Grove City Area School District Mission Statement

Our mission is to equip all our students for successful futures. We've designed our programs so that students can attain the knowledge and skills that are necessary for them to pursue their dreams. After receiving a rigorous core program that focuses on reading, mathematics, writing, science and technology in the elementary and middle schools, our high school freshman study about career education and work. Through this in-depth study, students begin to crystallize their dreams for their futures and to select the courses they will need to turn their dreams into reality. Our primary goal is to help students find and unite their talents and passions so they can lead a purposeful and meaningful life.

PA Law Requires Pledge or National Anthem

A Pennsylvania law requiring the recitation of the Pledge of Allegiance or the singing of the national anthem in public and private schools each day is in effect. The law also requires that the American flag be displayed in classrooms. Students in public or private schools may decline to recite the pledge or salute the flag, though school administrators will have to notify their parents. Private and religious schools may be exempt from the law for religious reasons.

The term may include an educational assignment in an alternative education program, provided the program does not include a program for disruptive youth established pursuant to Article XIX-C of the Pennsylvania Public School Code.[9]

Delegation of Responsibility

The Superintendent or designee shall annually notify students, persons in parental relation, staff and magisterial district judges about the district's attendance policy by publishing such policy in student handbooks and newsletters, on the district website and through other efficient communication methods.[1][11]

The Superintendent or designee, in coordination with the administrator(s) shall be responsible for the implementation and enforcement of this policy.

School Attendance Improvement Conference (SAIC) –

District staff shall notify the person in parental relation in writing and by telephone of the date and time of the SAIC.[33]

The purpose of the SAIC is to examine the student's absences and reasons for the absences in an effort to improve attendance with or without additional services.[9]

The following individuals shall be invited to the SAIC:[9]

1. The student.
2. The student's person in parental relation.
3. Other individuals identified by the person in parental relation who may be a resource.
4. Appropriate school personnel.
5. Recommended service providers.

Neither the student nor the person in parental relation shall be required to participate, and the SAIC shall occur even if the person in parental relation declines to participate or fails to attend the scheduled conference.[33]

The outcome of the SAIC shall be documented in a written School Attendance Improvement Plan. The Plan shall be retained in the student's file. A copy of the Plan shall be provided to the person in parental relation, the student and appropriate district staff.[33]

The district may not take further legal action to address unexcused absences until the scheduled SAIC has been held and the student has incurred six (6) or more days of unexcused absences.[33]

Student is Habitually Truant –

When a student under fifteen (15) years of age is habitually truant, district staff:[34]

1. Shall refer the student to:
 - a. A school-based or community-based attendance improvement program; or
 - b. The local children and youth agency.
2. May file a citation in the office of the appropriate magisterial district judge against the person in parental relation who resides in the same household as the student.[34]

2. File a citation in the office of the appropriate magisterial district judge against the student or the person in parental relation who resides in the same household as the student.

Regardless of age, when district staff refer a habitually truant student to the local children and youth agency or file a citation with the appropriate magisterial district judge, district staff shall provide verification that the school held a SAIC.[34]

Filing a Citation –

A citation shall be filed in the office of the appropriate magisterial district judge whose jurisdiction includes the school in which the student is or should be enrolled, against the student or person in parental relation to the student.[35]

Additional citations for subsequent violations of the compulsory school attendance requirements may only be filed against a student or person in parental relation in accordance with the specific provisions of the law.[35]

Special Needs and Accommodations

If a truant or habitually truant student may qualify as a student with a disability, and require special education services or accommodations, the Director of Special Education shall be notified and shall take action to address the student's needs in accordance with applicable law, regulations and Board policy.[16][36][37][38]

For students with disabilities who are truant or habitually truant, the appropriate team shall be notified and shall address the student's needs in accordance with applicable law, regulations and Board policy.[16][36][38]

Discipline

The district shall not expel or impose out-of-school suspension, disciplinary reassignment or transfer for truant behavior.[33]

ATTENDANCE REGULATIONS AND PROCEDURES

Absence from School

All absences will initially be recorded as an unexcused unlawful absence until a parent note or doctor's excuse is provided. Once the excuse has been submitted, the absence will be recorded as an excused absence. All unexcused absences are also unlawful or illegal absences for students under age 18.

Regular attendance at school by each student is a specific requirement of the School Laws of Pennsylvania. The following attendance regulations are followed at Grove City High School.

- A. The school day is from 8:04 a.m. to 3:00 p.m. Parents will be notified of absences by a computerized call service. Calls are made at 10:00 a.m. on the day of the absence.
- B. A student who is absent from school must bring a written statement from his/her parents stating the exact reason for the absence and the exact dates of the absence. This statement must be presented to the office on the morning following the absence. The written excuse may also be submitted electronically via ParentSquare or email to Mrs. Annette Eccles at the high school.
- C. Students who fail to submit a written parental excuse within four (4) school days following an absence will be charged with an unlawful absence.
- D. When a student is absent for more than three consecutive days of school, the student or parent should contact the Guidance Office to obtain assignments and class work. Students are responsible to make up missed work. (Refer to the section on make-up work.)
- E. A cumulative record of student attendance is maintained on a fractional-day basis. Attendance is recorded as 0.2, 0.25, 0.5, 0.75 or full day. This will include students who attend school, leave for a portion of the day and return to school.

Excused Absences

- A. Medical excuses: All doctor's excuses for whatever reason should be submitted on doctor's script or letterhead and include the doctor's office phone number.
- B. Parental excuses for personal illness, quarantine, or other exceptional or urgent reasons up to a total of ten (10) days absent per school year will be accepted. Parents may not excuse absences beyond ten (10) days. More than ten (10) days absent in any class for any reason will be considered unlawful, unless verified by a doctor's excuse.
- C. Notification letters are sent home as a courtesy after the sixth (6th) excused absence.
- D. Notification of the need for a doctor's excuse is sent home as a courtesy after the ninth (9th) excused absence.

Other Approved Absences

- A. Absence for Urgent Reasons: When it is necessary for a student to be absent from school due to a trip, absences must be approved in advance. Requests should be made in writing. Requests for Legal Absence forms may be obtained from the high school website and returned to the high school office. Students are permitted to make up work in accordance with this policy.
- B. College visitation, educational travel, school-related field trips, and athletic competitions must be pre-approved by the Administration. Request for Legal Absence forms are necessary for educational travel and college visits and are available on the high school website. A request for an educational travel or a college visit is subject to the following conditions:
 1. Parent/Guardian must submit a Request for Legal Absence form to indicate the days of absence; destination of the trip; adult supervision; and educational value of the trip.
 - a. Forms must be signed by all of the student's teachers so that academic concerns can be noted and addressed.
 - b. Work assigned for completion during the trip is due the day the student returns to school.
 2. No more than five (5) school days each school year per student will be approved for an educational trip.
 3. If a student is seeking approval for more than five (5) school days per year, the parent/guardian must contact the Assistant High School Principal, Dr. Jennifer Nemet.
 4. A student's academic and attendance standing will be reviewed when determining approval for the trip by either the principal or assistant principal.
 - a. Educational travel days are included in the ten (10) parent excused absences and/or with the ten (10) doctor's excused absences.
 1. College visits are limited to two (2) per year for juniors and four (4) per year for seniors and are not included in the ten (10) Parent Excused Absences.
 - b. Consideration for educational travel beyond ten (10) absences can be reviewed on a case-by-case basis. To have absences approved beyond ten (10) days, a parent or guardian must contact Dr. Jennifer Nemet, Assistant High School Principal.
 - c. Educational travel and college visitations will not be approved if scheduled during Keystone and/or AP testing or final exams. If the school calendar changes for unforeseen reasons each request will be reviewed on an individual basis.
- C. Funeral (family member).
- D. Religious observance.

Penalty for Noncompliance

An unlawful absence will result in receiving zero credit for any work given on the day of the unlawful absence. This includes, but is not limited to tests, quizzes, graded class work, etc.

- A. It is expected that students will make up all missed work immediately following their absence(s) from school. If a student missed one day, the student has one day to make up the work, if a student missed two days, the student has two days to make up the work, etc. (See Other Approved Absences above concerning Educational Travel and College Visitations.) Students should seek missed assignments from their teachers during lunch and learn upon their return to school. All work will be collected within the appropriate time frame and will be graded. Being absent for any reason the day before a previously announced exam or assignment due date does not excuse a student from taking the exam or completing and turning in the assignment on the due date.
- B. Three (3) unlawful absences will result in a first violation of the compulsory school attendance law. Letters will be sent home after each of the first three unlawful absences explaining the student's attendance status.
- C. After four (4) unlawful absences and prior to filing charges with the magistrate, the assistant principal, nurse and/or counselor will discuss the student's attendance record and conduct a TEP (Truancy Elimination Plan).
- D. Six (6) or more unlawful absences will result in a referral to the District Magistrate's Office.

- E. The Administration will look at each case on an individual basis. Please call with individual concerns. It is the student's responsibility to see each of his/her teachers about making up any work he/she may have missed during an absence. Since it will not always be possible for a student to make up this instruction time or schoolwork, the number of days a student spends out of school must be kept to a minimum and should be limited to the reasons stated in the School Code as "excused absences."
- F. The Administration may also issue an attendance contract for students with excessive absences.

Online Academy Attendance

Student attendance in Grove City Online Academy courses will be monitored by the Assistant Principal, guidance counselors and teacher(s) using an Internet-based system. To be considered in attendance during the school year, a student enrolled in the GCHS Online Academy must actively participate in online instruction not less than two and one-half (2.5) hours per week per course. Further information about the requirements for the GCHS Online Academy and attendance can be found in the Online Academy Handbook.

Students enrolled full-time in the GCHS Online Academy program must be actively engaged in their online courses a minimum of two and one-half (2.5) hours to qualify for participation in extracurricular activities or practices on that day. Weekly attendance will be processed at the conclusion of the final school day of the week.

Tardy to School

- A. A student will be considered tardy if he/she is not in first period when the bell rings at 8:04 a.m. Students must present a parental note with date and time in the main office when entering school tardy. If coming from a medical appointment, the student should bring a dated medical excuse on the doctor's script or letterhead with the doctor's phone number or a parent note. The first three (3) tardies per semester, if accompanied by a parent note, will be considered excused. Thereafter, each tardy will be considered "unlawful" unless a medical excuse is provided.
 - 1. Tardiness is considered an illegal absence in accordance with the following:
 - a. Before 9:30 a.m. – 0.2-day unlawful absence
 - b. After 9:30 a.m. but before 11:30 a.m. - 0.5-day unlawful absence
 - c. After 11:30 a.m. – 0.75-day unlawful absence
- B. Without a parental note or medical excuse (limited to three (3) per semester), unlawful tardies to school will be dealt with by the following:
 - 1. 4th unlawful tardy: 1-hour lunch detention
 - 2. 5th unlawful tardy: two 1-hour lunch detentions
 - 3. 6th unlawful tardy: two 1-hour lunch detentions and revocation of extracurricular privileges
 - a. STUDENTS HAVE TO SERVE LUNCH DETENTIONS ON THE ASSIGNED DAY. Failure to serve the detention will result in some form of progressive discipline and could include an attendance contract.
 - b. The Administration, upon appeal from the student and for good cause (medical condition) shown, may forgive the lunch detention.
 - 4. 7th unlawful late: student will be placed on an attendance contract. An attendance contract will result in the loss of the following privileges: prohibited from attending or participating in all school sponsored activities, loss of driving privileges for a minimum ten (10) days, and any other restrictions determined by the Administration.
- C. Because emergencies and the unexpected happen, the attendance secretary will accept three (3) parental excuses for tardiness to school per semester. It is expected that such emergencies will be the exception, not the rule, so after three (3) parent excused tardy episodes per semester, all other tardiness will be considered unlawful without a medical excuse.
- D. When late to school, regardless of the time of day, students must secure an admittance slip from the high school office and this must be presented to the teacher for admittance to class.

Tardy to Class

- A. School halls are to be clear and all students are to be in their rooms before 8:04 a.m. Any student who is not, will be recorded as absent by the high school office. Any student who is tardy three times to class (periods 2, 4-7 and Enrichment) is assigned a lunch detention by the teacher.

Cutting Class

Illness is the only acceptable excuse for not reporting to class and/or a scheduled activity. If a student becomes ill, he/she must report to the school nurse immediately. Spending the class period in the rest room is not acceptable. Leaving class without a pass or permission is considered a class cut. Irregular attendance will hamper normal class progress; therefore, the penalties for the violation will be severe and are as follows:

1. Class cuts - No credit will be given for any work or exams missed. The teacher will send a referral form to the Administration.
2. Discipline according to the code of conduct will be assigned by the Administration.
3. Subsequent cuts of the same class or excessive cuts will result in additional discipline: revocation of extracurricular privileges, and/or being assigned to remote learning.

Early Dismissal

- A. Students are not permitted to leave the school building without first receiving permission from the school nurse or administration, regardless of the reason. Any student who violates the rule will be considered “unlawful” from all classes missed. Requests for early dismissals must be submitted to the office before 8:00 am.
- B. Early dismissal request must contain the following information:
 1. Full name of student and home phone number
 2. Date of early dismissal
 3. Precise time of early dismissal
 4. Reason for early dismissal
 5. Signature of parent or guardianFailure to provide the above information will result in a denial of the request.
- C. Students should request doctors and dentists to make appointments after school hours, except in case of emergency. Students must present a note on doctor’s script or letterhead including the office phone number of the doctor or dentist upon their return to school in order for the absence to be recorded as a medical excuse.
- D. In compliance with the Pennsylvania School Laws, early dismissals for purposes of any type of employment will not be considered unless it pertains to an approved independent learning plan.
- E. All students being dismissed early must sign out and exit the building by the main office.

BEHAVIOR EXPECTATIONS

Conduct

A climate for learning must be maintained throughout the school. Students who threaten this climate with inappropriate behavior will be dealt with promptly, consistently, and fairly. Penalties may vary with the frequency and seriousness of the infraction. (Refer to the Code of Conduct.) All rules of conduct apply to any school-sponsored event including those that are held off of school property.

Anti-Violence Policy

It is the policy of the Grove City Area School District to maintain an environment free from threat and/or violence. Threatening and/or violent behavior is hereby prohibited in the learning environment, at all school sponsored activities, on transportation to and from school and school sponsored events, on the way to and from

school and on school property. Any student in this district who engages in conduct which constitutes violence as defined in this policy will be subject to discipline up to expulsion and/or legal action.

The following behavior constitutes violent behavior: assault, battery and fighting, terroristic threats and physical and verbal intimidation, the use, possession, display or transferal of weapons and vandalism. Weapons are defined as any firearm, explosive, knife, dangerous instrument, or any instrument represented as such.

Consequences of violation of the policy: The appropriate disciplinary sanctions shall be determined by the building principal. Building procedures will be based on the following: federal and state laws, severity of misconduct, age level, effect on the victim or victims, persistence of the misconduct and the intent of the perpetrator.

Authority of Teachers

Teachers are considered to have the same authority over students in school that parents have in the home. In case of a difference of opinion, students should not make matters worse by a show of belligerence. Situations can usually be corrected if the problem has not been aggravated by hasty words usually spoken in anger. A good attitude is the best insurance against misunderstanding, maladjustment, and wasted opportunities. Students are encouraged to discuss differences after class with the teacher, counselors, and principals.

Fighting

All students have a right to attend school in a safe environment without being threatened. Student behaviors exhibited that specifically intend to physically do harm to another student are considered to be fighting. When a student feels threatened, or feels that a fight may occur, he/she should immediately seek help from a staff member. An assault should not be confused with fighting. In an assault, a person or people initiate a direct physical attack upon another. If a student attempts to defend himself/herself upon being assaulted and does not retaliate with physical aggression, he/she will not receive disciplinary action. However, if both parties react/respond or act in a physically aggressive manner, both students will receive appropriate disciplinary action, regardless of who initiated the contact. All fights are reported to the police for investigation. Furthermore, students must realize that criminal charges for assault may be initiated by the victim's parent/guardian.

Fighting is considered a major safety infraction. Students involved in fighting will be assigned to remote learning until the end of the quarter or as determined by the administration and the police will be notified. The local District Magistrate will then determine possible fines and/or further legal action, guilt or innocence. (See Disorderly Conduct, PA Crimes Code Sec. 5503 and Aggravated Assault, Act 167.) The school differentiates among harassment, assault and fighting. Assault and fighting begin with physical action. The person who makes initial physical action will be determined to be the cause of the fight (or assault). Verbal harassment will not be considered as an appropriate cause for physical action. Harassment should be brought to the attention of a counselor and/or the assistant high school principal to permit follow-up action. Any type of racist remarks would be considered harassment. Harassment may result in detention or suspension.

Hall Behavior

Students are not permitted food, snacks, pop cans, and bottles of drinks, etc. in the halls during the school day except in designated areas during Lunch and Learn. Any such food and drink items will be confiscated and dealt with as trash. Public displays of affection during the regular school day and/or any school sponsored activity (including transportation) are inappropriate for the school setting and are prohibited.

Obscene Language

Teachers and fellow students have the right to expect the use of appropriate language at all times. Teachers may make referrals to the office for any situations involving language they consider to be inappropriate. Detention may be assigned by the teacher or the principal. The principal may also assign discipline according to the code of student conduct.

