November 09, 2023

Members of the Board of Education and citizens of the Fairbanks North Star Borough School District Fairbanks, Alaska

The annual comprehensive financial report of the Fairbanks North Star Borough School District (District) for the fiscal year ended June 30, 2023, is submitted herewith. This report was prepared by the District's Accounting Services department following the guidelines recommended by the Government Finance Officers Association of the United States and Canada, the Association of School Business Officials International, and U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The statutes of the State of Alaska and Fairbanks North Star Borough code of ordinances require that the District Board of Education provide for an audit of all school accounts within ninety days following the close of the fiscal year, by an independent certified public accountant.

Introduction to the Comprehensive Annual Financial Report

Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with District management. We believe the data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial affairs have been included.

Internal Control

In developing and evaluating the District's accounting system, consideration is given to the adequacy of internal accounting controls. Management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the costs of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Independent Financial Statement Audit

The District's basic financial statements and the financial statements of each nonmajor governmental fund (financial statements) have been audited by Altman, Rogers & Co., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2023, are free of material misstatement. The independent audit involved consideration of internal control in assessing the risks of material misstatement of the financial statements; evaluating the appropriateness of accounting policies used and the reasonableness of significant estimates made by management; and evaluating the overall financial statement presentation. The independent audit or concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2023, are fairly presented in accordance with GAAP. The independent auditor's report is presented as the first component of the *financial section* of this report.

Management's Discussion and Analysis

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors in the *financial section* of this report.

Single Audits of State and Federal Awards

The independent audit of the financial statements of the District was part of a broader, state, and federally mandated "Single Audit" designed to meet the special needs of state and federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the basic financial statements but also on the audited District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of state and federal awards. These reports are available in the *single audit* section of this report.

Profile of the District

The District was established on January 1, 1964, the date of incorporation of the Fairbanks North Star Borough (Borough), the primary government. A borough is most similar to the county form of government used in much of the rest of the United States. The District, serving grades K through 12, encompasses an area of 7,444 square miles...roughly the size of Rhode Island, Delaware, and Connecticut combined.

Reporting Entity

Based on criteria developed by the Governmental Accounting Standards Board, the District is a component unit of the Fairbanks North Star Borough. Audited financial statements for the Borough are available upon request from its administrative offices. The District has elected to issue a separate comprehensive financial report pursuant to Alaska statutes.

Pursuant to Alaska Statute section 14.12.020(c), the Borough Assembly provides the money that must be raised from local sources to maintain and operate the District. Alaska Statute section 14.14.060 states a borough can establish a centralized treasury and is responsible for major rehabilitation, all construction, and major repair of school buildings. The Borough provides for new construction, major repair of school buildings, and a centralized treasury. Therefore, bonded debt, capital improvement funds for school construction, tax levies, and tax collection are reflected in the *notes to the basic financial statements* and the *statistical section* of this report but are accounted for by the Borough.

Alaska Statute sections 14.12.010 - 115 provide for the creation of Districts in the State of Alaska and establish school boards as the governing body for each district. The seven voting members of the District Board of Education determine policy for the operation and management of the District. Each member serves for three years, elected each year for overlapping terms.

Services Provided by the District

Over 12,000 students attend the thirty-three schools including five charter schools and three alternative programs. Class size varies, but the fiscal year 2023 district-wide average was 18.06 students per general (operating) fund teacher.

Our diverse student body includes children from over 82 different language backgrounds. Each child in the district is offered a comprehensive general educational program. High school students have available a comprehensive career technical education curriculum. Special needs are met with the assistance of programs and services such as Alaska Native Education, Extended Learning (formerly Gifted/Talented), English Language Learners, Title I, Migrant Education, and Special Education for Students with Disabilities.

Charter Schools

Charter Schools in Alaska must be approved by both the local School Board and the State Board of Education, and operate under the guidance of Academic Policy Committees of their selection. School charters may be up to ten years in duration, and the majority of funding is provided through the State's foundation funding formula similar to that of per capita small school funding. The District has five approved charter schools: Watershed Charter School (grades K-8), Chinook Montessori Charter School (grades K-8), Effie Kokrine Early College Charter School (grades 7-12), Boreal Sun Charter School (grades K-7), and Discovery Peak Charter School (K-8).

Budgetary Control

The objective of the District's budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Resources are allocated to and accounted for in individual funds, based on the purposes for which those funds were created. Transfers between programs above \$100,000 are authorized by the Board of Education. Therefore, the legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is at the object level. All other transfers are authorized by the superintendent and reported monthly to the Board of Education. The budgetary process is explained in Note A in the notes to the required supplementary information section of this Comprehensive Annual Financial Report.

Economic Condition Information

Local Economy

Located near the center of the state, the District encompasses the state's second-largest urban area. The Borough serves as the economic hub for interior and northern Alaska.

Alaska's unemployment rate is currently at 3.8 percent as of July 2023. The unemployment rate has been less useful as an economic measure during the pandemic because of data collection difficulties and an unusually large number of people leaving the labor market — that is, not working or looking for a job.

Job growth is at 1.0 percent as of July 2023. Although employment is up significantly from pandemic lows, it is still 2.3 percent below July 2019. U.S. employment, which was up 2.1 percent from July 2022, is now 3.6 percent above its 2019 level.

After falling hard during the pandemic, total wages paid by Alaska employers have bounced back. Wages were up 12.9 percent from year-ago levels in the first quarter of 2023 and 16.6 percent above the first quarter of 2019.

While the District has no authority to levy taxes, a fairly steady economy provides the Borough the wherewithal to fund its local contribution to education. The local contribution to education represents about 28.1 percent of general (operating) fund revenues for the year ended June 30, 2023. When a community's assessed property values and the ability of local taxpayers to fund education increases, the state's foundation formula reduces education funding. The reduction in state revenues over the last five years due to increased assessed values has been mitigated by legislative action providing for a graduated rise in the base student allocation.

Projected Enrollment

Student enrollments generate a majority of district revenues and also dictate personnel needs, which represent over 86.5 percent of the District's 2023-24 operating budget. The State of Alaska requires that student enrollment projections for the following school year be reported to them within one week after the end of the official student count period for the current year, which ends on the fourth Friday of each October.

During the preparation of the 2023-24 operating budget, it was expected that enrollment would continue to decline slightly due to a smaller number of students entering kindergarten than in prior years.

Military Installations

There are two large military installations within the Borough, Fort Wainwright Army Post and Eielson Air Force Base. These installations account for over one-fifth of the Borough's population. Fort Wainwright was transformed into a Stryker Brigade Combat Team in 2001 and is therefore subject to periodic deployment. Although it appears that most dependents remain in Fairbanks, deployment is often a suspected cause of declining and fluctuating enrollments.

Facilities

The Borough owns all school facilities. Periodic investment in major maintenance of building components such as roofs, mechanical and electrical systems, plumbing, exteriors, and playgrounds, etc. remains a top priority of the District. In fiscal year 2019, the Board of Education, as part of an agreement with the Borough, set aside approximately \$7.4 million for the replacement of aging roofs at Woodriver Elementary and Ben Eielson Jr/Sr High School. As of September 2023, the replacement of the two roofs was completed. The capital project to complete the renovation at Barnette Magnet School rose to number 1 on the State of Alaska's capital needs list during fiscal year 2019, also, and approximately \$7.4 million of the project was funded through the capital budget. The Borough will be required to provide an additional \$4 million between 2019 through 2022 years to complete the project.

District Initiatives

The School Board establishes a list of primary strategic goals and ongoing commitments to support the mission "to provide an excellent, equitable education in a safe, supportive environment so all students will succeed and contribute to a diverse and changing society." Those four overreaching commitments are:

- **Student Success** Increase academic achievement and social-emotional well-being for all students.
- Equity & Inclusion -- Provide equitable opportunities and an inclusive environment where all students and staff are respected and feel welcome, safe, and supported.
- **Communication & Engagement** Ensure students, staff, families, and the community are informed, connected, and engaged with the District.
- Workforce & Organizational Excellence Create an environment that supports the strengths and needs of staff so they can create a safe climate where students thrive.

Long-Term Financial Planning

By state statute, district decisions are designed to focus on annual operations rather than long-range planning in a fiscal sense. By state statute, the Borough (primary) government is responsible for maintaining a centralized treasury. The District does not own school facilities nor is it responsible for major maintenance. The District has no authority to issue bonds or manage and invest district funds. Unless required by grant agreements, all interest earnings are retained by the Borough.

State statutes and local ordinances are limiting the District's ability to retain excess fund balance in the operating fund. State statute limits an accumulation of fund balance to less than ten percent of current-year expenditures. Alaska Administrative Code defines six items that are not subject to the fund balance accumulation threshold. A *statement of compliance* required by the code to be included in this report can be found on page 181. A local ordinance requires any accumulated unrestricted funds over 40 percent of the Borough's annual local appropriation be returned to the Borough in support of a school facilities major maintenance reserve fund.

However, we do accomplish long-range planning from a fiscal perspective based on how we develop and implement instructional programs. A key objective in district financial planning is developing sustainable instructional programs and efficient and cost-effective initiatives that support the instructional process. Establishing reasonable but steady class size targets (or pupil-teacher ratios) is paramount since personnel costs represent over 86.5 percent of the budget. Another example impacting financial planning and decision-making includes reliance on the District's preventive maintenance and energy monitoring program.

The Education Stabilization Fund grant will continue to help maintain existing services as costs increase across salaries, services, and supplies for one more year. For the FY24 budget, the District is expected to spend \$6.6 million to bridge the funding gap in the General (Operating) Fund.

Certificate of Excellence/Certificate of Achievement

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its annual comprehensive financial report for the fiscal year ended June 30, 2022.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its annual comprehensive financial report for the fiscal year ended June 30, 2022.

This was the thirtieth consecutive year that the District has achieved these prestigious awards. In order to be awarded a Certificate of Excellence and a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Excellence and a Certificate of Achievement are valid for a period of one year only. We believe our current annual comprehensive financial report continues to meet the Certificate of Excellence and Certificate of Achievement Program requirements, and we are submitting it to the ASBO and the GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the accounting and administrative services departments. We would like to express our appreciation to all staff members who assisted and contributed to its preparation. We would also like to thank the members of the Fairbanks North Star Borough District Board of Education for their unfailing support for maintaining the highest standards of professionalism in the management of the District's finances.

Respectfully submitted,

hh

Independent Auditor's Report

Members of the School Board Fairbanks North Star Borough School District Fairbanks, Alaska

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Fairbanks North Star Borough School District (District), a component unit of the Fairbanks North Star Borough, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Fairbanks North Star Borough School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Fairbanks North Star Borough School District, as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (Government Auditing Standards), issued by the Comptroller of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Fairbanks North Star Borough School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Fairbanks North Star Borough School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Fairbanks North Star Borough School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Fairbanks North Star Borough School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedules on pages 5-13 and 62-64, respectively, and the Schedules of the District's Proportionate Share of the Net Pension and OPEB Liabilities (Assets) and Contributions for the Public Employee's Retirement System and Teachers' Retirement System on pages 65-72, and the Notes to Required Supplementary Information on page 74, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Fairbanks North Star Borough School District's basic financial statements. The additional supplementary information listed in the table of contents as Combining and Individual Fund Statements and Schedules and the Schedule of Expenditures of Federal Awards and notes to schedule, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Reguirements, Cost Principles, and Audit Reguirements for Federal Awards: the Schedule of State Financial Assistance and notes to schedule which are presented as required by the State of Alaska Audit Guide and Compliance Supplement for State Single Audits; and the information listed in the table of contents as Supplemental Reports are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the additional supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We also have previously audited, in accordance with auditing standards generally accepted in the United States of America, the Fairbanks North Star Borough School District's basic financial statements for the year ended June 30, 2022, which are not presented with the accompanying financial statements and we expressed unmodified opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fairbanks North Star Borough School District's basic financial statements as a whole. The combining and individual fund financial statements for the year ended June 30, 2022, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the 2022 basic financial statements. The information was subjected to the audit procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2022 combining and individual fund financial statements are fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 9, 2023 on our consideration of the Fairbanks North Star Borough School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Fairbanks North Star Borough School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Fairbanks North Star Borough School District's internal control over financial reporting and compliance.

Anchorage, Alaska November 9, 2023

Management's Discussion and Analysis June 30, 2023

Introduction

As management of the Fairbanks North Star Borough School District (District) we have prepared the following discussion and analysis to inform readers of the District's annual financial report and the financial information that the enclosed statements present for the year ended June 30, 2023, with selected comparative data for the year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal in the Introductory Section of this report and the District's financial statements, which immediately follow this section.

Financial Highlights

Government-wide financial statements

The District's financial status as of June 30, 2023, and as reflected in total net position, increased by \$50.1 million to a deficit of \$13.4 million from \$63.5 million. The change in total net position is discussed further in the Management's Discussion and Analysis section titled Government-wide Financial Analysis.

In fiscal year 2023, the District adopted the provisions of GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs), which among other accounting and reporting criteria requires the District to recognize a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability. For more information on the new account principal see note 17.

