The District places upon Contractor full responsibility to ensure such qualities in those persons. To the best of its ability, Contractor shall not allow any person to drive a school bus whose behavior or character might result in improper performance of his or her work or subject the student to improper driver conduct, whatsoever, nor shall the Contractor allow any person to drive a school bus who is not at the time physically fit and physically qualified to perform such service.

- e. The responsibility for hiring and discharging Contractor personnel shall rest entirely upon Contractor, and Contractor agrees that it shall not enter into any agreement or arrangement with any employee, person, group or organization which will, in any way, interfere with Contractor's ability to comply to the full extent of the Contract with the District and the requirements contained herein. Contractor further agrees that the District shall have the right to REQUIRE removal by Contractor of any person or driver, who, in the opinion of the District, is not qualified for or satisfactorily performing, the responsibilities of the position held or to operate a school bus for service to the standards required by the District. The District will provide written request to remove Contractor employee with notation for the reason for such removal.

The following guidelines (among others) shall be of assistance to drivers employed by Contractor in determining procedures to be followed in maintaining acceptable pupil discipline.

- a. Bus drivers shall have delegated responsibility for maintaining proper discipline on their bus.

**14. UNSCHEDULED SCHOOL CLOSING – continued**

The District shall notify the Contractor of canceled special bus trips not less than one (1) hour prior to the first scheduled pick up per trip. However, in the event Contractor cannot fully perform its services hereunder due to any of the causes enumerated in this Paragraph, District may, without terminating the Agreement and so long as Contractor cannot provide such full services, or provide such services by another contractor, the cost thereof shall be deducted from any amounts due or to become due to Contractor during the term of the Contract, if any. In the event the cost of such substituted services exceeds the amount due or to become due Contractor, then Contractor and Contractor's surety shall reimburse District for the excess cost of such substitute services. Such substitute service shall not relieve Contractor of its obligation to provide such services with its own personnel and equipment after such cause no longer exists.

In the event Contractor is unable to provide the transportation services as specified in this Agreement because of any act of civil disturbance riot, war, terrorism, picketing, labor dispute, labor shortages, governmental action or any other condition or cause beyond the Contractor's control, District shall excuse Contractor from performance under this Agreement.

The Contractor shall report to District, and on a daily basis, as soon as reasonably practical, all missed, late and doubled routes. All charges against Contractor shall be deducted from monthly Contract payments due Contractor under this Contract. Contractor shall immediately notify the District and the school involved in the event of delay. If pupils are missed as a result of the bus being off schedule, Contractor agrees, at his own expense, to pick up and deliver missed pupils in a timely manner. The late charges set forth herein are in addition to all other remedies that District has in the event of default.

**18. ASSIGNMENT**

The services contemplated by the District are deemed to be in the nature of personal services and the Contract shall not be assigned in whole or in part by Contractor without prior written consent of the District, nor is Contractor granted the right to assign any funds to be received hereunder. District will give Contractor ten (10) days written notice for service adjustments which require additional buses.

## **23. VEHICLE REQUIREMENTS**

All contracted buses will have a capacity of 65 or more passengers unless a smaller capacity bus is requested by Contractor and approved by the District. The District will provide ten (10) days notice in the event a larger capacity bus is required. A minimum of two (2) wheelchair accessible buses must be available.
