INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Jackson County School District No. 35
Rogue River, Oregon

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of Jackson County School District No. 35, Oregon, (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud of error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of Jackson County School District No. 35 as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, other postemployment benefits schedules, pension schedules, and the general and major special revenue funds' budgetary comparison schedules as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to management's discussion and analysis, other postemployment benefit schedules, and pension schedules in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The general fund and special revenue fund budgetary comparison schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the general fund and special revenue fund budgetary comparison schedules are fairly stated in all material respects, in relation to the basic financial statements as a whole.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information as listed in the Table of Contents is presented for the purpose of additional analysis and is not a required part of the financial statements. The schedule of expenditures of federal awards is presented for purpose of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The other supplementary information as listed in the Table of Contents and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information as listed in the Table of Contents and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 3, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Other Reporting Required by the State of Oregon

In accordance with Oregon State Regulations, we have also issued our report dated December 3, 2021 on our consideration of the District's compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters, including the provisions of Oregon Revised Statutes (ORS) as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0320 of the *Minimum Standards for Audits of Oregon Municipal Corporations*. The purpose of that report is to describe the scope of our testing necessary to address the required provisions of ORS, and not to provide an opinion on compliance with such provisions.

Medford, Oregon December 3, 2021

As management of Rogue River School District No. 35 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with the basic financial statements and the accompanying notes to those financial statements. It should also be noted that all amounts included in text below are rounded for ease of reading.

FINANCIAL HIGHLIGHTS

- In the government-wide statements, the assets and deferred outflows of the District exceeded its liabilities and deferred inflows at June 30, 2021 by \$4.12 million. Of this amount, \$8.14 million represents the District's net investment in capital assets, \$88 thousand is restricted for debt service, \$40 thousand is restricted for scholarships, \$12 thousand is restricted for grants, \$283 thousand is restricted for capital projects, and \$120 thousand is restricted for the student body, leaving a negative \$4.60 million balance in unrestricted funds.
- For the fiscal year ended June 30, 2021, the District's total net position decreased by \$418 thousand. In the prior year, the District's total net position decreased by \$288 thousand.
- The District has increased its total expenditures from the prior year, \$15.20 million to \$15.98 million. In addition, District revenues increased from \$14.91 million to \$15.56 million.
- The District's governmental funds reported combined ending fund balance of \$3.63 million, a increase of \$449 thousand in comparison to the prior year. Approximately 86 percent of this total amount, \$3.1 million, is available for spending to meet ongoing commitments and obligations of the District.
- At the end of the fiscal year, fund balance for the General Fund was \$1.93 million, up from \$1.60 million in the prior year, an increase of about 17 percent. Unassigned fund balance in the General Fund represented about 16.6 percent of total General Fund expenditures, up from 13.5 percent in the prior year.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components:

- 1) Government-wide financial statements
- 2) Fund financial statements
- 3) Notes to the basic financial statements

This report also contains supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements include:

The Statement of Net Position. The *Statement of Net Position* presents information on all of the assets, deferred outflows, liabilities and deferred inflows of the District at year end. Net position is what remains after the liabilities and deferred inflows have been paid or otherwise satisfied. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

OVERVIEW OF THE FINANCIAL STATEMENTS (continued)

The Statement of Activities. The Statement of Activities presents information showing how the net position of the District changed over the year by tracking revenues, expenses and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

In the government-wide financial statements, the District's activities are shown in one category:

• Governmental activities. All of the District's basic functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, Oregon's State School Fund and other intergovernmental revenues.

The government-wide financial statements can be found as listed in the Table of Contents of this report.

Fund financial statements

Fund financial statements. The *fund financial statements* provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and internal service funds.

Governmental funds. The *governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are reconciled to the government-wide Statements of Net Position and Activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General, Special Revenue, Debt Service, and Capital Projects Funds, all of which are considered to be major funds.

The basic governmental fund financial statements can be found as listed in the Table of Contents of this report.

OVERVIEW OF THE FINANCIAL STATEMENTS (continued)

Internal service funds. This fund type is an accounting device used to accumulate and allocate costs internally among the District's various functions. The District maintains one internal service fund to account for claims and other risk management costs not otherwise covered through unemployment costs. Because these services predominantly benefit governmental rather than business-type functions, they have been included within the governmental activities in the government-wide financial statements and internal activity has been eliminated. The basic internal service fund financial statements can be found as listed in the table of contents of this report. Individual fund data for the internal service fund is provided as Supplemental Information in this report.

Notes to the basic financial statements

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found as listed in the Table of Contents of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* displaying certain budgetary comparison schedules and benefit schedules. Required Supplementary Information can be found as listed in the Table of Contents of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The District's assets/deferred outflows exceeded liabilities/deferred inflows by \$4.123 million at June 30, 2021. At June 30, 2020 District assets/deferred outflows exceeded liabilities/deferred inflows by \$4.541 million. The decrease in net position can be attributed to the increase in other liabilities related to pensions and other post-employment health care benefits.

Jackson County School District No. 35 Net Position (in thousands)

	G	overnmen (in tho	Increase (Decrease) From			
	June	30, 2021	June	30, 2020		
Assets:	•		•		<u> </u>

Other liabilities		12,323		10,209		2,114
Long-term liabilities		1,227		1,798		(571)
Total liabilities		14,532		12,847		1,685
Deferred inflows		421		779		(358)
Total liabilities and deferred inflows		14,953		13,626		1,327
Net position:						
Net investment in capital assets		8,140		7,985		155
Restricted		543		481		62
Unrestricted		(4,560)		(3,925)		(635)
Total net position	\$	4,123	\$	4,541	\$	(418)

As noted previously, net position may serve over time as a useful indicator of a government's financial position. Net position decreased by \$418 thousand from the prior year.

Capital assets, which consist of the District's land, buildings and improvements, and vehicles and equipment, represent about 49 percent of total assets/deferred outflows. The remaining assets consist mainly of cash and investments, grants and property taxes receivable, prepaid expenses and deferred outflows related to pensions and other postemployment benefits. Deferred amounts related to pensions and other postemployment benefits of \$4.77 million represent 25% of total assets and deferred outflows.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (continued)

The District's largest liability is the net pension liability (OPERS), it represents 76 percent of the total liabilities and deferred inflows of resources. The remaining liabilities/deferred inflows are made up of short-term accounts payable, deposits payable, unearned grant revenue, accrued salaries and benefits and deferred amounts related to pensions and other postemployment benefits.

A large portion of the District's net position reflects its investment in capital assets, less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students and other District residents; consequently these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (generally property taxes), since the capital assets themselves cannot be used to liquidate these liabilities.

Governmental activities. As previously stated, all District activities are governmental in nature, and during the current fiscal year, the District's net position decreased by \$418 thousand. The decrease can be primarily attributed to the increase in instruction and support services expense.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, fund balance may serve as a useful measure of a government's net resource's available for spending at the end of a fiscal year.

At June 30, 2021, the District's governmental funds reported combined ending fund balances of \$3.63 million, a increase of \$449 thousand in comparison with the prior year. About \$3.10 million (86 percent) of the ending fund balance constitutes amounts which are available for spending at the District's discretion. About 8 percent of combined ending fund balance is restricted for capital projects (\$283 thousand).

General Fund. The General Fund is the chief operating fund of the District. As of June 30, 2021, fund balance was \$1.93 million. The fund balance increased by approximately \$329 thousand during the current fiscal year. As a measure of the fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Unassigned fund balance of \$1.93 million represents about 16.6 percent of total General Fund expenditures.

