2. General Education Provisions Act (GEPA) Section 427 *

Section 427 of GEPA (20 U.S.C. 1228a) affects all applicants submitting proposals under this program. This section requires each applicant to include in its proposal a description of the steps the applicant proposes to take to ensure equitable access to, and participate in, its federally assisted program for students, teachers, and other program beneficiaries with special needs.

This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. The applicant should determine whether these or other barriers may prevent students, teachers, etc. from such access to, or participation in, the federally funded project or activity. The description of steps to be taken to overcome these barriers need not be lengthy; the school district may provide a clear and succinct description of how it plans to address those barriers that are applicable to its circumstances. In addition, the information may be provided in a single narration, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of the civil rights statutes, but rather to ensure that, in designing their programs, applicants for federal funds address equity concerns that may affect the ability of certain beneficiaries to fully participate in the program and to achieve high standards. Consistent with requirements and its approved proposal, an applicant may use the federal funds awarded to it to eliminate barriers it identifies.

Describe the steps that will be taken to overcome barriers to equitable program participation of students, teachers, and other beneficiaries with special needs.

All students within our district including all genders, races, national origin, disabilities, or ages will be eligible to receive the same benefits and supports, and services these grants will provide to students. Additionally, all teachers will receive the same benefits that these grants will provide them. This means it does not matter what gender, race, national origin, color, disability, or age of students the teacher has in their classroom they will receive the same benefits as all the other teachers in the district. BOE approval June 20, 2024.

Funds will be allocated to support the advancement of student achievement in subject areas and the IAR assessment through reading and math support to students and staff. Students will also receive opportunities for support in afterschool activities and in summer academic intervention programs in reading and math. Funds will also be used this year for materials, supplies, equipment, and assessment. We are focused on student success in our school program. We will continue to write our grants in alignment with our school improvement goals which are reflective of this Consolidated District Plan.

Response from the approved prior year Consolidated District Plan.

Funds are allocated to advance student achievement by providing reading and math support; to provide staff development in reading and math as well as afterschool activities, and summer enrichment programs. Additionally, funds will be used for materials/supplies, equipment, and assessment. The ability to consolidate our resources to achieve our goals allows us to have a focus across the entire program on what needs to occur for student success. Being a small district, we have already been writing our grants to align with our goals in a consolidated fashion.

([count] of 7500 maximum characters used)

The district engaged in a comprehensive needs assessment including a curriculum audit, stakeholder survey during the strategic planning process, and teacher survey during school improvement planning process. Results of the LEA's needs assessment indicate a need to improve core instruction at Tier 1 to ensure that we are providing a viable and guaranteed curriculum that is responsive to every learner. Sandridge identified three priorities including raising student achievement in reading, raising student achievement in math, and improving student attendance. As a result of the strategic planning process, the district has adopted several goals which align with the results of the strategic plan to improve outcomes for all learners. During the 2024 - 2025 school year, Sandridge will adopt a new math curriculum, provide student interventions in ELA and Math, continue development of an MTSS process, implement interventions with fidelity and expand opportunities for students to engage in extracurricular activities. The district may transfer funds from Title IV to Title I for staff salaries to deliver Tier I instruction to students aligned to district goals identified in the needs assessment.

A. Title I, Part A - Improving Basic Programs

Analysis of student performance on district (MAP) and state assessments (IAR) indicate that there needs to be a focus on Tier 1 instruction. Only 3% of students met expectations in reading and math on IAR. While 40% of students demonstrated growth in ELA and 34% demonstrated growth in Math on IAR. Based on this analysis along with the curriculum audit, it is evident that teachers do not have the curricular resources they need to effectively deliver a rigorous curriculum that is aligned to the standards. While there is dedicated intervention time within the schedule, teachers and students need to consistently utilize evidenced based reading (Lexia) and math interventions (ALEKS) with fidelity. Finally, Sandridge needs to develop the initiated MTSS process (2023) that enables teachers and support staff to meaningfully engage with the data in order to make data-informed decisions.

The MTSS program will require a math interventionist and reading interventionist. The In addition, teachers need ongoing professional development on effective core instruction; job embedded coaching support to ensure fidelity of implementation; and dedicated time to review student progress and plan accordingly.

G. Title III - LIEP**H. Title III - ISEP****I. Title IV, Part A - Student Support and Academic Enrichment**

Also provide information for Title IV-A programs and activities planned as a result of needs assessment that align with the Title IV-A budget.

Sandridge will offer student support via summer school for students to improve reading and math skills. This will help extend student learning for those in need. Sandridge provides for a well rounded education for students through a music program. This will continue through the 2024 - 2025 school year.

J. Title V, Part B - Rural and Low Income Schools

K. IDEA, Part B - Flow-Through [1]

Analysis of IAR performance for students with disabilities indicates that less than 3% of students met expectations in reading and math. An internal review of special education programs revealed that while students are fully integrated in the general education setting with resource support, additional intensive instruction is needed during core instruction for students requiring direct instruction in reading and math to achieve IEP goals and objectives. Sandridge will use grant funds to expand the continuum of service delivery options for students with disabilities in grades K-2; provide specialized instruction and related services; purchase direct instruction materials for use during resource.

L. IDEA, Part B - Preschool

Our current Early Childhood outcomes indicate that students are making growth in their progress from the point of entry into the program. In addition, the district has developed a corrective action plan that includes identifying program goals, professional development for teachers, and expansion of opportunities for inclusion for students in the least restrictive environment. Performance goals: 70% of early childhood students with disabilities will increase their early childhood outcomes. Funds will be used for materials and supplies to support students.
