

For Immediate Release...

**There Will be No School on Friday, November 6th, 2020**

Good Morning District Families,

The Board has approved a calendar change for the current school year, which means there will be NO SCHOOL on Friday, November 6th, 2020. The district is making every effort to make sure that students and staff are as safe as possible during this pandemic, and making sure that students and staff have a chance to catch their breath and to meet the new demands of our current situation. In an effort to ensure that the calendar allows for this, we wanted to give the students and staff a time to catch up during what would have otherwise been over a month without even a short pause.

At this time we have used the May 10th inclement weather day to take the place of this school day, but as we continue through the demands of this pandemic we may make other minor adjustments along the way to continue the promotion of our student, staff and community health and well-being. As always we will keep you well informed as soon as we are able.

Have a great weekend and enjoy the taste of Winter!

Yours - Mr. D

School District of Auburndale
