**IT WAS A PICTURE-PERFECT EVENING ON JUNE 24**, when throngs of families, friends, teachers, administrators, and well-wishers gathered at Wallkill Senior High School to celebrate the accomplishments—and promising futures—of the Class of 2022.

Two hundred and forty-five students were honored during a festive ceremony held on the Robert J. Robinson Multipurpose Turf Field. Student leaders reflected on their educational journeys and gave heartfelt thanks to their family members, teachers, and peers for their years of support. They encouraged their classmates to set goals, follow their dreams, and leave their marks on the world.

Many of the graduates plan to pursue degrees at various educational institutions, including Brown University, where Valedictorian Marcus Lewis will be studying Chemistry, Stevens Institute of Technology, where Salutatorian Jing Ngo will be focusing on Computer Science, and SUNY New Paltz, where Principal's Award winner Daniel Rizzo will be beginning his studies in Environmental Science.

Other students have enlisted in the military, enrolled in technical programs, or entered the workforce. No matter what path they take, we wish them every success!

## Welcome Back!

The first day of  
school for students  
is Wednesday,  
September 7, 2022.

Let the learning begin!

# Letter from the Superintendent

## DEAR WALLKILL COMMUNITY,

We are very excited to welcome our students, faculty, and staff back for the 2022-2023 school year. As a reminder, September 6 is Superintendent's Conference Day, and September 7 is the first day of school for our students.

In May, the community overwhelmingly supported our budget, which allowed us to maintain and enhance our programs. Furthermore, due to long-range planning and the establishment of reserves, the tax levy was at or below the limit for the eleventh year in a row. In addition, the community overwhelmingly approved a capital project that will allow the District to update aged infrastructure and enhance safety features in our buildings. This work is anticipated to begin in Summer 2023.

It is imperative that we continue to work together to address the mental health needs of our students. We have been extremely proactive in our efforts to ensure that our students are safe and embraced by our learning community, such as having police officers stationed in all of our buildings, assigning social workers at each building, and implementing programs that promote a positive school climate. Furthermore, we will continue to work with police agencies, our School Resource Officers, the Building Safety Teams, the Positive School Climate Teams, and outside support groups to review our safety protocols and to maintain a positive and supportive learning environment.

We are a community that values education, and I am proud to serve you as Superintendent of Schools. A strong partnership between the school and home has a positive impact on student achievement. It is imperative that we continue working together to ensure that our students receive the education they deserve.

I look forward to welcoming everyone back to school in September!

Sincerely,

**Kevin Castle**

# Physicals/Immunization Requirements

## NEW YORK STATE PUBLIC HEALTH LAW REQUIRES

physicals for children new to the district, entering Kindergarten, or in Grades 1, 3, 5, 7, 9, and 11.

New York State Public Health Law requires immunization before children attend public or private schools unless the parent provides written proof of legal exemption or proof from a health care provider that the child is in the process of receiving the required immunizations. In some instances, doctor-verified disease histories or blood tests, which show immunity, are acceptable. Immunizations may be done by your health care provider, the Ulster County Health Department (845-340-3070), or the Orange County Health Department (845-360-6600).

**No child may enter school without proof of the required immunizations or proof of legal exemption. If you have any questions, please contact the Health Office at your child's school.**

- **Diphtheria/Pertussis/Tetanus:** 4 to 5 doses administered as DPT, DT, DTaP, or TD by 4-6 years of age.
- **Tdap:** 1 dose is required for students enrolling in Grades 6-12 who have not previously received a Tdap.
- **Polio:** 3 to 4 doses of IPV. The 4th dose is administered between 4-6 years of age.
- **Measles, Mumps, Rubella/German Measles (MMR):** 2 doses are required Kindergarten through Grade 12. First dose after 12 months through 15 months and the second dose between 4-6 years of age.
- **Hepatitis B:** 3 doses on a 0, 1, 6 month schedule for children in Grades K-12.
- **Varicella** (chickenpox): All students entering Kindergarten, Grades 1-6, and Grade 7 are required to have 2 doses of the varicella (chickenpox) vaccine.
- **Meningococcal conjugate:** 1 dose is required for students entering Grade 7 and a second dose is required by Grade 12. If the first dose was after age 16, a second dose is not required.

