 Parent Permission for Student Athletics Participation Medical History

Student's Last Name	First Name	School/Grade	Birth Date
Sport	Signature of Student Athlete	Date	

The school's athletic program is an integral part of the curriculum and school personnel have devoted great effort to assure that participating students are protected in every way possible. However, participation in athletics includes the risk of minor to severe injuries.

Participants have the responsibility to help reduce the chance of injury. Participants must obey all safety rules and regulations, report all physical problems to the coach or athletic trainer, follow a proper conditioning program and inspect protective equipment daily. Proper execution of skill techniques must be followed by every sport, and especially contact sports.

Please read and acknowledge each of the following statements.

- I consent to have my son/daughter represent his/her school in approved athletic activities except those excluded by the examining physician.
- I grant permission for my son/daughter to accompany the school team of which he/she is a member to out-of-town trips.
- In the event of an emergency requiring medical attention, I expect every reasonable attempt to be made to contact me. In case I cannot be reached, I grant permission for any immediate treatment deemed necessary by the attending physician and transfer of my son/daughter to a qualified medical facility. This authorization does not cover major surgery unless formally decreed prior to surgery by two licensed physicians or dentists.
- I agree not to hold the school, or anyone acting on its behalf, responsible for any injury occurring to my son/daughter in the proper course of such athletic activities or travel.
- I acknowledge that there are risks of physical injury involved in athletic participation which may result in minor to severe injury.
- I acknowledge that this activity is voluntary.
- I grant permission for my son/daughter to participate in pre-concussion testing prior to the start of practice and for post-concussion testing if applicable. (Mandatory to participate in contact and moderate contact sports.)

Medical examinations are to be completed by the student's physician. Reports must be made by the private physician on the Athletic Pre-participation Physical Examination Form approved by the Commissioner of Education and provided by the board of education. Students that do not have a private physician may request an examination by the school physician. All examinations must be completed within 365 days of the first day of practice.

I understand that the student athlete must refrain from practice or play while ill or injured, whether or not receiving medical treatment and during medical treatment until he or she is discharged from treatment. A signed statement from the attending physician is required for reentry.

I have read the Bulletin to Parents regarding competitive athletics on the back of this sheet.

In my opinion, there is no physical reason to prevent my son's/daughter's participation in the competitive athletics program. I therefore, give my permission for participation if he/she is approved by their physician and the school medical inspector and has appropriate documentation.
