GENERAL INFORMATION AND PROCEDURES

Access to Electronic Networks

Electronic networks are a part of the instructional program of TrueNorth Educational Cooperative 804 (also referred to as the “Cooperative”) and serve to promote educational excellence by facilitating resource sharing, innovation, and communication. The Cooperative is not responsible for any information that may be lost or damaged, or become unavailable when using the network, or for any information that is retrieved or transmitted via the Internet. Furthermore, the Cooperative will not be responsible for any unauthorized charges or fees resulting from access to the Internet.

Curriculum and Appropriate Online Behavior

The use of the Cooperative’s electronic networks shall: (1) be consistent with the curriculum adopted by the Cooperative as well as the varied instructional needs, learning styles, abilities, and developmental levels of the students, and (2) comply with the selection criteria for instructional materials and library resource center materials. As required by federal law, students will be educated about appropriate online behavior, including but not limited to: (1) interacting with other individuals on social networking websites and in chat rooms, and (2) cyberbullying awareness and response. Staff members may, consistent with the Superintendent’s implementation plan, use the Internet throughout the curriculum. The Cooperative’s electronic network is part of the curriculum and not a public forum for general use.

Acceptable Use

All use of the Cooperative’s electronic networks must be: (1) in support of education and/or research and in furtherance of the goals stated in Board Policy 6:235, Access to Electronic Networks, or (2) for a legitimate school business purpose. Use is a privilege, not a right. Users of the Cooperative’s electronic networks have no expectation of privacy in any material that is stored on, transmitted, or received via the Cooperative’s electronic networks. Electronic communications and downloaded material, including files deleted from a user’s account but not erased, may be monitored or read by school officials.

Internet Safety

Technology protection measures shall be used on each Cooperative computer with Internet access. They shall include a filtering device that protects against Internet access by both adults and minors to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by federal law and as determined by the Superintendent or designee. The Superintendent or designee shall enforce the use of such filtering devices. An administrator, supervisor, or other authorized person may disable the filtering device for bona fide research or other lawful purpose, provided the person receives prior permission from the Superintendent or system administrator.

All use of the Internet shall be consistent with the Cooperatives's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. **The failure of any user to follow the terms of this section and Board Policy 6:235, Access to Electronic Networks, will result in the loss of privileges, disciplinary action, and/or appropriate legal action.**

Each student and his/her parent/guardian must sign the Authorization for Access to Electronic Networks portion of the Parent-Student Acknowledgement, Authorization, and Agreement before being granted unsupervised use of the Cooperative's electronic network.

Accommodating Individuals with Disabilities

Individuals with disabilities shall be provided an opportunity to participate in all school-sponsored services, programs, or activities. Any parent/guardian, caregiver, student or member of the community requiring an accommodation due to a disability in order to attend a school activity or function should notify the Superintendent, building principal, or program administrator of the need for accommodation. This notification should occur as far in advance as possible of the school-sponsored function, program, or meeting.

Asbestos

Under the Asbestos Hazard Emergency Response Act (AHERA), comprehensive regulations were developed to address asbestos problems in public and private elementary and secondary schools. These regulations require all schools to inspect for friable and non-friable asbestos, develop asbestos management plans that address asbestos hazards in school buildings and implement response actions in a timely manner.

These regulations assign schools many new responsibilities. Our program for fulfilling these responsibilities is outlined in our asbestos management plan. This plan contains information on our inspections, re-inspections, response actions and post-response action activities, including periodic re-inspections and surveillance activities that are planned or are in progress.

The management plan is available for review at the District Services Center. The plan may be reviewed during normal school hours. There will be a reasonable charge should you require a copy of the plan.

If you have any questions about the management plan or about planned or in progress asbestos related activities, please contact the Cooperative at 847-831-5100.

Attendance

Regular attendance at school is an essential part of the educational program for each student. Illinois law requires that whoever has custody or control of any child between six (by September 1st) and seventeen years of age shall assure that the child attends school in the district in which he or she resides, during the entire time school is in session (unless the child has already graduated from high school). Illinois law also requires that whoever has custody or control of a child who is enrolled in the school, regardless of the child's age, shall assure that the child attends school during the entire time school is in session. Students may take up to five mental or behavioral health days off per school year, without providing a doctor's note and with an opportunity to make up any missed work.

This Paragraph (item #4) applies only when a school administrator or teacher receives a report that bullying through this means has occurred; it does not require the Cooperative or staff members to monitor any non-school-related activity, function, or program.

Notification System for Families

The Cooperative uses a parent notification and communication system to directly communicate with parents and guardians via telephone, and/or email. The system is used to send emergency notifications, such as emergency school closings, as well as to notify parents of activities and events at the Cooperative level. Parents should always keep their information up to date by contacting their building principal/program

administrator. Changes to email address(es) and/or phone numbers ensure timely communication, especially in cases of emergency. If the student is in the legal custody of the Department of Children and Family Services, all communications for parents and guardians will be provided to the Department's Office of Education and Transition Services.

Pesticide Application Notice

The Cooperative maintains a registry of parents/guardians of students who have registered to receive written or telephone notification prior to the application of pesticides to school grounds. To be added to the list, please contact: the building principal or program administrator.

Notification will be given before application of the pesticide. Prior notice is not required if there is imminent threat to health or property.