General revenues accounted for \$181.2 million, including \$53.3 million in local appropriations and \$114.0 million in aid from the State of Alaska. Program revenues, in the form of charges for services, operating grants and contributions, and capital grants and contributions, accounted for \$44.5 million. The total revenue from all sources was \$225.7 million.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements are comprised of three parts:

1. Government-wide financial statements include the statement of net position and the statement of activities which provide a broad, long-term overview of the District's overall financial condition.

The District had \$175.6 million in expenses related to programs, an increase of \$5.0 million from the prior year. That increase is discussed further in the Management's Discussion and Analysis section titled Government-wide Financial Analysis.

Governmental funds financial statements

The overall fund balance of the general (school operating) fund, increased by \$13.9 million. The general fund balance is comprised of \$723 thousand nonspendable fund balance related to prepaid items and inventories, \$353 thousand restricted fund balance related to homeschool student allotments, and \$13.2 million assigned fund balance related to encumbrances and subsequent year's budget appropriation of fund balance.

The biggest factor contributing to the increase in fund balance is the closure of 3 elementary schools and transitioning 6th-grade students from elementary to middle schools at the end of June 30, 2022. This closure was a result of low utilization of our buildings due to low student enrollment, which is discussed further in the Financial Analysis of Governmental Funds section.

- 2. Fund financial statements include governmental, proprietary, and fiduciary funds. These statements provide a greater level of detail of revenues and expenditures and focus on individual parts of the District, while also indicating how well the District has performed in the short-term, in the most significant funds.
- **3.** Notes to the basic financial statements are disclosures to ensure that a complete picture is presented in the financial statements.

Management's Discussion and Analysis (continued) June 30, 2023

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, like a private-sector business. The statements provide both short-term and long-term information about the District's financial position, which assists in assessing the economic condition at year-end. They are prepared using the economic resources focus and full accrual basis of accounting. These are methods similar to those used by most businesses. They take into account all revenues and expenses connected with the fiscal year even if the cash has not been received. The government-wide financial statements include two statements:

- The statement of net position presents assets, liabilities, and deferred inflows/outflows of resources with the difference between the two reported as "net position." The statement combines and consolidates all of the District's current financial resources (short-term spendable resources) with capital assets (net of accumulated depreciation) and liabilities. The result is net position segregated into three components: net investment in capital assets, restricted, and unrestricted net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.
- The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows, in future fiscal periods (such as earned, but unused, vacation leave). This statement also presents a comparison between direct expenses and program revenues for each function of the District. The majority of the District's revenue is general revenue, grants, and contributions from other governments.

Governmental activities include the District's basic services which are instruction – regular and special education, support services - schools, school administration, district administration, operations and maintenance of plant, student activities, student transportation, food services, and interest expense. Borough appropriations, state and federal aid finance most of these activities.

The government-wide financial statements can be found on pages 15-17 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The fund financial statements provide more detailed information about the District funds, focusing on the most significant or "major" funds—not the District as a whole. The District fund financial statements provide detailed information about its most significant funds.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

• Governmental Funds

Most of the basic services provided by the District are accounted for in governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike governmentwide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on balances of spendable resources available at the end of the fiscal year. This approach is known as using the flow of current financial resources measurement focus and the modified accrual basis of accounting.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The governmental fund financial statements and reconciliations can be found on pages 18-25 of this report.

Management's Discussion and Analysis (continued) June 30, 2023

• Proprietary Funds

Proprietary funds are used to show activities that operate more like those of commercial enterprises. These types of funds charge fees for services that are provided to outside customers. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Like government-wide financial statements, proprietary fund financial statements use the full accrual basis of accounting and the economic resources measurement focus. Therefore, no reconciliation is needed between the governmentwide financial statements for proprietary fund financial statements.

The District's proprietary funds include two internal service funds: Risk Management and Equipment Replacement.

The proprietary fund financial statements can be found on pages 26-28 of this report.

• Fiduciary Fund

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the governmentwide financial statements because the resources of those funds are not available to support the District's programs. The accrual basis of accounting is used for fiduciary funds. The District's only fiduciary fund is the Custodial Fund. The custodial funds are primarily raised by employees, for their benefit, and are held in a custodial capacity by the District.

The fiduciary fund financial statement can be found on pages 30-31 of this report.

Summary of Significant Accounting Policies and the Notes to Financial Statements

The Summary of Significant Accounting Policies and Notes to Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The summary and notes can be found on pages 33-61 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the budget process, a proportionate share of the net pension and other post-employment benefit liabilities and contributions, and the notes to the required supplementary information. The required supplementary information can be found on pages 63-75 of this report.

Results of the state and federally-mandated Single Audits which include auditor's opinions, schedule of expenditures of federal awards, schedule of state financial assistance, and schedules of findings and questioned costs can be found on pages 163-179 of this report.

Management's Discussion and Analysis (continued) June 30, 2023

Government-Wide Financial Analysis

Net Position

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. In the case of the District, governmental activities liabilities and deferred inflows of resources were lower than assets and deferred outflows of resources by \$69.0 million at the close of the most recent fiscal year.

Net investment in capital assets (machinery and equipment) represents the assets the District uses to provide an education to the students. Consequently, these assets are not liquid, nor available for future spending or liquidation of any liabilities. All school buildings and associated land are owned by the Borough. The Borough may issue debt to finance school construction; however, it is not debt of the District. Additional information is included in footnote 7.

Restricted grants and allotments represent the amounts that have constraints placed on them by external parties, laws, or regulations. The District's financial position is the net result of activities, the acquisition and disposal of capital assets, and the depreciation of capital assets.

To assess the overall financial position of the District, additional non-financial factors, such as changes in the Fairbanks North Star Borough's property tax base and the condition of school buildings and other facilities, should be considered.

For fiscal year 2023, the biggest impact on both the Statement of Net Position and Statement of Activities is related to large swings in the State of Alaska's pension and other post-employment benefits. The State of Alaska considered previous adjustments to costs and liabilities to both the pension and other post-employment benefits of the Teachers Retirement System and Public Employees Retirement System related to the decline of medical claims resulting from the ongoing COVID-19 pandemic. Medical claims are steadily returning to normal use, therefore the State of Alaska's adjustments are the cause of the increases and decreases in long-term net OPEB assets, deferred outflows of resources, long-term liabilities, and deferred inflows of resources.

Table 1: Net Position – Years ended June 30, 2023 and 2022

| | | | Increase |
|----------------------------------|-----------------------|-----------------|---------------|
| | 2023 | 2022 | (Decrease) |
| Assets | | | |

Management's Discussion and Analysis June 30, 2023

Change in Net Position

The District's change in net position of \$50.1 million is significantly related to the large changes in deferred inflows

of resources and deferred outflows of resources discussed above under net position. Later in the Financial Analysis of Governmental Funds, we discuss the large fluctuations within the individual funds.

Table 2: Change in Net Position – Years ended June 30, 2023 and 2022

| | | | Increase |
|---|--------------------|-----------------|---------------|
| | 2023 | 2022 | (Decrease) |
| Revenues: | | | |
| Program revenues: | | | |

Management's Discussion and Analysis June 30, 2023

Charts 1 and 2 display government-wide revenues and expenses, respectively, for the current year. The Borough appropriation and the State of Alaska Foundation Program accounted for most of the District's revenue. Funds from these two sources contributed approximately 72.8 percent of every dollar needed. The remaining 27.2 percent came from grants and contributions, fees charged for services, and other miscellaneous revenues. Most of the District's expenses are related to instruction (including special education), instructional support, food services, and student transportation services. Expenses in these areas comprised approximately 73.7 percent of all school system expenditures. Student activities are expenses directly related to student's extracurricular sports and/or organizations, such as hockey, student council, etc.

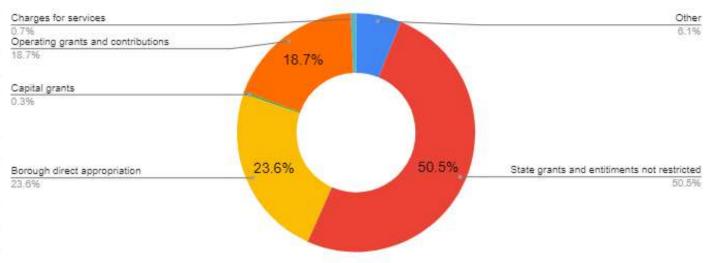

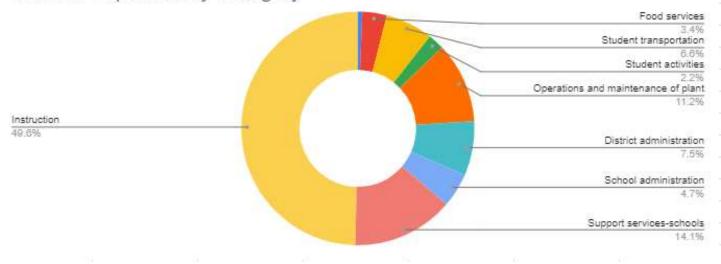

Chart 1: Source of Revenues

Chart 2: Expenses by Category

Management's Discussion and Analysis June 30, 2023

Table 3 presents the total cost of services for the School District's main functional activities. Net Cost of Services represents the Total Cost of Services less charges for services and revenue from operating grants and

contributions. The net cost shows the financial burden placed on the School District's General Fund by each of these functions.

Table 3: Cost of Governmental Activities - Years ended June 30, 2023 and 2022

| | 2023 | | 2022 | |
|---|-------------------|-------------------|-------------------|-------------------|
| | Total Cost | Net Cost | Total Cost | Net Cost |
| | of Services | of Services | of Services | of Services |
| Instruction | \$ 87,136,359 | \$ 69,198,305 | \$ 80,594,526 | \$ 75,842,057 |
| Support services - schools | 24,744,751 | 19,692,566 | 25,655,527 | 22,724,741 |
| School administration | 8,304,642 | 8,712,660 | 10,857,236 | 12,396,602 |
| District administration | 13,250,574 | 11,811,063 | 12,067,461 | 11,313,309 |

| Student transportation - to and from school | 11,558,082 | 629,362 | 9,306,327 | (1,091,099) |
| Food services | 5,996,009 | (407,719) | 6,989,491 | (2,993,914) |
| Interest expense | 1,046,447 | 1,046,447 | 1,106,041 | 1,106,041 |
| Total | \$ 175,576,689 | \$ 131,059,841 | \$ 170,601,702 | \$ 141,578,017 |

Financial Analysis of Governmental Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Reviewing the funds helps the reader consider whether the District is being accountable for the resources provided by the State, Borough, and others and may provide more insight into the District's overall financial health.

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the District governmental funds reported combined ending fund balances of \$20.2 million, a decrease of \$1.8 million, as reported on the Governmental Funds Balance Sheet on page 18.

The District has three major governmental funds in the current fiscal year. A major fund is defined as a fund whose revenues, expenditures/expenses, assets, or liabilities (excluding extraordinary items) are at least 10 percent of corresponding totals for all governmental or enterprise funds and at least 5 percent of the aggregate amount for all governmental and enterprise funds for the same item. Funds that do not meet those criteria may also be

designated as major funds if they are considered important to the District or the readers of its financial statements.

General (School Operating) Fund

The District's general (school operating) fund is the primary operating fund of the District. At the end of the current fiscal year, the total fund balance was \$22.9 million, a change of \$13.9 million from the prior year. As noted earlier the District did close 3 elementary schools due and moved 6th grade from elementary to middle schools to the enrollment decline resulting in low building utilization. The overhead savings of utilities and school administration staff \$1.5 million. The pupil-teacher ratio (PTR) is different between elementary (25) and middle (27) schools so the total number of teaching positions decreased by 31.5, which is an estimated savings of \$3.7 million.

We also intentionally went into fiscal year 2023 intending to spend below our revenues by \$5.1 million to get our fund balance back into compliance with our Board Policy. The last major impact of the change in fund balance is turnover and vacancies in positions. Experience staffed who retire are usually replaced by those with less experience and therefore cost less.

In fiscal year 2023, the District recognized \$1.2 million in Borough allocated revenue and expenses. These allocated

Management's Discussion and Analysis (continued) June 30, 2023

services are primarily related to treasury and risk management.

A measure of the general (school operating) fund's liquidity would be the comparison of unrestricted fund balance to total expenditures. Unrestricted fund balance is comprised of committed, assigned, and unassigned fund balance. For the current fiscal year, the District's unrestricted fund balance was \$21.8 million or 12.4 percent of expenditures. In addition, the level of unrestricted fund balance to expenditures as calculated on a state basis was 4.92 percent, which is below the School Board's adopted fund balance policy range of being between 2 to 4 percent below the 10 percent maximum allowed under state law.

Special Revenue Funds

The fund balance of the student transportation special revenue fund at the end of the current fiscal year changed by (0.6) million due to the transportation vendor being able to provide more routes than in the prior years.

Grants reported in the federal programs' special revenue fund are cost-reimbursable grants; therefore, expenditures are equal to revenues. Expenditures and revenues for the federal programs for the year were \$28.6 million, due to remaining Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA) and American Rescue Plan (ARP) grants.

