However, if a record contains confidential information as well as public information, school officials must provide the requested public record with the confidential information removed or redacted.

As necessary, the school district may combine public and confidential records to meet the business needs of the district. However, if a record contains confidential information as well as public information, the school district must provide the requested public record with the confidential information removed or redacted. The school district will bear the cost of separating confidential information that is commingled with public records.

B. Requests for Public Records

All requests for examining or obtaining copies of public records should be in writing or recorded by school district personnel. This policy, administrative guidelines, information on the actual cost of producing public records, information on how to reach the records officer, information about how to appeal a denial of a public records request and information regarding any computer database indexes must be made available to individuals requesting public records.

Public records must be released in accordance with the law. Any denial of a public records request will be made in writing with the basis for the denial. The superintendent or designee may issue additional guidelines consistent with this policy to further clarify the process for requesting public records.

C. Designation of Records Officer

The superintendent will designate a records officer or otherwise ensure that the duties of a records officer are met. The duties of the records officer will include the following:

- determining whether records are public or confidential by law, with assistance from the local board attorney, as necessary;
- determining the most cost-effective means of storing and retrieving public records that are related to confidential information;
- providing training, consultation, and guidelines to school officials who respond to or are otherwise involved in public records requests;
- determining the actual cost of providing copies of public records in the various forms, such as paper or electronic media, in which the school district is capable of providing the records;
- determining the cost of a request for copies of public records when a special service charge is applicable or when Orange County Schools is voluntarily creating or compiling a record as a service to the requester; and
- reviewing appeals of any denial of a request for public records.

Other duties to be performed by the records officer, a designated electronic records officer, or by other employees as determined by the superintendent, include the following:

- reviewing, all electronic data-processing systems being considered for lease or purchase to ensure that it will not impede Orange County Schools' ability to permit public inspection and examination of records;
- ensuring that databases are indexed as required by law; and
- conducting an inventory of electronic databases maintained by the school district on a regular basis.

D. Indexing of Computer Databases

All computer databases compiled or created after June 30, 1998, will be indexed as required by law. The form and content of the indexes will conform to the guidelines issued by the North Carolina Division of Archives and History.

Any computer database being considered for purchase or lease by Orange County Schools that will be subject to the indexing requirements should include the statutorily required index provided by the vendor at no additional cost to the school district. (vendor provision is not statutorily required, but is intended to assist the district in meeting its requirement to index databases.)

In addition, Orange County Schools will voluntarily index databases created or compiled prior to July 1, 1998, so long as the process is not unreasonably burdensome or costly. Any voluntary indexing does not have to meet statutory requirements or the guidelines issued by the North Carolina Division of Archives and History.

E. Fees for Copies of Public Records

The superintendent or designee is to determine the actual cost of providing copies of public records in the various forms in which Orange County Schools is capable of providing them. Persons requesting copies of public records will be charged any applicable fees as determined by the records officer (see subsection C above). The school system shall not charge any fees for separating confidential information that is comingled with public records.