Off-Campus School-Sponsored Activities

This policy shall also apply to student conduct that occurs off school property and would otherwise violate the Code of Student Conduct if any of the following circumstances exist:

1. The conduct occurs during the time the student is traveling to and from school or traveling to and from school-sponsored activities, whether or not via school district furnished transportation.
2. The student is a member of an extracurricular activity and has been notified that particular off-campus conduct could result in exclusion from such activities.
3. Student expression or conduct materially and substantially disrupts the operations of the school, or the administration reasonably anticipates that the expression or conduct is likely to materially and substantially disrupt the operations of the school.
4. The conduct has a direct nexus to attendance at school or a school-sponsored activity, for example, a transaction conducted outside of school pursuant to an agreement made in school that would violate the Code of Student Conduct if conducted in school.
5. The conduct involves the theft or vandalism of school property.

There is otherwise a nexus between the proximity or timing of the conduct in relation to the student's attendance at school or school-sponsored activities.

Pep Banners, Posters, Etc.

Pep banners, posters, etc. may be posted upon completion of arrangements with the principal's office. The cafeteria bulletin board has been designated for this purpose.

Removal from Classroom

Students who are requested to leave the classroom for disciplinary reasons are to report to the office immediately. Students will remain in the office until the end of the period. At the conclusion of the period students will report to their next scheduled class. While in the office, students are to remain quiet and not access their phones.

BUILDING EVACUATION AND USAGE

Evacuation

- A. Familiarize yourself with the building floor plan, emergency exits and the evacuation route that is posted in each room. Students are to assume the responsibility for learning the evacuation routes for the rooms they frequent most often. Evacuation plans vary depending on the nature of the emergency.
- B. When the alarm sounds, close the doors and windows as you exit.
- C. The teacher will direct the students to the exits.
- D. All rooms will exit in a quiet, orderly fashion and are to follow the route listed on the evacuation plan.
- E. Students are to move as quickly as possible without running toward the assigned exit.
- F. All students should continue to move away from the building to allow room for emergency traffic.
- G. Under no circumstances are students to return to the building. (In a drill, an administrator will direct the students to return to the building.)
- H. Should the alarm sound during a change in class, students should proceed to the nearest exit. Be alert - if blocked utilize another exit. Teachers will report to the student parking lot. Each student is to report to his/her first period teacher (all students must be accounted for by law).

Use of the Building

All students are required to leave the school building upon completion of the school day unless involved in a scheduled activity. Students are not permitted to stay over an extended period of time waiting for an activity to

begin. Those students in the building for scheduled activities, including meetings with individual teachers and counselors, are required to obey all building and school rules and are required to behave in an appropriate manner. Students should plan to be in attendance for activities no earlier than 15 minutes before and/or after the scheduled activity. The school building is open from 7:35 a.m. to 3:00 p.m. for regular school activities. Students should plan their arrival and departure accordingly.

Use of Exits (Students)

Students entering the building are required to enter through the main entrance (near the cafeteria) or the activity entrance (near the auditorium and gymnasiums). All other exits are emergency/fire exits. Students entering or leaving the building during the school day are required to use the main entrance and to register in the attendance office. Students leaving the building without permission will be considered as having an unlawful absence and will result in a denial of privileges/extracurriculars for a minimum of 3 days as well as be subject to other discipline as outlined in the code of conduct. Students using emergency exits will be disciplined according to the code of conduct.

Insufficient Funds/School Meals Charge Policy

Grove City Area School District strongly recommends that if your child is going to purchase school meals that you monitor the meal account to keep a positive balance.

It is understood that students may forget, lose, and misuse their money for school meals. For this reason, a complete meal will be provided to all students regardless if they have any money on their student meal account or not, but the meal will be charged to their account and the account must be paid off in a timely manner. Complete meals will never be denied to a student and students will not receive an alternative entrée for their meal however, students will not be permitted to purchase ala carte items with money from their account or with cash when they have a negative balance in their account. Parent/Guardian/Students will continue to be responsible for the money owed for these charges. For more information, please review our updated GCASD Board Policy 808 and the attached documents 2 and 3.

<http://www.boarddocs.com/pa/grov/Board.nsf/goto?open&id=AU7LRJ57D245>

Our cashiers will not communicate any negative account balances to the students.

After a student's account equals or exceeds the value of five (5) or more school food program meals, the Parent/Guardian will receive two notifications of the negative balance. Notices will be sent by mail or e-mail of the negative balance. Accounts not settled within ten days of the first notice will be sent a second notice. If no payment has been received after the ten days of the second notice Parents/Guardians will be notified of the district's right to seek further legal action or sending the balance to a collection agency. Parents/Guardians are responsible for all money owed on the account.

CHEATING AND PLAGIARISM

Cheating and plagiarism in any form involving curricular and extra-curricular activities are strictly prohibited. Giving or receiving information during an examination, disclosing examination items to other students, providing completed assignments (or parts of assignments) for other students and/or doing assignment for other students are considered cheating. A teacher will assign a "0" for any of the above situations. Copying the work or using the ideas of others without giving reference to the source is considered plagiarism. Any student guilty of plagiarism will be given the opportunity to resubmit the assignment and will receive 50% of the value earned. If the assignment is not successfully resubmitted, the student will receive a "0" for the nine weeks. The school counselor and the principal will be notified in all cases of cheating. Parents will then be informed by the teacher.

Plagiarism: What It Is and How to Recognize and Avoid It

What is plagiarism and why is it important to understand it?

We are continually engaged with other people's ideas: we read them in texts, hear them in lecture, discuss them in class, and incorporate them into our own writing. As a result, it is very important that we give credit

where it is due. Plagiarism is using others' ideas and words without clearly acknowledging the source of that information. How can students avoid plagiarism?

To avoid plagiarism, you must give credit whenever you use:

1. another person's idea, opinion, or theory;
2. any facts, statistics, graphs, drawings—any pieces of information—that are not common knowledge;
3. quotations of another person's actual spoken or written words; or
4. a paraphrase of another person's spoken or written words.

How to recognize unacceptable and acceptable paraphrases:

Here's the ORIGINAL text, from page 1 of Lizzie Borden:

A Case Book of Family Crime in the 1890's by Joyce Williams et al.: The rise of industry, the growth of cities, and the expansion of the population were the three great developments of late nineteenth century American history. As new, larger, steam powered factories became a feature of the American landscape in the East, they transformed farm hands into industrial laborers, and provided jobs for a rising tide of immigrants. With industry came urbanization the growth of large cities (like Fall River, Massachusetts, where the Borden's lived) which became the centers of production as well as commerce and trade.

Here's an UNACCEPTABLE paraphrase that is plagiarism:

The increase of industry, the growth of cities, and the explosion of the population were three large factors on nineteenth century America. As steam-driven companies became more visible in the eastern part of the country, they changed farm hands into factory workers and provided jobs for the large wave of immigrants. With industry came the growth of large cities like Fall River where the Borden's lived which turned into centers of commerce and trade as well as production.

What makes this passage plagiarism?

The preceding passage is considered plagiarism for two reasons:

1. The writer has only changed around a few words and phrases or changed the order of the original's sentences.
2. The writer has failed to cite a source for any of the ideas or facts. If you do either or both of these things, you are plagiarizing.

Here's an ACCEPTABLE paraphrase:

Fall River, where the Borden family lives, was typical of northeastern industrial cities of the nineteenth century. Steam-powered production had shifted labor from agriculture to manufacturing, and as immigrants arrived in the US, they found work in these new factories. As a result, populations grew, and large urban areas arose. Fall River was one of these manufacturing and commercial centers. (Williams 1).

Why is this passage acceptable?

This is acceptable paraphrasing because the writer:

1. Accurately relays the information in the original by using her own words.
2. Lets her reader know the source of her information.

STUDENT DISCIPLINE POLICY

Board Policy 218 - Last Revised January 20, 2014

Purpose

The Board finds that student conduct is closely related to learning. An effective educational program requires a safe and orderly school environment.

Authority

The Board shall establish fair, reasonable and nondiscriminatory rules and regulations regarding the conduct of all students in the school district during the time they are under the supervision of the school or at any time while on school property, while present at school-sponsored activities, and while traveling to or from school and school-sponsored activities.[1][2][3][4][5]

The Board shall adopt a Code of Student Conduct to govern student discipline, and students shall not be subject to disciplinary action because of race, sex, color, religion, sexual orientation, national origin or handicap/disability. Each student must adhere to Board policies and the Code of Student Conduct governing student discipline.[6][2][3][4][5][7]

The Board prohibits the use of corporal punishment by district staff to discipline students for violations of Board policies and district rules and regulations.[8]

Any student disciplined by a district employee shall have the right to notice of the infraction.[9]

Suspensions and expulsions shall be carried out in accordance with Board policy.[9]

In the case of a student with a disability, including a student for whom an evaluation is pending, the district shall take all steps required to comply with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.[10][11][5][12][13][14]

Off-Campus School-Sponsored Activities

This policy shall also apply to student conduct that occurs off school property and would otherwise violate the Code of Student Conduct if any of the following circumstances exist:

1. The conduct occurs during the time the student is traveling to and from school or traveling to and from school-sponsored activities, whether or not via school district furnished transportation.
2. The student is a member of an extracurricular activity and has been notified that particular off-campus conduct could result in exclusion from such activities.[15][16]
3. Student expression or conduct materially and substantially disrupts the operations of the school, or the administration reasonably anticipates that the expression or conduct is likely to materially and substantially disrupt the operations of the school.
4. The conduct has a direct nexus to attendance at school or a school-sponsored activity, for example, a transaction conducted outside of school pursuant to an agreement made in school, that would violate the Code of Student Conduct if conducted in school.
5. The conduct involves the theft or vandalism of school property.
6. There is otherwise a nexus between the proximity or timing of the conduct in relation to the student's attendance at school or school-sponsored activities.

Delegation of Responsibility

The Superintendent or designee shall ensure that reasonable and necessary rules and regulations are developed to implement Board policy governing student conduct.

The Superintendent or designee shall publish and distribute to all staff, students and parents/guardians the rules and regulations for student behavior contained in the Code of Student Conduct, the sanctions that may be imposed for violations of those rules, and a listing of students' rights and responsibilities. A copy of the Code of Student Conduct shall be available in each school library and school office and may be printed in the student handbooks.[2][7]

The building principal shall have the authority to assign discipline to students, subject to the policies, rules and regulations of the district and to the student's due process right to notice, hearing, and appeal.[17][18]

Teaching staff and other district employees responsible for students shall have the authority to take reasonable actions necessary to control the conduct of students in all situations and in all places where students are within the jurisdiction of this Board, and when such conduct interferes with the educational program of the schools or threatens the health and safety of others.[17]

Reasonable force may be used by teachers and school authorities under any of the following circumstances: to quell a disturbance, obtain possession of weapons or other dangerous objects, for the purpose of self-defense, and for the protection of persons or property.[8]

Referral to Law Enforcement and Reporting Requirements

For reporting purposes, the term **incident** shall mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco; or conduct that constitutes an offense listed under the Safe Schools Act.^{[30][20][21]}

The Superintendent or designee shall immediately report required incidents and may report discretionary incidents committed by students on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity to the local police department that has jurisdiction over the school's property, in accordance with state law and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.^{[22][30][20][24][25][14]}

The Superintendent or designee shall notify the parent/guardian of any student directly involved in an incident as a victim or suspect immediately, as soon as practicable. The Superintendent or designee shall inform the parent/guardian whether or not the local police department that has jurisdiction over the school property has been or may be notified of the incident. The Superintendent or designee shall document attempts made to reach the parent/guardian.^{[20][26][14]}

In accordance with state law, the Superintendent shall annually, by July 31, report all new incidents to the Office for Safe Schools on the required form.^{[30][27][28][31][32][14]}

The Superintendent shall report to the Board the methods of discipline imposed by administrators and incidences of student misconduct, in the degree of specificity required by the Board.

SUSPENSION AND EXPULSION

Board Policy 233 - Last Revised March 9, 2020

Purpose

The Board recognizes that exclusion from the educational program of the schools, whether by suspension or expulsion, is the most severe sanction that can be imposed on a student and one that cannot be imposed without due process. The Board shall define and publish the types of offenses that would lead to exclusion from school. Exclusions affecting students with disabilities shall be governed by applicable state and federal law and regulations.^{[1][2][3][4][5]}

Authority

The Board may, after a proper hearing, suspend or expel a student for such time as it deems necessary, or may permanently expel a student.^{[1][6][7]}

Guidelines

Exclusion From School - Suspension

The principal or person in charge of the school may suspend any student for disobedience or misconduct for a

period of one (1) to ten (10) consecutive school days and shall immediately notify the parent/guardian and the Superintendent in writing when the student is suspended.[1][7]

No student may be suspended without notice of the reasons for which s/he is suspended and an opportunity to be heard on his/her own behalf before the school official who holds the authority to reinstate the student. Prior notice is not required where it is clear that the health, safety or welfare of the school population is threatened. Suspensions may not be made to run consecutively beyond the ten-school day period.[1]

When a suspension exceeds three (3) school days, the student and parent/guardian shall be given the opportunity for an informal hearing with the designated school official. Such hearing shall take place as soon as possible after the suspension, and the district shall offer to hold it within the first five (5) days of the suspension.[1][6]

Informal hearings under this provision shall be conducted by the building principal.

Purpose of Informal Hearing

The purpose of the informal hearing is to permit the student to explain the circumstances surrounding the event leading to the suspension, to show why the student should not be suspended, and to discuss ways to avoid future offenses.[6]

Due Process Requirements for Informal Hearing[6]

1. The student and parent/guardian shall be given written notice of the reasons for the suspension.
2. The student and parent/guardian shall receive sufficient notice of the time and place of the informal hearing.
3. The student may question any witnesses present at the informal hearing.
4. The student may speak and produce witnesses who may speak at the informal hearing.
5. The district shall offer to hold the informal hearing within five (5) days of the suspension.

Exclusion From Class - In-School Suspension

No student may receive an in-school suspension without notice of the reasons for which s/he is suspended and an opportunity to be heard prior to the time the suspension becomes effective. The parent/guardian shall be informed of the suspension action taken by the school.[2]

Should the in-school suspension exceed ten (10) consecutive school days, the student and parent/guardian shall be offered an informal hearing with the building principal. Such hearing shall take place prior to the eleventh day of the in-school suspension. The procedure shall be the same as the procedure for informal hearings held in connection with out-of-school suspensions.[2][6]

The district shall provide for the student's education during the period of in-school suspension.[2]

Expulsion

Expulsion is exclusion from school by the Board for a period exceeding ten (10) consecutive school days. The Board may permanently expel from the district rolls any student whose misconduct or disobedience warrants this sanction. No student shall be expelled without an opportunity for a formal hearing before the Board or a duly authorized committee of the Board or a qualified hearing examiner appointed by the Board, and upon action taken by the Board after the hearing.[1][6][7]

Expulsion Hearings

A formal hearing shall be required in all expulsion actions.[1][6][7][8]

The formal hearing shall observe the due process requirements of:[6]

1. Notification of the charges in writing by certified mail to the student's parent/guardian.
2. At least three (3) days' notice of the time and place of the hearing, which shall include a copy of this policy, hearing procedures, and notice of the right to representation by legal counsel. A student may request the rescheduling of the hearing when s/he demonstrates good cause for an extension.
3. The hearing shall be private unless the student or parent/guardian requests a public hearing.
4. Representation by counsel at the parent's/guardian's expense and parent/guardian may attend the hearing.
5. Disclosure of the names of witnesses against the student and copies of their written statements or affidavits.
6. The right to request that witnesses against the student appear in person and answer questions or be cross-examined.
7. The right to testify and present witnesses on the student's behalf.
8. A written or audio record shall be kept of the hearing and a copy made available to the student at the student's expense, or at no charge if the student is indigent.
9. The hearing shall be held within fifteen (15) school days of the notice of charges, unless a delay is mutually agreed to by both parties or is delayed by:
 - a. The need for laboratory reports from law enforcement agencies.
 - b. Evaluations or other court or administrative proceedings are pending due to a student's invoking his/her rights under the Individuals with Disabilities Education Act (IDEA).
 - c. Delay is necessary due to the condition or best interests of the victim in cases of juvenile or criminal court involving sexual assault or serious bodily injury.
10. Notice of a right to appeal the results of the hearing shall be provided to the student with the expulsion decision.

Adjudication

A written adjudication shall be issued after the Board has acted to expel a student. The adjudication may include additional conditions or sanctions.[9]

Attendance/School Work During Suspension and Prior to Expulsion

Students serving an out-of-school suspension must make up missed exams and work, and shall be permitted to complete assignments pursuant to established guidelines.[1][10]

Students who are facing an expulsion hearing must be placed in their normal classes if the formal hearing is not held within the ten-school day suspension.

If it is not possible to hold the formal hearing within the first ten (10) school days, the school district may exclude such a student from class for up to five (5) additional – fifteen (15) total – school days if, after an informal hearing, it is determined that the student's presence in his/her normal class would constitute a threat to the health, safety or welfare of others.

