Contract, including this Agreement, shall be construed in accordance with the laws of the State for all substantive and procedural matters, without regard to principles of conflicts of law. The Parties further agree to waive any claim or allegation that the suit, action, or proceeding is either brought in an inconvenient forum or that the venue is improper.

**39. Dispute Resolution.** It is the Parties' intention to avoid the cost of litigation and to attempt to resolve any problems arising out of or related to the Contract amicably. To that end, the Parties agree to attempt to settle any and all disputes arising out of or related to the Contract by neutral, non-binding mediation, as a condition precedent to the commencement of arbitration, litigation, or any other similar proceeding. Either Party may request mediation, provided that the request shall be in writing and delivered to the other Party in accordance with the notice provisions set forth in this Agreement. The Parties agree to act in good faith to attempt to resolve any dispute by mediation. A Party shall not be entitled to attorneys' fees in any lawsuit, arbitration, or other proceeding related to or arising under the Contract if that Party refused or failed to participate in mediation in good faith pursuant to this paragraph. The Parties further agree to act in good faith to identify a

mutually acceptable mediator. If a mediator cannot be agreed upon by the Parties, each Party shall designate a mediator and those mediators shall select a third mediator who shall act as the neutral mediator of the Parties' dispute. If the dispute or claim is resolved successfully through the mediation, the resolution shall be documented by a written agreement executed by the Parties. If the mediation does not successfully resolve the dispute or claim, the mediator shall provide written notice to the Parties reflecting the same, and the Parties may then proceed to seek an alternative form of resolution of the dispute or claim, in accordance with the remaining terms of the Contract and other rights and remedies afforded to them by law. Notwithstanding the foregoing, nothing set forth in this paragraph shall require mediation prior to commencing an action in equity seeking injunctive relief or prior to District taking action to protect the health or safety of its students or staff. All applicable statutes of limitation shall be tolled while the mediation procedures specified herein are pending, and the Parties agree to take all action, including the execution of stipulations or tolling agreements, necessary to effectuate the intent of this provision.

I authorize my son/daughter, named above, to participate in the indicated voluntary extracurricular event or activity. I understand and acknowledge that voluntary extracurricular activities, by their very nature, pose the potential risk of serious injury and/or illness to the individuals who participate in such voluntary extracurricular events or activities.

This voluntary extracurricular event or activity, by its very nature, may pose some inherent risk of a participant being seriously injured, before, during, and/or after the activity or event, including transportation whether provided by the local educational agency (LEA) or not. These injuries may include, but are not limited to, the following:

- |  |                                     |

| 6. Disfigurement                         | 12. Exposure to infectious diseases |

I understand and acknowledge that participation in voluntary extracurricular events or activities is completely elective and voluntary and is not required by the LEA/School for completion of promotion or graduation requirements. I also understand that, if I do not consent to my son's/daughter's participation in the voluntary extracurricular event or activity, he/she may be offered an alternative event or activity and possible credit for promotion or graduation may or may not be offered.

I understand and acknowledge that in order to participate in these activities, I and my son/daughter agree to assume liability and responsibility for any and all potential risks that may be associated with participation in voluntary extracurricular events or activities.

I also understand that the LEA/School, due to the COVID-19 virus or other potential infectious diseases, has undertaken a plan to facilitate a safe environment for educational programs in addition to extracurricular, co-curricular and sport/athletic events or activities. In doing so, I further understand that the LEA/School has adopted plans designed to meet the requirements and recommendations of state agencies, health advisors and other responsible bodies. However, I also understand and acknowledge that despite the LEA's and School's efforts, the risk of infection from the COVID-19 virus, or others, cannot be eliminated at this time, and that my son/daughter may be exposed as a result. These other students, instructors, assistants, and facilities are potentially operating under a different COVID-19 safety plan, further increasing the risk of exposure of my son/daughter. Finally, I understand, acknowledge, and agree that despite reasonable care and steps by the LEA/School, that the virus presents serious challenges to prevention and control, and reasonable efforts by the LEA/School does not assure that my son/daughter may not be infected, and that the infection may not be brought home. Despite all the above I am freely and voluntarily signing this "Extracurricular Event or Activity, Assumption of Risk Form" to enable and authorize my son/daughter to participate and releasing and discharging the LEA/School and its/their governing board, officers, agents, employees and/or volunteers from any liability for my son/daughter becoming infected in his/her participation in the event or activity.