**Please note: Varicella (chickenpox) immunizations can be waived due to:**

- History of Varicella disease documented by a health care provider;
- Serological evidence of immunity.

*The Wallkill Varsity Baseball team celebrating their MHAL championship win this spring.*

## Legal reasons and requirements for all immunizations to be waived:

- Physician medical exemption or diagnosed disease (include statement from physician). This must be renewed yearly.

New York State has recently changed legal requirements for non-medical immunizations exemptions.

# School Lunch Information

**IN 2022-2023, THE DISTRICT WILL CONTINUE TO** implement changes to our food service program to be in compliance with the nutritional standards set forth in the Healthy, Hunger-Free Kids Act of 2010.

For the 2022-2023 school year, **New York State and the Federal Government are no longer offering free meals to all students.** School lunch and breakfast prices for the 2022-2023 school year are as follows: \$2.20 for Elementary School student lunches and \$2.40 for Middle and High School student lunches. Breakfast prices in all schools will be \$1.00. Milk prices in all schools will be \$.75 per carton. Our lunch prices are well below the State standard of \$3.31.

Families with incomes at or below a certain amount for their family size are reminded that they may be eligible for free and/or reduced price meals (breakfast and lunch). Application forms were sent to parents in August. If additional forms are needed, they can be obtained from your school's Health Office or online at [www.wallkillcsd.k12.ny.us](http://www.wallkillcsd.k12.ny.us) under the Departments tab: Food Services link. Parents should review these guidelines carefully and if eligible, they are encouraged to apply for this program. The application contains information needed to determine economic need based on income and the number of people in the family. Information contained within the application is strictly confidential and will be used only for the purpose of determining eligibility. The free and/or reduced price meal policy also provides that there will be no identification of or discrimination against any student unable to pay the full cost of a meal.

Applications should be completed with all your children's names on one application and returned to your child's Health Office during the first two weeks of school. Applications can be submitted later during the school year if family situations change. For example, if a family member becomes unemployed, if the family size decreases, or if the family income increases by more than \$50 per month (\$600 per year), the family must contact the school to file a new application. When applying for this program, all questions on the application must be answered completely to be considered for approval by the District. Parents or guardians must sign the application form certifying that the information is true and correct.

In certain cases, foster children may be eligible for these benefits. A family may wish to apply for meals for eligible foster children and should do so by contacting the school their foster child attends.

Under provisions of the District's policy, a designated official will review applications and

determine eligibility. Parents may make either an oral or written request to appeal this decision. Appeals should be addressed to Mr. Brian Devincenzi, Assistant Superintendent for Support Services, who is the District Hearing Officer for these appeals.

Prior to initiating the hearing procedure, the parent or School Food Authority may request a conference to provide an opportunity for the parent or official to discuss the situation, present information and to obtain an explanation of the data submitted in the application or the decision rendered. A request for a conference shall not in any way prejudice or diminish the right to a fair hearing.

In the operation of these programs, no child shall be discriminated against because of race, sex, color, national origin, age or handicap. If you believe that there has been any discrimination, you may write to the Secretary of Agriculture, Washington, D.C., 20250.

A complete copy of the free and reduced meal price policy is on file in the School Food Authority District Administration Office (Mr. Brian Devincenzi, Assistant Superintendent for Support Services), where it may be reviewed.

## BODY MASS INDEX (BMI)

As part of a required school health examination, a student is weighed and his/her height is measured. These numbers are used to determine the student's body mass index or "BMI." The BMI helps the doctor or nurse know if the student's weight is in a healthy range or is too high or too low. Recent changes to the New York State Education Law require BMI and weight status group be included as part of the student's school health examination. We are required to report to the New York State Department of Health information about our students' weight status groups. Only summary information is sent. Names and information regarding students are NOT sent. However, you may choose to have your child's information excluded from the report. This information, which is sent to the New York State Department of Health, will help State health officials develop programs designed to improve children's health.

Please notify your child's Health Office Nurse, in writing, if you do not wish to have your child's weight status group information included as part of the Health Department's survey this year. We are grateful for your cooperation. We look forward to working with you to make your child's school year a positive experience.

Again, if you have any questions, please contact the Health Office Nurse at your child's school. Thank you.

