

**MEMORANDUM OF UNDERSTANDING**  
between  
**ORANGE COUNTY PUBLIC SCHOOLS**  
and  
**THE ORANGE COUNTY SHERIFF'S OFFICE**  
June 18, 2024

**PREAMBLE**

The Orange County Public Schools and Orange County Sheriff's Office hereby enter into the School-Law Enforcement Partnership (SLEP) to foster relations of mutual respect and understanding to build a positive and safe school environment. The parties agree that most student misconduct can be best addressed through classroom and in-school strategies. The parties acknowledge that students are generally less mature and responsible than adults. Students often lack the maturity, experience, perspective, and judgment to recognize and avoid choices that could be detrimental to them; further, they are more susceptible to outside pressures than adults.

All responses to school misconduct should be reasonable, consistent, and fair, with appropriate consideration of mitigating factors and of the nature and severity of the incident. Students should receive appropriate redirection and support from in-school and community resources prior to the consideration of suspension, expulsion, involvement of law enforcement, or referral to court. This document is meant to be an accompaniment to the Virginia School-Law Enforcement Partnership Guide. For further details and instructions regarding the Partnership, please refer to the Guide.

**PURPOSE**

The partnership is intended to facilitate effective, timely communication and coordination of efforts for both parties - the School Division and Sheriff's Office. The purpose of this Memorandum of Understanding (MOU) is to establish a mutually beneficial framework that both schools and law enforcement can work within to achieve shared goals.

**GOALS**

The primary goals of the SLEP are to promote positive and supportive school climates and to create and maintain safe and secure school environments.

To promote positive and supportive school climates, the partners will collaborate to increase law-related education, expand school safety and crime prevention efforts, reduce conflict, and support effective interventions for students.

To create and maintain safe and secure school environments, the partners will collaborate to reduce and prevent crime, violence, victimization, and fear in and around schools, and minimize student involvement with the juvenile and criminal justice systems.

## **EVALUATION OF THE SCHOOL-LAW ENFORCEMENT PARTNERSHIP**

Measurable objectives of the SLEP should be developed jointly using school discipline, crime, and violence data, school climate survey data, and other data deemed to be relevant. Progress towards achieving objectives shall be jointly reviewed at least annually by school division and Sheriff's Office designees and shared with the public.

## **ROLES AND RESPONSIBILITIES OF PARTNER ORGANIZATIONS**

### **Sheriff's Office Responsibilities**

The Sheriff's Office will designate a direct point of contact between the Sheriff's Office and the School Division. The point of contact will address any operational and administrative issues and will serve as a consultant for school safety and security issues including assessments and critical incident response planning. The designee will maintain a working knowledge of school rules, regulations, and laws regarding student safety and conduct. The designee will establish and maintain effective relationships with school personnel at the division and school levels.

Selection, assignment, scheduling, training, supervision, and evaluation of school resource officers (SROs) will be the responsibility of the Sheriff's Office. However, each of these actions will take into account the input of school personnel and identified needs and conditions of schools. The SRO shall remain at all times under the control, through the chain of command, of the law enforcement agency.

In developing and implementing law enforcement policies and practices that may affect schools, the Sheriff's Office will consult with and take into consideration the views of the School Division and the school community.

The Sheriff's Office will ensure the SRO receives relevant training prior to or within 60 days, if possible, depending on availability of courses, of assignment in a school and ongoing joint training with school administrators. The training should be aligned with the SLEP and DCJS curriculum and in consultation with the School Division.

### **School Division Responsibilities**

The School Division will designate a primary division-level point of contact to implement the partnership and to maintain ongoing communications with Sheriff's Office officials.

It is the responsibility of school administrators to facilitate effective communication between the SRO and school staff and to support the goals of the partnership.

Each school with an assigned SRO will provide work area(s) for the SRO that allow access to technologies, private interviewing of several persons, and locking storage space for securing physical evidence.

The School Division will handle discipline within the school disciplinary process without involving SROs. School Division policies, administrative guidance, training, and ongoing oversight will clearly communicate that school administrators and teachers are responsible for school discipline, and that law enforcement is not to be involved with disciplinary action. The School Division is responsible for communicating the goals and role of the SRO to all school administration, staff, and students.

The School Division will ensure that school administrators with an assigned SRO will receive relevant training prior to or within 60 days of the SROs assignment in a school and ongoing joint training with SROs. The training should be aligned with the SLEP and DCJS curriculum and in consultation with the Sheriff's Office.

