PURPOSE: To provide the Board of Education a report on the 2010-2011 disaggregated student achievement data report.

BACKGROUND: Annually, the district receives data from the Department of Public Instruction on how the district's students performed on the ABCs of North Carolina. Once all of the data is received, the Director of Testing and Accountability analyzes the information and provides disaggregated data reports for each school and the district. This analysis provides the schools the information they need to precisely focus enrichment and intervention efforts for the coming school year.

FINANCIAL IMPACT: None.

RECOMMENDATION: The Superintendent recommends that the Board of Education receive for information the 2010-2011 disaggregated student achievement data report.
