

Attendance Zone Boundaries FAQ

1. What is the timeline for implementation?

- *January 2019: Presentation to PfISD School Board*
- *February 2019: If approved by the PfISD School Board, impacted families will be notified by the end of the first week of February via postal letter.*
- *March 2019: Transfer window opens.*
- *August 2019: Impacted students will start at their new campus.*

2. Will transfers be allowed for students impacted by the new attendance zone boundaries?

Any student is able to apply for a transfer during the transfer window. All transfer requests will be considered in accordance with the [PfISD transfer policy](#).

3. Will “grandfathering” be allowed?

Rising 5th, 8th, 10th, 11th, and 12th graders will be eligible to remain on their previous campus, under a “grandfather” provision. To be eligible, an application would need to be completed to remain at the current campus. Transportation will not be provided for any student under a “grandfather” provision.

4. Will sibling transfers be allowed for students impacted by the new boundaries?

Sibling transfers will not be allowed for students that are impacted by the new boundaries.

5. How will this impact any programming that my student participates in (i.e. special education, dual language, etc)?

If students currently receive services from any program, their support will be uninterrupted by any attendance zoning changes. Additionally, students will not be required to re-register for any supplemental programming; DPS, DES and CES will continue to offer Dual Language Programming (One-Way).

6. How will these attendance zone changes impact transportation for students?

Students will be eligible for transportation to and from school according to the [PflSD Student Eligibility Requirements](#).

7. Will my student's new school have all of the same information regarding my student's needs as did the previous campus?

All student registration and academic records will transfer to the new school before the first day of the 2019-2020 school year.

8. Will all of the facilities be prepared to handle additional numbers of students for the next school year?

The Executive Director of Facilities and Support Services has been actively involved in all planning for the development of the new attendance zone boundaries and will ensure steps are taken to prepare all facilities. Data has been collected and analyzed to ensure accurate projections and that all facilities are equipped to support the full enrollment projections for the 2019-2020 school year.

9. How will the new attendance zone boundary changes impact staffing at each campus for the 2019-2020 school year?

Staffing will be determined based on the best interest of students on each campus. Steps will be taken to ensure all staff in place are highly qualified for their respective positions.