### **SRO Roles and Responsibilities**

SROs will be considered active members of their assigned schools. The SRO facilitates the effective delivery of law enforcement services and assists with matters related to safety, security, and the exchange of information.

As a general practice, unless there is a clear and imminent threat to safety, requests from school staff for SRO or other law enforcement assistance are to be channeled through a school administrator.

SROs' duty schedules should be organized to provide coverage throughout the school day, which may vary by school. SROs provide a visible deterrent to crime and shall be visible patrolling the exterior and interior grounds. The SRO should wear the regulation uniform and operate a marked police vehicle while on duty unless otherwise authorized by the SROs supervisor for a specific purpose.

Additionally, SROs should assist school administrators in developing school crisis, emergency management, and response plans. They will work with administrators in problem-solving to prevent crime and promote safety in the school environment to include home visits and completion of safety audits. SROs are expected to collaborate with school administrators and other school personnel to support positive school climates that focus on resolving conflicts, reducing student engagement with the juvenile and criminal justice systems, and diverting youth from courts when possible.

SROs serve multiple roles in schools. The roles are interrelated, but all are carried out with the aim to contribute to school safety and security and to promote positive and supportive school climates. Key roles are:

Law Enforcement Officer: As sworn law enforcement officers, SROs' primary role in schools is as a law enforcement officer. SROs assume primary responsibility for responding to requests for assistance from administrators and coordinating the response of other law enforcement resources to the school. SROs should work with school administrators in problem solving to prevent crime and promote safety in the school environment. SROs should also collaborate with school

personnel to reduce student engagement with the juvenile justice systems and divert students from the courts when possible.

Law-related Educator: As resources permit, SROs should strive to assist with presentations for school personnel on law related topics such as law enforcement practices, changes in relevant laws, crime trends, crime prevention, school safety strategies, and crisis response procedures. SROs may also deliver law-related education with students using lessons/curricula approved in advance by the SRO Supervisor. In all cases, responding to incidents or conducting investigations will take precedence over delivery of presentations.

Informal Mentor and Role Model: Students often seek approval, direction, and guidance from adults in the school setting about various problems. Through formal and informal interaction with students, SROs serve as informal mentors and role models. SROs are expected to communicate clearly to students about acceptable and unacceptable behavior, to set a positive example in handling stressful situations and resolving conflicts, to show respect and consideration of others, and to express high expectations for student behavior. Students who may need additional assistance shall be referred to a school-based resource.

Duties associated with these key roles:

- Be a visible, active law enforcement figure on campus dealing with law enforcement and school safety matters;
- Work to prevent juvenile delinquency through close contact and positive relationships with students;
- Assist administration in developing plans and strategies to prevent and/or minimize unsafe situations which may occur on campus or during school-sponsored activities;
- Collaborate with school-based community organizations, parent teacher organizations, school advisory councils, and student government to develop opportunities for positive activities such as panel discussions and mentoring programs; and
- Promote the profession of law enforcement officer and be a positive role model while increasing the visibility and accessibility of law enforcement to the school community.

### **School Administrator Roles and Responsibilities**

Consistent with Virginia Standards of Accreditation (2000), Section 8 VAC 20-131-210, "The school administrator is recognized as the instructional leader of the school and is responsible for effective school management that promotes positive student achievement, a safe and secure environment in which to teach and learn, and efficient use of resources" (Section A). "The school administrator also ensures that the school division's student code of conduct is enforced and seeks to maintain a safe and secure school environment" (Section B.2). Additionally, consistent with Section 8 VAC 20-131-260.D.3., the school administration ensures "a written procedure, in accordance with guidelines established by the local board, for responding to violent, disruptive or illegal activities by students on school property or during a school sponsored activity."

School administrators should review the SLEP MOU with SROs and establish school-specific operational and communications procedures to support goals of the SLEP.

## **OPERATIONAL PROCEDURES**

### **Differentiating Disciplinary Misconduct from Criminal Offenses**

School administrators and teachers are responsible for school discipline. SROs are expected to be familiar with the school division code of student conduct, the rules of individual schools, and their application in day-to-day practice. SROs and Orange County Sheriff's Office deputies should not be involved with the enforcement of school rules or disciplinary infractions that are not violations of law.

Consequences of student misconduct should be effective, developmentally appropriate, and fair. Interventions and school sanctions should help students learn from their mistakes and address root causes of misconduct. School administrators will consider alternatives to suspensions and law enforcement officials will consider alternatives to referrals to juvenile court services and arrests for student violations of law.