PUNS Information

The Illinois Department of Human Services maintains the PUNS (or Prioritization of Urgency of Need for Service) database. PUNS is a database that registers individuals with intellectual disabilities or developmental disabilities who are potentially in need of State-funded services. For students with intellectual or developmental disabilities, PUNS registration will be addressed at the student's annual review meeting. For questions or further information regarding the PUNS database, parents/guardians may contact the program administrator for your student's program.

Related Service Logs

Related service logs are made for speech and language services, occupational therapy services, physical therapy services, school social work services, school counseling services, school psychology services, and school nursing services administered pursuant to a student's IEP. The logs record the delivery and minutes for each type of service. Parents/guardians may request to review related service logs at any time.

Release Time for Religious Instruction/Observance

A student will be released from school, as an excused absence, to observe a religious holiday or for religious instruction. The student's parent/guardian must give written notice to the building principal/program administrator at least 5 calendar days before the student's anticipated absence(s).

Students excused for religious reasons will be given an opportunity to make up all missed work, including homework and tests, for equivalent academic credit.

Safety Drill Procedures and Conduct

During every academic year, each school building shall conduct the following drills in accordance with the School Safety Drill Act:

1. Three school evacuation drills to address and prepare students and school personnel for fire incidents. One of these three evacuation drills shall require the participation of the local fire department.
2. One bus evacuation drill.
3. One severe weather and shelter-in-place drill to address and prepare students and school personnel for possible tornado incidents.
4. One law enforcement lockdown drill to address a school shooting incident and to evaluate the preparedness of school personnel and students. This drill shall occur no later than 90 days after the first day of school of each school year and shall require the participation of all school personnel and students present at school at the time of the drill, except for those exempted by administrators, school support personnel, or a parent/guardian. For students who have an IEP or Section 504 plan, the IEP or Section 504 team will be included in decisions to exempt students from participation in lockdown drills.

Student Appearance

A student's appearance, including dress and grooming, must not disrupt the educational process, interfere with the maintenance of a positive teaching/learning climate, or compromise reasonable standards of health, safety, and decency. The Cooperative does not prohibit hairstyles historically associated with race, ethnicity, or hair texture, including, but not limited to, protective hairstyles such as braids, locks, and twists.

Search and Seizure

In order to maintain order, safety, and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

Cooperative Property, Equipment, and Personal Effects Left by Students

School authorities may inspect and search property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there. This paragraph applies to student vehicles parked on school property. In addition, building principals/program administrators or designees shall require each high school student, in return for the privilege of parking on school property, to consent

in writing to school searches of his or her vehicle, and personal effects therein, without notice and without suspicion of wrongdoing.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Student Searches

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the Cooperative's student rules and policies. The search will be conducted in a manner that is reasonably related to its objective of the search and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

When feasible, the search should be conducted as follows:

- Outside the view of others, including students;
- In the presence of a school administrator or adult witness; and
- By a certificated employee or liaison police officer of the same sex as the student.

Immediately following a search, a written report shall be made by the school authority who conducted the search and given to the Superintendent.

School officials require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates the school's disciplinary rules or Cooperative policy. In the course of the investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website. School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school or Cooperative disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the Cooperative's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

Questioning of Students Suspected of Committing Criminal Activity

Before a law enforcement officer, school resource officer, or other school security person detains and questions on school grounds a student under 18 years of age who is suspected of committing a criminal act, the building principal/program administrator or designee will: (a) Notify or attempt to notify the student's parent/guardian and document the time and manner in writing; (b) Make reasonable efforts to ensure the student's parent/guardian is present during questioning or, if they are not present, ensure that a school employee (including, but not limited to, a social worker, psychologist, nurse, guidance counselor, or any other mental health professional) is present during the questioning; and (c) If practicable, make reasonable efforts to ensure that a law enforcement officer trained in promoting safe interactions and communications with youth is present during the questioning.

The Cooperative coordinates all testing requirements with the district of residence of students served by the Cooperative.

Student Absences

Subject to specific requirements in State law, the following children are not required to attend public school: (1) any child attending a private school (including a home school) or parochial school, (2) any child who is physically or mentally unable to attend school (including a pregnant student suffering medical complications as certified by her physician), (3) any child lawfully and necessarily employed, (4) any child over 12 and under 14 years of age while in confirmation classes, (5) any child absent because of religious reasons, including to observe a religious holiday, for religious instruction, or because his or her religion forbids secular activity on a particular day(s) or time of day, and (6) any child 16 years of age or older who is employed and is enrolled in a graduation incentives program.

For students who are required to attend school there are two types of absences: excused and unexcused. Excused absences include: illness (including up to 5 days per school year for mental or behavioral health of the student, for which no doctor's note is required), observance of a religious holiday or event, death in the immediate family, family emergency, situations beyond the control of the student as determined by the school board, circumstances that cause reasonable concern to the parent/guardian for the student's mental, emotional, or physical health or safety, attending a military honors funeral to sound TAPS, or other reason as approved by the building principal/program

administrator. Students eligible to vote are also excused for up to two hours to vote in a primary, special, or general election.

Additionally, a student will be excused for up to 5 days in cases where the student's parent/guardian is an active-duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings. The Board of Education, in its discretion, may excuse a student for additional days relative to such leave or deployment. A student and the student's parent/guardian are responsible for obtaining assignments from the student's teachers prior to any excused absences and for ensuring that such assignments are completed by the student prior to his or her return to school.

Students who are excused from school will be given a reasonable timeframe to make up missed homework and classwork assignments.