Any further exclusion prior to a formal hearing may be only by mutual agreement. Such students shall be given alternative education, which may include home study.

Attendance/School Work After Expulsion

Students who are under seventeen (17) years of age are still subject to compulsory school attendance even though expelled and shall be provided an education. Beginning with the academic year 2020-2021, compulsory school age shall mean no later than age six (6) until age eighteen (18); at that time, students under eighteen (18) years of age shall be subject to compulsory school attendance, and even though expelled, shall be provided an education.[1][10][11]

The parent/guardian has the initial responsibility of providing the required education and shall, within thirty (30) days, submit written evidence to the school that the required education is being provided or that they are unable to do so. If the parent/guardian is unable to provide for the required education, the school district shall, within ten (10) days of receipt of the parent's/guardian's notification, make provision for the student's education.

The Board may provide an educational program to the student immediately upon expulsion and may waive the 30-day period, at its discretion.

Students With Disabilities

A student with a disability shall be provided educational services as required by state and federal laws and regulations and Board policies.[12][13]

Delegation of Responsibility

The Superintendent or designee shall develop administrative regulations to implement this policy which include:

1. Publication of a Code of Student Conduct, in accordance with Board policy on student discipline.[14]
2. Procedures that ensure due process when a student is being deprived of the right to attend school.
3. Regulations regarding student records which require that records of disciplinary suspension be maintained in accordance with Board policy on student records.[15]

4. The name of a student who has been disciplined shall not become part of the agenda or minutes of a public meeting, nor part of any public record of the Board. Such students may be designated by code.
5. Any student who has been expelled may apply for readmission to school upon such conditions as may be imposed by the Board.

DISCRIMINATION/TITLE IX SEXUAL HARASSMENT AFFECTING STAFF

Board Policy 104 - Last Revised August 24, 2020

Authority

The Board declares it to be the policy of this district to provide to all persons equal access to all categories of employment in this district, regardless of race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, genetic information, pregnancy or handicap/disability. The district shall make reasonable accommodations for identified physical and mental impairments that constitute disabilities, consistent with the requirements of federal and state laws and regulations. [1][2][3][4][5][6][7][8][9][10][11][12]

The Board also declares it to be the policy of this district to comply with federal law and regulations under Title IX prohibiting sexual harassment, which is a form of unlawful discrimination on the basis of sex. Such discrimination shall be referred to throughout this policy as Title IX sexual harassment. Inquiries regarding the application of Title IX to the district may be referred to the Title IX Coordinator, to the Assistant Secretary for Civil Rights of the U.S. Department of Education, or both.

The Board directs that the foregoing statement of Board policy be included in each student and staff handbook, and that this policy and related attachments be posted to the district's website.

The Board requires a notice stating that the district does not discriminate in any manner, including Title IX sexual harassment, in any district education program or activity, to be issued to all students, parents/guardians, employment applicants, employees and all unions or professional organizations holding collective bargaining or professional agreements with the district. All discrimination notices and information shall include the title, office address, telephone number and email address of the individual(s) designated as the Compliance Officer and Title IX Coordinator.

Reports of Title IX Sexual Harassment and Other Discrimination and Retaliation

The Board encourages employees and third parties who believe they or others have been subject to Title IX sexual harassment, other discrimination or retaliation to promptly report such incidents to the building principal or building administrator. A person who is not an intended victim or target of discrimination but is adversely affected by the offensive conduct may file a report of discrimination.

If the building principal or building administrator is the subject of a complaint, the complainant or the individual making the report shall direct the report of the incident to the Title IX Coordinator.

The complainant or the individual making the report may use the Discrimination/Sexual Harassment/Retaliation Report Form attached to this policy for purposes of reporting an incident or incidents in writing; however, verbal reports of an incident or incidents shall be accepted, documented and the procedures of this policy and the relevant attachments followed.

The building principal or building administrator shall promptly notify the Title IX Coordinator of all reports of discrimination, Title IX sexual harassment or retaliation. The Title IX Coordinator shall promptly contact the complainant regarding the report to gather additional information as necessary, and to discuss the availability of supportive measures. The Title IX Coordinator shall consider the complainant's wishes with respect to supportive measures.

The Title IX Coordinator shall conduct an assessment to determine whether the reported circumstances are most appropriately addressed through the Discrimination Complaint Procedures prescribed in Attachment 2 to this policy, or if the reported circumstances meet the definition of Title IX sexual harassment and are most appropriately addressed through the Title IX Sexual Harassment Procedures and Grievance Process for Formal Complaints in Attachment 3, or other Board policies.

Disciplinary Procedures when Reports Allege Title IX Sexual Harassment

When a report alleges Title IX sexual harassment, disciplinary sanctions may not be imposed until the completion of the grievance process for formal complaints outlined in Attachment 3. The district shall presume that the respondent is not responsible for the alleged conduct until a determination has been made at the completion of the grievance process for formal complaints.

Administrative Leave –

When an employee, based on an individualized safety and risk analysis, poses an immediate threat to the health or safety of any student or other individual, the employee may be removed on an emergency basis.

An accused, nonstudent district employee may be placed on administrative leave during the pendency of the grievance process for formal complaints, consistent with all rights under Section 504 of the Rehabilitation Act and the Americans with Disabilities Act, and in accordance with state law and regulations, Board policy and an applicable collective bargaining agreement or individual contract.

Confidentiality

Confidentiality of all parties, witnesses, the allegations, the filing of a report, and the investigation related to any form of discrimination or retaliation, including Title IX sexual harassment, shall be handled in accordance with applicable law, regulations, this policy, the attachments and the district's legal and investigative obligations.[13][14][15][16][17]

Retaliation

The Board prohibits retaliation by the district or any other person against any person for:[16]

1. Reporting or making a formal complaint of any form of discrimination or retaliation, including Title IX sexual harassment.
2. Testifying, assisting, participating or refusing to participate in a related investigation, process or other proceeding or hearing.
3. Acting in opposition to practices the person reasonably believes to be discriminatory.

The district, its employees and others are prohibited from intimidating, threatening, coercing, or discriminating against anyone for actions described above. Individuals are encouraged to contact the Title IX Coordinator immediately if they believe retaliation has occurred.

Definitions

Complainant shall mean an individual who is alleged to be the victim.

Respondent shall mean an individual alleged to be the perpetrator of the discriminatory conduct.

Discrimination

Discrimination shall mean to treat individuals differently, or to harass or victimize based on a protected classification including race, color, age, creed, religion, sex, sexual orientation, genetic information, ancestry, national origin, marital status, pregnancy, or handicap/disability.

Harassment is a form of discrimination based on the protected classifications listed in this policy consisting of unwelcome conduct such as graphic, written, electronic, verbal or nonverbal acts including offensive jokes, slurs, epithets and name-calling, ridicule or mockery, insults or put-downs, offensive objects or pictures, physical assaults or threats, intimidation, or other conduct that may be harmful or humiliating or interfere with a person's school or school-related work performance, including when:[9]

1. Submission to such conduct is made explicitly or implicitly a term or condition of an employee's status; or
2. Submission to or rejection of such conduct is used as the basis for employment-related decisions affecting an employee; or
3. Such conduct is sufficiently severe, persistent or pervasive that a reasonable person in the complainant's position would find that it unreasonably interferes with the complainant's performance at work or otherwise creates an intimidating, hostile, or offensive working environment such that it alters the complainant's working conditions.

Definitions Related to Title IX Sexual Harassment

Formal complaint shall mean a document filed by a complainant or signed by the Title IX Coordinator alleging Title IX sexual harassment and requesting that the district investigate the allegation under the grievance process for formal complaints. The authority for the Title IX Coordinator to sign a formal complaint does not make the Title IX Coordinator a party in the grievance process for formal complaints. The phrase "document filed by a complainant" refers to a document or electronic submission that contains the complainant's physical or digital signature, or otherwise indicates that the complainant is the person filing the formal complaint.[15][18]

Supportive measures shall mean nondisciplinary, nonpunitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed.[18]

Supportive measures shall be designed to restore or preserve equal access to the educational program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the educational environment, or to deter sexual harassment. **Supportive measures** may include, but are not limited to:[18]

1. Counseling or Employee Assistance Program.
2. Extensions of deadlines or other course-related adjustments.
3. Modifications of work or class schedules.
4. Campus escort services.
5. Mutual restrictions on contact between the parties.
6. Changes in work locations.

7. Leaves of absence.
8. Increased security.
9. Monitoring of certain areas of the campus.
10. Assistance from domestic violence or rape crisis programs.
11. Assistance from community health resources including counseling resources.

Title IX sexual harassment means conduct on the basis of sex that satisfies one or more of the following:[18]

1. A district employee conditioning the provision of an aid, benefit, or district service on an individual's participation in unwelcome sexual conduct, commonly referred to as *quid pro quo sexual harassment*.
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive and objectively offensive that it effectively denies a person equal access to a district education program or activity.
3. Sexual assault, dating violence, domestic violence or stalking.

a. **Dating violence** means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim and where the existence of such a relationship is determined by the following factors:[19]

- i. Length of relationship.
- ii. Type of relationship.
- iii. Frequency of interaction between the persons involved in the relationship.

b. **Domestic violence** includes felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving federal funding, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction.[19]

c. **Sexual assault** means a sexual offense under state or federal law that is classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.[20]

d. **Stalking**, under Title IX means stalking on the basis of sex, for example when the stalker desires to date a victim. Stalking means to engage in a course of conduct directed at a specific person that would cause a reasonable person to either:[19]

- i. Fear for their safety or the safety of others.
- ii. Suffer substantial emotional distress.

Such conduct must have taken place during a district education program or activity and against a person in the United States to qualify as sexual harassment under Title IX. An **education program or activity** includes the locations, events or circumstances over which the district exercises substantial control over both the respondent and the context in which the harassment occurs. Title IX applies to all of a district's education programs or activities, whether such programs or activities occur on-campus or off-campus.[14][15][18]

The Board also declares it to be the policy of this district to comply with federal law and regulations under Title IX prohibiting sexual harassment, which is a form of unlawful discrimination on the basis of sex. Such discrimination shall be referred to throughout this policy as Title IX sexual harassment. Inquiries regarding the application of Title IX to the district may be referred to the Title IX Coordinator, to the Assistant Secretary for Civil Rights of the U.S. Department of Education, or both.

The district is committed to the maintenance of a safe, positive learning environment for all students that is free from discrimination by providing all students course offerings, counseling, assistance, services, employment, athletics and extracurricular activities without any form of discrimination, including Title IX sexual harassment. All discrimination notices and information shall include the title, office address, telephone number and email address of the individual(s) designated as the Compliance Officer and Title IX Coordinator.

Reports of Title IX Sexual Harassment and Other Discrimination and Retaliation

The Board encourages students and third parties who believe they or others have been subject to Title IX sexual harassment, other discrimination or retaliation to promptly report such incidents to the building principal, even if some elements of the related incident took place or originated away from school grounds, school activities or school conveyances. A person who is not an intended victim or target of discrimination but is adversely affected by the offensive conduct may file a report of discrimination.

The student's parents/guardians or any other person with knowledge of conduct that may violate this policy is encouraged to immediately report the matter to the building principal.

A school employee who suspects or is notified that a student has been subject to conduct that constitutes a violation of this policy shall immediately report the incident to the building principal, as well as properly making any mandatory police or child protective services reports required by law.[22]

If the building principal is the subject of a complaint, the student, third party or a reporting employee shall report the incident directly to the Title IX Coordinator.

The complainant or the individual making the report may use the Discrimination/Sexual Harassment/Bullying/Hazing/Dating Violence/Retaliation Report Form attached to this policy for purposes of reporting an incident or incidents in writing; however, verbal reports of an incident or incidents shall be accepted, documented and the procedures of this policy and the relevant attachments followed.

The building principal shall promptly notify the Title IX Coordinator of all reports of discrimination, Title IX sexual harassment or retaliation. The Title IX Coordinator shall promptly contact the complainant regarding the report to gather additional information as necessary, and to discuss the availability of supportive measures. The Title IX Coordinator shall consider the complainant's wishes with respect to supportive measures.

The Title IX Coordinator shall conduct an assessment to determine whether the reported circumstances are most appropriately addressed through the Discrimination Complaint Procedures prescribed in Attachment 2 to this policy, or if the reported circumstances meet the definition of Title IX sexual harassment and are most appropriately addressed through the Title IX Sexual Harassment Procedures and Grievance Process for Formal Complaints in Attachment 3, or other Board policies.

Disciplinary Procedures When Reports Allege Title IX Sexual Harassment

When a report alleges Title IX sexual harassment, disciplinary sanctions may not be imposed until the completion of the grievance process for formal complaints outlined in Attachment 3. The district shall presume that the respondent is not responsible for the alleged conduct until a determination has been made at the completion of the grievance process for formal complaints.[18][20][23][24]

When an emergency removal, as described in Attachment 3, is warranted to address an immediate threat to the physical health or safety of an individual, and it is not feasible to continue educational services remotely or in an alternative setting, the normal procedures for suspension and expulsion shall be conducted to accomplish the removal, including specific provisions to address a student with a disability where applicable.[18][19][20][23]

When an emergency removal is not required, disciplinary sanctions shall be considered in the course of the Title IX grievance process for formal complaints. Following the issuance of the written determination and any applicable appeal, any disciplinary action specified in the written determination or appeal decision shall be implemented in accordance with the normal procedures for suspensions, expulsions or other disciplinary actions, including specific provisions to address a student with a disability where applicable.

Confidentiality

Confidentiality of all parties, witnesses, the allegations, the filing of a report and the investigation related to any form of discrimination or retaliation, including Title IX sexual harassment, shall be handled in accordance with applicable law, regulations, this policy, the attachments and the district's legal and investigative obligations.[25][26][27][28][29]

Retaliation

The Board prohibits retaliation by the district or any other person against any person for:[28]

1. Reporting or making a formal complaint of any form of discrimination or retaliation, including Title IX sexual harassment.
2. Testifying, assisting, participating or refusing to participate in a related investigation, process or other proceeding or hearing.
3. Acting in opposition to practices the person reasonably believes to be discriminatory.

The district, its employees and others are prohibited from intimidating, threatening, coercing, or discriminating against anyone for actions described above. Individuals are encouraged to contact the Title IX Coordinator immediately if retaliation is believed to have occurred.

Definitions

Complainant shall mean an individual who is alleged to be the victim.

Respondent shall mean an individual alleged to be the perpetrator of the discriminatory conduct.

Discrimination

Discrimination shall mean to treat individuals differently, or to harass or victimize based on a protected classification including race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, pregnancy, or handicap/disability.

Harassment is a form of discrimination based on the protected classifications listed in this policy consisting

of unwelcome conduct such as graphic, written, electronic, verbal or nonverbal acts including offensive jokes, slurs, epithets and name-calling, ridicule or mockery, insults or put-downs, offensive objects or pictures, physical assaults or threats, intimidation, or other conduct that may be harmful or humiliating or interfere with a person's school or school-related performance when such conduct is:

1. Sufficiently severe, persistent or pervasive; and
2. A reasonable person in the complainant's position would find that it creates an intimidating, threatening or abusive educational environment such that it deprives or adversely interferes with or limits an individual or group of the ability to participate in or benefit from the services, activities or opportunities offered by a school.

Definitions Related to Title IX Sexual Harassment

Formal complaint shall mean a document filed by a complainant or signed by the Title IX Coordinator alleging Title IX sexual harassment and requesting that the district investigate the allegation under the grievance process for formal complaints. The authority for the Title IX Coordinator to sign a formal complaint does not make the Title IX Coordinator a party in the grievance process for formal complaints. The phrase "document filed by a complainant" refers to a document or electronic submission that contains the complainant's physical or digital signature, or otherwise indicates that the complainant is the person filing the formal complaint.[27][30]

Supportive measures shall mean nondisciplinary, nonpunitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed.[30]

Supportive measures shall be designed to restore or preserve equal access to the educational program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the educational environment, or to deter sexual harassment. **Supportive measures** may include, but are not limited to:[30]

1. Counseling.
2. Extensions of deadlines or other course-related adjustments.
3. Modifications of work or class schedules.
4. Campus escort services.
5. Mutual restrictions on contact between the parties.
6. Changes in work or housing locations.
7. Leaves of absence.
8. Increased security.
9. Monitoring of certain areas of the campus.
10. Assistance from domestic violence or rape crisis programs.
11. Assistance from community health resources including counseling resources.

Supportive measures may also include assessments or evaluations to determine eligibility for special education or related services, or the need to review an Individualized Education Program (IEP) or Section 504 Service Agreement based on a student's behavior. This could include, but is not limited to, a manifestation determination or functional behavioral assessment (FBA), in accordance with applicable law, regulations or Board policy.[18][23][24][17][31]

Title IX sexual harassment means conduct on the basis of sex that satisfies one or more of the following:[30]

1. A district employee conditioning the provision of an aid, benefit, or district service on an individual's participation in unwelcome sexual conduct, commonly referred to as *quid pro quo sexual harassment*.
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive and objectively offensive that it effectively denies a person equal access to a district education program or activity.
3. Sexual assault, dating violence, domestic violence or stalking.

a. **Dating violence** means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim and where the existence of such a relationship is determined by the following factors:[32]

- i. Length of relationship.
- ii. Type of relationship.
- iii. Frequency of interaction between the persons involved in the relationship.

b. **Domestic violence** includes felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving federal funding, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction.[32]

c. **Sexual assault** means a sexual offense under state or federal law that is classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.[33]

d. **Stalking**, under Title IX means stalking on the basis of sex, for example when the stalker desires to date a victim. Stalking means to engage in a course of conduct directed at a specific person that would cause a reasonable person to either:[32]

- i. Fear for their safety or the safety of others.
- ii. Suffer substantial emotional distress.