Special Revenue Fund. The Special Revenue Fund had a total fund balance of \$1.45 million, of which none is unassigned. The net increase in fund balance during the current year was \$148 thousand. The Committed fund balance of \$602 thousand represents amounts reserved for capital improvements, food service, and pension reserve. The Assigned fund balance of \$570 thousand represents amounts held for school improvement. The remaining \$275 thousand is legally restricted for specific purposes.

Debt Service Fund. The Debt Service Fund had a total fund balance of \$69 thousand, all of which is restricted for the payment of debt service. The net increase in fund balance during the current year was \$2 thousand.

Capital Projects Fund. The Capital Projects Fund had a total fund balance of \$180 thousand, all of which is restricted. The fund was established during the 2018 fiscal year in connection with the issuance of general obligation debt.

CURRENT ECONOMIC FACTORS

The major factor facing the Rogue River School District in the coming years is the declining enrollment at the elementary level due to COVID-19. In March of 2020 Rogue River Elementary had an enrollment of 480 students; by November of 2021 Rogue River Elementary had 395 students enrolled. The enrollment drops only seem to be affecting the elementary school, as the district's other schools have seen very stable enrollment numbers through COVID-19. For each student enrolled in the district the State of Oregon sends about \$10,500. The loss of 85 students represents roughly an \$892,500 annual loss in funding to the district. The loss of elementary students currently has had no financial impact on the district as the Federal Government has sent 4.6 million dollars through the CARES and ESSER acts to help mitigate these losses during COVID-19. However, these federal dollars will be nearly depleted at the start of the 2023-2024 school year. If the elementary school does not see enrollment return to near the 480 student level by the start of the 23-24 school year, the district will be forced to make significant cuts in staffing to reduce expenditures by \$890,000 annually.

There are reasons to believe these elementary students could return by the 23-24 school year if restrictions around COVID-19 are completely removed by the start of the 23-24 school year.

REQUESTS FOR INFORMATION

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Business Manager at 1898 E. Evans Creek Road, Rogue River, Oregon 97537.

Note 1 - Summary of Significant Accounting Policies

The financial statements of Jackson County School District No. 35 (the District), Oregon have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting standards. The more significant of the District's accounting policies are described below.

The Reporting Entity

Jackson County School District No. 35, Rogue River, Oregon, was organized under provisions of Oregon Statutes pursuant to ORS Chapter 332 for the purpose of operating elementary and secondary schools. The District is governed by a separately elected five-member Board of Education (Board) who approves the administrative officials. The daily functioning of the District is under the supervision of the Superintendent. As required by generally accepted accounting principles, all activities of the District have been included in the basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various other governmental agencies and special service districts, which provide service within the District's boundaries. However, the District is not financially accountable for any of these entities, and therefore, none of them are considered component units or included in these basic financial statements.

The more significant of the District's accounting policies are described below.

Basis of Presentation

Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Eliminations have been made to minimize the double counting of internal activities in the Statement of Activities. Program revenues include: (1) charges to students or others for tuition, fees, rentals, material, supplies or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

Separate financial statements are presented for governmental funds and internal service funds.

Net Position is reported as restricted when constraints placed on asset use are either externally restricted, imposed by creditors (such as through grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All the District's funds are categorized as major funds.

Note 1 - Summary of Significant Accounting Policies (continued)

Fund Financial Statements (continued)

The District reports the following as major governmental funds:

General Fund - The General Fund is the District's primary operating fund and accounts for all revenues and expenditures except those required to be accounted for in another fund.

Special Revenue Fund - This Special Revenue Fund accounts for revenues and expenditures of grants restricted for specific educational purposes. Principal revenue sources are federal and state grants.

Debt Service Fund - This Debt Service Fund provides for the payment of principal and interest on general obligation bonded debt. Principal revenue source is property taxes.

Capital Project Fund - The Capital Project Fund accounts for activities related to the acquisition, construction, equipping and furnishing of facilities. Principal revenue sources are proceeds from the sale of bonds, interest earnings, and capital grant funds.

Additionally, the District reports the following fund:

Internal Service Fund - This fund is used to report activities that provide supplies and services on a cost reimbursement basis for the District's other programs and activities. The District currently has one internal service fund - the Unemployment Fund. Internal activity is eliminated on the government-wide financial statements.

Measurement Focus and Basis of Accounting

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, and there are both restricted and unrestricted net position available to finance the program, it is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt and claims and judgments, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Internal Service Fund is reported using the economic resources measurement focus and the accrual basis of accounting.

Note 1 - Summary of Significant Accounting Policies (continued)

Cash, Cash Equivalents and Investments

The District's cash and cash equivalents consist of cash on hand and demand deposits.

The District's investments, authorized under state statute, consist of the State of Oregon Treasurer's Local Government Investment Pool (LGIP) and certificates of deposit. Changes in the fair value of investments are recorded as investment earnings.

The LGIP is stated at amortized cost which approximates fair value. Fair value of the LGIP is the same as the District's value in the pool shares. The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP. The investments are regulated by the Oregon Short Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895).

Property Taxes Receivable

Ad valorem property taxes are levied on all taxable property as of January 1 preceding the beginning of the fiscal year. Property taxes become a lien on July 1 for personal property and real property. Property taxes are levied on July 1. Collection dates are November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent.

Uncollected property taxes are recorded on the Statement of Net Position. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established.

Accounts and Other Receivables

Accounts receivable and other receivables consist primarily of charges for services, claims for reimbursement of costs under various federal and state grant programs and refunds of prior year expenditures.

Grants

Unreimbursed grant expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Grant monies received prior to the occurrence of qualifying expenditures are recorded as unearned revenue.

Capital Assets

Capital assets are recorded at original or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. The District defines capital assets as assets with an initial cost of more than \$5,000 and an estimated life in excess of one year. Interest incurred during construction is not capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements - 10 to 40 years Vehicles and equipment - 5 to 10 years

Note 1 - Summary of Significant Accounting Policies (continued)

Self-Insurance

The Internal Service Fund (Unemployment Fund) addresses the various types of risk faced by the District. The District provides currently for potential losses to be incurred from pending claims.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Oregon Public Employees Retirement System (OPERS) and additions to/deductions from OPERS's fiduciary net position have been determined on the same basis as they are reported by OPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Post Employment Stipend Benefits

Eligible employees who elect early retirement are entitled to stipend payments. Such costs are recorded as expenses in the General Fund and funded as stipend benefits become due.

Post-Employment Health Care Benefits

Eligible employees who elect early retirement are entitled to payment of group medical insurance premiums. In the Government-wide financial statements, the District reports its liability for other post-employment benefits consistent with established generally accepted accounting principles and to reflect an actuarially determined liability for the present value of projected future benefits for retired and active employees. Such costs are recorded as expenses in the Governmental Funds and funded as premiums become due.

Additionally, substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (OPERS) – Retirement Health Insurance Account (RHIA). Contributions to OPERS RHIA are made on a current basis as required by the plan and are charged as expenses.

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All unused vacation pay is accrued when earned in the District-wide financial statements. A liability for these amounts is reported in the governmental funds once they have matured.

Deferred Outflows/Inflows of Resources

In addition to assets, the District will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two types of deferred outflows, both arise under the full accrual basis of accounting that qualifies for reporting in this category: deferred amounts related to pensions and deferred amounts related to other post-employment benefits. These amounts are reported in the government-wide statement of net position.

Note 1 - Summary of Significant Accounting Policies (continued)

Deferred Outflows/Inflows of Resources (continued)

The governmental funds report expense related to pension and other postemployment benefits contributions. These amounts are deferred and recognized as an outflow of resources in the period that is actuarially determined.