All other absences are considered unexcused. Pre-arranged excused absences must be approved by the building principal/program administrator.

The school may require documentation explaining the reason for the student's absence, except as provided herein.

In the event of any absence, the student's parent/guardian is required to call the school before 8:00 a.m. to explain the reason for the absence. If a call has not been made to the school by 10:00 a.m. on the day of a student's absence, a school official will call the home to inquire why the student is not at school. If the parent/guardian cannot be contacted, the student will be required to submit a signed note from the parent/guardian explaining the reason for the absence. Failure to do so shall result in an unexcused absence. Upon request of the parent/guardian, the reason for an absence will be kept confidential.

Surveys

All surveys requesting personal information from students, as well as any other instrument used to collect personal information from students must advance or relate to the Cooperative's educational objectives as identified in Board Policy 6:10, Educational Philosophy and Objectives, or assist student's career choices. This applies to all surveys, regardless of whether the student answering the questions can be identified and regardless of who created the survey.

Surveys by Third Parties

Before a school official or staff member administers or distributes a survey or evaluation created by a third party to a student, the student's parent/guardian may inspect the survey or evaluation, upon their request and within a reasonable time of their request.

This applies to every survey: (1) that is created by a person or entity other than a Cooperative official, staff member, or student, (2) regardless of whether the student answering the questions can be identified, and (3) regardless of the subject matter of the questions.

Parents who object to disclosure of information concerning their child to a third party may do so in writing to the building principal or program administrator.

Surveys Requesting Personal Information

School officials and staff members will not request, nor disclose, the identity of any student who completes any survey or evaluation (created by any person or entity, including the Cooperative) containing one or more of the following items:

1. Political affiliations or beliefs of the student or the student's parent/guardian.
2. Mental or psychological problems of the student or the student's family.
3. Behavior or attitudes about sex.
4. Illegal, anti-social, self-incriminating, or demeaning behavior.
5. Critical appraisals of other individuals with whom students have close family relationships.
6. Legally recognized privileged or analogous relationships, such as those with lawyers, physicians, and ministers.
7. Religious practices, affiliations, or beliefs of the student or the student's parent/guardian.
8. Income other than that required by law to determine program eligibility for participation in a program or for receiving financial assistance under such program.

The student's parent/guardian may: (1) inspect the survey or evaluation upon, and within a reasonable time of, their request, and/or (2) refuse to allow their child to participate in the survey. The school will not penalize any student whose parent/guardian exercised this option. For further information contact the Superintendent's office.

Instructional Material

A student's parent/guardian may inspect, upon their request, any instructional material used as part of their child's educational curriculum within a reasonable time of their request. The term "instructional material" means instructional content that is provided to a student, regardless of its format, printed or representational materials, audio-visual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). The term does not include academic tests or academic assessments.

Physical Exams or Screenings

No school official or staff member shall subject a student to a non-emergency, invasive physical examination or screening as a condition of school attendance. The term invasive physical examination means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision, or scoliosis screening. The above paragraph does not apply to any physical examination or screening that: 1. Is permitted or required by an applicable State law, including physical examinations or screenings that are permitted without parental notification. 2. Is administered to a student in accordance with the Individuals with Disabilities Education Act (20 U.S.C. §1400 et seq.). 3. Is otherwise authorized by Board policy.

Selling or Marketing Students' Personal Information Is Prohibited

No school official or staff member shall market or sell personal information concerning students (or otherwise provide that information to others for that purpose). The term *personal information* means individually identifiable information including: (1) a student or parent's first and last name, (2) a home or other physical address (including street name and the name of the city or town), (3) a telephone number, (4) a Social Security identification number or (5) driver's license number or State identification card.

The above paragraph does not apply: (1) if the student's parent(s)/guardian(s) have consented; or (2) to the collection, disclosure or, use of personal information collected from students for the exclusive purpose of developing, evaluating or providing educational products or services for, or to, students or educational institutions, such as the following:

1. College or other postsecondary education recruitment, or military recruitment.
2. Book clubs, magazines, and programs providing access to low-cost literary products.
3. Curriculum and instructional materials used by elementary schools and secondary schools.
4. Tests and assessments to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments.
5. The sale by students of products or services to raise funds for school-related or education-related activities.
6. Student recognition programs.

Under no circumstances may a school official or staff member provide a student's *personal information* to a business organization or financial institution that issues credit or debit cards.

Using a cellular telephone, video recording device, personal digital assistant (PDA), or other electronic device in any manner that disrupts the educational environment or violates the rights of others, including using the device to take photographs in locker rooms or bathrooms, cheat, or otherwise violate student conduct rules. Prohibited conduct specifically includes, without limitation, creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person through the use of a computer, electronic communication device, or cellular phone. Unless otherwise banned under Board Policy 7:190, Student Behavior or by the building principal or designee, all electronic devices must be kept powered-off or silenced during the regular school day unless: (i) the supervising teacher grants permission; (ii) use of the device is provided in a student's individualized education program (IEP); (iii) it is used during the student's lunch period, or (d) it is needed in an emergency that threatens the safety of students, staff, or other individuals.
- 6. Using or possessing a laser pointer unless under a staff member's direct supervision and in the context of instruction.

Prohibited conduct specifically includes, without limitation, any use of violence, intimidation, force, noise, coercion, threats, stalking, harassment, sexual harassment, public humiliation, theft or destruction of property, retaliation, hazing, bullying, bullying using a school computer or a school computer network, or other comparable conduct.