The food service special revenue fund change in fund balance was \$0.2 million for the current fiscal year. Overall meal participation decreased upon the expiration of the Seamless Summer Option (SSO) waiver issued by the U.S. Department of Agriculture (USDA). Revenue from federally reimbursed meals decreased by \$5 million while local funds collected for meals increased by \$1.4 million.

Capital Projects Fund

The capital projects fund had a fund balance at the end of the current year of \$2.6 million, a change of \$.3 million from the prior year. That increase is related to the federal impact aid revenue received for construction.

It is important to note that the District is fiscally dependent on grants and contributions from the Borough, State, and Federal governments for its operating resources, as the District has no authority to levy taxes or issue bonded debt.

The Governmental Fund Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balance, which identifies these major funds is located on page 18 and 21.

Proprietary Funds

The District's proprietary funds provide the same type of information found in the government-wide financial statements but in greater detail.

The risk management internal service fund experienced an operating income(loss) of (0.4) million in fiscal year 2023 due to (1) an expected rise in health and life insurance costs and (2) an increase in workers' compensation claims paid.

General Fund Budgetary Highlights

The District Board of Education holds public hearings and approves the District budget. The Fairbanks North Star Borough (Borough) Assembly then approves the bottom line total for the District budget and the appropriation of local funds. Once approved, state law requires the District to submit the budget to the State of Alaska, Department of Education and Early Development.

During the year, there was no need for any significant amendments to increase either the original estimated revenues or the original budgeted appropriations. Schools The Equipment replacement internal service fund ending net position for the current year was \$2.8 million. The net position is expected to grow and deplete on a cyclical basis as computing devices for students and staff reach the end of their life cycle. There is a batch of Chromebooks and iPads that will be up for replacement during fiscal year 2024.

and or departments do move original appropriations within their department but none were significant to require Board approval.

Actual revenues on the budgetary basis were 103.4 percent of budgeted revenues as a result of student enrollment being 450 higher than projected. Actual expenditures on the budgetary basis were 98.6 percent of budgeted expenditures and are attributable to unspent funds due to vacancies and actual wages lower than originally budgeted for the fiscal year.

Management's Discussion and Analysis June 30, 2023

Capital Assets and Long-Term Obligations

Capital Assets

The District's investment in capital assets for its governmental activities was \$22.0 million as of June 30, 2023 (net of accumulated depreciation and amortization). This investment in capital assets includes machinery, equipment, and software. The Borough owns the land and buildings. Additional information is available in footnote 3 of the notes to the financial statements.

Long-Term Obligations

The District has no authority to incur bonded debt.

The long-term obligations of the District, in the amount of \$161.38 million, consist of net pension and other postemployment benefits (OPEB) liabilities, claims payable and accrued self-insurance reserves, operating leases, and compensated absences resulting from annual leave earned but not taken by employees. Additional information on the District's long-term obligations is available in footnote 6 of the notes to the financial statements.

Economic Factors Future Budgets

The District must consider a multitude of factors as it prepares future budgets. Unfortunately, projected revenues do not increase at the same rate as projected expenses, leaving the District vulnerable to a structural deficit. This makes it necessary for the District to find ways to mitigate ongoing costs.

In setting the budget for FY2024, the District considered several issues. Notable factors influencing future budgets are:

- The uncertain state of the federal budget affects funding decisions at the state and local levels.
- Only \$6.6 million in COVID Relief grant funds are available to offset the District's General (School

Requests for Information

Operating) Fund. Over \$12.6 million was used to maintain operations in fiscal year 2023.

- Ongoing capital projects with funding for renovations and additions to existing schools including major systemic renovations to many of the older school facilities.
- Pending negotiated agreements with our Education Support Staff and Fairbanks Education Associations that would primarily increase salary and benefit costs.
- Continued increases in the overall cost of health and benefits.

This financial report is designed to provide citizens, taxpayers, parents, students, investors, and creditors with a general overview of the District finances and shows the accountability for the money it receives. Total Governmental Funds

This Page Intentionally Left Blank.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2023

| Net change in fund balances - total governmental funds | | \$ 13,813,071 |
|---|------------------------|----------------------------|
| The change in net position reported for governmental activities in the statement of activities is different because: | | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation and amortization exceeded capital outlays: Capital outlay and equipment purchases Current deprecation/amortization expense | 370,899 (1,793,994) | (1,423,095) |
| Amounts reported in the Proprietary Funds of the District are used to support risk management and equipment replacement. Their activities are appropriately recorded with governmental activities in the statement of activities. | | (438,983) |
| The issuance of long-term debt (e.g. leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. | | |
| Repayment of principal on capital lease | | 875,896 |
| Some expenses reported in the statement of activities such as compensated absences do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. | | 471,047 |
| Pension contributions made during the year are reported as expenditures in the governmental funds. However, in the statement of activities contributions made during the year are deferred and not reflected as expenses because they were made after the June 30, 2020 measurement date. Contributions made in the current fiscal year are reflected as expenses in the statement of activities in the current year. These consist of: | | |
| Contributions subsequent to the measurement date Employer contribution expense | | 10,011,254 (10,720,726) |
| Net pension and OPEB liability related items reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. These activities consist of: | | |
| Pension expense OPEB reduction in expense | | 25,451,262 12,072,507 |
| Change in Net Position of Governmental Activities | | \$ 50,112,233 |

Summary of Significant Accounting Policies

Notes to the Basic Financial Statements

Summary of Significant Accounting Policies June 30, 2023

Financial Reporting Entity

The Fairbanks North Star Borough School District (the District) operates a public school system under an elected school board, as permitted by Alaska Statutes 14.14.060 and 29.35.160. The financial statements of the District have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The accompanying financial statements include all the activities of the District. The District is a component unit of the Fairbanks North Star Borough, Alaska (Borough). A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable. The District is reported in a separate column in the Borough's government-wide financial statements, to emphasize that the District is legally separate from the Borough.

Pursuant to Alaska Statutes 29.35.160 the Fairbanks North Star Borough (the Borough) has the responsibility of establishing, maintaining and operating a system of public schools. The Borough has delegated the administrative responsibilities for compliance with the statutes to the Fairbanks North Star Borough School District Board of Education, while retaining certain responsibilities. The Borough issues bonds to finance school construction, levies taxes and collects and disburses the funds, and has responsibility for funding any deficits. The Borough Assembly remains responsible for approving the School District's total budget and is also responsible for providing a minimum level of local support per State statutes.

The financial statements included in this report are for the Fairbanks North Star Borough School District only. There are no component units for which the District is financially accountable, nor do any special financial relationships exist between the District and any other entity.

Governmental-Wide and Fund Financial Statements

The statement of net position and the statement of activities display information on all of the non-fiduciary activities of the District as a whole. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include charges to customers, parents or students who purchase, use, or directly benefit from goods or services provided by a given function and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. The primary government's contribution to education, State of Alaska public school foundation program revenue, other State aid, Federal Impact Aid, and other items not properly included among program revenues are reported instead as general revenues.

Fund financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The focus on the fund financial statements is on major funds which are presented in separate columns. Nonmajor funds are aggregated and presented in a single column.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Local appropriations and state and federal aid are recognized in the year for which they were approved by the provider. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 30 days of the end of the current fiscal period. Expenditures generally are

Summary of Significant Accounting Policies (continued) June 30, 2023

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Entitlements and shared revenues are considered to be susceptible to accrual and so have been recognized as revenues of the Revenue for expenditure-driven current fiscal period. grants is recognized when the gualifying expenditures have been incurred and all other grant requirements have been met. All other revenue items are considered to be measurable and available only when cash is received by the District.

Governmental Funds

The District has the following major funds in the fund financial statements:

General Fund – the District's primary operating fund. Major revenue sources include the Borough's contribution to education, the State of Alaska public school foundation program, the Public Employees' and Teachers' Retirement System on-behalf payments, and other state and federal revenues. Expenditures are authorized in the annual budget and are made for such activities as student instruction, support services, administration, operations and maintenance, and student activities.

Student Transportation Special Revenue Fund – the student transportation special revenue fund accounts for activities related to student transportation to and from school and other State-approved student transportation. Revenues include State student transportation revenue and any necessary transfers from the District general fund.

Federal Programs Special Revenue Fund – the federal programs special revenue fund accounts for federal grants received directly from the federal government, passed through the State of Alaska or passed through other funding entities.

In addition, the District has the following nonmajor governmental funds: food service, local programs, state programs, school activities, and capital projects.

Proprietary Funds

Proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting used in the government-wide financial statements.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

Internal Service Funds – the District's internal service funds are used to account for the costs of maintaining the District's self-insurance programs for health, dental, and workers' compensation benefits for its employees and to account for the costs of equipment replacement.

The principal operating revenues of the District's internal service funds are premium contributions to the health, dental and workers' compensation to the risk management fund and charges for services to the equipment replacement fund. Operating expenses for the internal service funds cover the cost of providing these services, including administrative, claim and related payments and equipment expense. All revenues and expenses are reported as operating revenues and expenses.

Assets and liabilities of internal service funds are included in governmental activities in the Statement of Net Position. The effect of inter-fund services provided and used between functions have been eliminated in the Statement of Activities, so that only the net amount is included in the governmental activities column.

Fiduciary Funds

Custodial Funds – Custodial funds are custodial in nature and do not involve measurement of results of operations. The District's custodial fund accounts for the assets held by the District as an agent for various school-related employee groups. The activities of the groups are mostly philanthropic in nature for the benefit of District employees and students.

The custodial fund reports only assets and liabilities are reported using the economic resources measurement focus and the accrual basis of accounting.

Summary of Significant Accounting Policies (continued) June 30, 2023

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance

Equity in Central Treasury Cash

All cash funds of the District are maintained in the Borough's Central Treasury to maximize investment income while minimizing risks of loss of capital and as such are recognized as a receivable from the Borough. The Borough requires all deposits to be insured or collateralized. The District holds no investments and as such has no investment policy.

Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. Certain receivables and payables between the District and the Borough are referred to as "due to/from Fairbanks North Star Borough."

Through various negotiated agreements with employees, the District has put in place a cost sharing mechanism for health costs. At June 30 of each year, total health costs for the fiscal year are used to calculate an amount expected to be collected from employees in the following calendar year through payroll deductions. The District records an employee dollar share receivable at June 30 of each year in the risk management internal service fund.

Inventories and Prepaid Items

General Fund central stores inventory consists of school supplies valued at cost using the weighted average cost method. General Fund print shop inventory consists of printing supplies and inventory in the Food Service Fund consists of expendable food and supplies held for consumption, both are valued at the lower of cost using the first-in, first-out (FIFO) method. The cost of inventory is recorded as an asset at the time individual inventory items are purchased. As inventory is consumed, the cost is charged to expenditures.

Payments made to vendors for services that will benefit future accounting periods are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded using the consumption method. The nonspendable fund balance classification includes an amount for prepaid items to indicate that prepaid items do not represent an amount expected to be converted to cash.

Capital Assets

Capital assets result from expenditures in the governmental funds and are reported in the governmental activities column in the government-wide financial statements of net position but are not reported on the balance sheet of the fund financial statements.

All purchased capital assets are valued at cost. Donated capital assets are valued at their acquisition value on the date received. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. The buildings and associated land are owned and capitalized by the Borough and are not recorded in these financial statements.

Depreciation is computed on the straight-line basis over the estimated useful life of the assets, generally 5 - 25 years for machinery and equipment, and 5 - 10 years for intangible assets (software). Expenditures for maintenance and repairs that do not add to the expected useful life or add functionality to an asset are recognized as operating expenses when incurred and are not capitalized.

Unearned Revenue

Unearned revenue arises when resources are received before the District has legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when there is a legal claim to the resources, the liability for unearned revenue is removed and revenue is recognized.

Deferred Outflows / Inflows of Resources

A deferred outflow of resources represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditure) until then.

A deferred inflow of resources represents an acquisition of net asset that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Summary of Significant Accounting Policies (continued) June 30, 2023

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance

Pensions and Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net pension and OPEB liabilities and the related deferred outflows of resources and deferred inflows of resources and pension/OPEB expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and the Teachers' Retirement System (TRS) and additions to/from PERS/TRS fiduciary net position have been determined on the same basis as they are reported by PERS/TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation pay benefits. Each employee group agreement of the District allows for the payment of varying amounts of unused annual/personal leave subject to certain restrictions and maximum accumulations. At termination accumulated annual leave is paid and accumulated personal leave is forfeited for two of the three employee group agreements. All vacation leave is reported when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of impending employee resignations and retirements.

Sick leave, which may accumulate indefinitely, is recorded as an expenditure when used. Members of the Teachers' Retirement System (TRS) may either transfer their unused sick leave to another Alaska school district upon resigning or may submit the unused balance for an increase in service credit when retiring. Members of the Public Employees' Retirement System (PERS) who are retiring receive payment for unused leave on a sliding scale, based on years of service.

Other Long-Term Liabilities

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Long-term obligations of claims payable and accrued self-insurance reserved are recorded in the risk management internal service fund and are reported as governmental activities in the government-wide financial statements as this fund serves only governmental funds.