I agree to, and do hereby release and hold the LEA/School and its governing board, officers, agents, employees and/or volunteers harmless for any and all claims; demands; causes of action; liability; damages; expenses; or loss of any sort, including bodily injury or death; because of or arising out of acts or omissions with respect to the voluntary extracurricular event or activity, including programs or procedures of the LEA/School for students and participation in such events or activities

## Oxnard School District Concussion Information Sheet

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a “ding” or a bump on the head can be serious. You cannot see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

**Symptoms may include one or more of the following:**

- |  |   |
|--|---|
| <ul style="list-style-type: none"> <li>• Headaches</li> <li>• “Pressure in head”</li> <li>• Nausea or vomiting</li> <li>• Neck pain</li> <li>• Balance problems or dizziness</li> <li>• Blurred, double, or fuzzy vision</li> <li>• Sensitivity to light or noise</li> <li>• Feeling sluggish or slowed down</li> <li>• Feeling foggy or groggy</li> <li>• Drowsiness</li> <li>• Change in sleep patterns</li> </ul> | <ul style="list-style-type: none"> <li>• Amnesia</li> <li>• “Don’t feel right”</li> <li>• Fatigue or low energy</li> <li>• Sadness</li> <li>• Nervousness or anxiety</li> <li>• Irritability</li> <li>• More emotional</li> <li>• Confusion</li> <li>• Concentration or memory problems (forgetting game plays)</li> <li>• Repeating the same question/comment</li> </ul> |
|--|---|

**Signs observed by teammates, parents and coaches include:**

- Appears dazed
- Vacant facial expression
- Confused about assignment
- Forgets plays
- Is unsure of game, score, or opponent
- Moves clumsily or displays incoordination
- Answers questions slowly
- Slurred speech
- Shows behavior or personality changes
- Can’t recall events prior to hit
- Can’t recall events after hit
- Seizures or convulsions
- Any change in typical behavior or personality
- Loses consciousness

**What can happen if my child keeps on playing with a concussion or returns too soon?**

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often under report symptoms of injuries. And concussions are no different. As a result, education of administrators, coaches, parents and students is the key for student-athlete’s safety.

**If you think your child has suffered a concussion**

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. California Education Code section 49475 and CIF Bylaw 313 now require implementation of long and well-established return to play concussion guidelines that have been recommended for several years.

You should also inform your child’s coach if you think that your child may have a concussion. Remember it is better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

**Return to Play (RTP)**

Concussion symptoms should be completely gone before returning to full practice or competition. A RTP progression involves a gradual, step-wise increase in physical effort, sports-specific activities and the risk for contact. If symptoms occur with activity, the progression should be stopped. If there are no symptoms the next day, exercise can be restarted at the previous stage.

RTP after concussion should occur only with medical clearance from a medical doctor trained in the evaluation and management of concussions, and a step-wise progression program monitored by an athletic trainer, coach, or other identified school administrator. Please see [cifstate.org](http://cifstate.org) for a graduated return to play plan. Return to play (i.e., full practice and competition) must be no sooner than 7 days after the concussion diagnosis has been made by a physician.

### Información acerca de las concusiones cerebrales

Una concusión es una herida cerebral y todas las heridas cerebrales son graves. Dichas heridas son causadas por un golpe ligero, un golpe fuerte a la cabeza, un movimiento repentino de la cabeza o por un golpe fuerte a otra parte del cuerpo con fuerza que se trasmite a la cabeza. Las heridas varían entre ligeras o graves y pueden interrumpir la manera en la que el cerebro funciona. Aunque la mayoría de las concusiones cerebrales son ligeras, **todas las concusiones cerebrales tienen el potencial de ser graves y si no se reconocen y tratan correctamente podrían tener como resultado complicaciones incluyendo daño cerebral prolongado o la muerte.** Eso quiere decir que cualquier “golpecito” a la cabeza podría ser grave. Las concusiones cerebrales no son visibles y en su mayoría las concusiones cerebrales que ocurren durante los deportes no ocasionan la pérdida de conciencia. Las señales y síntomas de una concusión cerebral podrían aparecer inmediatamente después de una herida o después de horas o días. Si su hijo(a) reporta cualquier síntoma de una concusión cerebral, o si se da cuenta de los síntomas de una concusión cerebral, por favor consiga atención médica sin demora.