The Superintendent or designee will notify parents/guardians and students of Board Policy 4:180 and the governing procedures and protocols. b. Exceptions and/or accommodations will be made when a face covering (or any other protocol) is medically contraindicated, provided that parents/guardians supply appropriate and sufficient medical documentation and comply with all other procedures relating to the exemption/accommodation process. Alternate health/safety protocols may be required. c. Students who fail or refuse to comply with health/safety protocols may be excluded from school and school-related activities until compliance is achieved. In addition, disciplinary measures may be imposed for non-compliance.

For purposes of Board Policy 7:190, Student Behavior, the term possession includes having control, custody, or care, currently or in the past, of an object or substance, including situations in which the item is: (a) on the student's person; (b) contained in another item belonging to, or under the control of, the student, such as in the student's clothing, backpack, or automobile; (c) in a school's student locker, desk, or other school property; or (d) at any location on school property or at a school-sponsored event.

Efforts, including the use of positive interventions and supports, shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else. The Superintendent or designee shall ensure that the parent/guardian of a student who engages in aggressive behavior is notified of the incident. The failure to provide such notification does not limit the Board's authority to impose discipline, including suspension or expulsion, for such behavior.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

Disciplinary Measures

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following:

1. Notifying parent(s)/guardian(s).
2. Disciplinary conference.
3. Withholding of privileges.
4. Temporary removal from the classroom.
5. Return of property or restitution for lost, stolen, or damaged property.
6. In-school suspension. The building principal or designee shall ensure that the student is properly supervised.
7. After-school study or Saturday study provided the student's parent/guardian has been notified. If transportation arrangements cannot be agreed upon, an alternative disciplinary measure must be used. The student must be supervised by the detaining teacher or the building principal or designee.
8. Community service with local public and nonprofit agencies that enhances community efforts to meet human, educational, environmental, or public safety needs. The Cooperative will not provide transportation. School administration shall use this option only as an alternative to another disciplinary measure, giving the student and/or parent/guardian the choice.
9. Seizure of contraband; confiscation and temporary retention of personal property that was used to violate Board Policy 7:190, Student Behavior or school disciplinary rules.
10. Suspension of bus riding privileges in accordance with Board Policy 7:220, Bus Conduct.
11. Out-of-school suspension from school and all school activities in accordance with Board Policy 7:200, Suspension Procedures. A student who has been suspended shall also be restricted from being on school grounds and at school activities.
12. Transfer to an alternative program if the student is expelled or otherwise qualifies for the transfer under State law. The transfer shall be in the manner provided in Article 13A or 13B of the School Code.
13. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, including but not limited to, illegal drugs (controlled substances), look-alikes, alcohol, or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the Cooperative and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension and expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

Corporal punishment is prohibited. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

Isolated Time Out, Time Out, and Physical Restraint

Isolated time out, time out, and physical restraint shall only be used as permitted in 105 ILCS 5/10-20.33, State Board of Education rules (23 Illinois Administrative Code §§ 1.280, 1.285), and the Cooperative's procedure(s).

Weapons

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of at least one calendar year but not more than two calendar years:

1. A firearm, meaning any gun, rifle, shotgun, or weapon as defined by Section 921 of Title 18 of the United States Code (18 U.S.C. § 921), firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act (430 ILCS 65/), or firearm as defined in Section 24-1 of the Criminal Code of 1961 (720 ILCS 5/24-1).
2. A knife, brass knuckles, or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including look-alikes of any firearm as defined above.

The expulsion requirement under either paragraph one or two above may be modified by the Superintendent, and the Superintendent's determination may be modified by the Board on a case-by-case basis. The Superintendent or designee may grant an exception to Board Policy 7:190, Student Behavior, upon the prior request of an adult supervisor, for students in theatre, cooking, ROTC, martial arts, and similar programs, whether or not school-sponsored, provided the item is not equipped, nor intended, to do bodily harm.

The prohibitions concerning weapons in Board Policy 7:190, Student Behavior apply regardless of whether: (1) a student is licensed to carry a concealed firearm, or (2) the Board permits visitors, who are licensed to carry a concealed firearm, to store a firearm in a locked vehicle in a school parking area.

Re-Engagement of Returning Students

The Superintendent or designee shall maintain a process to facilitate the re-engagement of students who are returning from an out-of-school suspension, expulsion, or an alternative school setting. The goal of reengagement shall be to support the student's ability to be successful in school following a period of exclusionary discipline and shall include the opportunity for students who have been suspended to complete or make up work for equivalent academic credit.

Required Notices

A school staff member shall immediately notify the office of the building principal or designee in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the building principal or designee or designee shall immediately notify the local law enforcement agency, Ill. Dept. of State Police (ISP), and any involved student's parent/guardian. School grounds includes modes of transportation to school activities and any public way within 1000 feet of the school, as well as school property itself.

Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment, or in-school suspension, that is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated [licensed] educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior.

The Superintendent, building principal or designee, assistant building principal or designee, or dean of students is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to ten consecutive school days, provided the appropriate procedures are followed. The Board may suspend a student from riding the bus in excess of ten school days for safety reasons.

Student Medication

Students should not take medication during school hours or during school-related activities unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is necessary for the

student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the Cooperative's procedures on dispensing medication.