Debt incurred for the construction of school facilities is the obligation of the Borough; therefore it is not included on the District's government-wide statement of net position. It is, however, disclosed in the Debt on School Construction footnote for informational purposes.

Net Position / Fund Balance

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation and capital lease liability. Net position is reported as restricted when there are limitations placed on its use through external restrictions imposed by grantors or laws or regulations of other governments.

Fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

Non-spendable – this classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education through an adopted resolution. The Board of Education may also modify or rescind the commitment by similar formal action.

Summary of Significant Accounting Policies (continued) June 30, 2023

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance

Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The Board of Education authorized the Superintendent to assign fund balances through formal action taken at its regular meeting on June 22, 2011.

Unassigned – all other spendable amounts. This is the residual classification for the governmental funds. The General Fund and Nonmajor Governmental Funds are the only funds that report a positive unassigned fund balance amount. If expenditures incurred for specific purposes

exceeded the amounts restricted, committed, or assigned for these purposes, it may be necessary to report a negative unassigned fund balance.

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the District's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the District's policy to use fund balance in the following order: committed, assigned, unassigned.

The following shows the composition of fund balance of the governmental funds as of June 30, 2023.

| | General Fund | Tr | Student ansportation Special Revenue Fund | Federal Programs Special Revenue Fund | G | Nonmajor overnmental Funds | Totals |
|--|-------------------------|----|---|---|----|----------------------------------|-----------------------|

Summary of Significant Accounting Policies (continued) June 30, 2023

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance

Contract for Operating On-Base Schools

In 1992 the State of Alaska Department of Education and Early Development (DEED) entered into an agreement with the United States Department of Education that required a change in the handling of Impact Aid revenues for the students living on Fort Wainwright Army Post and Eielson Air Force Base. Revenues that had previously gone to the DEED and were used to partially fund the foundation program and tuition in lieu of local taxes were required to be passed on directly to the District. The increase in federal revenue through the State of Alaska was offset by the equalization deduction in foundation revenue as provided in Alaska Statute section 14.17.410 and a reduction in tuition in lieu of taxes. An agreement was reached between the District and the DEED that the change in the treatment of revenue would not result in an adverse impact on the operating revenue of the District.

On-Behalf Pension and Postemployment Healthcare Benefit Payments

Effective July 1, 2007 new State regulation set the effective contribution rates of the Alaska Public Employees' Retirement System and the Teachers' Retirement System defined benefit plan tiers below the actuarially determined rates. This legislation also provided that payments be made by the State on behalf of employers to make up the difference between the effective rate and the actuarially determined rate. As required by the Alaska Department of Education and Early Development, the on-behalf payments for all funds of the District are recorded as revenue in the general fund. The corresponding pension expenditures are also recorded in the general fund in amounts equal to the on-behalf payments.

In the government-wide financial statements the pension on-behalf payments and related revenue are replaced with nonemployer pension expense as of the measurement date and revenue equal to the nonemployer pension expense.

Indirect Costs

The State of Alaska, Department of Education and Early Development annually establishes an approved indirect rate for each District based on audited financial statements. The rate is based on expenditures recorded per requirements in the Uniform Chart of Accounts for School Districts and as such there is no indirect cost pool. Indirect costs and indirect cost recovery is recorded in the District Administrative Support Services function.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

Comparative Data

The financial statements include certain prior-year summarized comparative information in order to provide an understanding of the changes in the financial position and operation of the District's funds. Such comparative information does not include the level of detail required for a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2022, from which the summarized information was derived.

Certain amounts presented in prior year data, which have no effect on change in net position or net change in fund balances, have been reclassified in order to be consistent with the current year's presentation.

Notes to the Basic Financial Statements June 30, 2023

Note 1: Equity in Central Treasury Cash and Investments

The District's cash resources for general operations are maintained in a central treasury shared with the Borough. Negative cash balances have been reclassified to "due to other funds."

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District is a component unit of the Borough. The Borough has approved an investment policy, which includes the District, under which the Borough may invest only in and through United States banks, credit unions and brokers, investments fully collateralized if the amount is more than insurance provided, and institutions with third-party security agreements for collateral on file with the Borough. The cash deposits in the accounts maintained in the District's name are insured by the Federal Deposit Insurance Corporation or covered by securities held by the Borough.

The Borough's investments are subject to "interest rate risk" – the risk that changes in interest rates will adversely affect the fair value of an investment. The Borough's policies to manage the interest rate risk of its investments include limiting their time to maturity at the date of purchase. In addition, the Borough's entire investment portfolio cannot have an average maturity exceeding three years. Further, at the time of purchasing an investment, not more than 30 percent of the prior 12-month moving average value of the portfolio may be in the three- to five-year range.

The Borough's investments in debt securities are also subject to "credit risk" – the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Credit risk is measured by nationally recognized statistical rating agencies, such as Standard & Poor's, Moody's, and Fitch in the form of credit quality ratings. The Borough's policies limit its investments in debt securities to obligations of the U.S. government, which are considered to be free of any credit risk in accordance with GAAP, and to the highest-rated debt securities where the credit risk is low.

The Borough also invests in the Alaska Municipal League Investment Pool, Inc. (Pool). The Pool is not SEC-registered, but is a 2a7-like money market fund, operating in a manner consistent with that rule. In December 2022, Standard & Poor's affirmed its AAAm principal stability fund rating to the Pool. Regulatory oversight of the Pool is established by Alaska Statue 37.23. The Pool must maintain a dollar-weighted average maturity of 90 days or less, and only purchase instruments having remaining maturities of 13 months or less. As of June 30, 2023, the fair value of the investments in the Pool approximates the amortized cost at which the investments were reported. The fair value of the Borough's investments in the Pool is the same as the value of the Pool units.

Note 2: Interfund Receivables, Payables and Transfers

Interfund balances result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions

are recorded in the accounting system, and (3) payments between funds are made. Detail of interfund balances for the year ended June 30, 2023 follows:

| Due to/from other funds | Interfund receivable | | Interfund payable |
|---|-------------------------|----|----------------------|
| General fund | \$ 7,858,337 | \$ | - |
| Federal programs special revenue fund | - | | 7,537,934 |
| Student transportation special revenue fund | - | | - |
| Nonmajor governmental funds | - | | 320,403 |
| Total amount due to/from other funds | \$ 7,858,337 | \$ | 7,858,337 |

Transfers are made to use unrestricted revenues collected in one fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. There were no transfers as of June 30, 2023.

Notes to the Basic Financial Statements (continued) June 30, 2023

Note 3: Capital Assets

Significant capital construction and related capital asset activity relevant to the District has been recorded on the

Borough's financial statements. Capital asset activity for the year ended June 30, 2023 follows:

| | Balance | | | Balance |
|---|---------------|--------------|-------------|---------------|
| Governmental Activities | June 30, 2022 | Additions | Deductions | June 30, 2023 |
| | | | | |
| Machinery and equipment | \$ 12,369,217 | \$ 370,899 | \$ (88,682) | \$ 12,651,434 |
| Less accumulated depreciation | (9,524,631) | (583,981) | 88,682 | (10,019,930) |
| Total, net of accumulated depreciation | 2,844,586 | (213,082) | - | 2,631,504 |
| Leased right to use | 22,189,602 | - | - | 22,189,602 |
| Less accumulated amortization | (2,120,631) | (1,068,766) | - | (3,189,397) |
| Total, net of accumulated amortization | 20,068,971 | (1,068,766) | - | 19,000,205 |
| Subscription-Based Information Technology | | | | |
| Arrangement Assets | - | 451,743 | | 451,743 |
| Less accumulated amortization | - | (126,612) | | (126,612) |
| Total, net of accumulated amortization | - | 325,131 | - | 325,131 |
| Intangible assets (software) | 1,658,334 | - | - | 1,658,334 |
| Less accumulated amortization | (1,593,502) | (14,635) | - | (1,608,137) |
| Total, net of accumulated amortization | 64,832 | (14,635) | - | 50,197 |
| Net capital assets | \$ 22,978,389 | \$ (971,352) | \$ - | \$ 22,007,037 |

Depreciation/amortization expense was charged to governmental functions as follows:

| Instruction | \$ 90,433 |
|---|-----------------|
| Special education instruction | 6,966 |
| Special education support services - students | 1,012 |
| Support services - students | 31,178 |
| Support services - instruction | 47,224 |
| Support services - technology | 6,508 |
| School administration support services | 868 |
| District administration | 4,285 |
| District administration support services | 260,234 |
| Operations and maintenance of plant | 1,308,578 |
| Student activities | 1,500 |
| Student transportation - to and from school | 5,838 |
| Food services | 29,370 |
| Total depreciation and amortization | \$ 1,793,994 |

Notes to the Basic Financial Statements (continued) June 30, 2023

Note 4: Leases

The District has entered into agreements to lease certain building spaces and equipment. These leases are recorded at their present value of the future minimum lease payments as of the date of their inception and amortized over the lease term.

| Lease Descripton Payment | | Termination Date | Renewal Options | Discount Rate |
|-------------------------------|----------------------|------------------|------------------------|---------------|
| Chinook Charter School | \$315,000 annually | 07/31/31 | one for 10 years | 5.00% |
| Career Education Center | \$81,850.00 annually | 06/30/23 | one for 1 year | 3.00% |
| North Pole Academy | \$14,943 monthly | 06/30/30 | two for 10 years | 5.00% |
| Watershed Charter School | \$31,827 monthly | 07/31/29 | two for 10 years | 5.00% |
| Boreal Sun Charter School | \$31,200 month | 06/30/27 | two for 5 years | 5.75% |
| Discovery Peak Charter School | \$31,500 monthly | 06/30/29 | two for 10 years | 5.00% |

As a result of these leases, the District has recorded a right to use asset with a total net book value of \$19,000,205, as displayed in further detail in Note 3: Capital Assets. The future minimum lease obligation and net present value of these minimum lease payments are as follows:

| Year Ending June 30, | | Principal | | Interest | | Total |
|----------------------|----|------------|----|------------|----|------------|
| 2024 | \$ | 700.348 | \$ | 1,012,833 | \$ | 1,713,181 |
| 2025 | φ | 656.645 | ψ | 977,415 | ψ | 1,634,060 |
| 2026 | | 691,517 | | 942,543 | | 1,634,060 |
| 2027 | | 731,086 | | 905,746 | | 1,636,832 |
| 2028 | | 769,925 | | 866,907 | | 1,636,832 |
| 2029 - 2033 | | 4,536,926 | | 3,672,756 | | 8,209,682 |
| 2034 - 2038 | | 5,534,227 | | 2,336,090 | | 7,870,317 |
| 2039 - 2043 | | 3,131,014 | | 1,155,217 | | 4,286,231 |
| 2044 - 2048 | | 2,444,234 | | 520,985 | | 2,965,219 |
| 2049 - 2053 | | 787,502 | | 32,241 | | 819,743 |
| Total payments | \$ | 19,983,424 | \$ | 12,422,733 | \$ | 32,406,157 |

Notes to the Basic Financial Statements (continued) June 30, 2023

Note 5: Subscription-Based Information Technology Arrangement

The District has entered into subscription-based information technology arrangements (SBITAs) involving the soft wares listed below. These SBITAs are recorded at their present value of the future minimum payments as of the date of their inception and amortized over the SBITAs term.

| SBITA Descripton | Payment | Termination Date | Renewal Options | Discount Rate |
|-------------------|--------------------|------------------|-----------------|---------------|
| Sentinel Security | \$102,826 annually | 06/30/25 | none | 5.00% |
| Blackboard | \$111,080 annually | 07/31/28 | none | 5.00% |
| Follett Destiny | \$106,337 one-time | 09/30/25 | none | 5.00% |
| Powerschool | \$65,608 annually | 06/30/26 | none | 5.00% |

As a result of these, the District has recorded a SBITA asset with a total net book value of \$325,131, as displayed in further detail in Note 3: Capital Assets. The future minimum lease obligation and net present value of these minimum lease payments are as follows:

| Year Ending June 30, | Principal | Interest | Total |
|----------------------|---------------|--------------|---------------|
| 2024 | \$ 93,266 | \$ 9,560 | \$ 102,826 |
| 2025 | 97,930 | 4,896 | 102,826 |
| Total payments | \$ 191,196 | \$ 14,456 | \$ 205,652 |

Note 6: Long-Term Obligations

Long-term liabilities for governmental activities for the year ended June 30, 2023 follows:

| Governmental Activities | Balance June 30, 2022 | Additions | Deductions | Balance June 30, 2023 | Due Within One Year |
|---|-----------------------------------|-------------------------|--------------------------------|---------------------------|---------------------------|
| Compensated absences Claims on reserves | \$ 4,816,234 \$ 6,991,921 | 3,934,896 35,059,044 | \$ (4,405,943) (36,141,106) | \$ 4,345,187 5,909,859 | \$ 4,050,429 4,736,234 |
| Leasees | 20,650,157 | - | (666,733) | 19,983,424 | 700,348 |
| SBITA Net pension liability | - 95,332,340 | 451,743 35,509,617 | (260,547) - | 191,196 130,841,957 | 93,266 - |
| Net OPEB liability Total long term liabilities | - \$ 127,790,652 \$ | - 74,955,300 | - \$ (41,474,329) | - \$ 161,271,623 | - \$ 9,580,277 |

The risk management internal service fund serves the governmental funds. Accordingly, long-term liabilities related to claims and reserves are included as part of the above totals for governmental activities. Also, for governmental activities, claims and reserves are generally liquidated by the risk management internal service fund and compensated absences, net pension liability and net OPEB liability are generally liquidated by the general fund.