#### Los siguientes son algunos de los síntomas de una concusión:

- |   |  |
|---|--|
| <ul style="list-style-type: none"> <li>• Dolor de cabeza</li> <li>• “Presión en la cabeza”</li> <li>• Náusea o vómito</li> <li>• Dolor de cuello</li> <li>• Problemas de equilibrio o mareos</li> <li>• Visión borrosa o visión doble</li> <li>• Sensibilidad a la luz o ruido</li> <li>• Decaído</li> <li>• Adormecido</li> <li>• Mareado</li> <li>• Cambios en los hábitos de dormir</li> </ul> | <ul style="list-style-type: none"> <li>• Amnesia</li> <li>• “No se siente bien”</li> <li>• Fatiga o energía baja</li> <li>• Tristeza</li> <li>• Nervios o ansiedad</li> <li>• Irritabilidad</li> <li>• Más sensible</li> <li>• Confundido</li> <li>• Problemas con concentración o memoria (por ejemplo: olvidar las jugadas)</li> <li>• Repetir la misma pregunta o comentario</li> </ul> |
|---|--|

#### Los siguientes síntomas son observados por compañeros, padres y entrenadores:

- Parece desorientado
- Tiene una expresión facial vacía
- Está confundido acerca de la tarea o actividad
- Se olvida de las jugadas
- Está confundido sobre el juego, los puntos o el oponente
- Se mueve torpemente o muestra una falta de coordinación
- Contesta las preguntas lentamente
- Arrastra las palabras
- Muestra cambios de comportamiento o personalidad
- No puede recordar los eventos que sucedieron antes de la colisión
- No puede recordar los eventos que sucedieron después de la colisión
- Ataques o convulsiones
- Cualquier cambio en el comportamiento típico o personalidad
- Pérdida de la conciencia

**¿Qué puede pasar si mi hijo(a) sigue jugando con una concusión cerebral o regresa a jugar antes de que este recuperado?**

Los deportistas con señales o síntomas de una concusión cerebral deben dejar de jugar inmediatamente. Continuar jugando con las señales o síntomas de una concusión pone al deportista en riesgo de sufrir una herida más grave. La probabilidad de que se sufra daño significativo de una concusión aumenta cuando ha pasado un periodo de tiempo largo después de que sucedió la concusión, sobre todo si el deportista sufre otra concusión antes de recuperarse completamente de la primera. Eso puede traer como consecuencia una recuperación más prolongada o incluso una hinchazón cerebral (síndrome de segundo impacto) con consecuencias devastadoras o fatales. Es bien conocido que los deportistas adolescentes no reportan mucho los síntomas de sus heridas. Eso es el caso también con las concusiones cerebrales. Por lo mismo es importante que los administradores, entrenadores, padres y estudiantes estén bien informados, el cual es clave para la seguridad de los estudiantes deportistas.

**Si cree que su hijo(a) ha sufrido una concusión**

En cualquier situación donde se sospecha que un deportista tiene una concusión, es importante sacar a este estudiante del juego o entrenamiento inmediatamente. Ningún deportista puede volver a participar en la actividad después de sufrir una herida de cabeza o concusión cerebral sin el permiso de un doctor, no importa si la herida parece ser ligera o los síntomas desaparecen rápidamente. Se debe de observar cuidadosamente el mejoramiento del deportista por varias horas. Código Educativo de California sección 49475 y estatuto 313 de la Federación Interescolar de California (CIF por sus siglas en inglés) requiere la implementación de las siguientes normas para regresar a jugar un deporte después de sufrir una concusión, las cuales se han recomendado por muchos años.

También debe informar al entrenador(a) de su hijo(a) si piensa que ha sufrido una concusión cerebral. Recuerde que es mejor faltar un partido que faltar toda la temporada. Si existe alguna duda de que el deportista sufrió una concusión cerebral o no, se tomará precauciones y no podrá jugar.

**Volver a Jugar**

Síntomas de concusión cerebral deben ser desaparecido por completo antes de volver a la práctica completa o la competencia. Un volver a jugar la progresión implica un aumento gradual, paso a paso en el esfuerzo físico, las actividades de los deportes específicos y el riesgo para el contacto. Si se presentan síntomas con la actividad, la progresión se debe parar. Si no hay síntomas al día siguiente, el ejercicio puede iniciarse de nuevo en la etapa anterior.

