

May 9, 2023

Dear Parents,

The Fayette County School District remains in compliance with EPA's Asbestos Hazard Emergency Response Act (AHERA) of 1986. The school district has conducted the required three-year re-inspection, continues to conduct the required six-month surveillance and training of new employees as needed and continues to conduct response actions as required.

The asbestos management plans are on file at the Maintenance Office and at each individual school. They are available for review during normal business hours.

If you have questions, please contact Heath Wallace at (205) 932-5842.