In addition to liabilities, the District will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition on net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has three types of deferred inflows, one which arises only under the modified accrual basis of accounting (unavailable revenues) and two that are reported under the full accrual basis of accounting (deferred amounts related to pensions and deferred amounts related to other post-employment benefits). Accordingly, unavailable revenue, is reported only in the governmental funds balance sheet, and deferred amounts related to pensions and deferred amounts related to other post-employment benefits, are reported in the government-wide statement of net position.

Long-term Debt

The District reports long-term debt of governmental activities at face value in the Statement of Net Position. Bond premiums and discounts are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable premium or discount. Bond issuance costs are expensed in the period incurred.

In the fund financial statements, government fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued, premiums and discounts received on debt issuances, and deferred charges are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as other financing uses.

Net Position/Fund Balance

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net investment in capital assets – Consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows of resources related to those assets.

Restricted net position – Consists of net position with constraints placed on the use by either (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation. Restricted net position is reduced by liabilities and deferred inflows or resources related to the restricted assets.

Unrestricted net position (deficit) – Consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

It is the District's policy to first use restricted net position prior to the use of unrestricted net position when expenditure is incurred for purposes for which both restricted and unrestricted net position are available.

Note 1 - Summary of Significant Accounting Policies (continued)

Net Position/Fund Balance (continued)

In the fund financial statements, governmental fund balance is classified in the following categories:

Non-Spendable – Includes items not immediately converted to cash, such as prepaid items and inventory.

Restricted – Includes items that are restricted by external creditors, grantors or contributors, or restricted by legal constitutional provisions.

Committed – Includes items committed by the District's Board of Directors, by formal board action.

Assigned – Includes items assigned for specific uses, authorized by the District's Superintendent and/or Business Manager.

Unassigned – This is the residual classification used for those balances not assigned to another category.

The District has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable), and lastly unassigned fund balance.

The District has established a policy to maintain a minimum of 6% of the General Fund's annual operating expenditures in fund balance at year end. The District believes a reserve of this level is prudent to maintain a high bond rating, to provide for unexpected emergencies, and to protect the District from the effects of fluctuations in state and federal funding.

Budget

A budget is prepared and legally adopted for each governmental fund type on the modified accrual basis of accounting. This budgetary basis of accounting is different than accounting principles generally accepted in the United States of America (GAAP). The major differences between the budgetary and GAAP basis of accounting are that capital outlay and other long-term assets, and debt principal and other long-term liabilities, are included as budgeted expenditures in the governmental fund types. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. The District did not exceed its appropriations for the year ended June 30, 2021.

Appropriations are established at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, contingency and transfers) for each fund. The detail budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Appropriations lapse at the end of each fiscal year.

Supplemental budgets less than 10% of a fund's original budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers within a fund between the levels of control (major function levels) with Board approval.

Note 1 - Summary of Significant Accounting Policies (continued)

Budget (continued)

The Board may authorize some transfers of appropriation authority by passing a resolution or ordinance. A transfer of appropriation authority is a decrease of one existing appropriation and a corresponding increase of another existing appropriation, with no net change in the total amount of all appropriations. However, a resolution may not be used to authorize the creation of a new appropriation category that does not already exist without approving a supplemental budget.

Use of Estimates

The preparation of basic financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Future Adoption of GASB Pronouncements

The following GASB pronouncements have been issued, but are not effective as of June 30, 2021:

GASB Statement No. 87, *Leases*. This statement was issued June 2017 to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. and increases the usefulness of governments' financial statements. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. GASB Statement No. 87 will be effective for the District for fiscal year ending June 30, 2022.

GASB Statement No. 89, Accounting for Interest Costs Incurred Before the End of a Construction Period. This statement was issued June 2018 to establish accounting requirements for interest cost incurred before the end of a construction period. The objectives of the Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. GASB Statement No. 89 will be effective for the District for fiscal year ending June 30, 2022.

GASB Statement No. 91, Conduit Debt Obligations. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. GASB Statement No. 91 will be effective for the District for fiscal year ending June 30, 2023.

The District will implement new GASB pronouncements no later than the required effective date. The District is currently evaluating whether or not the above listed new GASB pronouncements will have a significant impact to the District's financial statements.

Note 2 - Cash and Investments

Cash and investments are comprised of the following at June 30, 2021:

Petty cash	\$ 1,022
Carrying amount of demand deposits	496,382
Certificates of deposit	32,455
Carrying amount of investments	3,576,412
Total cash and investments	\$ 4,106,271

Cash and investments are shown on the basic financial statements as:

Cash, cash equivalents, and investments	\$ 4,106,271
Total cash, cash equivalents, and investments	\$ 4,106,271

Deposits

The Governmental Accounting Standards Boards has adopted accounting principles generally accepted in the United States of America (GAAP), which include standards to categorize deposits to give an indication of the level of custodial credit risk assumed by the District at June 30, 2021. If bank deposits at year end are not entirely insured or collateralized with securities held by the District or by its agent in the District's name, the District must disclose the custodial credit risk that exists. Deposits with financial institutions are comprised of bank demand deposits and certificates of deposit. For the year ended June 30, 2021, the bank balances were \$664,692. All deposits are held in the name of the District. At June 30, 2021, the District had \$414,692 in deposits that were not covered by FDIC insurance. However, the balance is covered by the State of Oregon shared liability structure for participating bank depositories in Oregon.

Effective July 1, 2008, House Bill 2901 created a shared liability structure for participating bank depositories in Oregon. Barring any exceptions, a qualifying bank depository is required to pledge collateral valued at least 10% of their quarter-end public fund deposits if they are well capitalized, 25% of the quarter-end public fund deposits if they are adequately capitalized, or 110% of the quarter-end public fund deposits if they are undercapitalized or assigned to pledge 110% by the Office of State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public bank depositories is available to repay the deposits of public funds of governmental entities.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk.

Investments

The District has invested funds in the State Treasurer's Oregon Short-term Fund Local Government Investment Pool during fiscal year 2021. Investments in the Local Government Investment Pool (LGIP) are included in the Oregon Short-Term Fund, which is an external investment pool that is not a 2a-7-like external investment pool, and is not registered with the U.S. Securities and Exchange Commission as an investment company. Fair value of the LGIP is calculated at the same value as the number of pool shares owned. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. Investments in the Short-Term Fund are governed by ORS 294.135, Oregon Investment Council, and portfolio guidelines issued by the Oregon Short-Term Fund Board.

Note 2 - Cash and Investments (continued)

Investments (continued)

Investment in the LGIP is neither insured nor guaranteed by the FDIC or any other government agency. Although the LGIP seeks to maintain the value of share investments at \$1.00 per share, it is possible to lose money by investing in the pool.

In addition, the Oregon State Treasury LGIP distributes investment income on an amortized cost basis and participants' equity in the pool is determined by the amount of participant deposits, adjusted for withdrawals and distributed income. Accordingly, the adjustment to fair value would not represent an expendable increase in the District's cash position.

Investments in the Oregon State Treasury LGIP are made under the provisions of ORS 194.180. These funds are held in the District's name and are not subject to collateralization requirements of ORS 295.015. Investments are stated at amortized cost, which approximated fair value.

State of Oregon statutes restrict the types of investments in which the District may invest. Authorized investments include obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool. As of June 30, 2021, and for the year then ended, the District was in compliance with the aforementioned State of Oregon statutes.

Credit Risk

State Statutes authorize the District to invest primarily in general obligations of the U.S. Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, banker's acceptances, certain commercial papers, and the State Treasurer's Investment Pool, among others. The District has no formal investment policy that further restricts its investment choices.

Concentration of Credit Risk

The District is required to provide information about the concentration of credit risk associated with its investments in one issuer that represents 5 percent or more of the total investments, excluding investments in external investment pools or those issued and explicitly guaranteed by the U.S. Government. The District has no such investments.

