CERTIFICATE OF THE BOARD

Pflugerville Independent School District
Name of School District

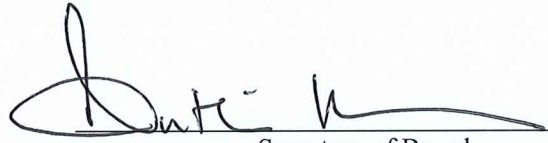

Travis
County

227-904
Co. - Dist. No.

We, the undersigned, certify that the attached annual financial reports of the above named school district were reviewed and approved for the year ended August 31, 2019, at a meeting of the Board of Trustees of such school district on January 16, 2020.

President of Board

Secretary of Board

January 16, 2020

Ms. Vernagene Mott, President and
Board of Trustee Members and Citizens of
Pflugerville Independent School District
1401 West Pecan
Pflugerville, Texas 78660

Dear Ms. Mott, Board Members and Citizens of Pflugerville Independent School District:

The Finance Department is pleased to submit the Comprehensive Annual Financial Report for the Pflugerville Independent School District (Pflugerville ISD) for the fiscal year ended August 31, 2019.

This report is published to provide the Board, citizens, our bondholders, staff and other interested parties with detailed information concerning the financial condition and activities of the school district.

Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. In our opinion, we believe the data, as presented, is accurate in all material aspects; that they are presented in a manner designed to fairly set forth the financial position and results of operations of the District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial affairs are included in this report.

The MD&A (Management Discussion and Analysis) is a narrative introduction, overview and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor's report. The Statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

The Financial section is prepared in accordance with generally accepted accounting principles for governments, as prescribed by the Governmental Accounting Standards Board and other professional associations.

THE REPORTING ENTITY AND ITS SERVICES

This report includes all of the funds of the District, including activities considered by the State of Texas to be part of the K-12 public school system. Pflugerville ISD is an independent school district incorporated as a political subdivision of the State of Texas. A seven-member board governs the District in accordance with state statutes and regulations. Members of the Board serve staggered three-year terms without compensation and are elected from at-large member districts. The Board of Trustees operates as a policy making body, delegates management to the single executive head (the Superintendent of Schools), determines District goals and evaluates policies in terms of effectiveness in attaining those goals. The Superintendent of Schools and the administrative staff execute the policies of the Board, assume responsibility for the operation of the District, make recommendations to the Board in matters of policy and professional personnel, prepare the budget and report to the Board on matters related to the progress of the District in attaining the goals set by the Board.

The District provides a comprehensive range of school programs and services, as required by state statute, to over 25,000 enrolled students in grades pre-K through 12. This includes basic elementary pre-kindergarten through grade five, middle school grades six through eight, high school grades nine through twelve, career and technical education, alternative schools, bilingual education, pupil transportation, food service, special education and numerous special programs for remedial and enriched education. A wide variety of electives in fine arts, athletics and technology supplement these basic programs.

ECONOMIC CONDITION AND OUTLOOK

Pflugerville ISD is located in and around the City of Pflugerville which is a rapidly growing suburb of the state's capital, Austin and a developing commercial center of Travis County. The City of Pflugerville was ranked as the third fastest growing city in the U.S. according to population estimates released by the U.S. Census Bureau in May 2018. The population growth rate is projected to be 6.5% per year over the next several years. With a population of 63,359 and being strategically located a few miles north of Austin along the I-35 corridor and 25 minutes from the Austin-Bergstrom International Airport, Pflugerville provides businesses a climate with easy access to several metropolitan areas without the big city challenges.

Pflugerville also stands out as an excellent commercial site with a friendly and welcoming residential community. The SH-130 toll road is the driving force behind Pflugerville's continuing growth. Housing development is thriving on the east side of Pflugerville near SH-130 as families are drawn to this area known for outstanding schools, affordable housing and easy access to work or play. More than seven major institutions of higher education surround Pflugerville ISD, including The University of Texas at Austin, Huston-Tillotson University, St. Edward's University, Southwestern University, Texas State University, Concordia University and the Austin Community College System.

The U.S. economy continues to improve and the U.S. unemployment rate was 3.7% in June 2019. The Austin area unemployment rate was 2.7% according to the Bureau of Labor and Statistics. The District's taxable property values grew approximately \$2.2 billion from rises in existing property values and the addition of both new homes and businesses. The District's General Fund, unassigned fund balance increased for the ninth consecutive year to \$65.9 million and has tripled over that time period due to strong financial management.

Through the second quarter of 2019, the district started 1,783 and closed 1,655 new homes on an annual basis. The district has 1,632 vacant developed lots and 12,630 future lots. The Pflugerville new housing market is positioned for continued growth with over 1,700 new home starts expected each year. The average district sale price for a new home in 2019 is approximately \$308,500. The average new home price rose more than 58% since 2010, a difference of almost \$113,500.

The district expects to grow by 3,400 students over the next 5 years to over 29,000 students. The district opened 3 new schools and a district stadium in 2017 and now has over 4 million square feet of building space with an average school building age of 18 years.

In May 2014, the citizens of the District passed a \$287 million, general obligation bond election. All of the major projects from that bond are now complete. Just after the 17-18 school year, in November 2018, the citizens of the District passed a \$332 million, general obligation bond election and a Tax Ratification Election which equated to an additional \$4.1 million in state funding and an overall two cent tax rate reduction to the overall Pflugerville ISD tax rate which will affect the 18-19 fiscal year.

For 2019, the Chief Appraisers of Travis and Williamson County Appraisal Districts certified all taxable properties in the District subject to appraisals to be valued at \$16,156,420,188. The total tax rate for the 2018-2019 school year is \$1.52 and consists of the maintenance and operations tax rate of \$1.06 and the debt service tax rate of \$0.46. This is an overall two cent tax rate decrease from the prior year.

FOR THE FUTURE - The Board of Trustees adopted its mission, vision and values for the 2018-2019 school year that set high standards for the students and staff of the School District and are reviewed by the Board on an annual basis.

Mission Statement:

The mission of the Pflugerville ISD is to provide a quality education with a commitment to excellence by facilitating learning in a safe and nurturing environment.

Our Values:

We believe that:

- The community expects and supports a quality education as the key to student success.
- A strong work ethic strengthens our schools and community.
- A safe community contributes to the quality of life in Pflugerville ISD.
- All individuals have worth.
- Education is an important priority that keeps our community productive and healthy.
- Our children are afforded equitable educational opportunities to achieve their potential.

Our Vision:

Our students are:

- Productive citizens committed to the community.
- Enthusiastic learners who practice continual self-development.
- Sensitive to others' needs and feel safe, both physically and emotionally.
- Applying and understanding technology.
- Positive role models.
- Setting challenging personal goals to achieve their full potential.
- Effective problem solvers and decision makers who communicate clearly and work well independently and as team members.

ACHIEVEMENTS

The Texas Education Agency (TEA) assigned Pflugerville ISD with an overall 2018-2019 state accountability rating of “B” for recognized performance. Five campuses received overall ratings of “A” for exemplary performance, fourteen campuses received “B” ratings, and seven received “C” ratings for acceptable performance. Each year, TEA also awards Distinction Designations for recognition of outstanding achievement in specific areas based on indicators of student performance in comparison to forty similar campuses across the state.

For 2019, Distinction Designations were awarded in the following areas:

- Academic Achievement in ELA/Reading
- Academic Achievement in Math
- Academic Achievement in Science
- Academic Achievement in Social Studies
- Top 25 Percent: Comparative Academic Growth
- Top 25 Percent: Comparative Closing the Gaps
- Postsecondary Readiness

Fourteen campuses received one or more distinctions, with a total of thirty-eight awarded district-wide. Of the total distinctions earned, seventeen were earned at elementary campuses, and twenty-one were earned at secondary campuses. Of note are Parmer Lane Elementary School and Windermere Elementary School, each earning four out of six possible distinctions; and Park Crest Middle School earning four out of seven possible distinctions. All four PfISD high schools earned distinctions with Hendrickson High earning two, Weiss High Schools earning three, Connally High School earning four, and Pflugerville High School earning six out of seven possible distinctions.

FINANCIAL INFORMATION

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure the assets of the District are protected from loss, theft or misuse and to ensure adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance these objectives are met. The concept of reasonable assurance recognizes: (1) the cost of a control should not exceed the benefits likely to be derived and (2) valuation of costs and benefits requires estimates and judgments by management.

Single Audit - As a recipient of state and federal financial assistance, the District is also responsible for ensuring an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management of the District. As a part of the District's single audit, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the District complied with applicable laws and regulations. The results of the District's single audit for the fiscal year ended August 31, 2019 provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

Accounting System and Budgetary Control

The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board on governmental accounting. The District's accounting records for general governmental operations are maintained on a modified accrual basis as prescribed by the Texas Education Agency Financial Accountability System Resource Guide.

In developing and evaluating the District's accounting system, consideration is given to the adequacy of internal accounting structure. The internal accounting structure is designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. All internal control evaluations occur within the above framework. We believe the District's internal accounting structure adequately safeguards assets and provides reasonable assurance of proper recording of financial transactions.

Budgetary control is initiated at the onset when the Board of Trustees adopts the annual budget. To ensure budgetary compliance, the Texas Education Agency and the District established spending regulations and policies. For all administrators with line item or program responsibility, regulations set the level of budgetary control at the major functional expenditure level. All requested budget revisions that move money between functions require approval by the Board of Trustees for the General Fund, Food Service Fund and the Debt Services Fund.

GOVERNMENTAL CHANGES

The 2017 legislative session for the Biennium 2017-2019 basically left school funding levels unchanged and the Basic Allotment was not increased from its previous level of \$5,140. The only real material funding change was that the New Instructional Facility Allotment (NIFA) was increased from \$250 to \$1,000 per Average Daily Attendance (ADA). However, the State did not provide enough additional funding to support this legislative change, so funding will be pro-rated based on available funds.

Independent Audit

Texas School Law requires an annual audit of all District funds by an independent outside auditing firm. All Pflugerville ISD funds have been audited. The auditor's opinion is included in this report.

