

## *Season's greetings to you and yours!*

### **Holiday Concerts Were A Great Success**

The Choir and Band Concerts were fantastic shows of our broadly talented students and staff. The Band concert is getting too large even for the Old Gym in the High School, with 150 students involved in Band and hundreds and hundreds of community members in attendance. It's amazing how talented our students are. The Elementary Concert was attended to capacity as well, both at the afternoon and evening show. If you'd like to see the concert you can log into our website, [www.aubschools.com](http://www.aubschools.com), and scroll down a bit to the Videos section. There's a great video of our band and choir there too from a short time ago, and the holiday show will be added soon.

### **Website Updates Coming in January**

The time has come for us to update our website platform. We hope to have an updated website in place for the second semester, which will be more user friendly, and easily accessible on your cell phone. Work will begin soon, possibly over the break to get everything ready. Let us know if you have any questions once the new site is in place.

### **District Office Hours Over Break**

Just a reminder that the District Office will be closed for the holidays but will also be rather inaccessible even during the open days next week due to some final touches on the building project. Power, Internet, and heat will be off and on over the next week which will be a great interruption to accessibility. If you need anything next week Monday the 27th through the 29th, please email [districtoffice@aubschools.com](mailto:districtoffice@aubschools.com) to set up an appointment time.

### **Weight Room Now Open on School Days**

As promised in the last District Updates, the weight room is now open to community use for adults 18 and up on school days from 5:30-7:30pm. Contact Mrs. Kelly Breu at the Middle/High School office to sign up for a job!

### **We are Entering the Final Stretch on our Building Renewal and Additions**

As you can see from the pictures of the Little Theatre and a station in the

FACE room, things are getting wrapped up in several areas of the building, right down to the cooking equipment. We are eager to see the Woods and Autos addition get it's external wrapper (hopefully over the break) and the interiors getting their final touches. There has been a bit of a hold up on the insulation that goes between the roof and ceiling of the steel building, but a solution was worked out and we have been told that the insulation will arrive in early January. Once that is here, the finishing work should go rather quickly. With all the upheaval in the construction world, we've been relatively lucky so far, hoping to finish strong in this final stretch and be ready to go by early February.

Sincerely,  
Mr. Jamie Delikowski  
District Administrator  
School District of Auburndale