No Cooperative employee shall administer to any student or supervise a student's self-administration of any prescription or non-prescription medication until a completed and signed *School Medication Authorization Form (SMA Form)* is submitted by the student's parent/guardian. No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in Board Policy 7:270, Administering Medicines to Students and its implementing procedures.

Nothing in Board Policy 7:270, Administering Medicines to Students shall prohibit any school employee from providing emergency assistance to students, including administering medication.

Self-Administration of Medication

A student may possess and self-administer an epinephrine injector, and/or asthma medication prescribed for use at the student's discretion, provided the student's parent/guardian has provided a completed and signed *School Medication Authorization Form*. The Superintendent or designee will ensure an Emergency Action Plan is developed for each self-administering student.

A student may self-administer medication required under a *qualifying plan*, provided the student's parent/guardian has completed and signed a *School Medication Authorization Form*. A *qualifying plan* means: (1) an asthma action plan, (2) an Individual Health Care Action Plan, (3) an Ill. Food Allergy Emergency Action Plan and Treatment Authorization Form, (4) a plan pursuant to Section 504 of the federal Rehabilitation Act of 1973, or (5) a plan pursuant to the federal Individuals with Disabilities Education Act.

The Cooperative and its employees and agents shall incur no liability or professional discipline, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including epinephrine injectors or asthma medication or medication required under a qualifying plan. A student's parent/guardian must indemnify and hold harmless the Cooperative and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector, asthma medication, and/or a medication required under a qualifying plan.

Supply of Undesignated Epinephrine Injectors

The Superintendent or designee shall implement 105 ILCS 5/22-30(f) and maintain a supply of undesignated epinephrine injectors in the name of the Cooperative and provide or administer them as necessary according to State law. *Undesignated epinephrine injector* means an epinephrine injector prescribed in the name of the Cooperative or one

of its schools. A school nurse or trained staff member, as defined in State law, may administer an undesignated epinephrine injector to a person when they, in good faith, believe a person is having an anaphylactic reaction. Each building principal/program administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law.

Supply of Undesignated Opioid Antagonists

The Superintendent or designee shall implement 105 ILCS 5/22-30(f) and maintain a supply of undesignated opioid antagonists in the name of the Cooperative and provide or administer them as necessary according to State law. *Opioid antagonist* means a drug that binds to opioid receptors and blocks or inhibits the effect of opioids acting on those receptors, including, but not limited to, naloxone hydrochloride or any other similarly acting drug approved by the U.S. Food and Drug Administration. *Undesignated opioid antagonist* is not defined by the School Code; for purposes of Board Policy 7:270, Administering Medicines to Students, it means an opioid antagonist prescribed in the name of Cooperative of its schools. A school nurse or trained staff member, as defined in State law, may administer an undesignated opioid antagonist to a person when they, in good faith, believe a person is having an opioid overdose. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law. See the website for the Ill. Dept. of Human Services for information about opioid prevention, abuse, public awareness, and a toll-free number to provide information and referral services for persons with questions concerning substance abuse treatment.

Supply of Undesignated Asthma Medication

The Superintendent or designee shall implement 105 ILCS 5/22-30(f) and maintain a supply of undesignated asthma medication in the name of the Cooperative and provide or administer them as necessary according to State law. *Undesignated asthma medication* means an asthma medication prescribed in the name of the Cooperative or one of its schools. A school nurse or trained staff member, as defined in State law, may administer an undesignated asthma medication to a person when they, in good faith, believe a person is having *respiratory distress*. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law.

Administration of Medical Cannabis

The Compassionate Use of Medical Cannabis Program Act allows a *medical cannabis infused product* to be administered to a student by one or more of the following individuals:

1. A parent/guardian of a student who is a minor who registers with the Ill. Dept. of Public Health (IDPH) as a *designated caregiver* to administer medical cannabis to their child. A designated caregiver may also be another individual other than the student's parent/guardian. Any designated caregiver must be at least 21 years old and is allowed to administer a *medical cannabis infused product* to a child

who is a student on the premises of his or her school or on his or her school bus if:

- a. Both the student and the designated caregiver possess valid registry identification cards issued by IDPH;
 - b. Copies of the registry identification cards are provided to the Cooperative;
 - c. That student's parent/guardian completed, signed, and submitted a *School Medication Authorization Form - Medical Cannabis*; and
 - d. After administering the product to the student, the designated caregiver immediately removes it from school premises or the school bus.
2. A properly trained school nurse or administrator, who shall be allowed to administer the *medical cannabis infused product* to the student on the premises of the child's school, at a school-sponsored activity, or before/after normal school activities, including while the student is in before-school or after-school care on school-operated property or while being transported on a school bus.
 3. The student him or herself when the self-administration takes place under the direct supervision of a school nurse or administrator.

Medical cannabis infused product (product) includes oils, ointments, foods, and other products that contain usable cannabis but are not smoked or vaped. Smoking and/or vaping medical cannabis is prohibited.

The product may not be administered in a manner that, in the opinion of the Cooperative or school, would create a disruption to the educational environment or cause exposure of the product to other students. A school employee shall not be required to administer the product.

Discipline of a student for being administered a product by a designated caregiver, or by a school nurse or administrator, or who self-administers a product under the direct supervision of a school nurse or administrator pursuant to Board Policy 7:270, Administering Medicines to Students is prohibited. The Cooperative may not deny a student attendance at a school solely because he or she requires administration of the product during school hours.