Volver a jugar después de la concusión cerebral debe ocurrir sólo con autorización médica de un médico entrenado en la evaluación y la gestión de las concusiones cerebrales. Volver a jugar debe ser supervisado por un entrenador, entrenador atlético o administrador identificado por la escuela. Por favor, consulte [cifstate.org](http://www.cdc.gov/ConcussionInYouthSports/) para un retorno gradual a jugar el plan. Retorno a la práctica completa y la competencia debe ser no antes de 7 días después del diagnóstico concusión ha sido hecha por un médico.

# Parent/Student CIF Heat Illness Information Sheet

### Why am I getting this information sheet?

You are receiving this information sheet about Heat Illness because of California state law AB 2800 (effective January 1, 2019), now Education Code § 35179 and CIF Bylaws 22.B.(9) and 503.K (Approved Federated Council January 31, 2019):

1. The law requires a student athlete who has been removed from practice or play after displaying signs and symptoms associated with heat illness must receive a written note from a licensed health care provider before returning to practice.
2. Before an athlete can start the season and begin practice in a sport, a Heat Illness information sheet must be signed and returned to the school by the athlete and the parent or guardian.

Every 2 years all coaches are required to receive training about concussions (AB 1451), heat illness (AB 2800) as well as certification in First Aid training, CPR, and AEDs (life-saving electrical devices that can be used during CPR).

### What is Heat Illness and how would I recognize it?

Exercise produces heat within the body and can increase the player's body temperature. Add to this a hot or humid day and any barriers to heat loss such as padding and equipment, and the temperature of the individual can become dangerously high.

Heat Illness occurs when metabolically produced heat combines with that gained from the environment to exceed the heat and large sweat losses. Young athletes should be pre-screened at their pre-participation physical exam form education/supplement use, cardiac disease, history of sickle cell trait, and previous heat injury. Athletes with any of these factors should be supervised closely during strenuous activities in a hot climate. Fatal heat stroke occurs most frequently among obese high school middle lineman.

Much of one's body heat is eliminated by sweat. Once this water leaves the body, it must be replaced. Along with water loss, many other minerals are lost in the sweat. Most of the commercial drinks now available contain these minerals, such as Gatorade, etc., but just plain water is all that is really required because the athlete will replace the lost minerals with his/her normal diet.

**PREVENTION:** There are several steps which can be taken to prevent heat illness from occurring:

**ADEQUATE HYDRATION:** The athlete should arrive at practice well-hydrated to reduce the risk of dehydration. The color of the urine can provide a quick guess at how hydrated the athlete. If the urine is dark like apple juice means the athlete is dehydrated. If the urine is light like lemonade in color means the athlete seems adequately hydrated.

Water or sports drinks should be readily available to athletes during practice and should be served ideally chilled in containers that allow adequate volumes of fluid to be ingested.

Water breaks should be given at least every 30-45 minutes and should be long enough to allow athletes to ingest adequate volumes of fluid.

Athletes should be instructed to continue fluid replacement in between practice sessions.

**GRADUAL ACCLIMATIZATION:** Intensity and duration of exercise should be gradually increased over a period of 7-14 days to give athletes' time to build fitness levels and become accustomed to practicing in the heat. Protective equipment should be introduced in phases (start with helmet, progress to helmet and shoulder pads, and finally fully uniform).

**HEAT EXHAUSTION:** Inability to continue exercise due to heat-induced symptoms. Occurs with an elevated body-core temperature between 97- and 104-degrees Fahrenheit.

<ul style="list-style-type: none"> <li>• Dizziness, lightheadedness, weakness</li> </ul>	<ul style="list-style-type: none"> <li>• Profuse sweating</li> </ul>
<ul style="list-style-type: none"> <li>• Headache</li> </ul>	<ul style="list-style-type: none"> <li>• Cool, clammy skin</li> </ul>
<ul style="list-style-type: none"> <li>• Nausea</li> </ul>	<ul style="list-style-type: none"> <li>• Hyperventilation</li> </ul>
<ul style="list-style-type: none"> <li>• Diarrhea, urge to defecate</li> </ul>	<ul style="list-style-type: none"> <li>• Decreased urine output</li> </ul>
<ul style="list-style-type: none"> <li>• Pallor, chills</li> </ul>	

**TREATMENT:** Stop exercise, move player to a cool place, remove excess clothing, give fluids if conscious, COOL BODY: fans, cold water, ice towels, or ice packs. Fluid replacement should occur as soon as possible. The athlete should be referred to a hospital emergency if recovery is not rapid. When in doubt, CALL 911. Athletes with heat exhaustion should be assessed by a physician as soon as possible in all cases.