Interest Rate Risk

The District has no formal investment policy that explicitly limits investment maturities as a means of managing its exposure to fair value loss arising from increasing interest rates.

Note 2 - Cash and Investments (continued)

Disclosures about Fair Value of Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 - Unadjusted inputs using quoted prices in active markets for identical investments.

Level 2 - Other significant observable inputs other than level 1 prices, including, but are not limited to, quoted prices for similar investments, inputs other than quoted prices that are observable for investments (such as interest rates, prepayment speeds, credit risk, etc.) or other market corroborated inputs.

Level 3 - Significant inputs based on the best information available in the circumstances, to the extent observable inputs are not available.

Investments Measured at Fair Value:	Totals at ne 30, 2021	Le	evel One	Le	evel Two	Leve	I Three	Me No	ortized Cost easurement t Measured Fair Value
Local Government Investment Pool Certificates of deposit	\$ 3,576,412 32,455	\$	- -	\$	- 32,455	\$	<u>-</u>	\$	3,576,412
	\$ 3,608,867	\$	_	\$	32,455	\$		\$	3,576,412

At June 30, 2021, the District's investments had the following maturities:

	In	vestments	Investment Maturities					
			Less than 1 year		1	-5 years	6-	10 years
Local Government Investment Pool Certificates of deposit	\$	3,576,412 32,455	\$	3,576,412 22,000	\$	-	\$	- 10,455
	\$	3,608,867	\$	3,598,412	\$	_	\$	14,600

Note 3 - Receivables

At June 30, 2021, the District's receivables are comprised of the following:

	_Prop	Property Taxes Grants/Other		Grants/Other		Total
General Fund	\$	164,784	\$	111,881	\$	276,665
Special Revenue Fund		-		434,535		434,535
Debt Service Fund		26,736				26,736
	\$	191,520	\$	546,416	\$	737,936

Note 4 - Capital Assets

The changes in capital assets for the year ended June 30, 2021, are as follows:

	Ju	Balance ne 30, 2020	 Additions	 nsfers/ etions	Jui	Balance ne 30, 2021
Capital assets not being depreciated Land	\$	286,801	\$ <u>-</u>	\$ 	\$	286,801
Total capital assets not being depreciated		286,801				286,801

Buildings and improvements		18,163,962	13,773	_		18,177,735
Vehicles and equipment		168,886	 38,794	 		207,680
Total capital assets being depreciated		18,332,848	 52,567			18,385,415
Less accumalated depreciation for:						
Buildings and improvements		(8,695,513)	(456,435)	-		(9,151,948)
Vehicles and equipment		(140,944)	(11,909)	 		(152,853)
Total accumulated depreciation		(8,836,457)	 (468,344)	 		(9,304,801)
Total capital assets (net)						
Land		286,801	-	-		286,801
Buildings and improvements		9,468,449	(442,662)	-		9,025,787
Vehicles and Equipment		27,942	 26,885	 		54,827
Total capital assets (net)	\$	9,783,192	\$ (415,777)	\$ 	\$	9,367,415

Depreciation expense for the fiscal year was \$468,344 and was allocated to the various functions as follows:

Instruction	\$ 290,373
Supporting Services	168,604
Community Services	9,367
Total	\$ 468,344

Note 5 - Interfund Transfers

Inter-fund transfers for the year ended June 30, 2021 are as follows:

	Tra	insfers In	Tr	ransfers Out
General Fund Special Revenue Fund	\$	\$ - 437,500		437,500
Total Transfers	\$	437,500	\$	437,500

Note 5 - Interfund Transfers (continued)

The District made transfers from the General Fund to the Special Revenue Fund for the purpose of funding maintenance, technology, vehicle, sport, and classroom related expenses.

Note 6 - Operating Leases

The District leases facilities and equipment under non-cancelable operating leases. Total costs for such leases were \$79,138 for the year ended June 30, 2021. The future minimum lease payments for these leases are as follows:

Year Ending June 30,	
2022	\$ 80,989
2023	56,750
2024	14,009
2025	10,348
2026	 2,351
	\$ 164,447

Note 7 - Unavailable/Unearned Revenues

Governmental funds report deferred inflows of resources in connection with receivables that are not considered to be available to liquidate liabilities of the current period. Amounts received in advance of the period in which services are performed are recorded in unearned revenue. At June 30, 2021, the various components of unavailable and unearned revenue included in the governmental funds' Balance Sheet consists of the following:

	U	navailable	Unearned	 Total
General Fund Property taxes	\$	113,391	\$ -	\$ 113,391
Special Revenue Fund Grants		-	90,794	90,794
Debt Service Property taxes		18,397		18,397
Total	\$	131,788	\$ 90,794	\$ 222,582

Note 8 - Long-Term Debt

On August 3, 2017, the District issued a \$3,335,000 General Obligation Bond. The purpose of the bond is to finance the upgrade of HVAC systems, address deferred maintenance, energy savings upgrades, and improvements to comply with ADA requirements. The agreement contains a provision that in an event of default, the Bank may exercise any remedy available at law, however the payments are not subject to acceleration. In addition, while the event of default is continuing, the interest rate will increase by 1.50%.

Principal payments are due annually on June 15 for six years, ending in fiscal year 2023. Interest is fixed at 1.94% and is paid semi-annually, in June and December. For the year ended June 30, 2021, interest expense was \$34,874.

Note 8 - Long-Term Debt (continued)

The changes in bond principal for the year ended June 30, 2021 is as follows:

	Outstanding					Outstanding		
	July 1,					June 30,		Due in
	2020	Issued		1	Matured	2021	C	ne Year
General Obligation Bonds								
2017 Series (direct placement)	\$ 1,797,790	\$	-	\$	(570,581)	\$ 1,227,209	\$	599,985

Annual debt service requirements associated with the bond are as follows:

Year Ended June 30,	F	Principal		nterest
2022 2023	\$	599,985 627,224	\$	23,808 12,168
	\$	1,227,209	\$	35,976

Note 9 - Defined Pension Benefit Plan

Tax Sheltered Annuity Plan

The District offers its employees a tax deferred annuity program established pursuant to Section 403(b) of the Internal Revenue Code (the Code). Contributions are made through salary reductions from participating employees up to the amounts specified in the Code. The District provides no matching component for employee contributions.

Early Retirement Stipend Pension Plan

Plan Description

The District provides a single-employer defined benefit early retirement supplemental plan. This plan covers all eligible Certified employees that were hired by the District prior to July 1, 1995, and retiring with at least 15 years of service with the District. Benefits for all employees continue for a maximum of 7 years and cease at age 65 or upon death of the retiree. The monthly benefit is 0.75% of the last year's teaching salary which does not include extra duty or extended day contracts. This program was established in accordance with negotiated employment contracts. The District does not issue a stand-alone report for this plan.

Funding Policy

The benefits from this program are fully paid by the District and, consequently, no contributions by employees are required.

Note 9 - Defined Pension Benefit Plan (continued)

Employees Covered by Benefit Terms

As of the measurement date, the following employees were covered by the explicit benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	7
Active plan members	1_
	8

Total Stipend Pension Liability

The District's total stipend pension liability of \$100,074 was measured as of June 30, 2020 and was determined by an actuarial valuation date as of July 1, 2019.

Actuarial Methods and Assumptions

The actuarial valuation used for the early retirement stipend pension plan is identical to the actuarial valuation details related to the single employer defined benefit health plan disclosed in *Note 10 – Postemployment Benefits Other Than Pensions (OPEB)*.

