

**METRO RESA ELA
PRESENTS**

USING COGNITIVE SCIENCE TO ENGAGE VOCABULARY STRATEGIES THAT BUILD LITERACY COMPETENCE

Whether the focus is word study or morphology, effective vocabulary instruction is one of the five pillars of reading that is crucial for academic achievement at any grade level. This training will present the cognitive science on vocabulary instruction, going beyond memorizing definitions to developing students' ability to transfer vocabulary acquisition skills to any learning context.

Sessions will be held 9:00 AM to 3:00 PM at the Metro RESA Campus