# Wallkill Central School District Notice of Non-Discrimination

1. The Wallkill Central School District offers equal educational and employment opportunities including career and technical education opportunities, and does not discriminate on the basis of race, color, national origin, sex, disability, age, or other protected categories under state or federal law, in its programs and activities and provides equal access to the Boy Scouts and other designated youth groups. This policy applies to students in connection with all academic, educational, extra-curricular, athletic, and other programs of the school whether they take place in the facilities of the school, on a school bus, at a class or training program sponsored by the school at another location, or elsewhere.
2. Discrimination may include, but is not limited to, the following, when based on one's membership in a protected category:
  - a. name calling, jokes, or rumors;
  - b. pulling on clothing;
  - c. graffiti;
  - d. notes or cartoons;
  - e. unwelcome touching of a person or clothing;
  - f. offensive or graphic posters or book covers;
  - g. any words or actions that make you feel uncomfortable, embarrass you, hurt your feelings, or make you feel bad; or
  - h. denial of access to a school program or activity.
3. If any words or actions by another student, district personnel, or third party, such as volunteers, vendors, contractors, or visitors, make you feel uncomfortable, embarrassed, angry or unsafe, and you perceive that such conduct is being exhibited as a result of your membership in a protected category, the District requests that you make a report (either oral or in writing) which should be given to a teacher, counselor, assistant principal, the principal or the District Compliance Officer.
4. Your right to privacy will be respected as much as possible.
5. We take seriously all reports of discriminatory conduct and will take all appropriate actions based on your report.
6. The School District will also take action if anyone tries to retaliate against you because you have reported an incident.
7. This is a summary of the School District non-discrimination policy. Complete policies and procedures are available in the District Office upon request and on the District's website.
8. Students considering themselves to have a grievance may contact Brian Devincenzi, District Compliance Officer, at 845-895-7102 for a copy of the Grievance Procedure and for assistance in processing such a grievance.

6. This is a summary of the School District procedure against sexual harassment. Complete policies and procedures are available in the District Office upon request.

## Family Educational Rights and Privacy Act (FERPA) Notice for Directory Information

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that the Wallkill Central School District, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, your child's school may disclose appropriately designated "directory information" without written consent, unless you have advised your child's school to the contrary in accordance with your child's school procedures. The primary purpose of directory information is to allow your child's school to include this type of information from your child's education records in certain school publications. Examples include:

- a playbill, showing your student's role in a drama production;
- the annual yearbook;
- honor roll or other recognition lists;
- graduation programs; and
- sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two Federal laws\* require Local Educational Agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories—names, addresses, and telephone listings—unless parents have advised the school that they do not want their student's information disclosed without their prior written consent.

If you do not want your child's school to disclose directory information from your child's education records without your prior written consent, you must notify your child's school in writing. The Wallkill Central School District has designated the following information as directory information:

- Grade level
- Dates of attendance
- Degrees, honors, and awards received
- Major field of study
- Participation in officially recognized activities and sports
- Student's Name
- The most recent educational agency or institution attended
- Weight and height of members of athletic teams

\*These laws are: Section 9528 of the ESEA (20 U.S.C. 7908), as amended by the No Child Left Behind Act of 2001 (P.L. 107-110), the education bill, and 10 U.S.C. 503, as amended by section 544, the National Defense Authorization Act for Fiscal Year 2002 (P.L. 107-107), the legislation that provides funding for the Nation's armed forces.

# Wallkill Central School District Procedures for Access to Student Records

## INFORMATION SHARING FALLS UNDER THE FAMILY

Educational Rights and Privacy Act (FERPA). FERPA provides parents and students over 18 years of age certain rights with respect to the student's education records, mainly the right to consent to the disclosure of information. Generally, schools must have written permission from the parent or eligible student before releasing any information from the student's record. This law applies to any school that receives funding under an applicable US Department of Education program. However, it does provide some exceptions that allow schools to disclose student records without consent.

Exceptions to FERPA:

FERPA allows disclosure without the consent of parents (or students 18 and over) to the following parties:

- school officials who have a legitimate educational interest;
- other schools to which a student is transferring;
- certain government officials in order to carry out lawful functions;
- appropriate parties in connection with financial aid to a student;
- organizations conducting certain studies for the school;
- accrediting organizations;
- individuals who have obtained court orders or subpoenas;
- persons who need to know in cases of health and safety emergencies;
- state and local authorities within a juvenile justice system, pursuant to specific law; and
- military recruiters for recruiting purposes (unless a parent makes a written request to the District to the contrary).