Changes in the Total Stipend Pension Liability

Total stipend pension liability at June 30, 2020	\$ 128,560
Service cost	403
Interest	3,901
Differences between expected and actual	-
Changes of assumptions	2,514
Benefit payments	 (35,304)
Total stipend pension liability at June 30, 2021	\$ 100,074

Sensitivity of the Total Stipend Pension Liability to Changes in the Discount Rate

The following presents the total stipend pension liability of the District, as well as what the District's total pension stipend liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current discount rate:

	1	% Decrease	Current Discount		1	% Increase
		(1.21%)	Ra	te (2.21%)		(3.21%)
Total stipend pension liability	\$	(102,330)	\$	(100,074)	\$	(97,876)

Note 9 - Defined Pension Benefit Plan (continued)

Stipend Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources

For the year ended June 30, 2021, the District recognized a reduction in stipend pension expense of \$28,360. The reduction of pension expense are treated as a reduction of payroll related expense in the Statement of Activities and allocated to Instruction, Support Services, and Enterprise and Community Services using allocation percentages of 66%, 33%, and 1% respectively.

At June 30, 2021, the District reported the following deferred outflows or inflows associated with its stipend pension plan:

	Deferred Outflows		Deferred Inflows	
	of Resources		of Res	sources
Changes of assumptions	\$	-	\$	-
Contributions subsequent to measurement date		35,178		-
Total	\$	35,178	\$	-

The \$35,178 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a decrease to the total pension liability in the year ended June 30, 2022.

OPERS Plan

Employees are provided pensions as participants under one or more plans currently available through Oregon Public Employees Retirement System (OPERS), a cost-sharing multiple-employer defined benefit plan in accordance with Oregon Revised Statutes Chapter 238, Chapter 238A, and Internal Revenue Service Code Section 401(a).

There are currently two programs within OPERS, with eligibility determined by the date of employment. Those employed prior to August 29, 2003 are OPERS Program members, and benefits are provided based on whether a member qualifies for Tier One or Tier Two described below. Those employed on or after August 29, 2003 are Oregon Public Service Retirement Plan (OPSRP) Program members. OPSRP is a hybrid retirement plan with two components: 1) the Pension Program (defined benefit; established and maintained as a tax-qualified governmental defined benefit plan), and 2) the Individual Account Program (IAP) (defined contribution; established and maintained as a tax-qualified governmental defined contribution plan).

The ORS Chapter 238 Defined Benefit Plan was closed to new members hired on or after August 29, 2003. In 1995, the Oregon Legislature created a second tier of benefits for those who became OPERS Program members after 1995 but before August 29, 2003. The second tier does not have the Tier One assumed earnings rate guarantee.

Beginning January 1, 2004, all employees who were active members of OPERS became members of the OPSRP IAP Program. OPERS plan member contributions (the employee contribution, whether made by the employee or "picked-up" by the employer) go into the IAP portion of OPSRP. OPERS plan members retain their existing OPERS accounts; however, member contributions after January 1, 2004 are deposited in the member's IAP, not into the member's OPERS account.

Note 9 - Defined Pension Benefit Plan (continued)

Tier One/Tier Two (Chapter 238)

Pension Benefits - The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

Under Senate Bill 1049, passed during 2019 legislative session, the salary included in the determination of final average salary will be limited for all members beginning in 2020.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer. General Service employees may retire after reaching age 55. Tier One general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Tier Two members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

Death Benefits - Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- Member was employed by a PERS employer at the time of death,
- Member died within 120 days after termination of PERS-covered employment.
- Member died as a result of injury sustained while employed in a PERS-covered job, or
- Member was on an official leave of absence from a PERS-covered job at the time of death.

Disability Benefits - A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member for disability benefits regardless of the length of OPERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 when determining the monthly benefit.

Benefit Changes After Retirement – Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of the underlying global equity investments of that account.

Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.0 percent.

OPSRP Pension Program (Chapter 238A)

Pension Benefits - The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

General Service - 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

Note 9 - Defined Pension Benefit Plan (continued)

OPSRP Pension Program (Chapter 238A) (continued)

Under Senate Bill 1049, passed during 2019 legislative session, the salary included in the determination of final average salary will be limited for all members beginning in 2020.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

Death Benefits - Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

Disability Benefits - A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Benefit Changes After Retirement - Under ORS 238A.210, monthly benefits are adjusted annually through cost-of-living changes. The COLA is capped at 2.0 percent.

Contributions -

OPERS funding policy provides for periodic member and employer contributions at rates established by the OPERS Board, subject to limits set by statute. The rates established for member and employer contributions were approved based on the recommendation of the OPERS third-party actuary.

This funding policy applies to the OPERS Defined Benefit Plan. Employer contributions during the period July 1, 2020 through June 30, 2021, were based on the December 31, 2017 actuarial valuation, which became effective July 1, 2019. For this period, employer contribution rates were 32.03% for Tier 1/Tier 2 employees and 26.58% for OPSRP General Employees. Employer contributions for the year ended June 30, 2021 were \$1,497,833.

Pension Plan Comprehensive Annual Financial Report (CAFR) -

OPERS prepares their financial statements in accordance with generally accepted accounting principles in the United States of America as set forth in Governmental Accounting Standards Board (GASB) pronouncements that apply to governmental accounting for fiduciary funds and enterprise funds. The accrual basis of accounting is used for all funds. Contributions are recognized when due, pursuant to legal (or statutory) requirements. Benefits and withdrawals are recognized when they are currently due and payable in accordance with the terms of the plan. Investments are recognized at fair value, the amount that could be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Oregon PERS produces an independently audited CAFR which can be found at:

http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx

Note 9- Pension Plan (continued)

Actuarial Valuation -

The employer contribution rates effective July 1, 2019, through June 30, 2021, were set using the entry age normal actuarial cost method. Under this cost method, each active member's entry age present value of projected benefits is allocated over the member's service from the member's date of entry until their assumed date of exit, taking into consideration expected future compensation increases.

Actuarial Methods and Assumptions Used in Developing Total Pension Liability -

Valuation date December 31, 2018 Measurement date June 30, 2020

Experience study 2018, published July 24, 2019

Actuarial cost method Entry age normal

Actuarial assumptions:

Inflation rate 2.50 percent
Long-term expected rate of return1 7.20 percent
Discount rate 7.20 percent
Projected salary increases 3.50 percent

Cost of living adjustments (COLA) Blend of 2.00% COLA and graded COLA

(1.25%/0.15%) in accordance with *Moro*

decision; blend based on service.

Mortality

Healthy retirees and beneficiaries:

Pub-2010 Healthy Retiree, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.

Active members:

Pub-2010 Employee, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.

Disabled retirees:

Pub-2010 Disabled Retiree, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in

the valuation.

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2018 Experience Study, which reviewed experience for the four-year period ending on December 31, 2018.

Discount Rate - The discount rate used to measure the total pension liability was 7.20 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Note 9- Pension Plan (continued)

Assumed Asset Allocation -

Asset Class	Target Allocation
Cash Debt securities	0.00% 20.00%
Public equity Private equity Real estate	32.50% 17.50% 12.50%
Alternatives portfolio Risk parity	15.00% 2.50%
Total	100.00%

Investment Rate of Return -

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in May 2019 the OPERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Note 9- Pension Plan (continued)

Investment Rate of Return (continued) -

The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at the time based on the OIC long-term target asset allocation. The OIC's description of each asset was used to map the target allocation to the asset classes shown below:

Asset Class	Target Allocation	20-Year Annualized Geometric Mean
Core fixed income	9.60%	4.07%
Short-term bonds	9.60%	3.68%
Bank/leveraged loans	3.60%	5.19%
High yield bonds	1.20%	5.74%
Large/Mid cap US equities	16.16%	6.30%
Small cap US equities	1.35%	6.68%
Micro cap US equities	1.35%	6.79%
Developed foreign equities	13.48%	6.91%
Emerging market equities	4.23%	7.69%
Non-US small cap equities	1.93%	7.25%
Private equities	17.50%	8.33%
Real estate (property)	10.00%	5.55%
Real estate (REITS)	2.50%	6.69%
Hedge fund of funds - diversified	1.50%	4.06%
Hedge fund - event-driven	0.38%	5.59%
Timber	1.13%	5.61%
Farmland	1.13%	6.12%
Infrastructure	2.25%	6.67%
Commodities	1.11%	3.79%
Total	100.00%	
Assumed inflation - mean		2.50%

<u>Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred</u> Inflows of Resources Related to Pensions –

At June 30, 2021, the District reported a liability of \$11,410,006 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020, the District's proportion was approximately 0.05228326 percent.