Void Policy

Whenever the Superintendent or designee is, for whatever reason, unable to obtain a prescription for (i) undesignated epinephrine injectors, (ii) undesignated opioid antagonists, and/or (iii) undesignated asthma medication, any Board policies applicable to the maintenance and administration of such undesignated medications shall be void.

The Administration of Medical Cannabis section of Board Policy 7:270, Administering Medicines to Students is void and the Cooperative reserves the right not to implement it if the Cooperative or school is in danger of losing federal funding.

Administration of Undesignated Medication

Upon any administration of an undesignated medication permitted by State law, the Superintendent or designee(s) must ensure all notifications required by State law and administrative procedures occur.

Undesignated Medication Disclaimers

The Cooperative and its employees and agents shall incur no liability or professional discipline, except for willful and wanton conduct, as a result of any injury arising from the administration of an epinephrine injector, an opioid antagonist, or asthma medication, regardless of whether authorization was given by the student's parents or guardians or by the student's physician, physician assistant, or advanced practice nurse. A student's parent/guardian must indemnify and hold harmless the Cooperative and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of the administration of an epinephrine injector, an opioid antagonist, or asthma medication regardless of whether authorization was given by the student's parents or guardians or by the student's physician, physician assistant, or advanced practice registered nurse. No one, including without limitation, parents/guardians of students, should rely on the Cooperative for the availability of undesignated medication. Board Policy 7:270, Administering Medicines to Students does not guarantee the availability of undesignated medications. Students and their parents/guardians should consult their own physician regarding these medication(s).

Student Records

School student records are confidential. Information from them shall not be released other than as provided by law. A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction by a school employee, regardless of how or where the information is stored, except as provided in State or federal law as summarized below:

1. Records kept in a staff member's sole possession for the staff member's exclusive use.
2. Records maintained by law enforcement officers working in the school.
3. Video and other electronic recordings (including without limitation, electronic recordings made on school buses) that are created in part for law enforcement, security, or safety reasons or purposes. The content of these recordings may become part of a school student record to the extent school officials create, use, and maintain this content, or it becomes available to them by law enforcement officials, for disciplinary or special education purposes regarding a particular student.

4. Any information, either written or oral, received from law enforcement officials concerning a student less than the age of 17 years who has been arrested or taken into custody.

Under State and federal law, students and parents/guardians (or if the child is in the legal custody of the Department of Children and Family Services, the Department's Office of Education and Transition Services) are granted certain rights, including the right to inspect, copy, and challenge school student records. A student or the student's parent/guardian may request, in writing, that scores received on college entrance examinations be included on the student's academic transcript. The information contained in school student records shall be accurate and relevant. All information maintained concerning a student receiving special education services shall be directly related to the provision of services to that child. The Cooperative may release directory information as permitted by law, but a parent/guardian shall have the right to opt-out of the release of directory information regarding his or her child. However, the Cooperative will comply with an *ex parte* court order requiring it to permit the U.S. Attorney General or designee to have access to a student's school records without notice to, or the consent of, the student's parent/guardian. Upon request, the Cooperative discloses school student records without parent consent to the official records custodian of another school in which a student has enrolled or intends to enroll, as well as to any other person as specifically required or permitted by State or federal law.

The Superintendent shall fully implement Board Policy 7:340, Student Records and designate an *official records custodian* for each school, who shall maintain and protect the confidentiality of school student records, inform staff members of Board Policy 7:340, and inform students and their parents/guardians of their rights regarding school student records.

Student Rights and Responsibilities

All students are entitled to enjoy the rights protected by the U.S. and Illinois Constitutions and laws for persons of their age and maturity in a school setting. Students should exercise these rights reasonably and avoid violating the rights of others. Students who violate the rights of others or violate Cooperative policies or rules will be subject to disciplinary measures.

Students may, during the school day, during non-instructional time, voluntarily engage in individually or collectively initiated, non-disruptive prayer or religious-based meetings that, consistent with the Free Exercise and Establishment Clauses of the U.S. and Illinois Constitutions, are not sponsored, promoted, or endorsed in any manner by the school or any school employee. Non-instructional time means time set aside by a school before actual classroom instruction begins or after actual classroom instruction ends.

Student Use of Personal Electronic Devices

The use of personal electronic devices and other technology at school is a privilege, not a right. Students are prohibited from using personal electronic devices, except as provided herein. For purposes of this section, an electronic device includes, but is not limited to, the following: cell phone, smart phone, audio or video recording device, personal digital assistant (PDA), iPod, iPad, laptop computer, tablet computer or other similar electronic device. Pocket pagers and other paging devices are not allowed on school property at any time, except with the express permission of the building principal or program administrator.

During instructional time, which includes class periods and passing periods, personal electronic devices must be kept powered-off and out-of-sight unless: (a) permission is granted by an administrator, teacher or school staff member; (b) use of the device is provided in a student's individualized education program (IEP); or (c) it is needed in an emergency that threatens the safety of students, staff, or other individuals.

Personal electronic devices may never be used in any manner that disrupts the educational environment, violates student conduct rules or violates the rights of others. This includes, but is not limited to, the following: (1) using the device to take photographs in locker rooms or bathrooms; (2) cheating; and (3) creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction or non-consensual dissemination of private sexual images (i.e., sexting).

The Cooperative is not responsible for the loss, theft or damage to any personal electronic device brought to school.