AWARDS AND ACKNOWLEDGEMENTS

GFOA Certificate of Achievement for Excellence

For the ninth year in a row, the Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Pflugerville ISD for its comprehensive annual financial report (CAFR) for the fiscal year ended August 31, 2018. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

ASBO Certificate of Excellence in Financial Reporting

For the ninth year in a row, the Association of School Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to Pflugerville ISD for its CAFR for the fiscal year ended August 31, 2018. This award certifies that the report substantially conforms to the principles and standards of financial reporting as recommended and adopted by ASBO. The award is granted only after an intensive review of financial reports by an expert panel of certified public accountants and practicing school business officials.

A Certificate of Excellence is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Excellence in Financial Reporting program's requirements and we are submitting it to the ASBO to determine its eligibility for another certificate.

Acknowledgments

We respectfully acknowledge the responsible and sincere involvement of the school board, principals, administrators, program directors and coordinators in the financial affairs of the District.

Special appreciation is also expressed to members of the business office staff for their assistance and effort in maintaining the financial records of the District. Individual recognition is directed to Mary Rabalais, Craig Pruett, Janie Ornelas, Nicole Ayer, Tamara Berding, Jackie Porter, Gracie Lopez, Dorothy Wright, Jennifer Davis, Sylvia Tappin, Lupe Berrelez, Liz Brannon, Ryena Gastelum, Sarah Hsia, Clara Espinoza, Roxanna Jonse, Freda Ellison, Mary Lynch, Lisa Wagner and Sue Holmes for their combined efforts in closing out the accounting records and assisting in preparing the various financial reports at year-end.

Pflugerville ISD publicly solicits the active involvement of all citizens and school District personnel in its financial affairs.

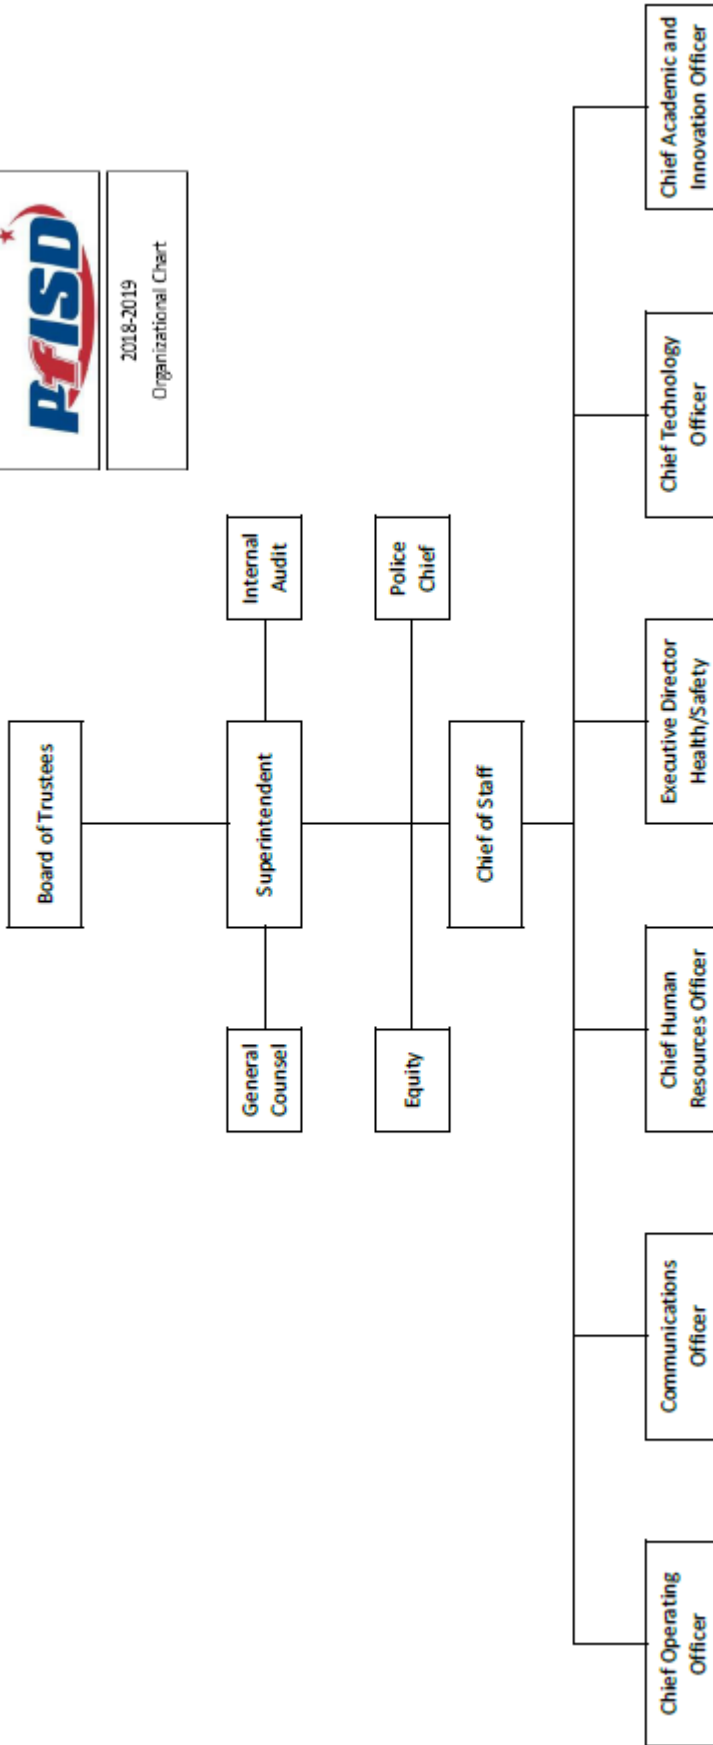

Respectfully submitted,

Independent Auditor's Report

To the Board of Trustees of
Pflugerville Independent School District
Pflugerville, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Pflugerville Independent School District (the District), as of and for the fiscal year ended August 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Pflugerville Independent School District, as of August 31, 2019, and the respective changes in financial position and where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Pflugerville Independent School District's basic financial statements. The Introductory Section, Supplementary Information, and Statistical Section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Supplementary Information and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory and Statistical Sections (Other Information) have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

The Board of Trustees of
Pflugerville Independent School District

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 10, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Pflugerville Independent School District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Pflugerville Independent School District's annual financial report presents its discussion and analysis of the District's financial performance during the fiscal year ending August 31, 2019. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follow this section.

Financial Highlights

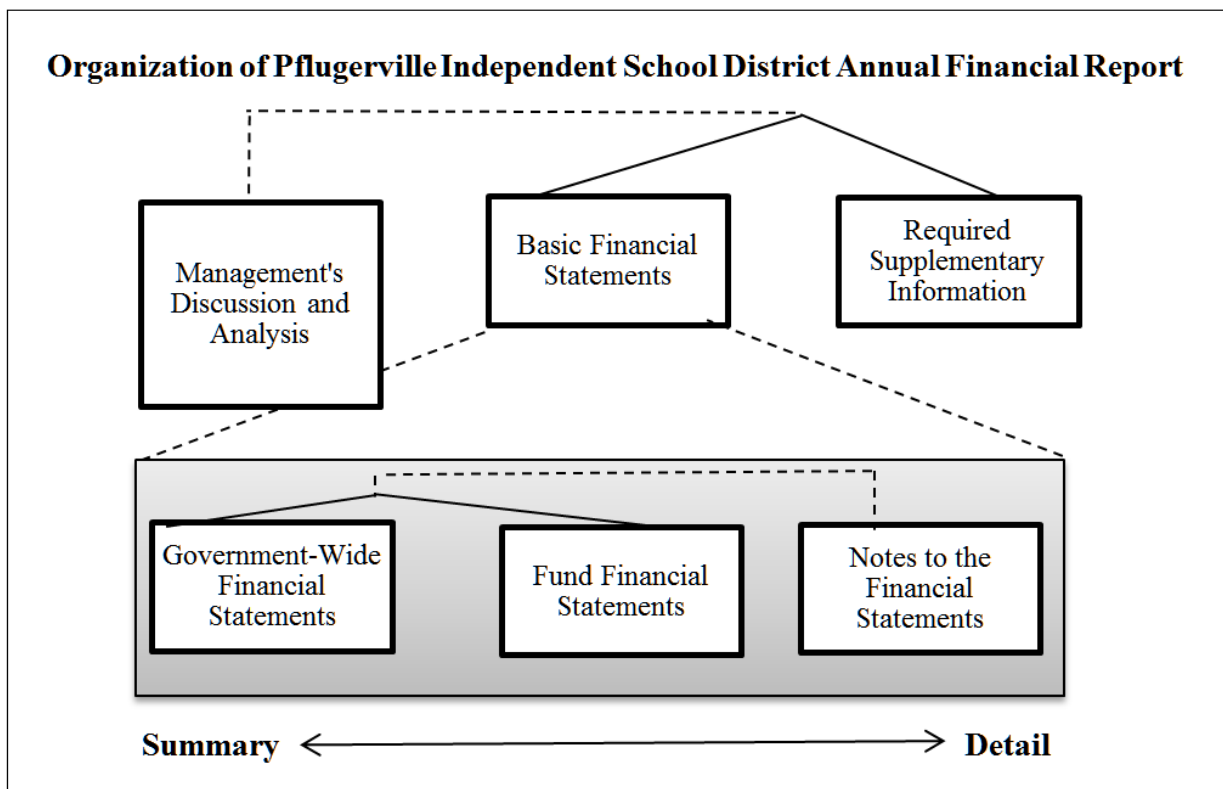

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$62,696,367 (*net position*). Unrestricted net position reflects a deficit of \$64,487,648 primarily a result of a recording the other postemployment benefits liability in a pay as you go plan.
- Total net position of the District increased by \$29,679,211 largely due to the increase in property tax revenue resulting from an incline in property values.
- The total fund balance of the general fund was \$65,936,850 and was an increase of \$10,937,553 from the prior year. The unassigned fund balance of the General Fund was \$57,033,594, or 25% of total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and supplementary and other information in addition to the basic financial statements themselves, including schedules required by the state oversight agency, the Texas Education Agency (TEA).

Figure A-1 shows how the financial statements, management's discussion and analysis and required supplementary information are arranged and related to one another.

