Please note:

- Parents are required to order these books directly from a supplier of their choice. The Graded High School no longer has an exclusive relationship with any single book supplier, but here are some suggestions on where to find the required books:
 - www.amazon.com
 - www.amazon.com.br
 - www.thebookdepository.com
 - www.thebookdepository.co.uk
 - www.sbs.com.br
 - www3.livrariacultura.com.br/livros
 - www.saraiva.com.br/livros
 - www.leitura.com.br
 - www.mercadolivre.com.br
- The Graded English Department requires all students to purchase physical, paper copies of the materials listed for purchase. This facilitates better reading and annotation. For ease of ordering, these texts are listed with the title, author, and accurate ISBN number for the appropriate classroom version. Ordering the edition

with the same ISBN number is **strongly suggested** so that there is no confusion about pagination, reading assignments, and citations. However, if the choice is between having a different copy or having no book at all, then a different copy is acceptable.

Supplies

For Math classes: Graphing calculator - Either from the [Ti-84 CE Family](#) of calculators OR the [Numworks graphing calculator](#). These are the calculators recommended for 8th-grade and high school math