Such conduct must have taken place during a district education program or activity and against a person in the United States to qualify as sexual harassment under Title IX. An **education program or activity** includes the locations, events or circumstances over which the district exercises substantial control over both the respondent and the context in which the harassment occurs. Title IX applies to all of a district's education programs or activities, whether such programs or activities occur on-campus or off-campus.[26][27][30]

DRESS CODE

The students and parents of Grove City Area Senior High School are expected to use their good judgment with regard to proper dress and appearance for school. Every student is expected to be neat, clean, and well groomed. As a student of the high school, you represent the school district and the community and should dress appropriately. Safety, health, and modesty are important considerations for choosing clothing for school and school activities. Students are urged to dress for weather conditions because in the event of an emergency,

students may have to leave the building. With these items in mind, standards for school dress include but are not limited to:

1. Apparel that reveals or exposes the abdomen, lower back, or sides of the torso is considered inappropriate. Also inappropriate is clothing made of sheer or see-thru fabric, clothing that does not cover backs, clothing that exposes cleavage, clothing that is off the shoulder, and clothing that reveals undergarments. Any sleeveless top must have 2 inches of fabric on the shoulder.
2. Apparel that contains profanity, ambiguous phrases, sexual innuendo, potentially offensive symbols, and alcohol, drug, or tobacco messages is prohibited.
3. Shorts, skirts, and dresses must be mid-thigh length or lower.
4. Trousers that reveal underwear, that inhibit leg mobility, or that can be readily pulled down or fall down are prohibited.
5. Footwear must be worn. Footwear should be safe for use in our building.
6. Jewelry or other accessories that could be considered dangerous or that could damage furniture are not permitted. Examples include (but not limited to): dog collar chokers and long chains.
7. No hats, hoods, bandannas, headbands, or sunglasses (unless medically necessary) may be worn during school.
8. Safety requirements for certain classes may require additional clothing regulations.
9. Coats are not to be worn during school.
10. All dress code regulations also apply to all school functions, including all dances.

Remember: It is at the staff's discretion whether they feel a student is in violation of the dress code.

Administrative Response

The following actions will be taken for violations of the dress code policy. These violations will accumulate over the school year.

First Offense: The teacher will notify the administration and send the student to the office. At the office, the student will be given the opportunity to call home and have different clothing brought in; or, he/she can choose an item of clothing out of the school stockpile to change into for the remainder of the school day. The offending item of clothing must be given to the secretary and can be picked up at the end of the day.

Second Offense: Same as the first offense with the addition of a detention. A phone call will be made to notify the parent/guardian of the second offense.

Third Offense: The parent/guardian will be called. The student will be sent home and will be marked as unlawfully absent until they return to school within the dress code requirements.

The district shall not be liable for the loss, damage or misuse of any electronic device.

Electronic Images and Photographs

The Board prohibits the taking, storing, disseminating, transferring, viewing, or sharing of obscene, pornographic, lewd, or otherwise illegal images or photographs, whether by electronic data transfer or other means, including but not limited to texting and emailing.

Because such violations may constitute a crime under state and/or federal law, the district may report such conduct to state and/or federal law enforcement agencies.

Off-Campus School-Sponsored Activities

This policy shall also apply to student conduct that occurs off school property and would otherwise violate the Code of Student Conduct if any of the following circumstances exist:[2]

1. The conduct occurs during the time the student is traveling to and from school or traveling to and from school-sponsored activities, whether or not via school district furnished transportation.
2. The student is a member of an extracurricular activity and has been notified that particular off-campus conduct could result in exclusion from such activities.[3][4]
3. Student expression or conduct materially and substantially disrupts the operations of the school, or the administration reasonably anticipates that the expression or conduct is likely to materially and substantially disrupt the operations of the school.
4. The conduct has a direct nexus to attendance at school or a school-sponsored activity, for example, a transaction conducted outside of school pursuant to an agreement made in school, that would violate the Code of Student Conduct if conducted in school.
5. The conduct involves the theft or vandalism of school property.
6. There is otherwise a nexus between the proximity or timing of the conduct in relation to the student's attendance at school or school-sponsored activities.

Delegation of Responsibility

The Superintendent or designee shall annually notify students, parents/guardians and employees about the Board's electronic device policy.

The Superintendent or designee may develop administrative regulations to implement this policy.

 2. Athletic Practices
 3. School Sponsored Dances, Social Events & Prom
 4. Practice or Performances for Band, Chorus, etc.

- C. Students must be present by 11:30 (a minimum of 3.5 consecutive hours) in order to participate that day or evening in athletics or any other school related activities as described in Section A above. Students who are sent home by the nurse due to illness may not participate in after school or evening events as noted in Section A.

In unusual conditions when teams arrive back at the school late, students must report to school 9 hours after returning to school the night before. Example: A midnight arrival time back to school will require student/ athletes to report to class the following day no later than 9:00 a.m.
- E. Participation on any school athletic team or activity is a privilege, not a right. As such, the GCASD student-athlete/student is expected to represent his/her team or activity in a positive and respectful manner at all times. Illegal or disruptive behavior of a GCASD player or student at school, in the community, and on social media may result in the student’s loss of participation. This includes, but is not limited to: repeated disciplinary infractions or disciplinary infractions that are serious enough to require corrective action while in or under the supervision of the school; engaging in conduct contrary to the criminal code or ordinances in the community; and inappropriate use of social media that reflects poorly of one’s self as a member of the team or activity.

Athletic/Co-Curricular Eligibility

Students must fulfill the requirements of the school as well as those of the Pennsylvania Interscholastic Athletic Association (PIAA) and/or District 10.

Grove City students must be passing a minimum of four (4) full credit subjects and not be failing more than one course. Eligibility shall be calculated cumulatively from the first day of the quarter and shall be reported on a weekly basis each Friday at 3 p.m. or the final school day of that specific week. If a student’s cumulative work does not meet the standard set in this policy, he/she will be ineligible from the following week’s activities (Monday – Saturday). The Administration may revoke the privilege of participating in athletics/co-curricular activity at any time for disciplinary reasons, flagrant misconduct, poor sportsmanship, excessive absenteeism, and/or failure to meet minimum scholastic eligibility standards. Suspensions are considered absences from school and are applied to the eligibility requirement. (See the Athletic Director for questions relating to athletic eligibility information and other athletic policies.)

Transportation

School District policy requires students to ride District supplied transportation to and from all District sanctioned athletic events. If parents wish to transport their son/daughter, a travel release must be obtained through the Athletic Office prior to the event. If parents insist on taking their son/daughter from an event, at the completion of competition and have not previously obtained a waiver, a release of liability must be obtained by the coach/advisor. It is the responsibility of the coach/advisor to make sure that all athletes and parents are aware of this policy.

If an athlete fails to abide by the policy on the way to an event, the athlete may not participate in the event. The athlete’s parents will be notified by the coach/advisor. The athletic director will be notified of the infraction.

- A. If an athlete fails to abide by the policy on the way home from an event, the athlete may not participate in the next event. The athlete’s parents will be notified by the coach/advisor. The athletic director will be notified of the infraction.

- B. Exceptions will be considered. Repeat violations by an individual athlete may result in loss of athletic privileges. The coach/advisor, appropriate building principal, athletic director, assistant superintendent/superintendent will meet to determine the appropriate sanction.

EMPLOYMENT CERTIFICATES/WORK PERMITS

Any student between the ages of 14-18 must, by law, secure an age and school permit for any employment whether or not work interferes with school hours. You must email the high school secretary, Tina Reid (tina.reid@gcasdk12.org) for the electronic form to begin the process for obtaining a “work permit”. To obtain a work permit, it is necessary to bring one of the following forms of identification: birth certificate, driver’s license, driver’s permit, baptismal record, or passport to the office. Once the application has been signed by the parent/guardian, it must be returned to the high school office to obtain the official work permit.

FOOD ALLERGY MANAGEMENT

Board Policy 209.1 - Last Revised November 10, 2014

Purpose

The Board is committed to providing a safe and healthy environment for students with severe or life-threatening food allergies and shall establish policy to address food allergy management in district schools in order to:

1. Reduce and/or eliminate the likelihood of severe or potentially life-threatening allergic reactions.

2. Ensure a rapid and effective response in the case of a severe or potentially life-threatening allergic reaction.
3. Protect the rights of students by providing them, through necessary accommodations when required, the opportunity to participate fully in all school programs and activities, including classroom parties and field trips.

The focus of food allergy management shall be on prevention, education, awareness, communication and emergency response.

Authority

The Board adopts this policy in accordance with applicable state and federal laws and regulations, and the guidelines established jointly by the PA Department of Education and PA Department of Health on managing severe or life-threatening food allergies in the schools.[1]

Definitions

Food allergy - an abnormal, adverse reaction to a food that is triggered by the body's immune system.

Medical Plans of Care - written documents individualized for a particular student with a severe or life-threatening food allergy to address the student's needs throughout the school day, including:

1. **Emergency Care Plan (ECP)** - a medical plan of care based on the information provided in the student's Individualized Healthcare Plan (IHP) and distributed to all school personnel who have responsibilities for the student which specifically describes how to recognize a food allergy emergency and what to do when signs or symptoms of these conditions are observed.
2. **Individualized Healthcare Plan (IHP)** - a medical plan of care that provides written directions for school health personnel to follow in meeting the individual student's healthcare needs. The plan describes functional problem areas, sets goals for overcoming problems, and lists tasks/interventions to meet the goals. The IHP shall include a Food Allergy Medical Management Plan developed by a student's personal healthcare team and family, which shall outline the student's prescribed healthcare regimen and be signed by the student's board-certified allergist, family physician, physician assistant or certified registered nurse practitioner.
3. **Related Services Component in Individualized Education Program (IEP)** - that part of an IEP for a student receiving special education and related services which includes reference to development and implementation of an IHP and ECP for students with a documented severe or life-threatening food allergy as well as identifying the medical accommodations, educational aids and services to address the student's needs.[2]
4. **Section 504 Service Agreement** - a medical plan of care which references development and implementation of an IHP and ECP as well as other accommodations, educational aids and services a student with a documented severe or life-threatening food allergy requires in order to have equal access to educational programs, nonacademic services and extracurricular activities as students without food allergies.[3]

Guidelines

Prior to enrollment in the district or immediately after diagnosis of a food allergy, appropriate medical plans of care such as an ECP, IHP, Section 504 Service Agreement and/or IEP shall be developed for each student identified with a food allergy. Plans shall be developed by the school nurse, in collaboration with the student's healthcare provider, the student's parents/guardians, district or school nutrition staff, the student, if appropriate, and any other appropriate persons.

Where a medical plan of care is developed, it should carefully describe the plan for coverage and care of a student during the school day as well as during school-sponsored activities which take place while the student is under school jurisdiction during or outside of school hours. Medical plans of care shall include a component which provides information to the school nutrition service regarding each student with documented severe or life-threatening food allergies.

Medical plans of care should include both preventative measures to help avoid accidental exposure to allergens and emergency measures in case of exposure, including administration of emergency medication.[4]

A complete set of a student's current medical plans of care related to food allergies shall be maintained by the school nurse. Information or copies of the different components of a student's medical plans of care shall be provided to appropriate personnel who may be involved in implementation of the medical plans of care.

Accommodating Students With Disabling Special Dietary Needs

Students with food allergies may be identified, evaluated and determined to be disabled, in which case the district shall make appropriate accommodations, substitutions or modifications in accordance with the student's medical plans of care.[3][2]

The district must provide reasonable accommodations, substitutions or modifications for students with disabling dietary needs. The student's physician shall determine and document if the student has a disabling dietary need. Examples of a disability under this policy would include metabolic conditions (e.g., diabetes), severe food allergies or cerebral palsy.

Students who fall under this provision must have a written medical statement signed by a licensed physician, which shall be included with the student's IHP. The medical statement must identify:[5]

1. The student's special dietary disability.
2. An explanation of why the disability restricts the student's diet.
3. The major life activity(ies) affected by the disability.
4. The food(s) to be omitted from the student's diet.
5. The food or choice of foods that must be provided as the substitute.

Accommodating Students With Nondisabling Special Dietary Needs

The district may, at its discretion, make appropriate accommodations, substitutions or modifications for students who have a special dietary need but who do not meet the definition of disability, such as a food intolerance or allergy that does not cause a reaction that meets the definition of a disability. The decision to accommodate such a student shall be made on a case-by-case basis.

Students who fall under this provision must have a written medical statement signed by a physician, physician assistant or certified registered nurse practitioner identifying the following:

1. The medical or other special dietary condition which restricts the student's diet.
2. The food(s) to be omitted from the student's diet.
3. The food or choice of foods to be substituted.

Confidentiality

The district shall maintain the confidentiality of students with food allergies, to the extent appropriate and as requested by the student's parents/guardians. District staff shall maintain the confidentiality of student records as required by law, regulations and Board policy.[6][7][8]

Delegation of Responsibility

The Superintendent or designee, in coordination with the school nurse, school nutrition services staff, and other pertinent staff, may develop administrative regulations to implement this policy or adopt as administrative regulations the suggested guidelines developed by the Pennsylvania Departments of Education and Health and National School Boards Association (NSBA) guidance on managing severe or life-threatening food allergies in district schools, including all classrooms and instructional areas, school cafeterias, outdoor activity areas, on school buses, during field trips, and during school activities held before the school day and after the school day.[9][10][15][14]

Administrative regulations should address the following components:

1. Identification of students with food allergies and provision of school health services.[12]
2. Development and implementation of individual written management plans.
3. Medication protocols, including methods of storage, access and administration.[4]
4. Development of a comprehensive and coordinated approach to creating a healthy school environment.[10]
5. Communication and confidentiality.[6][7][8]
6. Emergency response.[13]
7. Professional development and training for school personnel.

Student activity or organization means any activity, society, corps, team, club or service, social or similar group, operating under the sanction of or recognized as an organization by the district, whose members are primarily students or alumni of the organization.[6][7]

For purposes of this policy, **bodily injury** shall mean impairment of physical condition or substantial pain.[8]

No student, parent/guardian, coach, sponsor, volunteer or district employee shall engage in, condone or ignore any form of hazing.

The Board encourages students who believe they, or others, have been subjected to hazing to promptly report such incidents to the building principal or designee.

Title IX Sexual Harassment and Other Discrimination

Every report of alleged hazing that can be interpreted at the outset to fall within the provisions of policies addressing potential violations of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of a hazing investigation, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged hazing.[11][12]

Delegation of Responsibility

Guidelines

In addition to posting this policy on the district's publicly accessible website, the district shall inform students, parents/guardians, sponsors, volunteers and district employees of the district's policy prohibiting hazing, including district rules, penalties for violations of the policy, and the program established by the district for enforcement of the policy by means of publication in handbooks and verbal instructions by the coach or sponsor at the start of the season or program.[4]

The Board directs that verbal and written complaints of hazing shall be provided to the building principal or designee, who shall promptly notify the Superintendent or designee of the allegations and determine who

shall conduct the investigation. Allegations of hazing shall be investigated promptly, and appropriate corrective or preventative action be taken when allegations are substantiated. The Board directs that any complaint of hazing brought pursuant to this policy shall also be reviewed for conduct which may not be proven to be hazing under this policy but merits review and possible action under other Board policies.

Interim Measures/Police

Upon receipt of a complaint of hazing, the building principal or designee, in consultation with the Superintendent or designee, shall determine what, if any interim measures should be put in place to protect students from further hazing, bullying, discrimination or retaliatory conduct related to the alleged incident and report. Such interim measures may include, but not be limited to, the suspension of an adult who is involved, the separation of alleged victims and perpetrators, and the determination of what the complaining student needs or wants through questioning.

Those receiving the initial report and conducting or overseeing the investigation will assess whether the complaint, if proven, would constitute hazing, aggravated hazing or organizational hazing and shall report it to the police consistent with district practice and, as appropriate, consult with legal counsel about whether to report the matter to the police at every stage of the proceeding. The decision to report a matter to the police should not involve an analysis by district personnel of whether safe harbor provisions might apply to the person being reported, but information on the facts can be shared with the police in this regard.[13]

The student may also be subject to disciplinary action by the coach or sponsor, up to and including removal from the activity or organization. The fact of whether a student qualified for and received safe harbor under a criminal investigation shall be considered in assigning discipline.[4][7][13][22][23]

Nonstudent Violators/Organizational Hazing -

If the investigation results in a substantiated finding that a coach, sponsor, or volunteer affiliated with the student activity or organization engaged in, condoned or ignored any violation of this policy, the coach, sponsor, or volunteer shall be disciplined in accordance with Board policy and applicable laws and regulations. Discipline could include, but is not limited to, dismissal from the position as coach, sponsor, or volunteer, and/or dismissal from district employment.[24]

Penalties may include rescission of permission for that organization to operate on school property or to otherwise operate under the sanction or recognition of the district.

