Environmental Health and Safety
Asbestos Program: Annual Notification

To: All parents and staff of the Orange County Schools

From: Frank Meadows, EHS Director, Orange County Schools, Local Education Agency designee

Regarding: Annual notification of asbestos-containing materials in our schools

Date: November 24, 2008

This notification complies with the US Environmental Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA), 40 CFR 763.93 (G).

The EPA requires us to notify, on an annual basis, all parents and staff of Orange County Schools of the presence of asbestos containing materials in our school buildings. A management plan, containing the original inspection conducted in 1988 and all-subsequent 6 month periodic and 3 year re-inspections, is located in each school's administrative office, Central Office and Maintenance Department. Everyone is welcome to view the AHERA Management Plan during normal school hours. The LEA designee, Frank Meadows, is available to answer any question you may have about asbestos in our buildings at (919) 732-4581, extension 14003.

Note:

A public notification is published in the school newsletter of each school annually.