Notes to the Basic Financial Statements (continued) June 30, 2023

Note 7: Debt on School Construction

| A summary of general obligation bonds issued for school related debt, for which the District has no liability financial statements as follows: | | | | | | | | ed ir | the Borough |
|--|----|--------------|----|-----------|----|-------------|---------------|-------|-------------|
| | | Balance | | - | | | Balance | [| Due Within |
| | Ju | une 30, 2022 | | Additions | I | Reductions | June 30, 2023 | | One Year |
| | | | | | | | | | |
| 2013, Series Q | \$ | 1,850,000 | \$ | - | \$ | (1,850,000) | \$- | \$ | - |
| 2015, Series S | | 4,100,000 | | - | | (1,615,000) | 2,485,000 | | 1,685,000 |
| 2016, Series T | | 45,380,000 | | - | | (2,410,000) | 42,970,000 | | 2,530,000 |
| 2019, Series U | | 5,045,749 | - | | | (306,333) | 4,739,416 | | - |
| 2020, Series W | | 20,330,000 | - | | | (2,705,000) | 17,625,000 | | 2,870,000 |
| Total bonds | \$ | 76,705,749 | \$ | - | \$ | (8,886,333) | \$ 67,819,416 | \$ | 7,085,000 |

Annual debt service requirements to maturity for school-related general obligation bonds are as shown below. During the year, the Borough paid total principal

and interest of 3,509,662 for school-related debt service.

| Year Ending June 30, | | Principal | | Interest | | Total |
|------------------------------|----|------------|----|------------|----|------------|
| 2024 | \$ | 7,085,000 | \$ | 2.614.900 | \$ | 9,699,900 |
| 2025 | Ŧ | 6,485,000 | Ŧ | 2,275,650 | Ŧ | 8,760,650 |
| 2026 | | 5,985,000 | | 1,963,900 | | 7,948,900 |
| 2027 | | 5,600,000 | | 1,674,275 | | 7,274,275 |
| 2028 | | 5,020,000 | | 1,439,375 | | 6,459,375 |
| 2029 - 2033 | | 21,110,000 | | 4,344,300 | | 25,454,300 |
| 2034 - 2038 | | 11,795,000 | | 860,450 | | 12,655,450 |
| Total principal and interest | \$ | 63,080,000 | \$ | 15,172,850 | \$ | 78,252,850 |

Note 8: Commitments

As of June 30, 2023 the District had encumbered amounts intended to honor in the subsequent year for the following governmental funds:

| Encumbrances | 2023 |
|---|-----------------|
| Major Governmental funds: | |
| General fund | \$ 2,120,219 |
| Federal programs special revenue fund | 344,390 |
| Student transportation special revenue fund | 830 |
| Total major governmental funds | \$ 2,465,440 |
| Nonmajor governmental funds: | |
| Special revenue funds | \$ 196,162 |
| Capital projects fund | 130,426 |

Notes to the Basic Financial Statements (continued) June 30, 2023

Note 9: Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to, and illnesses of, employees and their dependents; and natural disasters. The Borough's risk management program includes both the Borough and the District. The program employs various combinations of insurance policies provided by commercial carriers and self-insured retention amounts, depending upon the type of risk. Commercial insurance, with zero or small deductibles, is secured for the following coverages: employee life insurance, employee fidelity bonds and employee disability insurance. The program self-insures some portion of the following risk exposures: employee and dependent medical, auto and general liability, workers' compensation, errors and omissions/public officials, property, and employment practices. Commercial insurance has also been obtained for excess coverage above self-retention limits for all risk exposures, except environmental. Settled claims have not exceeded commercial coverage in any of the past three fiscal years.

The Borough has committed fund balance in the amount of \$1,500,000 to provide resources for catastrophic losses up to self-retention limits and for

contractual indemnification purposes, as well as to demonstrate financial responsibility to insurance carriers of excess coverage. The adequacy of this committed amount is re-evaluated periodically.

The District accounts for its self-insurance and risk management program in the risk management internal service fund. The Borough administers the program and charges the District for claims paid and administration expenses incurred.

Self-insurance liabilities are accrued when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Self-insurance liabilities include estimates for expected future development on claims already reported, as well as considering known and unknown events that might create claims, but for which none have been reported. Based on the type of claim, estimates of the ultimate cost of settling these claims are made by using a case-by-case review of claims or by extrapolating historical experience, and may include specific, incremental claim adjustment expenditures, net of any recoveries. Both methods adjust for current trends and other information and the estimates include the effects of inflation and other economic and social factors.

Changes in the risk management internal service fund liability amounts in fiscal years were:

| Claims liability | | 2023 | | 2022 |
|----------------------|----|--------------|----|--------------|
| July 1 | ¢ | 6,991,921 | \$ | 7,855,741 |
| Current year claims | ψ | 34,655,140 | ψ | 32,118,800 |
| Changes in estimates | | 403,905 | | (922,468) |
| Claims payments | | (36,141,107) | | (32,060,152) |
| June 30 | \$ | 5,909,859 | \$ | 6,991,921 |

Through various negotiated agreements with employees, the District has put in place a cost sharing mechanism for health costs. At June 30 of each year, total health costs for the fiscal year are used to calculate an amount expected to be collected from employees in the following calendar year through payroll deductions. The District records an employee receivable at June 30 of each year for this amount. The employee receivable at June 30, 2023 and 2022 was \$2,304,119 and \$1,398,828, respectively.

Notes to the Basic Financial Statements (continued) June 30, 2023

Note 10: Borough In-Kind and Allocated Services

During the year, certain services are provided by the Borough to the District. These include use of various Borough facilities, debt service on school facilities, certain administrative functions and major facility maintenance. The costs of these services have not been charged to the District. Other services provided by the Borough during the year are allocated and charged to District operations as follows:

| Allocated Services | 2023 | 2022 |
|---|------------------|------------------|
| Risk management overhead | \$ 655,105 | \$ 727,193 |
| Auto/general liability, property and other insurance premiums | 1,638,992 | 1,499,327 |
| Workers' compensation insurance premiums | 262,427 | 214,563 |
| Health and workers' compensation claims paid | 32,672,628 | 30,855,869 |
| General/auto liabilities, errors & omissions claims paid | 183,793 | 13,952 |
| Audit | 29,524 | 69,840 |
| Total allocated services | \$ 35,442,469 | \$ 33,380,744 |

Note 11: Defined Benefit (DB) Pension Plans

General Information about the Plan

The District participates in two cost-sharing multiple employer defined benefit pension plans. The Teachers' Retirement System (TRS) is mandatory for certificated employees scheduled to work at least 17.5 hours a week in positions that require teaching certificates as a condition of employment. The Public Employees' Retirement System (PERS) is mandatory for permanent employees scheduled to work at least 15 hours a week, other than teachers. Both plans were established and are administered by the State of Alaska to provide pension, death and disability, and postemployment health care benefits. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature.

Both plans are included in annual comprehensive financial reports that include financial statements and other required supplemental information. Those reports are available via the internet at http://doa.alaska.gov/drb. Actuarial valuation reports, audited financial statements, and other detailed plan information are also available on this website.

There are three tiers of employee within PERS and two tiers with TRS, based on entry date. Vesting occurs with five paid-up years of service for PERS and eight paidup years of services for TRS. The tiers within the plans establish differing criteria regarding normal retirement age, early retirement age, and criteria for calculation of average monthly salary (AMS), and cost of living allowance for Alaska residents. For all tiers within the DB pension plans, full retirement benefits are generally calculated using a formula comprised of a multiplier times the AMS times the number of years of service. The multiplier is increased at longevity milestone markers for most employees. A complete benefit comparison chart is available at the website noted previously.

Both PERS and TRS DB Plans were closed to new entrants on June 30, 2006. New employees hired after that date participate in the PERS/TRS Defined Contribution (DC) Plans described later in these footnotes.

Historical Context and Special Funding Situation

In 2008, State legislation converted the PERS agent multiple employer plan to a cost-sharing plan with an effective date of July 1, 2008. The State also passed legislation which statutorily capped the employer contribution rate for both plans, establishing a State funded on-behalf contribution, and required that employer contributions be calculated against all PERS/TRS eligible wages, including wages paid to participants of the PERS/TRS defined contribution plans described later in these footnotes.

The State funded on-behalf contribution amount, when combined with the employer contribution, will be sufficient to pay the total contribution rate adopted by the Alaska Retirement Management (ARM) Board. As such, both plans are considered to be in a special funding situation as defined by GASB. In the

Notes to the Basic Financial Statements (continued) June 30, 2023

governmental fund financial statements, on-behalf contribution amounts have been recognized as revenues and expenditures. In the government-wide financial statements, the on-behalf amounts reflect revenue and expenses only during the measurement period in which the Plan recognizes the payments, resulting in a one-year timing lag between the cash transfers and revenue and expense recognition.

Employee Contribution Rates

PERS employees are required to contribute 6.75 percent of their annual covered salary or 9.60 percent for employees on a nine-month contract. Teachers and other certificated employees are required to contribute 8.65 percent of annual covered salary to the TRS plan.

Employer and Other Contribution Rates

There are several contribution rates associated with the pension contributions and healthcare contributions and related liabilities. These amounts are calculated on an annual basis. *Employer Effective Rate:* The rate established by State statute is capped at 22.00 percent of eligible wages for PERS and 12.56 percent of eligible wages for TRS. These rates are applied to all PERS/TRS eligible compensation, including those wages attributable to employees in the defined contribution plan. Contributions derived from the defined contribution employee payroll are referred to as the Defined Benefit Unfunded Liability or DBUL contribution.

ARM Board Adopted Rate: This is the actuarially determined rate formally adopted by the Alaska Retirement Management Board. Each year the ARM Board certifies an appropriate contribution rate for normal costs and for liquidating any past service liability determined by a level percent of pay method with a 25 year closed amortization period.

On-behalf Contribution Rate: This is the rate paid in by the State as an on-behalf payment under the current statute. The statute requires the State to contribute, based on funding availability, an on-behalf amount equal to the difference between the ARM Board Rate and the Employer Effective Rate.

The District's contribution rates for the 2023 fiscal year were as follows:

| PERS | Employer Effective Rate | ARM Board Adopted Rate | State Contribution Rate |
|---------------------------|----------------------------|---------------------------|-------------------------------|
| Pension | 22.00% | 18.38% | 2.79% |
| Postemployment healthcare | 0.00% | 6.41% | 0.00% |
| Total contribution rates | 22.00% | 24.79% | 2.79% |
| | | | State |
| | Employer | ARM Board | Contribution |
| TRS | Effective Rate | Adapted Dete | Data |
| | | Adopted Rate | Rate |
| Pension | 12.56% | 117.90% | 112.06% |
| | | • | |

Notes to the Basic Financial Statements (continued) June 30, 2023

Contributions into each plan for the fiscal year were as follows:

| | Meas | urement Period | Fiscal Year |
|---|------|----------------|-----------------|
| | | July 1, 2021 | July 1, 2022 |
| | | to | to |
| PERS | | June 30, 2022 | June 30, 2023 |
| | | | |
| Employer contributions (including DBUL) | \$ | 4,588,036 | \$ 4,932,766 |
| Nonemployer contributions (on-behalf) | | 3,048,450 | 975,220 |
| | | | |
| Total contributions | \$ | 7,636,486 | \$ 5,907,986 |

In addition, employee contributions to the plan totaled \$731,696 during the District's fiscal year.

| | Measurement Period July 1, 2021 | Fiscal Year July 1, 2022 |
|---|------------------------------------|-----------------------------|
| | to | to |
| TRS | June 30, 2022 | June 30, 2023 |
| Employer contributions (including DBUL) | \$ 2,690,549 \$ | \$ 4,298,381 |
| Nonemployer contributions (on-behalf) | 12,641,247 | 7,804,509 |
| | | |
| Total contributions | \$ 15,331,796 \$ | \$ 12,102,890 |

In addition, employee contributions to the plan totaled \$2,373,715 during the District's fiscal year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2023, the District reported a liability for its proportionate share of the net pension liability (NPL)

that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State proportion, and the total portion of the net pension liability that was associated with the District were as follows:

| | PERS | TRS |
|--|-----------------------------------|--------------------------|
| District's proportionate share of NPL State's proportionate share of NPL associated with the District | \$ 61,736,013 \$ 17,084,522 | 69,105,944 92,094,418 |
| Total net pension liability | \$ 78,820,535 \$ | 161,200,362 |

The total net pension liability for the June 30, 2023 measurement date was determined by an actuarial valuation as of June 30, 2021 which was rolled forward to June 30, 2022. The District's proportion of the net pension liability was based on the ratio of the present value of projected future contributions of all participating employers and the State to the total present value of projected future contributions for the fiscal years 2024 to 2039 to the plan.

