1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

At Pleasanton Unified School District, our Proposition 28 Funding Plan includes engaging with the Cultural Arts Commission and other local organizations to contract arts educators for a variety of disciplines; purchasing essential equipment such as musical instruments, art supplies, and technology for digital arts; and gradually developing and refining job descriptions and roles for certificated and classified staff, to be implemented in subsequent years. As such no funds have been spent for the 2023-24 school fiscal year while we plan for the thoughtful and appropriate use of these funds. A waiver has been applied for to allow us time and flexibility to build a robust and sustainable arts program that meets the needs of our students and community. The desired outcome is to enhance our arts programming by utilizing expert contracted services and ensuring our programs are fully equipped from the start. Success will be measured by increased student participation in arts programs; positive feedback from students, parents, and educators on the quality of arts education; successful integration of contracted services into the school curriculum; and a smooth transition to hiring certificated and classified arts staff in future years, based on the refined job descriptions and needs assessments.