The SLEP shall operate in a manner to ensure children with disabilities receive appropriate behavioral interventions and supports.

### **Information Sharing**

The release of student records is governed by the Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. §12329. "School officials" may access and disclose student records only as authorized by FERPA.

When appropriate, and to the extent the law allows, the School Division should notify SROs of any special needs of a student involved in a school-based infraction that is not routine discipline to assist the SRO in recognizing and accommodating behaviors that may be manifestations of the student's disability.

Consent access: An SRO or other law enforcement officer may have access to a student's education records with written consent of the student's parent or of the student if the student is age 18 or older.

SRO access: For purposes of access to student records, SROs are considered "school officials" and may be provided student information as needed to carry out their duties related to the school environment. SROs may have access to directory information for all students in the school division. SROs may have access to information on students in their assigned schools that include directory information and additional items needed to carry out their duties, such as class schedules, as approved by the school administrator.

Health and safety emergency exception: In the event of a significant and articulable threat to health or safety, school officials may disclose any information from student records to appropriate parties, including law enforcement officials, whose knowledge of the information is needed to protect the health and safety of a student or another individual.

SRO disclosure of law enforcement records: SROs may disclose only law enforcement records created and maintained by the SRO for the purpose of ensuring the physical safety and security of people and property in schools and/or enforcement of laws. Because law enforcement records are not student records, they are not subject to the disclosure restrictions of FERPA.

Handle with Care: “Handle with Care” is a term utilized to notify school personnel that a serious life event has occurred to a student enrolled, and special attention or care should be paid to the student in the upcoming days or weeks. If a serious life event for a student in the Orange County Public Schools occurs outside of school hours, the Orange County Sheriff’s Office deputies will notify the SRO of the student’s name and date of birth. The SRO will determine the school the student is enrolled in and will immediately contact the administrator of the school by phone or email. Once contacted, the administrator will simply be advised to “Handle with Care,” and no further information about the event will be provided for confidentiality purposes. The administrator will notify the appropriate school personnel who deal with the student of the “Handle with Care” notification to interact accordingly.

### **Investigation and Questioning**

SROs have the authority to question students who may have information about criminal activity. As sworn law enforcement officers, SROs have authority to stop, question, interview, and take law enforcement action without prior authorization of the school administrator or contacting parents. However, the investigation and questioning of students during school hours or at school events should be limited to situations where the investigation is related to suspected criminal activity. Investigations and questioning of students for offenses not related to the operation of or occurring at the school should take place at school only when delay might result in danger to any person, destruction of evidence, or flight from the jurisdiction by the person suspected of a crime.

The interviewing of students, whether suspects, victims, or witnesses, should be conducted privately in an office setting. SROs will take steps to ensure minimal intrusion into the educational experience of students being questioned in the school setting.

Recognizing that a reasonable child subjected to police questioning will sometimes feel pressured to submit when a reasonable adult would feel free to go, as a general rule, the student should not be arrested or placed in custody during the initial interview or interrogation. The student will be informed generally of the purpose of the investigation, warned against self-incrimination in a developmentally appropriate manner, and given an opportunity to present informally his or her knowledge of the facts. If the student wishes to remain silent, to contact his or her parents or an attorney, or to end the interview, the questioning should cease and the student’s request should be granted unless detaining the student is lawful and reasonable under the circumstances.

SROs are responsible to lead the investigation and questioning of students related to suspected violations of criminal law. SROs shall not be included in questioning students about student code of conduct violations that do not involve any criminal activity or risk of harm to self or others.

School administrators are responsible for the questioning of students about violations of the code of conduct.

Any custodial interrogation conducted by an SRO with a juvenile student shall follow Code of Virginia, 16.1-247.1, Custodial Interrogation of a Child; Parental Notification and Contact.

### **Use of Body Worn Cameras**

Body Worn Cameras (BWC) may be worn by SROs while performing official SRO duties. The BWC will be a part of the regulation uniform issued by the Sheriff's Office while performing the official duties and functions of the SRO as set forth in the MOU. The BWC shall be rendered inactive while the SRO is on school grounds or at a school-related event, unless there is a legitimate, law enforcement need for the SRO to turn on or activate the body camera in responding to or investigating criminal activity.

