## CDMC Meeting Notes September 13, 2018 6:00pm Library

# Our Accountability Met Standard 2018

We received a C grade for 2017-2018, which means we met standard!
 We need to make sure we pass again this year to be in the clear.

#### PBIS- Our Guidelines to Success

 We are trying to make efforts to reverse the system by spending more time recognizing students who are doing the right thing rather than just students who are doing the wrong thing. We will be rolling out more incentives for students across the board.

#### Dress Code- Jeans

 This is an ongoing discussion that we plan to take to our new student council program. They will be the advocates for making decisions for next semester.

## • Grades and Attendance- Parent Portal

 We are working on trying to get a new system that's better and easier to access on a phone.

### Crimestoppers

 We are trying to shift the school culture so that students understand that if you know about a crime and report it that you are actually helping someone else.

#### Parent communication

 We discussed the current Home-School Compact and how we may change up the look so it's easier to read and more eye appealing.

#### Student Led Conferences

 Our goal will be that students should be able to tell you what they are learning. This process will encourage more student initiative.

#### Progress Reports

- Just went out; report cards go out soon.
- Weekly Parent Communication by email

 New newsletter; can also follow on Facebook. We are actively trying to promote the positive and make sure our families are informed.

#### CATE 2019-2020

 Currently working to have robotics, coding, and programming options next school year.

#### Start on Time! 8:00am

 Change from last year. We strongly believe in maintaining focus and having no wasted time.

### Ecampususa

New attendance software to track tardies.

### WhyLiveSchool

New PBIS software

#### Attendance

We have a high target this year that we aim to hit. Reminder to families
that they need to write an excuse note within 3 days of the absence. Also
noted that we have a new phone tree with our school system and that you
can reach Mr. Alexander directly.

### Discipline- Reduce ISS/OSS

We are also working on getting additional mentor programs.

## Being Seen and Building Relationships

 Mr. Alexander reiterated the belief that "No significant learning takes place unless there is a significant relationship."

#### Homeroom

 At the end of the day this year. Is used to promote our schoolwide AVID program, Social and Emotional Learning (SEL) skills, and allow for "family groups" that have more intentional relationships and accountability.

### Student Organizations

 We are working to link students' passions and interests with potential at the school.

## Service Learning Projects

- This is largely connected with our Afterschool Program this year, although there are opportunities to link with instruction during the day as well. The Afterschool Program starts this Monday, 9/17, Monday-Thursdays 4-5:30. Parents must first complete a waiver form for each student and the students need to be picked up because we currently do not have transportation.
- Spanish Heritage Month September 15-October 15
  - Our big celebration will be on 10/25. We are proud to celebrate the culture of our school.
- Closing Advice for Parents
  - Emphasis having a strong work ethic with your students and read with your students. These two things are always "homework" for our students.
  - Mr. Alexander emphasized that this is our families' school, not his, all of us staff work for the families.