**HEAT STROKE:** Dysfunction or shutdown of body systems due to elevated body temperature which cannot be controlled. This occurs with a body-core temperature greater than 107 degrees Fahrenheit.

**WARNING SYMPTOMS:**

**This is a MEDICAL EMERGENCY. Death may result if not treated properly and rapidly.**

Treatment: Stop exercise, Call 911, remove from heat, remove clothing, immerse athlete in cold water for aggressive, rapid cooling (if immersion is not possible, cool the athlete as described for heat exhaustion), monitor vital signs until paramedics arrive.

<b>Signs observed by teammates, parents and coaches include:</b>	
<ul style="list-style-type: none"> <li>• Dizziness</li> </ul>	<ul style="list-style-type: none"> <li>• Weakness</li> </ul>
<ul style="list-style-type: none"> <li>• Drowsiness, loss of consciousness</li> </ul>	<ul style="list-style-type: none"> <li>• Hot and wet or dry skin</li> </ul>
<ul style="list-style-type: none"> <li>• Seizures</li> </ul>	<ul style="list-style-type: none"> <li>• Rapid heartbeat, low blood pressure</li> </ul>
<ul style="list-style-type: none"> <li>• Staggering, disorientation</li> </ul>	<ul style="list-style-type: none"> <li>• Hyperventilation</li> </ul>
<ul style="list-style-type: none"> <li>• Behavioral/cognitive changes (confusion, irritability, aggressiveness, hysteria, emotional instability)</li> </ul>	<ul style="list-style-type: none"> <li>• Vomiting, diarrhea</li> </ul>

**Final Thoughts for Parents and Guardians:**

Heat stress should be considered when planning and preparing for any sports activity. Summer and fall sports are conducted in very hot and humid weather in many parts of the California. Many of the heat problems have been associated with football, due to added equipment which acts as a barrier to heat dissipation. Several heatstroke deaths continue to occur each season in the United States. There is no excuse for heatstroke deaths if the proper precautions are taken.

You should also feel comfortable talking to the coaches or athletic trainer about possible heat illness signs and symptoms that you may be seeing in your child.

I acknowledge that I have received and read the CIF Heat Illness Information Sheet.

## Hoja de información CIF para padres/estudiantes referente a la insolación

### ¿Por qué me han enviado esta información?

Usted ha recibido esta hoja informativa referente a la insolación debido a lo indicado por la Ley AB 2800 de California (efectiva el 1° de enero del 2019), el cual ahora es parte del Código de Educación § 35179 y de los reglamentos CIF 22.B.(9) y 503.K (aprobados por el Concilio Federal el 31 de enero del 2019):

1. La ley requiere que cualquier atleta estudiante que haya sido excluido de las prácticas o de algún partido debido a que ha mostrado señales y síntomas relacionados con la insolación (infarto de calor), debe recibir una nota escrita de un proveedor acreditado de cuidados médicos antes de regresar a las prácticas de atletismo.
2. Antes que un atleta pueda comenzar la temporada y comience las prácticas deportivas, los padres o tutores legales deben firmar y entregar a la escuela una Hoja de información sobre la insolación.

Cada dos años todos los entrenadores tienen el requisito de recibir entrenamiento sobre las contusiones cerebrales (AB 1451), la insolación (AB 2800) al igual que una certificación de entrenamiento sobre primeros auxilios, resucitación cardiopulmonar (CPR, en inglés) y los instrumentos eléctricos (AEDs, en inglés) que se pueden utilizar para salvar la vida durante una resucitación cardiopulmonar (CPR).

### ¿Qué es la insolación y como puedo identificar los síntomas?

El ejercicio produce calor dentro del cuerpo y puede incrementar la temperatura del cuerpo del atleta. Si a esto se agregan un día caluroso o húmedo, más las barreras que impiden la disipación del calor como el equipo de amortiguación en el uniforme deportivo, la temperatura corporal del individuo puede aumentar peligrosamente.

La insolación ocurre cuando el calor producido por el metabolismo corporal se combina con el calor que proviene del medioambiente, lo que ocasiona calor excesivo y grandes pérdidas de sudor. Previo a su participación, los atletas jóvenes deben ser evaluados durante su examen médico para diagnosticar enfermedades cardíacas, historial de células falciformes (sickle cell trait, en inglés) y traumas previos debido al calor. Los atletas que presenten cualquiera de estos casos deben ser supervisados cuidadosamente durante las actividades estrenuas realizadas en climas calientes. El infarto fatal debido al calor ocurre más frecuentemente entre los atletas obesos de preparatoria que juegan la posición de defensas medios.

