

- 3) Read every day! 15 to 20 minutes of reading is a wonderful way to develop the reading habit.
- 4) Write a letter to your teacher!
- 5) Math work 30-45 minutes per week.

Reading Passport:

Check out the reading passport and dive into amazing stories, non-fiction, audiobooks, or short stories! Make sure to record them on your sheet; if you're looking for recommendations, the teachers have provided suggestions in the reading passport.

We want children to be in the habit of reading, be able to glean knowledge from text, and find pleasure in stories.

Writing:

Letter writing is a great skill, and it also gives the student an opportunity to tell their new teacher something about themselves. Ideas for your letter:

- | | | |
|---|-------------------------|---|
| ★ Hobbies | ★ Favorite book or show | ★ Summer plans |
| ★ Something you would like them to know about you | ★ Family | ★ What you are excited about for school |

Math:

Primary mathematics is all about building a strong foundation of number sense. It is suggested that students spend 30-45 minutes per week engaging in math work. We are providing a skill book, but many options exist beyond this. Alternatives include:
