

### Learning – Mindful Planning

Maximize learning time will be designed in schedules and daily plans

All teachers intentionally plan differentiated instruction that meet the needs of students, which will be monitored through grade level collaborative planning

Meaningful and authentic relationships will be developed through routine and structure

### Learning Process – Powerful Instruction

All teachers state and/or post the learning objective for expected student learning and it will be revisited throughout the lesson as part of the Wonders and My Math curriculum

All Students:

- Receive core instruction
- Are engaged in learning
- Are given opportunities to learn through student conversations – student voice
- Can restate learning objective in own words

### Learning Impact – Ongoing Analysis of Assessment

Collaborative analysis of data will drive instruction

Timely and consistent feedback will be provided to students and families on a regular basis

### Learning Context – creating a Professional Learning Community

We promote growth through:

- Reflection
- Communication
- Professional learning
- Courageous conversations