Criminal Prosecution –

Any person or organization that causes or participates in hazing may also be subject to criminal prosecution.[4]

HEALTH SERVICES

At the beginning of the school year, parents will be requested to fill out an online Emergency Medical Information Form for their child. Parents may access the Emergency Medical Information Form through the Tyler Technology Portal. This information is vital in treating a student for a medical problem. Without it, proper medical attention cannot be given.

The nurse is available for emergencies, first aid treatment, routine tests, and advice on general matters of health. Students who are injured or become ill, must report to the health suite. Under no circumstances are ill or injured students to spend a period (or periods) in the restrooms. This is a safety issue, and it is also a class cut.

Students are not to report to the nurse's office during class changes. Students are to report directly to their assigned class, receive a pass to report to the nurse's office and then report directly to the nurse's office. Students are required to sign in when entering and/or leaving the nurses office. Violators will be considered missing from class and penalties for such will be enforced. If the nurse is not available, report to the principal's office.

If a student's condition is such that he/she should not remain in school, the nurse will contact the parents to make arrangements for dismissal from school and transportation. Students are not to leave the building without the supervision of the nurse. The nurse also assists in planning and placement for adaptive physical education.

Medication Procedures

No medications, including over the counter as well as prescribed drugs, are to be kept in student lockers, classrooms, pockets, backpacks, gym bags, etc. Exceptions to the medication procedures include: Epi-Pens & rescue inhalers may be carried by students with permission of a physician.

2. The District will not assume responsibility for stored medicine.

Nurses will not prescribe and/or administer medication, except within the guidelines of the district policy. In all cases, failure to follow medication procedures may result in a violation of the District's Drug & Alcohol Policy. Written permission is required before any medication is taken.

HOMEBOUND INSTRUCTION

For those students who are ill for at least 10 school days, provisions are made for homebound instruction. Arrangements are completed through the guidance office. Instruction is provided at no cost to the parents. Procedures are as follows:

1. The parent should request homebound by calling the student's counselor. Forms are available from the counselor.
2. The student's doctor must certify the student's need to be instructed in the home.
3. Instruction is approved by the Superintendent of Schools.

Instruction consists of 5 hours of instruction each week in the home setting and typically consists of tutoring. Marks are assigned by the homebound instructor at the conclusion of the homebound instruction.

INSURANCE

Pupil accident insurance plan is available to students at the beginning of each school year. Enrollment in these plans is voluntary. However, students engaging in any program of interscholastic athletics or inter-school sports in Grove City Area Schools are requested to have accident insurance. Parents who do not wish to purchase must sign a waiver in order for children to participate in the sports program.

LIBRARY

Students are encouraged to utilize the Grove City Area High School Library/Media Center. The library/media center has print and non-print resources available for specific assignments as well as recreational usage. The Grove City Area School District has an online library catalog entitled Destiny for each of the school libraries. The catalog link is destinydiscover.com or can be found on the school district website.

The library/media center is open to students before school beginning at 7:30 a.m. and throughout the school day. Students are encouraged to use the library media center for reference work and class related assignments. When students enter the library, they must report to the main circulation desk and sign in with a pass from a classroom teacher.

Working on Library Related Assignments

Students must have a pass from their subject teacher to go to the library.

LOCKERS

Lockers are the property of the Grove City Area School District, and their use is a student privilege. Therefore, students should not have an expectation of privacy in regard to their lockers. Lockers are loaned to the student for use during the school year and are subject to inspection by authorized persons at any time and for any reason. Responsibility for the locker and contents rests solely with the student. Under no circumstances should students' money or valuables be contained in lockers. Food, perishables, gym bags, etc. are not permitted in lockers for longer than one school day. Cigars, cigarettes, vapes, intoxicants, drugs, etc. are not permitted in lockers. School officials may conduct a reasonable search of a particular locker when there is reasonable suspicion that the locker contains contraband. Blanket or random searches may also be conducted by opening and searching lockers or through the use of drug detecting dogs or other means of detecting contraband. Lockers, vehicles, and all personal belongings are subject to be searched. The student will be assessed for locker damage at the end of the school year. Lastly, under no circumstance should students share a locker.

Use of Student Lockers

Students are not permitted to use physical education or athletic lockers as general lockers. Students are assigned a locker for their personal use. Students are not permitted to use lockers other than those assigned to them. Students should keep all their supplies, books, etc. in their general locker and transfer items to gym lockers as needed. The administration will not investigate the theft of valuables if they are not locked up in a locker. Going to a locker is not an acceptable excuse for being late to a class. All students have locks on their lockers to protect their possessions.

Students are reminded the locker and its contents are their responsibility. Therefore, students would be well advised not to disclose their lock combination to anyone. Students are responsible for removing all materials and cleaning the locker at the end of the year.

LOST AND FOUND

A lost and found department is maintained in the main office. All articles which are found in school should be turned in at the office. Items are only kept for 30 days.

The school cannot be responsible for theft of personal property. Students are encouraged to leave money and valuable items at home. If valuables are brought to school, they are to be locked in a locker. Valuables that are in a book bag and are unattended or left out in the open are not the school's responsibility. Valuables (money, cell phones, jewelry, clothing, etc.) that are not locked in a gym locker are not the school's responsibility.

LOST OR DAMAGED SCHOOL MATERIALS

Students are responsible for all school owned material that is entrusted to them. Therefore, it is the responsibility of the student or his/her parent to pay the replacement cost for any textbook or school material that is lost, stolen, or damaged while it is assigned to the student. No grades, transcripts or records will be released for any student who has a financial obligation to the District. Lost or damaged materials will be held as financial obligations and may impact a student's participation in activities. Students should carefully examine the condition of materials as soon as the materials are assigned to them and inform the teacher of any damage.

MAINTAINING PROFESSIONAL ADULT/STUDENT BOUNDARIES POLICY

Board Policy 824 - Last Revised March 12, 2018

Authority

This policy applies to district employees, volunteers, student teachers, and independent contractors and their employees who interact with students or are present on school grounds. For purposes of this policy, such individuals are referred to collectively as Adults. The term Adults as used in this policy, does not include district students who perform services on a volunteer or compensated basis.

All Adults shall be expected to maintain professional, moral, and ethical relationships with district students that are conducive to an effective, safe learning environment. This policy addresses a range of behaviors that include not only obviously unlawful or improper interactions with students, but also precursor grooming and other boundary-blurring behaviors that can lead to more egregious misconduct.

The Board directs that all Adults shall be informed of conduct that is prohibited and the disciplinary actions that may be applied for violation of Board policies, administrative regulations, rules, and procedures.

This policy is not intended to interfere with appropriate pre-existing personal relationships between and among Adults, students and their families that exist independently of the district nor should it interfere with participation in civic, religious or other outside organizations that include district students.

Definition

For purposes of this policy, **legitimate educational reasons** shall mean matters or communications related to teaching, counseling, athletics, extracurricular activities, treatment of a student's physical injury or other medical needs, school administration or other purposes within the scope of the Adult's job or volunteer duties.

Delegation of Responsibility

The Superintendent or designee shall annually inform students, parents/guardians, and all Adults regarding the contents of this Board policy through employee and student handbooks, posting on the district website, and by other appropriate methods.

The building principal or designee shall be available to answer questions about behaviors or activities that may violate professional boundaries as defined in this policy.

Independent contractors doing business with the district shall ensure that their employees who have interaction with students or are present on school grounds are informed of the provisions of this policy.

Guidelines

Adults shall establish and maintain appropriate personal boundaries with students and not engage in any behavior that is prohibited by this policy or that creates the appearance of prohibited behavior.

Prohibited Conduct

Romantic or Sexual Relationships

Adults shall be prohibited from dating, courting, or entering into or attempting to form a romantic or sexual relationship with any student enrolled in the district, regardless of the student's age. Students of any age are not legally capable of consenting to romantic or sexual interactions with adults.

Prohibited romantic or sexual interaction involving students includes, but is not limited to:

1. Sexual physical contact.
2. Romantic flirtation, propositions, or sexual remarks.
3. Sexual slurs, leering, epithets, sexual or derogatory comments.
4. Personal comments about a student's body or appearance.
5. Sexual jokes, notes, stories, drawings, gestures, or pictures.
6. Spreading sexual or romantic rumors.
7. Touching a student's body or clothes in a sexual or intimate way.
8. Accepting massages or offering or giving massages other than in the course of injury care administered by an athletic trainer, or health care provider.
9. Restricting a student's freedom of movement in a sexually intimidating or provocative manner.
10. Displaying or transmitting sexually suggestive objects, pictures, or depictions.

Social Interactions

In order to maintain professional boundaries, Adults shall ensure that their interactions with students are appropriate.

Examples of prohibited conduct that violates professional boundaries include, but are not limited to:

1. Disclosing personal, sexual, family, or employment concerns or other private matters to one or more students.
2. Sending or exchanging notes, emails, or text messages or other communications of a personal nature with a student.
3. Giving personal gifts, cards, or letters to a student without written approval from the building principal.
4. Touching students without a legitimate educational reason. (Reasons could include the need for assistance when injured, a young child or student with special needs who may require assistance with personal hygiene, appropriate coaching instruction, or appropriate music instruction).
5. Singling out a particular student or students for personal attention or friendship beyond the ordinary professional Adult-student relationship.

6. Taking a student out of class without a legitimate educational reason.
7. Being alone with a student behind closed doors without a legitimate educational reason.
8. Initiating or extending contact with a student beyond the school day or outside of class times without a legitimate educational reason.
9. Sending or accompanying a student on personal errands.
10. Inviting a student to the Adult's home, except for a bona fide group activity with a legitimate educational purpose and with pre-administrative approval.
11. Going to a student's home without a legitimate educational reason and without administrative approval.
12. Taking a student on outings without prior notification to and approval from both the parent/guardian and the building principal.
13. Giving a student a ride alone in a vehicle in a nonemergency situation without prior notification to and approval from both the parent/guardian and the building principal.
14. Addressing students or permitting students to address Adults with personalized terms of endearment, pet names, or otherwise in an overly familiar manner.
15. Sharing with a student any information about the Adult that would ordinarily be considered personal or confidential, especially where the student might feel or be expected to maintain the information in further confidentiality.
16. For Adults who are not guidance/counseling staff, psychologists, social workers, or other adults with designated responsibilities to counsel students, encouraging students to confide their personal or family problems and/or relationships. If a student initiates such discussions, the student should be referred to the appropriate school resource.
17. Furnishing alcohol, drugs or tobacco to a student or being present where any student is consuming these substances.
18. Engaging in harassing or discriminatory conduct prohibited by other district policies or by state or federal law and regulations.

Electronic Communications

For purposes of this policy, electronic communication shall mean a communication transmitted by means of an electronic device including, but not limited to, a telephone, cellular telephone, computer, computer network, personal data assistant or pager. Electronic communications include, but are not limited to, emails, text messages, instant messages and communications made by means of an Internet website, including social media and other networking websites.

As with other forms of communication, when communicating electronically, Adults shall maintain professional boundaries with students.

Electronic communication with students shall be for legitimate educational reasons only.

District-provided email or, when available, other district-provided communication devices shall be used when communicating electronically with students. The use of district-provided email or other district-provided communication devices shall be in accordance with district policies and procedures.

All electronic communications from coaches and advisors to team or club members shall be sent in a single communication to all participating team or club members, and such group communication shall include at least one additional staff member. Communications concerning an individual student's medical or academic privacy matters, shall be limited to the individual student and copied to the building principal. In the case of sports teams under the direction of the Athletic Director, such medical or academic communications shall also be copied to the Athletic Director.

Adults shall not follow or accept requests for current students to be friends or connections on personal social networking sites and shall not create any networking site for communication with students other than those provided by the district for this purpose, without the prior written approval of the building principal.

Exceptions

An emergency situation or a legitimate educational reason may justify deviation from professional boundaries set out in this policy. The Adult shall be prepared to articulate the reason for any deviation from the requirements of this policy and must demonstrate that s/he has maintained an appropriate relationship with the student.

Under no circumstance will an educational or other reason justify deviation from the “Romantic and Sexual Relationships” section of this policy.

There will be circumstances where personal relationships develop between an Adult and a student’s family, e.g. when their children become friends. This policy is not intended to interfere with such relationships or to limit activities that are normally consistent with such relationships providing that such relationships are appropriate. Adults are required to maintain professional boundaries appropriate to the nature of the activity.

It is understood that many Adults are involved in various other roles in the community through nondistrict related civic, religious, athletic, scouting or other organizations and programs whose participants may include district students. Such community involvement is commendable, and this policy is not intended to interfere with or restrict an Adult’s ability to serve in those roles. However, Adults are required to maintain professional boundaries appropriate to the nature of the activity with regard to all youth with whom they interact in the course of their community involvement.

Reporting Inappropriate or Suspicious Conduct

Any person, including a student, who has concerns about or is uncomfortable with a relationship or interaction between an Adult and a student, shall immediately notify the Superintendent, principal, other administrator, or school counselor.

All district employees, independent contractors and volunteers who have reasonable cause to suspect that a child is the victim of child abuse, shall immediately report the suspected abuse, in accordance with applicable law, regulations and Board policy.

“Reports should be made by telephoning the Pennsylvania ChildLine and Abuse Registry at (412) 473-2000 or 1-800-932-0313”.

An educator who knows of any action, inaction or conduct which constitutes sexual abuse or exploitation or sexual misconduct under the Educator Discipline Act shall report such misconduct to the Pennsylvania Department of Education on the required form, and shall report such misconduct to his/her immediate supervisor and the Superintendent, within fifteen (15) days of discovery of such misconduct.

If the Superintendent or designee reasonably suspects that conduct being reported involves an incident required to be reported under the Child Protective Services Law, the Educator Discipline Act or the Safe Schools Act, the Superintendent or designee shall make a report, in accordance with applicable law, regulations and Board policy.

“The required reporting form may be found at PDE’s Professional Standards & Practices Commission website, Educator Misconduct Complaint Form (PDE-348).”

It is a violation of this policy to retaliate against any person for reporting any action pursuant to this policy or for participating as a witness in any related investigation or hearing.

Investigation

Allegations of inappropriate conduct shall be promptly investigated in accordance with the procedures utilized for complaints of harassment.

It is understood that some reports made pursuant to this policy may be based on rumors or misunderstandings; the mere fact that the reported Adult is cleared of any wrongdoing shall not result in disciplinary action against the reporter or any witnesses. If as the result of an investigation any individual, including the reported Adult, the reporter, or a witness is found to have intentionally provided false information in making the report or during the investigation or hearings related to the report, or if any individual intentionally obstructs the investigation or hearings, such misconduct may be addressed as a violation of this policy and other applicable laws, regulations or district policies. Obstruction includes, but is not limited to, violation of “no contact” orders issued to the reported Adult, attempting to alter or influence witness testimony, or destruction of or hiding evidence.

Disciplinary Action

A district employee who violates this policy may be subject to disciplinary action, up to and including termination, in accordance with all applicable district disciplinary policies and procedures.

A volunteer, student teacher, or independent contractor or an employee of an independent contractor who violates this policy may be prohibited from working or serving in district schools for an appropriate period of time or permanently, as determined by the Superintendent or designee.

Training

The district shall provide recurrent training with respect to the provisions of this policy to current and new district employees, volunteers, and student teachers subject to this policy.

The district, at its sole discretion, may require independent contractors and their employees who interact with students or are present on school grounds to receive training on this policy and related procedures.

MAKE-UP POLICY

In accordance with District policy, all students are permitted to make-up work for excused, unlawful, and unexcused absences and receive credit for class work done. Students cutting classes will not receive credit for work done during the class period.

Teachers do not have the authority to devise their “own” system of dealing with make-up work. The following procedures are to be used:

Assignments Not Submitted On Time

Until submitted, work not submitted is handled as a zero. A seven percent (7%) penalty is deducted for each school day the assignments are submitted late. This does not permit students to routinely submit daily homework assignments late. “Assignment” here refers to reports, compositions, projects, major works, etc. It does not include daily homework (the purpose of which is independent practice that will be built upon during the next lesson.)

Assessments

For the purpose of this policy, assessments include but are not limited to tests, quizzes, projects, labs, and performance-based assessments.

If a student misses a regularly scheduled assessment or an assessment deadline, he/she may be permitted to take a make-up assessment or granted additional time to complete the assessment. Students need to follow the procedures described below for making up an assessment.

Students who miss an assessment or assessment deadline must see their teacher during Lunch and Learn on the day he/she returns to school to arrange a time to make-up the assessment. In the event students arrive at school after Lunch and Learn, the student must send an email to their teacher by the end of the day to make arrangements to complete the assessment.

Incomplete Marks

All missed work or assessments from the day(s) a student is absent will be entered as an 'X' until work is made up in accordance with the make-up policy. The 'X' will be calculated as a zero in the gradebook.

