PURPOSE: To provide the Board of Education for information purposes a report on the middle and high school band programs in the Orange County Schools.

BACKGROUND: In November of 2008, the Board of Education formed a subcommittee to review the band programs in the district's secondary schools. The three board member committee spent several months visiting each band program and subsequently submitted a formal report to the entire board on March 16, 2009. The minutes from that meeting reflected that the Board approved the following:

09-03-10 Band Program Study Committee Report – Dr. Halkiotis, Anne Medenblik, and Susan Hallman reported on the findings of the Board's band subcommittee following visits to all 5 band programs. As part of a needs assessment, the subcommittee met with each band director, reviewed the status of each program, and developed a written report containing a list of band instrument needs and inventory.

Board discussion included, but was not limited to: viability and sustainability of all band programs; program needs: storage, configuration, acoustical, etc; move management of extracurricular music supplements out of the athletic department; ways to encourage student participation in marching band vs. mandatory requirement (possibly offering full credit vs. half credit); support/lack of support for mandatory marching band (decision currently made at the school level); possibly abolish mandatory marching band on a graduated basis; average life and replacement cost of uniforms; expenses incurred by the family once a student is taking band; aggressive outreach to elementary students interested in the middle school band program; charges made to band directors for unclean buses; use of charter buses; legality of charging a fee for a course taken for credit; additions and/or changes to recommendations made by the subcommittee.

Debbie Piscitelli made a motion that the Board approve the following:

1. In order to provide greater student access to instruments and to equalize instrument levels between all three middle schools, allocate \$90,000 to the C.W. Stanford band program.
2. Maintain the instrument repair monies at the current levels: \$3,970 for high schools and \$2,000 for middle schools.
3. Realign the \$50,000 band grant to the two high schools (\$25,000 each) to a new configuration as follows: Cedar Ridge High-\$13,000, Orange High-\$13,000, A.L. Stanback Middle-\$8,000, C.W. Stanford Middle-\$8,000, Gravelly Hill Middle-\$8,000.

4. The new band grants would replace the old band grants and would be allocated directly to the band programs to be used only for specified purposes (travel, instrument tutors, additional instrument repair, instructional materials, instrument purchases, etc.).
5. Allow band directors access to textbook monies to purchase band instrument materials, sheet music, etc. that other school systems currently allow. If this can't be accomplished then we may need to keep in place the old grants of \$1,770 for high schools and \$1,180 for middle schools to help out for music purchases.
6. Move cultural arts supplemented positions out from under athletic departments at their respective schools and set up a new home under the auspices of the Orange County Schools Human Resources Division.
7. Examine all aspects of the mandatory \$200 fee charged to all marching band students and eliminate this fee as soon as possible.
8. Set up a special work group of high school students, parents, band directors, and board members who have children in the band programs to investigate adding progressive incentives for attracting students into marching band programs and removing the more regressive word "mandatory".

The motion was seconded by Susan Hallman.

Board members continued discussion with the following friendly adjustments made:

Debbie Piscitelli proposed to add to recommendation #6 that the supplements be reviewed twice per year.

Susan Hallman proposed to adjust recommendation #1 for the \$90,000 to be put into a band fund for use by all middle school directors for repair needs at respective schools, the majority of the needs to come from C.W. Stanford Middle School.

Ted Triebel proposed to add to recommendation #8 that the committee report back to the Board no later than May 18, 2009 with Superintendent Rhodes and Dr. Hicks to work on the committee.

The Board did not reach consensus on the friendly adjustments. The original motion was unanimously approved.

Board members will receive a list of needs when submitted by the middle school band directors.

Dr. Halkiotis requested Superintendent Rhodes form a group to discuss ideas for positive enhancements and determine needs for future curriculum guides.

The decisions made at that Board meeting, particularly the financial funding, remain the same at this date. One noted change is that the arts supplements are not managed by the Human Resources department, but by a Director in the Curriculum Division.

The Board of Education decided in the spring of 2012 to devote a work session to review the band programs. This band report includes information on the following topics:

- I. Programmatic overview
- II. Special recognitions
- III. Band Director Activities
- IV. Financial overview
- V. Band director stipends (supplements)
- VI. Band booster revenues, to date
- VII. Fees and comparables from surrounding districts

FINANCIAL IMPACT:	Band Instrument Fund:	\$13,940.00
	Band Grant Fund:	\$50,000.00
	Band Director Stipends:	\$16,878.00
	Total:	\$80,818.00

RECOMMENDATION: The Superintendent recommends the School Board receive the background information, discuss it, and provide direction to staff.