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Government-wide Financial Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and the changes in net position. Net position - the difference between the District's assets, liabilities, and deferred inflows/outflows of resources - are one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, one needs to consider additional non-financial factors such as changes in the District's tax base and the changes in student enrollment.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

The *government-wide financial statements* of the District include the governmental activities and business-type activities. The governmental activities of the District include activities such as instruction and related support services, extracurricular activities, plant maintenance and other nonstudent based services, debt service and general administration. Property taxes and grants finance most of these activities. The business-type activities of the District include an extended day program.

The *fund financial statements* provide more detailed information about the District's most significant funds - not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has the following types of funds:

Governmental funds - Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information in the subsequent pages that provide a financial analysis of governmental funds.

Proprietary funds – The District maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The District accounts for its extended day program in an enterprise fund. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District has two internal service funds that accounts for an employee group health insurance plan and a workers' compensation insurance program. These internal service funds' profits have been eliminated in the government wide presentations.

Fiduciary funds - The District is the trustee, or fiduciary, for certain funds. It is also responsible for other assets that - because of a trust arrangement - can be used only for the trust beneficiaries. The District is responsible for ensuring that the reported assets are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and of changes in fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

Changes in Net Position

Net position increased overall by \$29.7 million from prior year primarily due to the increase in property tax revenues as a result of an incline in property values. Although the District's overall net position is positive, the District's unrestricted net position reports a deficit due to reporting the District's proportionate share of the net pension and OPEB liability. The total district liability is reported in the governmental activities; however, the actual liability does not require the use of current resources at the fund level. Both plans are cost-sharing plans with the State of Texas; however, the TRS-Care plan is funded on a pay-as-you-go basis. The District has made all contractually required contributions as noted in the required supplementary information and has sufficient fund balance to meet the District's ongoing obligations to students and creditors.

The District's total general revenues, charges for services, and operating grants and contributions were \$346 million. A significant portion, 62%, of the District's revenue comes from taxes (see Figure A-3), 20% comes from grants and contributions not restricted, 13% from operating grants and contributions and 5% relates to investment earnings, charges for services, and miscellaneous local and intermediate sources. Operating grants also reflected a significant change as a result of the negative revenue generated from the negative on-behalf revenue related to OPEB in the prior year. The total cost of all programs and services was \$316.2 million. Of these costs, 53% are related to instruction expenses. The major change in expenses from the prior year was the negative on-behalf expense related to OPEB.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following table presents the cost of each of the District's largest functions as well as each function's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what state revenues as well as local tax dollars funded.

- The cost of all activities this year was \$316.2 million.
- The amount that local taxpayers paid for these activities through property taxes was \$215.4 million.
- Those who directly benefited from the programs paid \$12 million. Operating grants covered \$43.0 million.

Governmental Activities

- Property tax rates for the 2018-2019 fiscal year decreased from the prior year rate of \$1.54 to \$1.52 per \$100 of valuation. Taxable values for the 2019 fiscal year increased by 15.3%.

Business-type Activities

- Business-type activities increased net position before transfers by \$1,819,332 due to the operation of the extended day program, and \$1,500,000 was transferred to the general fund.

Financial Analysis of the District's Funds

Revenues from governmental fund types totaled \$334.5 million, an increase of \$27.0 million from the preceding year. Property tax revenue increased \$27.4 million due to an approximate 15.3% increase in property tax values.

General Fund Budgetary Highlights

Over the course of the year, the District recommended and the Board approved revisions to budgeted revenue and appropriations. One change was to decrease the estimated revenue by \$2.6 million due to the student count being lower than anticipated, but the property taxes budget and federal revenue budget increased which yielded a slight increase in the estimated revenue total budget. The increase in property taxes was due to a tax ratification that was approved by voters to increase the M & O rate by \$.02 which increased our property tax revenue.

Resources available were \$4.8 million more than the final budgeted amounts and the largest difference was in the state aid program as weighted average daily attendance was higher than budget and the State provided a one-time special ed supplement.

The bottom line increase in fund balance for the year of \$10.9 million was \$6.0 million higher than the final budgeted net increase of \$4.9 million. Of this favorable variance, \$3.7 million was due to less spending related to plant maintenance and operations expenditures and unfilled instructional positions.

Differences between the originally-adopted budget and the final amended budget of the general fund were to increase fund balance by \$2.1 million. Amendments were approved by the governing body.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund balances and percent of increase (decrease) for the governmental funds are as follows:

MAJOR GOVERNMENTAL FUND BALANCES

<u>Fund</u>	<u>2019</u>	<u>2018</u>	<u>Percent Change</u>
General Fund	\$ 65,936,850	\$ 54,999,297	20%
Debt Service	6,182,511	5,369,917	15%
Capital Projects	240,203,373	22,517,934	967%

General Fund

The General Fund encompasses the general governmental functions of the District and all other functions not accounted for in other funds. General Fund revenue exceeded expenses prior to other financing sources (uses) by \$11.9 million which is up \$9.3 million from last year. This increase was the result of the increases in property tax revenue as a result of incline in property values

General Fund balance of \$65.9 million includes nonspendable inventories and prepaid items totaling \$537,174, committed fund balance of \$164,142 for District vehicles, assigned fund balance of \$8.2 million primarily for solar panels, Kickstart Program, and fast growth stabilization, and unassigned fund balance of \$57.0 million.

General Fund revenues, expenditures, and explanations of significant increases/decreases are summarized as follows:

<u>Revenue Sources</u>	<u>2019</u>	<u>Percent Realized</u>	<u>2018</u>	<u>Increase (Decrease)</u>	<u>Percent Change</u>
Local	\$ 154,584,089	66%	\$ 130,384,850	\$ 24,199,239	19%

Totals	\$ 235,700,422	100%	\$ 218,632,259	\$ 17,068,163	

Local revenues, which are generated primarily from property taxes, increased by 19 percent relative to the 2017-2018 school year, due to the incline in property values and the District per State guidelines, was allowed to move \$0.02 of the tax rate from the Debt Service Fund to the General Fund. The decrease in State revenue was the result of the increase in local tax revenues, which lowered the state's funding level. Federal revenues make up only 2 percent of total realized revenues. The amount of \$4,675,121 represents primarily grant revenue and indirect cost earned from federal programs.

Expenditures for the General Fund totaled \$223,762,869, an increase of 3.6% from last year.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

Instruction and instructional related expenditures increased by \$3.6 million and instructional and school leadership expenditures increased by \$411,756. This increase was largely due to hiring additional staff and standard salary increases. Student support services expenditures increased by \$1.4 million due to increase in staff, pay increase, and increased transportation costs.

Debt Service Fund

The Debt Service Fund has a total fund balance of \$6.1 million, all of which is restricted for the payment of debt service. The District makes semi-annual debt service payments in February and August of each year. Debt service payments on bonded indebtedness, including bond fees, for the year ended August 31, 2019 were \$66.3 million. The Debt Service Fund balance increased due to the increase in property tax revenues as a result of property value increases.

Capital Projects Fund

The Capital Projects Fund has a total fund balance of \$240.2 million, all but \$2.7 million (for future capital projects) is restricted for bond authorized construction projects. The net increase in fund balance during the current year of \$217.7 million was primarily due to the District's sale of bonds exceeded expenditures on continuing construction projects. Capital expenditures totaled \$39.2 million.

Interest earned in the Capital Projects Fund for the 2018-2019 fiscal year was \$2.5 million, which is due to investments held from bond proceeds.

Federal Awards

Federal awards are primarily grants that are restricted by law or other formal action to expenditures for specific purposes. The District operated its school breakfast and lunch program with the assistance of federal awards. All federal awards are subject to a budget in the grant application. Revenue from federal sources for the breakfast and lunch program was \$8.7 million. Expenditures exceeded revenues in the school breakfast and lunch program by \$504,178.

Enterprise Fund – Extended Day Program

The District operates an after school day care program for children in grades Pre-K to 5. This program is located at all elementary campuses and its employees work for Pflugerville ISD. Net position for this program remained stable at \$1.8 million before transfers to the general fund.

Internal Service Funds

These funds are used to account for the financing of goods or services provided by one department to other departments on a cost-reimbursement basis. The operations of the employee group health insurance plan and workers' compensation program are accounted for in these funds. The District retains a partial risk on its workers' compensation program. Reinsurance is retained for workers' compensation individual claims of \$450,000. The increase in net position for the employee group health insurance plan of \$1.0 million was the result of a stable health insurance costs that were exceeded by the premiums paid in. The ending fund balance of approximately \$5.2 million ensures the District's self-funded health insurance program is well-funded. The net position for the workers' compensation program increased \$202,158 as a result of investment earnings.

Capital Assets and Long-term Liabilities

Capital Assets

The majority of capital assets of the District were those used in the performance of general governmental functions. The District has a policy of capitalizing items with a cost of over \$5,000. As of August 31, 2019, general governmental capital assets of the District amounted to \$533,030,000 and included land, buildings and improvements, furniture and equipment, and construction in progress. Additional information is available in Note 5 to the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Debt Administration

The Debt Service Fund is used to account for the accumulation of resources to pay principal and interest on general long-term debt. Revenue sources for this fund include receipts from property taxes and state funds. The Debt Service Fund contains fund balance reserves and interest earnings on those reserves. An excess of revenues over expenditures for the year amounted to \$0.8 million resulting in an ending fund balance of \$6.2 million.

All bonds are direct obligations of the District payable from and secured by the proceeds of a continuing, direct annual ad valorem tax levied, subject to the Texas State Attorney General limits as to rate, against all taxable property within the District. Nine building and refunding bond issues remain outstanding and mature serially through the year 2039.

The applicable debt service fund tax rate was \$0.46/\$100 for the assessed valuation for the 2018/2019 school year.

The District defeased \$24 million of bonds in 2018-2019. The District's bond rating with Standard & Poors was upgraded to "AA+" Additional information on the District's long-term liabilities can be found in the Note 7 to the financial statements as indicated in the table of contents of this report.

Additional information on the District's Pension liability can be found in Note 12 to the financial statements as indicated in the table of contents of this report.

Additional information on the District's OPEB liability can be found in Note 13 to the financial statements as indicated in the table of contents of this report.