Multiple Day Absences (Excuses)

The length of time students have to submit assignments and complete tests missed due to multiple day absences is dependent upon the length of the absence. The following chart indicates the period of time available to complete work:

<u>Length of absence</u>	<u>Period to submit work</u>
2-5 days	1 day for each day absent.
6 or more	Arrangements are to be made through the guidance office.

One Day/Partial Day Absence

- Students absent for one day are required to submit all of the work due on the next school day.
- Students that are in school for a partial day are required to turn in announced projects and assignments that day.
- Any tests missed are to be completed on the day of return. (Tests not completed will be marked as a zero percent (0%).)
- If a student has an early dismissal or arrives late to school they need to turn in their assignments prior to leaving or upon arrival. Students should use Lunch and Learn to turn in assignments and communicate to their teacher(s). If Lunch and Learn is not available due to the timing of the early dismissal or late arrival, students are still required to communicate with their teachers in-person or through email.

Out-of-School Suspension

The student who is suspended out-of-school for a period of time may be allowed to make up work. Teachers will refer to the Multiple Day Absences section above to determine period of time allowed for completion.

Preannounced Assignment, Projects, Tests

With regard to all preannounced work that becomes due during an absence students are required to meet with their teacher(s) during Lunch and Learn to make arrangements for extended time to complete the work. The teacher may use the Multiple Day Absences timeline as a guide or the teacher and student may decide on a reasonable timeframe based upon the situation.

Tests and Quizzes

- If a student cuts class on the day of an assessment or classwork, he/she will receive a 0% for the assessment or classwork.

- If a student is in school and fails to get permission to miss class, they will receive a zero for all assessments and classwork.

NONDISCRIMINATION – QUALIFIED STUDENTS WITH DISABILITIES

Board Policy 103.1 - Last Revised February 12, 2018

Authority

The Board declares it to be the policy of this district to ensure that all district programs and practices are free from discrimination against all qualified students with disabilities. The Board recognizes its responsibility to provide academic and nonacademic services and programs equally to students with and without disabilities.

The district shall provide to each qualified student with a disability enrolled in the district, without cost to the student or parent/guardian, a free and appropriate public education (FAPE). This includes provision of education and related aids, services, or accommodations which are needed to afford each qualified student with a disability equal opportunity to participate in and obtain the benefits from educational programs and extracurricular activities without discrimination, to the same extent as each student without a disability, consistent with federal and state laws and regulations.

The Board encourages students and parents/guardians who believe they have been subjected to discrimination or harassment to promptly report such incidents to designated employees.

The Board directs that complaints of discrimination or harassment shall be investigated promptly, and corrective action be taken for substantiated allegations. Confidentiality of all parties shall be maintained, consistent with the district's legal and investigative obligations.

The district shall not intimidate, threaten, coerce, discriminate, or retaliate against any individual for the purpose of interfering with any right or privilege secured by this policy.

Definitions

Qualified Student with a Disability - a student who has a physical or mental disability which substantially limits or prohibits participation in or access to an aspect of the district's educational programs, nonacademic services or extracurricular activities.

Section 504 Team - a group of individuals who are knowledgeable about the student, the meaning of the evaluation data and the placement options for the student. This could include, as appropriate, documentation or input from classroom teachers, counselors, psychologists, school nurses, outside care providers and the student's parents/guardians.

Section 504 Service Agreement (Service Agreement) - an individualized plan for a qualified student with a disability which sets forth the specific related aids, services, or accommodations needed by the student, which shall be implemented in school, in transit to and from school, and in all programs and procedures, so that the student has equal access to the benefits of the school's educational programs, nonacademic services, and extra- curricular activities.

Disability harassment - intimidation or abusive behavior toward a student based on disability that creates a hostile environment by interfering with or denying a student's participation in or receipt of benefits, services, or opportunities in the school's educational programs, nonacademic services, or extracurricular activities.

Delegation of Responsibility

In order to maintain a program of nondiscrimination practices that is in compliance with applicable law and regulations, the Board designates the Director of Pupil Services as the district's Section 504 Coordinator.

In addition, each school within the district shall have a Section 504 building administrator.

The district shall publish and disseminate this policy and complaint procedure on or before the first day of each school year by posting it on the district's website, if available, and in the student handbook. The district shall notify parents/guardians of students residing in the district of the district's responsibilities under applicable law and regulations, and that the district does not discriminate against qualified individuals with disabilities.

Guidelines

Identification and Evaluation

The district shall conduct an annual child find campaign to locate and identify every district student with a disability thought to be eligible for Section 504 services and protections. The district may combine this search with the district's IDEA child find efforts, in order to not duplicate efforts.

If a parent/guardian or the district has reason to believe that a student should be identified as a qualified student with a disability, should no longer be identified as a qualified student with a disability, or requires a change in or modification of the student's current Service Agreement, the parent/guardian or the district shall provide the other party with written notice.

The district shall establish standards and procedures for initial evaluations and periodic re-evaluations of students who need or are believed to need related services because of a disability.

The district shall specifically identify the procedures and types of tests used to evaluate a student, and provide the parent/guardian the opportunity to give or withhold consent to the proposed evaluation(s) in writing.

The district shall establish procedures for evaluation and placement that assure tests and other evaluation materials:

1. Have been validated and are administered by trained personnel.
2. Are tailored to assess educational need and are not based solely on IQ scores.
3. Reflect aptitude or achievement or anything else the tests purport to measure and do not reflect the student's impaired sensory, manual or speaking skills (except where those skills are what is being measured).

Service Agreement

If a student is determined to be a qualified student with a disability, the district shall develop a written Service Agreement for the delivery of all appropriate aids, services, or accommodations necessary to provide the student with FAPE.

The district shall not implement a Service Agreement until the written agreement is executed by a representative of the district and a parent/guardian.

The district shall not modify or terminate a student's current Service Agreement without the parent's/guardian's written consent.

Educational Programs/Nonacademic Services/Extracurricular Activities

The district shall educate a qualified student with a disability with students who are not disabled to the maximum extent appropriate to the needs of the student with a disability. A qualified student with a disability shall be removed from the regular educational environment only when the district determines that educating the student in the regular educational environment with the use of related aids, services, or accommodations cannot be achieved satisfactorily. Placement in a setting other than the regular educational environment shall take into account the proximity of the alternative setting to the student's home.

The district shall not discriminate against any qualified student with a disability in its provision of nonacademic services and extracurricular activities, including but not limited to, counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs, and referrals to agencies which provide assistance to individuals with disabilities.

Parental Involvement

Parents/Guardians have the right to inspect and review all relevant school records of the student, meet with the appropriate school officials to discuss any and all issues relevant to the evaluation and accommodations of their child, and give or withhold their written consent to the evaluation and/or the provision of services.

Confidentiality of Student Records

All personally identifiable information regarding a qualified student with a disability shall be treated as confidential and disclosed only as permitted by the Family Educational Rights and Privacy Act (FERPA) and its implementing regulations, state regulations, and Board policy.

Discipline

When necessary, the district shall discipline qualified students with disabilities in accordance with state and federal laws and regulations and Board policies.

Referral to Law Enforcement and Reporting Requirements

For reporting purposes, the term incident shall mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco; or conduct that constitutes an offense listed under the Safe Schools Act.

The building principal shall immediately report required incidents and may report discretionary incidents committed on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity by a qualified student with a disability, including a student for whom an evaluation is pending, to the local police department that has jurisdiction over the school's property, in accordance with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement, and Board policies. The building principal shall respond in a manner that is consistent with the student's Service Agreement and Behavior Support Plan, if applicable.

In making a determination of whether to notify the local police department of a discretionary incident committed by a qualified student with a disability, including a student for whom an evaluation is pending, the building principal shall use the same criteria used for students who do not have a disability.

For a qualified student with a disability who does not have a Behavior Support Plan as part of the student's Service Agreement, subsequent to notification to law enforcement, the district, in consultation with the student's parent/guardian, shall consider whether a Behavior Support Plan should be developed as part of the Service Agreement to address the student's behavior.

In accordance with state law, the Superintendent shall annually, by July 31, report to the Office for Safe Schools on the required form all new incidents committed by qualified students with disabilities, including students for whom an evaluation is pending, which occurred on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity.

Procedural Safeguards

The district shall establish and implement a system of procedural safeguards that includes notice of rights to the parent/guardian of a student suspected of being a qualified student with a disability, an opportunity for the parent/guardian to review relevant records, an impartial hearing with an opportunity for participation by the student's parent/guardian, and a review procedure.

A student or parent/guardian filing a claim of discrimination need not exhaust these procedures prior to initiating court action under Section 504.

Parental Request for Assistance

Parents/Guardians may file a written request for assistance with the Pennsylvania Department of Education (PDE) if one (1) or both of the following apply:

1. The district is not providing the related aids, services and accommodations specified in the student's Service Agreement.
2. The district has failed to comply with the procedures and state regulations.

PDE shall investigate and respond to requests for assistance and, unless exceptional circumstances exist, shall, within sixty (60) calendar days of receipt of the request, send to the parents/guardians and district a written response to the request. The response to the parents'/guardians' request shall be in the parents'/guardians' native language or mode of communication.

Informal Conference

At any time, parents/guardians may file a written request with the district for an informal conference with respect to the identification or evaluation of a student, or the student's need for related aids, services or accommodations. Within ten (10) school days of receipt of the request, the district shall convene an informal conference. At the conference, every effort shall be made to reach an amicable agreement.

Formal Due Process Hearing

If the matters raised by the district or parents/guardians are not resolved at the informal conference, the district or parents/guardians may submit a written request for an impartial due process hearing. The hearing shall be held before an impartial hearing officer and shall be conducted in accordance with state regulations.

Judicial Appeals

The decision of the impartial hearing officer may be appealed to a court of competent jurisdiction.

Complaint Procedure

This complaint procedure is in addition to and does not prevent parents/guardians from using any option in the procedural safeguards system.

Step 1 – Reporting

A student or parent/guardian who believes s/he has been subject to conduct by any student, employee or third party that constitutes a violation of this policy is encouraged to immediately report the incident to the Section 504 building administrator. Any person with knowledge of conduct that may violate this policy, is encouraged to immediately report the matter to the Section 504 building administrator.

A school employee who suspects or is notified that a student has been subject to conduct that constitutes a violation of this policy shall immediately report the incident to the Section 504 building administrator, as well as properly making any mandatory police or child protective services reports required by law.

If the Section 504 building administrator is the subject of a complaint, the student, parent/guardian, or employee shall report the incident directly to the district's Section 504 Coordinator - Director of Pupil Services.

The complainant or reporting employee may be encouraged to use the district's report form, available from the Section 504 building administrator or Section 504 Coordinator, or to put the complaint in writing; however, oral complaints shall be accepted, documented and the procedures of this policy implemented. The person accepting the verbal or written complaint may provide factual information on the complaint and the investigative process, the impact of choosing to seek confidentiality and the right to file criminal charges. In all other respects, the person accepting the complaint shall handle the report objectively, neutrally, and professionally, setting aside personal biases that might favor or disfavor the complainant or those accused of a violation of this policy.

Step 2 – Investigation

Where an attorney is not used to conduct an investigation into a discrimination complaint, only individuals who have received basic training on the applicable law, this policy and how to conduct a proper investigation shall be authorized to conduct an investigation of a complaint made pursuant to this policy.

The investigator shall work with the Section 504 Coordinator to assess the anticipated scope of the investigation, who needs to be interviewed and what records may be relevant to the investigation.

The investigator shall conduct an adequate, reliable, and impartial investigation. The complainant and the accused shall be provided the opportunity to present witnesses and other evidence during the course of the investigation. When the initial complaint involves allegations relating to conduct which took place away from school property, school-sponsored activities or school conveyances, the investigation may include inquiries related to these allegations to determine whether they resulted in continuing effects such as harassment in school settings.

The investigation may consist of individual interviews with the complainant, the accused, and others with knowledge relative to the allegations. The investigator may also evaluate any other information and materials relevant to the investigation. The person making the report, parties, parents/guardians, and witnesses shall be informed of the prohibition against retaliation for anyone's participation in the process and that conduct believed to be retaliatory should be reported. All individuals providing statements or other information or participating in the investigation shall be instructed to keep the matter confidential and to report any concerns about confidentiality to the investigator.

If the investigation reveals that the conduct being investigated may involve a violation of criminal law, the investigator shall promptly notify the Section 504 Coordinator, who shall promptly inform law enforcement authorities about the allegations.

The obligation to conduct this investigation shall not be negated by the fact that a criminal or child protective services investigation of the allegations is pending or has been concluded. The investigator should coordinate with any other ongoing investigations of the allegations, including agreeing to requests for a short delay in fulfilling the district's investigative responsibilities during the fact-finding portion of a criminal or child

protective services investigation. Such delays shall not extend beyond the time necessary to prevent interference with or disruption of the criminal or child protective services investigation.

Step 3 – Investigative Report

The investigator shall prepare and submit a written report to the Section 504 Coordinator within twenty (20) days of the initial report of alleged discrimination, unless the nature of the allegations, anticipated extent of the investigation or the availability of witnesses requires the investigator and the Section 504 Coordinator to establish a different due date. The parties shall be notified of the anticipated date the investigative report will be completed and of any changes to the anticipated due date during the course of the investigation.

The report shall include a summary of the investigation, a determination of whether the complaint has been substantiated as factual, the information and evaluation that formed the basis for this determination, whether the conduct violated this policy and of any other violations of law or Board policy which may warrant further district action, and a recommended disposition of the complaint. An investigation into disability harassment shall consider the record as a whole and the totality of circumstances in determining whether a violation of this policy has occurred, recognizing that persistent and pervasive conduct, when taken together, may be a violation even when the separate incidents are not severe.

The complainant and the accused shall be informed of the outcome of the investigation, including the recommended disposition, within a reasonable time of the submission of the written report. The accused shall not be notified of the individual remedies offered or provided to the complainant.

Step 4 – District Action

If the investigation results in a finding that some or all of the allegations of the complaint are established and constitute a violation of this policy, the district shall take prompt, corrective action designed to ensure that such conduct ceases and that no retaliation occurs. The district shall promptly take appropriate steps to prevent the recurrence of the prohibited conduct and to address the discriminatory effect the prohibited conduct had on the complainant and the school or school program environment. District staff shall document the corrective action taken and, where not prohibited by law, inform the complainant. The Section 504 Coordinator shall follow up by assessing the effectiveness of the corrective action at reasonable intervals.

If the investigation results in a finding that a different policy was violated separately from or in addition to violations of this policy, or that there are circumstances warranting further action, such matters shall be addressed at the conclusion of this investigation or through disciplinary or other appropriate referrals where further evaluation or investigation is necessary.

Disciplinary actions shall be consistent with the Code of Student Conduct, Board policies and administrative regulations, district procedures, applicable collective bargaining agreements, and state and federal laws.

Appeal Procedure

1. If the complainant or the accused is not satisfied with a finding made pursuant to the policy or with recommended corrective action, s/he may submit a written appeal to the district's Section 504 Coordinator within fifteen (15) days.
2. The Section 504 Coordinator shall review the investigation and the investigative report and may also conduct a reasonable supplemental investigation to assess the sufficiency and propriety of the prior investigation.
3. The Section 504 Coordinator shall prepare a written response to the appeal within twenty (20) days. Copies of the response shall be provided to the complainant, the accused and the investigator who conducted the initial investigation.

OBLIGATIONS

Obligations may be held by the School District throughout a student's high school career. These obligations may forfeit the students' opportunity to participate in school sponsored sports or activities. These include, but are not limited to: detentions, financial obligations, library obligations, and sports equipment. At the end of each school year a letter will be sent home that identifies the obligations that students are responsible for before the start of the next school year. At the end of the student's senior year, if obligations still exist, a diploma will not be issued.

OUTSIDE OF THE BUILDING

Students outside of the building during the school day without permission from a staff member will be subject to discipline according to the student code of conduct.

PARENTSQUARE (DISTRICT NOTIFICATIONS)

The District utilizes "ParentSquare" to communicate information to parents and students for events, school cancellations, delays, activities, attendance, and etc. All parents should have an account at www.parentsquare.com linked to your student(s). Please verify your phone number(s) and notification settings after logging in to ParentSquare.

PARKING ON SCHOOL PROPERTY/STUDENT DRIVERS

Parking at school is a privilege and it must be treated as such. A parking permit may be suspended or revoked if a student's behavior in school is found to be inappropriate or unacceptable. Student drivers are subject to state and borough regulations when operating an automobile on school grounds. Application for student parking is only available to students with a valid driver's license. The regulations governing student drivers will be strictly enforced.

Driving privileges may be immediately revoked if/when the District becomes aware of any student driver being issued a warning or citation for any summary violation by law enforcement while traveling on or near school district property. The incident will be reviewed by school administration for sanctions such as warning, revocation of the student's parking permit, and/or discipline according to the student code of conduct.

Any violation of these regulations will result in notification of police, parent contact, loss of driving privileges, and discipline according to the student code of conduct. Students are required to register all vehicles to be driven to school and to display parking permits on the rearview mirror of the car. Any student vehicle parked in an undesignated area will be ticketed at the owner's expense. Vehicles without a parking permit are also considered illegal and may be towed at owner's expense. Students that have had driving privileges revoked and park on school property may have their vehicle towed at the owner's expense. Students are not to loiter in the parking lot but report directly to the building. Once a student is on school property, they are expected to attend classes. Leaving school property without permission will result in discipline according to the student code of conduct.