La mayoría del calor corporal es eliminado por medio del sudor. El líquido debe ser reemplazado después que ha salido del cuerpo. Junto con la pérdida de agua, el cuerpo pierde muchos otros minerales por medio del sudor. La mayoría de las bebidas comerciales disponibles, tales como Gatorade, etc., contienen estos minerales; sin embargo, lo que realmente se necesita es solamente agua debido a que el atleta recuperará los minerales perdidos por medio de su dieta regular.

**PREVENCIÓN:** Existen varios pasos que deben seguirse para prevenir un infarto debido al calor:

**LA HIDRATACIÓN APROPIADA:** El atleta debe llegar a sus prácticas deportivas bien hidratado para reducir el riesgo de deshidratación. El color de la orina puede mostrar fácilmente el nivel de hidratación del atleta. Si la orina es oscura parecido al jugo de manzana, eso significa el atleta está deshidratado. Si la orina es clara como el color de la limonada, eso significa que el atleta está propiamente hidratado.

En las prácticas debe haber agua y bebidas deportivas fácilmente disponibles para los atletas y de preferencia deben servirse frías y en envases que permitan la ingestión de líquidos en volúmenes apropiados.

También debe haber recesos para beber agua por lo menos cada 30 o 45 minutos y los recesos deben ser suficientemente largos para ingerir volúmenes apropiados de líquidos.

A los atletas se les debe instruir que deben continuar reemplazando los líquidos antes y después de las sesiones de práctica.

**LA ACLIMATACIÓN GRADUAL:** La intensidad y la duración del ejercicio debe incrementarse gradualmente durante un periodo de 7 a 14 días para que el atleta pueda alcanzar niveles apropiados de aptitud física y su cuerpo se acostumbre a practicar en el calor. El equipo protector debe introducirse de manera gradual (comenzando con el casco, después el casco y las hombreras, y finalmente el uniforme completo).

**EL AGOTAMIENTO DEBIDO AL CALOR:** Es la inhabilidad de continuar ejercitando debido a los síntomas producidos por el calor. Esto ocurre cuando la temperatura básica del cuerpo se encuentra entre los 97 y los 104 grados Fahrenheit.

• Vértigo, mareo, debilidad	• Sudor abundante
• Dolor de cabeza	• Piel viscosa y fría
• Náusea	• Hiperventilación
• Diarrea, urgencia para defecar	• Reducción en la producción de orina
• Palidez, escalofríos	

**TRATAMIENTO:** Dejar de ejercitar, acudir a un lugar frío, quitar la ropa excesiva, beber líquidos si la persona está consiente, ENFRIAR EL CUERPO: con ventiladores, agua fría, toallas heladas, o esponjas húmedas congeladas (ice packs). Debe comenzar la recuperación de líquidos tan pronto como sea posible. Si su recuperación no es rápida, el atleta debe ser llevado a la sala de emergencias del hospital. Si existen dudas, LLAME AL 911. En todos los casos, los atletas que sufren agotamiento debido al calor deben ser evaluados por un médico tan pronto como sea posible.

**INFARTO DEBIDO AL CALOR:** Es el mal funcionamiento o paralización de los sistemas corporales debido a la alta temperatura del cuerpo la cual está fuera de control. Esto ocurre cuando la temperatura básica del cuerpo es mayor a los 107 grados Fahrenheit.

**SÍNTOMAS DE ALARMA:**

Los siguientes síntomas representan una EMERGENCIA MÉDICA. Podría ocasionar la muerte si no se ofrece tratamiento médico inmediato y apropiado.

Tratamiento: dejar de ejercitar, llamar al 911, alejar del calor, desvestirse, sumergir al atleta en agua fría para un enfriamiento rápido y eficaz (si no es posible sumergir al atleta, enfriar al atleta siguiendo el tratamiento para el agotamiento debido al calor), vigilando los signos vitales hasta que lleguen los paramédicos.