According to FERPA, a school can disclose information without consent to school officials with legitimate educational interests. FERPA defines a "school official" as:

a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a member of the Board of Education; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official performing his or her tasks.

According to FERPA, a school official has a "legitimate educational interest" if the official needs to review an educational record to fulfill his or her professional responsibility.

# Wallkill Central School District Procedures for the Education of Homeless Children & Youth

## EVERY LOCAL EDUCATIONAL AGENCY (LEA) MUST

designate an appropriate staff person as a Local Education Agency liaison for students in homeless situations. The Wallkill Central School District's liaison is Ms. Tara Rounds, Assistant Superintendent for Special Education and Intervention Services. Liaisons must ensure that:

- Children and youth in homeless situations are identified by school personnel and through coordination activities with other entities and agencies;
- Children and youth enroll in and have full and equal opportunity to succeed in the schools of the LEA;
- Families, children, and youth receive educational services for which they are eligible, including Head Start, Even Start, and pre-school programs administered by the LEA, and referrals to health, mental health, dental, and other appropriate services;
- Parents and guardians are informed of educational and related opportunities available to their children, and are provided with meaningful opportunities to participate in the education of their children;
- Public notice of the educational rights of students in homeless situations is disseminated where children and youth receive services under the Act (such as schools, family shelters, and soup kitchens);
- Enrollment disputes are mediated in accordance with the Enrollment Disputes section; and
- Parents and guardians, and unaccompanied youth, are fully informed of all transportation services, including transportation to the school of origin, and are assisted in accessing transportation services.

Liaisons must collaborate and coordinate with State coordinators and community and school personnel responsible for the provision of education and related services to children and youth in homeless situations.

LEAs and State coordinators must inform school personnel, service providers, and advocates who work with families in homeless situations of the duties of the liaison.

## Anaphylaxis Notice

The administration of epinephrine by epi-pen has become an accepted and extremely beneficial practice in protecting individuals subject to serious anaphylactic reactions. The District will work with students in the self-management of their life-threatening allergy, or other chronic health conditions, by adequately training staff and assuring the availability of the necessary equipment and/or medications. The District will stock epinephrine for non-patient specific use and ensure that each RN is properly trained, as the only authorized users of the stock epinephrine per non-patient specific order from the District-Wide Nurse Practitioner. Additionally, the law and regulations permit certain individuals within the schools in the emergency treatment of anaphylaxis. Parents/guardians can contact Athena Brown at 845-895-7156 for further information regarding the treatment of anaphylaxis in school.

## Parents as Partners in the Wallkill Learning Community Parental Involvement Policy

The Wallkill Central School District recognizes the important role of parents in the learning community. We share a common commitment to supporting students' academic pursuits and ensuring their successful achievement. We subscribe to the requirements set forth in State and Federal regulations for the purposeful involvement of parents in their children's education. To these ends, the District's mission is to enhance the educational programs of its student population through an active, productive parent-school partnership. Its goal is to increase the constructive, ongoing involvement of parents in the education of their children.

The following procedures and guidelines are intended to facilitate the institution of opportunities for parents and teachers with administrators to participate in making shared decisions about educational issues in a school based forum.

Each building has established and maintains a committee, representative of teachers, parents, administrators, support personnel, and community resources as appropriate to the specific task or educational program. Membership composition, while delineated, will be compliant to assure that specific requirements of individual programs are met. Records and materials maintained with student's pupil personnel will be subject to the requirements of the Family Educational Rights and Privacy Act. Due process for parents and children will be governed by existing State regulations. Information, to the extent practicable, will be provided to parents in a language and form that parents can understand.