Economic Factors and Next Year's Budgets and Rates

- The appraised Net Taxable Value used for the 2019-2020 budget preparation is \$14.2 billion or \$1.9 billion more than the 2018-2019 values. The higher values resulted in a budgeted increase of \$26.3 million in current local tax revenue for 2019-2020 compared to actual collections in the prior year in the General Fund. The District is currently taxing at \$.99 per \$100 in assessed valuation which is due to a change in State funding from House Bill 3.
- The District's student attendance was budgeted to increase by 233 students for a 2019-2020 total attendance of 25,767. The student attendance rate was budgeted at 94%.
- Compared to the 2018-2019 actual results, State aid decreased by approximately \$1.5 million for the 2019-2020 General Fund budget. This decrease in State funding was the result of the increase in local tax revenue from the prior year as a result of House Bill 3.
- General Fund spending per attending student for the 2019-2020 budget increased by \$602 or 7% compared to the 2018-2019 budget.
- General fund budgeted expenditures for 2019-2020 increased by \$19.4 million over the prior year's budget primarily due to a 4% pay raise and cost associated with student growth.
- If 2019-2020 budget estimates are realized, the District's Unassigned General Fund Balance is expected to increase by \$1.3 million to \$67.2 million or 98 days of operating fund balance.

RECONCILIATION OF THE BALANCE SHEET FOR GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION
AUGUST 31, 2019

Exhibit B-1R

Total Fund Balances - Governmental Funds (Exhibit B-1) \$ 315,756,397

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. The governmental capital assets at year-end consist of:

Governmental Capital Assets Costs	\$ 712,187,612	
Accumulated Depreciation of Governmental Capital Assets	<u>(179,157,612)</u>	533,030,000

Property taxes receivable, which will be collected subsequent to year-end, but are not available soon enough to pay expenditures and, therefore, are deferred in the funds. 5,225,976

Long-term liabilities, including bonds payable, note payable, compensated absences, net pension liability, and net OPEB liability, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Liabilities at year-end related to such items, consist of:

Bonds Payable, at Original Par	\$ (596,945,000)	
Premium on Bonds Payable	(64,040,209)	
Accrued Interest on the Bonds	(1,125,196)	
Note Payable	(2,125,970)	
Accrued Interest on Notes Payable	(28,418)	
Compensated Absences	(1,356,099)	
Arbitrage Liability	(120,644)	
Net Pension Liability	(70,597,696)	
Net OPEB Liability	<u>(90,250,951)</u>	(826,590,183)

An internal service fund is used by the District to charge the costs of various services to the individual funds. The assets and liabilities of the following internal service funds are included with governmental activities:

Health Insurance	\$ 5,166,070	
Workers' Compensation	<u>202,158</u>	5,368,228

Deferred charge on refunding is reported as deferred outflow in the statement of net position and is not reported in the funds due to it is not a current financial resource available to pay for current expenditures. 10,757,699

Deferred outflows for pension represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expenses/expenditures) until then. 38,009,215

Deferred inflows for pension represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. (3,868,907)

Deferred outflows for OPEB represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expenses/expenditures) until then. 12,769,277

Deferred inflows for OPEB represents an acquisition of net position that applies to future period(s) and will not be recognized as an inflow of resources (revenue) until that time. (28,539,525)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED AUGUST 31, 2019

Exhibit B-2R

Total Net Change in Fund Balances - Governmental Funds (Exhibit B-2) \$ 229,043,173

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. The governmental capital asset at year-end consist of:

Capital Assets <i>increased</i>	\$ 28,047,474	
Depreciation Expense	<u>(16,138,172)</u>	11,909,302

The net effect of miscellaneous transactions involving capital assets (transfers, adjustments and dispositions) is an increase (decrease) to net position. (240,083)

Because some property taxes will not be collected for several months after the District's fiscal year end, they are not considered "available" revenues and are deferred in the governmental funds. Deferred tax revenues increased (decreased) by this amount this year. 186,623

Issuance of bonds provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position.

Par Value	\$ (250,535,000)	
Premium	<u>(28,964,204)</u>	(279,499,204)

Repayment of note principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 494,739

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 44,100,000

Payment to escrow agent to remarket bonds from remarketing proceeds. 27,260,000

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The increase (decrease) in interest reported in the statement of activities consist of the following:

Accrued Interest on Current Interest Bonds Payable <i>increased</i>	\$ (323,449)	
Accrued Interest on Notes Payable <i>decreased</i>	6,614	
Interest Adjustment for Remarketing	870,123	
Increase in arbitrage liability	(120,644)	
Amortization of Bond Premium	4,076,703	
Amortization of Deferred Charge on Refunding Bonds	<u>(1,208,983)</u>	3,300,364

The (increase) decrease in compensated absences is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds. (639,058)

An internal service fund is used by the District to charge the costs of various services to the individual funds. The net activity of the following internal service funds are reported in the government-wide statements:

Health Insurance	1,032,229
Workers' Compensation	<u>5,594</u>

The net change in net pension liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds. The net change consists of the following:

Deferred Outflows Increased (Decreased)	\$ 22,089,355	
Deferred Inflows (Increased) Decreased	2,285,246	
Net Pension Liability (Increased) Decreased	<u>(30,361,154)</u>	(5,986,553)

The net change in net OPEB liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial measurement and, therefore, is not reported as expenditures in the governmental funds. The net change consists of the following:

Deferred Outflows Increased (Decreased)	\$ 11,510,594	
Deferred Inflows (Increased) Decreased	2,626,663	
Net Pension Liability (Increased) Decreased	<u>(15,744,504)</u>	<u>(1,607,247)</u>

Change in Net Position for Governmental Activities (Exhibit A-2) \$ 29,359,879

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

Note 1 - Summary of Significant Accounting Policies

Reporting Entity

The Pflugerville Independent School District (District) is governed by a seven-member Board of Trustees (Board), which has governance responsibilities over all activities related to public elementary and secondary education within the District. Because members of the Board are elected by the public; have authority to make decisions; appoint management and significantly influence operations; and have primary accountability for fiscal matters; the District is not included in any other governmental reporting entity. The accompanying financial statements present the operations of the District. There are no component units, which are entities the District is considered to be financially accountable for, included within the reporting entity.

The District receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the District. All fiduciary activities are reported only in the fund financial statements. For the most part, the effect of interfund activity has been removed from these statements. Direct expenses are not eliminated from the various functional categories. Interfund services that are provided and used are not eliminated in the process of consolidation. *Governmental activities*, which are supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Depreciation expense, self-insurance plans' net profit or loss, and compensated absences costs have been allocated to all applicable functions in order to present the expenditures of the District more accurately in the Statement of Activities. *Program revenues* include 1) charges to students or users who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers property tax revenues to be available if they are collected as of August 31, 2019 and all other revenues within 120 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as required under accrual accounting. However, debt service expenditures, as well as expenditures related to pension liability, OPEB liability, compensated absences and claims and judgments, are recorded only when payment is due.

The fiduciary fund financial statements reflect the District's trust and agency funds. The agency fund reports only assets and liabilities, and does not have a measurement focus. Both funds utilize the accrual basis of accounting.

Grant revenues, property taxes, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

- The *general fund* is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The *state textbook fund* accounts for the resources provided to the District under the state textbook allotment.
- The *debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.
- The *capital projects fund* is used to account for proceeds from sales of bonds and other revenues to be used for authorized construction and other capital asset acquisitions.

The District reports the following nonmajor governmental funds:

- The *special revenue funds* are used to account for resources restricted to, or committed for specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a special revenue fund. Generally, unused balances are returned to the grantor at the close of the specified project periods. With respect to the *National School Breakfast and Lunch Program*, campus activity funds, and special projects fund are rolled over from year to year for use in the program.

Additionally, the District reports the following fund types:

- The *enterprise fund* accounts for the District's operation of an extended day school care program. This fund is supported principally by revenues generated through program fees.
- The *internal service funds* are used to account for the operations of the District's self-funded employee group health insurance and workers' compensation plans.
- *Private purpose trust funds* are used to account for resources legally held in trust under which principal and income benefit individuals, private organizations or other governments. The District's private-purpose trust funds represent scholarship funds being held in trust for students.
- The *agency fund* is used to account for assets held by the District as an agent for student organizations. The fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operation.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include 1) charges to students or users for goods, services, or privileges provided and 2) operating grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes, grants and contributions not restricted to a specific program, and investment income.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges to the funds and/or employees for self-funded health services and workers' compensation. Operating expenses for the internal service funds include the cost of services and administrative expenses. The principal operating revenues of the District's enterprise fund are fees charged for extended day program for students. Operating expenses of the enterprise fund include the cost of payroll, contracted services, supplies, other miscellaneous operating costs to run the program, and depreciation. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses for the internal service funds and the enterprise fund.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and certificates of deposit, with original maturities of three months or less from the date of acquisition.

Investments for the District, except for certain investment pools and commercial paper, are reported at fair value. The investment pools operate in accordance with appropriate state laws and regulations and are reported at amortized cost or fair value. Commercial paper maturing with one year from the date of purchase is reported at amortized cost.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Property tax receivables, including unpaid property taxes, at year-end are shown net of an allowance for uncollectibles. The property tax receivable allowance is based on historical experience in collecting taxes. Revenues from property taxes are recognized when levied to the extent they are available. The District considers property taxes as available when collected. However, not all outstanding property taxes are expected to be collected within one year of the date of the financial statements.

Property values are determined by Williamson Central Appraisal District and Travis Central Appraisal District as of January 1 of each year. Prior to September 1 of each year, the District must adopt its annual budget and as soon thereafter as practicable, shall adopt a tax rate thus creating the tax levy. Property taxes for the current calendar year are levied on approximately October 1 of each year and are payable by January 31 of the following year. Property tax receivables are recorded as of the date levied. Unpaid taxes become delinquent on February 1 and a tax lien on real property is created as of July 1 of each year. Delinquent taxes collected are prorated between the general fund and the debt service fund based on rates adopted for the year of levy. Deferred inflows of resources are recorded in an amount equal to the net taxes receivable.

Inventories and Prepaid items

Inventories consisting of supplies and materials are valued at weighted average cost and they include maintenance, custodial, and office and instructional supplies. Inventories are recorded under the consumption method. Inventory is recorded as expenditures when consumed rather than when purchased. Commodities are recognized as revenues and expense in the period received.