<b>Los síntomas que han sido observados por los jugadores, padres y entrenadores incluyen:</b>	
• Mareos (vértigo)	• Debilidad
• Letargo (adormecimiento), quedar inconsciente	• Piel caliente, húmeda o seca
• Convulsiones (ataques epilépticos)	• Pulso rápido, baja presión sanguínea
• Tambaleo, tropiezos, desorientación	• Hiperventilación
• Cambios cognitivos y de comportamiento (confusión, irritabilidad, agresividad, histeria, inestabilidad emocional)	• Vómito, diarrea

**Consejos finales para los padres y tutores legales:**

Cada vez que planea y prepare cualquier actividad deportiva usted debe tomar en cuenta el estrés que será producido por el calor. En varias regiones de California, los deportes de verano y otoño a menudo se realizan en climas muy calientes y húmedos. Muchos de los problemas ocasionados por el calor se relacionan con el futbol Americano, debido al equipo adicional que los atletas deben vestir y el cual actúa como una barrera que impide la disipación del calor. Durante cada temporada deportiva en los Estados Unidos continúan sucediendo varias muertes debido a los infartos por el calor. Si se toman las precauciones apropiadas, no existe ninguna excusa para permitir que suceda una muerte debido a un infarto por el calor.

Usted debe tener la confianza de hablar con los entrenadores o manejadores de atletismo referente a los posibles síntomas de insolación y sobre los síntomas que tal vez usted observa en su hijo.

Yo confirmo que he recibido y leído La Hoja de información CIF referente a la insolación.

## OXNARD SCHOOL DISTRICT Prescription Opioids: What You Need to Know

Prescription opioids can be used to help relieve moderate-to-severe pain and are often prescribed following a surgery or injury, or for certain health conditions. These medications can be an important part of treatment but also come with serious risks. It is important to work with your health care provider to make sure you are getting the safest, most effective care.

Prescription opioids carry serious risks of addiction and overdose, especially with prolonged use. An opioid overdose, often marked by slowed breathing, can cause sudden death. The use of prescription opioids can have a number of side effects as well, even when taken as directed.

### **Side effects may include one or more of the following:**

- Tolerance - meaning you might need to take more of a medication for the same pain relief
- Physical dependence—meaning you have symptoms of withdrawal when a medication is stopped
- Increased sensitivity to pain
- Constipation
- Nausea, vomiting, and dry mouth
- Sleepiness and dizziness
- Confusion
- Depression
- Low levels of testosterone that can result in lower sex drive, energy, and strength
- Itching and sweating

### **Risks are greater with the following:**

- History of drug misuse, substance use disorder, or overdose
- Mental health conditions (such as depression or anxiety)
- Sleep apnea
- Older age (65 years or older)
- Pregnancy

### **Unless specifically advised by your health care provider, medications to avoid include:**

- Benzodiazepines (such as Xanax or Valium)
- Muscle relaxants (such as Soma or Flexeril)
- Hypnotics (such as Ambien or Lunesta)
- Other prescription opioids
- In addition, avoid alcohol while taking prescription opioids.

**KNOW YOUR OPTIONS**

**Talk to your health care provider about ways to manage your pain that do not involve prescription opioids. Some of these options may actually work better and have fewer risks and side effects. Options may include:**

- Pain relievers such as acetaminophen, ibuprofen, and naproxen
- Some medications that are also used for depression or seizures
- Physical therapy and exercise
- Cognitive behavioral therapy, a psychological, goal-directed approach, in which patients learn how to modify physical, behavioral, and emotional triggers of pain and stress.

**IF YOU ARE PRESCRIBED OPIOIDS FOR PAIN:**

- Never take opioids in greater amounts or more often than prescribed.
- Follow up with your primary health care provider within.
  - Work together to create a plan on how to manage your pain.
  - Talk about ways to help manage your pain that don't involve prescription opioids.
  - Talk about any and all concerns and side effects.
- Help prevent misuse and abuse.
  - Never sell or share prescription opioids.
  - Never use another person's prescription opioids.
- Store prescription opioids in a secure place and out of reach of others (this may include visitors, children, friends, and family).
- Safely dispose of unused prescription opioids: Find your community drug take-back program or your pharmacy mail-back program, or flush them down the toilet, following guidance from the Food and Drug Administration:  
[www.fda.gov/Drugs/ResourcesForYou](http://www.fda.gov/Drugs/ResourcesForYou)
- Visit [www.cdc.gov/drugoverdose](http://www.cdc.gov/drugoverdose) to learn about the risks of opioid abuse and overdose.
- If you believe you may be struggling with addiction, tell your health care provider and ask for guidance or call SAMHSA's National Helpline at 1-800-662-HELP.