In keeping with federal regulations, the Wallkill Central School District ensures that each Title I designated school will:

- a) Convene an annual meeting at a convenient time to which all parents of participating children will be invited and encouraged to attend. Parents shall be advised and informed of their school's participation in Title I and their rights to be involved within the Title I Program;
- b) Offer a flexible number of meetings in the morning and/or evening and may provide, subject to adequate funding availability, transportation, child care, or home visits, as such services relate to parental involvement;
- c) Involve parents in the joint planning of school programs;
- d) Provide parents with timely information concerning both Title I and other school programs and encourage parent/community volunteers;
- e) Give parents a description and explanation of the curriculum in use at the school, the forms of assessments used to measure student progress, and the proficiency levels students are expected to meet; and
- f) Arrange opportunities for regular meetings to share suggestions, provide training, communicate experiences with other parents, and participate, as appropriate, in decisions relating to the education of their children, if parents so desire.

## Wallkill Central School District Concussion Management Policy

### THE BOARD OF EDUCATION OF THE WALLKILL

**CENTRAL** School District recognizes that concussions and head injuries are commonly reported injuries in children and adolescents who participate in sports and recreational activity and can have serious consequences if not managed carefully. Therefore, the District adopts the following policy to support the proper evaluation and management of head injuries.

Concussion is a traumatic brain injury which varies in severity. Concussion occurs when normal brain functioning is disrupted by a blow or jolt to the head. Recovery from a concussion will vary. Avoiding re-injury and over-exertion until fully recovered are the cornerstones of proper concussion management.

While District staff will exercise reasonable care to protect students, head injuries may still occur. Physical education teachers, coaches, nurses, and other appropriate staff will receive training to recognize the signs, symptoms, and behaviors consistent with a concussion. Any student exhibiting those signs, symptoms, or behaviors while participating in a school-sponsored class, extracurricular activity, or interscholastic athletic activity shall be removed from the game or activity and be evaluated as soon as possible by an appropriate health care professional. The athletic trainer, coach, school nurse, or other District employee in charge of or supervising the activity will notify the student's parents or guardians and recommend appropriate monitoring to them.

If a student sustains a concussion at a time other than when engaged in a school-sponsored activity, the District expects the parent/legal guardian to report the condition to the school nurse so that the District can support the appropriate management of the condition.

The student shall not return to school or activity until he/she is symptom free for at least 24 hours, has been evaluated by and provides written authorization from an appropriate health care professional. Any student who presents a medical clearance from his/her primary care physician will be started on the appropriate level of the District's return-to-play protocol. Prior to the student's return to full participation, the student will need to have the return-to-play form signed by the District-Wide Nurse Practitioner.

The Superintendent, in consultation with appropriate District staff, including the chief school medical officer, will develop regulations and protocols to guide the return to activity.

# Notification of Rights Under the Protection of Pupil Rights Amendment (PPRA)

## PPRA AFFORDS PARENTS CERTAIN RIGHTS REGARDING

our conduct of surveys, collection and use of information for marketing purposes, and certain physical exams. These include the right to:

- Consent before students are required to submit to a survey that concerns one or more of the following protected areas (“protected information survey”) if the survey is funded in whole or in part by a program of the U.S. Department of Education (ED):
  1. political affiliations or beliefs of the student or student’s parent;
  2. mental or psychological problems of the student or student’s family;
  3. sex behavior or attitudes;
  4. illegal, anti-social, self-incriminating, or demeaning behavior;
  5. critical appraisals of others with whom respondents have close family relationships;
  6. legally recognized privileged relationships, such as with lawyers, doctors, or ministers;
  7. religious practices, affiliations, or beliefs of the student or parents; or
  8. income, other than as required by law to determine program eligibility.
- Receive notice and an opportunity to opt a student out of:
  1. any other protected information survey, regardless of funding;
  2. any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under State law; and
  3. activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

*Middle School students Jewel Palmateer and Isabelle Ferranti joined their classmates on an end-of-year field trip to Lake Compounce.*

- Inspect, upon request and before administration or use:
  1. protected information surveys of students;
  2. instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and
  3. instructional material used as part of the educational curriculum.

These rights transfer from the parents to a student who is 18 years old or an emancipated minor under State law.

Following is a list of the specific activities and surveys covered under this requirement:

- Collection, disclosure, or use of personal information for marketing, sales, or other distribution.
- Administration of any protected information survey not funded in whole or in part by ED.
- Any non-emergency, invasive physical examination or screening as described above.

Parents who believe their rights have been violated may file a complaint with:
