

## DETENTION

The Board of Education believes that detention is an effective method of discipline for students without disrupting the student's instructional program. Students may be assigned detention by teachers and/or administrators. Parents will receive notification from the child's school regarding any detention. Transportation will be made available for students who are assigned a detention and who will need a ride home. The teacher/administrator supervising the detention period will be responsible for dismissing the student in time for such transportation.