### Opioides recetados: lo que necesita saber

Los opioides recetados son medicamentos que sirven para aliviar el dolor moderado a intenso y suelen ser recetados luego de una cirugía o de sufrir una lesión, o ante ciertos problemas de salud. Estos medicamentos pueden ser una parte importante del tratamiento, aunque también implican riesgos graves. Es importante comunicarse con su proveedor de atención médica para asegurarse que está obteniendo la atención más segura y eficaz.

Los riesgos más graves de los opioides recetados son la adicción y la sobredosis, especialmente con el uso prolongado. Una sobredosis con opioides puede reducir la frecuencia respiratoria y provocar la muerte repentina. Los opioides recetados pueden tener efectos secundarios, incluso si se toman según las indicaciones.

#### **Los efectos secundarios pueden incluir uno o más de los siguientes:**

- Tolerancia: la necesidad de tomar más medicamentos para lograr la misma reducción del dolor
- Dependencia física: aparición de síntomas de abstinencia al interrumpir el consumo
- Mayor sensibilidad al dolor
- Estreñimiento: es el efecto secundario más común
- Náuseas, vómitos y sequedad de boca
- Somnolencia y mareo
- Confusión
- Depresión
- Bajos niveles de testosterona, que pueden resultar en un menor impulso sexual, energía y fuerza
- Comezón y sudor

#### **Los riesgos son mayores con lo siguiente:**

- Tiene antecedentes de abuso de drogas, trastorno de consumo de sustancias o sobredosis
- Tiene una condición de salud mental, (como depresión o ansiedad)
- Tiene apnea del sueño
- Tiene 65 años o más
- Está embarazada

#### **A menos que su proveedor de atención médica lo indique específicamente, los medicamentos que debe evitar incluyen:**

- Benzodicepinas (como Xanax o Valium)
- Relajantes musculares (como Soma o Flexeril)
- Pastillas para dormir (como Ambien o Lunesta)
- Otros opioides recetados
- Adicionalmente, evite el consumo de alcohol mientras esté tomando opioides recetados.

**SEPA CUÁLES SON SUS OPCIONES**

**Hable con su proveedor de atención médica acerca de las maneras de controlar el dolor sin tener que usar opioides. Algunas de esas opciones podrían dar mejores resultados y presentar menores riesgos y efectos secundarios. Las opciones podrían ser las siguientes:**

- Otros analgésicos, como acetaminofeno (Tylenol), ibuprofeno (Advil, Motrin) o naproxeno
- Algunos medicamentos que también se emplean contra la depresión y las convulsiones.
- Fisioterapia y ejercicios
- Terapia cognitiva conductual, un enfoque psicológico dirigido por objetivos donde los pacientes aprenden a modificar las causas físicas, conductuales y emocionales del dolor y el estrés.

**SI LE RECETAN OPIOIDES PARA EL DOLOR:**

- Nunca tome opioides en más cantidades o más seguido que lo indicado.
- Haga un seguimiento con su proveedor de atención médica.
  - Establezcan juntos un plan para tratar el dolor.
  - Analicen posibilidades para tratar el dolor, las cuales no incluyan opioides recetados.
  - Hable de sus inquietudes y de los efectos secundarios.
- Ayude a evitar el mal uso y el abuso.
  - Nunca venda ni comparta opioides recetados.
  - Nunca use los opioides recetados de otra persona.
- Guarde los opioides recetados en un lugar seguro y lejos del alcance de otras personas. (Esto puede incluir visitas, niños, amigos y familiares).
- Deshágase de manera segura de los opioides recetados que le sobren. Encuentre el programa de devolución de medicamentos de su comunidad o el programa de devolución de medicamentos de su farmacia o tírelos en el inodoro, siguiendo las instrucciones de la Administración de Alimentos y Medicamentos: [www.fda.gov/Drugs/ResourcesForYou](http://www.fda.gov/Drugs/ResourcesForYou).
- Visite [www.cdc.gov/drugoverdose](http://www.cdc.gov/drugoverdose) para conocer los riesgos del abuso y la sobredosis de opioides
- Si cree que puede estar luchando contra la adicción, infórmeselo a su proveedor de atención médica y solicite orientación o llame a la línea de ayuda nacional de SAMHSA al 1-800-662-HELP.

**Sudden Cardiac Arrest Information Sheet**

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the victim to collapse. The malfunction is caused by a congenital or genetic defect in the heart's structure.

Recognize the Warning Signs and Risk Factors of Sudden Cardiac Arrest.
