

The Lion Way

Est. 2001

The mission of BMHS is to graduate students who have the skills needed to enter the workforce, go to college, join the military or be productive citizens of his/her community successfully. We follow the Lion Way, which is composed of the traits of loyalty, integrity, optimism, no excuses, and self-discipline, utilizing these traits as an acronym for “Lions.” We believe that if students graduate understanding these traits and embodying them in their lives they will be successful regardless of the career path they choose. We encourage students to show up, work hard, and have a good attitude every day. Our academic goals for students are that they show growth while working towards reaching their full potential.
