### Test Descriptions

<b>FastBridge Assessment:</b> Fast Assessments are short tests that provide teachers with learning data. Tests are computer adaptive, which means they adjust to each answer your child provides. Your child may take a Fast test for early literacy, math, reading, or other subjects of their teacher's choice. Each test takes approximately 30 minutes to complete.
<b>MCA:</b> The MCA tests for reading, math, and science are state and federal accountability tests used to determine instructional effectiveness. Reading tests take 2-3.5 hours to complete. Math tests take 1.5-2.5 hours to complete. Science tests take 1.75-2 hours to complete. Preliminary results are shared in May. Final results are shared in the fall.
<b>MTAS:</b> The MTAS tests for reading, math, and science are state and federal accountability tests used to determine instructional effectiveness for select special education students. The tests take 30-90 minutes per subject. Results are shared in the fall.
<b>ASVAB:</b> The Armed Services Vocational Aptitude Battery (ASVAB) is a multiple choice test, administered by the United States Military Entrance Processing Command, used to determine qualification for enlistment in the United States Armed Forces.
<b>ACT+Writing:</b> The ACT+Writing is offered to all juniors (and seniors who didn't test as juniors) to meet state requirements for college entrance exams. The test takes 4 hours to complete. Results are shared via ACT in summer.
<b>PSAT:</b> The PSAT is an optional college entrance exam and National Merit Scholar qualifying assessment offered to all juniors. The test takes 2.75 hours to complete. Results are provided via the College Board in late fall.