For the year ended June 30, 2021, the District recognized pension expense of \$1,114,060. The \$1,114,060 was treated as an increase of payroll related expense in the Statement of Activities and allocated to Instruction, Support Services, and Enterprise and Community Services using allocation percentages of 66%, 33%, and 1% respectively.

Note 9- Pension Plan (continued)

<u>Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – (continued)</u>

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 rred Outflows Resources	 rred Inflows Resources
Difference between expected and actual experience:	\$ 502,178	\$ -
Changes of assumptions:	612,339	21,455
Net difference between projected and actual earnings on investments:	1,341,668	
Changes in proportionate share:	208,239	276,929
Differences between employer contributions and employer's proportionate		
share of system contributions:	360,819	-
Contributions subsequent to measurement date:	 1,497,833	
Total	\$ 4,523,076	\$ 298,384

The \$1,497,833 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ended June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources (prior to post-measurement date contributions) related to pensions will be recognized in pension expense or (expense reduction) as follows:

Year Ended	Def	erred Outflow/(Inflow)
June 30,		of Resources
2022	\$	617,051
2023		846,464
2024		767,073
2025		486,752
2026		9,519
Thereafter		
Total	\$	2,726,859

<u>Sensitivity for the District's Proportionate Share of the Net Pension Liability to Changes in Discount Rate</u>

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percent lower (6.20 percent) or one percent higher (8.20 percent) than the current rate:

District's Net Pension	1% Decrease	Current Discount	1% Increase
Asset/(Liability)	(6.20%)	Rate (7.20%)	(8.20%)
Defined Benefit Pension	\$ (16,942,916)	\$ (11,410,006)	\$ (6,770,404)

Note 9- Pension Plan (continued)

Changes in Assumptions

A summary of key changes implemented since the December 31, 2017 valuation are noted below. Additional detail and list of changes can be found in the 2018 Experience Study for the System, which can be found at:

https://www.oregon.gov/pers/Documents/Exp Study 2018.pdf.

- Update the explicit assumptions regarding administrative expenses for Tier 1/Tier 2 and OPSRP.
- Update the assumed RHIPA cost subsidy trend rates.
- Adjust mortality assumptions to use the new "Pub-2010" base tables and a standard update to the mortality improvement scale, which is based on 60-year unisex average Social Security experience.
- Adjust retirement rates for certain member categories and service bands to more closely align with recent and expected future experience; reduce percentage of future retirees assumed to elect a partial lump sum; increase percentage of members assumed to purchase credited service at retirement.
- Increase the merit component of the salary increase assumption for two member categories based on observations of the last eight years of experience.
- Update pre-retirement termination of employment assumptions for two member categories.
- Lower assumed rates of ordinary (non-duty) disability and general service duty disability to more closely match recent experience.
- Increase the Tier 1 unused vacation cash out assumption for most member categories, reflecting recent experience.
- Adjust the Tier 1/Tier 2 unused sick leave assumption for five member categories to more closely reflect recently observed experience.
- Decrease the healthy participation assumption for the RHIA retiree healthcare program, reflecting recent experience.
- Decrease the RHIPA participation assumption for most service bands, reflecting recent experience.
- Senate Bill 1049 was signed into law in June 2019 and requires a one-time re-amortization of Tier 1/Tier 2 UAL in the calculation of actuarially determined contribution rates for the 2021-2023 biennium. No additional changes are recommended for most actuarial methods, including the actuarial cost method, amortization method, and rate collar.
- When allocating accrued liability for Tier 1/Tier 2 active members who have earned service with multiple PERS employers, base 90% of the allocation on length of service with each employer (100% for police & fire members) and base the rest on the member account balance associated with each employer. The percentage allocation for general service has increased 5% since the prior experience study. This movement illustrates the continued migration of projected future Tier 1/Tier 2 retirement benefits away from the Money Match calculation, which is based on account balances, toward the ongoing Full Formula approach, which is based on final average salary.

Defined Contribution Plan - Individual Account Program (IAP)

Pension Benefits. Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. The IAP is an individual account-based program under the OPERS tax-qualified governmental plan as defined under ORS 238A.400. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. All covered employees are required by State statute to contribute 6% of their salary to the plan. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies.

Note 9- Pension Plan (continued)

Pension Benefits (continued)

Upon retirement, a member of the OPSRP Individual Account Program (IAP) may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5, 10, 15, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

Death Benefits. Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Contributions. Starting July 1, 2020, Senate Bill 1049 required member contributions to their IAP accounts to be redirected to the Defined Benefit fund. If the member earns more than \$2,500 a month, 0.75% for OPSRP members and 2.5% for Tier One and Tier Two members' salaries that were previously contributed to the member's IAP began funding the new Employee Pension Stability Accounts to help fund the cost of future pension benefits without changing those benefits, which means reduced contributions to the member's IAP account. OPERS estimates that approximately \$125 million in member contributions will be redirected in fiscal year 2020-21.

During 2021, the District, as an employee benefit, paid the employee portion of the contribution. Employer contributions for the year ended June 30, 2021 were \$318,541, of which \$269,332 was deposited into the individual members' accounts.

Note 10 - Postemployment Benefits Other Than Pensions (OPEB)

The District has two separate other post-employment benefits (OPEB) plans. The District provides a single employer defined benefit health care plan to staff that were hired before July 1, 2005 and the District contributes to the State of Oregon's PERS cost-sharing multiple employer defined benefit plan.

Single-Employer Defined Benefit Health Care Plan

Plan Description

The District maintains a single-employer defined benefit OPEB plan that provides explicit and implicit post-employment health benefits to eligible retirees and their dependents.

Note 10 - Postemployment Benefits Other Than Pensions (OPEB) (continued)

Single-Employer Defined Benefit Health Care Plan (continued)

For implicit medical benefits, the District's post-retirement healthcare plan was established in accordance with Oregon Revised Statutes (ORS) 243.03, which requires that all eligible retirees and their dependents under age 65 are allowed to receive the same health care coverage as active employees. Employees must retire from active service while eligible for a pension benefit payable immediately under Oregon PERS. The implicit subsidy is measured as the expected health care cost per retiree and dependent, less the gross premiums charged for that coverage. The subsidy is only measured for retirees and spouses younger than age 65, at which point such retirees and spouses typically become eligible for Medicare.

Generally, for explicit medical benefits, the program covers retirees under the following eligibility criteria: Confidential and Administrative Employees hired before September 1, 1998 retiring with at least 8 years of service, Certified Employees hired before April 1, 1999 and retiring with at least 15 years of service, and full-time Classified Employees hired before July 1, 2005 and retiring with at least 20 years of service. The coverage is paid for seven years or until Medicare eligibility, whichever comes first. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75.

