1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

The utilization of Prop 28 funding is directly connected to the goals in our School Plan for Student Achievement and our LEA/LCAP/SPSA goals. Research shows that students learn differently, and that the addition of arts education can enhance and improve students' overall educational achievement. We anticipate that the addition of arts education will be an excellent way to support the social-emotional and academic needs of students by providing students with alternate ways of access learning and gaining confidence in their school abilities and success. Below are the many ways our schools are using the Prop 28 funds to enhance the arts education to students and families: Additional music teacher staffing - alternative form of intervention based in music Added Art Technician staffing - student art creations to allow students to express themselves Evening family art shows and plays and music/ choir performance to foster stronger relationships between school staff, students and parents Art, Choir and Band supplies to enhances school music, drama and art programs Additional Band, Drama, Stage, Costume Design, Color Guard, Music Through Movement staffing Additional Digital Media classes in secondary schools
