

**Make a Difference in a Students Life,  
Volunteer Today and Support Education**

# VOLUNTEER

Volunteers help extend the resources of our public school system by:

1. Supporting and assisting teachers and staff
2. Decreasing student/adult ratio
3. Allowing teachers and staff to devote more of their energy to the professional skills they are trained to do.

*This all helps to increase overall academic achievement and self-esteem of the students.*

*Volunteering enriches a child's experience at NRHEG and extends to their life as well.*

VOLUNTEER

*all that's missing is U!*