Students in violation of this procedure are subject to the following consequences:

1. First offense – The device will be confiscated by school personnel. A verbal warning will be assigned. The student will receive the device back at the end of the day in the school office.
2. Second offense – The device will be confiscated. A detention will be assigned. The student's parent/guardian will be notified and required to pick up the device in the school office.
3. Third offense – The device will be confiscated. A detention will be assigned. The student's parent/guardian will be notified and required to pick up the device in the school. Additionally, the student will be prohibited from bringing the device to school for the next 10 school days. If the student is found in possession of the device during this 10-day period, the student will be prohibited from bringing the device to school for the remainder of the school year. The student will also face consequences for insubordination.

4. Fourth and subsequent offenses – The device will be confiscated. The student will be assigned a detention and will be prohibited from bringing the device to school for the remainder of the school year. The student's parent/guardian will be notified and required to pick up the device in the school office. The student will also face consequences for insubordination.

Suicide and Depression Awareness and Prevention

Youth suicide impacts the safety of the school environment. It also affects the school community, diminishing the ability of surviving students to learn and the school's ability to educate. Suicide and depression awareness and prevention are important goals of the Cooperative.

The Cooperative maintains student and parent resources on suicide and depression awareness and prevention. Much of this information, including a copy of Board Policy 7:290 Suicide and Depression Awareness and Prevention is posted on the Cooperative's website. Information can also be obtained from any Cooperative building office.

Teacher Qualifications

Parents/guardians may request information about the qualifications of their student's teachers and paraprofessionals, including:

- Whether the teacher has met State qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;
- Whether the teacher is teaching under an emergency or other provisional status through which State qualification and licensing criteria have been waived;
- Whether the teacher is teaching in a field of discipline of the teacher's certification;
- Whether any instructional aides or paraprofessionals provide services to your student and, if so, their qualifications.

If you would like to receive any of this information, please contact the building principal or program administrator with your request.

Technology

Technology plays a critical role in the learning process for our students. The Cooperative believes not in the teaching of specific technology skills solely for the sake of acquiring technology proficiency, but rather, we believe that technology can serve as a vital conduit to help students learn how to learn. In doing so, students gain an understanding of foundational learning skills and content knowledge.

The Cooperative provides each student in preschool through eighth grade with a device during the school day. Students in grades five through eight will also have the opportunity to take the device home with them each evening. Ensuring that each child has access to instructional materials outside of the school day is an important part of the Cooperative learning experience. Cooperative teachers receive a variety of professional development that helps build the necessary pedagogy in order to effectively utilize technology to create powerful learning experiences both in and outside the classroom for our students.

All the technology integrated as part of our instructional program does not supplant the core foundational learning skills already being addressed through our curriculum, but rather, allows students to learn both the foundational and technological skills necessary to succeed in the 21st century.

Each student and his/her parent/guardian must sign the Agreement for Technology Loan portion of the Parent-Student Acknowledgement, Authorization, and Agreement before being loaned Cooperative technology.

Annual Notice to Parents about Educational Technology Vendors Under the Student Online Personal Protection Act

The Cooperative takes the privacy and online safety of our students very seriously and endeavors to closely guard the student data collected within its own networks and within the networks of the online resources used in Cooperative programs. School districts and cooperatives throughout the State of Illinois contract with different educational technology vendors for beneficial K-12 purposes such as providing personalized learning and innovative educational technologies and increasing efficiency in school operations.

Under Illinois' Student Online Personal Protection Act, or SOPPA (105 ILCS 85/), educational technology vendors and other entities that operate Internet websites, online services, online applications, or mobile applications that are designed, marketed, and primarily used for K-12 school purposes are referred to in SOPPA as *operators*. SOPPA is intended to ensure that student data collected by operators is protected, and it requires those vendors, as well as school districts and cooperatives and the Illinois State Board of Education, to take a number of actions to protect online student data.

Depending upon the particular educational technology being used, the Cooperative may need to collect different types of student data, which is then shared with

educational technology vendors through their online sites, services, and/or applications. Under SOPPA, educational technology vendors are prohibited from selling or renting a student's information or from engaging in targeted advertising using a student's information. Such vendors may only disclose student data for K-12 school purposes and other limited purposes permitted under law.

In general terms, the types of student data that may be collected and shared include personally identifiable information (PII) about students or information that can be linked to PII about students, such as:

- Basic identifying information, including student or parent/guardian name and student or parent/guardian contact information, username/password, student ID number
- Demographic information
- Enrollment information
- Assessment data, grades, and transcripts
- Attendance and class schedule
- Academic/extracurricular activities
- Special indicators (e.g., disability information, English language learner, free/reduced meals or homeless/foster care status)
- Conduct/behavioral data
- Health information
- Food purchases
- Transportation information
- In-application performance data
- Student-generated work
- Online communications
- Application metadata and application use statistics
- Permanent and temporary school student record information

Operators may collect and use student data only for K-12 purposes, which are purposes that aid in the administration of school activities, such as:

- Instruction in the classroom or at home (including remote learning)
- Administrative activities
- Collaboration between students, school personnel, and/or parents/guardians
- Other activities that are for the use and benefit of the Cooperative

Sex Equity and Sexual Harassment

Sexual harassment affects a student's ability to learn and an employee's ability to work. Providing an educational and workplace environment free from sexual harassment is an important Cooperative goal. The Cooperative does not discriminate on the basis of sex in any of its education programs or activities, and it complies with Title IX of the

Education Amendments of 1972 (Title IX) and its implementing regulations) concerning everyone in the Cooperative's education programs and activities, including applicants for employment, students, parents/guardians, employees, and third parties.