At the measurement date of June 30, 2022 the District's proportionate share of PERS was 1.21126 percent, which was a change of (15.5) percent from its proportion of 1.43351 percent measured as of June 30, 2021. For TRS the District's proportion was 4.145770 percent, which was a change of (22.8) percent from its proportion of 5.37004 percent measured as of June 30, 2021.

Notes to the Basic Financial Statements (continued) June 30, 2023

For the year ended June 30, 2023, the District recognized a pension expense of (10,965,265) for PERS and a pension expense of (8,042,042) for TRS. In addition, the District recognized on-behalf from the State of Alaska in the amount of 1,116,053 and

\$7,280,464 for PERS and TRS, respectively. At June 30, 2023 the District reported deferred outflows and deferred inflows of resources related to pensions from the following sources:

| PERS | Deferred Outflow of Resources | | Deferred Inflow of Resources | |
|---|----------------------------------|-----------|---------------------------------|---|
| Difference between expected and actual experience | \$ | - | \$ | - |
| Changes in actuarial assumptions | | - | | - |
| Net difference between projected and actual earnings | | | | |
| on pension plan investments | | 1,765,052 | | - |
| Changes in proportion and differences between District | | | | |
| contributions and proportionate share of contributions | | - | | - |
| District contributions subsequent to the measurement date | | 4,932,766 | | - |

| Total defer | ed outflows and inflow | s of resources rel | ated to pensions | \$ 6,697,818 \$ | - |
|-------------|------------------------|--------------------|------------------|--------------------|---|
| | | | | | |

| TRS | | Deferred Outflow of Resources | | Deferred Inflow of Resources | |
|--|----|----------------------------------|----|---------------------------------|--|
| Difference between expected and actual experience | \$ | - | \$ | (224,878) | |
| Changes in actuarial assumptions | | 580,777 | | - | |
| Net difference between projected and actual earnings | | | | | |
| on pension plan investments | | 3,051,379 | | - | |
| Changes in proportion and differences between District | | | | | |
| contributions and proportionate share of contributions | | - | | (2,214,339) | |
| District contributions subsequent to the measurement date | | 4,298,381 | | - | |
| | | | | - | |
| Total deferred outflows and inflows of resources related to pensions | \$ | 7,930,537 | \$ | (2,439,217) | |

The District reported \$9,231,147 as deferred outflows of resources related to pensions resulting from district contributions subsequent to the measurement date, which will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows

| Year ending June 30, | PERS | TRS |
|----------------------|--------------------|-------------|
| 2023 | \$ (209,841) \$ | (2,323,289) |
| 2024 | (537,862) | (1,140,303) |
| 2025 | (1,291,196) | (2,648,120) |
| 2026 | 3,803,951 | 7,304,650 |
| 2027 | - | - |
| Total amortization | \$ 1,765,052 \$ | 1,192,938 |

Notes to the Basic Financial Statements June 30, 2023

Actuarial Assumptions

The total net pension liability for the June 30, 2022 measurement date was determined by an actuarial valuation as of June 30, 2022. The actuarial assumptions used in the June 30, 2022 actuarial valuation were based on the results of an experience study for the period July 1, 2013 to June 30, 2017,

resulting in changes in actuarial assumptions adopted by the ARM Board to better reflect expected future experience. The assumptions used in the June 30, 2022 actuarial valuation are the same as those used in the June 30, 2021 valuation.

Generally, both PERS and TRS follow the same assumptions, except as noted:

| Inflation rate | 2.50% |
|---------------------------|---|
| Salary increases | Graded by service, from 7.00% to 2.85% for teachers. For all others, increases range from 6.75% to 2.85% based on service. |
| Investment rate of return | 7.25%, net of pension plan investment expenses. This is based on average inflation rate of 2.50% and a real rate of return of 4.75%. |
| Mortality | Pre-commencement mortality rates were based on the Pub-2010 Teachers Employee table and General Employee table, amount-weighted, and projected with MP-2021 generational improvement. Deaths are assumed to result from occupationa causes 15% of the time for teachers and 35% of the time for all others. |
| | Post-commencement mortality rates for health retirees were based on the Pub-2010 Teacher Retiree table and General Retiree table, amount-weighted, and projected with MP-2021 generational improvement. |
| | Post-commencement mortality rates for disabled retirees were based on 97% of the Pub-2010 Teachers Retiree table and the Pub-2010 Non-Safety Disabled Retiree table, amount-weighted, and projected with MP-2021 generational improvement. |
| | Post-commencement mortality rates for teacher beneficiaries were based on 100% of male and 95% of female rates and for all other other beneficiaries were based on 102% of male and 108% of female rates of the Pub-2010 Contingent Survivor table, amount-weighted, and projected with MP-2021 generational improvements. These rates are applied only after the death of the original member. |

Notes to the Basic Financial Statements June 30, 2023

Long-term Expected Rate of Return

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to

Asset Class

produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2022 are summarized in the following table (note that the rates shown below exclude an inflation component of 2.50%).

Long-Term Expected Real Rate of Return

| Broad domestic equity | 6.51% |
|--------------------------|--------|
| Global equity (non-U.S.) | 5.70% |
| Aggregate bonds | 0.31% |
| Opportunistic | 0.00% |
| Real Assets | 3.71% |
| Private equity | 9.61% |
| Cash equivalents | -0.50% |

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that employer and nonemployer contributions will continue to follow the current funding policy which meets State statutes. Based on those assumptions. The pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability as of June 30, 2023, calculated using the discount rate of 7.25%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower or onepercentage-point higher than the current rate:

| | | | Current | |
|---|---------------|------------------|------------------|----------------|
| | Proportionate | 1% Decrease | Discount Rate | 1% Increase |
| PERS | Share | (6.25%) | (7.25%) | (8.25%) |
| Net pension liability | 100.00% | \$6,861,457,000 | \$ 5,096,851,000 | \$ 3,608,924 |
| District's proportionate share of the NPL | 1.21126% | \$ 83,109,944 | \$ 61,736,013 | \$ 43,713,379 |
| | | | Current | |
| | Proportionate | 1% Decrease | Discount Rate | 1% Increase |
| TRS | Share | (6.25%) | (7.25%) | (8.25%) |
| Net pension liability | 100.00% | \$ 2,493,199,000 | \$ 1,666,902,000 | \$ 969,858,000 |
| District's proportionate share of the NPL | 4.14577% | \$ 103,362,327 | \$ 69,105,944 | \$ 40,208,094 |

Notes to the Basic Financial Statements (continued) June 30, 2023

Pension Plan Fiduciary Net Position

Detailed information about the pension plans' fiduciary net position is available in the separately issued PERS and TRS financial reports.

Note 12: Defined Contribution (DC) Pension Plans

Employees hired on or after July 1, 2006 participate in PERS Tier IV or TRS Tier III defined contribution plans. These plans are administered by the State of Alaska in conjunction with the defined benefit plans noted above. Benefits are provided through the Defined Contribution Retirement Trust. The plan provides pension, retiree medical insurance plan and a separate Health Reimbursement Arrangement (HRA) account that will help retired members pay medical premiums and other eligible medical expenses not covered by the medical plan. These plans are included in the annual comprehensive financial reports for PERS and TRS, and at the following website, as noted above.

Contributions to the DC plans consist solely of employer and employee contributions with no special funding or other nonemployer contributions. The District is required to contribute 22 percent and 12.56 percent to PERS and TRS, respectively. After deducting the DC pension plan contributions and related DC OPEB contributions, the remaining contribution (the DBUL) is deposited into the DB plan (pension and/or OPEB) as noted earlier.

Benefit Terms

Employees immediately vest 100 percent in their own contributions and vest 25 percent with two years of

service, plus an additional 25 percent per year thereafter for full vesting at five years of service. Alaska Statutes require that forfeitures be used to reduce employer contributions and cannot be used to increase the benefits of any member. For the year ended June 30, 2023 forfeitures reduced pension's expenses by \$314,512.

Employee Contribution Rate

Employees are required to contribute 8.0 percent of their annual covered salary for both PERS and TRS. This amount goes directly to the individual's account.

Employer Contribution Rate

For the year ended June 30, 2023, the District was required to contribute 5 percent and 7 percent of covered salary into the plans for PERS and TRS, respectively. The District and employee contributions to PERS for pensions for the year ended June 30, 2023 were \$1,353,832 and \$2,166,104, respectively. The District and employee contributions to TRS for pensions for the year ended June 30, 2023 were \$3,007,245 and \$3,436,840, respectively. District contributions are recognized as pension expenditures.

Notes to the Basic Financial Statements (continued) June 30, 2023

Note 13: Defined Benefits Other Post-Employment Benefit (OPEB) Plans

As part of its participation in PERS and TRS, the District participates in the following cost sharing multiple employer defined benefit OPEB plans: Alaska Retiree Healthcare Trust (ARHCT), Retiree Medical Plan (RMP) and Occupational Death and Disability Plan (ODD). The ARHCT is self-insured and self-funded and provides major medical coverage to retirees of the DB Plan without cost for all members hired before July 1, 1986 (Tier I).

Benefits vary by Tier level. Members hired on or after July 1, 1986 (Tier II) with five years of PERS credited service (ten years of credited service for those PERS first hired on or after July 1, 1996 (Tier III)) or eight years of TRS credit service may pay the full monthly premium if they are under age 60 (or over age 60 with less than ten years of PERS service for those first hired on or after July 1, 1996), and receive benefits at no premium cost if they are over age 60 or are receiving disability benefits.

Active members who become totally and permanently disabled from either occupational or nonoccupational causes may be eligible to receive a monthly disability benefit. Survivor beneficiaries receive benefits when a member dies from either occupational or nonoccupational causes before a member's retirement.

The RMP is self-insured and provides major medical coverage to retirees of the PERS and TRS DC Plans

(Tier IV for PERS and Tier III for TRS). The ODD provides death benefits for beneficiaries of plan participants and long-term disability benefits to all active members within PERS and TRS.

Members became eligible for the healthcare benefits of the RMP beginning in June 2017. No plan members are eligible to use the RMP until they have at least ten years of service. Active members who become totally and permanently disabled from occupational causes may be eligible to receive a monthly benefit. Survivor beneficiaries receive benefits when an employee dies from occupational causes before retirement.

All of the plans are administered by the State of Alaska, Department of Administration. The OPEB plans are included in the annual comprehensive financial reports for PERS and TRS, at the following website: <u>http://doa.alaska.gov/drb</u>.

Contribution Rates

Employer contribution rates are actuarially determined and adopted and may be amended by the Board. Employees do not contribute.

Employer contribution rates for the year ended June 30, 2023 were as follows:

| | PERS | TRS |
|--|-------|-------|
| | | |
| Alaska Retiree Healthcare Trust | 0.00% | 0.00% |
| Retiree Medical Plan | 1.10% | 0.87% |
| Occupational Death and Disability Benefits | 0.68% | 0.08% |
| Total contribution rates | 1.78% | 0.95% |

Notes to the Basic Financial Statements June 30, 2023

In 2022, the District was credited with the following contributions to the OPEB plans:

| | Meas | urement Period | | Fiscal Year |
|--------------------------------|------|----------------|----|---------------|
| | | July 1, 2021 | | July 1, 2022 |
| | | to | | to |

| | * | 4 005 000 | • | 400 |
| Employer contributions - ARHCT | \$ | , , | \$ | 429 |
| Employer contributions - RMP | | 348,497 | | 372,408 |
| Employer contributions - ODD | | 33,592 | | 34,239 |
| Total contributions | \$ | 2,377,957 | \$ | 407,076 |

OPEB Assets, Liabilities, **OPEB** Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to **OPEBs**

At June 30, 2023, the amounts recognized by the District as its proportionate share of the net OPEB (asset) liability, the related State of Alaska support, and the total portion of the net OPEB (asset) liability that was associated with the District were as follows:

| | PERS | TRS |
|---|-----------------------|--------------|
| District's proportionate share of NOL (asset) - ARHCT | \$ (23,668,111) \$ | (37,075,052) |
| District's proportionate share of NOL (asset) - RMP | (583,114) | (1,651,659) |
| District's proportionate share of NOL (asset) - ODD | (625,138) | (516,118) |
| Total District's proportionate share of NOL (asset) | (24,876,363) | (39,242,829) |
| State's proportionate share of ARHCT NOL associated with the District | (6,763,750) | (47,683,553) |
| Total net OPEB liability (asset) | \$ (31,640,113) \$ | (86,926,382) |

Notes to the Basic Financial Statements June 30, 2023

The total net OPEB (asset) liability for the June 30, 2022 measurement date was determined by an actuarial valuation as of June 30, 2021 which was rolled forward to June 30, 2022. The District's proportion of the net

OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plans relative to the projected contributions of all participating entities, actuarially determined.

| PERS | June 30, 2021 Measurement Date Employer Proportion | June 30, 2022 Measurement Date Employer Proportion | Change | | | | | | | | |
|--|---|---|-----------|--|--|--|--|--|--|--|--|
| District's proportionate share of the net OPEB liability (asse | t): | | | | | | | | | | |
| ARHCT | 1.43952% | 1.20291% | -0.23661% | | | | | | | | |
| RMP | 1.70705% | 1.67899% | -0.02806% | | | | | | | | |
| ODD | 1.44970% | 1.42602% | -0.02368% | | | | | | | | |
| | June 30, 2021 Measurement Date Employer | June 30, 2022 Measurement Date Employer | | | | | | | | | |
| TRS | Proportion | Proportion | Change | | | | | | | | |
| District's proportionate share of the net OPEB liability (asse | | | | | | | | | | | |
| ARHCT | 5.58124% | 4.22991% | -1.35133% | | | | | | | | |
| RMP | 9.12255% | 8.52865% | -0.59390% | | | | | | | | |
| ODD | 9.14138% | 8.54500% | -0.59638% | | | | | | | | |

For the year ended June 30, 2023, the District recognized a reduction of OPEB expense of \$(34,945,696) for PERS and \$(70,585,167) for TRS. In addition, the District recognized a reduction of revenue

equal to the nonemployer portion of total OPEB expense of \$(2,297,598) and \$(11,447,068) for PERS and TRS, respectively.