The SROs use of the BWC shall only be for performing official SRO duties and shall be guided by the Orange County Sheriff's Office General Orders. If the General Order conflicts with any provision of the MOU, the Parties agree that the MOU shall be controlling. The superintendent or superintendent designee will be notified of any changes to the General Order. A copy of the General Order is attached to the MOU.

All video recordings captured by the body camera shall be the property of the Sheriff's Office and the School Board shall not be responsible for their storage, maintenance, release, or disposal. The Sheriff's Office shall maintain all video recordings for no longer than 60 days unless the video footage captures the commission of a crime, a disciplinary incident involving student(s) or school personnel, or is otherwise required to be archived by the Records Retention Schedules published by the Library of Virginia.

Upon the request of the building principal, superintendent of schools, or superintendent designee, the Sheriff's Office may permit the building principal, superintendent of schools, or superintendent designee to view and obtain a copy of any video recording captured by the SRO while performing official SRO duties.

### **Searches**

All searches shall be conducted in accordance with federal and state laws, as well as applicable School Division and Sheriff's Office policies and guidelines, including the principles embodied in this memorandum of understanding. SROs shall not become involved in administrative (school-related) searches. Additionally, SROs shall not request that an administrative search be conducted for law enforcement purposes or have the administrator act as his or her agent.

School administrator searches: School officials may conduct searches of student's property and person under their jurisdiction when reasonable suspicion exists that the search will reveal evidence that the student has violated or is violating either the law or the rules of the school. The standard for search by a school official is reasonable suspicion.

SRO searches: Any search initiated by SROs or other law enforcement officers shall be based upon probable cause and, when required, a search warrant should be obtained. All searches should be reasonable in scope. All searches should occur outside the presence of students and school staff, except for school administrators, unless there is a clear and immediate threat to physical safety.

### **Use of K9s for a Search**

*For this subject matter, the verbiage K9 will reference a “certified law enforcement canine.”*

This policy is created to maintain the integrity of K9 scans occurring on the property of Orange County Public Schools. Although each student has a right to privacy, the school has the need to maintain an appropriate learning environment. To protect the safety and health of students, faculty, and staff, certified law enforcement K9’s can be used to locate and/or detect weapons and prohibited drugs.

Bomb Threat: A school administrator or designee will collaborate with the Sheriff or designee to establish a threat level to the buildings or grounds. If it is determined that K9s will scan the building and/or grounds, it will be coordinated through the Orange County Sheriff’s Office. The Orange County Sheriff’s Office will then utilize other local law enforcement agencies, Virginia State Police, or Federal Law Enforcement agencies to facilitate the scan of the buildings and/or grounds.

Prohibited Drugs: A school administrator or designee will collaborate with the Sheriff or designee to allow K9s within the school to conduct randomized scans. These scans will be at random to prevent any specific student, staff, or faculty member from feeling targeted.

### Classrooms:

Randomization: It will be predetermined how many rooms will be scanned by K9s based off availability of canines. A master teacher list in alphabetical order will be produced for each school. This list will contain each block or period and the classroom number of each teacher. If it is a Planning block, it will state “Planning.” The master teacher list will then be numbered 1 through however many teachers are on the master teacher list. Each number will then be placed in a container. With the Sheriff or his designee present, a school administrator or designee will then pull the predetermined number of rooms out of the container. These rooms will be the classrooms that are scanned by K9s. If a teacher pulled from the container has a planning period, the next teacher below with a classroom of students will be scanned.

Scan: A school administrator or designee will then escort the K9 and his handler, with another sworn law enforcement officer, to the randomly-drawn room. Upon arrival, the school administrator or designee will address the students and staff within the room. Each student and staff member will exit the room into the hallway. All belongings will be kept within the classroom including, but limited to, backpacks, purses, handbags, sweatshirts, and jackets. The school administrator or designee will not ask a student to take off a sweatshirt or jacket during the scan. The K9 and his handler will then do a scan of the items within the room with a school administrator or designee present.

*Positive Alert:* If the K9 has a positive alert, the belongings and the student, staff, or faculty member will be escorted to a private location within the building. Law enforcement will only be present if the school administrator or designee feels it is necessary for safety. A school administrator or designee will conduct the search of the belongings and the person involved in the Positive Alert. Any prohibited drugs will be turned over to law enforcement.

#### Parking Lots & Vehicles:

*Randomization:* It will be predetermined how many sections will be scanned by K9s. A map of the parking lot will be divided into sections. Each quadrant will be given a number, and each number will be placed in a container. With the Sheriff or designee present, a school administrator or designee will then pull the quadrant numbers out of the container. These sections will then be scanned by K9s.