Sexual harassment as defined in Title IX (Title IX Sexual Harassment) is prohibited. Any person, including a Cooperative employee or agent, or student, engages in Title IX Sexual Harassment whenever that person engages in conduct on the basis of an individual's sex that satisfies one or more of the following:

1. A Cooperative employee conditions the provision of an aid, benefit, or service on an individual's participation in unwelcome sexual conduct; or
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the Cooperative's educational program or activity; or *Sexual assault* as defined in 20 U.S.C. §1092(f)(6)(A)(v), *dating violence* as defined in 34 U.S.C. §12291(a)(10), *domestic violence* as defined in 34 U.S.C. §12291(a)(8), or *stalking* as defined in 34 U.S.C. §12291(a)(30).

The Cooperative affirms non-discrimination on the basis of sex in order to comply with the provisions of Title IX of the Education Amendments of 1972 to ensure that discrimination on the basis of sex not take place in any education program or activity except where necessary to accomplish a specific purpose that does not impinge upon essential equality or fundamental fairness in the treatment of students or employees of this Cooperative. Board Policy 2:265, Title IX Sexual Harassment Grievance Procedure applies to the following:

All questions about the application of Title IX should be directed to the Cooperative's Title IX Coordinator:

Video & Audio Monitoring Systems

A video and/or audio monitoring system may be in use on school busses and a video monitoring system may be in use in public areas of the school building. These systems have been put in place to protect students, staff, visitors and school property. If a discipline problem is captured on audiotape or videotape, these recordings may be used as the basis for imposing student discipline. If criminal actions are recorded, a copy of the tape may be provided to law enforcement personnel.

Vision and Hearing Screening Mandates

Hearing screening must be provided annually for preschool children 3 years of age or older in any public or private educational program or licensed child care facility, and for all school age children grades kindergarten, first, second and third; are in special education class; have been referred by a teacher; or are transfer students. These screening services shall be provided in all public, private, and parochial schools. In lieu of the screening services required, a completed and signed report form, indicating the child had an ear examination by a physician and an audiological evaluation completed by an audiologist within the previous 12 months, is acceptable.

Vision screening must be provided annually for preschool children 3 years of age or older in any public or private educational program or licensed child care facility, and for school age children in kindergarten, second and eighth grades; are in special education class; have been referred by a teacher; or are transfer students. The parent or legal guardian of a student may object to hearing or vision screening tests for their children on religious grounds. If a religious objection is made, a written and

signed statement from the parent or legal guardian detailing such objections must be presented to the local school authority.

Violent Offender & Sex Offender Community Notification Laws

State law requires that all school districts provide parents/guardians with information about sex offenders and violent offenders against youth.

- Cooperative students should receive information regarding sex offenders and violent offenders against youth from their district of residence.
- The Illinois Sex Offender Registry may be accessed via the Illinois State Police's website at: isp.state.il.us/sor/.
- The Illinois Statewide Child Murderer and Violent Offender Against Youth Registry may be accessed the Illinois State Police's website at: isp.state.il.us/cmvo/.

The Superintendent shall develop procedures for the distribution and use of information from law enforcement officials under the Sex Offender Community Notification Law and the Murderer and Violent Offender Against Youth Community Notification Law. The Superintendent or designee shall serve as the Cooperative's contact person for purposes of these laws. The Superintendent and building principal/program administrator or designee shall manage a process for schools to notify the parents/guardians during school registration that information about sex offenders is available to the public as provided in the Sex Offender Community Notification Law. This notification must occur during school registration and at other times as the Superintendent or building principal or designee determines advisable.

Visitors

All visitors to school property are required to report to the building principal/program administrator or designee's office and receive permission to remain on school property. All visitors must sign a visitors' log, show identification, and wear a visitor's badge. When leaving the school, visitors must return their badge. On those occasions when large groups of parents/guardians, friends, and/or community members are invited onto school property or when community members are attending Board meetings, visitors are not required to sign in but must follow school officials' instructions. Persons on school property without permission will be directed to leave and may be subject to criminal prosecution.

Except as provided in the next paragraph, any person wishing to confer with a staff member should contact that staff member to make an appointment. Conferences with teachers are held, to the extent possible, outside school hours or during the teacher's conference/preparation period. Requests to access a school building, facility, and/or

educational program, or to interview personnel or a student for purposes of assessing the student's special education needs, should be made at the appropriate building. Access shall be facilitated according to guidelines from the Superintendent or designee. The Cooperative expects mutual respect, civility, and orderly conduct among all people on school property or at a school event.

No visitor may audio or video record any meeting concerning a student, including, but not limited to an Individualized Education Program (IEP) meeting, Section 504 meeting, parent-teacher conference, or any other meeting with an administrator or other school personnel. If, in order to understand or participate in the meeting, a visitor requires an interpreter, or requires an accommodation due to a disability, the visitor should notify the Cooperative's Director, at least 24 hours before the meeting is scheduled to occur, that an interpreter or accommodation is necessary for the visitor to meaningfully participate in the meeting. Audio recording of a meeting may be allowed if the visitor demonstrates that recording is needed as an accommodation for a documented disability and that no other accommodation is sufficient. If audio recording a meeting is permitted as an accommodation, the Cooperative will also make an audio recording of the meeting.