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Capital Assets

Capital assets, which include land, construction in progress, buildings and improvements, and furniture and equipment, are reported in the governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost that equals or exceeds \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings and improvements, and furniture and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Buildings and Improvements	7-50
Furniture and Equipment	5-30

Compensated Absences

The State of Texas has created a minimum leave program consisting of five days per year of leave with no limit on accumulation and transferability among districts for every eligible employee regularly employed in Texas public schools. Each district's local Board of Education is required to establish a sick leave plan. Local school districts may provide additional leave beyond the state minimum.

The District has a policy in place for local sick leave earned. An employee who retires from employment with the District shall be eligible for reimbursement of local sick leave under the following conditions:

1. The employee retires in accordance with Teacher Retirement System of Texas (TRS) guidelines.
2. The employee provides advance written notice of intent to retire from employment.
3. The employee has at least four years of service with the District.
4. The employee has at least 22 days of available local sick leave.

The employee shall be reimbursed for each day of local sick leave at a rate established by the Board. If the employee is reemployed with the District, days for which the employee received payment shall not be available to that employee. The rate established by the Board shall be in effect until the Board adopts a new rate.

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

The current requirements for general obligation bonds principal and interest expenditures are accounted for in the debt service fund. Notes payable principal and interest expenditures are accounted for in the general fund. The current requirements for arbitrage liability, compensated absences, pension and OPEB plans are accounted for in the governmental and proprietary funds. Current requirements for health insurance and workers' compensation are accounted for and liquidated in the respective internal service fund.

Deferred Outflows/Inflows of Resources

Deferred outflows of resources represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditures) until then. Deferred inflows of resources represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

Deferred outflows/inflows of resources are amortized as follows:

- Deferred outflows/inflows from pension and OPEB activities are amortized over the weighted average remaining service life of all participants in the respective qualified pension plan and OPEB plan, except for projected and actual earnings differences on investments which are amortized on a closed basis over a 5-year period.
- Deferred charge/gain on refunding is amortized over the shorter of the life of the refunded or refunding debt.
- Property taxes are recognized in the period the amount becomes available.
- District contributions to the pension and OPEB plans after the measurement date of each plan are recognized in the subsequent fiscal year.

Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund Balance Flow Assumptions

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). It is the District's policy to use restricted resources first, then unrestricted resources as they are needed. In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental funds financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies

In the fund financial statements, governmental funds report fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which the amounts in the respective governmental funds can be spent. The District reports the following classifications of fund balance:

Nonspendable fund balance - amounts that are not in spendable form (such as inventory) or are required to be maintained intact.

Restricted fund balance - Amounts that can be spent only for specific purposes because of local, state or federal laws, or externally imposed conditions by grantors or creditors.

Committed fund balance - amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e. the Board of Trustees). To be reported as committed, amounts cannot be used for any other purposes unless the District takes the same highest level of action to remove or change the constraint. The District establishes (and modifies or rescinds) fund balance commitments by passage of a resolution.

Assigned fund balance - amounts the District intends to use for a specific purpose. The Board of Trustees (Board) delegates to the Superintendent or the Superintendent's designee the responsibility to assign funds as authorized by board policy approved by the Board. An assigned fund balance shall mean that portion of the fund balance that is spendable or available for appropriation but is tentatively earmarked for some specific purpose. The assigned intent may change over time as directed by the Superintendent or the Superintendent's designee. The Superintendent's designee, Chief Operating Officer, is not required to have board approval.

Unassigned fund balance - amounts that are available for any purpose. Positive amounts are reported only in the general fund.

It is the goal of the District to maintain a minimum fund balance for the general and debt service funds. The goal for the general fund shall be an unrestricted fund balance at a minimum between 60 and 90 days of operations. The goal for the debt service funds shall be 20 percent of the next fiscal year's bonded debt obligations.

Pension

The fiduciary net position of the Teacher Retirement System of Texas (TRS) Pension Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's Pension Plan fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other postemployment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

Use of Estimates

The presentation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Data Control Codes

The Data Control Codes refer to the account code structure prescribed by the Texas Education Agency (TEA) in the Financial Accountability System Resource Guide. TEA requires school districts to display these codes in the financial statements filed with TEA in order to ensure accuracy in building a statewide database for policy development and funding plans.

Note 2 - Stewardship, Compliance, and Accountability

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund, National School Breakfast and Lunch Program special revenue fund, and debt service fund. All other governmental funds adopt project length budgets. All annual appropriations lapse at fiscal year-end. The following procedures are followed in establishing the budgetary data reflected in the financial schedules.

1. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board.

The appropriated budget is prepared by fund, function, and campus/department. The District's campus/department heads may make transfers of appropriations within a department. Transfers of appropriations between campus/department require the approval of the District's management. Transfers of appropriations between functions require the approval of the Board. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the function level within a fund. The District made several supplemental budgetary versions throughout the year, primarily in the general fund which were not significant.

Encumbrances

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as restricted, committed, or assigned, as appropriate.

At August 31, 2019, certain amounts which were previously restricted, committed, or assigned for specific purposes have been encumbered in the governmental funds. These amounts are as follows:

	Encumbrances Included in:		
	Restricted Fund Balance	Committed Fund Balance	Assigned Fund Balance
General Fund	\$ -	\$ 164,142	\$ 122,998
Capital Projects Fund	13,717,698	-	-
National School Breakfast and Lunch	53,918	-	-
Campus Activity Funds	-	1,168	-
Total Encumbrances	\$ 13,771,616	\$ 165,310	\$ 122,998

Note 3 - Deposits and Investments

Cash Deposits

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the Texas School Depository Act. The depository bank pledges securities which comply with state law and these securities are held for safekeeping and trust with the District's and the depository bank's agent bank. The pledged securities are in compliance with the Texas Government Code, Chapter 2257 "Collateral for Public Funds", and are sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

Investments

The District's investment policy is in accordance with the Public Funds Investment Act, the Public Funds Collateral Act, and federal and state laws. For fiscal year 2019, the District invested in LOGIC, Lone Star, TexPool, TexasDAILY, Texas CLASS, TexasTERM, commercial paper, money market mutual funds, municipal bonds, and U.S. Treasury and Agencies securities.

TexPool is duly chartered and overseen by the State Comptroller's Office, administered and managed by Federated Investors, Inc. State Street Bank serves as the custodial bank. The portfolio consists of U.S. Government securities; collateralized repurchase and reverse repurchase agreements; and AAA rated money market mutual funds.

LOGIC is duly chartered by the State of Texas Interlocal Cooperation Act, is administered by First Southwest Asset Management, Inc. and J.P. Morgan Investment Management, Inc. (JPMIM), and managed by JPMIM. J.P. Morgan Chase provides custody, fund accounting and transfer agency services. LOGIC may invest in obligations of the U.S. or its agencies and instrumentalities; repurchase agreements; SEC-registered money market funds rated in the highest rating category by at least one nationally recognized statistical rating organization (NRSRO); and commercial paper rated A-1, P-1 or equivalent by on NRSRO and is fully secured by an irrevocable letter of credit.

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

Lone Star Investment Pool is duly chartered by the State of Texas Interlocal Cooperation Act, is administered by First Public, LLC, and managed by Standish Mellon Investment Managers and American Beacon Advisors. The State Street Bank is the custodial bank. Lone Star Investment Pool is restricted to invest in obligations of the United States or its agencies and instrumentalities; other obligations insured by the United States; fully collateralized repurchase agreements having a defined termination date, secured by obligations described previously; and SEC-registered no-load money market mutual funds, the assets which consist exclusively of the obligations described above. The District currently invests in Lone Star Corporate Overnight, and Lone Star Corporate Overnight Plus.

Texas CLASS is a local government investment pool organized under the authority of the Interlocal Cooperation Act, chapter 791, Texas Government Code, and the Public Funds Investment Act, chapter 2256, Texas Government Code. Texas CLASS was established in 1996. Pursuant to the Trust Agreement, Texas CLASS is supervised by a Board of Trustees who are elected by the Participants. The Board of Trustees supervises the Trust and its affairs and acts as the liaison between the Participants, the Custodian and the Program Administrator. Public Trust Advisors, LLC serves as Program Administrator. It intends to maintain a Net Asset Value of approximately \$1 per share. Wells Fargo Bank, N.A. is the custodial bank.

TexasTERM is a local government investment pool organized in the year 2000 in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. TexasTERM is directed by an Advisory Board of experienced local government officials, finance directors and treasurers and is administered by PFM Asset Management, LLC. US Bank, N.A. is the custodial bank. TexasTERM offers a series of professionally managed portfolios that are available to government entities in the State of Texas. The District currently invests in the following:

- TexasDAILY, a money market portfolio with daily liquidity that is rated AAAM* by Standard & Poor's.
- TexasTERM, a fixed-rate, fixed-term portfolio, rated AA Af* by Standard & Poor's, that enables investors to lock in a fixed rate for a term of 60 days to 365 days.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, *Fair Value Measurement and Application* provides a framework for measuring fair value which establishes a three-level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs—other than quoted prices included within Level 1—that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

<i>Portfolio Weighted Average Maturity</i>				139	

Investment Pools are measured at amortized cost or fair value. Such investments are not required to be reported by levels in the table above.

The Lone Star Corporate Overnight Fund, TexPool, and TexasDAILY investment pools and are external investment pools measured at amortized cost. In order to meet the criteria to be recorded at amortized cost, investment pools must transact at a stable net asset value per share and maintain certain maturity, quality, liquidity and diversification requirements within the investment pool. The investment pools transact at a net asset value of \$1.00 per share, have weighted average maturity of 60 days or less and weighted average life of 120 days or less, investments held are highly rated by nationally recognized statistical rating organization, have no more than 5% of portfolio with one issuer (excluding US government securities), and can meet reasonably foreseeable redemptions. Such pools have a redemption notice period of one day and no maximum transaction amounts. The investment pools' authorities may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium or national or state emergency that affects the pools' liquidity.

Commercial paper maturing within one year from the purchase date is reported at amortized cost.

