Dade County Schools Athletics
Participation Information

PARENTAL CONSENT and AUTHORIZATION

Although participation in supervised interscholastic activities may be one of the least hazardous in which your son/daughter will engage in or out of school, by its nature, participation in such activities includes a risk of injury which may range in severity from minor to long-term catastrophic. Although serious injuries are not common in supervised school athletic programs, it is possible only to minimize, not eliminate this risk. Participants can and have the responsibility to help reduce the chance of injury by obeying all safety rules, reporting all physical problems to appropriate school personnel, following a conditioning program and inspecting equipment daily. I also understand that per *The Georgia High School Association,* a **Pre-participation Physical Evaluation** must be performed by a physician to medically screen each student who participates in the athletic programs of the Dade County School System. This medical evaluation is only to determine fitness for athletics and is not to take the place of regular medical examinations. In case of emergency or accident during any school activity involving my child, who in the opinion of school authorities present, requires immediate medical or surgical attention, I hereby grant permission to said authorities to obtain the services of a physician or to transport said child to the hospital. I hereby grant permission also, to said physicians, to treat said condition. Permission is also granted to the coach or athletic trainer to provide the needed emergency treatment to the athlete prior to his/her admission to medical facilities. By signing below, I certify all information contained in this form is complete and accurate. I certify that my child may compete in school athletics in Dade County Schools, and to accompany any school team of which the student is a member on any school-sponsored trips. I also agree to release the Dade County School System, its Athletic Department, its employees, agents, representatives, coaches, and volunteers from any and all liability, actions, causes of actions, debts, claims, or demands of any activities related to the sport/s participated in.

I have examined the student named on this form and completed the preparticipation physical evaluation. The athlete does not have apparent clinical contraindications to practice and can participate in the sport(s) as outlined on this form. A copy of the physical examination findings are on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the medical eligibility until the problem is resolved and the potential consequences are completely explained to the athlete (and parents or guardians).