Notes to the Basic Financial Statements June 30, 2023

At June 30, 2023 the District reported deferred outflows and deferred inflows of resources related to PERS OPEB from the following sources:

| PERS - Deferred Outflow of Resources | | ARHCT | | RMP | | RMP ODD | | Total |
|---|----------|-------------|----|-----------|----------|-----------|----|-------------|
| Difference between expected and actual experience | \$ | | \$ | 28,905 | \$ | | \$ | 28,905 |

| Total amortization | \$ 3,276,533 | \$ | (520,375) | \$ | (60,085) | \$ 2,696,073 |

Notes to the Basic Financial Statements June 30, 2023

Actuarial Assumptions

The total net OPEB liability for the June 30, 2022 measurement date was determined by an actuarial valuation as of June 30, 2021, which was rolled forward to June 30, 2022. The actuarial assumptions used in

the June 30, 2022 actuarial valuation were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2017, resulting in changes in actuarial assumptions adopted by the Alaska Retirement Management Board in January 2019 to better reflect expected future experience.

| Inflation rate | 2.50% |
|---------------------------------|---|
| Salary increases | Graded by service, from 7.00% to 2.85% for teachers. For all others, increases range from 6.75% to 2.85% based on service. |
| Investment rate of return | 7.25%, net of pension plan investment expenses. This is based on average inflation rate of 2.50% and a real rate of return of 4.75%. |
| Healthcare cost trend rates (a) |) Pre-65 medical: 7.0% grading down to 4.5% Post-65 medical: 5.4% grading down to 4.5% Prescription drugs: 8.0% grading down to 4.5% Employer group waiver program: 8.0% grading down to 4.5% |
| Mortality | Pre-commencement mortality rates were based on the Pub-2010 Teachers Employee table and General Employee table, amount-weighted, and projected with MP-2021 generational improvement. Deaths are assumed to result from occupational causes 15% of the time for teachers and 35% of the time for all others. |
| | Post-commencement mortality rates for health retirees were based on the Pub-2010 Teacher Retiree table and General Retiree table, amount-weighted, and projected with MP-2021 generational improvement. |
| | Post-commencement mortality rates for disabled retirees were based on 97% of the Pub-2010 Teachers Retiree table and the Pub-2010 Non-Safety Disabled Retiree table, amount-weighted, and projected with MP-2021 generational improvement. |
| | Post-commencement mortality rates for teacher beneficiaries were based on 100% of male and 95% of female rates and for all other other beneficiaries were based on 102% of male and 108% of female rates of the Pub-2010 Contingent Survivor |
| | table, amount-weighted, and projected with MP-2021 generational improvements. These rates are applied only after the death of the original member. |

(a) Applicable to retiree medical and death and disability only

(b) Applicable to death and disability only

Notes to the Basic Financial Statements June 30, 2023

Long-term Expected Rate of Return

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, which is based on the nature and mix of current and expected plan investments, and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation as of June 30, 2022 are summarized in the following table (note that the rates shown below exclude the inflation component):

Long Term Expected Real Rate of Return

| Assel Class | Long-Term Expected Real Rate of Return |
|--------------------------|--|
| Broad domestic equity | 6.51% |
| Global equity (non-U.S.) | 5.70% |
| Aggregate bonds | 0.31% |
| Opportunistic | 0.00% |
| Real Assets | 3.71% |
| Private equity | 9.61% |
| Cash equivalents | -0.50% |

Discount Rate

Accet Class

The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employer and nonemployer contributions will continue to follow the current funding policy, which meets State statutes. Based on those assumptions, the OPEB plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability in accordance with the method prescribed by GASB Statement No. 67 and GASB Statement No. 74.

Sensitivity of the Net OPEB (Asset) Liability to Changes in the Discount Rate

The following presents the net OPEB (asset) liability and the District's proportionate share of the net OPEB (asset) liability as of June 30, 2023, calculated using the discount rate of 7.25 percent, as well as what the District's proportionate share of the net OPEB (asset) liability would be if it were calculated using a discount rate that is one-percentage-point lower or onepercentage-point higher than the current rate:

| | Current | | | | | | |
|---|---------------|----------|----------------|----------|-----------------|----------|-----------------|
| | Proportionate | 1 | % Decrease | E | Discount Rate | | 1% Increase |
| PERS | Share | <u> </u> | (6.25%) | <u> </u> | (7.25%) | <u> </u> | (8.25%) |
| Net OPEB liability (asset) - ARHCT | 100.00% | \$(| 1 169 018 000) | \$ | (1 967 566 000) | \$ | (2,637,220,000) |
| Net OPEB liability (asset) - RMP | 100.00% | • | 66,086,000 | \$ | (34,730,000) | | |
| Net OPEB liability (asset) - ODD | 100.00% | \$ | (41,295,000) | \$ | (43,838,000) | \$ | (45,827,000) |

Notes to the Basic Financial Statements (continued) June 30, 2023

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plans' fiduciary net position is available in the separately issued PERS and TRS financial reports.

Note 14: Defined Contribution (DC) OPEB Plans

PERS and TRS defined contribution members also participate in the Health Reimbursement Arrangement Plan (HRA Plan). The HRA Plan allows medical care expenses to be reimbursed from individual savings accounts for eligible persons. The HRA Plan became effective July 1, 2006 at which time contributions by employers began. \$86.04 per pay period for full-time employees. For PERS part-time employees the flat dollar amount was \$1.43 per hour and the rate for TRS part-time employees is based on the contract percentage worked multiplied by the flat dollar amount per bi-weekly pay period for full-time employees.

Contribution Rate

The employer contribution is a flat dollar amount per employee based on 3.00 percent of the average annual compensation of all employees of all employers in the plan. The flat dollar amount for fiscal year 2023 was

Annual Postemployment Healthcare Cost

In 2022, the District contributed \$1,257,976 in DC OPEB costs to PERS and \$1,235,348 in DC OPEB costs to TRS. These amounts have been recognized as expense/expenditures.

Note 15: Fund Balance/Appropriation Lapse

Fund Balance Compliance

Borough Ordinance 7.04.125 requires the District to not accumulate unrestricted fund balances, for all funds from all sources, greater than 40 percent of the Borough's July 1st direct appropriation to education for that fiscal year, exclusive of any impact aid advance and without regard to any proration among sources. It further explains what types of unrestricted funds are excluded from the permitted accumulation calculation, such as the local programs special revenue fund and student activities special revenue fund. The excess over the permitted accumulation amount shall be deposited to the Borough's maintenance reserve fund

Note 16: Contingencies

School operations are monitored by the Alaska Department of Education and Early Development; therefore, revenues from State of Alaska sources may be subject to subsequent adjustment. Additionally, amounts received or receivable from grantor agencies are subject to audit by grantor agencies. for District Facilities by the December following the completion of the annual audit.

Title 14 of Alaska State Statutes limits an accumulation of fund balance in the general fund to less than ten percent of current year expenditures. Any amount in excess of this limit will reduce the subsequent year's state foundation aid. Alaska Administrative Code defines six items that are not subject to the fund balance accumulation threshold. A statement of compliance required by the Code can be found in the Supplemental Reports section of this annual comprehensive financial report. For the 2023 fiscal year the Alaska State Statue was waived.

Any disallowed claims, including amounts already collected, would become a liability of the general fund. The District, in the normal course of its activities, is involved in various claims and litigation proceedings and seeks to accrue amounts it considers sufficient to cover settlements that may be payable as a result of unfavorable outcomes.

Notes to the Basic Financial Statements June 30, 2023

Note 17: New Accounting Pronouncement

In 2023, the District implemented GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs). The requirements of this Statement apply to the financial statements of all state and local governments.

The new standard requires the District to recognize a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability. It establishes

a single model for software subscriptions based on the underlying principle that software subscriptions are financings of the right to use an underlying asset for a period of time. Under this Statement, a lessee is required to recognize a liability and an intangible rightto-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about the District's leasing activities. Notes to the Required Supplementary Information June 30, 2023

Note 1: Budgetary Comparison Schedules

General Budget Policies

The District follows these procedures for adoption of the budget for the general fund and special revenue funds:

- 1. Approval by the Fairbanks North Star Borough School District Board of Education (Board of Education), with community input.
- 2. Submission to the Fairbanks North Star Borough Assembly (Borough Assembly) for approval of the total budget and appropriation of the local contribution. The deadline for submitting the budget to the Borough Assembly is May 1, in accordance with Alaska Statute section 14.14.060(c) Compiled School Laws. Borough ordinance 7.12.020 however, requires the Board of Education to submit their formally adopted budget to the Borough Assembly by April 1 of each The Borough Assembly must vear. furnish the Board of Education with a statement of the local appropriation not more than thirty days after the date on which it first receives the education budget. After the Borough Assembly has set the local appropriation, the Board of Education will again review the budget to make any changes necessitated by the Assembly's action. An opportunity for a public hearing on proposed changes will be provided and at least 24 hours' notice will be given of the meeting at which action is proposed.
- 3. Submission to the Commissioner of the State of Alaska, Department of Education and Early Development by July 15, in accordance with Alaska Statute section 14.07.170(2) Compiled School Laws.

The original adopted budget for the year ended June 30, 2023, was prepared on the "program" level of

budgetary control for information purposes. The budget in these financial statements was approved by the Board of Education by fund and function to comply with the Alaska Department of Education and Early Development Uniform Chart of Accounts and Account Code Descriptions for Public School Districts, (2018 edition).

Formal budgetary integration is employed as a management control device during the year for the general fund, special revenue funds, and capital project funds. An annual budget is legally adopted for the general fund. Annual budgets are legally adopted for all special revenue funds except the School Activity special revenue fund. Capital projects are controlled through project budgets. Adopted project budgets provide authorization to complete projects that extend beyond one fiscal year. Multi-fiscal year projects are controlled by comparing project-to-date expenditures with project budgets. Differences in accounting for encumbrances, as described later, exist between the basis of accounting used for budgetary purposes and that used for reporting in accordance with U.S. generally accepted accounting principles (GAAP).

The objective of the School District's budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Resources are allocated to and accounted for in individual funds, based upon the purposes for which those funds were created. Transfers between programs in excess of \$100,000 are authorized by the Board of Education. Therefore, the legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the object level. All other transfers are authorized by the superintendent and reported monthly to the Board of Education.

Budgetary Comparison Schedules

The budgetary comparison schedules are presented on the modified accrual basis of accounting.

Notes to the Required Supplementary Information (continued) June 30, 2023

Note 2: Changes in Benefit Terms

There were no changes in benefit terms from the prior measurement period.

Note 3: Changes in Assumptions, Methods, and Benefits Since the Prior Valuation

Defined Benefit Pension and Postemployment Healthcare Benefit Plan

Changes in Methods Since the Prior Valuation – June 30, 2021 to June 30, 2022

• There were no changes in actuarial methods since the prior valuation.

Changes in Assumptions Since the Prior Valuation – June 30, 2021 to June 30, 2022

- Healthcare claim costs are updated annually.
- The amount included in the Normal Cost for administrative expenses was updated to reflect the most recent two years of actual administrative expenses paid from plan assets.

Changes in Benefit Provisions Since the Prior Valuation – June 30, 2021 to June 30, 2022

• Starting in 2022, prior authorization will be required for certain specialty medications for all participants, and certain preventative benefits for pre-Medicare participants will not be covered by the plan.

Defined Contribution Occupational Death and Disability and Retiree Medical Benefits Plans

Changes in Methods Since the Prior Valuation – June 30, 2021 to June 30, 2022

• There were no changes in actuarial methods since the prior valuation.

Changes in Assumptions Since the Prior Valuation – June 30, 2021 to June 30, 2022

- Healthcare claim costs are updated annually.
- The amount included in the Normal Cost for administrative expenses was updated to reflect the most recent two years of actual administrative expenses paid from plan assets.