The Lonestar Corporate Overnight Plus Fund, LOGIC, Texas CLASS, and TexasTERM investment pools are external investment pools measured at fair value. Such pools strategy is to seek preservation of principal, liquidity and current income through investment in a diversified portfolio of short-term marketable securities. The District has no unfunded commitments related to the investment pool. Each pool has a redemption notice period of one day and may redeem daily. The investment pool's authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium or national or state emergency that affects the pool's liquidity.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

Money market mutual funds are reported at net asset value of \$1.00 per share, i.e. fair value.

Municipal Bonds, U.S. Treasury Notes and U.S. Agency Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Credit Risk

State law and the District's investment policy limits investments in all categories to top ratings issued by nationally recognized statistical rating organizations. The credit ratings for investments are noted in the preceding table.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates may adversely affect the value of the investments. The District's investment policy limits the maturities of investments and prohibits any investment for speculative gains. Unless matched to a specific cash flow or specifically authorized by the Board, the District will not directly invest in securities maturing more than 24 months from the date of purchase. In no case will securities with a maturity of greater than 12 months exceed 50 percent of the total portfolio.

The District recognizes that investment risk can result from market price changes. Investment officers are expected to display prudence, discretion, and intelligence in the selection of securities, as a way to minimize risk. Investments of the District shall be selected in a manner that seeks to ensure the preservation of capital in the overall portfolio. The interest rate risk is managed as noted in the preceding table presentation of weighted average maturity in days for each investment type.

Concentration of Credit Risk

The District's investment policy requires the investment portfolio to be diversified in terms of investment instruments, maturity scheduling, and financial institutions in order to reduce the risk of loss resulting from over-concentration of assets in a specific class of investments, specific maturity, or specific issuer. The asset mix of the District's portfolio is expressed in terms of maximum commitment so as to allow sufficient flexibility to take advantage of market considerations within the context of its investment policy. The asset mix requirements are as follows:

U.S. Treasury Obligations	25% (maximum)
Money Market Mutual Fund	50% (maximum)
Commercial Paper	25% (maximum)
Certificates of Deposit	75% (maximum)
U.S. Government Securities	75% (maximum)
Public Funds Investment Pools	100% (maximum)
Repurchase Agreements	50% (maximum)

No issuer of U.S. government securities or a single public funds investment pool will comprise more than 75 percent of the District's investment portfolio. The District does not invest its portfolio in one investment pool. Funds are divided between six pools for diversification and security reasons.

Custodial Credit Risk – Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. As of August 31, 2019, District’s banks’ balances of \$15,937,769 were not exposed to custodial credit risk because such balances were insured and collateralized with securities held by the District’s agent in the District’s name.

Custodial Credit Risk – Investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. District policy requires investments to be in the District’s name or held by the District’s agent in the District’s name. The District is not exposed to custodial risk due to the investments are in the District’s name or held by the District’s agent in the District’s name.

Note 4 - Receivables

Tax revenues of the general and debt service fund are reported net of estimated uncollectible amounts. Total change in uncollectible amounts related to revenues of the current period increased (decreased) revenues as follows:

Note 6 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances as of August 31, 2019 is as follows:

<u>Fund</u>	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
Governmental Funds:		
General Fund	\$ 5,324,352	\$ 2,749,405
State Textbook Fund	-	4,041,000
Capital Projects Fund	2,501,839	-
Nonmajor-Other Governmental Funds	32,304	1,265,008
Proprietary Funds:		
Enterprise Fund - Extended Day Program	-	19,524
Internal Service Funds	216,442	-
Totals	\$ 8,074,937	\$ 8,074,937

Interfund balances consist of short-term lending/borrowing arrangements that result primarily from payroll and other regularly occurring charges that are paid by the general fund and then charged back to the appropriate other fund. Additionally, some lending/borrowing may occur between two or more funds. All interfund balances are expected to be repaid within one year.

Interfund Transfers

Interfund transfers are defined as “flows of assets without equivalent flow of assets in return and without a requirement for repayment.” The following is a summary of the District’s transfers for the year ended August 31, 2019.

<u>Transfer Out</u>	<u>Transfers In</u>	<u>Amount</u>
Enterprise Fund-Extended Day Program	General Fund	\$ 1,500,000
General Fund	Capital Projects Fund	2,500,000
Total		\$ 4,000,000

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

Transfers are used to supplement various programs accounted for in other funds in accordance with budgetary authorizations.

Transfers from the Enterprise Fund to the General Fund are to compensate for operating costs and building usage. Transfers from the General Fund to the Capital Projects Fund are to compensate for additional construction costs conducted during the year.

Note 7 - Long-term Liabilities

The District’s long-term liabilities consist of bond indebtedness, notes payable, arbitrage liability, health insurance, workers’ compensation, compensated absences, and net pension and OPEB liability. The current requirements for general obligation bonds principal and interest expenditures are accounted for in the debt service fund. The current requirements for health insurance and workers’ compensation are accounted for and liquidated in the respective internal service fund. Other long-term liabilities are generally liquidated with resources of the general fund.

General Obligation Bonds

The District issues general obligation bonds to provide funds for the acquisition and construction/renovation of school buildings, equipment and technology (BLDG) and to refund general obligation bonds (REF). General obligation bonds are direct obligations and pledge the full faith and credit of the District. These bonds are issued as current interest bonds with various amounts of principal maturing each year. General obligation bonds currently outstanding as of August 31, 2019 are as follows:

The District passed a bond election in November 2018 to authorize \$332 million in bonds and sold \$250 million of bonds in March 2019. As of August 31, 2019, the District has authorized but unissued bonds of \$82,000,000 remaining.

In June 2014, the District issued \$49,670,000 in variable rate unlimited tax school building bonds (2014A). These bonds were originally scheduled to mature on August 15, 2039. Following the initial rate period, the bonds will bear interest at a term rate determined by the remarketing agent; however, the interest rate mode on the bonds may, at the District's option, be converted from time to time as provided in the order authorizing the bonds to a different term rate or to a fixed rate until maturity. The bonds are subject to mandatory tender on the initial mandatory tender date, subject to successful remarketing thereof unless otherwise refunded.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2019

In August 2019, the District remarketed \$26,925,000 of the 2014A variable rate bonds at a new term rate.

Variable Rate Unlimited Tax School Building Bonds, Series 2014A (Remarketed)

<u>Principal Amount</u>	<u>Period Commencement</u>	<u>Period Expiration</u>	<u>Mandatory Tender Date</u>	<u>Stated Maturity</u>	<u>Term Rate</u>	<u>Yield</u>	<u>Stepped Rate</u>
\$ 27,670,000	July 15, 2014	August 14, 2019	August 15, 2019	August 15, 2039	2.000%	1.700%	7.000%

The interest rate borne by the bonds cannot exceed the lesser of a maximum rate of 8 percent or the maximum net effective interest rate permitted under Chapter 1204, Texas Government Code, as amended. In the event of a failed remarketing, a step rate of 7 percent will be invoked until such a time as the bonds are successfully remarketed. A failed remarketing will not be considered an event of default.

In 2019, the District defeased \$22,910,000 of outstanding bonds by placing funds accumulated by the Debt Service Fund in an irrevocable escrow account to provide for redemption of certain future debt service payments on the Series 2011 and 2011A refunding bonds.

Prior to August 31, 2019, the District defeased certain outstanding bonds by placing available cash or the proceeds of new bonds, in an irrevocable trust to provide for all future debt service payments on the refunded bonds. Accordingly, the escrow accounts to provide for all future debt service payments are not included in the District's financial statements. At August 31, 2019, the following outstanding bonds are considered defeased:

2011	General Obligation Bonds (maturing 2022-2025, callable August 15, 2021)	\$ 9,710,000
2011A	General Obligation Bonds (maturing 2022-2028, callable February 15, 2021)	13,200,000
2011A	General Obligation Bonds (maturing 2018-2026, callable February 15, 2021)	5,185,000
2014	General Obligation Bonds (maturing 2038-2039, callable February 15, 2024)	17,720,000
		<u>\$ 45,815,000</u>

In accordance with the provisions of Section 148(f) of the Internal Revenue Code of 1986, as amended, bonds must satisfy certain arbitrage rebate requirements. Positive arbitrage is the excess of: (1) the amount earned on investments purchased with bond proceeds, or (2) the amount that such investments would have earned had such investments been invested at a rate equal to the yield on the bond issue. In order to comply with the arbitrage rebate requirements, positive arbitrage must be paid to the U.S. Treasury at the end of each five-year anniversary date of the bond issue. The District has estimated \$120,644 in arbitrage liability as of August 31, 2019, which is reported in the government-wide statements as such amount and is not required to be paid in the next year.

Note 10 - Risk Management

Property/Liability

The District is exposed to various risks of loss related to property/liability losses for which the District is a member of the Texas Association of School Board Joint Account Self-Insurance Fund (Fund). The Fund was created to formulate, develop and administer a program of modified self-funding for the property and/or liability coverage for its membership, provide claims administration, and develop a comprehensive loss control program. The District pays contributions to the Fund for its automobile and school liability coverage. The District’s agreement with the Fund provides that the Fund will be self-sustaining through member premiums and will provide, through commercial companies, reinsurance contracts.

Health Insurance Coverage

On January 1, 2011, the District implemented a self-funded employee group health insurance plan and such transactions are accounted for in an Internal Service Fund. During the 2018-2019 fiscal year, the District’s monthly medical contributions were \$400 toward the total employee’s cost for the medical plans that could include coverage for a spouse, qualifying individual, child(ren) or family.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

Liabilities of the self-funded employee group health insurance plan are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities also include an estimated amount for claims that have been incurred but not reported (IBNR). The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. The result of the process to estimate the claims liability is based on the District's historical experience. An excess coverage insurance policy limits claims paid from the fund to an annual specific deductible of \$300,000. There were no significant reductions in insurance coverage from the prior year. Settlements have not exceeded coverages for each of the past three fiscal years. Changes in health insurance claims liability in fiscal years 2018 and 2019 were as follows:

<u>Fiscal Year</u> <u>General</u>	<u>Beginning of</u> <u>Year Accrual</u>	<u>Current Year</u> <u>Estimates</u>	<u>Claims</u> <u>Payments</u>	<u>End of Year</u> <u>Accrual</u>
2018	\$ 1,021,113	\$ 15,678,482	\$ (15,780,978)	\$ 918,617
2019	918,617	16,006,298	(15,424,915)	1,500,000

Workers' Compensation

The District is self-insured for worker's compensation coverage and such transactions are accounted for in an internal service fund. Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities also include an estimated amount for claims that have been incurred but not reported (IBNR). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards.

Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries for example from stop-loss or subrogation, are another component of the claims liability estimate.

The District contributed estimated premiums to the internal service fund based on standard state rates. The District purchased excess stop coverage from a commercial insurer licensed in the State of Texas. The District's retention under this excess policy is limited to \$450,000 per employee claim, with a cap on the District's liability for all claims at \$1,000,000 in a policy period. There were no significant reductions in insurance coverage from the prior year. Settlements have not exceeded coverages for each of the past three fiscal years. Changes in workers' compensation plan's claims liability in fiscal years 2018 and 2019 were as follows:

<u>Fiscal Year</u> <u>General</u>	<u>Beginning of</u> <u>Year Accrual</u>	<u>Current Year</u> <u>Estimates</u>	<u>Claims</u> <u>Payments</u>	<u>End of Year</u> <u>Accrual</u>
2018	\$ 377,170	\$ 499,401	\$ (407,583)	\$ 468,988
2019	468,988	746,973	(560,561)	655,400

Note 11 - Litigation and Contingent Liabilities

The District is a defendant in legal claims arising principally in the normal course of operations. In the opinion of the District's management, the claims will not have a material effect on the District's financial position, results of operations or liquidity.

The District participates in a number of federal and state financial assistance programs. Although the District's grant programs have been audited in accordance with the provisions of the Single Audit Act through August 31, 2019, these programs are subject to financial and compliance audits by the grantor agencies. The District is also subject to audit by the TEA of the attendance data upon which payments from the agency are based. These audits could result in questioned costs or refunds to be paid back to the granting agencies.

Note 12 - Pension Information

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS) and is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the TRS's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report (CAFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.gov/Pages/about_archive_caftr.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6597.

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity, except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic postemployment benefit changes; including automatic cost of living adjustments. Ad hoc postemployment benefit changes, including ad hoc cost of living adjustments can be granted by the Texas Legislature as noted in the Plan Description above.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 through 2017. The 85th Texas Legislature, General Appropriations Act (GAA) affirmed that the employer contribution rates for plan fiscal years 2018 and 2019 would remain the same. Rates for such plans fiscal years are as follows:

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Member	7.7%	7.7%	7.7%
Non-Employer Contributing Entity (State)	6.8%	6.8%	6.8%
Employers/District	6.8%	6.8%	6.8%
Employers/District OASDI	1.5%	1.5%	1.5%

The contribution amounts for the District’s fiscal year 2019 are as follows:

District Contributions	\$ 4,496,413
Member Contributions	12,221,532
NECE on-behalf Contributions (State)	8,398,096

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the GAA.

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member’s salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member’s first 90 days of employment.
- When any part or all of an employee’s salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Actuarial Assumptions

The total pension liability in the August 31, 2017 actuarial valuation rolled forward to August 31, 2018 was determined using the following actuarial assumptions:

Valuation date	August 31, 2017 rolled forward to August 31, 2018
Actuarial cost method	Individual Entry Age Normal
Asset valuation method	Market Value
Single discount rate	6.907%
Long-term expected rate	7.25%
Municipal bond rate as of August 2018	3.69%. Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."
Last year ending August 31 in projection period (100 years)	2116
Inflation	2.30%
Salary increases	3.05% to 9.05% including inflation
Ad hoc postemployment benefit changes	None

The actuarial methods and assumptions are based primarily on a study of actual experience for the three year period ending August 31, 2017 and adopted in July 2018.

Discount Rate

The single discount rate used to measure the total pension liability was 6.907%. The single discount rate was based on the expected rate of return on pension plan investments of 7.25% and a municipal bond rate of 3.69%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was sufficient to finance the benefit payments until the year 2069. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2069, and the municipal bond rate was applied to all benefit payments after that date. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TRS's target asset allocation as of August 31, 2018 are summarized below:

Asset Class	Target Allocation*	Long-term Expected Geometric Real Rate of Return	Expected Contribution to Long-term Portfolio Returns
Global Equity:

Discount Rate Sensitivity Analysis

The following table presents the District's proportionate share of net pension liability for TRS calculated using the discount rate of 6.907%, as well as the District's proportionate share of the respective net pension liability if it was calculated using a discount rate that is 1% lower or 1% higher than the current rate:

1% Decrease (5.907%)	Current Discount Rate (6.907%)	1% Increase (7.907%)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2019, the District reported a liability of \$70,597,696 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District are as follows:

District's Proportionate Share of the Net Pension Liability	\$ 70,597,696
State's Proportionate Share of the Net Pension Liability Associated with the District	128,385,868
Total	\$ <u>198,983,564</u>

The net pension liability was measured as of August 31, 2017 and rolled forward to August 31, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation August 31, 2017 rolled forward to August 31, 2018. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2017 through August 31, 2018.

At August 31, 2018, the employer's proportion of the net pension liability was 0.1282605%, which was an increase of 0.0024215% from its proportion measured as of August 31, 2017.

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The total pension liability as of August 31, 2018 was developed using a roll-forward method from the August 31, 2017 valuation.
- Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate changed from 8.0% as of August 31, 2017 to 6.907% as of August 31, 2018.
- The long-term assumed rate of return changed from 8.0% to 7.25%.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the net pension liability.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2019, the District recognized pension expense of \$23,189,745 and revenue of \$12,706,779 for support provided by the State.

Note 13 - Defined Other Postemployment Benefit Plan

Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Postemployment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

OPEB Plan Fiduciary Net Position

Detailed information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.gov/Pages/about_archive_cafr.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6597.

Benefits Provided

TRS-Care provides a basic health insurance coverage, at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible retirees and their dependents not enrolled in Medicare may pay premiums to participate in one of two optional insurance plans with more comprehensive benefits. Eligible retirees and dependents enrolled in Medicare may elect to participate in one of the two Medicare health plans for an additional fee. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic postemployment benefit changes; including automatic cost of living adjustments.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for a retiree with and without Medicare coverage.

TRS-Care Monthly Plan Premium Rates
Effective January 1, 2018-December 31, 2018

	Medicare	Non-Medicare
Retiree*	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree* and Children	468	408
Retiree and Family	1,020	999

* or Surviving Spouse

Change of Benefit Terms since the Prior Measurement Date

The 85th Legislature, Regular Session, passed several statutory changes effective September 1, 2017 that affected TRS plans. These changes include:

- Created a high-deductible health plan that provides a zero cost for generic prescriptions for certain preventive drugs and a zero premium for disability retirees who retired as a disability retiree on or before January 1, 2017 and are not eligible to enroll in Medicare.
- Created a single Medicare Advantage plan and Medicare prescription drug plan for all Medicare-eligible participants.
- Allowed the System to provide other, appropriate health benefit plans to address the needs of enrollees eligible for Medicare.
- Allowed eligible retirees and their eligible dependents to enroll in TRS-Care when the retirees reach 65 years of age, rather than waiting for the next enrollment period.
- Eliminated free coverage under TRS-Care, except for certain disability retirees enrolled during Plan Years 2018 through 2021, requiring members to contribute \$200 per month towards their health insurance premiums.

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

Texas Insurance Code, section 1575.202 establishes the State's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.75% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	2019	2018	2017
Active Employee	0.65%	0.65%	0.65%
Non-employer Contribution Entity (State)	1.25%	1.25%	1.00%
Employers/District	0.75%	0.75%	0.55%
Federal/Private Funding Remitted by Employers	1.25%	1.25%	1.00%

The contribution amounts for the District's fiscal year 2019 are as follows:

District Contributions	\$ 1,295,147
Member Contributions	1,034,337
NECE On-behalf Contributions (State)	1,907,430

In addition, the State of Texas contributed \$588,212, \$452,987, and \$666,595 in 2019, 2018 and 2017, respectively, for on-behalf payments for Medicare Part D.

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (*regardless of whether or not they participate in the TRS Care OPEB program*). When hiring a TRS retiree, employers are required to pay to TRS-Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$182.6 million in fiscal year 2018. The 85th Texas Legislature, House Bill 30 provided an additional \$212 million in one-time, supplemental funding for the fiscal year 2018-19 biennium to continue to support the program. This was also received in fiscal year 2018 bringing the total appropriations received in fiscal year 2018 to \$394.6 million.

Actuarial Assumptions

A change was made in the measurement date of the total OPEB liability for this fiscal year. The actuarial valuation was performed as of August 31, 2017. Update procedures were used to roll forward the total OPEB liability to August 31, 2018. This is the first year using the roll forward procedures.

The actuarial valuation of TRS-Care is similar to the actuarial valuations performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, including mortality and most of the economic assumptions used in this OPEB valuation were identical to those used in the respective TRS pension valuation.

The active mortality rates were based on 90% of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The Post-retirement mortality rates were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (U-MP).

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

The following assumptions used for members of TRS-Care are identical to the assumptions employed in the August 31, 2017 TRS annual pension actuarial valuation that was rolled forward to August 31, 2018:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Expected Payroll Growth
Rates of Disability	

Additional Actuarial Methods and Assumptions:

Valuation date	August 31, 2017, rolled forward to August 31, 2018
Actuarial cost method	Individual Entry Age Normal
Inflation	2.30%
Discount rate	3.69%. Sourced from fixed Income municipal bonds with 20 years to maturity that include only federal tax-exempt municipal bonds as reported in Fidelity Index's "20- Year Municipal GO AA Index" as of August 31, 2018.
Aging factors	Based on plan specific experience
Election rates	Normal Retirement: 70% participation prior to age 65 and 75% after age 65.
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Projected annual salary increases**	3.05% to 9.05%, including inflation
Healthcare trend rates	Initial medical trend rates of 107.74 percent and 9.00 percent for Medicare retirees and an initial medical trend rate of 6.75 percent for non-Medicare retirees. Initial prescription drug trend rate of 11.00 percent for all retirees. The first year trend increase for the Medicare Advantage (medical) premiums reflects the anticipated return of the Health Insurer Fee (HIF) in 2020.
Ad hoc postemployment benefit changes	None

In this valuation, the impact of the Cadillac Tax has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$850/\$2,292 were indexed annually by 2.50%.
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25 basis point addition to the long-term trend rate assumption.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

Discount Rate

A single discount rate of 3.69% was used to measure the total OPEB liability. There was an increase of 0.27% in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

Discount Rate Sensitivity Analysis The following table presents the District’s proportionate share of Net OPEB Liability for TRS-Care if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.69%).

