

Facilitator Guide for Principal's Academy

Please use the action planning template in your folder or download and electronic copy from the website for your planning purposes.

Questions to consider:

- What have we learned?
- What does this mean for us?
- How might this affect our work?
- What more do we need to know or explore further?
- What are some current challenges we are facing?
- What do we need to start, stop, or continue doing?
- How does this fit within our priorities as a district?
- What is relatively easy to do or low hanging fruit?
- What skills or resources are missing and how will we acquire those? What supports or follow up do we need?
- What are next steps? Who will do what? By when?
- How will we measure success?