Changes in Benefit Provisions Since the Prior Valuation – June 30, 2021 to June 30, 2022

- There have been no changes in benefit provisions valued since the prior valuation.
- Starting in 2022, prior authorization will be required for certain specialty medications.

Financial Section

Special Revenue Funds

Student Transportation: this program provides transportation for regular and special education students that are bused to school.

Federal Programs: accounts for programs that are funded by federal sources received directly from the federal government or passed through the State of Alaska.

Food Service: accounts for the operations of the School District's Student Nutrition program. Financing is provided by user fees and proceeds received under the National School Lunch and Breakfast programs.

Local Programs: accounts for transactions of programs funded by nonfederal and nonstate sources.

State Programs: accounts for programs that are funded by nonfederal State of Alaska sources.

School Activities: accounts for transactions of district controlled school activity programs. School activity funds are not budgeted and are non-lapsing.

Source: Fairbanks North Star Borough Annual Comprehensive Financial Report for the year ended June 30, 2022 Historically, information for the most recent calendar year is not available until after the publication date of the District Annual Comprehensive Financial Report.

Note: Property taxes are assessed on a calendar year basis. Estimated actual values are derived using the Stateconfirmed sales ratio plus State-assessed oil and gas property values. Assessed values are from certified assessment rolls of the Fairbanks North Star Borough. All values are for real property only unless otherwise noted.

Prior year amounts have been updated to more accurately display assessed values by each catetgory shown.

(a) Oil and gas property assessments, for all calendar years, are based on State Assessment Review Board (SARB) values. Valuations do not reflect subsequent adjustments.

(b) This column is the areawide mill rate.

(c) This column includes tax-exempt property.

(d) This data is not currently available.

This Page Intentionally Left Blank.

Source: Fairbanks North Star Borough Annual Comprehensive Financial Report for the year ended June 30, 2022 Historically, information for the most recent calendar year is not available until after the publication date of the District Annual Comprehensive Financial Report.

Note: Alaska Statute 29.45.090 limits the amount of taxes levied to 3% of the assessed value of the property within the municipality. Furthermore, no municipality, or combination of municipalities occupying the same geographic area, may levy taxes which result in tax revenues from all sources exceeding \$1,500 a year for each person residing in the Borough or which exceed the product of 225% of the average per capita full and true value in the state multiplied by the number of residents of the taxing municipality. However, there is no taxing limitation for debt service per Alaska Statute 29.45.100. With some exceptions, the total amount of tax that can be levied during a year cannot exceed the total amount approved for the preceding year by more than a percentage determined by adding the percentage increase in the Consumer Price index for Fairbanks from the preceding year per FNSBC 8.04.290.

Air Park S.A. dissolved effective 3/3/2020

Bear's Den S.A and Chena Hot Springs II S.A. dissolved effective 11/05/2019

(a) The Borough direct and overlapping except service areas total rate applies to all areas of the Borough outside the cities of Fairbanks and North Pole. Some neighborhoods of the Borough are also in one or more service area(s) and pay service area rates in addition. Other areas of the Borough, including the cities of Fairbanks and North Pole, are not in any service area.

(b) Denali View S.A was formerly known as McKinley S.A

(c) Goldstream Moose Creek S.A. authorized a road project under a differential tax zone beginning in 2017.

(d) Murphy S.A. authorized a road project under a differential tax zone starting in 2012. An additional road project was authorized in 2015.

(e) Olympic S.A was formerly known as Hopeless S.A

(f) Potlatch S.A. authorized a road project under a differential tax zone beginning in 2008.

Source: Fairbanks North Star Borough Annual Comprehensive Financial Report for the year ended June 30, 2022 Historically, information for the most recent calendar year is not available until after the publication date of the District Annual Comprehensive Financial Report.

Notes: Only the areawide taxes levied by the Borough are included in this table. Collections for non-areawide functions, service areas, and other governmental units are not included.

Penalties, interest and legal fees are not included in the tax amounts above.

Farm use lands that have been sold, leased, or otherwise disposed of have been excluded from the tax amounts shown above.

(a) Taxes levied for the fiscal year are the taxes levied after local exemptions, but before state mandated exemptions are applied.

(b) Net tax levy is the taxes levied for the fiscal year after the application of state exemptions. Fiscal year 2011 includes a special retroactive State adjustment for pipeline properties.

(c) For the oil and gas properties, taxes levied for a fiscal year are based on State Assessment Review Board (SARB) assessed values. Valuations do not reflect subsequent adjustments.

Teacher Salary Information Last Ten Fiscal Years

| Fiscal Year | Entry Level cal Year Salary | | Maximum Teacher Salary | Average Teacher Teacher Salary | Percent of Teachers at Maximum on Column(s) |
|-------------|--------------------------------|--------|---------------------------|--------------------------------------|---|
| | | (a) | (b) | (c) | (d) |
| 2014 | \$ | 46,891 | \$ 91,122 | \$ 73,258 | 46% |
| 2015 | | 47,478 | 92,261 | 74,143 | 49% |
| 2016 | | 48,308 | 93,876 | 75,637 | 49% |
| 2017 | | 48,308 | 96,116 | 77,478 | 52% |
| 2018 | | 48,791 | 97,077 | 78,838 | 47% |
| 2019 | | 49,279 | 98,048 | 79,810 | 43% |
| 2020 | | 49,772 | 99,028 | 78,740 | 44% |
| 2021 | | 50,269 | 100,019 | 78,370 | 46% |
| 2022 | | 51,275 | 102,019 | 79,840 | 42% |
| 2022 | | 51,275 | 102,019 | 80,480 | 46% |

(a) Entry level salary represents a teacher with a bachelor's degree and no experience.

(b) Maximum teacher salary represents teachers filling a position which requires a master's degree and a certification for a therapist or psychologist position, or teachers who hold a master's degree with National Board Certification.

(c) Average teacher salary is based on a scattergram of contracted certificated salaries for that school year.

- (d) The teacher salary schedule has six columns:
 - 1. Bachelor's
 - 2. Bachelor's plus 18 credits
 - 3. Master's or Bachelor's plus 36 credits
 - 4. Master's plus 18 credits
 - 5. Master's plus 36 credits
 - 6. Master's plus specified certification

The percent of teachers at maximum represents teachers topped out at each of those columns.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

Members of the School Board Fairbanks North Star Borough School District Fairbanks, Alaska

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Fairbanks North Star Borough School District, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Fairbanks North Star Borough School District's basic financial statements, and have issued our report thereon dated November 9, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Fairbanks North Star Borough School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Fairbanks North Star Borough School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Fairbanks North Star Borough School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Fairbanks North Star Borough School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

<u>Report on Compliance For Each Major Federal Program and Report on Internal Control Over</u> <u>Compliance as Required by the Uniform Guidance</u>

Independent Auditor's Report

Members of the School Board Fairbanks North Star Borough School District Fairbanks, Alaska

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Fairbanks North Star Borough School District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Fairbanks North Star Borough School District's major federal programs for the year ended June 30, 2023. Fairbanks North Star Borough School District's major federal programs are identified in the summary of auditor's results section of the accompanying federal schedule of findings and questioned costs.

In our opinion, Fairbanks North Star Borough School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (Government Auditing Standards); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Fairbanks North Star Borough School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Fairbanks North Star Borough School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Fairbanks North Star Borough School District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Fairbanks North Star Borough School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Fairbanks North Star Borough School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design
 and perform audit procedures responsive to those risks. Such procedures include examining, on a
 test basis, evidence regarding Fairbanks North Star Borough School District's compliance with the
 compliance requirements referred to above and performing such other procedures as we
 considered necessary in the circumstances.
- Obtain an understanding of Fairbanks North Star Borough School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Fairbanks North Star Borough School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance with a type of compliance is a deficiency or a combination of deficiencies, in internal control over compliance is in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2023

Note 1: Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the Fairbanks North Star Borough School District (District) under programs of the federal government for the year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Note 2: Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through grantor identifying numbers are presented where available.

Note 3: Indirect Cost

The Alaska Department of Education & Early Development (DEED) has been delegated the authority, by the U.S. Department Education, to approve *Restricted Federal Indirect Cost Rate Proposals* pursuant to delegation agreement number 2021-012, effective until June 30, 2023. The District received a restricted Federal indirect cost rate from DEED for fiscal year 2023. As a result, the District elected not to use the 10-percent de minimus indirect cost rate allowed under the Uniform Guidance.

Note 4: U.S. Department of Agriculture (USDA) Food Entitlement

The USDA provides States with a USDA Foods entitlement, at a nominal cost, and a fresh fruit and vegetable entitlement, at no cost, for use in preparing school lunches. The USDA utilizes the U.S. Department of Defense as a procurement agent for the fresh fruit and vegetable entitlement program. Because governmental funds are uniquely concerned with flows of *financial* resources, USDA food entitlements are recorded at cost rather than fair market value in governmental funds. Food entitlements are considered expended when consumed in the school lunch program. However, the noncash value of food entitlements received in fiscal year 2023 is listed as an expenditure on the schedule of expenditures of federal awards.

Report on Compliance for Each Major State Program and Report on Internal Control Over Compliance as Required by the State of Alaska Audit Guide and Compliance Supplement for State Single Audits

Independent Auditor's Report

Members of the School Board Fairbanks North Star Borough School District Fairbanks, Alaska

Report on Compliance for Each Major State Program

Opinion on Each Major State Program

We have audited Fairbanks North Star Borough School District's compliance with the types of compliance requirements identified as subject to audit in State of Alaska Audit Guide and Compliance Supplements that could have a direct and material effect on each of Fairbanks North Star Borough School District's major state programs for the year ended June 30, 2023. Fairbanks North Star Borough School District's major state programs are identified on the Schedule of State Financial Assistance.

In our opinion, Fairbanks North Star Borough School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2023.

Basis for Opinion on Each Major State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (Government Auditing Standards); and the audit requirements in the State of Alaska Audit Guide. Our responsibilities under those standards and the State of Alaska Audit Guide are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Fairbanks North Star Borough School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major state program. Our audit does not provide a legal determination of Fairbanks North Star Borough School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Fairbanks North Star Borough School District's state programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Fairbanks North Star Borough School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and State of Alaska Audit Guide requirements will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Fairbanks North Star Borough School District's compliance with the requirements of each major state program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the State of Alaska Audit Guide, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design
 and perform audit procedures responsive to those risks. Such procedures include examining, on a
 test basis, evidence regarding Fairbanks North Star Borough School District's compliance with the
 compliance requirements referred to above and performing such other procedures as we
 considered necessary in the circumstances.
- Obtain an understanding of Fairbanks North Star Borough School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the State of Alaska requirements, but not for the purpose of expressing an opinion on the effectiveness of Fairbanks North Star Borough School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the State of Alaska. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of State Financial Assistance For the Year Ended June 30, 2023

Note 1: Major Program Notation

* denotes a major program

Note 2: Basis of Presentation

The accompanying schedule of state financial assistance (the "Schedule") includes the state award activity of the Fairbanks North Star Borough School District under programs of the State of Alaska for the year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Because the Schedule presents only a selected portion of the operations of Fairbanks North Star Borough School District, it is not intended to and does not present the financial position, changes in net position or cash flows of Fairbanks North Star Borough School District.

Note 3: Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized in accordance with the requirements of the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Grantor's identifying numbers are presented where available.

Note 4: Award to Subrecipients

Fairbanks North Star Borough School District did not have any subrecipients for the year ended June 30, 2023.

Report on the Total Costs for Tuition Purposes

Independent Auditor's Report

Members of the School Board Fairbanks North Star Borough School District Fairbanks, Alaska

Qualified Opinion

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Fairbanks North Star Borough School District (District), a component unit of the Fairbanks North Star Borough, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Fairbanks North Star Borough School District's basic financial as listed in the table of contents. We have also audited the accompanying State Tuition Rate Report (Form 05-96-024) of Fairbanks North Star Borough School District for the year ended June 30, 2023.

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we observed the taking of the student census (counts), the aforementioned report presents fairly, in all material respects, the total local cost for tuition purposes of Fairbanks North Star Borough School District for the year ended June 30, 2023, in conformity with the requirements of the State of Alaska, Department of Education and Early Development.

Basis for Qualified and Unmodified Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fairbanks North Star Borough School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Matters Giving Rise to the Qualified Opinion

We did not observe the taking of the student census (counts) which were used in determining the average daily membership.

Members of the School District Fairbanks North Star Borough School District

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the tuition rate report in accordance with the accounting principles generally accepted in the United States of America, and the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the tuition rate report that is free from material misstatement, whether due to fraud or error.

In preparing the tuition rate report, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fairbanks North Star Borough School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the tuition rate report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence that judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the tuition rate report, whether due to fraud
 or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the tuition
 rate report.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fairbanks North Star Borough School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the tuition rate report.
- Conclusion whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fairbanks North Star Borough School District's ability to continue as a going concern for a reasonable period of time.

Members of the School District Fairbanks North Star Borough School District

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Purpose of this Report

This report is intended solely for the information and use of the school board and management, others within the entity of Fairbanks North Star Borough School District and the State of Alaska Department of Education and Early Development and is not intended to be, and should not be, used by anyone other than these specified parties.
