

STUDENT NAME: _____

Reminder: The Ohio Department of Health requires all 7th graders to have a Tdap vaccine and a Meningitis (Meningococcal serogroup A, C, W & Y) vaccine prior to the start of school. Children will not be permitted to start 7th grade without proper proof of immunization. It is advisable to make an appointment for your child to receive these vaccines to avoid exclusion. As soon as your child receives this vaccine, please provide proof of immunization from your physician to your school office so that we can update your child's school health record.

Please notify the Health Office if there is a medical or personal reason why your student cannot receive these vaccines so their health record can be updated or if your student has an upcoming appointment.

Tdap received on _____

Meningitis received on _____

Physician signature: _____

Although the following immunizations are not "required" by law, they are also recommended for children of this age group. Please check with your physician about the benefits of receiving the following recommended immunizations:

- Hep A: protection against Hepatitis A
- HPV: protection against a virus known to cause cervical cancer
- Influenza and H1N1: protection against common flu
- Meningococcal B