The school is not responsible for the safety and protection of vehicles parked on school property.

Please note: students that need to access their vehicles must sign in/out in the high school main office. Students are not permitted to access another student's vehicle without the owner and administrative approval, failure to do so could result in disciplinary action. Students that drive or park vehicles on school grounds that display in-appropriate decals are subject to disciplinary action. This could include loss of driving privileges.

POSSESSION/ADMINISTRATION OF ASTHMA INHALERS/EPINEPHRINE AUTO INJECTORS

Board Policy 210.1 - Last Revised December 3, 2018

Authority

The Board shall permit students in district schools to possess asthma inhalers and epinephrine auto-injectors and to self-administer the prescribed medication in compliance with state law and Board policy.[1][2]

The Board shall authorize the district to stock epinephrine auto-injectors in the name of the school district for emergency administration by trained employees to a student believed to be experiencing an anaphylactic reaction.[3]

Definitions

Anaphylaxis - a sudden, severe allergic reaction that involves various areas of the body simultaneously. In extreme cases, anaphylaxis can cause death.

Asthma inhaler shall mean a prescribed device used for self-administration of short-acting, metered doses of prescribed medication to treat an acute asthma attack.[4]

Epinephrine auto-injector shall mean a prescribed disposable drug delivery system designed for the administration of epinephrine to provide rapid first aid for students suffering the effects of anaphylaxis.

Self-administration shall mean a student's use of medication in accordance with a prescription or written instructions from a licensed physician, certified registered nurse practitioner or physician assistant.

Delegation of Responsibility

The Superintendent or designee, in conjunction with the school nurse(s), shall develop procedures for student possession and self-administration of asthma inhalers or epinephrine auto-injectors and emergency response, and for the acquisition, stocking and administration of stock epinephrine auto-injectors, and training of school employees responsible for the storage and use of epinephrine auto-injectors.

The Superintendent or designee shall annually distribute to students, parents/guardians, and staff this policy along with the Code of Student Conduct by publishing such in handbooks and newsletters, on the district's website, and through posted notices and other efficient methods.[1][5][6][7]

The school nurse shall be responsible for building-level storage of and administration of stock epinephrine auto-injectors.[3]

The building principal shall annually notify parents/guardians of their right to opt-out of the provisions of this policy related to the administration of a stock epinephrine auto-injector. To opt-out, a parent/guardian shall sign and return the district's exemption form to the school nurse. The signed opt-out forms shall be maintained by the school nurse, and the school nurse shall provide trained school employees with the names

of students whose parents/guardians have returned a signed opt-out form.[3]

Guidelines

Administration of asthma inhalers and epinephrine auto-injectors shall comply with Board policy, district procedures and individualized student plans such as an Individualized Education Program (IEP), Section 504 Service Agreement (Service Agreement), Individualized Healthcare Plan (IHP), or Emergency Care Plan (ECP).[2][3][8][9][10][11]

In order to maintain a student's health and safety, each student's individualized plan shall address what information will be provided to school staff and other adults who have responsibility for the student in the school setting.[2][9][12][13][14][15]

Student health records shall be confidential and maintained in accordance with state and federal laws and regulations.[13][14]

Student Self-Administration of Asthma Inhalers and Epinephrine Auto-Injectors

Before a student may possess or use an asthma inhaler or epinephrine auto-injector in the school setting, the Board shall require the following:[1][8]

1. A written request from the parent/guardian that the school complies with the order of the licensed physician, certified registered nurse practitioner or physician assistant.
2. A written statement from the parent/guardian acknowledging that the school is not responsible for ensuring the medication is taken and relieving the district and its employees of responsibility for the benefits or consequences of the prescribed medication.
3. A written statement from the licensed physician, certified registered nurse practitioner or physician assistant that states:

4. A written acknowledgement from the school nurse that the student has demonstrated that s/he is capable of self-administration of the asthma inhaler and/or epinephrine auto-injector in the school setting. Determination of competency for self-administration shall be based on the student's age, cognitive function, maturity and demonstration of responsible behavior.[1]
5. A written acknowledgement from the student that s/he has received instruction from the student's licensed physician, certified registered nurse practitioner or physician assistant on proper safety precautions for the handling and disposal of the asthma inhaler and/or epinephrine auto-injector,

including acknowledgement that the student will not allow other students to have access to the prescribed medication and that s/he understands appropriate safeguards.

The district reserves the right to require a statement from the licensed physician, certified registered nurse practitioner or physician assistant for the continued use of a medication beyond the specified time period.[1]

A written request for student use of an asthma inhaler and/or epinephrine auto-injector shall be submitted annually, along with required written statements from the parent/guardian and an updated prescription. If there is a change in the student's prescribed care plan, level of self-management or school circumstances during the school year, the parent/guardian and the licensed physician, certified registered nurse practitioner or physician assistant shall update the written statements.[1]

The student shall notify the school nurse immediately following each use of an asthma inhaler or epinephrine auto-injector.[1]

Students shall be prohibited from sharing, giving, selling, and using an asthma inhaler or epinephrine auto-injector in any manner other than which it is prescribed during school hours, at any time while on school property, at any school-sponsored activity, and during the time spent traveling to and from school and school-sponsored activities. Violations of this policy, provisions of a Service Agreement or IEP, or demonstration of unwillingness or inability to safeguard the asthma inhaler or epinephrine auto-injector may result in loss of privilege to self-carry the asthma inhaler or epinephrine auto-injector and disciplinary action in accordance with Board policy and applicable procedural safeguards.[1][2][7][16][17]

If the district denies a student's request to self-carry an asthma inhaler or epinephrine auto-injector or the student has lost the privilege of self-carrying an asthma inhaler or epinephrine auto-injector, the student's prescribed medication shall be appropriately stored at a location in close proximity to the student. The school nurse, other designated school employees and the student's classroom teachers shall be informed where the medication is stored and the means to access the medication.[1]

2. Date of issue.
3. Dosage.
4. Signature of the school physician.

The standing order shall be maintained in the Superintendent's office, and copies of the standing order shall be kept in each location where a stock epinephrine auto-injector is stored.

Stock epinephrine auto-injectors shall be safely stored in the school nurse's office or other location designated by the school nurse in accordance with the drug manufacturer's instructions.

Stock epinephrine auto-injectors shall be made readily accessible to those employees who have completed the required training to administer it in the event of a student experiencing an anaphylactic reaction. All properly

trained employees shall be informed of the exact location where stock epinephrine auto-injectors are being stored within the school nurse's office or other location.

The school nurse shall obtain sufficient supplies of stock epinephrine auto-injectors pursuant to the standing order in the same manner as other medical supplies acquired for the school health program. The school nurse or designee shall regularly inventory and refresh epinephrine auto-injector stocks, and maintain records thereof, in accordance with the established internal procedures, manufacturer recommendations and Pennsylvania Department of Health guidelines.

Administration of Stock Epinephrine Auto-Injectors

When responding to a student believed to be experiencing an anaphylactic reaction, a trained school employee shall:[3][18][19][20][21]

1. Administer an epinephrine auto-injector that meets the prescription on file for either the student or the district. If the student is authorized to self-administer an epinephrine auto-injector, the trained school employee may provide the student with an epinephrine auto-injector that meets the prescription on file for either the student or the district for self-administration.
2. Call for medical help immediately (dial 9-1-1).
3. Take additional precautions or steps outlined in emergency response procedures and training, including the administration of a second dose of epinephrine, if necessary.
4. Stay with the student until emergency medical help arrives.

Evidence that such training has been completed shall be placed in the employee's personnel file.

A list of school district employees who successfully complete such training shall be maintained, updated and kept in the school nurse's office and the school district administration office.

Indemnification

The school district shall indemnify and hold harmless any employee who administers an epinephrine auto-injector in good faith to a student experiencing anaphylaxis, if all of these conditions apply:[3][22][23][24]

1. The employee did not act with the intent to harm or with reckless indifference to a substantial risk or harm in administering the epinephrine auto-injector to the student.
2. The employee successfully completed the training required by this policy.
3. The employee promptly sought additional medical assistance before or immediately after administering the epinephrine auto-injector.

4. The employee administered the epinephrine auto-injector pursuant to this policy, and the student's individualized plan, if applicable.

Students and parents should use the program of studies for additional information on course pathways, scheduling procedures and changes, awarding of credits to graduation, testing, student acceleration options, state graduation requirements, individualized graduation requirements, graduation ceremonies, graduation honors, and GPA calculations.

REMOTE LEARNING EXPECTATIONS AND STANDARDS OF BEHAVIOR

Depending on various circumstances, our classroom environment could become one of remote learning, the standards of behavior are as important as they are in the traditional school setting. As such, appropriate student behavior is expected. While working with Grove City Area School District's online resources and remote classroom and instruction, participants and guardians are expected to abide by the following rules:

Academic Integrity and Quality of Work

Learners in a remote classroom or who are participating in a remote learning platform or some other form of live streaming (e.g., Google Meet) will be expected to turn in their own work. The teachers have a number of technologies to check that student work is unique and their own.

With that in mind, learners and guardians must abide by the following rules:

1. Videos, pictures, or copies of either student generated work or teacher work should never be shared as posts on social media, gaming networks, or elsewhere online.
2. Learners should not use or attempt to access files or content that do not belong to them, or that they have no legitimate reason to access.
3. Copying the work of others, allowing others to knowingly copy a student's work, and/or misusing content from the internet is cheating, and students may suffer the same consequences. (Refer to Cheating and Plagiarism pgs. 17)

4. Collaboration with other students is prohibited unless directed to do so by the teacher. In addition, guardians, parents, or acquaintances of the learner may not log in to a student account and complete coursework on behalf of the student.
5. Students should not use excessive “slang”, written abbreviations, or language that they might use in other environments for completion of online work and graded tasks.

Digital Citizenship and Appropriate Use of Technology

It is important to not only teach content, but also have students be aware of their actions in a remote learning environment. Students and staff have rights to their own privacy that cannot be violated.

Learners and guardians must abide by the following rules:

1. Learners and guardians must respect the privacy of others online, and on all devices accessed or used.
2. The sites and tools approved by the Grove City Area School District will not request private information from learners or guardians. At no time should private information be given to programs of outside access. That information includes last name, phone number, address or school name.
3. Hurtful, harassing, or threatening messages, or inappropriate photos and/or videos are in no way permissible through Grove City’s remote learning content or while participating in the live streaming of a lesson.
4. No pictures or videos should be taken, sent, or shared of anyone without that person’s permission. This includes teachers or any other Grove City Area School District staff.
5. No comment, whether written or spoken, should be made unless you are completely comfortable with your principal and/or guardians seeing or knowing about it. This includes any profile pictures.
6. As a remote learner, your communication with your teacher will be slightly different than in a traditional setting. As such, the learner’s school email account must be checked on every date of virtual instruction, and responses should be sent to instructor questions or comments in a timely manner.
7. Violations of some rules in this section may also result in violations of the Family Educational Rights Privacy Act (or FERPA), the school’s anti-bullying policy, or the school’s academic integrity policy, and may be subject to disciplinary action.
8. If you witness anything in your remote learning classroom that appears to violate any rule stated within the remote learner standards of behavior, please notify your teacher immediately.

Additional Disciplinary Information

In any classroom, there is always the potential for actions that detract from the learning experience. Adding the remote learning component to our traditional classroom will cause some differences in expectations.

We wanted to reassert the following:

1. Being intentionally disruptive to a live class with an online account is not acceptable and may result in the same consequences as being disruptive in the classroom.
2. Copying the work of others, allowing others to knowingly copy a student’s work, and/or misusing content from the internet is cheating, and students may suffer the same consequences.
3. Disciplinary action of students in a remote learning environment will be done in the same manner as students violating school rules in a traditional setting.
4. Grove City students are subject to all local, state, and federal laws governing the internet. As such, district administrators will cooperate fully with local, state, or federal officials in any investigation related to illegal activities conducted through internet access.

Grove City Online Academy Expectations

The GCHS Online Academy is a learning platform that allows Grove City High School students the ability to engage school curriculum from a fully remote setting. These courses are offered to students through a variety of platforms including, but not limited to Google Classroom, Google Sites, and Edgenuity. Each of the courses is customized and monitored by GCASD staff. Although the delivery of the curriculum is different from in-person learning, students are expected to maintain many of the same standards expected of in-person learners. These standards of expectation include, but are not limited to the following:

1. Submit only your own work. Copy and pasting information from sites on the internet is explicitly prohibited and will be processed as plagiarism.
2. Work must be completed individually. Students are not to share answers on assignments or activities for any online course.
3. Although students may not meet with their assigned instructor in a face-to-face manner, the same level of professionalism and respect must be given to the GCASD employee teaching the course as is expected of students learning in-person.

Synchronous Learning Expectations

Synchronous learning requires students to participate remotely in the greatest capacity possible through a real time classroom experience. Students participating in approved synchronous learning are expected to attend every class through Google Meet for the entirety of the class period, participate in the class activities, and complete and submit work on regularly scheduled course deadlines. Students seeking to participate in synchronous learning must first contact Dr. Nemet and their assigned guidance counselor with the expected dates and reason, to be approved before the start of synchronous learning. Once approved, students should reach out to each of their teachers letting them know of their request for synchronous learning in advance of the start date.

Approved Reasons for Synchronous Learning

1. Approved Absences for Educational Travel
2. Extended Absences due to Illness or Injury
3. Advanced Notification of Future Approved Absences

Non-Approved Reasons for Synchronous Learning

1. Student does not feel well that day
2. Student does not want to participate in person for a particular activity
3. Student does not want to take an assessment
4. Weather conditions including rain, snow, or ice

REPORT CARDS

Teachers are responsible for determining the mark awarded to each student. (Flexibility is permitted to enable teachers to vary practices according to the needs of a particular group, the type of material being learned and the nature of the course.)

Marks for students measure achievement in the instructional material and concepts included in the course. All homework, tests, class work, projects, laboratory experiences that are to be evaluated are included in the mark awarded for the marking period.

Report cards are issued to every student on a 9-week basis indicating the quality and quantity of achievement during the particular marking period. Each teacher determines a percentage mark for each student assigned to his/her class.

Report cards are handled through the guidance department. Grove City Area Senior High School utilizes a computerized report card system through the Tyler Technologies Portal.

SCHOOL COUNSELING SERVICES

The school counseling department is located beside the main office. Facilities include a resource room and two private counseling offices. In the resource room, printed materials relating to career, college, and other post-high school opportunities are provided.

Two school counselors are available to all students, grades 9-12. Michelle Albertini is the counselor for students with the last names starting with A-K and Stephanie Sumner is the counselor for students with last names starting with L-Z. However, students may choose to see either school counselor.

School counseling services include career information, individual and group counseling, student scheduling, Mercer County Career Center coordination, homebound instruction, and withdrawals.

Students are given assistance in making long- and short-range plans, in setting realistic goals, and in using different strategies for dealing with everyday problems. Students and parents are encouraged to take advantage of the school counseling department.

Summer Hours: Summer hours will vary. Please see the website.

The following major services are provided to students and are available upon request:

Competitive Foods -

Competitive foods available for sale shall meet or exceed the established federal nutrition standards (USDA Smart Snacks in School). These standards shall apply in all locations and through all services where foods and beverages are sold to students, which may include, but are not limited to: a la carte options in cafeterias, vending machines, school stores, snack carts and fundraisers.[3][18][19]

Competitive foods are defined as foods and beverages offered or sold to students on school campus during the school day, which are not part of the reimbursable school breakfast or lunch.

For purposes of this policy, **school campus** means any area of property under the jurisdiction of the school that students may access during the school day.[3][18]

For purposes of this policy, **school day** means the period from midnight before school begins until thirty (30) minutes after the end of the official school day.[3][18]

The district may impose additional restrictions on competitive foods, provided that the restrictions are not inconsistent with federal requirements.[18]

Fundraiser Exemptions -

Fundraising activities held during the school day involving the sale of competitive foods shall be limited to foods that meet the Smart Snacks in School nutrition standards, unless an exemption is approved in accordance with applicable Board policy and administrative regulations.[20]

The district may allow a limited number of exempt fundraisers as permitted by the Pennsylvania Department of Education each school year: up to five (5) exempt fundraisers in elementary and middle school buildings, and up to ten (10) exempt fundraisers in high school buildings. **Exempt fundraisers** are fundraisers in which competitive foods are available for sale to students that do not meet the Smart Snacks in School nutrition standards.[18]

The district shall establish administrative regulations to implement fundraising activities in district schools, including procedures for requesting a fundraiser exemption.

Non-Sold Competitive Foods -

Non-sold competitive foods available to students, which may include but are not limited to foods and beverages offered as rewards and incentives, at classroom parties and celebrations, or as shared classroom snacks, shall meet or exceed the standards established by the district.