Sensitivity of the Net OPEB Liability to the Single Discount Rate Assumptions

\$ <u>107,429,640</u>	\$ <u>90,250,951</u>	\$ <u>76,661,501</u>

Healthcare Cost Trend Rates The following table presents the District’s proportionate share of Net OPEB Liability using the assumed healthcare cost trend rate, as well as what the Net OPEB Liability would be if it were calculated using a trend rate that is 1% lower or 1% higher than the assumed health-care cost trend rate:

Sensitivity of the Net OPEB Liability to the Healthcare Cost Trend Rate Assumptions

1% Decrease	Current Single Healthcare Cost Trend Rate	1% Increase
\$ <u>74,954,885</u>	\$ <u>90,250,951</u>	\$ <u>110,396,201</u>

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2019, the District reported a liability of \$90,250,951 for its proportionate share of the TRS’s Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the Net OPEB Liability, the related State support, and the total portion of the Net OPEB Liability that was associated with the District were as follows:

District's Proportionate Share of the Net OPEB Liability	\$ 90,250,951
State's Proportionate Share of the Net OPEB Liability Associated with the District	132,354,997
Total	\$ <u>222,605,948</u>

The Net OPEB Liability was measured as of August 31, 2017 and rolled forward to August 31, 2018 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer’s proportion of the Net OPEB Liability was based on the employer’s contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2017 through August 31, 2018.

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2019

At August 31, 2019 the employer's proportion of the collective Net OPEB Liability was 0.1807516% which was an increase of 0.0094183% from its proportion measured as of August 31, 2018.

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

- Adjustments were made for retirees that were known to have discontinued their health care coverage in fiscal year 2018. This change increased the total OPEB liability.
- The health care trend rate assumption was updated to reflect the anticipated return of the Health Insurer Fee (HIF) in 2020. This change increased the total OPEB liability.
- Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. This change increased the total OPEB liability.
- The discount rate was changed from 3.42% as of August 31, 2017 to 3.69% as of August 31, 2018. This change lowered the total OPEB liability \$2.3 billion.
- Change of benefit terms since the prior measurement date made effective September 1, 2017 by the 85th Texas Legislature.

For the year ended August 31, 2019, the District recognized OPEB expense of \$7,716,674, and revenue of \$4,814,280 for support provided by the State.

At August 31, 2019, the District reported the District's contributions paid after the measurement date and its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other postemployment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between Expected and Actual Economic Experience	\$ 4,789,282	\$ 1,424,293

PFLUGERVILLE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
AUGUST 31, 2019

Note 1 - Budget

Budgetary Information

The District adopts annual appropriations type budgets for the General Fund, *National School Breakfast and Lunch Program* Special Revenue Fund, and the Debt Service Fund using the same method of accounting as for financial reporting, as required by law. The remaining Special Revenue Funds (primarily federal grant programs) utilize a managerial type budget approved at the fund level by the Board of Trustees upon acceptance of the grants. These grants are subject to Federal, State and locally imposed project length budgets and monitoring through submission of reimbursement reports. The budgets are prepared on a basis of accounting that is used for reporting in accordance with generally accepted accounting principles.

Expenditures may not legally exceed budgeted appropriations at the function or activity level. Expenditure requests which would require an increase in total budgeted appropriations must be approved by the Trustees through formal budget amendment. State law prohibits trustees from making budget appropriations in excess of funds available and estimated revenues. State law also prohibits amendment of the budget after fiscal year end. Supplemental appropriations were made to the General Fund during the fiscal year ended August 31, 2019.

The administrative level at which responsibility for control of budgeted appropriations begins is at the organizational level within each function of operations. The finance department reviews closely the expenditure requests submitted by the various organizational heads (principal and department heads) throughout the year to ensure proper spending compliance. No public funds of the District shall be expended in any manner other than as provided for in the budget adopted by the Board of Trustees.

The official school budget was prepared for adoption for budgeted governmental fund types prior to August 20, 2018. The budget was formally adopted by the Board of Trustees at a duly advertised public meeting prior to the expenditure of funds. The final amended budget is filed with the Texas Education Agency (TEA) through inclusion in the annual financial and compliance report.

Encumbrance accounting is utilized in all government fund types. Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at year-end and encumbrances outstanding at that time are appropriately provided for in the subsequent year's budget.

Nonmajor Governmental Funds

Special Revenue Funds

The Special Revenue Funds are used to account for financial resources restricted to or committed for specific purposes by a grantor or the District's board of trustees. These funds may be locally, state, or federally funded.

Programs accounted for in the Special Revenue Funds include:

ESSA, Title IX, Part A – Education for the Homeless Children and Youth

Funds used to provide enriched and educational services, including tutoring, to enable homeless students to be promoted or to show academic progress toward on-grade level expectations. Also to ensure that these students have access to needed specialized services, that they are able to regularly and safely get to school, and that these students and their families are aware of all community and district resources available to meet their basic needs.

ESSA, Title I, Part A – Improving Basic Programs

Funds granted to provide opportunities for children served to acquire the knowledge and skills contained in the challenging State content standards and to meet State performance standards developed for all children.

IDEA – Part B, Formula

Funds granted to operate educational programs for children with disabilities.

IDEA – Part B, Preschool

Funds granted for preschool children with disabilities.

IDEA – Part B, Discretionary

Funds granted to target support for children with disabilities.

National School Breakfast and Lunch Program (Child Nutrition)

Funds used to account for allowable expenditures as determined under the National School Breakfast and Lunch Program for the operation and improvement of child nutrition programs.

Career and Technical – Basic Grant

Funds granted to provide career and technical education to develop new and/or improve career and technical education programs for paid and unpaid employment.

ESSA, Title II, Part A – Teacher and Principal Training and Recruiting

Funds for increasing student academic achievement through improving teacher and principal quality and increasing the number of highly qualified teachers in classrooms and highly qualified principals and assistant principals in schools.

Title III, Part A – English Language Acquisition and Language Enhancement

Funds granted to improve the education of limited English proficient children, by assisting the children to learn English and meet challenging State academic content and student academic achievement standards.

Medicaid Administrative Claiming Program – MAC

Funds allocated for reimbursement of eligible administrative costs for activities attributed to the implementation of the Medicaid state plan.

LEP Summer School

Funds to provide summer school instruction for LEP students.

Title IV, Part A, Subpart 1

Funds to provide all students access to a well-rounded education, improve academic outcomes by maintaining safe and healthy students and the use of technology to advance student academic achievement.

State Supplemental Visually Impaired (SSVI)

Funds granted to support the education needs of students who have visual impairments.

Noneducational Community-Based Support

Funds granted to provide noneducational community-based support services to students with disabilities who would remain or have to be placed in residential facilities for educational reasons without the provision of these services.

Advanced Placement Incentives

Funds intended to reward students, teachers, and campuses for high achievement. Campuses are awarded money for each student who scored three or above on an AP examination or four or above on an IB examination.

Read to Succeed (License Plate Program)

Funds to be used to provide access to quality reading materials in the library and encourage children to visit the school library.

Miscellaneous State Grants

Funds to provide stipends for teachers who attended an Academy to improve their teaching skills during the summer, and to assist with paying testing fees for students to obtain licenses in their career area.

Campus Activity Funds

This fund classification is used to account for transactions related to a principal's activity fund.

Special Projects

This fund classification is used to account for special local grants such as the Pflugerville Education Foundation Grant.

STEM Grant and CTE Initiative

Funds to be used to improve student performance in science, technology, engineering, and math (STEM) and career and technical education (CTE).

CHS Culinary Arts/Aramark

Funds to be used for the Culinary Arts Program and Connally High School for 2012 – 2013 through 2017 - 2018.

Miscellaneous Local Grants

Funds received from other local sources with restricted purposes.

⁽¹⁾ Appraised value less exemptions equals taxable assessed value. The beginning taxable value net of adjustments times the tax rate set by the District's Board of Trustees each fall less any subsequent adjustments equals the total tax levy for the respective fiscal year. The net tax levy for prior years reflects ongoing adjustments applied to that year's tax levy.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the Pflugerville Independent School District. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and therefore responsible for paying the debt of the overlapping government.

Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed In Accordance with *Government Auditing Standards*

To the Board of Trustees of
Pflugerville Independent School District
Pflugerville, Texas

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Pflugerville Independent School District (the District) as of and for the fiscal year ended August 31, 2019, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements, and have issued our report thereon dated January 10, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of *the District’s* internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To the Board of Trustees of
Pflugerville Independent School District

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance in Accordance with the Uniform Guidance

To the Board of Trustees of
Pflugerville Independent School District
Pflugerville, Texas

Report on Compliance for Each Major Federal Program

We have audited Pflugerville Independent School District's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the fiscal year ended August 31, 2019. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the fiscal year ended August 31, 2019.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that were not identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The accompanying notes to the schedule of expenditures of federal awards are an integral part of this schedule.

Note 1 – Summary of Significant Accounting Policies

The District accounts for all awards under federal programs in the General and certain Special Revenue Funds in accordance with the Texas Education Agency’s *Financial Accountability System Resource Guide*. These programs are accounted for using a current financial resources measurement focus.

The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and accordingly, when such funds are received, they are recorded as unearned revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods.

The accompanying schedule of expenditures of federal awards (the “Schedule”) includes the federal grant activity of the District under programs of the federal government for the year ended August 31, 2019. The information in this schedule is presented in accordance with the requirements of the Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District. National School Lunch Program non-cash commodities are recorded at their estimated market value at the time of donation.

Note 2 – De Minimis Cost Rate

The District has elected not to use the 10% de minimis indirect cost rate as allowed under Uniform Guidance.
