OnCourse Connect Parent and Student User Guide

Manila, Tanya

6 months ago · Updated

[Follow](#)

This guide will walk you through the features and capabilities of OnCourse Connect. You may not see all of the tabs discussed in this article. Visibility is dependent on your district's setup. If there is a tab that you are not seeing but think you should have access to, please contact your district.

1

Navigation

When you first log into OnCourse Connect you will be taken to the Classroom LMS tab. If your district is not using OnCourse Classroom, the default tab will be the Student Info tab. The navigation bar is located on the left. This is where you will navigate between the various tabs.

Daily Health Screening

If health screenings are turned on for your district, you can click here to complete and submit the Daily Health Screening questionnaire.

Parents/Guardians: Please complete this short health screening each morning before your child leaves for school. This form will need to be completed for each student in the district.
Please check any of the following boxes if they are TRUE of this student.

☐ I confirm that my answers to all of the above are true and accurate (required).

Notifications

Here, parents and students are able to customize the way in which they are notified within each category. Parents will see four categories; Global Notifications, Announcements, General, and Grade Book. Students will have slightly different

options. They will see; Global Notifications, Announcements, Classroom, and General.

Within each category, users can enable notifications in four places; the Connect Notification Center, Connect Mobile App, Email (Individual Notifications), and Email (Daily Digest). Along with the Email (Daily Digest) option, users can choose a delivery time to receive the daily digest.

It is important to note that *Global Settings* override individual settings in all other categories. If an option **is checked** in the *Global Settings* area, and the same option **is checked** in the *Announcements* area, then the notification **WILL be sent**. However, if a setting **is not checked** in the *Global Settings* area and **is checked** in the *Announcements* area, then the notification **WILL NOT be sent**.

It is best practice to check all options in the Global Settings area, and then only check the desired notifications at the individual levels.
