Career Assessments

Career assessments are tools that are designed to help individuals understand how a variety of personal attributes (i.e., data values, preferences, motivations, aptitudes and skills), impact their potential success and satisfaction with different career options and work environments

Naviance provides tools to prepare students for the future.

They offer a variety of assessments to assist in identifying the most suitable career for student personality type.

To access:

Login at Naviance.com

Click on **START ASSESSMENT** for each resource.

Health classes focus on *AchieveWorks Personality* and *Career Cluster Finder*. Additional self-discovery assessments can be taken independently anytime.

Results from these assessments can be very helpful to target college and career choices.

Career Cluster Finder

This report displays National Career Clusters that are a best fit for you based on your interests and personal qualities. National Career Clusters are a framework that organizes careers into Clusters and Pathways. These often align to academic programs and majors at schools and post-secondary institutions.

Career Interest Profiler

The Career Interest Profiler helps you find careers by mapping your interests to six basic types of personalities, together called the Holland Code. The higher your score, the more you are like that type.*

Intelligences®

Learning and Productivity®

These will help you know how you can play to your strengths.

Personality®

StrengthsExplorer®

This report displays your learning and productivity preferences. The preferences are grouped into categories. Each category requires a slightly different approach to improve your learning and productivity.

These will help you unpack why you think and react to events and activities in certain ways.*

StrengthsExplorer® will help you think about your talents - the ways in which you naturally think, feel, or behave.

* The Myers-Briggs Type Indicator® (MBTI®) and the Holland Self Directed Search (SDS) are administered in health classes. Additional self-discovery assessments can be taken independently anytime.

What is a Career Cluster?

Naviance assessment results will include references to career clusters and pathways.

Career clusters are a way of grouping careers with common features and skills. Careers grouped into the same cluster typically require similar education and training. Exploring clusters can be a useful way to find a good career match, especially if you have general areas of interest but are not sure what specific careers match those interests. Career clusters can also help you better understand how your coursework in school can prepare you for certain types of careers

- > Tasks

Favorites for Future Reference

When viewing career descriptions, click on  to save careers that interest me in *My Favorites*

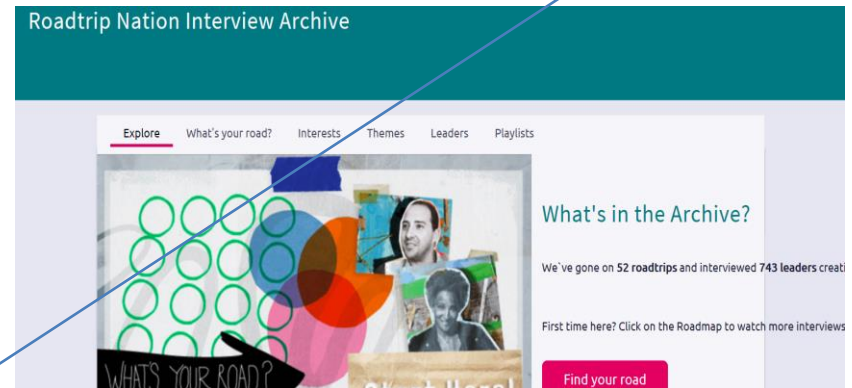

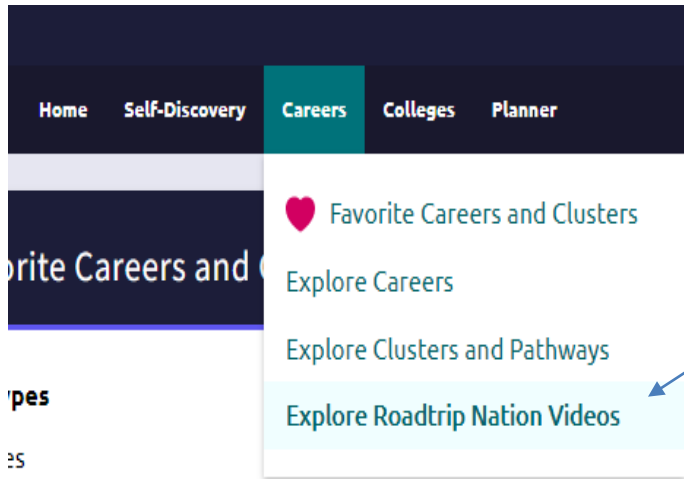

The screenshot shows a website interface with a dark blue header. The header contains navigation links: Home, Self-Discovery, Careers, Colleges, and Planner. On the right side of the header, there are icons for a heart (favorites), a plus sign, and an envelope. Below the header is a search bar with the placeholder text "college name" and a "SE" button. A blue arrow points from the text above to the heart icon in the "My Favorites" sidebar. The sidebar is titled "My Favorites" and contains three items:

-  COLLEGES
I'm thinking about
-  COLLEGES
I'm applying to
-  CAREERS AND CLUSTERS
