BRAND MANAGEMENT

To download a copy of the most recent version of guidelines and official brand assets, visit:

worthington.k12.oh.us/WKHS-Wolf

These guidelines are intended to ensure that the athletic brand for Worthington Kilbourne High School is articulated in a consistent and approved manner. They are a source of guidance and insight for creating communications that engage and inform our key partners while reinforcing a consistent brand message to our community. Each time the brand is represented correctly, it gains strength. Conversely, with each incorrect use, the brand loses equity.

Think of these guidelines as a framework for creating strong and effective communications that:

- Reinforces our athletic brand positioning and graphic identity
- Helps create a consistent experience across all communications
- Creates a unique, ownable and differentiated look that stands out from other schools

Please reach out to the following people to request files, seek approval, or for clarification when using these new brand assets.

What is the difference between CMYK, RGB, Spot Color, BW and WH?

CMYK

- CMYK refers to Cyan, Magenta, Yellow, and Black.
- An offset printer (not color copying or desktop printing) needs CMYK versions of the logo in order to print in full-color process.

RGB

- RGB refers to Red, Green, and Blue.
- RGB type files are used on-screen and when printing on a color copier or a desktop printer.

SPOT

- Spot Colors are specified with the PANTONE MATCHING SYSTEM®.
- Colors created without screens or dots, such as those found in the PANTONE MATCHING SYSTEM®, are referred to in the industry as Spot or Solid Colors.

BW/WH

- BW is an abbreviation for Black on White. WH is an abbreviation for White on Black. Any good logo should reproduce well in black and white.

When do I use Digital or Print assets?

Our logo library is divided into these folders:

- Wolf Mascot
- Pack
- Wolf Paw
- WK_Monogram
- WK_Monogram with Wolves
- WK_Sports: This folder contains all 24 team sports
- WKW_Spiritmark
- WKW_Wordmark

Within each of these folders are the sub-folders: **DIGITAL** and **PRINT**. Please use the proper files for the media you are using.

- DIGITAL assets are used for designs that will be featured on screen—web sites, social media, email and PowerPoint presentations, etc.
- DIGITAL file formats are JPEG and PNG.
- PRINT assets are used for printing—apparel, promo items, banners, etc.
- PRINT files are EPS, PDF, and SVG.
- The vendor you are working with to print an item will prefer a file format, so it is best to check with them first to send correct file.

File formats for DIGITAL/RGB

JPG

JPG (or JPEG) is a raster image that is often used for photographs on the web. A JPG can't have a transparent background so they are always in the shape of a rectangle or square with a solid background.

Best use = rectangle or square logos, photos and photographs on your web site.

PNG

PNG is another raster image type. The main difference to understand between a PNG and JPG is that a PNG *can have a transparent background* and is generally larger and higher quality. Therefore a PNG is ideal for saving logo files for web sites because they can be placed over a colored background.

Best use = logos, icons and other images where a transparent background is preferred.

File formats for PRINT/CMYK

EPS*

An EPS file is a vector file of a graphic, text or illustration. Because it is vector it can easily be resized to any size it needs to be. An EPS file can be reopened and edited.

Best use = master logo files and graphics for print designs.

PDF

An editable PDF file is provided with a transparent background. Because it is vector it can easily be resized to any size it needs to be.

Best use = master logo files and graphics for print designs.

SVG

The SVG file format is a popular tool for displaying two-dimensional graphics, charts, and illustrations. Plus, as a vector file, it can be scaled up or down without losing any of its resolution.

Best use = master logo files and graphics for print designs.

**Note: Generally, you can't view an EPS file unless you have the appropriate software such as Adobe Illustrator, Adobe InDesign or Adobe Photoshop.*

Worthington First

Both current and former students of both Worthington high schools identify first as Worthingtonians and then as Cardinals and Wolves.

They cite pride in being members of an exceptional community as the most prominent part of their school identity and, although they recognized the other school as a rival at the high school level, also acknowledge that in junior sports they identify as Worthington in the same manner they identified other students as being from Dublin or Upper Arlington.

Our Mission

To show the unique identities of Thomas Worthington and Worthington Kilbourne mascots while uniting them under the Worthington banner.

Our Vision

Worthington stands out. When people see a member of any Worthington High School athletic team, they see both Worthington pride AND the specific traits and personalities of each individual school.

Your Legacy

There's no place like Worthington. And the group of individuals who assisted with the mascot design/rebrand for both Thomas Worthington and Worthington Kilbourne High Schools has created a legacy that will have a dramatic impact on generations of students to come. Their input was invaluable in identifying the defining characteristics of each school, creating unique and ownable lockups, and delivering mascots that truly speak to the schools they represent.

Going forward, every student, teacher, administrator, parent and alumni of Worthington High Schools can point with pride to the past and tradition while also looking ahead to a more professional, more consistent, more immediately identifiable image. Now, when someone sees YOUR wolf, they'll know beyond a shadow of a doubt that YOU'RE from Worthington.

PRIMARY SPIRIT MARK

The Worthington Kilbourne Wolves Spirit Mark represents our athletes at the very highest level and is vitally important to our brand. It acts as a signature, an identifier and a stamp of pride and spirit. It is, and should always be, the most consistent component in our athletic communications. In order to maintain this consistency, a few simple guidelines should be followed.

This logo is the cornerstone of our athletic visual brand identity. Our logo consists of these defining elements—the Wolf mascot and the Wordmark.

If you have any questions or special requests to use our athletic logos in any way other than as prescribed herein, please contact:

Vicki Gnezda

Director, Communication

SIZE

To maintain full legibility, never reproduce the logo at widths smaller than .625" (for Print) or 45 pixels (for Digital).

There is no maximum size limit, but use discretion when sizing the logo. It should never be the most dominant element on the page, but instead should live comfortably and clearly as an identifying mark.

.625" or
45 pixels minimum

1.5" or 110 pixels minimum

CLEAR SPACE

To ensure that clear space is maintained around the logo for legibility and prominence, all photos, text, and graphic elements must follow the guidelines illustrated here. Use the letter "W" from "Wolves" as a measuring tool to help maintain clearance.

IMPROPER USAGE

Here are a few examples of practices to avoid.

Don't stretch, condense or change the dimensions of the mark.

Don't alter the placement or scale of the elements.

Don't crop the mark in any way.

Don't change the colors of the individual elements.

Don't alter or change the typefaces.

Don't skew or bend the mark in any way.

Don't rotate the mark.

Don't invert the colors.

OUR MASCOT

Our Wolf mascot has been custom-made from a series of drawings and sketches. This is our Wolf. It is classic and clean. The graphic qualities of this illustration style lend itself to reproduce well on items such as uniforms, equipment, signage, apparel and promotional items.

The Wolf mascot can be used independently of the Spirit Wordmark.

It is intended to be used on either light or dark backgrounds and images. A white outline was added to the mark in order to maintain legibility.

Color applications are to be used as demonstrated.

Artwork is supplied for both Digital and Print applications.

Do not change or modify our Wolf.

EMAIL SIGNATURE

Literally millions of emails are sent to and from wscloud.org addresses each year. It is one more opportunity to make a positive and professional impression on the people we communicate with every day.

People will read your email on a variety of formats—smart phones, tablets or computers—a simple email signature is important.

Therefore, two rules for setting up the “look” of your email:

1. Do not use any sort of wallpaper as a background on your email messages.
2. For the signature line, at a minimum include, in this order: your name, title and school along with some combination of your physical address, phone number and/or web or social media site addresses.

Please refer to the example provided for information on the fonts and colors to use in setting your email signature.