If the offered competitive foods do not meet or exceed the Smart Snacks in School nutrition standards, the following standards shall apply:

1. Rewards and Incentives:

2. Classroom Parties and Celebrations:

- a. Classroom parties shall offer a minimal amount of foods (maximum 2-3 items) containing added sugar as the primary ingredient (e.g., cupcakes, cookies) and will provide the following:

Exclusive competitive food and/or beverage contracts shall be approved by the Board, in accordance with provisions of law. Existing contracts shall be reviewed and modified to the extent feasible to ensure compliance with established federal nutrition standards, including applicable marketing restrictions.[21]

The district shall establish Board policy and administrative regulations to address food allergy management in district schools in order to:[22]

- 1. Reduce and/or eliminate the likelihood of severe or potentially life-threatening allergic reactions.

Safe Routes to School

The district shall cooperate with local municipalities, public safety agency, police departments and community organizations to develop and maintain safe routes to school.

SEARCHES POLICY

Board Policy 226 - Adopted January 20, 2014

Purpose

The Board acknowledges the need to respect the rights of students to be free from unreasonable searches and seizures while fulfilling the district's interest in protecting and preserving the health, safety and welfare of the school population, enforcing rules of conduct, and maintaining an appropriate atmosphere conducive to learning.

Authority

School officials have the authority to lawfully search students or their belongings, including desks, lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, without a warrant, when in school, on school grounds or when otherwise under school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, Board policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband, or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.

The district has a compelling interest in protecting and preserving the health, safety and welfare of the school population, which under certain circumstances may warrant general or random searches of students and their desks, lockers, vehicles or other belongings without individualized suspicion, for the purpose of finding or preventing entry onto school property of controlled substances, weapons or other dangerous materials.

Delegation of Responsibility

The Board authorizes the administration to conduct searches of students or their belongings, including desks, lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions in accordance with the standards set forth in this policy.

The Superintendent or designee, in consultation with the district solicitor, shall develop guidelines and procedures to implement this policy, and shall ensure that school staff who are involved in carrying out searches or determining when searches will be conducted receive appropriate periodic training about such procedures and currently applicable legal standards.

Students, parents/guardians, and staff shall be notified at least annually, or more often if deemed appropriate by administration, about the standards and procedures in effect pursuant to this policy.

Guidelines

Individualized Suspicion Searches

Students or their belongings, including desks, lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, may be searched without a warrant when in school, on school grounds or when otherwise under school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, Board policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband, or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.

In determining whether reasonable suspicion exists, the principal or designee always should be able to articulate what is being looked for, and why it is thought to be located in the particular place to be searched. The scope of a search should be limited to the place or places the item sought is believed to be.

Examination by school staff of text messages, call logs, files, images or other data contained in a student's mobile telephone or other electronic device, without the student's consent, normally constitutes a search that must be justified by reasonable suspicion that material in violation of law, district policy or school rules, or evidence of such a violation, is contained in the particular files, directories or other data locations being examined in the device.

Random or General Searches Without Individualized Suspicion

Under certain circumstances, random or general searches of students and their belongings, including student desks, lockers or vehicles parked on school property, may be conducted during the school day or upon entry into school buildings or school activities, in the absence of suspicion focused on a particular student or students, for the purpose of finding or preventing entry onto school property or activities of controlled substances, weapons or other dangerous materials. Such searches normally will be conducted in a minimally intrusive manner using screening methods such as dogs or other animals trained to detect controlled substances, explosives, or other harmful materials by smell, as well as metal detectors and other technology. When such screening methods provide a reasonable suspicion that particular students, items or places possess or contain controlled substances, weapons or other dangerous material, screening may be followed by physical searches of those particular students, items or places on an individualized basis.

Random or general searches for weapons may be conducted when there are circumstances, information or events tending to indicate increased likelihood that students may be armed or headed for physical confrontation because of community strife or tensions, or as a continuation or escalation of a prior incident, in or out of school, which threatens to spill over into school, into a school-sponsored activity, or into other times and places that students are under school supervision.

Random or general searches for controlled substances may be conducted when there are circumstances, events or information tending to indicate significant drug use, possession, or trafficking among students in school.

Random or general searches not based on individualized suspicion must be approved in advance by the Superintendent or designee, in consultation with the district solicitor. Coordination with law enforcement officials will be accomplished as provided in the memorandum of understanding with the applicable law enforcement agency.

Searches Upon Consent

Searches may be conducted at any time, with or without reasonable suspicion, if the student has given knowing and voluntary consent specific to the place to be searched.

The administration may establish rules and procedures governing certain privileges enjoyed by students, such as the privilege of parking a vehicle on school grounds, that make the student's consent to random searches or inspections a condition of access to the privilege.

Searches by or at the Request of Law Enforcement Officials

The legal standards governing searches initiated by school officials are less strict than the standards applicable to law enforcement authorities in many situations. When searches of students, student belongings, desks, vehicles or lockers are conducted by or at the request of law enforcement officials, with or without the involvement of school staff, the law enforcement officials are solely responsible for ensuring that a warrant has been issued or that the circumstances otherwise permit the search to be lawfully conducted in accordance

with the standards applicable to law enforcement actions. School staff will not interfere with or obstruct searches initiated by law enforcement, but may assist when law enforcement officials have requested such assistance and have represented that a warrant has been issued or that they otherwise have proper authority for a lawful search.

Lockers are assigned to or otherwise made available to students as a convenience for the safe storage of books, clothing, school materials and limited personal property, and to facilitate movement between classes and activities and to and from school. Such lockers are and shall remain the property of the school district, and to the extent students have any expectation of privacy of lockers at all, it is very limited.

No student may place or keep in a locker any substance or object that is prohibited by law, Board policy or school rules, or that constitutes a threat to the health, safety or welfare of the occupants of the school building or the building itself. Students are required to ensure that their lockers do not contain spoiled food items or beverages, or soiled clothing which may attract pests, create odors, or cause unhealthy conditions. A student locker may be opened and inspected for cleanliness, with or without the consent of the student, whenever there are odors, pests or other indications that a locker contains spoiled food, soiled clothing in need of laundering or similarly unhealthy matter.

Students are exclusively responsible for locking their assigned lockers to ensure the security of their personal belongings and school property entrusted to them. Students are permitted to secure their assigned lockers only with locks provided by the district, or if the district does not provide locks, personal combination locks for which the combination has been provided to designated school staff.

Prior to an individual locker search or inspection, the student to whom the locker is assigned shall be notified and be given a reasonable opportunity to be present. However, when there is a reasonable suspicion that a locker contains materials which pose a threat to the health, welfare or safety of the school population, student lockers may be searched without prior notice to the student.

The principal or a designated staff person shall be present whenever a student locker is inspected for cleanliness or is searched. The principal or designee shall maintain written records of all occasions when a locker is searched or inspected. Such records shall include the reason(s) for the search, persons present, objects found and their disposition.

Searches Involving Removal of Clothing or Examination Beneath Clothing

Searches of students involving the removal of undergarments or examination beneath undergarments are subject to stricter standards than are required to justify other searches of a student's person or belongings. Such searches are permitted only when the basis for suspicion establishes either:

1. That the reasons for believing that the items being searched for are concealed specifically inside undergarments are stronger reasons than grounds that would support only a more general reasonable suspicion that the student is in possession of the items or has them somewhere on the student's person; or,
2. That the quantity or nature of the items being sought present a higher level of danger to the school population than other kinds of contraband.

Searches involving the removal of or examination beneath any clothing of a student, other than jackets, coats, or other outerwear, shall be conducted only by a staff person of the same gender as the student, with at least one (1) other staff person of the same gender present as a witness, and in a location assuring privacy from observation by persons not involved in the search or of the opposite sex.

Searches involving the removal of undergarments or examination beneath undergarments will be conducted only after consultation with the district solicitor.

Handling and Disposal of Items Found in the Course of Searches

Any items or material found during a search or inspection, the student's possession of which is in violation of law, district policies or school rules, or otherwise is evidence of such a violation, may be confiscated, and may be used as evidence in student discipline proceedings or a criminal investigation, even if such items or material were not the original objective of the search or inspection.

The principal shall be responsible to ensure that confiscated items or material are properly inventoried and secured until the conclusion of disciplinary action, if any, and are then properly disposed of if not appropriate to be returned to the student. Items or materials that are evidence of a criminal offense, or that are not lawful for ordinary citizens to possess will be promptly turned over to proper law enforcement authorities for custody or disposal.

SPORTSMANSHIP

All students who attend any interscholastic contest must behave appropriately. Attendance is a privilege and not a license to verbally assault others and be generally obnoxious. Remember, you are representing Grove City Area High School, therefore, we expect you to act in a mature manner. Show respect for the opposing players, coaches, officials, spectators, and support groups. Refrain from criticizing officials, name calling, use of profanity, throwing objects, and/or any other rude behavior. Any student or students who behave in a manner as described above will be asked to leave the contest and possibly be suspended from future events, as well as receive disciplinary action as identified in our student code of conduct.

STUDENT ASSISTANCE PROGRAM (SAP)

Students with serious personal/social problems or serious academic difficulties are encouraged to seek help of the SAP Team through any school staff member. All discussions are kept strictly confidential. Any student who feels that another student may need help should discuss this situation with one of the school counselors.

The purpose of the team is to assist students through an in-depth case study approach, using in-house resources or referring to outside agencies. The SAP Team has a close working relationship with the Mercer County Behavioral Health Commission, and other counseling and helping agencies.

The SAP Team consists of trained teachers, school counselors, the school nurse, the school psychologist and the assistant principal. Students may contact any of these individuals.

STUDENT ACTIVITIES

Only recognized clubs related to school activities are permitted in the school setting. All clubs must be supervised by a senior high school staff member.

Activity Fund

Only authorized student activity groups may maintain activity accounts. The Grove City Area School District has established guidelines for the control and use of such funds. Only authorized persons may expend funds as approved by the activity group. These funds are subject to state audits.

Fund Raising

Fund raising activities are limited to the Student Council and clubs approved by the School Board. All fund-raising activities must be approved by the administration in accordance with School Board Policy 229. Student fund raising forms are available in the high school office.

STUDENT COUNCIL

Student Council is a school service organization. It is responsible for fostering school spirit, encouraging good citizenship, and promoting mutual respect and cooperation between the student body and the administration and staff. Student council may also serve as a link between the students and the administration in a continuing effort to maintain a positive learning atmosphere in the school.

Student Council is responsible for student clubs, for homecoming activities, winter festival, parent recognition nights for senior athletes, posting information on the school marquee, and other responsibilities delegated by the school administration or student council advisor.

STUDENT EXPRESSION/DISTRIBUTION AND POSTING OF MATERIALS

Board Policy 220 - Last Revised May 11, 2020

Purpose

The right of public school students to freedom of speech is guaranteed by the Constitution of the United States and the constitution of the Commonwealth. The Board respects the right of students to express themselves in word or symbol and to distribute and post materials in areas designated for posting as a part of that expression. The Board also recognizes that the exercise of that right must be limited by the district's responsibility to maintain a safe and orderly school environment and to protect the rights of all members of the school community.[1]

This policy addresses student expression in general and distribution and posting of materials that are not part of district-sponsored activities. Materials sought to be distributed or posted as part of the curricular or extracurricular programs of the district shall be regulated as part of the school district's educational program.

Definitions

Distribution means students issuing nonschool materials to others on school property or during school-sponsored events; placing upon desks, tables, on or in lockers; or engaging in any other manner of delivery of nonschool materials to others while on school property or during school functions. When email, text messaging or other technological delivery is used as a means of distributing or accessing nonschool materials via use of school equipment or while on school property or at school functions, it shall be governed by this policy. Off-campus or after hours distribution, including technological distribution, that does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights is also covered by this policy.

Expression means verbal, written, technological or symbolic representation or communication.

Nonschool materials means any printed, technological or written materials meant for posting or general distribution that are not prepared as part of the curricular or approved extracurricular programs of the district. This includes, but is not limited to, fliers, invitations, announcements, pamphlets, posters, Internet bulletin boards, personal websites and the like.

Posting means publicly displaying nonschool materials on school property or at school-sponsored events, including but not limited to affixing such materials to walls, doors, bulletin boards, easels, the outside of lockers; on district-sponsored or student websites; through other district-owned technology and the like. When email, text messaging or other technological delivery is used as a means of posting nonschool materials via use of school equipment or while on school property or at school functions, it shall be governed by this policy. Off-campus or after hours posting, including technological posting, that does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights is also covered by this policy.

Authority

Students have the right to express themselves unless such expression is likely to or does materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights.[1]

Student expression that occurs on school property or at school-sponsored events is fully governed by this policy. In addition, off-campus or after hours expression is governed by this policy if the student expression involved constitutes unprotected expression as stated in this policy and provided the off-campus or after hours expression does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights.[1][2]

The Board requires that distribution and posting of nonschool materials shall occur only at the places and during the times set forth in written procedures. Such procedures shall be written to permit the safe and orderly operation of schools, while recognizing the rights of students to engage in protected expression.[1][3]

Unprotected Student Expression

The Board reserves the right to designate and prohibit manifestations of student expression that are not protected by the right of free expression because they violate the rights of others or where such expression is likely to or does materially or substantially interfere with school activities, school work, discipline, safety and order on school property or at school functions. While the following list is not intended to be exhaustive, such expression shall not be protected if it:

1. Violates federal, state or local laws, Board policy or district rules or procedures.
2. Is libelous, defamatory, obscene, lewd, vulgar or profane.[2]
3. Advocates the use or advertises the availability of any substance or material that may reasonably be believed to constitute a direct and serious danger to the health or welfare of students, such as tobacco/nicotine, alcohol or illegal drugs.

4. Incites violence, advocates use of force or threatens serious harm to the school or community.
5. Is likely to or does materially or substantially interfere with the educational process, such as school activities, school work, discipline, safety and order on school property or at school functions.
6. Interferes with, or advocates interference with, the rights of any individual or the safe and orderly operation of the schools and their programs.
7. Violates written school district procedures on time, place and manner for posting and distribution of otherwise protected expression.

Spontaneous student expression which is otherwise protected speech is not prohibited by this section.

Discipline for Engaging in Unprotected Expression

The Board reserves the right to prohibit the posting or distribution of nonschool materials containing unprotected expression and to prohibit students from engaging in other unprotected student expression, as well as to stop unprotected student expression when it occurs. The Board reserves the right to discipline students for engaging in unprotected expression. Where such expression occurs off campus and away from school functions, a nexus between the unprotected expression and a material and substantial disruption of the school program must be established.

Distribution of Nonschool Materials

The Board requires that students who wish to distribute or post nonschool materials on school property shall submit them at least one (1) school day in advance of planned distribution or posting to the building principal or designee, who shall forward a copy to the Superintendent.[1]

If the nonschool materials contain unprotected expression as stated in this policy, the building principal or designee shall notify the students that they may not post or distribute the materials because the materials constitute a violation of Board policy.

If notice is not given during the period between submission and the time for the planned distribution or posting, students may proceed with the planned distribution or posting, provided they comply with written procedures on time, place and manner of posting or distribution of nonschool materials.

Students who post or distribute nonschool materials in compliance with this provision may still be ordered to desist such distribution if the materials are later found to be unprotected expression under this policy.

Students who distribute printed materials shall be responsible for clearing any litter that results from their activity and shall schedule the event so that they do not miss instructional time themselves.

Posting of Nonschool Materials

If a school building has an area where individuals are allowed to post nonschool materials, students may post such items as well, if the materials do not constitute unprotected expression and the items are submitted for prior review in the same manner as if the students were going to distribute them.

Such materials shall be officially dated, and the district may remove the materials within ten (10) days of the posting or other reasonable time as stated in the procedures relating to posting.

Review of Student Expression

School officials shall not censor or restrict nonschool materials or other student expression for the sole reason that it is critical of the school or its administration, or because the views espoused are unpopular or may make people uncomfortable.

Student-initiated religious expression is permissible and shall not be prohibited except as to time, place and manner of distribution, or if the expression involved violates some other part of this policy, e.g., because it is independently determined to be unprotected expression under the standards and definitions of this policy.

The review for unprotected expression shall be reasonable and not calculated to delay distribution.

Appeal of the reviewer's decision may be made to the Superintendent and then to the Board, in accordance with Board policy and district procedures.[4]

Delegation of Responsibility

The Superintendent shall assist the building principal in determining the designation of the places and times nonschool materials may be distributed in each school building. Such designations may take into account maintenance of the flow of student traffic throughout the school and shall limit distribution of nonschool materials to noninstructional times.

The building principal may determine disciplinary action for students who distribute or post nonschool materials in violation of this policy and district procedures, or who continue the manifestation of unprotected expression after a person in authority orders that they desist. Disciplinary actions shall be included in the disciplinary Code of Student Conduct.[5]

This Board policy and any procedures written to implement this policy shall be referenced in student handbooks so that students can access them for further information.

- Once the student/parent has completed the proper authorization and release agreement, transportation is the responsibility of the student/parent.
- Once the student/parent has completed the proper authorization and release agreement, students are not permitted to arbitrarily ride District provided transportation to and from the MCCC/GJR CTC.
 - In the event that a student’s personal vehicle is temporarily being serviced or inoperable, students must still find their own alternative transportation to and from the MCCC/GJR CTC.
