

FACILITIES DEVELOPMENT GOALS

In meeting its goals of high quality education and fiscal responsibility, the Board of Education will strive to develop district facilities in a manner to meet the educational needs of its students.

Accordingly, the Board establishes the following board goals for facilities development:

1. Integrate facilities planning with other aspects of district planning in a comprehensive program designed to support the Board's educational philosophy and instructional goals.
2. Address state learning standards and student educational needs in developing educational specifications for school buildings.
3. Design facilities for sufficient flexibility to permit program modification or the introduction of new programs.
4. Involve the community, district staff and experts in facilities development.
5. Design economically feasible facilities that meet student educational needs.
6. Seek possible mechanisms for financing school facilities.
7. Recommend provisions to provide adequate school space to accommodate future improvements in educational programs and services.
8. Consider the adaptability of school facilities for community use.

The Superintendent of Schools shall be responsible for establishing procedures to implement these goals and shall provide a status report to the board on an annual basis.