*Scan:* A school administrator or designee will then escort the K9 and his handler, with another sworn law enforcement officer, to the randomly drawn section. The K9 and his handler will then do a scan of the vehicles and/or items within the section with the school administrator or designee present.

*Positive Alert:* If the K9 has a positive alert, the vehicle will be searched by the school administrator or designee. The student, staff, or faculty member that drove the vehicle onto school grounds will be present during the search. Law enforcement will be present if the School Administrator or his designee feels it is necessary for Safety. Any prohibited drugs will be turned over to Law Enforcement.

#### Lockers & Locker Rooms:

*Randomization:* It will be predetermined how many sections will be scanned by K9s. Each floor containing student lockers and separate stand-alone locker rooms will be given its own numerical number. Each number will then be placed in a container. With the Sheriff or designee present, the school administrator or designee will then pull numbers out of the container. These sections will be the areas that are scanned by K9s.

*Scan:* A school administrator or designee will then escort the K9 and his handler, with another sworn law enforcement officer, to the randomly drawn area. The K9 and his handler will then do a scan of the area and/or items within the section with the school administrator or designee present.

*Positive Alert:* If the K9 has a positive alert, the belongings and the student, staff, or faculty member will be escorted to a private location within the building. Law enforcement will only be present if the school administrator or designee deem it is necessary for safety. The school administrator or designee will conduct the search of the belongings and the person involved in the Positive Alert. Any prohibited drugs will be turned over to law enforcement.

#### **Arrests**

Whenever practical, arrests of a student or staff member should be accomplished outside of school hours to not disrupt the educational process or school setting. Arrests that must occur

during school hours or on school grounds should be coordinated through the school administrator to minimize potential disruption. When circumstances do not allow for prior coordination through the school administrator, arrests will be reported to the school administrator as soon as possible. In addition to any required notification of parents and legal guardians by the SRO taking a student into custody, school administrators or their designees are also responsible for an additional notification of parents and legal guardians upon a school-based arrest of their child.

### **Physical Restraint by School Personnel**

Physical restraint is a personal restriction that immobilizes or reduces the ability of a student to freely move his or her torso, arms, legs, or head. The term physical restraint does not include a physical escort. Physical escort means a temporary touching or holding of the hand, wrist, arm, shoulder, or back for the purpose of inducing a student, who is acting out, to walk to a safe location.

Physical restraint by school personnel is used in accordance with Virginia Board of Education policies and guidelines on seclusion and restraint and related local school board policies. Every effort should be made by school personnel to prevent the need for the use of restraint. Physical restraint should not be used except by school personnel trained in the use of physical restraint required by the school division.

School staff will act to deescalate situations that are, or have the potential to cause, disruptions to the school environment and are violations of the student code of conduct. If physical intervention is necessary, the action should be reported promptly to the school administrator and the rationale for the action must be fully documented.

### **Physical Intervention by School Resource Officers**

School Resource Officers and Orange County Sheriff's Office Deputies should not be involved in the physical restraint of a student unless there is imminent danger of serious physical harm to self or others. As sworn law enforcement officers, SROs may intervene to deescalate situations.

Physical intervention by SROs is undertaken in accordance with policies and operational procedures of their local law enforcement agency. If an SRO is involved in the use of restraint or physical intervention, the action must be reported to the school administrator and the SROs' supervisor, and the rationale for the action must be fully documented.

SROs should be aware of the Virginia Board of Education's policies and guidelines on seclusion and restraint and related local school board policies and will attend training offered by the local school system on their use of seclusion and restraint by school employees. SROs, however, must continue to operate by their own agency policies and state law regarding physical intervention and use of force.

Additionally, the school administrator and SRO will coordinate to ensure that reasonable effort is made to inform the parents on the day of the incident.

## **KEY STATUTORY RESPONSIBILITIES**

### **Crime Reporting**

The following codes guide reporting crimes between law enforcement and school officials; §22.1-279.3:1 and §19.1-83.1.

Pursuant to §22.1-279.3:1.B, Code of Virginia, law enforcement agencies are required to notify a division superintendent, a principal, or a designee when a student in their school commits certain offenses that would be a felony if committed by an adult and the release status of the student. School superintendents who receive such reports are required to report the information to the principal of the school in which the students are enrolled. As a general practice, SROs should notify the principal as soon as practical of any significant law enforcement events occurring at or in association with the school (e.g., at a school bus stop or off-campus activity, during or outside school hours) whether or not the offense would be a felony if committed by an adult.

