

Dear Parents,

According to our records, your child has seizures. It would be helpful to have updated information about your child's seizures so we can plan for the care of your child at school. Enclosed is a "**Questionnaire for Parents of Students with Seizures**" requesting updated information about your child. Please complete it and return it to the health room before the start of the next school year.

If your child needs to take medication during school hours or at school sponsored events next year, please have your health care provider complete the **Authorization of Oral Medication at School** and complete the parent section of the form. Bring the completed medical and parent authorization form with the medication in a properly labeled container when school begins in the fall. Also, it would be a good idea to have a three-day supply of seizure medication at school in case of a disaster. This would also require doctor's authorization.

Sincerely,

School Nurse
