

Free Math Skills Support

The Mattapoissett Recreation Department is pleased to offer math tutoring for skills support for students **free of charge**. This program is funded through federal work study funds from Antioch University New England. The program will run for 7 weeks, and families need to sign up by Monday morning the week that they would like to join. See below for more details.

Who: Students Kindergarten - 9th grade in Fall 2024.

When: Thursday mornings July 11th - August 22nd

9:00 am for students entering grades K-5

10:00 am for students entering grades 6-9.

Where: Center School in Mattapoissett, MA

Register by Monday morning the week you wish to attend.

* Please Note: registration is capped at 4 students per session so sign up as soon as possible to guarantee a spot.

Why/How: Free of charge through federal work study funding to support students in having fun and maintaining math skills over the summer!

What: Math tutoring provided by Morgan Browning who is receiving her doctorate in psychology, and has many years of teaching and tutoring experience. Morgan will support students to work on any work brought with them and provided by school or an outside tutor. She will also provide planned group activities differentiated for students' skill levels if they do not come with work. Activities are planned in conjunction with Massachusetts public school standards, with a lot of inclusion of fun games and real-life examples and activities!

On-line registration is now available at www.mattrec.net