Administrative and Confidential employees, as well as Certified Employees hired prior to July 1, 1995 receive 100% coverage for District-paid family medical, dental, and vision insurance. Certified Employees hired between July 1, 1995 and April 1, 1999, are subject to the District contribution cap of \$513 for employee or \$1,701 for family benefits for the fiscal year ended June 30, 2021. These caps are expected to inflate in future years. Classified Employees received a monthly benefit of \$225 toward payment of health care premiums.

For confidential employees hired prior to September 1, 1998, and retiring with at least 8 years of service, the District will pay for term life insurance coverage in the amount the retiree was receiving prior to retirement (generally \$50,000). These benefits continue for a maximum of 7 years and will cease at age 65.

Funding Policy

The benefits from the single-employer defined benefit OPEB plan are paid by the District based on bargaining agreement language and contributions by employees are also required. The plan is not accounted for in a pension trust fund; therefore, designated funds are not legally restricted to pay future benefits. The benefits from the healthcare plan established in accordance with ORS 243.303 are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation on the part of the District to fund these benefits in advance. The District did not establish an irrevocable trust (or equivalent arrangement) to account for the plan.

Employees Covered by Benefit Terms

The explicit benefit for the single-employer defined benefit OPEB plan was ceased to all employees hired subsequent to July 1, 2005. As a result, the total plan members receiving the explicit benefit will decrease over time. At June 30, 2021, the following employees were covered by the explicit benefit terms:

Active plan members	91
Inactive employees or beneficiaries currently receiving benefit payments	8
Spouses entitled to but not yet receiving benefit payments	-
	99

Total OPEB Liability

The districts total OPEB liability of \$812,792 was measured as of June 30, 2020, and was determined by an actuarial valuation date as of July 1, 2019.

Note 10 - Postemployment Benefits Other Than Pensions (OPEB) (continued)

Actuarial Assumptions and Other Inputs

The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Input	Assumption
Actuarial Cost Method	Entry age normal, level percent of salary
Interest Rate Utilized for Discounting	2.21% for year ended 2020. Amounts reflect 20-year GO Bond Index
Health Care Cost Trend	Between 3.00% and 5.50% annually
General Inflation	2.50% per year
Annual Salary Increases	3.50% per year
Future Stipend Increases	Maximum stipend amounts were not assumed to increase in future years.
Future Life Insurance	Life insurance coverage amounts were not assumed to increase in future years.
Mortality Rates	PUB-2010 Teacher Employee and Healthy Reitree tables
Withdrawal	Based upon OPERS assumption, annual rates are based on gender and duration of employment.
Retirement	Based upon OPERS assumption, annual rates are based on age, Tier / OPSRP, and duration of service.
Excluded Employees	Part-time employees not eligible to participate in OPERS or not eligible for health care benefits were generally excluded from valuation.
Past PERS Service	PERS service as of the valuation date was generally estimated based upon information provided by the District
Future PERS Service	Projected PERS service for retirement eligibility is generally assumed to accrue at a rate of 1.0 per year until retirement.
Future Retiree Coverage	100% of active members eligible for District-paid health coverage are assumed to elect coverage upon retirement until age 65. 80% of these members are also assumed to elect spouse coverage.
Payment of Benefits	Stipend Benefits were assumed to be paid as cash, and therefore subject to an additional 7.65% FICA tax.
Lapse Rate	Retirees for whom the District will never pay any portion of the health care premiums are assumed to have a 5% probability of lapsing (dropping) coverage per year.
Spouse Age	Female spouses are assumed to be two years younger than male spouses. Male spouses were assumed to be two years older than their female spouses.

Changes in the Total OPEB Liability

Total OPEB Liability at June 30, 2020	\$ 843,045
Changes for the year:	
Service cost	54,716
Interest	28,957
Differences between expected and actual	-
Assumptions or other input	28,149
Benefit payments	 (142,075)
Total OPEB Liability at June 30, 2021	\$ 812,792

Note 10 - Postemployment Benefits Other Than Pensions (OPEB) (continued)

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources

For the year ended June 30, 2021, the District recognized a reduction of OPEB expense of \$91,997. The reduction of OPEB expense are treated as reduction of payroll related expense in the Statement of Activities and allocated to Instruction, Support Services, and Enterprise and Community Services using allocation percentages of 66%, 33%, and 1% respectively.

As of June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	red Outflows Resources		red Inflows esources
Difference between expected and actual experience	\$ -	\$	84,661
Changes of assumptions or other input	38,497		14,317
Contributions subsequent to measurement date	157,316	-	
Total	\$ 195,813	\$	98,978

The \$157,316 reported as deferred outflows of resources related to OPEB resulting from District payments subsequent to the measurement date will be recognized as a decrease of the total OPEB liability in the year ended June 30, 2022.

Amounts reported as deferred outflows of resources and deferred inflows of resources (prior to post-measurement contributions) related to OPEB will be recognized in OPEB expense as follows:

Year		Deferred		
Ended	Outf	low/(Inflow)		
June 30,	of F	Resources		
2022	\$	(18,354)		
2023		(15,387)		
2024		(11,335)		
2025		(10,253)		
2026		(8,821)		
Thereafter		3,669		
Total	\$	(60,481)		

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current discount rate:

	1% Decrea	ase Cur	rent Discount	t 19	6 Increase
	(1.21%)) R	ate (2.21%)		(3.21%)
Total OPEB Liability	\$ (842	,162) \$	(812,792)		(784,348)

Note 10 - Postemployment Benefits Other Than Pensions (OPEB) (continued)

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1% lower or 1% higher than the current healthcare cost trend rates:

	1%	Decrease	Tr	end Rate	1% Increase			
Total OPEB Liability	\$	(773,505)	\$	(812,792)	\$	(857,412)		

Retirement Health Insurance Account (RHIA)

Plan Description - As a member of Oregon Public Employees Retirement System (OPERS), the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other post-employment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan was closed to new entrants hired on or after August 29, 2003.

OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO box 23700, Tigard, OR 97281-3700.

Funding Policy - Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410.

To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in a OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating employers are contractually required to contribute to RHIA at a rate assessed each year by OPERS. The contribution rates in effect for the fiscal year ended June 30, 2021 for the OPEB program were: Tier1/Tier 2 - 0.06%, and OPSRP general service -0.00%. The District contributed \$1,165 for the year ended June 30, 2021.

Pension Plan Comprehensive Annual Financial Report (CAFR) -

Oregon PERS produces an independently audited CAFR which can be found at:

https://www.oregon.gov/pers/Documents/Financials/CAFR/2020-CAFR.pdf

Note 10 - Postemployment Benefits Other Than Pensions (OPEB) (continued)

Actuarial Valuation -

The actuarial valuation used for RHIA is identical to the actuarial valuation details related to the OPERS Plan disclosed in *Note* 9 Pension Plan (excluding the Actuarial Methods and Assumptions cost of living adjustment assumption, which has been removed, and a retiree healthcare participation assumption of 32% for healthy retirees and 20% for disabled retirees has been used). The actuarial valuation details are the Actuarial Methods and Assumptions, Discount Rate, Assumed Asset Allocation, and the Investment Rate of Return.

OPEB Liabilities/Assets, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2021, the District reported \$97,988 for its proportionate share of the net OPEB asset. The net OPEB asset was measured as of June 30, 2020, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2018. The District's proportion of the net OPEB asset was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020 the District's proportion was approximately 0.04808991 percent.

For the year ended June 30, 2021, the District recognized a reduction of OPEB expense related to RHIA of \$20,819. The \$20,819 was treated as a reduction of payroll related expense in the Statement of Activities and allocated to Instruction, Support Services, and Enterprise and Community Services using allocation percentages of 66%, 33%, and 1% respectively.

