

Hello PfISD Parents/Guardians,

The district is offering an opportunity for parents/guardians to purchase Technology Device Insurance which will cover **accidental damage** to the device issued to your student(s). You are receiving this message because our records show you have a student who has a device that qualifies for insurance. Parents may opt-in for a \$25 warranty coverage for the current school year, which will need to be paid for each student who has checked out a district device. The insurance does not cover loss of the device.

Please review the information below for details on the repair fees and insurance options. If you would like to purchase the insurance coverage, click on the following link and you will be redirected to the Technology Device Insurance Payment Website.