Pursuant to §22.1-279.3:1.D, Code of Virginia, certain types of criminal activity that come to the attention of the principal or school staff shall be reported immediately to the SRO as specified in School Division policy. No SRO or school administrator shall be required to file delinquency charges. After such notification is made to SRO, the School Division will ascertain the disposition of the incident made by the SRO to complete the School/Law Enforcement Reporting form. Schools and SROs shall be encouraged to deal with school-based offenses through graduated sanctions or educational programming before a delinquency charge is filed with the juvenile court.

In accordance with the guidelines set forth in SLEP, SROs in deciding whether to handle an incident formally or informally should consider the following:

- Seriousness of offense;
- Prior record of student;
- Child's age;
- Cooperation and attitude of all parties (student, parent, victim) and the possibility of the offense being repeated;
- Degree of wrongful intent, violence, premeditation, knowledge of violation; and
- Likelihood that the student or parent can be successfully referred to a helping resource.

Formal handling (e.g., filing of a petition with the juvenile court or filing charges if an adult) is usually required for:

- Acts that if committed by an adult would be a felony;
- Acts involving weapons;
- Acts involving aggravated assaults; and
- Acts committed by juveniles already on probation.
- Acts involving possession of illegal substances, except for first offense possession of tobacco products.
- If a parent/guardian wishes to make a formal complaint to Law Enforcement, the matter will be investigated and reported by the SRO.

Using a collaborative approach, SROs and school administrators can consider the totality of circumstances to determine what responses to misconduct best serve the interest of the student and the welfare of the school community.

Although parties may not achieve full agreement in all cases, a good faith effort to exercise discretion within their respective spheres of authority is more likely to result in a balancing of community and student interests.

### **Threat Assessment**

Threat assessments shall be conducted in accordance with local school board policies adopted as required by §22.1-79.4., Code of Virginia and consistent with model procedures and guidelines published by the Virginia Department of Criminal Justice Services.

SROs may serve as members of threat assessment teams and assist in monitoring of subject students as well as determining the need, if any, for law enforcement action.

### **School Safety Audits**

School safety audits will be conducted annually as required by law to assess school safety conditions in schools. SROs, in collaboration with school administrators, will conduct school inspection walkthroughs using a prescribed checklist and will collaborate in other school safety audit mandates including school crisis and emergency management and response planning and preparation.

### **TRESPASSING ON SCHOOL PROPERTY**

Orange County Public Schools' leadership grant the Orange County Sheriff's Office full authority to act on their behalf to verbally and/or in writing issue notice of Trespass for any school or property thereof to any individual(s) deemed necessary to keep Orange County Schools safe and secure. Any individual having received notice whether by the Orange County Public Schools or by the Orange County Sheriff's Office and found to be in violation, will be subject to appropriate enforcement action deemed necessary by the Orange County Sheriff's Office. Additionally, the Orange County Sheriff's Office should make every effort to consult with a school administrator prior to issuing notice to any currently enrolled student or their parent/guardian, unless extenuating circumstances deem the action be necessary.

### **UNMANNED AERIAL VEHICLE (UAV)**

Orange County Public Schools' leadership grant the Orange County Sheriff's Office full authority to fly a UAV on all school property, including for law enforcement purposes and training exercises. The Orange County Sheriff's Office shall take full responsibility for any injury or property damage that is incurred while operating the UAV on school grounds. The Orange County Sheriff's Office should make every effort to consult with a school administrator before operating a UAV while school is in session, unless extenuating circumstances deem the action be necessary.

**REVIEW OF MOU**

Effective July 1, 2020, per an amendment to Virginia Code § 22.1-280.2:3, "school boards and local law enforcement agencies shall review and amend or affirm memorandums of understanding at least once every two years, or at any time upon the request of either party." Further, "each school board shall ensure the current division memorandum of understanding is conspicuously published on the division website and provide notice and opportunity for public input and discussion during each memorandum of understanding review period."

This MOU should be reviewed annually and amended as necessary to meet the needs and enhance the partnership of the two signatory organizations. Quarterly meetings should be conducted throughout the year between the School Division (designee) and SRO (designee) to support successful implementation of the partnership. This MOU remains in force until such time as either party, with 45 days' notice, withdraws from the agreement by delivering a written notification of such rescission to the other party.