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		d Outflows		ed Inflows of
	of Re	esources	Re	sources
Difference between expected and actual experience	\$	-	\$	10,017
Changes of assumptions		-		5,209
Net difference between projected and actual earning on investments		10,897		-
Changes in proportionate share		-		7,955
Differences between employer contributions and employers proportionate				
share of system contributions		-		-
Contributions subsequent to measurement date		1,165		<u>-</u>
Total	\$	12,062	\$	23,181

Note 10 – Postemployment Benefits Other Than Pensions (OPEB) (continued)

Retirement Health Insurance Account (RHIA) (continued)

The \$1,165 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as an increase to the net OPEB asset in the year ended June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources (prior to post-measurement date contributions) related to OPEB will be recognized in pension expense or (expense reduction) as follows:

Year Ended	Def	erred Outflow/(Inflow) of
June 30,		Resources
2022	\$	(14,125)
2023		(5,624)
2024		4,028
2025		3,437
2026		-
Thereafter		
Total	\$	(12,284)

Sensitivity for the District's Proportionate Share of the Net OPEB Asset to Changes in Discount Rate

The following presents the District's proportionate share of the net OPEB asset calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is 1-percentage point lower (6.20 percent) or 1-percentage point higher (8.20 percent) than the current rate:

			(Current			
District's Net OPEB	1%	Decrease	Disc	ount Rate	19	√ Increase	
Asset/(Liability)	(6.20%)			7.20%)	(8.20%)		
Retirement Health Insurance Account	\$	79,109	\$	97,988	\$	114,131	

The RHIA OPEB is unaffected by healthcare cost trends due to the benefit being limited to \$60 monthly payments toward Medicare companion insurance premiums.

Note 11 - Contingencies

Amounts received or receivable from grantor agencies are subject to compliance audits by grantors or their representatives. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

The District, in the regular course of business, may be named as a defendant in various lawsuits. The likely outcome of these lawsuits, if any, is not presently determinable.

Note 12 - Current Vulnerability Due to Certain Concentrations

The District's operations are concentrated within Jackson County. In addition, substantially all the District's revenues for continuing operations are from federal, state, and local government agencies. In the normal course of operations, the District receives grant funds from various federal and state agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

Note 13 - Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. Worker's compensation insurance is also provided through a commercial carrier. There has been no significant reduction in insurance coverage from the prior year and the District has not been required to pay any settlements in excess of insurance coverage during the past three fiscal years ending June 30, 2021.

Note 14 - Uncertainties

On March 13, 2020, the President of the United States declared a State of Emergency associated with the COVID-19 global pandemic. The impact of the State of Emergency and full ramifications to the economy and the District is not determinable at this time.

Note 15 - Tax Abatements

As of June 30, 2021, Jackson county provides tax abatements through four programs: Enterprise Zone, Commercial Facilities Under Construction, Food Processor, and Solar.

For the fiscal year ended June 30, 2021, the District's abated property taxes totaled \$99 under these programs.

Note 16 - Subsequent Events

Management of the District has evaluated events and transactions occurring after June 30, 2021 through the date the financial statements were available to be issued, for recognition and/or disclosure in the financial statements.

JACKSON COUNTY SCHOOL DISTRICT NO. 35 SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION ASSET/(LIABILITY) AND SCHEDULE OF THE DISTRICT'S CONTRIBUTIONS **OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)** LAST 10 FISCAL YEARS ENDING JUNE 30 (For Years Information is Available)

Notes to Schedule:

Significant Methods and Assumptions:
A summary of assumption changes implemented since the December 31, 2017 valuation are outlined briefly in Note 9 in the notes to the basic financial statements. Additional detail and a comprehensive list of changes in methods and assumptions can be found in the 2018 Experience Study for the system, which was published on July 24, 2019, and can be found at: https://www.oregon.gov/pers/Documents/Exp_Study_2018.pdf

This schedule is presented to illustrate required supplementary information for a 10 year period. The District adopted GASB 68 during fiscal 2014, as a result, only eight years of information is presented.

JACKSON COUNTY SCHOOL DISTRICT NO. 35 SCHEDULE OF CHANGE IN THE DISTRICT'S TOTAL PENSION LIABILITY LAST 10 FISCAL YEARS ENDING JUNE 30 (For Years Information Available)

Total Pension Liability (Stipend):	 2021	 2020	 2019	 2018		2017

INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Board of Directors Jackson County School District No. 35 Rogue River, Oregon

We have audited the basic financial statements of Jackson County School District No. 35 (the District) as of and for the year ended June 30, 2021, and have issued our report thereon dated December 3, 2021. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0320 of the *Minimum Standards for Audits of Oregon Municipal Corporations*, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not the objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures but were not limited to the following:

- Deposit of public funds with financial institutions under ORS Chapter 295.
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required under ORS Chapter 294.
- Insurance and fidelity under bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing under ORS Chapters 279A, 279B, 279C.
- State school fund factors and calculation.

In connection with our testing, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administration Rules 162-010-0000 through 162-010-0320 of the *Minimum Standards for Audits of Oregon Municipal Corporations*.

OAR 162-010-0230 Internal Control

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

This report is intended solely for the information and use of the Board of Directors, management of the District, and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Jackson County School District No. 35 Rogue River, Oregon

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund of Jackson County School District No. 35 (the District) as of and for the year ended June 30, 2021 and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 3, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

Board of Directors Jackson County School District No. 35 Rogue River, Oregon

Report on Compliance for Each Major Federal Program

We have audited Jackson County School District No. 35's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the District's major federal program for the year ended June 30, 2021. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the District's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weakness may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

JACKSON COUNTY SCHOOL DISTRICT NO. 35 NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS YEAR ENDED JUNE 30, 2021

NOTE A - BASIS OF PRESENTATION:

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the District under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE C - INDIRECT COST RATE:

The District has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE D - FOOD DISTRIBUTION:

Non-monetary assistance is reported in the Schedule at fair market value of the commodities received and disbursed. For the year ended June 30, 2021, the District received food commodities totaling \$26,677.

NOTE E - SUBRECIPIENTS:

The District did not have any federal awards that were passed through to subrecipients for the year ended June 30, 2021.

NOTE F - SCHOOLS AND ROADS - GRANTS TO STATES:

The District includes federal forest fees in the schedule due to requirements of the Oregon Department of Education. These expenditures are not subject to the Uniform Guidance audit due to treatment based on guidance provided by both the Oregon Department of Education and United States Department of Agriculture.

JACKSON COUNTY SCHOOL DISTRICT NO. 35 SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2021

SECTION I - SUMMARY OF AUDITOR'S RESULTS

Financial Statements

- 1. The auditor's report expresses an unmodified opinion on whether the basic financial statements of Jackson County School District No. 35 (the District) were prepared in accordance with GAAP.
- 2. No significant deficiencies or material weaknesses relating to the audit of the financial statements reported in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
- 3. No instances of noncompliance material to the basic financial statements of the District which would be required to be reported in accordance with *Government Auditing Standards* were disclosed during the audit.

Federal Awards

- 4. No significant deficiencies and no material weaknesses relating to the audit of the major federal award programs are reported in the Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance in Accordance with the Uniform Guidance.
- 5. The Independent Auditor's Report on Compliance for Each Major Program and Report on Internal Control over Compliance in Accordance with the Uniform Guidance for the major federal award programs for the District expressed an unmodified opinion.
- 6. There were no audit findings that are required to be reported in accordance with 2 CFR section 200.516(a) in this Schedule.
- 7. The program tested as a major program was:

U.S. Department of Education

Education Stabilization Fund

AL # 84.425

- 8. The threshold for distinguishing between Type A and B Programs was \$750,000.
- 9. The district qualified as a low-risk auditee under the criteria specified in the Uniform Guidance.

SECTION II – FINANCIAL STATEMENT FINDINGS

None

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None
